However, a municipality has exclusive jurisdiction over bridges (subject to IC 8-16-3-1), streets, alleys, sidewalks, watercourses, sewers, drains, and public grounds inside its corporate boundaries, unless a statute provides otherwise.

(b) The area inside the corporate boundaries of a municipality comprises its territorial jurisdiction, except to the extent that a statute expressly authorizes the municipality to exercise a power in areas

outside its corporate boundaries.

(c) Whenever a statute authorizes a municipality to exercise a power in areas outside its corporate boundaries, the power may be exercised:

(1) inside the corporate boundaries of another municipality, only if both municipalities, by ordinance, enter into an agreement under IC 36-1-7; or

(2) in a county other than the county in which the municipal hall is located, but not inside the corporate boundaries of another municipality, only if both the municipality and the other county, by ordinance, enter into an agreement under IC 36-1-7.

(d) If the two (2) units involved under subsection (c) cannot reach an agreement, either unit may petition the circuit or superior court of the county to hear and determine the matters at issue. The clerk of the court shall issue notice to the other unit as in other civil actions, and the court shall hold the hearing without a jury. There may be a change of venue from the judge but not from the county. The petitioning unit shall pay the costs of the action.

IC 36-1-6-2

Action to bring compliance with ordinance conditions; expense as lien against property; enforcement of delinquent fees and penalties

Sec. 2. (a) If a condition violating an ordinance of a municipal corporation exists on real property, employees or contractors of a municipal corporation may enter onto that property and take appropriate action to bring the property into compliance with the ordinance. However, before action to bring compliance may be taken, all persons holding a substantial interest in the property must be given a reasonable opportunity of at least ten (10) days but not more than sixty (60) days to bring the property into compliance. Continuous enforcement orders (as defined in IC 36-7-9-2) can be enforced and liens may be assessed without the need for additional notice. If the municipal corporation takes action to bring compliance, the expenses incurred by the municipal corporation to bring compliance constitute a lien against the property. The lien attaches when notice of the lien is recorded in the office of the county recorder in which the property is located. The lien is superior to all other liens except liens for taxes, in an amount that does not exceed:

(1) ten thousand dollars (\$10,000) for real property that:

- (A) contains one (1) or more occupied or unoccupied single or double family dwellings or the appurtenances or additions to those dwellings; or
- (B) is unimproved; or

(2) twenty thousand dollars (\$20,000) for all other real property not described in subdivision (1).

(b) The municipal corporation may issue a bill to the owner of the real property for the costs incurred by the municipal corporation in bringing the property into compliance with the ordinance, including administrative costs and removal costs.

(c) A bill issued under subsection (b) is delinquent if the owner of the real property fails to pay the bill within thirty (30) days after the date of the issuance of the bill.

(d) Whenever a municipal corporation determines it necessary, the officer charged with the collection of fees and penalties for the municipal corporation shall prepare:

(1) a list of delinquent fees and penalties that are enforceable under this section, including:

- (A) the name or names of the owner or owners of each lot or parcel of real property on which fees are delinquent;
- (B) a description of the premises, as shown on the records of

the county auditor; and

(C) the amount of the delinquent fees and the penalty; or

(2) an instrument for each lot or parcel of real property on which the fees are delinquent.

(e) The officer shall record a copy of each list or each instrument with the county recorder, who shall charge a fee for recording the list or instrument under the fee schedule established in IC 36-2-7-10.

(f) The amount of a lien shall be placed on the tax duplicate by the auditor. The total amount, including any accrued interest, shall be collected in the same manner as delinquent taxes are collected and shall be disbursed to the general fund of the municipal corporation.

(g) A fee is not enforceable as a lien against a subsequent owner of property unless the lien for the fee was recorded with the county recorder before conveyance to the subsequent owner. If the property is conveyed before the lien is recorded, the municipal corporation shall notify the person who owned the property at the time the fee became payable. The notice must inform the person that payment, including penalty fees for delinquencies, is due not later than fifteen (15) days after the date of the notice. If payment is not received within one hundred eighty (180) days after the date of the notice, the amount due may be considered a bad debt loss.

(h) The municipal corporation shall release:

(1) liens filed with the county recorder after the recorded date of conveyance of the property; and

(2) delinquent fees incurred by the seller;

upon receipt of a written demand from the purchaser or a representative of the title insurance company or the title insurance company's agent that issued a title insurance policy to the purchaser. The demand must state that the delinquent fees were not incurred by the purchaser as a user, lessee, or previous owner and that the purchaser has not been paid by the seller for the delinquent fees.

(i) The county auditor shall remove the fees, penalties, and service charges that were not recorded before a recorded conveyance to a subsequent owner upon receipt of a copy of the written demand under subsection (h).

Sec. 12. (a) The leasing agent may, in anticipation of the acquisition of a site on which a structure is to be constructed, acquired, improved, remodeled, or expanded, enter into a contract to lease a structure from the lessor before the actual acquisition of the site and the construction, acquisition, improvement, remodeling, or expansion of the structure. The lease may not provide for payment of any rental by the leasing agent if a new structure is to be constructed until it is complete and ready for occupancy. However, the lease may provide for payment of lease rental for any part of the structure to be used by the political subdivision or its agency for any period during improvement, remodeling, or expansion of the structure.

(b) A leasing agent may, in anticipation of the acquisition of a system, enter into a lease with the lessor before the completion of the acquisition. A leasing agent may, in anticipation of the acquisition or construction of a transportation project, enter into a lease with the lessor before the completion of construction or acquisition. Such a lease must require the payment of lease rental by the lessee or lessees to begin when acquisition of the system, or a discrete, functional part of the system, or acquisition or construction of the transportation project, has been completed and is ready for use, but not before that time. An opinion or report of an independent expert that the system, or a discrete, functional part of the system, or a transportation project is complete and ready for use is conclusive and binding on all parties and on all taxpayers of an eligible entity.

(c) The lease may provide that the leasing agent shall pay all taxes and assessments, maintain insurance for the benefit of the lessor, and assume all responsibilities for repair and alterations during the term of the lease.

(d) The leasing agent may require the lessor, as a condition of entering into a lease, to furnish a bond guaranteeing the lease in an amount specified by the leasing agent.

(b) The notice must state the date, place, and hour of the hearing and provide a summary of the principal terms of the lease. Additionally, the notice must contain the name of the proposed lessor, the location and character of the structure, transportation project, or system to be leased, the rental to be paid, and the number of years the lease is to be in effect.

(c) The proposed lease, drawings, plans, specifications, and estimates for the structure, or description and cost estimate of the transportation project or system, are open to public inspection during the ten (10) day period and at the hearing.

(d) All persons are entitled to be heard at the hearing as to whether the execution of the lease is necessary and whether the rental is fair and reasonable for the proposed structure or system. After the hearing, which may be adjourned from time to time, the leasing agent may modify, confirm, or rescind the proposed lease, but the rental as set out in the published notice may not be increased. The leasing agent may rely on the testimony of independent experts as to the fairness and reasonableness of the lease.

(e) If the execution of the lease as originally agreed upon or as modified is authorized by the leasing agent, the leasing agent shall give notice of the execution of the lease by publication in accordance with IC 5-3-1.

As added by Acts 1981, P.L.57, SEC.36. Amended by P.L.74-1987, SEC.20; P.L.37-1988, SEC.16; P.L.343-1989(ss), SEC.19; P.L.25-1995, SEC.82.

The petition must state the taxpayer's objections and the reasons why the lease is unnecessary or unwise.

(b) The county auditor shall immediately certify a copy of the petition, together with other data necessary to present the questions involved, to the department of local government finance. Upon receipt of the certified petition and other data, the department of local government finance shall fix a time and place for the hearing of the matter. The hearing shall be held not less than five (5) nor more than thirty (30) days after the receipt of the certified documents.

(c) The hearing shall be held in the political subdivision where the petition arose.

(d) Notice of the hearing shall be given by the department of local government finance to the leasing agent and to the first ten (10) taxpayer petitioners listed on the petition by a letter signed by the commissioner or deputy commissioner of the department. The letter shall be sent to the first ten (10) taxpayer petitioners at their usual place of residence at least five (5) days before the date of the hearing. (b) The price of a purchase under this section must be at least the sum of:

- (1) the principal amount of the outstanding revenue bonds;
- (2) interest on those bonds to the maturity date of bonds not subject to redemption before maturity and to the first redemption date of bonds subject to redemption before maturity; and
- (3) the redemption premiums on all bonds subject to redemption before maturity.

An amount not less than this sum shall be deposited in trust for the payment of the outstanding revenue bonds in a manner consistent with the ordinance or trust agreement under which the bonds were issued. The money deposited in the trust, and investment income from it, not required for the payment of the bonds, shall be applied to the payment of the obligations issued by the lessor for the acquisition of the structure, and to a corresponding reduction of rentals for the leasing agent.

(c) Each lease entered into under this section must include an option permitting the political subdivision or agency to purchase the

structure at a price not exceeding the amount required to retire all outstanding obligations issued by the lessor to acquire the property covered by the lease. The lease and sale of a parking facility under this section does not preclude the lease of air rights.

(c) The appropriation and levy may be reduced in any year to the extent other money or any reimbursement under IC 36-7-14-39 are pledged or available for the payment of the lease rental.

(d) A political subdivision or agency that executes a lease for a transportation project may only levy a tax under this section for an amount necessary to restore debt service reserve funds and may not levy a tax for lease rental payments.

IC 36-1-11-4

Sale or transfer of real property; procedure

Sec. 4. (a) A disposing agent who wants to sell or transfer real property must comply with this section, except as permitted by section 4.1, 4.2, 5, 5.5, 5.7, 5.9, 8, 14, 15, or 18 of this chapter.

(b) The disposing agent shall first have the property appraised by two (2) appraisers. The appraisers must be:

- (1) professionally engaged in making appraisals;
- (2) licensed under IC 25-34.1; or
- (3) employees of the political subdivision familiar with the value of the property.

(c) After the property is appraised, the disposing agent shall publish a notice in accordance with IC 5-3-1 setting forth the terms and conditions of the sale and, when subsection (e) is employed, may engage an auctioneer licensed under IC 25-6.1 to advertise the sale and to conduct a public auction. The advertising conducted by the auctioneer is in addition to any other notice required by law and shall include a detailed description of the property to be sold stating the key numbers, if any, of the tracts within that property. If the

disposing agent determines that the best sale of the property can be made by letting the bidders determine certain conditions of the sale (such as required zoning or soil or drainage conditions) as a prerequisite to purchasing the property, the disposing agent may permit the bidders to specify those conditions. The notice must state the following:

- (1) Bids will be received beginning on a specific date.
- (2) The sale will continue from day to day for a period determined by the disposing agent of not more than sixty (60) days.
- (3) The property may not be sold to a person who is ineligible under section 16 of this chapter.
- (4) A bid submitted by a trust (as defined in IC 30-4-1-1(a)) must identify each:
 - (A) beneficiary of the trust; and
 - (B) settlor empowered to revoke or modify the trust.

(d) A bid must be open to public inspection. A bidder may raise the bidder's bid, and subject to subsection (e), that raise takes effect after the board has given written notice of that raise to the other bidders.

(e) The disposing agent may also engage an auctioneer licensed under IC 25-6.1 to conduct a sale by public auction. The auction may be conducted either at the time for beginning the sale in accordance with the public notice or after the beginning of the sale. The disposing agent shall give each bidder who has submitted a bid written notice of the time and place of the auction.

(f) The disposing agent may, before expiration of the time set out in the notice, sell the property to the highest and best bidder. The highest and best bidder must have complied with any requirement under subsection (c)(4). However, the disposing agent may sell the property for less than ninety percent (90%) of the average of the two (2) appraisals of the tracts only after an additional notice stating the amount of the bid to be accepted is published in accordance with IC 5-3-1. The disposing agent may reject all bids. If the disposing agent rejects all bids, the disposing agent must make a written determination to reject all bids explaining why all bids were rejected.

(g) If the disposing agent determines that, in the exercise of good business judgment, the disposing agent should hire a broker or auctioneer to sell the property, the disposing agent may do so and pay the broker or auctioneer a reasonable compensation out of the gross proceeds of the sale. A disposing agent may hire a broker to sell real property directly rather than using the bid process under subsections (c) through (f) if:

- (1) the disposing agent publishes a notice of the determination to hire the broker in accordance with IC 5-3-1; and
- (2) the property has been up for bid for at least sixty (60) days before the broker is hired, and either no bids were received or the disposing agent has rejected all bids that were received.

The disposing agent may hire one (1) of the appraisers as the broker or auctioneer.

(h) The following apply if a broker is hired under subsection (g):

(1) The property may not be sold to a person who is ineligible under section 16 of this chapter.

(2) If the property is sold to a trust (as defined in IC 30-4-1-1(a)), the following information must be placed in the public record relating to the sale:

Sec. 9. Whenever a disposing agent purchases new property with a condition that property of a similar nature is to be traded in or exchanged as part of the purchase and in reduction of the purchase price, the exchange or trade-in may be made without compliance with section 7 of this chapter but must comply with section 16 of this chapter.

IC 36-1-11-10

Lease of property; procedure

Sec. 10. (a) A disposing agent may lease property rather than sell, transfer, or exchange it under this chapter only if the disposing agent determines that a lease rather than a sale, transfer, or exchange would be in the best interest of the disposing agent's political subdivision or agency and the public. Except as provided in section 12 of this chapter, the disposing agent must proceed under this section in leasing property.

(b) The disposing agent shall first have the property appraised in the manner prescribed in section 4(b) of this chapter, except that the appraisers shall determine the fair market rental value of the property.

(c) The disposing agent shall receive bids in the manner prescribed in section 4 of this chapter and lease the property to the highest and best bidder. The disposing agent may reject all bids. If the disposing agent rejects all bids, the disposing agent must make a written determination to reject all bids explaining why all bids were rejected.

(d) The disposing agent shall determine the terms and conditions of any lease under this section, which may include options to renew and options to purchase. The property may not be leased to a person who is ineligible under section 16 of this chapter.

(e) The terms of a lease with option to purchase may provide that all or part of the rental payments under the lease apply to the purchase price. The purchase price must be equal to at least the minimum sale price determined under section 4(f) of this chapter.

(f) Property owned by a political subdivision or agency may be leased for a term longer than three (3) years if the lease is approved by the fiscal body of the political subdivision.

(g) The disposing agent may lease the real property under this

section for a value that is less than ninety percent (90%) of the appraised fair market rental value as determined by the average of the two (2) appraisals under section 4(b) of this chapter only after publishing an additional notice in accordance with IC 5-3-1, stating the amount of the bid to be accepted. If the disposing agent rejects all bids, the disposing agent must make a written determination to reject all bids explaining why all bids were rejected.

Execution of deed or other instrument

Sec. 11. Whenever:

- (1) there is a dispute concerning the interest in any property of a political subdivision, and the executive considers the dispute not frivolous; or
- (2) it would facilitate the establishment of title to any property; a deed or other instrument may be executed on behalf of the political subdivision to a person who is eligible to receive the deed or instrument under section 16 of this chapter for any consideration that the disposing agent considers fair and in the public interest.

Sec. 12. The following procedure may be used instead of that in section 10 of this chapter if the disposing agent makes a written determination (which must include the disposing agent's reasons) that the use of section 10 of this chapter is not feasible, and authorization to use this procedure is granted by the executive of the political subdivision or agency:

- (1) Proposals to develop specifications shall be solicited through a request for proposals, which must include all of the following:

 - (B) A statement concerning the relative importance of price and the other evaluation factors.
 - (C) A statement concerning whether the proposal must be accompanied by a certified check or other evidence of financial responsibility.
 - (D) A statement concerning whether discussions may be conducted with the offerors for the purpose of clarification to assure full understanding of, and responsiveness to, the

solicitation requirements.

(2) Notice of the request for proposals shall be given by publication in accordance with IC 5-3-1.

(3) As provided in the request for proposals, discussions may be conducted with the offerors for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements.

(4) Eligible offerors must be accorded fair and equal treatment with respect to any opportunity for discussion and revisions of proposals.

(5) After the procedures outlined in this section have been completed, the disposing agent shall make a determination as to the most appropriate response to the request for proposals and shall dispose of the subject property in accordance with that response.

(6) Access to the proposals under this chapter shall be determined in accordance with the provisions of IC 5-23-7.

(7) The person submitting the successful proposal is not responsible for the requirements set forth in IC 5-22 with regard to the purchase of supplies if the purchase of supplies was included within the proposal or the supplies are not paid for with public funds.

Public work projects

Sec. 3. (a) The board may purchase or lease materials in the manner provided in IC 5-22 and perform any public work, by means of its own workforce, without awarding a contract whenever the cost of that public work project is estimated to be less than one hundred fifty thousand dollars (\$150,000). Before a board may perform any work under this section by means of its own workforce, the political subdivision or agency must have a group of employees on its staff who are capable of performing the construction, maintenance, and repair applicable to that work. For purposes of this subsection, the cost of a public work project includes:

- (1) the actual cost of materials, labor, equipment, and rental;
- (2) a reasonable rate for use of trucks and heavy equipment owned; and
- (3) all other expenses incidental to the performance of the project.

(b) This subsection applies only to a municipality or a county. The workforce of a municipality or county may perform a public work described in subsection (a) only if:

- (1) the workforce, through demonstrated skills, training, or expertise, is capable of performing the public work; and
- (2) for a public work project under subsection (a) whose cost is estimated to be more than one hundred thousand dollars (\$100,000), the board:

(A) publishes a notice under IC 5-3-1 that:

- (i) describes the public work that the board intends to perform with its own workforce; and
- (ii) sets forth the projected cost of each component of the public work as described in subsection (a); and

(B) determines at a public meeting that it is in the public interest to perform the public work with the board's own workforce.

A public work project performed by a board's own workforce must be inspected and accepted as complete in the same manner as a public work project performed under a contract awarded after receiving bids.

(c) When the project involves the rental of equipment with an operator furnished by the owner, or the installation or application of materials by the supplier of the materials, the project is considered to be a public work project and subject to this chapter. However, an annual contract may be awarded for equipment rental and materials to be installed or applied during a calendar or fiscal year if the proposed project or projects are described in the bid specifications.

(d) A board of aviation commissioners or an airport authority board may purchase or lease materials in the manner provided in IC 5-22 and perform any public work by means of its own workforce and owned or leased equipment, in the construction, maintenance, and repair of any airport roadway, runway, taxiway, or aircraft parking apron whenever the cost of that public work project is estimated to be less than one hundred thousand dollars (\$100,000).

(e) Municipal and county hospitals must comply with this chapter for all contracts for public work that are financed in whole or in part with cumulative building fund revenue, as provided in section 1(c) of this chapter. However, if the cost of the public work is estimated to be less than fifty thousand dollars (\$50,000), as reflected in the board minutes, the hospital board may have the public work done without receiving bids, by purchasing the materials and performing the work by means of its own workforce and owned or leased equipment.

(f) If a public works project involves a structure, an improvement, or a facility under the control of a department (as defined in IC 4-3-19-2(2)), the department may not artificially divide the project to bring any part of the project under this section.

Contracts for engineering, architectural, or accounting services; applicability of restrictions of general statutes

Sec. 3.5. When any public work is proposed to be performed and the board determines by a two-thirds (2/3) vote that it is expedient and in the best public interest to employ professional engineering, architectural, or accounting services for the planning and financing of the public work and the preparation of plans and specifications, then the limitations and restrictions in the general statutes with respect to invalidity of contracts without an appropriation therefor, payment of fees solely from the proceeds of bonds or assessments when and if issued, and payment of fees solely from a special fund or funds to be provided in the future, do not apply to contracts for those professional services to the extent that such limitations and restrictions might otherwise prevent the payment of fees for services actually rendered in connection with those contracts or affect the obligation to pay those fees.

As added by Acts 1982, P.L.33, SEC.16.

IC 36-1-12-4

Bidding procedures for projects costing more than certain amounts

Sec. 4. (a) This section applies whenever the cost of a public work project will be:

- (1) except as provided in subdivision (2), at least one hundred fifty thousand dollars (\$150,000); or
- (2) in the case of a board of aviation commissioners or an airport authority board, at least one hundred thousand dollars (\$100,000).

(b) The board must comply with the following procedure:

- (1) The board shall prepare general plans and specifications describing the kind of public work required, but shall avoid specifications which might unduly limit competition. If the project involves the resurfacing (as defined by IC 8-14-2-1) of a road, street, or bridge, the specifications must show how the weight or volume of the materials will be accurately measured and verified.
- (2) The board shall file the plans and specifications in a place reasonably accessible to the public, which shall be specified in the notice required by subdivision (3).
- (3) Upon the filing of the plans and specifications, the board shall publish notice in accordance with IC 5-3-1 calling for sealed proposals for the public work needed.
- (4) The notice must specify the place where the plans and specifications are on file and the date fixed for receiving bids.
- (5) The period of time between the date of the first publication and the date of receiving bids shall be governed by the size of the contemplated project in the discretion of the board. The

period of time between the date of the first publication and receiving bids may not be more than:

(A) six (6) weeks if the estimated cost of the public works project is less than twenty-five million dollars (\$25,000,000); and

(B) ten (10) weeks if the estimated cost of the public works project is at least twenty-five million dollars (\$25,000,000).

(6) The board shall require the bidder to submit a financial statement, a statement of experience, a proposed plan or plans for performing the public work, and the equipment that the bidder has available for the performance of the public work. The statement shall be submitted on forms prescribed by the state board of accounts.

(7) The board may not require a bidder to submit a bid before the meeting at which bids are to be received. The meeting for receiving bids must be open to the public. All bids received shall be opened publicly and read aloud at the time and place designated and not before. Notwithstanding any other law, bids may be opened after the time designated if both of the following apply:

(A) The board makes a written determination that it is in the best interest of the board to delay the opening.

(B) The day, time, and place of the rescheduled opening are announced at the day, time, and place of the originally scheduled opening.

(8) Except as provided in subsection (c), the board shall:

(A) award the contract for public work or improvements to the lowest responsible and responsive bidder; or

(B) reject all bids submitted.

(9) If the board awards the contract to a bidder other than the lowest bidder, the board must state in the minutes or memoranda, at the time the award is made, the factors used to determine which bidder is the lowest responsible and responsive bidder and to justify the award. The board shall keep a copy of the minutes or memoranda available for public inspection.

(10) In determining whether a bidder is responsive, the board may consider the following factors:

(A) Whether the bidder has submitted a bid or quote that conforms in all material respects to the specifications.

(B) Whether the bidder has submitted a bid that complies specifically with the invitation to bid and the instructions to bidders.

(C) Whether the bidder has complied with all applicable statutes, ordinances, resolutions, or rules pertaining to the award of a public contract.

(11) In determining whether a bidder is a responsible bidder, the board may consider the following factors:

(A) The ability and capacity of the bidder to perform the work.

- (B) The integrity, character, and reputation of the bidder.
- (C) The competence and experience of the bidder.
- (12) The board shall require the bidder to submit an affidavit:
 - (A) that the bidder has not entered into a combination or agreement:
 - (i) relative to the price to be bid by a person;
 - (ii) to prevent a person from bidding; or
 - (iii) to induce a person to refrain from bidding; and
 - (B) that the bidder's bid is made without reference to any other bid.

(c) Notwithstanding subsection (b)(8), a county may award sand, gravel, asphalt paving materials, or crushed stone contracts to more than one (1) responsible and responsive bidder if the specifications allow for bids to be based upon service to specific geographic areas and the contracts are awarded by geographic area. The geographic areas do not need to be described in the specifications.

- (2) may require a bond or a certified check to be filed with each bid by a bidder in the amount determined and specified by the board in the notice of the letting if the cost of the public work is estimated to be not more than two hundred thousand dollars (\$200,000).

(b) The amount of the bond or certified check may not be set at more than ten percent (10%) of the contract price. The bond or certified check shall be made payable to the political subdivision or agency.

The notice must be mailed not less than seven (7) days before the time fixed for receiving quotes.

(2) The board may not require a person to submit a quote before the meeting at which quotes are to be received. The meeting for receiving quotes must be open to the public. All quotes received shall be opened publicly and read aloud at the time and place designated and not before.

(3) The board shall award the contract for the public work to the lowest responsible and responsive quoter.

(4) The board may reject all quotes submitted.

(5) If the board rejects all quotes under subdivision (4), the board may negotiate and enter into agreements for the work in the open market without inviting or receiving quotes if the board establishes in writing the reasons for rejecting the quotes.

(c) The board may not proceed under subsection (b) for the resurfacing (as defined in IC 8-14-2-1) of a road, street, or bridge, unless:

(1) the weight or volume of the materials in the project is capable of accurate measurement and verification; and

(2) the specifications define the geographic points at which the project begins and ends.

(d) For the purposes of this section, if contiguous sections of a road, street, or bridge are to be resurfaced in a calendar year, all of the work shall be considered to comprise a single public work project.

(e) The board may purchase or lease supplies in the manner provided in IC 5-22 and perform the public work by means of its own workforce without awarding a public work contract.

(f) Before the board may perform any work under this section by means of its own workforce, the political subdivision or agency must have a group of employees on its staff who are capable of performing the construction, maintenance, and repair applicable to that work.

(g) This subsection applies to local boards of aviation commissioners operating under IC 8-22-2 and local airport authorities operating under IC 8-22-3. If the contract is to be awarded by a board to which this subsection applies, or to a designee of the board under subsection (h), the board or its designee may proceed under section 4 of this chapter or under the following provisions. The board or its designee may invite quotes from at least three (3) persons known to deal in the class of work proposed to be done by mailing the persons a copy of the plans and specifications for the work not less than seven (7) days before the time fixed for receiving quotes. If the board or its designee receives a satisfactory quote, the board or its designee shall award the contract to the lowest responsible and responsive quoter for the class of work required. The board or its designee may reject all quotes submitted and, if no valid quotes are received for the class of work, contract for the work without further invitations for quotes.

(h) The board may delegate its authority to award a contract for a public works project that is estimated to cost less than fifty thousand dollars (\$50,000) to the airport personnel in charge of airport public works projects.

(i) Quotes for public works projects costing less than twenty-five thousand dollars (\$25,000) may be obtained by soliciting at least three (3) quotes by telephone or facsimile transmission. The seven (7) day waiting period required by subsection (b)(1) does not apply to quotes solicited under this subsection.

(b) If general obligation bonds are to be sold to finance the construction that is the subject of the bid, the board shall allow the bidder ninety (90) days.

(c) If revenue bonds are to be issued, when approved by the utility regulatory commission, or if special taxing district, special benefit, or revenue bonds are to be issued and sold to finance the construction, the board shall allow the bidder one hundred fifty (150) days.

(d) A failure to award and execute the contract and to issue notice within the time required by this section entitles the successful bidder to:

- (1) reject the contract and withdraw his bid without prejudice; or
- (2) extend the time to award the contract and provide notice to proceed at an agreed later date.

If the successful bidder elects to reject the contract and withdraw his bid, notice of that election must be given to the board in writing within fifteen (15) days of the sixty (60) day expiration date or any other extension date.

Sec. 8. The board may award a public work contract for road, street, or bridge work subject to the open price provisions of IC 26-1-2-305. The contract may provide that prices for construction materials are subject to price of materials adjustment. When price adjustments are part of the contract, the method of price adjustments shall be specified in the contract. However, this section does not authorize the expenditure of money above the total amount of money appropriated by the political subdivision or agency for road, street, or bridge contracts.

Sec. 11. (a) The board must, within sixty (60) days after the completion of the public work project, file in the division of fire and building safety a complete set of final record drawings for the public work project. However, this requirement does not apply to a public work project constructed at a cost less than one hundred thousand dollars (\$100,000). In addition, the filing of the drawings is required only if the project involves a public building.

(b) The division of fire and building safety shall provide a depository for all final record drawings filed, and retain them for inspection and loan under regulated conditions. The fire prevention and building safety commission may designate the librarian of Indiana as the custodian of the final record drawings. The librarian shall preserve the final record drawings in the state archives as public

IC 36-1-12-12

Final payment; requirements; claims by subcontractors, laborers, or suppliers; disputes

Sec. 12. (a) When a public work project is to be performed, the board shall withhold final payment to the contractor until the contractor has paid the subcontractors, material suppliers, laborers, and those furnishing services. However, if there is not a sufficient sum owed to the contractor to pay those bills, the sum owed to the contractor shall be prorated in payment of the bills among the claimants entitled to payment.

(b) To receive payment a subcontractor, material supplier, laborer, or person furnishing services must file a claim with the board not later than sixty (60) days after that person performed the last labor, furnished the last material, or performed the last service as provided in section 13 of this chapter.

(c) If there is no dispute among the claimants, the board shall pay the claim from the money due the contractor and deduct the amount of the claims from the contract price. The board shall take a receipt for each payment made on a claim.

(d) If there is a dispute among the claimants, the board shall retain sufficient money to pay the claims until the dispute is settled and the correct amount is determined. However, the board may make a final and complete settlement with the contractor after thirty (30) days after the date of the completion and acceptance of the public work if the contractor has materially fulfilled all of its obligations under the public works contract.

(e) If the board receives a claim from a subcontractor or a material supplier under this section, the board shall withhold the amount of the claim until the claim is resolved under this section.

(f) A claim form must be signed by an individual from the political subdivision or agency who is directly responsible for the project and who can verify:

- (1) the quantity of a purchased item; or
- (2) the weight or volume of the material applied, in the case of a road, street, or bridge project.

IC 36-1-12-13.1

Payment bond for public work projects in excess of \$200,000; claims; suits on bond; waiver of payment bond

Sec. 13.1. (a) Except as provided in subsection (e), the appropriate political subdivision or agency:

(1) shall require the contractor to execute a payment bond to the appropriate political subdivision or agency, approved by and for the benefit of the political subdivision or agency, in an amount equal to the contract price if the cost of the public work is estimated to be more than two hundred thousand dollars (\$200,000); and

(2) may require the contractor to execute a payment bond to the appropriate political subdivision or agency, approved by and for the benefit of the political subdivision or agency, in an amount equal to the contract price if the cost of the public work is estimated to be not more than two hundred thousand dollars (\$200,000).

The payment bond is binding on the contractor, the subcontractor, and their successors and assigns for the payment of all indebtedness to a person for labor and service performed, material furnished, or services rendered. The payment bond must state that it is for the benefit of the subcontractors, laborers, material suppliers, and those performing services.

(b) The payment bond shall be deposited with the board. The payment bond must specify that:

(1) a modification, omission, or addition to the terms and conditions of the public work contract, plans, specifications, drawings, or profile;

(2) a defect in the public work contract; or

(3) a defect in the proceedings preliminary to the letting and awarding of the public work contract;

does not discharge the surety. The surety of the payment bond may not be released until one (1) year after the board's final settlement with the contractor.

(c) A person to whom money is due for labor performed, material furnished, or services provided must, not later than sixty (60) days after that person completed the labor or service or after that person furnished the last item of material:

(1) file with the board signed duplicate statements of the amount due; and

(2) deliver a copy of the statement to the contractor.

The board shall forward to the surety of the payment bond one (1) of the signed duplicate statements. However, failure of the board to forward a signed duplicate statement does not affect the rights of a person to whom money is due. In addition, a failure of the board to forward the statement does not operate as a defense for the surety.

(d) An action may not be brought against the surety before thirty

(30) days after:

- (1) the filing of the signed duplicate statements with the board;
and
- (2) delivery of a copy of the statement to the contractor.

If the indebtedness is not paid in full at the end of that thirty (30) day period the person may bring an action in court. The court action must be brought not later than sixty (60) days after the date of the final completion and acceptance of the public work.

(e) This subsection applies to contracts for a capital improvement entered into by, for, or on behalf of the Indiana stadium and convention building authority created by IC 5-1-17-6. The board awarding the contract for the capital improvement project may waive any payment bond requirement if the board, after public notice and hearing, determines:

- (1) that:
 - (A) an otherwise responsive and responsible bidder is unable to provide the payment bond; or
 - (B) the cost or coverage of the payment bond is not in the best interest of the project; and
- (2) that an adequate alternative is provided through a letter of credit, additional retainage of at least ten percent (10%) of the contract amount, a joint payable check system, or other sufficient protective mechanism.

As added by P.L.337-1987, SEC.4. Amended by P.L.82-1995, SEC.18; P.L.120-2006, SEC.4; P.L.133-2007, SEC.13; P.L.75-2012, SEC.10.

IC 36-1-12-14

Contracts in excess of \$200,000; retaining portions of payments; escrow agreements; performance bonds; payment on substantial completion; actions against surety contracts less than \$250,000

Sec. 14. (a) This section applies to public work contracts in excess of two hundred thousand dollars (\$200,000) for projects other than highways, roads, streets, alleys, bridges, and appurtenant structures situated on streets, alleys, and dedicated highway rights-of-way. A board may require a contractor and subcontractor to include contract provisions for retainage as set forth in this section for contracts that are not more than two hundred thousand dollars (\$200,000). This section also applies to a lessor corporation qualifying under IC 20-47-2 or IC 20-47-3 or any other lease-back arrangement containing an option to purchase, notwithstanding the statutory provisions governing those leases.

(b) A board that enters into a contract for public work, and a contractor who subcontracts parts of that contract, shall include in their respective contracts provisions for the retainage of portions of payments by the board to contractors, by contractors to subcontractors, and for the payment of subcontractors. At the discretion of the contractor, the retainage shall be held by the board or shall be placed in an escrow account with a bank, savings and loan institution, or the state as the escrow agent. The escrow agent shall

be selected by mutual agreement between board and contractor or contractor and subcontractor under a written agreement among the bank or savings and loan institution and:

- (1) the board and the contractor; or
- (2) the subcontractor and the contractor.

The board shall not be required to pay interest on the amounts of retainage that it holds under this section.

(c) To determine the amount of retainage to be withheld, the board shall:

- (1) withhold no more than ten percent (10%) nor less than six percent (6%) of the dollar value of all work satisfactorily completed until the public work is fifty percent (50%) completed, and nothing further after that; or
- (2) withhold no more than five percent (5%) nor less than three percent (3%) of the dollar value of all work satisfactorily completed until the public work is substantially completed.

If upon substantial completion of the public work minor items remain uncompleted, an amount computed under subsection (f) shall be withheld until those items are completed.

(d) The escrow agreement must contain the following provisions:

- (1) The escrow agent shall invest all escrowed principal in obligations selected by the escrow agent.
- (2) The escrow agent shall hold the escrowed principal and income until receipt of notice from the board and the contractor, or the contractor and the subcontractor, specifying the part of the escrowed principal to be released from the escrow and the person to whom that portion is to be released. After receipt of the notice, the escrow agent shall remit the designated part of escrowed principal and the same proportion of then escrowed income to the person specified in the notice.
- (3) The escrow agent shall be compensated for the agent's services. The parties may agree on a reasonable fee comparable with fees being charged for the handling of escrow accounts of similar size and duration. The fee shall be paid from the escrowed income.

The escrow agreement may include other terms and conditions consistent with this subsection, including provisions authorizing the escrow agent to commingle the escrowed funds with funds held in other escrow accounts and limiting the liability of the escrow agent.

(e) Except as provided by subsections (i) and (h), the contractor shall furnish the board with a performance bond equal to the contract price. If acceptable to the board, the performance bond may provide for incremental bonding in the form of multiple or chronological bonds that, when taken as a whole, equal the contract price. The surety on the performance bond may not be released until one (1) year after the date of the board's final settlement with the contractor. The performance bond must specify that:

- (1) a modification, omission, or addition to the terms and conditions of the public work contract, plans, specifications, drawings, or profile;

(2) a defect in the public work contract; or
(3) a defect in the proceedings preliminary to the letting and awarding of the public work contract;
does not discharge the surety.

(f) The board or escrow agent shall pay the contractor within sixty-one (61) days after the date of substantial completion, subject to sections 11 and 12 of this chapter. Payment by the escrow agent shall include all escrowed principal and escrowed income. If within sixty-one (61) days after the date of substantial completion there remain uncompleted minor items, an amount equal to two hundred percent (200%) of the value of each item as determined by the architect-engineer shall be withheld until the item is completed. Required warranties begin not later than the date of substantial completion.

(g) Actions against a surety on a performance bond must be brought within one (1) year after the date of the board's final settlement with the contractor.

(h) This subsection applies to public work contracts of less than two hundred fifty thousand dollars (\$250,000). The board may waive the performance bond requirement of subsection (e) and accept from a contractor an irrevocable letter of credit for an equivalent amount from an Indiana financial institution approved by the department of financial institutions instead of a performance bond. Subsections (e) through (g) apply to a letter of credit submitted under this subsection.

(i) This subsection applies to the Indiana stadium and convention building authority created by IC 5-1-17-6. The board awarding the contract for a capital improvement project may waive any performance bond requirement if the board, after public notice and hearing, determines:

(1) that:

(A) an otherwise responsive and responsible bidder is unable to provide the performance bond; or

(B) the cost or coverage of the performance bond is not in the best interest of the project; and

(2) that an adequate alternative is provided through a letter of credit, additional retainage of at least ten percent (10%) of the contract amount, a joint payable check system, or other sufficient protective mechanism.

(b) A contract by the board for public work must conform with the antidiscrimination provisions of IC 5-16-6. The board may consider a violation of IC 5-16-6 a material breach of the contract, as provided in IC 22-9-1-10.

Road or street work contracts; timely payment of claims; final payment; interest for late payment

Sec. 17. (a) A contract for road or street work must contain a provision for the timely payment of claims made by the contractor.

(b) Each contract must provide for final payment within one hundred twenty (120) days after final acceptance and completion of the contract. Final payment may not be made on any amount that is in dispute, but final payment may be made on that part of a contract or those amounts that are not in dispute.

(c) For each day after one hundred twenty (120) days, the board shall pay to the contractor interest for late payment of money due to the contractor. However, interest may not be paid for those days that the delay in payment is not directly attributable to the board. The annual percentage rate of interest that the board shall pay on the unpaid balance is twelve percent (12%).

As added by P.L.340-1983, SEC.1.

IC 36-1-12-18

Change or alteration of specifications; change orders

Sec. 18. (a) If, in the course of the construction, reconstruction, or repair of a public work project, it becomes necessary to change or alter the original specifications, a change order may be issued to add, delete, or change an item or items in the original contract. The change order becomes an addendum to the contract and must be approved and signed by the board and the contractor.

(b) If a licensed architect or engineer is assigned to the public work project, the change order must be prepared by that person.

(c) A change order may not be issued before commencement of the actual construction, reconstruction, or repairs except in the case of an emergency. In that case, the board must make a declaration, and the board's minutes must show the nature of the emergency.

(d) The total of all change orders issued that increase the scope of the project may not exceed twenty percent (20%) of the amount of the original contract. A change order issued as a result of circumstances that could not have been reasonably foreseen does not increase the scope of the project.

(e) All change orders must be directly related to the original public work project.

(f) If additional units of materials included in the original contract are needed, the cost of these units in the change order must be the same as those shown in the original contract.

(b) The cost of a single public work project may not be divided into two (2) or more projects for the purpose of avoiding the requirement to solicit bids.

(c) A bidder or quoter or a person who is a party to a public work contract who knowingly violates this section commits a Class A infraction and may not be a party to or benefit from any contract under this chapter for two (2) years from the date of the conviction.

(4) If any of the legislative bodies adopts a resolution rejecting the final plan of reorganization, the registered voters of a political subdivision in which the final plan of reorganization was rejected by a legislative body under subdivision (2) may submit a petition to the clerk of the circuit court approving the final plan of reorganization and requesting that a public question be held on the final plan of reorganization. Powers of reorganized political subdivision

Sec. 38. (a) A reorganized political subdivision has the powers granted by statute to a political subdivision of the same type as the reorganized political subdivision, including a power described in subsection (b). However, if authorized by the plan of reorganization approved by the voters in a public question under this chapter, the reorganized political subdivision will exercise a power or have the officers or number of offices that a statute would have permitted any of the reorganizing political subdivisions to have.

(b) Except as provided in the plan of reorganization, a reorganized political subdivision may also do any of the following:

(1) Establish any fund that one (1) or more of the reorganizing political subdivisions (either acting on its own or jointly with another political subdivision) were authorized to establish before the reorganization.

(2) Impose any tax levy or adopt any tax that one (1) or more of the reorganizing political subdivisions were authorized to impose or adopt before the reorganization.

(c) This subsection applies to reorganizations approved by voters after June 30, 2013. Notwithstanding subsection (a), if:

(1) a first political subdivision is located in whole or in part within one (1) or more other political subdivisions that reorganize under this article; and

(2) the first political subdivision does not participate in or does not approve the reorganization;

the reorganization does not affect the rights, powers, and duties of the first political subdivision, and the reorganized political subdivision may not exercise within the first political subdivision any right, power, or duty unless that right, power, or duty was exercised within the first political subdivision before the reorganization by at least one (1) of the reorganizing political subdivisions.

territory of the reorganizing political subdivision only by following the laws applicable to the expansion of the service area of the reorganizing political subdivision.

(b) Subject to subsection (a), a reorganized political subdivision that results from a reorganization under this chapter must continue to carry out the duties imposed by Indiana law on the reorganizing political subdivisions that combined to form the reorganized political subdivision.

Reorganization of a township and another political subdivision; powers and duties; remonstrance; borrowing; tax levies

Sec. 40.5. The following apply in the case of a reorganization under this article that includes a township and another political subdivision:

(1) If the township borrowed money from a township fund under IC 36-6-6-14(c) to pay the operating expenses of the township fire department or a volunteer fire department before the reorganization:

(A) the reorganized political subdivision is not required to repay the entire loan during the following year; and

(B) the reorganized political subdivision may repay the loan in installments during the following five (5) years.

(2) Except as provided in subdivision (3):

(A) the reorganized political subdivision continues to be responsible after the reorganization for providing township services in all areas of the township, including within the territory of a municipality in the township that does not participate in the reorganization; and

(B) the reorganized political subdivision retains the powers of a township after the reorganization in order to provide township services as required by clause (A).

(3) Powers and duties of the reorganized political subdivision may be transferred as authorized in an interlocal cooperation agreement approved under IC 36-1-7 or as authorized in a cooperative agreement approved under IC 36-1.5-5.

(4) If all or part of a municipality in the township is not participating in the reorganization, not less than ten (10) township taxpayers who reside within territory that is not participating in the reorganization may file a petition with the county auditor protesting the reorganized political subdivision's township assistance levy. The petition must be filed not more than thirty (30) days after the reorganized political subdivision finally adopts the reorganized political subdivision's township assistance levy. The petition must state the taxpayers' objections and the reasons why the taxpayers believe the reorganized political subdivision's township assistance levy is excessive or unnecessary. The county auditor shall immediately certify a copy of the petition, together with other data necessary to present the questions involved, to the department of local government finance. Upon receipt of the certified petition and other data, the department of local government finance shall fix a time and place for the hearing of the matter. The letter shall be sent to the first ten (10) taxpayer petitioners at the taxpayers' usual place of residence at least five (5) days before the date of the hearing. After the hearing, the department of local government finance may reduce the reorganized political subdivision's township assistance levy to the extent that the levy is excessive or unnecessary. A taxpayer

who signed a petition under this subdivision or a reorganized political subdivision against which a petition under this subdivision is filed may petition for judicial review of the final determination of the department of local government finance under this subdivision. The petition must be filed in the tax court not more than forty-five (45) days after the date of the department of local government finance's final determination.

(5) Section 40 of this chapter applies to the debt service levy of the reorganized political subdivision and to the department of local government finance's determination of the new maximum permissible ad valorem property tax levy for the reorganized political subdivision.

(6) The reorganized political subdivision may not borrow money under IC 36-6-6-14(b) or IC 36-6-6-14(c).

(7) The new maximum permissible ad valorem property tax levy for the reorganized political subdivision's firefighting fund under IC 36-8-13-4 is equal to:

(A) the result of:

(i) the maximum permissible ad valorem property tax levy for the township's firefighting fund under IC 36-8-13-4 in the year preceding the year in which the reorganization is effective; multiplied by

(ii) the assessed value growth quotient applicable for property taxes first due and payable in the year in which the reorganization is effective; plus

(B) any amounts borrowed by the township under IC 36-6-6-14(b) or IC 36-6-6-14(c) in the year preceding the year in which the reorganization is effective.

Changing boundaries; transfer of territory; petition; signatures; election; order

Sec. 2. (a) If the resident voters in a specified territory in two (2) or more contiguous counties desire to change the boundaries of their respective counties, they may file a petition with the executives of their respective counties requesting that the territory be transferred. The petition must:

- (1) be signed by at least the number of voters resident in the territory requested to be transferred required to place a candidate on the ballot under IC 3-8-6-3;
- (2) contain a clear, distinct description of the requested boundary change; and
- (3) not propose to decrease the area of any county below four hundred (400) square miles in compliance with Article 15, Section 7 of the Constitution of the State of Indiana.

(b) Whenever a petition under subsection (a) is filed with a county executive, the executive shall determine, at its first meeting after the petition is filed:

- (1) whether the signatures on the petition are genuine; and
- (2) whether the petition complies with subsection (a).

(c) If the determinations under subsection (b) are affirmative, the executive shall certify the question to the county election board of each affected county. The county election boards shall jointly order a special election to be held, scheduling the election so that the election is held on the same date in each county interested in the change, but not later than thirty (30) days and not on the same date as a general election. The election shall be conducted under IC 3-10-8-6. All voters of each interested county are entitled to vote on the question. The question shall be placed on the ballot in the form prescribed by IC 3-10-9-4 and must state "Shall the boundaries of _____ County and _____ County change?".

(d) After an election under subsection (c), the clerk of each county shall make a certified copy of the election returns and not later than five (5) days after the election file the copy with the auditor of the county. The auditor shall, not later than five (5) days after the filing of the returns in the auditor's office, make a true and complete copy of the returns, certified under the auditor's hand and seal, and deposit the copy with the auditor of every other county interested in the change.

(e) After copies have been filed under subsection (d), the auditor of each county shall call a meeting of the executive of the county,

which shall examine the returns. If a majority of the voters of each interested county voted in favor of change, the executive shall:

- (1) enter an order declaring their boundaries to be changed as described in the petition; and
- (2) if the county has received territory from the transfer, adopt revised descriptions of:
 - (A) county commissioner districts under IC 36-2-2-4; and
 - (B) county council districts under IC 36-2-3-4;

so that the transferred territory is assigned to at least one (1) county commissioner district and at least one (1) county council district.

(f) The executive of each county shall file a copy of the order described in subsection (e)(1) with:

- (1) the office of the secretary of state; and
- (2) the circuit court clerk of the county.

Except as provided in subsection (g), the transfer of territory becomes effective when the last county order is filed under this subsection.

(g) An order declaring county boundaries to be changed may not take effect during the year preceding a year in which a federal decennial census is conducted. An order that would otherwise take effect during the year preceding a year in which a federal decennial census is conducted takes effect January 1 of the year in which a federal decennial census is conducted.

(h) An election under this section may be held only once every three (3) years.

(i) Notwithstanding subsection (g) as that subsection existed on December 31, 2009, a boundary change that took effect January 2, 2010, because of the application of subsection (g), as that subsection existed on December 31, 2009, is instead considered to take effect January 1, 2010, without an amended order or any other additional action being required.

IC 36-2-2-4

Division of county into districts; membership, duties, and compensation of county redistricting commission; single-member district criteria; recertification of districts; filing with circuit court clerk; time for filing; district boundary description prevails over conflicting map

Sec. 4. (a) This subsection does not apply to a county having a population of:

(1) more than four hundred thousand (400,000) but less than seven hundred thousand (700,000); or

(2) more than two hundred fifty thousand (250,000) but less than two hundred seventy thousand (270,000).

The executive shall divide the county into three (3) districts that are composed of contiguous territory and are reasonably compact. The district boundaries drawn by the executive must not cross precinct boundary lines and must divide townships only when a division is clearly necessary to accomplish redistricting under this section. If necessary, the county auditor shall call a special meeting of the executive to establish or revise districts.

(b) This subsection applies to a county having a population of

more than four hundred thousand (400,000) but less than seven hundred thousand (700,000). A county redistricting commission shall divide the county into three (3) single-member districts that comply with subsection (d). The commission is composed of:

- (1) the members of the Indiana election commission;
- (2) two (2) members of the senate selected by the president pro tempore, one (1) from each political party; and
- (3) two (2) members of the house of representatives selected by the speaker, one (1) from each political party.

The legislative members of the commission have no vote and may act only in an advisory capacity. A majority vote of the voting members is required for the commission to take action. The commission may meet as frequently as necessary to perform its duty under this subsection. The commission's members serve without additional compensation above that provided for them as members of the Indiana election commission, the senate, or the house of representatives.

(c) This subsection applies to a county having a population of more than two hundred fifty thousand (250,000) but less than two hundred seventy thousand (270,000). The executive shall divide the county into three (3) single-member districts that comply with subsection (d).

(d) Single-member districts established under subsection (b) or (c) must:

- (1) be compact, subject only to natural boundary lines (such as railroads, major highways, rivers, creeks, parks, and major industrial complexes);
- (2) contain, as nearly as is possible, equal population; and
- (3) not cross precinct lines.

(e) Except as provided by subsection (g), a division under subsection (a), (b), or (c) shall be made:

- (1) during the first year after a year in which a federal decennial census is conducted; and
- (2) when the county adopts an order declaring a county boundary to be changed under IC 36-2-1-2.

(f) A division under subsection (a), (b), or (c) may be made in any odd-numbered year not described in subsection (e).

(g) This subsection applies during the first year after a year in which a federal decennial census is conducted. If the county executive or county redistricting commission determines that a division under subsection (e) is not required, the county executive or county redistricting commission shall adopt an ordinance recertifying that the districts as drawn comply with this section.

(h) Each time there is a division under subsection (e) or (f) or a recertification under subsection (g), the county executive or county redistricting commission shall file with the circuit court clerk of the county, not later than thirty (30) days after the division or recertification occurs, a map of the district boundaries:

- (1) adopted under subsection (e) or (f); or
- (2) recertified under subsection (g).

(i) The limitations set forth in this section are part of the ordinance, but do not have to be specifically set forth in the ordinance. The ordinance must be construed, if possible, to comply with this chapter. If a provision of the ordinance or an application of the ordinance violates this chapter, the invalidity does not affect the other provisions or applications of the ordinance that can be given effect without the invalid provision or application. The provisions of the ordinance are severable.

(j) If a conflict exists between:

- (1) a map showing the boundaries of a district; and
- (2) a description of the boundaries of that district set forth in the ordinance;

the district boundaries are the description of the boundaries set forth in the ordinance, not the boundaries shown on the map, to the extent there is a conflict between the description and the map.

Election of fiscal body; division of county into districts; single-member district criteria; recertification of districts; filing with circuit court clerk; time for filing; district boundary description prevails over conflicting map

Sec. 4. (a) This subsection does not apply to a county having a population of:

(1) more than four hundred thousand (400,000) but less than seven hundred thousand (700,000); or

(2) more than two hundred fifty thousand (250,000) but less than two hundred seventy thousand (270,000).

The county executive shall, by ordinance, divide the county into four (4) contiguous, single-member districts that comply with subsection

(d). If necessary, the county auditor shall call a special meeting of the executive to establish or revise districts. One (1) member of the fiscal body shall be elected by the voters of each of the four (4) districts. Three (3) at-large members of the fiscal body shall be elected by the voters of the whole county.

(b) This subsection applies to a county having a population of more than four hundred thousand (400,000) but less than seven hundred thousand (700,000). The county redistricting commission established under IC 36-2-2-4 shall divide the county into seven (7) single-member districts that comply with subsection (d). One (1) member of the fiscal body shall be elected by the voters of each of these seven (7) single-member districts.

(c) This subsection applies to a county having a population of more than two hundred fifty thousand (250,000) but less than two hundred seventy thousand (270,000). The fiscal body shall divide the county into nine (9) single-member districts that comply with subsection (d). Three (3) of these districts must be contained within each of the three (3) districts established under IC 36-2-2-4(c). One (1) member of the fiscal body shall be elected by the voters of each of these nine (9) single-member districts.

(d) Single-member districts established under subsection (a), (b), or (c) must:

- (1) be compact, subject only to natural boundary lines (such as railroads, major highways, rivers, creeks, parks, and major industrial complexes);
- (2) not cross precinct boundary lines;
- (3) contain, as nearly as possible, equal population; and
- (4) include whole townships, except when a division is clearly necessary to accomplish redistricting under this section.

(e) Except as provided by subsection (g), a division under subsection (a), (b), or (c) shall be made:

- (1) during the first year after a year in which a federal decennial census is conducted; and
- (2) when the county executive adopts an order declaring a county boundary to be changed under IC 36-2-1-2.

(f) A division under subsection (a), (b), or (c) may be made in any odd-numbered year not described in subsection (e).

(g) This subsection applies during the first year after a year in which a federal decennial census is conducted. If the county executive, county redistricting commission, or county fiscal body determines that a division under subsection (e) is not required, the county executive, county redistricting commission, or county fiscal body shall adopt an ordinance recertifying that the districts as drawn comply with this section.

(h) Each time there is a division under subsection (e) or (f) or a recertification under subsection (g), the county executive, county redistricting commission, or county fiscal body shall file with the circuit court clerk of the county, not later than thirty (30) days after the division or recertification occurs, a map of the district boundaries:

- (1) adopted under subsection (e) or (f); or
- (2) recertified under subsection (g).

(i) The limitations set forth in this section are part of the ordinance, but do not have to be specifically set forth in the ordinance. The ordinance must be construed, if possible, to comply with this chapter. If a provision of the ordinance or an application of the ordinance violates this chapter, the invalidity does not affect the other provisions or applications of the ordinance that can be given effect without the invalid provision or application. The provisions of the ordinance are severable.

(j) If a conflict exists between:

- (1) a map showing the boundaries of a district; and
- (2) a description of the boundaries of that district set forth in the ordinance;

the district boundaries are the description of the boundaries set forth in the ordinance, not the boundaries shown on the map, to the extent there is a conflict between the description and the map.

Chapter 8.5. Election and Terms of Office of Certain County Officers

IC 36-2-8.5-1

"County office"; general assembly findings

Sec. 1. (a) As used in this section, "county office" has the meaning set forth in IC 36-1-8-15.

(b) The general assembly finds the following:

(1) That due to events that occurred at different times in Indiana's history, the beginning of the terms of certain elected county offices varies from a uniform date due to changes in the dates of general elections, vacancies in offices, and other events described by the Indiana supreme court in the following cases:

(A) Howard v. State, 10 Ind. 74 (Ind. 1857).

(B) Greible v. State, 12 N.E. 700 (Ind. 1887).

(C) State v. Menaugh, 51 N.E. 117 (Ind. 1898).

(D) Scott v. State, 52 N.E. 163 (Ind. 1898).

(2) That on many occasions at the beginning of the twentieth century, the general assembly attempted to standardize the beginning of the terms of county offices.

(3) That the voters of Indiana approved an amendment to Article 6, Section 2 of the Constitution of the State of Indiana at the November 2004 general election authorizing the general assembly to provide by law for uniform dates for beginning the terms of county offices.

(4) That the variation in the beginning dates of the terms of county offices is not a general condition but affects only a known and fixed set of county offices.

(5) That a statement of a rule applicable to each county office whose term varies from a uniform date would be clearer in application than a general statement of a rule to make the beginning of the terms of those county offices uniform.

(c) The general assembly enacts this chapter to:

(1) provide a rule applicable to each county office whose term of office deviates from a uniform date as of June 30, 2005; and

(2) implement Article 6, Section 2(b) of the Constitution of the State of Indiana to provide for a uniform date for beginning the terms of county offices described in Article 6, Section 2(a) of the Constitution of the State of Indiana.

Subject to subsection (e), if there is a vendor transaction card or discount fee, whether billed to the county recorder or charged directly to the county recorder's account, the county recorder shall collect a fee from the person using the bank card or credit card. (b) A county coroner or a coroner's deputy who receives an investigatory record from a law enforcement agency shall treat the investigatory record with the same confidentiality as the law enforcement agency would treat the investigatory record.

(c) Notwithstanding any other provision of this section, a coroner shall make available a full copy of an autopsy report, other than a photograph, a video recording, or an audio recording of the autopsy, upon the written request of a parent of the decedent, an adult child of the decedent, a next of kin of the decedent, or an insurance company investigating a claim arising from the death of the individual upon whom the autopsy was performed. A parent of the decedent, an adult child of the decedent, a next of kin of the decedent, and an insurance company are prohibited from publicly disclosing any information contained in the report beyond that information that may otherwise be disclosed by a coroner under this section. This prohibition does not apply to information disclosed in communications in conjunction with the investigation, settlement, or payment of the claim.

(d) Notwithstanding any other provision of this section, a coroner shall make available a full copy of an autopsy report, other than a photograph, a video recording, or an audio recording of the autopsy, upon the written request of:

The court shall state in the order the reasons for granting or denying the petition. An order issued under this subsection must use the least restrictive means and duration possible when restricting access to the information. Information to which access is restricted under this subsection is confidential.

(j) Any person may petition the court to modify or terminate an order issued under subsection (i). The petition for modification or termination must allege facts demonstrating that:

(1) the public interest will be served by allowing access; and

(2) access to the information specified in subsection (a) would not create a significant risk to the criminal investigation of the death.

The person petitioning the court for modification or termination shall serve a copy of the petition on the prosecuting attorney and the coroner.

(k) Upon receipt of a petition for modification or termination filed under subsection (j), the court may:

(1) summarily grant, modify, or dismiss the petition; or

(2) set the matter for hearing.

If the court sets the matter for hearing, upon the motion of any party or upon the court's own motion, the court may close the hearing to the public.

(l) If the person filing the petition for modification or termination proves by a preponderance of the evidence that:

- (1) the public interest will be served by allowing access; and
- (2) access to the information specified in subsection (a) would not create a significant risk to the criminal investigation of the death;

the court shall modify or terminate its order restricting access to the information. In ruling on a request under this subsection, the court shall state the court's reasons for granting or denying the request.

Information requests; medicolegal examinations; interference with postmortem examinations; denial of recovery

Sec. 22.6. (a) Upon request of a procurement organization, a coroner shall release to the procurement organization the name, contact information, and available medical and social history of a decedent whose body is under the jurisdiction of the coroner. If the decedent's body or part is medically suitable for transplantation, therapy, research, or education, the coroner shall release postmortem examination results to the procurement organization. The procurement organization may make a subsequent disclosure of the postmortem examination results or other information received from the coroner only if relevant to transplantation or therapy.

(b) The coroner may conduct a medicolegal examination by reviewing all medical records, laboratory test results, x-rays, other diagnostic results, and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the coroner which the coroner determines may be relevant to the investigation.

(c) A person that has any information requested by a coroner under subsection (b) shall provide that information as expeditiously as possible to allow the coroner to conduct the medicolegal investigation within a period compatible with the preservation of parts for the purpose of transplantation, therapy, research, or education.

(d) If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the coroner and a postmortem examination is not required, or the coroner determines that a postmortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the coroner and procurement organization shall cooperate in the timely removal of the part from the decedent for the purpose of transplantation, therapy, research, or education.

(e) If an anatomical gift of a part from the decedent under the jurisdiction of the coroner has been or might be made, but the coroner, in consultation with a pathologist, initially believes that the recovery of the part could interfere with the postmortem investigation into the decedent's cause or manner of death or interfere with the preservation or collection of evidence, the coroner and pathologist shall consult with the procurement organization or physician or technician designated by the procurement organization about the proposed recovery. After consultation, the coroner may allow the recovery, delay the recovery, or deny the recovery.

(f) Before the removal procedure, the coroner or designee may allow recovery by the procurement organization to proceed, or, if the coroner or designee reasonably believes that the part may be involved in determining the decedent's cause or manner of death or, in tissue procurement cases, if the coroner or designee determines

that, for evidentiary purposes, the body must remain undisturbed prior to autopsy, deny recovery by the procurement organization. The coroner or designee must be present at the scene before denying the recovery of a part. When practicable, the coroner and pathologist shall work with the procurement organization to facilitate removal of a part following any postmortem examination of the decedent.

(g) If the coroner or designee denies recovery under subsection (e) or (f), the coroner or designee shall:

- (1) explain in a record the specific reasons for not allowing recovery of the part;
- (2) include the specific reasons in the records of the coroner and forensic pathologist; and
- (3) provide a record with the specific reasons to the procurement organization and the state department of health.

(h) If the coroner or designee allows recovery of a part under subsection (d), (e), or (f), the procurement organization shall do the following:

- (1) At the request of the coroner or designee and when practicable, perform diagnostic studies that would aid in documenting the presence or absence of injuries.
- (2) Cause the physician or technician who removes the part to explain in a signed record the condition of the part, including the presence or absence of any injuries to the part or any surrounding tissue or organs.
- (3) Provide a copy of the record described in subdivision (2) to the coroner and the investigating law enforcement agency.
- (4) Cause the physician or technician who removes the part to photograph, collect, preserve, and maintain the appropriate chain of custody of any evidence that is found during procurement.
- (5) Cause the physician or technician who removes the part to collect blood and other bodily fluid samples as directed by the coroner or designee.
- (6) Cause the physician or technician who removes the part to, upon the request of the coroner or designee, photograph, biopsy, or provide any other information and observations concerning the part or body that would assist in the postmortem examination.

(i) If a coroner or designee must:

- (1) be present at a removal procedure under subsection (f); or
- (2) perform duties at times other than those that are usual and customary for the coroner or designee to maximize tissue or eye recovery under IC 29-2-16.1-21(b);

at the request of the coroner or designee, the procurement organization that requested the recovery of the part shall reimburse the coroner or designee for the additional costs incurred by the coroner or designee to comply with subsection (f) or IC 29-2-16.1-21(b).

Sec. 23. (a) Each coroner shall successfully complete the training course offered under section 22.3(a) of this chapter within six (6) months after taking office.

(b) Each deputy coroner shall successfully complete the training course offered under section 22.3(a) of this chapter within one (1) year after beginning employment with a coroner's office.

(c) Each coroner and each deputy coroner shall successfully complete the annual training course offered under section 22.3(b) of this chapter each year after the year in which the coroner or deputy coroner received the training required by section 22.3(a) of this chapter.

(d) After a coroner or deputy coroner has:

- (1) successfully completed the training course as required under subsection (a) or (b); and
- (2) successfully completed the annual training course as required under subsection (c);

the coroner or deputy coroner shall present a certificate or other evidence to the county executive, or in the case of a county that contains a consolidated city, the city-county council, that the coroner or deputy coroner has successfully completed the training required under subsection (a), (b), or (c).

(e) If a coroner or deputy coroner does not present a certificate or other evidence to the county executive, or in the case of a county that contains a consolidated city, the city-county council, that the coroner or deputy coroner has successfully completed the training required under subsection (a), (b), or (c), the county executive or city-county council shall order the auditor to withhold the paycheck of the coroner or deputy coroner until the coroner or deputy coroner satisfies the respective training requirements under subsections (a), (b), and (c), unless the county executive or city-county council adopts a resolution finding that:

- (1) the failure of the coroner or deputy coroner to complete the respective training requirements under subsections (a), (b), and (c) is the result of unusual circumstances;
- (2) the coroner or deputy coroner is making reasonable progress, under the circumstances, toward completing the respective training requirements under subsections (a), (b), and (c); and
- (3) in light of the unusual circumstances described in subdivision (1), withholding the paycheck of the coroner or deputy coroner would be unjust.

(f) If the county executive or city-county council orders an auditor to withhold a paycheck under subsection (e) and a coroner or deputy coroner later presents a certificate or other evidence to the county executive or city-county council that the coroner or deputy coroner has successfully completed training required under subsection (a),

(b), or (c), the county executive or city-county council shall order the auditor to release all of the coroner's or deputy coroner's paychecks that were withheld from the coroner or deputy coroner.

As added by P.L.157-2007, SEC.7. Amended by P.L.3-2008, SEC.260.

IC 36-2-14-24

Requirement for the release of autopsy and other reports; auditor to withhold pay if autopsy or other reports not timely released; withheld pay released upon release of autopsy or other reports; exception

Sec. 24. (a) Except as provided in subsection (b), if a coroner does not release a written report required under section 10 of this chapter or a full copy of an autopsy report required under section 18 of this chapter as required by law, the county executive, or in the case of a county containing a consolidated city, the city-county council, shall order the auditor to withhold the paycheck of the coroner until the coroner properly releases the written report or full autopsy report, unless the county executive or city-county council adopts a resolution finding that:

- (1) the failure of the coroner or deputy coroner to release the written report or full autopsy report is the result of unusual circumstances;
- (2) the coroner or deputy coroner is making reasonable progress, under the circumstances, toward completing and releasing the written report or full autopsy report; and
- (3) in light of the unusual circumstances described in subdivision (1), withholding the paycheck of the coroner or deputy coroner would be unjust.

(b) A county auditor may not withhold the paycheck of a coroner if a coroner is legally prohibited from releasing a written report or from releasing a full autopsy report. However, a coroner is required to release a written report or full autopsy report as soon as possible after the legal prohibition on releasing the written report or full autopsy report ceases to exist.

(c) If the county executive or city-county council orders an auditor to withhold a paycheck under subsection (a) and a coroner properly releases the written report or full autopsy report, the county executive or city-county council shall order the auditor to release all of the coroner's paychecks that were withheld from the coroner.

Chapter 1. Consolidation and Transfer of Powers

IC 36-3-1-0.3

General assembly findings

Sec. 0.3. The general assembly finds the following:

- (1) A consolidated city faces unique budget challenges due to a high demand for services combined with the large number of tax exempt properties located in a consolidated city as the seat of state government, home to several institutions of higher education, and home to numerous national, state, and regional nonprofit corporations.
- (2) By virtue of its size and population density, a consolidated city has unique overlapping territories of county and city government and an absence of unincorporated areas within its county.
- (3) Substantial operational efficiencies, reduction of administrative costs, and economies of scale may be obtained in a consolidated city through consolidation of certain county, city, and township functions.
- (4) Consolidation of certain county, city, and township services and operations will serve the public purpose by allowing the consolidated city to:
 - (A) eliminate duplicative services;
 - (B) provide better coordinated and more uniform delivery of local governmental services;
 - (C) provide uniform oversight and accountability for the budgets for local governmental services; and
 - (D) allow local government services to be provided more efficiently and at a lower cost than without consolidation.
- (5) Efficient and fiscally responsible operation of local government benefits the health and welfare of the citizens of a consolidated city and is of public utility and benefit.
- (6) The public purpose of those parts of P.L.227-2005 relating to a consolidated city is to provide a consolidated city with the means to perform essential governmental services for its citizens in an effective, efficient, and fiscally responsible manner.

(2) apply to employees of the department consolidated into the fire department of the consolidated city who become employees of the consolidated fire department.

(e) If the requirements of subsection (g) are satisfied and the fire department of an entity listed in subsection (a) is consolidated into the fire department of a consolidated city, the indebtedness related to fire protection services incurred before the effective date of the consolidation by the entity or a building, holding, or leasing corporation on behalf of the entity whose fire department is consolidated into the consolidated fire department under subsection (a) shall remain the debt of the entity and does not become and may not be assumed by the consolidated city. Indebtedness related to fire protection services that is incurred by the consolidated city before the effective date of the consolidation shall remain the debt of the consolidated city and property taxes levied to pay the debt may only be levied by the fire special service district.

(f) If the requirements of subsection (g) are satisfied and the fire department of an entity listed in subsection (a) is consolidated into the fire department of a consolidated city, the merit board and the merit system of the fire department that is consolidated are dissolved on the effective date of the consolidation, and the duties of the merit

board are transferred to and assumed by the merit board for the consolidated fire department on the effective date of the consolidation.

(g) A township legislative body, after approval by the township trustee, may adopt a resolution approving the consolidation of the township's fire department with the fire department of the consolidated city. A township legislative body may adopt a resolution under this subsection only after the township legislative body has held a public hearing concerning the proposed consolidation. The township legislative body shall hold the hearing not earlier than thirty (30) days after the date the resolution is introduced. The hearing shall be conducted in accordance with IC 5-14-1.5 and notice of the hearing shall be published in accordance with IC 5-3-1. If the township legislative body has adopted a resolution under this subsection, the township legislative body shall, after approval from the township trustee, forward the resolution to the legislative body of the consolidated city. If such a resolution is forwarded to the legislative body of the consolidated city and the legislative body of the consolidated city adopts an ordinance, approved by the mayor of the consolidated city, approving the consolidation of the fire department of the township into the fire department of the consolidated city, the requirements of this subsection are satisfied. The consolidation shall take effect on the date agreed to by the township legislative body in its resolution and by the legislative body of the consolidated city in its ordinance approving the consolidation.

(h) The following apply if the requirements of subsection (g) are satisfied:

(1) The consolidation of the fire department of that township is effective on the date agreed to by the township legislative body in the resolution and by the legislative body of the consolidated city in its ordinance approving the consolidation.

(2) Notwithstanding any other provision, a firefighter:

(A) who is a member of the 1977 fund before the effective date of a consolidation under this section; and

(B) who, after the consolidation, becomes an employee of the fire department of a consolidated city under this section; remains a member of the 1977 fund without being required to meet the requirements under IC 36-8-8-19 and IC 36-8-8-21. The firefighter shall receive credit for any service as a member of the 1977 fund before the consolidation to determine the firefighter's eligibility for benefits under IC 36-8-8.

(3) Notwithstanding any other provision, a firefighter:

(A) who is a member of the 1937 fund before the effective date of a consolidation under this section; and

(B) who, after the consolidation, becomes an employee of the fire department of a consolidated city under this section; remains a member of the 1937 fund. The firefighter shall receive credit for any service as a member of the 1937 fund before the consolidation to determine the firefighter's eligibility

for benefits under IC 36-8-7.

(4) For property taxes first due and payable in the year in which the consolidation is effective, the maximum permissible ad valorem property tax levy under IC 6-1.1-18.5:

(A) is increased for the consolidated city by an amount equal to the maximum permissible ad valorem property tax levy in the year preceding the year in which the consolidation is effective for fire protection and related services by the township whose fire department is consolidated into the fire department of the consolidated city under this section; and
(B) is reduced for the township whose fire department is consolidated into the fire department of the consolidated city under this section by the amount equal to the maximum permissible ad valorem property tax levy in the year preceding the year in which the consolidation is effective for fire protection and related services for the township.

(5) The amount levied in the year preceding the year in which the consolidation is effective by the township whose fire department is consolidated into the fire department of the consolidated city for the township's cumulative building and equipment fund for fire protection and related services is transferred on the effective date of the consolidation to the consolidated city's cumulative building and equipment fund for fire protection and related services, which is hereby established. The consolidated city is exempted from the requirements of IC 36-8-14 and IC 6-1.1-41 regarding establishment of the cumulative building and equipment fund for fire protection and related services.

(6) The local boards for the 1937 firefighters' pension fund and the 1977 police officers' and firefighters' pension and disability fund of the township are dissolved, and their services are terminated not later than the effective date of the consolidation. The duties performed by the local boards under IC 36-8-7 and IC 36-8-8, respectively, are assumed by the consolidated city's local board for the 1937 firefighters' pension fund and local board for the 1977 police officers' and firefighters' pension and disability fund, respectively. Notwithstanding any other provision, the legislative body of the consolidated city may adopt an ordinance to adjust the membership of the consolidated city's local board to reflect the consolidation.

(7) The consolidated city may levy property taxes within the consolidated city's maximum permissible ad valorem property tax levy limit to provide for the payment of the expenses for the operation of the consolidated fire department. However, property taxes to fund the pension obligation under IC 36-8-7 for members of the 1937 firefighters fund who were employees of the consolidated city at the time of the consolidation may be levied only by the fire special service district within the fire special service district. The fire special service district established under IC 36-3-1-6 may levy property taxes to

provide for the payment of expenses for the operation of the consolidated fire department within the territory of the fire special service district. Property taxes to fund the pension obligation under IC 36-8-8 for members of the 1977 police officers' and firefighters' pension and disability fund who were members of the fire department of the consolidated city on the effective date of the consolidation may be levied only by the fire special service district within the fire special service district. Property taxes to fund the pension obligation for members of the 1937 firefighters fund who were not members of the fire department of the consolidated city on the effective date of the consolidation and members of the 1977 police officers' and firefighters' pension and disability fund who were not members of the fire department of the consolidated city on the effective date of the consolidation may be levied by the consolidated city within the city's maximum permissible ad valorem property tax levy. However, these taxes may be levied only within the fire special service district and any townships that have consolidated fire departments under this section.

(8) The executive of the consolidated city shall provide for an independent evaluation and performance audit, due before March 1 of the year in which the consolidation is effective and before March 1 in each of the following two (2) years, to determine:

(A) the amount of any cost savings, operational efficiencies, or improved service levels; and

(B) any tax shifts among taxpayers;

that result from the consolidation. The independent evaluation and performance audit must be provided to the legislative council in an electronic format under IC 5-14-6 and to the state budget committee.

When these functions are transferred in this manner, the property, records, personnel, rights, and liabilities related to the functions are likewise transferred, except that the city-county legislative body may, by ordinance, provide that they be transferred to a different agency.

(b) Notwithstanding subsection (a), these obligations are transferred as follows when a first class city becomes a consolidated city:

- (3) a mass transportation authority of the county; or
- (4) any other municipal corporation the functions of which are transferred to the consolidated city by this title;

becomes an ordinance of the consolidated city and shall be enforced only by the consolidated city.

(b) Such an ordinance continues to apply only in the territory in which it applied before becoming an ordinance of the consolidated city, subject to subsection (c).

(c) Such an ordinance may be codified, amended, or repealed by

the city-county legislative body in the same manner as other ordinances under this title.

- (2) If the annexation is by another municipality in the county, it has the effect of expanding the municipality as an excluded city or included town.

As added by Acts 1980, P.L.212, SEC.2.

- (1) the power to levy and collect property taxes in furtherance of functions not transferred to the consolidated city; and
- (2) if applicable, the power to adopt and enforce ordinances prescribing a penalty for violation.

In addition, an excluded city or included town continues to have the right to receive distributions of revenues collected by the state, in the manner prescribed by statute, including distributions from the motor vehicle highway account, the cigarette tax fund, alcoholic beverage fees, and other tax revenues.

- (3) After receiving the petition, the works board shall:

Sec. 5. (a) An included town has home rule powers under IC 36-1-3, including all the powers that municipalities of its class have according to law. However, an included town may not:

- (1) enforce an ordinance or regulation that is in conflict with or permits a lesser standard than an applicable ordinance or regulation of the consolidated city; or
- (2) issue general obligation bonds.

(b) An included town that wants to annex territory inside the county may annex only territory that is outside the corporate boundaries of the excluded cities in the county. This subsection applies notwithstanding IC 36-4-3-2; however:

Sec. 6. A conservancy district located wholly or partially inside the corporate boundaries of the consolidated city has all the powers granted it by statute. However, it may not:

- (1) enforce a regulation that is in conflict with or permits a lesser standard than an applicable ordinance or regulation of the consolidated city; or
- (2) issue general obligation bonds.

As added by Acts 1980, P.L.212, SEC.2.

IC 36-3-2-7

Transfer of territory; procedure

Sec. 7. (a) This section governs the transfer of territory that is either:

- (1) inside the corporate boundaries of the consolidated city and contiguous to an excluded city; or
- (2) inside the corporate boundaries of an excluded city and contiguous to the consolidated city.

IC 36-4-3 does not apply to such a transfer.

(b) If the owners of land located in territory described in subsection (a) want to have that territory transferred from one (1) municipality to the other, they must file:

- (1) a petition for annexation of that territory with the legislative body of the contiguous municipality; and
- (2) a petition for disannexation of that territory with the legislative body of the municipality containing that territory.

Each petition must be signed by at least fifty-one percent (51%) of the owners of land in the territory sought to be transferred. The territory must be reasonably compact in configuration, and its boundaries must generally follow streets or natural boundaries.

(c) Each legislative body shall, not later than sixty (60) days after a petition is filed with it under subsection (b), either approve or disapprove the petition, with the following results:

- (1) Except as provided in subsection (g), if both legislative bodies approve, the transfer of territory takes effect:
 - (A) on the effective date of the approval of the latter legislative body to act; and
 - (B) when a copy of each transfer approval has been filed under subsection (f).
- (2) If the legislative body of the contiguous municipality disapproves or fails to act within the prescribed period, the proceedings are terminated.
- (3) If the legislative body of the contiguous municipality approves but the legislative body of the other municipality disapproves or fails to act within the prescribed period, the proceedings are terminated unless there is an appeal under subsection (d).

(d) In the case described by subsection (c)(3), the petitioners may, not later than sixty (60) days after the disapproval or expiration of the prescribed period, appeal to the circuit court. The appeal must allege that the benefits to be derived by the petitioners from the

transfer outweigh the detriments to the municipality that has failed to approve, which is defendant in the appeal.

(e) The court shall try an appeal under subsection (d) as other civil actions, but without a jury. If the court determines that:

- (1) the requirements of this section have been met; and
- (2) the benefits to be derived by the petitioners outweigh the detriments to the municipality;

it shall order the transfer of territory to take effect on the date its order becomes final, subject to subsection (g), and shall file the order under subsection (f). However, if the municipality, or a district of it, is furnishing sanitary sewer service or municipal water service in the territory, or otherwise has expended substantial sums for public facilities (other than roads) specially benefiting the territory, the court shall deny the transfer.

(f) A municipal legislative body that approves a transfer of territory under subsection (c) or a court that approves a transfer under subsection (e) shall file a copy of the approval or order, setting forth a legal description of the territory to be transferred, with:

- (1) the office of the secretary of state; and
- (2) the circuit court clerk of each county in which the municipality is located.

(g) A transfer of territory under this section may not take effect during the year preceding a year in which a federal decennial census is conducted. A transfer of territory that would otherwise take effect during the year preceding a year in which a federal decennial census is conducted takes effect January 1 of the year in which a federal decennial census is conducted.

(h) A petition for annexation or disannexation under this section may not be filed with respect to land as to which a transfer of territory has been disapproved or denied within the preceding three (3) years.

(i) The legislative body of a municipality annexing territory under this section shall assign the territory to at least one (1) municipal legislative body district under IC 36-3-4-3 or IC 36-4-6 not later than thirty (30) days after the transfer of territory becomes effective under this section.

(j) Notwithstanding subsection (g) as that subsection existed on December 31, 2009, a transfer of territory that took effect January 2, 2010, because of the application of subsection (g), as that subsection existed on December 31, 2009, is instead considered to take effect January 1, 2010, without any additional action being required.

- (3) That the appropriate maximum payments in lieu of taxes would be the amount of the property taxes that would be paid if the tangible property were not subject to an exemption.

(b) As used in this section, the following terms have the meanings set forth in IC 6-1.1-1:

- (2) Exemption.

The ordinance remains in full force and effect until repealed or modified by the legislative body.

(g) PILOTS shall be imposed as are property taxes and shall be based on the assessed value of the tangible property described in subsection (e). Except as provided in subsection (l), the township assessor, or the county assessor if there is no township assessor for the township, shall assess the tangible property described in subsection (e) as though the property were not subject to an exemption. The public entity shall report the value of personal property in a manner consistent with IC 6-1.1-3.

(i) PILOTS shall be deposited in the consolidated county fund and used for any purpose for which the consolidated county fund may be used.

(j) PILOTS shall be due as set forth in the ordinance and bear interest, if unpaid, as in the case of other taxes on property. PILOTS shall be treated in the same manner as taxes for purposes of all procedural and substantive provisions of law.

The ordinance remains in full force and effect until repealed or modified by the legislative body, subject to the approval of the property owner.

(e) The PILOTS must be calculated so that the PILOTS are in an amount that is:

(1) agreed upon by the property owner and the legislative body of the consolidated city;

(2) a percentage of the property taxes that would have been levied by the legislative body for the consolidated city and the county upon the real property described in subsection (d) if the property were not subject to an exemption from property taxation; and

Sec. 3. (a) The city-county legislative body shall, by ordinance, divide the whole county into twenty-five (25) districts that:

- (1) are compact, subject only to natural boundary lines (such as railroads, major highways, rivers, creeks, parks, and major industrial complexes);
- (2) contain, as nearly as is possible, equal population; and
- (3) do not cross precinct boundary lines.

Except as provided by subsection (f), this division shall be made during the second year after a year in which a federal decennial census is conducted and may also be made at any other time, subject to IC 3-11-1.5-32.

(b) The legislative body is composed of twenty-five (25) members elected from the districts established under subsection (a) and four (4) members elected from an at-large district containing the whole county.

(c) Each voter of the county may vote for four (4) candidates for at-large membership and one (1) candidate from the district in which the voter resides. The four (4) at-large candidates receiving the most votes from the whole county and the district candidates receiving the most votes from their respective districts are elected to the legislative body.

(d) If the legislative body fails to make the division before the date prescribed by subsection (a) or the division is alleged to violate subsection (a) or other law, a taxpayer or registered voter of the county may petition the superior court of the county to hear and determine the matter. The court shall hear and determine the matter as a five (5) member panel of judges from the superior court. The clerk of the court shall select the judges electronically and randomly. Not more than three (3) members of the five (5) member panel of judges may be of the same political party. The first judge selected shall maintain the case file and preside over the proceedings. There may not be a change of venue from the court or from the county. The court may appoint a master to assist in its determination and may draw proper district boundaries if necessary. An appeal from the court's judgment must be taken within thirty (30) days, directly to the supreme court, in the same manner as appeals from other actions.

(e) An election of the legislative body held under the ordinance or court judgment determining districts that is in effect on the date of the election is valid, regardless of whether the ordinance or judgment is later determined to be invalid.

(f) This subsection applies during the second year after a year in which a federal decennial census is conducted. If the legislative body

determines that a division under subsection (a) is not required, the legislative body shall adopt an ordinance recertifying that the districts as drawn comply with this section.

(g) Each time there is a division under subsection (a) or a recertification under subsection (f), the legislative body shall file with the circuit court clerk of the county, not later than thirty (30) days after the division or recertification occurs, a map of the district boundaries:

- (1) adopted under subsection (a); or
- (2) recertified under subsection (f).

(h) The limitations set forth in this section are part of the ordinance, but do not have to be specifically set forth in the ordinance. The ordinance must be construed, if possible, to comply with this chapter. If a provision of the ordinance or an application of the ordinance violates this chapter, the invalidity does not affect the other provisions or applications of the ordinance that can be given effect without the invalid provision or application. The provisions of the ordinance are severable.

(i) If a conflict exists between:

- (1) a map showing the boundaries of a district; and
- (2) a description of the boundaries of that district set forth in the ordinance;

the district boundaries are the description of the boundaries set forth in the ordinance, not the boundaries shown on the map, to the extent there is a conflict between the description and the map.

(i) Not later than December 15, the controller shall make a determination as to whether the anticipated revenues for the succeeding calendar year will be adequate to support the appropriations adopted by the county fiscal body for the succeeding calendar year. The controller's determination must take into consideration the need to maintain adequate reserves for the city and county.

(j) If, in the controller's judgment, the anticipated revenues are adequate to support the appropriation adopted by the county fiscal

body, the controller shall approve the proposed allotment schedule as submitted by an office, department, or agency.

(k) If, in the controller's judgment, the anticipated revenues are not adequate to support the appropriation adopted by the county fiscal body, the controller shall revise the proposed allotment schedule as submitted by an office, department, or agency to reflect anticipated revenues.

(l) If, after the controller approves the allotment schedule under subsection (j), the controller determines during the calendar year that the anticipated revenues are not adequate to support the appropriation adopted by the county fiscal body, the controller may revise the proposed allotment schedules as submitted by an office, department, or agency to reflect anticipated revenues.

(m) If, after the controller revises the proposed allotment schedule under subsection (k), the controller determines during the calendar year that the anticipated revenues are adequate to support the appropriation adopted by the county fiscal body, the controller shall revise the proposed allotment schedules up to one hundred percent (100%) of the amount of the appropriation adopted by the county fiscal body for an office, department, or agency.

(n) The controller shall notify every office, department, or agency of the allotments:

Sec. 5. (a) If the owners of land located outside of but contiguous to a municipality want to have territory containing that land annexed to the municipality, they may file with the legislative body of the municipality a petition:

(1) signed by at least:

(A) fifty-one percent (51%) of the owners of land in the territory sought to be annexed; or

(B) the owners of seventy-five percent (75%) of the total assessed value of the land for property tax purposes; and

(2) requesting an ordinance annexing the area described in the petition.

(b) The petition circulated by the landowners must include on each page where signatures are affixed a heading that is substantially similar to the following:

"PETITION FOR ANNEXATION INTO THE (insert whether city or town) OF (insert name of city or town)."

(c) Except as provided in section 5.1 of this chapter, if the legislative body fails to pass the ordinance within one hundred fifty (150) days after the date of filing of a petition under subsection (a), the petitioners may file a duplicate copy of the petition in the circuit or superior court of a county in which the territory is located, and

shall include a written statement of why the annexation should take place. Notice of the proceedings, in the form of a summons, shall be served on the municipality named in the petition. The municipality is the defendant in the cause and shall appear and answer.

(d) The court shall hear and determine the petition without a jury, and shall order the proposed annexation to take place only if the evidence introduced by the parties establishes that:

- (1) essential municipal services and facilities are not available to the residents of the territory sought to be annexed;
- (2) the municipality is physically and financially able to provide municipal services to the territory sought to be annexed;
- (3) the population density of the territory sought to be annexed is at least three (3) persons per acre; and

If the evidence does not establish all four (4) of the preceding factors, the court shall deny the petition and dismiss the proceeding.

(e) This subsection does not apply to a town that has abolished town legislative body districts under IC 36-5-2-4.1. An ordinance adopted under this section must assign the territory annexed by the ordinance to at least one (1) municipal legislative body district.

Petitions signed by 100% of landowners

Sec. 5.1. (a) This section applies to an annexation in which owners of land located outside but contiguous to a municipality file a petition with the legislative body of the municipality:

- (1) requesting an ordinance annexing the area described in the petition; and
- (2) signed by one hundred percent (100%) of the landowners that reside within the territory that is proposed to be annexed.

(b) Sections 2.1 and 2.2 of this chapter do not apply to an annexation under this section.

(c) The petition circulated by the landowners must include on each page where signatures are affixed a heading that is substantially similar to the following:

"PETITION FOR ANNEXATION INTO THE (insert whether city or town) OF (insert name of city or town).".

(d) The municipality may:

- (1) adopt an annexation ordinance annexing the territory; and
- (2) adopt a fiscal plan and establish a definite policy by resolution of the legislative body;

after the legislative body has held a public hearing on the proposed annexation.

(e) The municipality may introduce and hold the public hearing on the annexation ordinance not later than thirty (30) days after the

petition is filed with the legislative body. Notice of the public hearing may be published one (1) time in accordance with IC 5-3-1 at least twenty (20) days before the hearing. All interested parties must have the opportunity to testify at the hearing as to the proposed annexation.

(f) The municipality may adopt the annexation ordinance not earlier than fourteen (14) days after the public hearing under subsection (e).

(g) A landowner may withdraw the landowner's signature from the petition not more than thirteen (13) days after the municipality adopts the fiscal plan by providing written notice to the office of the clerk of the municipality. If a landowner withdraws the landowner's signature, the petition shall automatically be considered a voluntary petition that is filed with the legislative body under section 5 of this chapter, fourteen (14) days after the date the fiscal plan is adopted. All provisions applicable to a petition initiated under section 5 of this chapter apply to the petition.

(h) If the municipality does not adopt an annexation ordinance within sixty (60) days after the landowners file the petition with the legislative body, the landowners may file a duplicate petition with the circuit or superior court of a county in which the territory is located. The court shall determine whether the annexation shall take place as set forth in section 5 of this chapter.

(i) A remonstrance under section 11 of this chapter may not be filed. However, an appeal under section 15.5 of this chapter may be filed.

(j) In the absence of an appeal under section 15.5 of this chapter, an annexation ordinance adopted under this section takes effect not less than thirty (30) days after the adoption of the ordinance and upon the filing and recording of the ordinance under section 22 of this chapter.

IC 36-4-3-7

Publication of adopted ordinance; effectiveness; fire protection districts

Sec. 7. (a) After an ordinance is adopted under section 3, 4, 5, or 5.1 of this chapter, it must be published in the manner prescribed by IC 5-3-1. Except as provided in subsection (b), (c), or (f), in the

absence of remonstrance and appeal under section 11 or 15.5 of this chapter, the ordinance takes effect at least ninety (90) days after its publication and upon the filing required by section 22(a) of this chapter.

(b) An ordinance described in subsection (d) or adopted under section 3, 4, 5, or 5.1 of this chapter may not take effect during the year preceding a year in which a federal decennial census is conducted. An ordinance that would otherwise take effect during the year preceding a year in which a federal decennial census is conducted takes effect January 1 of the year in which a federal decennial census is conducted.

(c) Subsections (d) and (e) apply to fire protection districts that are established after June 14, 1987.

(d) Except as provided in subsection (b), whenever a municipality annexes territory, all or part of which lies within a fire protection district (IC 36-8-11), the annexation ordinance (in the absence of remonstrance and appeal under section 11 or 15.5 of this chapter) takes effect the second January 1 that follows the date the ordinance is adopted and upon the filing required by section 22(a) of this chapter. The municipality shall:

(1) provide fire protection to that territory beginning the date the ordinance is effective; and

(2) send written notice to the fire protection district of the date the municipality will begin to provide fire protection to the annexed territory within ten (10) days of the date the ordinance is adopted.

(e) If the fire protection district from which a municipality annexes territory under subsection (d) is indebted or has outstanding unpaid bonds or other obligations at the time the annexation is effective, the municipality is liable for and shall pay that indebtedness in the same ratio as the assessed valuation of the property in the annexed territory (that is part of the fire protection district) bears to the assessed valuation of all property in the fire protection district, as shown by the most recent assessment for taxation before the annexation, unless the assessed property within the municipality is already liable for the indebtedness. The annexing municipality shall pay its indebtedness under this section to the board of fire trustees. If the indebtedness consists of outstanding unpaid bonds or notes of the fire protection district, the payments to the board of fire trustees shall be made as the principal or interest on the bonds or notes becomes due.

(f) This subsection applies to an annexation initiated by property owners under section 5.1 of this chapter in which all property owners within the area to be annexed petition the municipality to be annexed. Subject to subsections (b) and (d), and in the absence of an appeal under section 15.5 of this chapter, an annexation ordinance takes effect at least thirty (30) days after its publication and upon the filing required by section 22(a) of this chapter.

Immediate effectiveness of certain annexations

Sec. 7.1. Notwithstanding section 7(b) of this chapter, an ordinance adopted under section 4 of this chapter takes effect immediately upon the expiration of the sixty (60) day remonstrance and appeal period under section 11 or 15.5 of this chapter and after the publication, filing, and recording required by section 22(a) of this chapter if all of the following conditions are met:

- (1) The annexed territory has no population.
- (2) Ninety percent (90%) of the total assessed value of the land for property tax purposes has one (1) owner.
- (3) The annexation is required to fulfill an economic development incentive package and to retain an industry through various local incentives, including urban enterprise zone benefits.

Terms and conditions in adopted ordinance

Sec. 8. (a) This section does not apply to an ordinance adopted under section 5 or 5.1 of this chapter.

(b) An ordinance adopted under section 3 or 4 of this chapter must include terms and conditions fairly calculated to make the annexation equitable to the property owners and residents of the municipality and the annexed territory. The terms and conditions may include:

- (1) postponing the effective date of the annexation for not more than three (3) years; and
- (2) establishing equitable provisions for the future management and improvement of the annexed territory and for the rendering of needed services.

(c) This subsection applies to territory sought to be annexed that meets all of the following requirements:

- (1) The resident population density of the territory is at least three (3) persons per acre.
- (2) The territory is subdivided or is parceled through separate ownerships into lots or parcels such that at least sixty percent (60%) of the total number of lots and parcels are not more than one (1) acre.

This subsection does not apply to an ordinance annexing territory described in section 4(a)(2), 4(a)(3), 4(b), or 4(h) of this chapter. The ordinance must include terms and conditions impounding in a special fund all of the municipal property taxes imposed on the annexed territory after the annexation takes effect that are not used to meet the basic services described in section 13(d)(4) and 13(d)(5) of this chapter for a period of at least three (3) years. The impounded property taxes must be used to provide additional services that were not specified in the plan of annexation. The impounded property taxes in the fund shall be expended as set forth in this section, not

later than five (5) years after the annexation becomes effective.

(b) An advisory board shall be appointed not later than ninety (90) days after an annexation becomes effective by the filing prescribed under section 22 of this chapter.

(c) An advisory board consists of the following seven (7) members:

(1) The township trustee of the township with the largest number of residents living within the annexed territory.

(2) One (1) member of the county fiscal body representing the district with the largest number of residents living within the annexed territory.

(B) reside within;

the annexed territory.

(d) Four (4) members of the board constitute a quorum. An affirmative vote of four (4) members is required for the board to take action.

(e) A member of the board may not receive a salary. A member may receive reimbursement for necessary expenses, but only when those necessary expenses are incurred in the performance of the member's respective duties.

(f) A vacancy on the board shall be filled by the appointing authority.

(g) The board shall serve for not longer than the date all municipal property taxes impounded in the fund are expended.

(b) An ordinance adopted under subsection (a) must provide the following:

(1) A tax abatement program that is in effect for not more than three (3) taxable years after an annexation occurs.

(A) seventy-five percent (75%) of a taxpayer's liability in the first year of the abatement program;

(B) fifty percent (50%) of a taxpayer's liability in the second year of the abatement program; and

(C) twenty-five percent (25%) of a taxpayer's liability in the third year of the abatement program.

Town annexing within proximity of city

Sec. 9. (a) A town must obtain the consent of both the metropolitan development commission and the legislative body of a county having a consolidated city before annexing territory within the county where a consolidated city is located.

(b) A town may not annex within an area that extends one (1) mile

outside the corporate boundaries of a second or third class city. A town may annex within the area that extends:

- (1) more than one (1) mile; and
- (2) not more than three (3) miles;

outside the corporate boundaries of a second or third class city, if the annexation by the town does not include territory that extends more than one (1) mile outside the corporate boundaries of the town.

(c) Subsection (b) does not apply to:

- (1) a town that proposes to annex territory located in a different county than the city; or
- (2) an annexation by a town that is:
 - (A) an annexation under section 5 or 5.1 of this chapter; or
 - (B) consented to by at least fifty-one percent (51%) of the owners of land in the territory the town proposes to annex.

(d) In determining the total number of landowners of the annexed territory and whether signers of a consent under subsection (c)(2)(B) are landowners, the names appearing on the tax duplicate for that territory constitute prima facie evidence of ownership. Only one (1) person having an interest in each single property, as evidenced by the tax duplicate, is considered a landowner for purposes of this section.

(e) Each municipality that is known as an included town under IC 36-3-1-7 is also considered a town for purposes of this section.
As added by Acts 1980, P.L.212, SEC.3. Amended by Acts 1980, P.L.213, SEC.5; P.L.257-1993, SEC.2; P.L.224-2001, SEC.9; P.L.170-2002, SEC.143; P.L.111-2005, SEC.5; P.L.243-2013, SEC.2.

IC 36-4-3-9.1

Annexation of territory within county; requirements

Sec. 9.1. A municipality may annex territory within a county only if:

- (1) part or all of that municipality was within the county on January 1, 1982; or
- (2) the consent of the executive of the county is first obtained.

As added by Acts 1982, P.L.210, SEC.2.

IC 36-4-3-10

Liability of annexing municipality for indebtedness or other obligations of township; payment

Sec. 10. (a) If the township from which a municipality annexes territory is indebted or has outstanding unpaid bonds or other obligations at the time of the annexation, the municipality is liable for and shall pay that indebtedness in the same ratio as the assessed valuation of the property in the annexed territory bears to the assessed valuation of all property in the township, as shown by the most recent assessment for taxation before the annexation, unless the assessed property within the municipality is already liable for the indebtedness.

(b) The annexing municipality shall pay its indebtedness under this section to the township executive. If the indebtedness consists of

outstanding unpaid bonds or notes of the township, the payments to the executive shall be made as the principal or interest on the bonds or notes becomes due.

As added by Acts 1980, P.L.212, SEC.3.

IC 36-4-3-11

Remonstrances; filing; determination of signatures; hearing

Sec. 11. (a) Except as provided in section 5.1(i) of this chapter and subsections (d) and (e), whenever territory is annexed by a municipality under this chapter, the annexation may be appealed by filing with the circuit or superior court of a county in which the annexed territory is located a written remonstrance signed by:

- (1) at least sixty-five percent (65%) of the owners of land in the annexed territory; or
- (2) the owners of more than seventy-five percent (75%) in assessed valuation of the land in the annexed territory.

The remonstrance must be filed within ninety (90) days after the publication of the annexation ordinance under section 7 of this chapter, must be accompanied by a copy of that ordinance, and must state the reason why the annexation should not take place.

(b) On receipt of the remonstrance, the court shall determine whether the remonstrance has the necessary signatures. In determining the total number of landowners of the annexed territory and whether signers of the remonstrance are landowners, the names appearing on the tax duplicate for that territory constitute prima facie evidence of ownership. Only one (1) person having an interest in each single property, as evidenced by the tax duplicate, is considered a landowner for purposes of this section.

(c) If the court determines that the remonstrance is sufficient, it shall fix a time, within sixty (60) days of its determination, for a hearing on the remonstrance. Notice of the proceedings, in the form of a summons, shall be served on the annexing municipality. The municipality is the defendant in the cause and shall appear and answer.

(d) If an annexation is initiated by property owners under section 5.1 of this chapter and all property owners within the area to be annexed petition the municipality to be annexed, a remonstrance to the annexation may not be filed under this section.

(e) This subsection applies if:

- (1) the territory to be annexed consists of not more than one hundred (100) parcels; and
- (2) eighty percent (80%) of the boundary of the territory proposed to be annexed is contiguous to the municipality.

An annexation may be appealed by filing with the circuit or superior court of a county in which the annexed territory is located a written remonstrance signed by at least seventy-five percent (75%) of the owners of land in the annexed territory as determined under subsection (b).

IC 36-4-3-11.5

Waiver of remonstrance not required

Sec. 11.5. A landowner in an unincorporated area is not required to grant a municipality a waiver against remonstrance as a condition of connection to a sewer or water service if all of the following conditions apply:

- (1) The landowner is required to connect to the sewer or water service because a person other than the landowner has polluted or contaminated the area.
- (2) A person other than the landowner or the municipality has paid the cost of connection to the service.

As added by P.L.172-1995, SEC.4.

IC 36-4-3-12

Remonstrances; hearing; judgment; effective date of annexation

Sec. 12. (a) The circuit or superior court shall:

- (1) on the date fixed under section 11 of this chapter, hear and determine the remonstrance without a jury; and
- (2) without delay, enter judgment on the question of the annexation according to the evidence that either party may introduce.

(b) If the court enters judgment in favor of the annexation, the annexation may not take effect during the year preceding the year in which a federal decennial census is conducted. An annexation that would otherwise take effect during the year preceding a year in which a federal decennial census is conducted takes effect January 1 of the year in which a federal decennial census is conducted.

IC 36-4-3-13

Remonstrances; hearing; order; requirements

Sec. 13. (a) Except as provided in subsections (e) and (g), at the hearing under section 12 of this chapter, the court shall order a proposed annexation to take place if the following requirements are met:

- (1) The requirements of either subsection (b) or (c).
- (2) The requirements of subsection (d).

(b) The requirements of this subsection are met if the evidence establishes the following:

- (1) That the territory sought to be annexed is contiguous to the municipality.
- (2) One (1) of the following:
 - (A) The resident population density of the territory sought to be annexed is at least three (3) persons per acre.
 - (B) Sixty percent (60%) of the territory is subdivided.
 - (C) The territory is zoned for commercial, business, or industrial uses.

(c) The requirements of this subsection are met if the evidence establishes the following:

- (1) That the territory sought to be annexed is contiguous to the municipality as required by section 1.5 of this chapter, except that at least one-fourth (1/4), instead of one-eighth (1/8), of the aggregate external boundaries of the territory sought to be annexed must coincide with the boundaries of the municipality.
- (2) That the territory sought to be annexed is needed and can be used by the municipality for its development in the reasonably near future.

(d) The requirements of this subsection are met if the evidence establishes that the municipality has developed and adopted a written fiscal plan and has established a definite policy, by resolution of the legislative body as set forth in section 3.1 of this chapter. The fiscal plan must show the following:

- (1) The cost estimates of planned services to be furnished to the territory to be annexed. The plan must present itemized estimated costs for each municipal department or agency.
- (2) The method or methods of financing the planned services. The plan must explain how specific and detailed expenses will be funded and must indicate the taxes, grants, and other funding to be used.
- (3) The plan for the organization and extension of services. The plan must detail the specific services that will be provided and the dates the services will begin.
- (4) That planned services of a noncapital nature, including police protection, fire protection, street and road maintenance, and other noncapital services normally provided within the corporate boundaries, will be provided to the annexed territory within one (1) year after the effective date of annexation and that they will be provided in a manner equivalent in standard and scope to those noncapital services provided to areas within the corporate boundaries regardless of similar topography, patterns of land use, and population density.
- (5) That services of a capital improvement nature, including street construction, street lighting, sewer facilities, water facilities, and stormwater drainage facilities, will be provided to the annexed territory within three (3) years after the effective date of the annexation in the same manner as those services are provided to areas within the corporate boundaries, regardless of similar topography, patterns of land use, and population density, and in a manner consistent with federal, state, and local laws, procedures, and planning criteria.

(e) At the hearing under section 12 of this chapter, the court shall do the following:

- (1) Consider evidence on the conditions listed in subdivision (2).
- (2) Order a proposed annexation not to take place if the court finds that all of the conditions set forth in clauses (A) through (D) and, if applicable, clause (E) exist in the territory proposed

to be annexed:

(A) The following services are adequately furnished by a provider other than the municipality seeking the annexation:

- (i) Police and fire protection.
- (ii) Street and road maintenance.

(B) The annexation will have a significant financial impact on the residents or owners of land.

(C) The annexation is not in the best interests of the owners of land in the territory proposed to be annexed as set forth in subsection (f).

(D) One (1) of the following opposes the annexation:

- (i) At least sixty-five percent (65%) of the owners of land in the territory proposed to be annexed.
- (ii) The owners of more than seventy-five percent (75%) in assessed valuation of the land in the territory proposed to be annexed.

Evidence of opposition may be expressed by any owner of land in the territory proposed to be annexed.

(E) This clause applies only to an annexation in which eighty percent (80%) of the boundary of the territory proposed to be annexed is contiguous to the municipality and the territory consists of not more than one hundred (100) parcels. At least seventy-five percent (75%) of the owners of land in the territory proposed to be annexed oppose the annexation as determined under section 11(b) of this chapter.

(f) The municipality under subsection (e)(2)(C) bears the burden of proving that the annexation is in the best interests of the owners of land in the territory proposed to be annexed. In determining this issue, the court may consider whether the municipality has extended sewer or water services to the entire territory to be annexed:

- (1) within the three (3) years preceding the date of the introduction of the annexation ordinance; or
- (2) under a contract in lieu of annexation entered into under IC 36-4-3-21.

The court may not consider the provision of water services as a result of an order by the Indiana utility regulatory commission to constitute the provision of water services to the territory to be annexed.

(g) This subsection applies only to cities located in a county having a population of more than two hundred fifty thousand (250,000) but less than two hundred seventy thousand (270,000). However, this subsection does not apply if on April 1, 1993, the entire boundary of the territory that is proposed to be annexed was contiguous to territory that was within the boundaries of one (1) or more municipalities. At the hearing under section 12 of this chapter, the court shall do the following:

- (1) Consider evidence on the conditions listed in subdivision (2).
- (2) Order a proposed annexation not to take place if the court finds that all of the following conditions exist in the territory proposed to be annexed:

(A) The following services are adequately furnished by a provider other than the municipality seeking the annexation:

- (i) Police and fire protection.
- (ii) Street and road maintenance.

(B) The annexation will have a significant financial impact on the residents or owners of land.

(C) One (1) of the following opposes the annexation:

- (i) A majority of the owners of land in the territory proposed to be annexed.
- (ii) The owners of more than seventy-five percent (75%) in assessed valuation of the land in the territory proposed to be annexed.

Evidence of opposition may be expressed by any owner of land in the territory proposed to be annexed.

(h) The most recent:

Sec. 14. In a hearing under section 12 of this chapter, the laws providing for change of venue from the county do not apply, but changes of venue from the judge may be had as in other cases. As added by Acts 1980, P.L.212, SEC.3.

IC 36-4-3-15

Remonstrances; judgment; repeal of annexation; effective date of annexation

Sec. 15. (a) The court's judgment under section 12 or 15.5 of this chapter must specify the annexation ordinance on which the remonstrance is based. The clerk of the court shall deliver a certified copy of the judgment to the clerk of the municipality. The clerk of the municipality shall:

- (1) record the judgment in the clerk's ordinance record; and

(2) make a cross-reference to the record of the judgment on the margin of the record of the annexation ordinance.

(b) If a judgment under section 12 or 15.5 of this chapter is adverse to annexation, the municipality may not make further attempts to annex the territory or any part of the territory during the four (4) years after the later of:

- (1) the judgment of the circuit or superior court; or
- (2) the date of the final disposition of all appeals to a higher court;

unless the annexation is petitioned for under section 5 or 5.1 of this chapter.

(c) This subsection applies if a municipality repeals the annexation ordinance:

- (1) less than sixty-one (61) days after the publication of the ordinance under section 7(a) of this chapter; and
- (2) before the hearing commences on the remonstrance under section 11(c) of this chapter.

A municipality may not make further attempts to annex the territory or any part of the territory during the twelve (12) months after the date the municipality repeals the annexation ordinance. This subsection does not prohibit an annexation of the territory or part of the territory that is petitioned for under section 5 or 5.1 of this chapter.

(d) This subsection applies if a municipality repeals the annexation ordinance:

- (1) at least sixty-one (61) days but not more than one hundred twenty (120) days after the publication of the ordinance under section 7(a) of this chapter; and
- (2) before the hearing commences on the remonstrance under section 11(c) of this chapter.

A municipality may not make further attempts to annex the territory or any part of the territory during the twenty-four (24) months after the date the municipality repeals the annexation ordinance. This subsection does not prohibit an annexation of the territory or part of the territory that is petitioned for under section 5 or 5.1 of this chapter.

(e) This subsection applies if a municipality repeals the annexation ordinance:

- (1) either:
 - (A) at least one hundred twenty-one (121) days after publication of the ordinance under section 7(a) of this chapter but before the hearing commences on the remonstrance under section 11(c) of this chapter; or
 - (B) after the hearing commences on the remonstrance as set forth in section 11(c) of this chapter; and
- (2) before the date of the judgment of the circuit or superior court as set forth in subsection (b).

A municipality may not make further attempts to annex the territory or any part of the territory during the forty-two (42) months after the date the municipality repeals the annexation ordinance. This

subsection does not prohibit an annexation of the territory or part of the territory that is petitioned for under section 5 or 5.1 of this chapter.

(f) If a judgment under section 12 or 15.5 of this chapter orders the annexation to take place, the annexation is effective when the clerk of the municipality complies with the filing requirement of section 22(a) of this chapter.

Prohibition against annexation; settlement agreement

Sec. 15.3. (a) As used in this section, "prohibition against annexation" means that a municipality may not make further attempts to annex certain territory or any part of that territory.

(b) As used in this section, "settlement agreement" means a written court approved settlement of a dispute involving annexation under this chapter between a municipality and remonstrators.

(c) Under a settlement agreement between the annexing municipality and either:

(1) seventy-five percent (75%) or more of all landowners participating in the remonstrance; or

(2) the owners of more than seventy-five percent (75%) in assessed valuation of the land owned by all landowners participating in the remonstrance;

the parties may mutually agree to a prohibition against annexation of all or part of the territory by the municipality for a period not to exceed twenty (20) years. The settlement agreement may address issues and bind the parties to matters relating to the provision by a municipality of planned services of a noncapital nature and services of a capital improvement nature (as described in section 13(d) of this chapter), in addition to a prohibition against annexation. The settlement agreement is binding upon the successors, heirs, and assigns of the parties to the agreement. However, the settlement agreement may be amended or revised periodically on further agreement between the annexing municipality and landowners who meet the qualifications of subsection (c)(1) or (c)(2).

IC 36-4-3-15.5

Appeals after final publication of annexation ordinance; procedure; effective date

Sec. 15.5. (a) Except as provided in subsection (b), an owner of land within one-half (1/2) mile of territory proposed to be annexed under this chapter may, not later than sixty (60) days after the publication of the annexation ordinance, appeal that annexation to a circuit court or superior court of a county in which the annexed territory is located. The complaint must state that the reason the

annexation should not take place is that the territory sought to be annexed is not contiguous to the annexing municipality.

(b) This subsection applies to an annexation initiated by property owners under section 5.1 of this chapter in which all property owners within the area to be annexed petition the municipality to be annexed. An owner of land within one-half (1/2) mile of the territory proposed to be annexed under this chapter may, not later than thirty (30) days after the publication of the annexation ordinance, appeal that annexation to a circuit court or superior court of a county in which the annexed territory is located. The complaint must state that the reason the annexation should not take place is that the territory sought to be annexed is not contiguous to the annexing municipality.

(c) Upon the determination of the court that the complaint is sufficient, the judge shall fix a time for a hearing to be held not later than sixty (60) days after the determination. Notice of the proceedings shall be served by summons upon the proper officers of the annexing municipality. The municipality shall become a defendant in the cause and be required to appear and answer. The judge of the circuit or superior court shall, upon the date fixed, proceed to hear and determine the appeal without a jury, and shall, without delay, give judgment upon the question of the annexation according to the evidence introduced by the parties. If the evidence establishes that the territory sought to be annexed is contiguous to the annexing municipality, the court shall deny the appeal and dismiss the proceeding. If the evidence does not establish the foregoing factor, the court shall issue an order to prevent the proposed annexation from taking effect. The laws providing for change of venue from the county do not apply, but changes of venue from the judge may be had. Costs follow judgment. Pending the appeal, and during the time within which the appeal may be taken, the territory sought to be annexed is not a part of the annexing municipality.

(d) If the court enters a judgment in favor of the municipality, the annexation may not take effect during the year preceding a year in which a federal decennial census is conducted. An annexation that would otherwise take effect during the year preceding a year in which a federal decennial census is conducted takes effect January 1 of the year in which a federal decennial census is conducted.

(3) That the annexed territory is not receiving governmental and proprietary services substantially equivalent in standard and scope to the services provided by the municipality to other areas of the municipality, regardless of topography, patterns of land use, and population density similar to the annexed territory.

(c) The court may:

(1) grant an injunction prohibiting the collection of taxes levied by the municipality on the plaintiff's property located in the annexed territory;

(2) award damages to the plaintiff not to exceed one and one-fourth (1 1/4) times the taxes collected by the municipality for the plaintiff's property located in the annexed territory;

The executive may approve or veto separate items of an ordinance appropriating money or levying a tax.

(b) If the executive fails to perform his duty under subsection (a), the ordinance, order, or resolution is considered vetoed.

(c) Whenever an ordinance, order, or resolution is vetoed by the city executive, it is considered defeated unless the legislative body, at its first regular or special meeting after the ten (10) day period prescribed by subsection (a), passes the ordinance, order, or resolution over his veto by a two-thirds (2/3) vote.

An election may be considered a special election only if it is conducted on a date other than the date of a general election or primary election. The date of the special election must be:

(i) at least thirty (30) and not more than sixty (60) days after the notice of the election is filed under IC 3-10-8-4; and

If the public question is on the ballot of a special election, the petitioners shall pay the costs of holding the special election.

If the county executive adopts a resolution under this subdivision, the county executive shall file the resolution and the petition with the circuit court clerk of each county that contains any part of the territory sought to be incorporated.

(c) After a resolution is filed with a circuit court clerk under subsection (b)(3), the circuit court clerk shall certify the resolution to the county election board. The county election board shall place the following public question on the ballot:

"Shall (insert a description of the territorial boundaries) be incorporated as a town?"

Only the registered voters residing within the territory of the proposed town may vote on the public question.

(d) Not earlier than sixty (60) days and not later than thirty (30) days before the election, the petitioners shall publish a notice in accordance with IC 5-3-1 in each county where the proposed town is located. The notice must include the following:

(e) If a majority of the voters residing within the territory of the proposed town:

- (1) vote "no" on the public question, the territory is not incorporated as a town, and a new petition for incorporation may not be filed within the period set forth in section 9 of this chapter; or
- (2) vote "yes" on the public question, the county executive of each county in which the proposed town is located shall adopt an ordinance under section 10.1 of this chapter.

(Repealed by Acts 1980, P.L.2, SEC.20.)

IC 36-5-2-4.1

Town legislative body districts; standards; crossing precinct boundaries; appeal; when division to be made; towns of less than 3,500 abolishing districts; ordinances; recertification of districts; filing with circuit court clerk; time for filing; district boundary description prevails over conflicting map

Sec. 4.1. (a) The legislative body may, by ordinance, divide the town into districts for the purpose of conducting elections of town officers.

(b) A town legislative body district must comply with the following standards:

(1) The district must be composed of contiguous territory, except for territory that is not contiguous to any other part of the town.

(2) The district must be reasonably compact.

(3) The district must contain, as nearly as is possible, equal population.

(4) The district may not cross a census block boundary except when following a precinct boundary line or unless the ordinance specifies that the census block has no population and is not likely to ever have population.

(5) The district may not cross precinct lines, except as provided in subsection (c).

(c) The boundary of a town legislative body district established under subsection (a) may cross a precinct boundary line if:

(1) the legislative body provides by ordinance under section 5 of this chapter that all legislative body members are to be elected at large by the voters of the whole town; or

(2) the district would not otherwise contain, as nearly as is possible, equal population.

(d) If any territory in the town is not included in one (1) of the districts established under this section, the territory is included in the district that:

- (1) is contiguous to that territory; and
- (2) contains the least population of all districts contiguous to that territory.

(e) If any territory in the town is included in more than one (1) of the districts established under this section, the territory is included in the district that:

- (1) is one (1) of the districts in which the territory is described in the ordinance adopted under this section;
- (2) is contiguous to that territory; and
- (3) contains the least population of all districts contiguous to that territory.

(f) The ordinance may be appealed in the manner prescribed by IC 34-13-6. If the town is located in two (2) or more counties, the appeal may be filed in the circuit or superior court of any of those counties.

(g) This subsection does not apply to a town with an ordinance described by subsection (h). Except as provided in subsection (k), the division permitted by subsection (a) shall be made:

- (1) during the second year after a year in which a federal decennial census is conducted, subject to IC 3-11-1.5-32; and
- (2) when required to assign annexed territory to a municipal legislative body district.

The division may also be made in any other year.

(h) This subsection applies to a town having a population of less than three thousand five hundred (3,500). The town legislative body may adopt an ordinance providing that:

- (1) town legislative body districts are abolished; and
- (2) all members of the legislative body are elected at large.

(i) An ordinance described by subsection (h):

- (1) may not be adopted or repealed during a year in which a municipal election is scheduled to be conducted in the town under IC 3-10-6 or IC 3-10-7; and
- (2) is effective upon passage.

(j) A copy of the ordinance establishing districts or a recertification under this section must be filed with the circuit court clerk of the county that contains the greatest population of the town not later than thirty (30) days after the ordinance or recertification is adopted. The filing must include a map of the district boundaries:

- (1) adopted under subsection (a); or
- (2) recertified under subsection (k).

(k) This subsection applies during the second year after a year in which a federal decennial census is conducted. If the legislative body determines that a division under subsection (a) is not required, the legislative body shall adopt an ordinance recertifying that the districts as drawn comply with this section.

(l) The limitations set forth in this section are part of the ordinance, but do not have to be specifically set forth in the ordinance. The ordinance must be construed, if possible, to comply with this chapter. If a provision of the ordinance or an application of the ordinance violates this chapter, the invalidity does not affect the other provisions or applications of the ordinance that can be given effect without the invalid provision or application. The provisions of the ordinance are severable.

(m) If a conflict exists between:

- (1) a map showing the boundaries of a district; and
- (2) a description of the boundaries of that district set forth in the ordinance;

the district boundaries are the description of the boundaries set forth in the ordinance, not the boundaries shown on the map, to the extent there is a conflict between the description and the map.

- (1) The proposed number of legislative body members, which must be at least three (3) and not more than seven (7).
- (2) The date of the general, municipal, or special election at which the public question will appear on the ballot.
- (3) That the following question will be placed on the ballot in the form provided by IC 3-10-9-4:

"Shall the number of town council members be increased (or decreased, if applicable) from _____ (insert the current number of members provided for) to _____ (insert the number of members proposed in the resolution)?"

(c) IC 3 applies to an election conducted under subsection (b). If the county election board will conduct the election at which the public question will be submitted, the question must be certified to the board under IC 3-10-9-3.

(d) If a majority of the votes cast on the question under subsection (b) are in the negative, the legislative body may not adopt a resolution under subsection (b) for at least one (1) year following the date the prior resolution was adopted.

(e) If a majority of votes cast on the question under subsection (b) are in the affirmative, the legislative body shall adopt an ordinance at its next regular meeting following the election altering the number

of legislative body members to the number specified in the public question. The legislative body may also alter existing districts and establish new districts in the manner prescribed by IC 36-5-1-10.1. An ordinance adopted under this subsection becomes effective January 1 following its adoption.

(f) If the number of legislative body members is increased, the legislative body shall fill any resulting vacancy under IC 3-13-9-4. The legislative body may fill the vacancy before the ordinance described in subsection (e) takes effect. However, a town legislative body member appointed under this subsection does not assume office until the beginning of the term specified in section 3 of this chapter. *As added by P.L. 11-1988, SEC. 12. (5) A member of the town council elected after the elections described in subdivision (4) serves a term of four (4) years.

(6) The term of office of a member begins at noon January 1 after the member's election.

(d) An ordinance adopted under this section may provide that before the first election after adoption of the ordinance, members of the town legislative body added to the legislative body by the ordinance may be appointed to the legislative body by a vote of the current members of the legislative body.

(1) Divide the town into seven (7) districts.

Loans under this subsection shall be made as follows:

(1) The ordinance authorizing the loans must pledge to their payment a sufficient amount of tax revenues over the ensuing five (5) years to provide for refunding the loans.

(2) The loans must be evidenced by notes of the town in terms designating the nature of the consideration, the time and place payable, and the revenues out of which they will be payable.

(3) The interest accruing on the notes to the date of maturity may be added to and included in their face value or be made payable periodically, as provided in the ordinance.

Notes issued under this subsection are not bonded indebtedness for purposes of IC 6-1.1-18.5.

Loans under this section shall be made in the same manner as loans made under section 11(b) and 11(c) of this chapter, except that:

(1) the ordinance authorizing the loans must appropriate and pledge to the payment of the loans a sufficient amount of the revenues in anticipation of which the loans are issued and out of which the loans are payable; and

(2) the loans must be evidenced by time warrants of the town in terms designating the nature of the consideration, the time and place payable, and the revenues in anticipation of which the loans are issued and out of which the loans are payable.

Special meeting; determination of need for fire and emergency services; effect of levy increase

Sec. 14. (a) At any special meeting, if two (2) or more members give their consent, the legislative body may determine whether there is a need for fire and emergency services or other emergency requiring the expenditure of money not included in the township's budget estimates and levy.

(b) Subject to section 14.5 of this chapter, if the legislative body finds that a need for fire and emergency services or other emergency exists, it may issue a special order, entered and signed on the record, authorizing the executive to borrow a specified amount of money sufficient to meet the emergency. However, the legislative body may not authorize the executive to borrow money under this subsection in more than three (3) calendar years during any five (5) year period.

(c) Notwithstanding IC 36-8-13-4(a), the legislative body may authorize the executive to borrow a specified sum from a township fund other than the township firefighting fund if the legislative body finds that the emergency requiring the expenditure of money is related to paying the operating expenses of a township fire department or a volunteer fire department. At its next annual session, the legislative body shall cover the debt created by making a levy to the credit of the fund for which the amount was borrowed under this subsection.

(d) In determining whether a fire and emergency services need exists requiring the expenditure of money not included in the township's budget estimates and levy, the legislative body and any reviewing authority considering the approval of the additional borrowing shall consider the following factors:

(8) Other factors directly related to the provision of public safety within the jurisdiction served by the township.

(e) In the event the township received additional funds under this chapter in the immediately preceding budget year for an approved expenditure, any reviewing authority shall take into consideration the use of the funds in the immediately preceding budget year and the continued need for funding the services and operations to be funded with the proceeds of the loan.

(f) This subsection applies to a township that is allowed an increase in its maximum permissible ad valorem property tax levy under IC 6-1.1-18.5-13(c). The restrictions on borrowing set forth in this subsection are instead of the restrictions set forth in subsection (b). Repayments of the money borrowed in 2012 or 2013, as applicable, may be made over a three (3) year period beginning in 2014, and ending in 2016. Each year the township may borrow the amount necessary to repay one third (1/3) of the principal and interest of that debt. After 2016, the township may not borrow money under subsection (b) in more than three (3) calendar years during any five (5) year period.

(c) The hearing shall be held in the county where the petition arose.

Sec. 2. (a) A person who lays out a subdivision of lots or lands outside the corporate boundaries of any municipality shall record a correct plat of the subdivision in the office of the recorder of the county before selling any lots in the subdivision. The plat must show public places, public ways, and the length, width, and size of each lot. Lots shown on the plat must be regularly numbered.

(b) The certificate of a professional surveyor certifying the correctness of the plat must be attached to the plat. This certificate must include a description, by metes and bounds, of the location of the plat.

(c) Before offering a plat for record under this section, a person must acknowledge it before an officer authorized by law to take and certify acknowledgments of deeds. The officer shall then attach to the plat a certificate of the acknowledgment, which must be recorded with the plat.

(d) Before offering a plat for recording under this section, a person must file a copy of the plat in the county auditor's office and

must submit the plat for the approval of the county executive. The county recorder may record the plat only if a certificate showing the approval of the county executive is attached to it. If the record of a plat is not executed and approved as required by this subsection, it is void.

(e) Except as provided in subsection (f), the county executive may approve or disapprove a subdivision plat only on the basis of whether the plat complies with the requirements set forth in subsections (a) through (c).

(f) The county executive may approve or disapprove a subdivision plat based upon whether the plat complies with standards for development of subdivisions within the county executive's jurisdiction. The standards shall be set by the county executive, shall be reasonable, and may include a minimum lot size. The county executive shall rely only upon the following criteria in establishing the standards for development:

(1) The standards must protect and provide for the public health, safety, and welfare of the county.

(2) The standards must ensure that public facilities and services are available to support the subdivision.

(1) A legal description of the property where the proposed subdivision will be located.

(2) The date, time, and location of the hearing.

(3) The name of the applicant submitting the plat for the approval of the county executive.

(4) A statement that the county executive will consider at the hearing whether to approve the plat based upon whether the plat is in accordance with the county's development standards.

(h) If, after a hearing, the county executive disapproves the plat, the county executive shall make written findings that set forth its reasons and a decision denying approval and shall provide the applicant with a copy.

(3) a subdivision of lots or lands within the corporate boundaries of a municipality;

shall record a correct plat of the town, addition, or subdivision in the office of the recorder of the county before selling any lots in the town, addition, or subdivision. The plat must show public grounds, public ways, and the length, width, and size of each lot. Lots shown on the plat must be regularly numbered.

(b) Every donation or grant to the public, or to any person, that is noted as such on the plat, is considered a general warranty to the donee or grantee named on the plat, for the purposes intended by the donor or grantor.

(c) Before offering a plat for record under this section, a person must acknowledge it before an officer authorized by law to take and certify acknowledgments of deeds. The plat may be recorded only if it is made and acknowledged in the manner prescribed by this section.

(d) Before a person offers a plat for recording under this section, he must submit it for the approval of:

- (1) the advisory plan commission that has jurisdiction over the platted area under IC 36-7-4; or
- (2) the municipal works board, if no advisory plan commission has jurisdiction over the platted area under IC 36-7-4.

The advisory plan commission or works board shall approve or disapprove the plat, and may require the public ways shown in the plat to be as wide as, and coterminous with, the public ways in contiguous parts of the municipality. The county recorder may record the plat only if a certificate showing the approval of the plan commission or works board is attached to it. If the record of a plat is not executed and approved as required by this subsection, it is void.

Sec. 4. (a) A municipality that does not have a sufficient survey and plat of its corporate territory may, by a resolution of its legislative body passed by a two-thirds (2/3) vote, order a survey and plat of the municipality. When the survey and plat have been made, the legislative body may adopt them by a resolution passed by three-fourths (3/4) vote (as described in IC 36-1-8-14). If a survey and plat of the municipality have already been made, without the order of the legislative body, it may adopt them by a resolution passed by a three-fourths (3/4) vote.

(b) The survey and plat are considered adopted by the municipality for all purposes if a certified copy of the resolution adopting the survey and plat is:

- (1) signed by the municipal executive and clerk;
- (2) attested by the seal of the municipality; and
- (3) recorded with the survey and plat in the office of the recorder of the county in which the municipality is located.

Sec. 5. (a) If there are five (5) or more specific tracts of land in a municipality that:

- (1) approximate in size any of the platted lots in the municipality;
- (2) are not platted or numbered; and
- (3) are near or contiguous to each other;

the municipal legislative body may cause the tracts to be surveyed, platted, and given a specific number on the plat. If the survey and plat are approved by the legislative body and recorded in the platbook records of the county in which the municipality is located, they have the same legal effect as if they had been made by the owners of the tracts under section 3 of this chapter.

(b) Tracts surveyed under this section may be described and conveyed by the numbers assigned to them, in the same manner as other platted lots. However, a new public way may be laid out or opened only with the written consent of the owner of the real property to be affected.

As added by Acts 1981, P.L.309, SEC.22.

IC 36-7-3-6

Resolution declaring necessity of survey or plat requisites; adoption procedures direction to professional surveyor

Sec. 6. (a) Before a survey of a municipality is made under this chapter, the municipal legislative body must declare, by resolution, the necessity for making the survey or plat. The resolution must describe and embrace all tracts to be included in the plat, with the description being by streets, alleys, corporate lines, other platted additions' lines, or any boundary line that can be definitely located. Notice of the adoption of the resolution must be given in accordance with IC 5-3-1. The notice must fix a time and a place where the persons owning the tracts may appear before the legislative body and object to any further steps being taken in the proceedings.

(b) If, after hearing any objections, the legislative body considers it necessary to proceed with the survey and plat, it shall direct the municipal civil engineer, if the engineer is a professional surveyor, or, if the engineer is not, some suitable and competent professional surveyor, to immediately make the survey and plat and report them to the legislative body.

As added by Acts 1981, P.L.309, SEC.22. Amended by Acts 1981, P.L.45, SEC.17; P.L.57-2013, SEC.98.

tracts; report; statement of costs and expenses; filing

Sec. 7. (a) In making a survey of a municipality under this chapter, a professional surveyor shall adhere as nearly as possible to boundary lines between tracts. If the owners of adjacent tracts do not agree on the location of the boundary line between them, the professional surveyor shall give all interested parties ten (10) days' notice that, at a specified time, the professional surveyor will establish the boundary line. The line established is the correct boundary line, but an aggrieved party may appeal from the survey in the same manner as is provided by IC 36-2-12-14 for an appeal from a survey made by a county surveyor. However, an appeal does not delay the completion of the survey and plat.

(b) All public ways shall be preserved and properly designated on the plat.

(c) Each specific description shall be platted as one (1) lot and given a distinct number on the plat, except that where a part of the specific description is cut off by a street or alley, the tract may be given two (2) or more distinct numbers, as required by the situation.

(d) If any part of the entire tract to be platted is cut up into blocks by streets or alleys, the tract shall be platted in lots extending from the street or alley in the front to the alley in the rear.

(e) If a lot embraces more than one (1) specific description, the memoranda attached to the plat must designate how much of the lot belongs to each of the part owners.

(f) A person owning a tract that is within the boundaries of the territory to be platted and is larger than an ordinary lot may have that tract subdivided into lots of convenient size in the making of the plat.

(g) The professional surveyor shall show on the plat the exact size and shape, the number, and the name of the owner (as determined from the records of the county), of each lot platted, and shall attach to the plat, as a part of it, a brief memorandum of the tract description of each lot platted.

(h) The professional surveyor shall sign the plat and acknowledge its execution before an officer authorized to take the acknowledgment of deeds. When the survey and plat are completed, the professional surveyor shall file them with the municipal clerk. The professional surveyor shall also file with the professional surveyor's report of the survey and plat an itemized statement of all costs and expenses incident to the proceedings, and an apportionment of the expenses to the lots platted, as required by section 9 of this chapter.

As added by Acts 1981, P.L.309, SEC.22. Amended by P.L.57-2013, SEC.99.

IC 36-7-3-8

Report of survey and plat; approval procedures; recording; legal effect of plat

Sec. 8. (a) When a plat is filed under section 7 of this chapter, the municipal clerk shall immediately give notice, in accordance with IC 5-3-1, that on a specified day, at an hour and place named in the

notice, the municipal legislative body will meet to consider the professional surveyor's report and plat, and to hear any objections to the report and plat by interested parties.

(b) If any errors or omissions are discovered, the legislative body shall require the professional surveyor to correct them. When the legislative body has approved the report of the survey and plat, it shall give the plat an appropriate name and have it, together with the resolution of approval, recorded in the proper records in the county recorder's office. When recorded, the plat has the same legal effect as if it had been done by the owners of the tracts platted.

As added by Acts 1981, P.L.309, SEC.22. Amended by P.L.57-2013, SEC.100.

IC 36-7-3-9

Expenses of survey and plat; apportionment and assessment against property platted; lien; collection and disbursement

Sec. 9. (a) The expenses arising from a survey and plat in a municipality under this chapter shall be charged to the property platted, in the proportion the municipal legislative body considers just and equitable. When approving the land surveyor's report of the survey and plat, the legislative body shall, at the same time, assess an equitable part of the cost and expense against each tract platted.

(b) The assessment is a lien on the property from the time the assessment is made, and is due and payable as soon as the plat is recorded. If an assessment is not paid before the second day of January after it is made, a certified copy of the assessment shall be filed in the office of the auditor of the county in which the property is located, and the auditor shall place the amount claimed on the tax duplicate against the lands of the landowner. The amount shall be collected as taxes are collected, and, when collected, shall be disbursed to the general fund of the municipality.

As added by Acts 1981, P.L.309, SEC.22.

IC 36-7-3-10

Vacation of plat by owners; written instrument; filing and approval; recording; land outside municipal boundaries excepted from approval; effect; public ways

Sec. 10. (a) The owners of land in a plat may vacate all or part of that plat under:

- (1) this section; or
- (2) IC 36-7-4-711.

(b) In a case in which all the owners of land in a plat are in agreement regarding a proposed vacation, the owners may file a written instrument to vacate all or part of that plat. All the owners of land in the plat must declare the plat or part of the plat to be vacated in the written instrument. The instrument must be executed, acknowledged, and recorded in the same manner as a deed to land.

(c) Before offering the instrument for recording under this section, an owner must file a copy of the instrument in the county auditor's office and must submit the instrument vacating all or part of the plat

for the approval of the plan commission that has jurisdiction over the platted area under IC 36-7-4 or the plat committee acting on behalf of the plan commission. If no plan commission has jurisdiction over the platted area under IC 36-7-4, the instrument must be submitted for the approval of:

- (1) the county executive, in the case of land located in an unincorporated area; or
- (2) the municipal works board, in the case of land located inside the corporate boundaries of a municipality.

The instrument may be approved under this section without notice or a hearing. The provisions of IC 36-7-4 concerning notice and hearing do not apply to the approval of an instrument under this section.

(d) The county recorder may record the instrument only if a certificate showing the approval of the vacation by the plan commission, county executive, or municipal works board is attached to it. If the instrument is not executed and approved as required by this section, it is void.

(e) The owners of land in a plat that is located outside the corporate boundaries of any municipality may vacate all of the plat without the approval required by subsections (c) and (d) if no lots have been sold and no roads constructed in the plat, and all of the owners of land in the plat declare the plat to be vacated in a written instrument. The instrument must be executed, acknowledged, and recorded in the same manner as a deed to land.

(f) An instrument recorded under this section terminates the effect of the plat or part of the plat declared to be vacated, and it also terminates all public rights in the public ways and public places described in the plat or part of the plat. However, a public way that has been improved, or that is part of an improved plat, may be vacated only in accordance with section 12 of this chapter or with IC 36-7-4-712, whichever is applicable.

(e) After the hearing on the petition, the legislative body may, by ordinance, vacate the public way or public place. The clerk of the legislative body shall furnish a copy of each vacation ordinance to the county recorder for recording and to the county auditor.

(f) Within thirty (30) days after the adoption of a vacation ordinance, any aggrieved person may appeal the ordinance to the circuit court of the county. The court shall try the matter de novo and may award damages.

Sec. 13. A remonstrance or objection permitted by section 12 of this chapter may be filed or raised by any person aggrieved by the proposed vacation, but only on one (1) or more of the following grounds:

- (1) The vacation would hinder the growth or orderly development of the unit or neighborhood in which it is located or to which it is contiguous.
- (2) The vacation would make access to the lands of the aggrieved person by means of public way difficult or inconvenient.
- (3) The vacation would hinder the public's access to a church, school, or other public building or place.
- (4) The vacation would hinder the use of a public way by the neighborhood in which it is located or to which it is contiguous.

Purpose

Sec. 201. (a) For purposes of IC 36-1-3-6, a unit wanting to exercise planning and zoning powers in Indiana must do so in the manner provided by this chapter.

(b) The purpose of this chapter is to encourage units to improve the health, safety, convenience, and welfare of their citizens and to plan for the future development of their communities to the end:

- (1) that highway systems be carefully planned;
- (2) that new communities grow only with adequate public way, utility, health, educational, and recreational facilities;
- (3) that the needs of agriculture, forestry, industry, and business be recognized in future growth;
- (4) that residential areas provide healthful surroundings for family life; and
- (5) that the growth of the community is commensurate with and promotive of the efficient and economical use of public funds.

(c) Furthermore, municipalities and counties may cooperatively

establish single and unified planning and zoning entities to carry out the purpose of this chapter on a countywide basis.

(d) METRO. Expanding urbanization in each county having a consolidated city has created problems that have made the unification of planning and zoning functions a necessity to insure the health, safety, morals, economic development, and general welfare of the county. To accomplish this unification, a single planning and zoning authority is established for the county.

IC 36-7-4-201.1

Zoning ordinances; satellite receiver antennas and other types of antennas

Sec. 201.1. A local zoning ordinance that addresses a satellite receiver antenna and another type of antenna is void unless the zoning ordinance:

- (1) has a reasonable and clearly defined health, safety, or aesthetic objective;
- (2) does not:
 - (A) impose an unreasonable restriction on or prevent the reception of satellite signals by satellite receiver antennas; or
 - (B) impose costs on the users of satellite receiver antennas that are excessive in comparison to the purchase and installation cost of the satellite receiver antennas; and
- (3) does not prohibit installation of a satellite receiver antenna that is not more than two (2) feet in diameter.

As added by P.L.167-1994, SEC.1.

IC 36-7-4-202

Establishment; authorization

Sec. 202. (a) ADVISORY. The legislative body of a county or municipality may establish by ordinance an advisory plan commission. In addition, in a county having a population of:

- (1) more than one hundred seventy-five thousand (175,000) but less than one hundred eighty-five thousand (185,000); or
- (2) more than one hundred fifteen thousand (115,000) but less than one hundred twenty-five thousand (125,000);

the legislative bodies of that county and of the city having the largest population in that county may establish by identical ordinances a metropolitan plan commission as a department of county government. These ordinances must specify the legal name of the commission for purposes of section 404(a) of this chapter.

(b) AREA. There may be established in each county an area planning department in the county government, having:

- (1) an area plan commission;
- (2) an area board of zoning appeals;
- (3) an executive director; and
- (4) such staff as the area plan commission considers necessary.

Each municipality and each county desiring to participate in the establishment of a planning department may adopt an ordinance adopting the area planning law, fix a date for the establishment of the planning department, and provide for the appointment of its representatives to the commission. When a municipality or a county adopts such an ordinance, it shall certify a copy of the ordinance to each legislative body within the county. When a county and at least one (1) municipality within the county each adopt an ordinance adopting the area planning law and fix a date for the establishment of the department, the legislative body of the county shall establish the planning department.

(c) METRO. A metropolitan development commission is established in the department of metropolitan development of the consolidated city. The legislative body of the consolidated city may adopt ordinances to regulate the following:

(1) The time that the commission holds its meetings.

(2) The voting procedures of the commission.

IC 36-7-4-202.5

Reorganized units; adoption of advisory plan commission

Sec. 202.5. (a) ADVISORY. Notwithstanding any other law, the legislative body of a unit described in IC 36-7-2-1(b) may establish by resolution an advisory plan commission.

(b) ADVISORY. If an advisory plan commission is established under this section by a unit described in IC 36-7-2-1(b) and the unit adopts a comprehensive plan under this chapter:

(1) the advisory plan commission of the unit shall exercise the planning and zoning functions within the unit;

(2) the advisory plan commission of the unit may not exercise planning and zoning functions within a municipality that has established a plan commission under this chapter (other than a municipality that participated in the reorganization of the unit under IC 36-1.5);

(3) the county plan commission may not exercise planning and zoning functions within the unit; and

(4) except as provided in subdivision (2), a municipal plan commission of a municipality (other than a municipality that participated in the reorganization of the unit under IC 36-1.5) may not exercise planning and zoning functions within the unit.

Notwithstanding any other law, if a municipality (other than a municipality that participated in the reorganization of the unit under IC 36-1.5) annexes territory within a unit described in IC 36-7-2-1(b) after the unit has established an advisory plan commission under this section, the municipal plan commission of that municipality may not exercise planning and zoning functions within that annexed territory.

(c) ADVISORY. Except as specifically provided in this chapter, an advisory plan commission established under this section by a unit

described in IC 36-7-2-1(b) shall exercise the planning and zoning functions within the unit in the same manner that a municipal plan commission established under this chapter exercises planning and zoning functions for a municipality.

(d) ADVISORY. Notwithstanding any other provision, if an advisory plan commission is established under this section by a unit described in IC 36-7-2-1(b), the legislative body of the unit shall, by resolution or in the unit's plan of reorganization under IC 36-1.5, determine:

- (1) the number of members to be appointed to the unit's advisory plan commission;
- (2) the person or entity that shall appoint or remove those members;
- (3) any required qualifications for those members;
- (4) the terms of those members; and
- (5) whether any members or advisory members shall be appointed by the county in which the unit is located or by a municipality located within the unit.

As added by P.L.202-2013, SEC.34.

IC 36-7-4-203

Establishment; exercise of planning and zoning authority

Sec. 203. (a) ADVISORY. After a metropolitan plan commission is established, it shall exercise exclusively the planning and zoning functions of the county and of the second class city, and the separate planning and zoning functions of the county plan commission and the city plan commission cease.

(b) AREA. After the planning department is established and the participating legislative bodies have adopted a zoning ordinance, the planning department shall exercise exclusively the planning and zoning functions of the county and of the participating municipalities, except as provided in section 901(i) of this chapter. Where other statutes confer planning and zoning authority on a participating municipality or a county, their plan commissions shall continue to exercise that authority until such time as the planning department is established and the participating legislative bodies adopt a zoning ordinance.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.310, SEC.6; P.L.126-2011, SEC.5.

IC 36-7-4-204

Establishment; participation by other municipalities within county

Sec. 204. AREA. After the planning department is established, other municipalities within the county may adopt ordinances adopting the area planning law and provide for the appointment of their representatives to the area plan commission. In such a case, the membership of the commission shall be increased according to the formula provided in sections 207, 208, 209, and 211 of this chapter and the authority of a municipal plan commission and municipal board of zoning appeals ceases, except as provided in section 901(i)

of this chapter, as of the time specified in that ordinance. The composition of any such municipal board of zoning appeals, or of any such board later organized, under the advisory planning law, must conform with that law, except that those members of such a board to be appointed from the municipal plan commission shall instead be appointed from the area plan commission.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.126-2011, SEC.6.

IC 36-7-4-205

Establishment; extent of territorial authority of comprehensive plan; inclusion of contiguous unincorporated area; fire protection territories; incorporation of new towns in county

Sec. 205. (a) ADVISORY. A municipal plan commission shall adopt a comprehensive plan, as provided for under the 500 series of the advisory planning law, for the development of the municipality. For comprehensive plans adopted after July 1, 1999, if:

- (1) the municipality provides municipal services to the contiguous unincorporated area; or
- (2) the municipal plan commission obtains the approval of the county legislative body of each affected county;

the municipal plan commission may provide in the comprehensive plan for the development of the contiguous unincorporated area, designated by the commission, that is outside the corporate boundaries of the municipality, and that, in the judgment of the commission, bears reasonable relation to the development of the municipality. For purposes of this section, participation of a municipality in a fire protection territory established under IC 36-8-19 that includes unincorporated areas contiguous to the municipality may not be treated as providing municipal services to the contiguous unincorporated areas.

(b) ADVISORY. Except as limited by the boundaries of unincorporated areas subject to the jurisdiction of other municipal plan commissions, an area designated under this section may include any part of the contiguous unincorporated area within two (2) miles from the corporate boundaries of the municipality. If, however, the corporate boundaries of the municipality or the boundaries of that contiguous unincorporated area include any part of the public waters or shoreline of a lake (which lies wholly within Indiana), the designated area may also include:

- (1) any part of those public waters and shoreline of the lake; and
- (2) any land area within two thousand five hundred (2,500) feet from that shoreline.

(c) ADVISORY. Before exercising their rights, powers, and duties of the advisory planning law with respect to an area designated under this section, a municipal plan commission must file, with the recorder of the county in which the municipality is located, a description or map defining the limits of that area. If the commission revises the limits, it shall file, with the recorder, a revised description

or map defining those revised limits.

(d) ADVISORY. If any part of the contiguous unincorporated area within the potential jurisdiction of a municipal plan commission is also within the potential jurisdiction of another municipal plan commission, the first municipal plan commission may exercise territorial jurisdiction over that part of the area within the potential jurisdiction of both municipal plan commissions that equals the product obtained by multiplying a fraction, the numerator of which is the area within the corporate boundaries of that municipality and the denominator of which is the total area within the corporate boundaries of both municipalities times the area within the potential jurisdiction of both municipal plan commissions. Furthermore, this commission may exercise territorial jurisdiction within those boundaries, enclosing an area reasonably compact and regular in shape, that the municipal plan commission first acting designates.

(e) ADVISORY. If the legislative body of a county adopts a comprehensive plan and ordinance covering the unincorporated areas of the county, a municipal plan commission may not exercise jurisdiction, as provided in this section, over any part of that unincorporated area unless it is authorized by ordinance of the legislative body of the county. This ordinance may be initiated by the county legislative body or by petition duly signed and presented to the county auditor by:

- (1) not less than fifty (50) property owners residing in the area involved in the petition;
- (2) the county plan commission; or
- (3) the municipal plan commission.

Before final action on the ordinance by the county legislative body, the county plan commission must hold an advertised public hearing as required for other actions of the county plan commission under the advisory planning law. Upon the passage of the ordinance by the county legislative body and the subsequent acceptance of jurisdiction by the municipal plan commission, the municipal plan commission shall exercise the same rights, powers, and duties conferred in this section exclusively with respect to the contiguous unincorporated area. The jurisdiction of a municipal plan commission, as authorized under this subsection, may be terminated by ordinance at the discretion of the legislative body of the county, but only if the county has adopted a comprehensive plan for that area that is as comprehensive in scope and subject matter as that in effect by municipal ordinance.

(f) ADVISORY. Each municipal plan commission in a municipality located in a county having:

- (1) a population of less than ninety-five thousand (95,000); and
- (2) a county plan commission that has adopted, in accord with the advisory planning law, a comprehensive plan and ordinance covering the unincorporated areas of the county;

may, at any time, after filing notice with the county recorder and the county plan commission, exercise or reject territorial jurisdiction over any part of the area within two (2) miles of the corporate

boundaries of that municipality and within that county, whether or not that commission has previously exercised that jurisdiction, if the municipality is providing municipal services to the area. Within sixty (60) days after receipt of that notice, the county plan commission and the county legislative body shall have the county comprehensive plan and ordinance revised to reflect the decision of the municipal plan commission exercising the option provided for in this subsection. If the municipality is not providing municipal services to the area, the municipal plan commission must obtain the approval of the county legislative body of each affected county before exercising jurisdiction.

(g) AREA. Wherever in the area planning law authority is conferred to establish a comprehensive plan or an ordinance for its enforcement, the authority applies everywhere:

- (1) within the county that is outside the municipalities; and
- (2) within each participating municipality.

(h) ADVISORY—AREA. Whenever a new town is incorporated in a county having a county plan commission or an area plan commission, that plan commission and its board of zoning appeals shall continue to exercise territorial jurisdiction within the town until the effective date of a town ordinance:

- (1) establishing an advisory plan commission under section 202(a) of this chapter; or
- (2) adopting the area planning law under section 202(b) or 204 of this chapter.

Beginning on that effective date, the planning and zoning functions of the town shall be exercised under the advisory planning law or area planning law, as the case may be.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1982, P.L.1, SEC.61; P.L.216-1999, SEC.1; P.L.172-2011, SEC.143.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-207

Membership of commission; nonvoting adviser

Sec. 207. (a) ADVISORY. In a city having a park board and a city civil engineer, the city plan commission consists of nine (9) members, as follows:

- (1) One (1) member appointed by the city legislative body from its membership.
- (2) One (1) member appointed by the park board from its membership.
- (3) One (1) member or designated representative appointed by the city works board.

(4) The city civil engineer or a qualified assistant appointed by the city civil engineer.

(5) Five (5) citizen members, of whom no more than three (3) may be of the same political party, appointed by the city executive.

(b) ADVISORY. If a city lacks either a park board or a city civil engineer, or both, subsection (a) does not apply. In such a city or in any town, the municipal plan commission consists of seven (7) members, as follows:

(1) The municipal legislative body shall appoint three (3) persons, who must be elected or appointed municipal officials or employees in the municipal government, as members.

(2) The municipal executive shall appoint four (4) citizen members, of whom no more than two (2) may be of the same political party.

(c) AREA. To provide equitable representation of rural and urban populations, representation on the area plan commission is determined as follows:

(1) Seven (7) representatives from each city having a population of more than one hundred five thousand (105,000).

(2) Six (6) representatives from each city having a population of not less than seventy thousand (70,000) nor more than one hundred five thousand (105,000).

(3) Five (5) representatives from each city having a population of not less than thirty-five thousand (35,000) but less than seventy thousand (70,000).

(4) Four (4) representatives from each city having a population of not less than twenty thousand (20,000) but less than thirty-five thousand (35,000).

(5) Three (3) representatives from each city having a population of not less than ten thousand (10,000) but less than twenty thousand (20,000).

(6) Two (2) representatives from each city having a population of less than ten thousand (10,000).

(7) One (1) representative from each town having a population of more than two thousand one hundred (2,100), and one (1) representative from each town having a population of two thousand one hundred (2,100) or less that had a representative before January 1, 1979.

(8) Such representatives from towns having a population of not more than two thousand one hundred (2,100) as are provided for in section 210 of this chapter.

(9) Six (6) county representatives if the total number of municipal representatives in the county is an odd number, or five (5) county representatives if the total number of municipal representatives is an even number.

(d) METRO. The metropolitan development commission consists of nine (9) citizen members, as follows:

(1) Five (5) members, of whom no more than three (3) may be of the same political party, appointed by the executive of the

consolidated city.

(2) Four (4) members, of whom no more than two (2) may be of the same political party, appointed by the legislative body of the consolidated city.

(e) METRO. The legislative body of the consolidated city shall appoint an individual to serve as a nonvoting adviser to the metropolitan development commission when the commission is acting as the redevelopment commission of the consolidated city under IC 36-7-15.1. If the duties of the metropolitan development commission under IC 36-7-15.1 are transferred to another entity under IC 36-3-4-23, the individual appointed under this subsection shall serve as a nonvoting adviser to that entity. A nonvoting adviser appointed under this subsection:

The county fiscal body shall appropriate sufficient amounts to the planning department to insure the continued functioning of the planning department within the participating units. This appropriation shall be made in conformity with the fiscal body's policy regarding the operating budgets of the various divisions of county government.

- (3) Decisions under the authority of the 900 series of this chapter shall be appealed to the plan commission, within five (5) days after the decision is rendered, and the plan commission shall consider the petition in the same manner as the petition would be considered by a board of zoning appeals.

Comprehensive plan; consideration of policy and pattern; validation, continuance, and consolidation of preexisting plans

Sec. 504. (a) After the comprehensive plan is approved for a jurisdiction, each governmental entity within the territorial jurisdiction where the plan is in effect shall give consideration to the general policy and pattern of development set out in the comprehensive plan in the:

(c) After a thoroughfare plan has been included in the comprehensive plan, thoroughfares may be located, changed, widened, straightened, or vacated only in the manner indicated by the comprehensive plan.

(d) After a thoroughfare plan has been included in the comprehensive plan, the plan commission may recommend to the agency responsible for constructing thoroughfares in the jurisdiction the order in which thoroughfare improvements should be made.

IC 36-7-4-507

Comprehensive plan; notice and hearings before adoption

Sec. 507. Before the approval of a comprehensive plan, the plan commission must:

(1) give notice and hold one (1) or more public hearings on the plan;

(2) publish, in accordance with IC 5-3-1, a schedule stating the times and places of the hearing or hearings. The schedule must state the time and place of each hearing, and state where the entire plan is on file and may be examined in its entirety for at least ten (10) days before the hearing.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.45, SEC.18; P.L.335-1985, SEC.9.

IC 36-7-4-508

Comprehensive plan; adoption; certification; plan and summary availability for inspection; legalization of certain comprehensive plans

Sec. 508. (a) After a public hearing or hearings have been held, the plan commission may approve the comprehensive plan.

(b) ADVISORY—AREA. Upon approval, the plan commission shall certify the comprehensive plan to each participating legislative body.

(c) The plan commission may approve each segment of the comprehensive plan as it is completed. However, that approval does not preclude future examination and amendment of the comprehensive plan under the 500 series. A comprehensive plan that:

(1) was approved before March 14, 1994, under this subsection as in effect before March 14, 1994; and

(2) was not filed in the county recorder's office as required by this subsection as in effect before March 14, 1994;

is legalized.

(d) METRO. As used in this subsection, "comprehensive plan" or "plan" includes any segment of a comprehensive plan. Approval of

the comprehensive plan by the metropolitan development commission is final. However, the commission may certify the comprehensive plan to the legislative body of each municipality in the county, to the executive of the consolidated city, and to any other governmental entity that the commission wishes. The commission shall make a complete copy of the plan available for inspection in the office of the plan commission. One (1) summary of the plan shall be recorded in the county recorder's office. The summary of the plan must identify the following:

- (1) The major components of the plan.
- (2) The geographic area subject to the plan, including the townships or parts of townships that are subject to the plan.
- (3) The date the commission adopted the plan.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.335-1985, SEC.10; P.L.31-1994, SEC.11; P.L.220-2011, SEC.661.

IC 36-7-4-509

Comprehensive plan; legislative approval, rejection, or amendment

Sec. 509. (a) ADVISORY—AREA. After certification of the comprehensive plan, the legislative body may adopt a resolution approving, rejecting, or amending the plan. Such a resolution requires only a majority vote of the legislative body, and is not subject to approval or veto by the executive of the adopting unit, and the executive is not required to sign it.

(b) ADVISORY—AREA. The comprehensive plan is not effective for a jurisdiction until it has been approved by a resolution of its legislative body. After approval by resolution of the legislative body of the unit, it is official for each unit that approves it. Upon approval of the comprehensive plan by the legislative body, the clerk of the legislative body shall place one (1) copy of the comprehensive plan on file in the office of the county recorder.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.335-1985, SEC.11; P.L.220-1986, SEC.12.

IC 36-7-4-510

Comprehensive plan; procedure following legislative rejection or amendment

Sec. 510. (a) ADVISORY—AREA. If the legislative body, by resolution, rejects or amends the comprehensive plan, then it shall return the comprehensive plan to the plan commission for its consideration, with a written statement of the reasons for its rejection or amendment.

(b) ADVISORY—AREA. The commission has sixty (60) days in which to consider the rejection or amendment and to file its report with the legislative body. However, the legislative body may grant the commission an extension of time, of specified duration, in which to file its report. If the commission approves the amendment, the comprehensive plan stands, as amended by the legislative body, as of the date of the filing of the commission's report with the legislative body. If the commission disapproves the rejection or

amendment, the action of the legislative body on the original rejection or amendment stands only if confirmed by another resolution of the legislative body.

(c) **ADVISORY—AREA.** If the commission does not file a report with the legislative body within the time allotted under subsection (b), the action of the legislative body in rejecting or amending the comprehensive plan becomes final.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.310, SEC.31; P.L.335-1985, SEC.12; P.L.220-1986, SEC.13.

IC 36-7-4-511

Comprehensive plan; amendment approval; preparation and submission of amendments

Sec. 511. (a) Each amendment to the comprehensive plan must be approved according to the procedure set forth in the 500 series.

(b) **ADVISORY—AREA.** If the legislative body wants an amendment, it may direct the plan commission to prepare the amendment and submit it in the same manner as any other amendment to the comprehensive plan. The commission shall prepare and submit the amendment within sixty (60) days after the formal written request by the legislative body. However, the legislative body may grant the commission an extension of time, of specified duration, in which to prepare and submit the amendment.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.335-1985, SEC.13; P.L.220-1986, SEC.14.

IC 36-7-4-512

Comprehensive plan; capital improvement projects

Sec. 512. **METRO.** This section applies only to capital improvement projects consisting of real or personal property (or improvements) that have a useful life of more than one (1) year and a value of more than one hundred thousand dollars (\$100,000). At least thirty (30) days before a governmental entity within the county:

- (1) undertakes or acquires any such capital improvement project;
- (2) starts the required proceedings to spend money or let contracts for such a project; or
- (3) authorizes the issuance of bonds for the purpose of financing such a project;

the governmental entity must notify the metropolitan development commission in writing of the location, cost, and nature of the project. The commission may by rule limit the kinds of capital improvement projects that are subject to the notification requirement of this section. The commission may designate an agency responsible for fiscal analyses or control to receive notifications required by this section.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-601

Zoning ordinance; powers and duties of legislative body

Sec. 601. (a) The legislative body having jurisdiction over the geographic area described in the zoning ordinance has exclusive authority to adopt a zoning ordinance under the 600 series. However, no zoning ordinance may be adopted until a comprehensive plan has been approved for the jurisdiction under the 500 series of this chapter.

(b) When it adopts a zoning ordinance, the legislative body shall:

- (1) designate the geographic area over which the plan commission shall exercise jurisdiction; and
- (2) incorporate by reference into the ordinance zone maps, as prepared by the plan commission under subsection (e).

(c) When it adopts a zoning ordinance, the legislative body shall act for the purposes of:

- (1) securing adequate light, air, convenience of access, and safety from fire, flood, and other danger;
- (2) lessening or avoiding congestion in public ways;
- (3) promoting the public health, safety, comfort, morals, convenience, and general welfare; and
- (4) otherwise accomplishing the purposes of this chapter.

(d) For the purposes described in subsection (c), the legislative body may do the following in the zoning ordinance:

- (1) Establish one (1) or more districts, which may be for agricultural, commercial, industrial, residential, special, or unrestricted uses and any subdivision or combination of these uses. A district may include geographic areas that are not contiguous. A geographic area may be subject to more than one (1) district.

(2) In each district, regulate how real property is developed, maintained, and used. This regulation may include:

- (A) requirements for the area of front, rear, and side yards, courts, other open spaces, and total lot area;
- (B) requirements for site conditions, signs, and nonstructural improvements, such as parking lots, ponds, fills, landscaping, and utilities;
- (C) provisions for the treatment of uses, structures, or conditions that are in existence when the zoning ordinance takes effect;
- (D) restrictions on development in areas prone to flooding;
- (E) requirements to protect the historic and architectural heritage of the community;

- (H) performance standards for the emission of noises, gases, heat, vibration, or particulate matter into the air or ground or across lot lines;
 - (I) standards for population density and traffic circulation; and
 - (J) any other provisions that are necessary to implement the purposes of the zoning ordinance.
- (3) Designate zoning districts in areas having special development problems or needs for compatibility in which a plan commission shall:
- (A) approve or disapprove development plans under the 1400 series of this chapter; and
 - (B) ensure that a development plan approved under this subdivision is consistent with the comprehensive plan and the development requirements specified in the zoning ordinance.
- (4) Provide for planned unit development through adoption and amendment of zoning ordinances, including PUD district ordinances (as defined in section 1503 of this chapter).
- (5) Establish in which districts the subdivision of land may occur.

(e) When it prepares a proposal to initially adopt a zoning ordinance for a jurisdiction, the plan commission shall also prepare zone maps. The purpose of the zone maps is to indicate the districts into which the incorporated areas and unincorporated areas, if any, are divided.

IC 36-7-4-602

Zoning ordinance; procedures for adoption of ordinances, amendments, and map changes

Sec. 602. (a) The following procedure applies to a proposal to adopt an initial zoning ordinance (or to adopt a replacement zoning ordinance after repealing the entire zoning ordinance, including amendments and zone maps) for a jurisdiction:

- (1) The plan commission must initiate the proposal.
- (2) The plan commission must prepare the proposal so that it is consistent with section 601 of this chapter.

the plan commission must print (and publish, if required) the ordinance under section 610 of this chapter.

(8) The ordinance takes effect as described in section 610 of this chapter.

(b) After the zoning ordinance for a jurisdiction has been adopted as described in subsection (a), the following procedure applies to a proposal to amend or partially repeal the text (not zone maps) of the ordinance:

(1) The plan commission may initiate the proposal. (Under the advisory planning law or the area planning law, any participating legislative body also may initiate the proposal and require the plan commission to prepare it.)

(2) The plan commission must prepare the proposal so that it is consistent with section 601 of this chapter.

(3) The plan commission and the legislative body both must comply with section 603 of this chapter.

(4) The plan commission must give notice and hold a public hearing under section 604 of this chapter.

(8) The amendments take effect as described in section 610 of this chapter.

(c) After the zoning ordinance for a jurisdiction has been adopted as described in subsection (a), the following procedure applies to a proposal to change the zone maps (whether by incorporating an additional map or by amending or deleting a map) incorporated by reference into the ordinance:

(1) The proposal may be initiated either:

(A) by the plan commission; or

(B) by a petition signed by property owners who own at least fifty percent (50%) of the land involved.

(Under the advisory planning law or the area planning law, any participating legislative body also may initiate the proposal and require the plan commission to prepare it.)

(2) The plan commission or petitioners must prepare the proposal so that it is consistent with section 601 of this chapter.

(3) The plan commission and the legislative body both must comply with section 603 of this chapter.

(4) The plan commission must give notice and hold a public hearing under section 604 of this chapter.

(5) The plan commission must certify the proposal to the legislative body under section 605 of this chapter.

(6) The legislative body must consider the proposal under section 608 of this chapter, and section 608 governs whether the

proposal is adopted or defeated.

(7) If the proposal is adopted under section 608 of this chapter, the plan commission must update the zone maps that it keeps available under section 610 of this chapter.

(8) The zone map changes take effect as described in section 610 of this chapter.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.45, SEC.19; P.L.335-1985, SEC.16; P.L.220-1986, SEC.16.

- (2) current conditions and the character of current structures and uses in each district;
- (3) the most desirable use for which the land in each district is adapted;
- (4) the conservation of property values throughout the jurisdiction; and
- (5) responsible development and growth.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.335-1985, SEC.17; P.L.220-1986, SEC.17.

IC 36-7-4-604

Zoning ordinance; notice and hearing before certification of proposed ordinance; prohibited communications

Sec. 604. (a) Before the plan commission certifies a proposal to the legislative body under section 605 of this chapter, the plan commission must hold a public hearing under this section.

(b) The plan commission shall give notice of the hearing by publication under IC 5-3-1. The notice must state:

- (1) the time and place of the hearing;
- (2) either:
 - (A) in the case of a proposal under section 606 or 607 of this chapter, the geographic areas (or zoning districts in a specified geographic area) to which the proposal applies; or
 - (B) in the case of a proposal under section 608 of this chapter, the geographic area that is the subject of the zone map change;

(Subdivision (2) does not require the identification of any real property by metes and bounds.)

- (3) either:
 - (A) in the case of a proposal under section 606 of this chapter, a summary (which the plan commission shall have prepared) of the subject matter contained in the proposal (not the entire text of the ordinance);
 - (B) in the case of a proposal under section 607 of this chapter, a summary (which the plan commission shall have

prepared) of the subject matter contained in the proposal (not the entire text) that describes any new or changed provisions; or

(C) in the case of a proposal under section 608 of this chapter, a description of the proposed change in the zone maps;

(4) if the proposal contains or would add or amend any penalty or forfeiture provisions, the entire text of those penalty or forfeiture provisions;

(5) the place where a copy of the proposal is on file for examination before the hearing;

(6) that written objections to the proposal that are filed with the secretary of the commission before the hearing will be considered;

(7) that oral comments concerning the proposal will be heard; and

(8) that the hearing may be continued from time to time as may be found necessary.

(c) The plan commission shall also provide for due notice to interested parties at least ten (10) days before the date set for the hearing. The commission shall by rule determine who are interested parties, how notice is to be given to interested parties, and who is required to give that notice. However, if the subject matter of the proposal abuts or includes a county line (or a county line street or road or county line body of water), then all owners of real property to a depth of two (2) ownerships or one-eighth (1/8) of a mile into the adjacent county, whichever is less, are interested parties who must receive notice under this subsection.

(d) The hearing must be held by the plan commission at the place stated in the notice. The commission may also give notice and hold hearings at other places within the county where the distribution of population or diversity of interests of the people indicate that the hearings would be desirable. The commission shall adopt rules governing the conduct of hearings under this section.

(e) A zoning ordinance may not be held invalid on the ground that the plan commission failed to comply with the requirements of this section, if the notice and hearing substantially complied with this section.

(f) The files of the plan commission concerning proposals are public records and shall be kept available at the commission's office for inspection by any interested person.

(g) METRO. In the case of a proposal to amend a zoning map under section 608 of this chapter or in the case of a proposed approval of a development plan required by a zoning ordinance as a condition of development, a person may not communicate before the hearing with any hearing officer, member of the historic preservation commission, or member of the plan commission with intent to influence the officer's or member's action on the proposal. Before the hearing, the staff may submit a statement of fact concerning the physical characteristics of the area involved in the proposal, along

with a recital of surrounding land use and public facilities available to serve the area. The staff may include with the statement an opinion of the proposal. The statement must be made a part of the file concerning the proposal not less than six (6) days before the proposal is scheduled to be heard. The staff shall furnish copies of the statement to persons in accordance with rules adopted by the commission.

(h) METRO. In the case of a proposal to amend a zoning map under section 608 of this chapter, this subsection applies if the proposal affects only real property within the corporate boundaries of an excluded city. Notwithstanding the other provisions of this section, the legislative body of the excluded city may decide that the legislative body rather than the plan commission should hold the public hearing prescribed by this section. Whenever the plan commission receives a proposal subject to this section, the plan commission shall refer the proposal to the legislative body of the excluded city. At the legislative body's first regular meeting after receiving a referred proposal, the legislative body shall decide whether the legislative body will hold the public hearing. Within thirty (30) days after making the decision to hold the hearing, the legislative body shall hold the hearing, acting for purposes of this section as if the legislative body is the plan commission. The legislative body shall then make a recommendation on the proposal to the plan commission. After receiving the excluded city legislative body's recommendation (or at the end of the thirty (30) day period for the public hearing if the proposal receives no recommendation), the plan commission shall meet and decide whether to make a favorable recommendation on the proposal. If the proposal receives a favorable recommendation from the commission, the proposal shall be certified to the county legislative body as provided in section 605 of this chapter.

(i) Before a proposal involving a structure regulated under IC 8-21-10 may become effective, the plan commission must have received:

(1) a copy of:

(A) the permit for the structure issued by the Indiana department of transportation; or

(B) the Determination of No Hazard to Air Navigation issued by the Federal Aviation Administration; and

(2) evidence that notice was delivered to a public use airport as required in IC 8-21-10-3 not less than sixty (60) days before the proposal is considered.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.335-1985, SEC.18; P.L.220-1986, SEC.18; P.L.344-1987, SEC.1; P.L.190-1988, SEC.1; P.L.321-1995, SEC.3; P.L.54-2002, SEC.5.

IC 36-7-4-605

commission as follows:

(1) If the proposal is to adopt an initial zoning ordinance (or to adopt a replacement zoning ordinance after repealing the entire zoning ordinance, including amendments and zone maps) under section 606 of this chapter, it may be certified only if it receives a favorable recommendation from the commission.

(2) If the proposal is to amend or partially repeal the text (not zone maps) of the ordinance under section 607 of this chapter, it may be certified with a favorable recommendation, an unfavorable recommendation, or no recommendation from the commission.

(3) If the proposal is to change the zone maps incorporated by reference into the ordinance under section 608 of this chapter, it may be certified with a favorable recommendation, an unfavorable recommendation, or no recommendation from the commission.

(b) METRO. A proposal shall be certified to the legislative body by the metropolitan development commission only if it receives a favorable recommendation from the commission.

(c) The legislative body shall consider the recommendation (if any) of the commission before acting on the proposal under section 606, 607, or 608 of this chapter.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.45, SEC.20; P.L.335-1985, SEC.19; P.L.220-1986, SEC.19.

IC 36-7-4-606

Zoning ordinance; procedure on proposal to adopt initial or replacement ordinance for a jurisdiction

Sec. 606. (a) This section applies to a proposal, as described in section 602(a) of this chapter, to adopt an initial zoning ordinance (or to adopt a replacement zoning ordinance after repealing the entire zoning ordinance, including amendments and zone maps) for a jurisdiction.

(b) At the first regular meeting of the legislative body after the plan commission certifies the proposal under section 605 of this chapter, the legislative body shall either:

(1) adopt, reject, or amend the proposal; or

(2) decide to further consider the proposal, in which case the proposal may be scheduled for a further hearing at any regular or special meeting of the legislative body within ninety (90) days after certification. In any event, the legislative body shall vote on the proposal within ninety (90) days after the plan commission certifies the proposal under section 605 of this chapter.

(c) If the legislative body proceeds under subsection (b)(1), it shall give notice under IC 5-14-1.5-5 of its intention to consider the proposal at that meeting. If the legislative body proceeds under subsection (b)(2) to schedule a further hearing, it shall publish a notice of the hearing in accordance with IC 5-3-1, announce the hearing during a meeting, and enter the announcement in its

memoranda and minutes. The notice and announcement must state:

- (1) the date, time, and place of the hearing;
- (2) that it pertains to an original zoning ordinance;
- (3) that written objections to the proposal filed with the clerk of the legislative body or with the county auditor at or before the hearing will be heard; and
- (4) that the hearing may be continued from time to time as may be found necessary.

(d) The recommendation of the plan commission concerning the proposal must be on file in the commission's office for public examination for at least ten (10) days before any hearing scheduled under subsection (b)(2). On completion of the hearing, the legislative body shall consider the proposal.

(e) If the legislative body adopts the proposal, the ordinance takes effect as other ordinances of the legislative body.

(f) If the legislative body fails to act on the proposal within ninety (90) days after certification, the ordinance takes effect as if it had been adopted (as certified) ninety (90) days after certification.

(g) If the legislative body rejects or amends the proposal, it shall be returned to the plan commission for its consideration, with a written statement of the reasons for the rejection or amendment. The commission has forty-five (45) days in which to consider the rejection or amendment and report to the legislative body as follows:

(1) If the commission approves the amendment or fails to act within the forty-five (45) day period, the ordinance stands as passed by the legislative body as of the date of the filing of the commission's report of approval with the legislative body or the end of the forty-five (45) day period.

(2) If the commission disapproves the rejection or amendment, the action of the legislative body on the original rejection or amendment stands only if confirmed by another vote of the legislative body within forty-five (45) days after the commission certifies its disapproval. If the legislative body fails to confirm its action under this subdivision, then the ordinance takes effect in the manner provided in subsection (f).

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.45, SEC.21; P.L.356-1983, SEC.1; P.L.335-1985, SEC.20; P.L.220-1986, SEC.20.

IC 36-7-4-607

Sec. 607. (a) This section applies to a proposal, as described in section 602(b) of this chapter, to amend or partially repeal the text (not zone maps) of the zoning ordinance.

(b) **ADVISORY—AREA.** If the proposal is initiated by a participating legislative body instead of the plan commission, the proposal must be referred to the commission for consideration and recommendation before any final action is taken by the legislative body.

(c) On receiving or initiating the proposal, the commission shall, within sixty (60) days, hold a public hearing in accordance with section 604 of this chapter. Within ten (10) business days after the commission determines its recommendation (if any), the commission shall certify the proposal under section 605 of this chapter.

(d) The legislative body shall vote on the proposal within ninety (90) days after the plan commission certifies the proposal under section 605 of this chapter.

(e) This subsection applies if the proposal receives a favorable recommendation from the plan commission:

(1) At the first regular meeting of the legislative body after the proposal is certified under section 605 of this chapter (or at any subsequent meeting within the ninety (90) day period), the legislative body may adopt, reject, or amend the proposal. The legislative body shall give notice under IC 5-14-1.5-5 of its intention to consider the proposal at that meeting.

(2) If the legislative body adopts (as certified) the proposal, it takes effect as other ordinances of the legislative body.

(3) If the legislative body fails to act on the proposal within ninety (90) days after certification, it takes effect as if it had been adopted (as certified) ninety (90) days after certification.

(4) If the legislative body rejects or amends the proposal, it shall be returned to the plan commission for its consideration, with a written statement of the reasons for the rejection or amendment. The commission has forty-five (45) days in which to consider the rejection or amendment and report to the legislative body as follows:

(A) If the commission approves the amendment or fails to act within the forty-five (45) day period, the ordinance stands as passed by the legislative body as of the date of the filing of the commission's report of approval with the legislative body or the end of the forty-five (45) day period.

(B) If the commission disapproves the rejection or amendment, the action of the legislative body on the original rejection or amendment stands only if confirmed by another vote of the legislative body within forty-five (45) days after the commission certifies its disapproval. If the legislative body fails to confirm its action under this clause, the ordinance takes effect in the manner provided in subdivision (3).

(f) **ADVISORY—AREA.** This subsection applies if the proposal receives either an unfavorable recommendation or no recommendation from the plan commission:

(1) At the first regular meeting of the legislative body after the proposal is certified under section 605 of this chapter (or at any subsequent meeting within the ninety (90) day period), the legislative body may adopt, reject, or amend the proposal. The legislative body shall give notice under IC 5-14-1.5-5 of its intention to consider the proposal at that meeting.

(2) If the legislative body adopts (as certified) the proposal, it

takes effect as other ordinances of the legislative body.

(3) If the legislative body rejects the proposal or fails to act on it within ninety (90) days after certification, it is defeated.

(4) If the legislative body amends the proposal, it shall be returned to the plan commission for its consideration, with a written statement of the reasons for the amendment. The commission has forty-five (45) days in which to consider the amendment and report to the legislative body as follows:

(A) If the commission approves the amendment or fails to act within the forty-five (45) day period, the ordinance stands as passed by the legislative body as of the date of the filing of the commission's report of approval with the legislative body or the end of the forty-five (45) day period.

(B) If the commission disapproves the amendment, the action of the legislative body on the original amendment stands only if confirmed by another vote of the legislative body within forty-five (45) days after the commission certifies its disapproval. If the legislative body fails to confirm its action under this clause, the ordinance is defeated as provided in subdivision (3).

IC 36-7-4-608

Zoning ordinance; procedure for changing zoning maps

Sec. 608. (a) This section applies to a proposal, as described in section 602(c) of this chapter, to change the zone maps incorporated by reference into the zoning ordinance.

(b) If the proposal is not initiated by the plan commission, it must be referred to the commission for consideration and recommendation before any final action is taken by the legislative body. On receiving or initiating the proposal, the commission shall, within sixty (60) days, hold a public hearing in accordance with section 604 of this chapter. Within ten (10) business days after the commission determines its recommendation (if any), the commission shall certify the proposal under section 605 of this chapter.

(c) METRO. This subsection applies if the proposal receives a favorable recommendation from the plan commission:

(1) At the first regular meeting of the legislative body after the proposal is certified under section 605 of this chapter, the legislative body may, by a majority of those voting, schedule the proposal for a hearing on a date not later than its next regular meeting.

(2) If the legislative body fails to schedule the proposal for a hearing under subdivision (1), the ordinance takes effect as if it had been adopted at the first regular meeting of the legislative body after the proposal is certified under section 605 of this chapter.

(3) For purposes of this subdivision, the final action date for a

proposal is the date thirty (30) days after the date that the proposal is certified under section 605 of this chapter, or the date of the second regular meeting after the proposal is certified under section 605 of this chapter, whichever is later. If the legislative body schedules the proposal for a hearing under subdivision (1) but fails to act on it by the final action date, the ordinance takes effect as if it had been adopted (as certified) on the final action date. However, the period of time from certification under section 605 of this chapter to the final action date may be extended by the legislative body, with the consent of the initiating plan commission or the petitioning property owners. If the legislative body fails to act on the proposal by the final action date (as extended), the ordinance takes effect as if it had been adopted (as certified) on that extended final action date.

(4) If the legislative body schedules the proposal for a hearing under subdivision (1), it shall announce the hearing during a meeting and enter the announcement in its memoranda and minutes. The announcement must state:

- (A) the date, time, and place of the hearing;
- (B) a description of the proposed changes in the zone maps;
- (C) that written objections to the proposal filed with the clerk of the legislative body or with the county auditor will be heard; and
- (D) that the hearing may be continued from time to time as may be found necessary.

(5) If the legislative body rejects the proposal at a hearing scheduled under subdivision (1), it is defeated.

(d) METRO. The plan commission may adopt a rule to limit further consideration, for up to one (1) year after its defeat, of a proposal that is defeated under subsection (c)(5).

(e) ADVISORY—AREA. The legislative body shall vote on the proposal within ninety (90) days after the plan commission certifies the proposal under section 605 of this chapter.

(f) ADVISORY—AREA. This subsection applies if the proposal receives a favorable recommendation from the plan commission:

- (1) At the first regular meeting of the legislative body after the proposal is certified under section 605 of this chapter (or at any subsequent meeting within the ninety (90) day period), the legislative body may adopt or reject the proposal. The legislative body shall give notice under IC 5-14-1.5-5 of its intention to consider the proposal at that meeting.
- (2) If the legislative body adopts (as certified) the proposal, it takes effect as other ordinances of the legislative body.
- (3) If the legislative body rejects the proposal, it is defeated.
- (4) If the legislative body fails to act on the proposal within ninety (90) days after certification, the ordinance takes effect as if it had been adopted (as certified) ninety (90) days after certification.

(g) ADVISORY—AREA. This subsection applies if the proposal

receives either an unfavorable recommendation or no recommendation from the plan commission:

(1) At the first regular meeting of the legislative body after the proposal is certified under section 605 of this chapter (or at any subsequent meeting within the ninety (90) day period), the legislative body may adopt or reject the proposal. The legislative body shall give notice under IC 5-14-1.5-5 of its intention to consider the proposal at that meeting.

(2) If the legislative body adopts (as certified) the proposal, it takes effect as other ordinances of the legislative body.

(3) If the legislative body rejects the proposal, it is defeated.

(4) If the legislative body fails to act on the proposal within ninety (90) days after certification, it is defeated.

(h) ADVISORY—AREA. The plan commission may adopt a rule to limit further consideration, for up to one (1) year after its defeat, of a proposal that is defeated under subsection (f)(3), (g)(3), or (g)(4).

Zoning ordinances; vote required for action by legislative body; veto of city ordinances

Sec. 609. (a) ADVISORY. A legislative body may take action under section 606, 607, or 608 of this chapter only by a vote of at least a majority of all the elected members of the body.

(b) AREA. A legislative body may take action under section 606, 607, or 608 of this chapter only by a vote of at least a majority of all the elected members of the body.

(c) METRO. The legislative body may take action under section 606, 607, or 608 of this chapter only by a vote of at least three-fifths (3/5) of all the elected members of the body.

(d) ADVISORY—AREA. Each city shall determine whether its zoning ordinances will be subject to veto by the executive of the city. If the city legislative body, by general ordinance, so provides, then each zoning ordinance adopted by that city under section 606, 607, or 608 of this chapter may be vetoed by the executive of the city. The executive must exercise the veto:

(1) in a case in which the legislative body adopts (as certified) the proposal, within ten (10) days after the legislative body acts;

(2) in a case in which the legislative body amends the proposal and the plan commission approves the amendment or fails to act, within fifty-five (55) days after the proposal is returned to the plan commission for its consideration;

(3) in a case in which the legislative body amends the proposal and confirms its original amendment by another vote, within ten

(10) days after the legislative body confirms its original amendment; or

(4) in a case in which the proposal is to take effect because of the legislative body's failure to act within a period of days, within ten (10) days after the expiration of that period.

(e) If a city zoning ordinance is not vetoed under subsection (d), it takes effect without any action being taken by the executive of the city.

(f) **ADVISORY—AREA.** If a city zoning ordinance is vetoed under subsection (d), it is defeated unless the city legislative body, at its first regular or special meeting after receiving the veto message, passes the ordinance over the veto by a two-thirds (2/3) vote.

IC 36-7-4-610

Zoning ordinance; notice of adoption; printing; presumption; effective date; copies

Sec. 610. (a) After adoption of a zoning ordinance under section 606 of this chapter, the plan commission shall publish a notice of adoption in accordance with IC 5-3-1. The notice of adoption (which the plan commission shall have prepared) must:

- (1) summarize the subject matter of the ordinance;
- (2) give the date of adoption;
- (3) specify the places or areas that would be directly affected by the ordinance (this subdivision does not require the identification of any real property by metes and bounds);
- (4) specify the penalty or forfeiture prescribed for a violation of the ordinance; and
- (5) give two (2) locations open to the public where the entire text of the ordinance is available for inspection.

(b) After adoption of a zoning ordinance under section 606 or 607 of this chapter, the plan commission shall print the text of the ordinance in book or pamphlet form (or arrange for the inclusion of the zoning ordinance in the code of ordinances printed by the unit under IC 36-1-5), and no other printing or publication of any zoning ordinance is required. Printing of the text of a zoning ordinance in compliance with this subsection constitutes presumptive evidence:

- (1) of the text of the ordinance that is contained in the code of ordinances, book, or pamphlet (and supplement, if any);
- (2) of the date of adoption of the ordinance, and of any amendment to the ordinance that is contained in the code of ordinances, book, or pamphlet (and supplement, if any); and
- (3) that the ordinance, along with any amendment to the ordinance that is contained in the code of ordinances, book, or pamphlet (and supplement, if any), has been properly signed, attested, and recorded.

(c) Zone maps incorporated by reference into the zoning ordinance are not required to be printed in the code of ordinances, book, or pamphlet printed under this section, but the plan

commission shall keep them available at its office for public inspection.

(d) Unless a zoning ordinance provides for a later effective date, the ordinance takes effect when it is adopted under section 606, 607, or 608 of this chapter, subject to subsection (e).

(e) When a provision prescribing a penalty or forfeiture for a violation is printed under this section, it may not take effect until fourteen (14) days after the later of the following:

(1) The final day on which notice of its adoption is published under subsection (a).

(2) The day on which it is filed in the clerk's office under subsection (f).

(f) If the zoning ordinance is not included in the code of ordinances printed by a unit under IC 36-1-5:

(1) the book or pamphlet (and supplement, if any) that comprises the zoning ordinance shall be incorporated by reference into the code of ordinances;

(2) two (2) copies of the book or pamphlet (and supplement, if any) as printed under this section shall be filed in the office of the clerk of each participating legislative body, and these copies shall be kept on file in that office for public inspection as required by IC 36-1-5-4; and

(3) the clerk shall keep additional copies of the book or pamphlet (and supplement, if any) in the clerk's office for the purpose of sale or distribution.

(g) If a unit includes the zoning ordinance in the unit's code of ordinances printed under IC 36-1-5, the plan commission shall also make copies of the zoning ordinance available to the public in accordance with IC 5-14-3.

(h) This chapter does not prohibit a unit from adopting:

(1) a unified development ordinance that combines the unit's zoning and subdivision control ordinances into a single book, pamphlet, or code title, article, or chapter; or

(2) form based codes or ordinances that employ combinations of maps, plats, charts, diagrams, tables, text, and images.

Proposed changes in zone maps

Sec. 610.5. This section applies to a proposal, as described in section 602(c) of this chapter, to change the zone maps incorporated by reference into the zoning ordinance. If, not later than one hundred eighty (180) days after adoption of the proposal, the legislative body finds that the proposal was adopted as a result of a person's intentional misrepresentation or omission of material facts, the legislative body may, by a three-fourths (3/4) vote (as described in IC 36-1-8-14), adopt an ordinance to nullify any change in the zone maps that resulted from the misrepresentation or omission. Such an ordinance may be adopted by the legislative body without being

referred to the plan commission for consideration and recommendation under sections 604, 605, and 608 of this chapter.

Zoning ordinance; due deliberation presumption; effectiveness within jurisdiction of adopting legislative body

Sec. 611. (a) Any ordinance adopted under the 600 series is presumed to have been adopted after due deliberation in regard to the facts upon which the comprehensive plan was formulated.

(b) AREA. If a proposed zoning ordinance is adopted under section 606, 607, or 608 of this chapter by one (1) or more, but not all, of the participating legislative bodies, it has effect within the jurisdiction of each legislative body that adopted it. The fact that the ordinance was based on a comprehensive plan developed for a larger territorial area does not affect its validity. The plan commission may print the ordinance under section 610 of this chapter as it applies only to certain territorial areas, whenever that would be useful for its enforcement.

Zoning ordinance; effect of prior ordinances

Sec. 612. (a) ADVISORY. Each zoning ordinance and each amendment to it adopted under any prior statute are validated and continued in effect until amended or repealed by action of the legislative body taken under authority of the advisory planning law. Each zoning ordinance has the same effect even though previously adopted as a comprehensive plan of land use or as a part of such a comprehensive plan.

(b) AREA. Each zoning ordinance that:

- (1) was adopted by a county or a participating municipality; and
- (2) is in effect at the time of the establishment of a planning department under section 202 of this chapter;

remains in full force and shall be enforced by the planning department under the area planning law until superseded by the zoning ordinance adopted for the jurisdiction under section 606 of the area planning law.

Zoning ordinance; agricultural nonconforming use

Sec. 616. (a) The definitions used in this section apply only to this section.

(b) As used in this section, "agricultural use" refers to land that is used for:

- (1) the production of livestock or livestock products, commercial aquaculture, equine or equine products, land designated as a conservation reserve plan, pastureland, poultry or poultry products, horticultural or nursery stock, fruit, vegetables, forage, grains, timber, trees, bees and apiary products, tobacco, or other agricultural crops, in the case of land that was not subject to a comprehensive plan or zoning ordinance before the most recent plan or zoning ordinance, including any amendments, was adopted; or
- (2) agricultural purposes as defined in or consistent with a comprehensive plan or zoning ordinance that:
 - (A) the land was subject to; and
 - (B) was repealed before the adoption of the most recent comprehensive plan or zoning ordinance, including any amendments.

(c) As used in this section, "agricultural nonconforming use" means the agricultural use of land that is not permitted under the most recent comprehensive plan or zoning ordinance, including any amendments, for the area where the land is located.

(d) An agricultural use of land that constitutes an agricultural nonconforming use may be changed to another agricultural use of land without losing agricultural nonconforming use status.

(e) A county or municipality may not, through the county or municipality's zoning authority, do any of the following:

- (1) Terminate an agricultural nonconforming use if the agricultural nonconforming use has been maintained for at least any three (3) year period in a five (5) year period.
- (2) Restrict an agricultural nonconforming use.
- (3) Require any of the following for the agricultural nonconforming use of the land:
 - (A) A variance for the land.
 - (B) A special exception for the land.
 - (C) A special use for the land.
 - (D) A contingent use for the land.
 - (E) A conditional use for the land.

(f) Notwithstanding subsection (e), this section does not prohibit a county, a municipality, or the state from requiring an agricultural nonconforming use to be maintained and operated in compliance with all:

- (1) state environmental and state health laws and rules; and
- (2) requirements to which conforming agricultural use land is subject under the county's comprehensive plan or zoning ordinance.

700 Series—Subdivision control

Sec. 700. This series (sections 700 through 799 of this chapter) may be cited as follows: 700 SERIES—SUBDIVISION CONTROL. *As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1982, P.L.211, SEC.4.*

IC 36-7-4-701

Subdivision control ordinance

Sec. 701. (a) The legislative body shall, in the zoning ordinance adopted under the 600 series of this chapter, determine the zoning districts in which subdivision of land may occur.

(b) The plan commission shall then recommend to each participating legislative body an ordinance containing provisions for subdivision control, which ordinance shall be adopted, amended, or repealed in the same manner as the zoning ordinance. After the subdivision control ordinance has been adopted and a certified copy of the ordinance has been filed with the county recorder, the plan commission has exclusive control over the approval of all plats and replats involving land covered by the subdivision control ordinance, subject to subsection (c) and subsection (f).

(c) ADVISORY. The municipal plan commission has exclusive control over the approval of plats and replats involving unincorporated land within its jurisdiction, unless the legislative body of the county has adopted a subdivision control ordinance covering those lands. In this case, the county plan commission has exclusive control over the approval.

(d) The subdivision control ordinance may provide that the subdivision of land that does not involve the opening of a new public way and that complies in all other respects with the subdivision control ordinance and the zoning ordinance may be granted primary approval by the plat committee without public notice and hearing, subject to appeal to the plan commission. Within ten (10) days after primary approval under this subsection, the plan commission staff shall provide for due notice to interested parties of their right to appeal to the plan commission. The notice shall be given in the manner set forth in section 706(2) and 706(3) of this chapter.

(e) The plan commission may appoint a plat committee to hold hearings on and approve plats and replats on behalf of the commission. The plat committee consists of three (3) or five (5) persons, with at least one (1) of the members being a member of the commission. Each appointment of a member of the plat committee is for a term of one (1) year, but the commission may remove a

member from the committee. The commission must mail notice of the removal, along with written reasons, if any, for the removal, to the member at his residence address. A member who is removed may not appeal the removal to a court or otherwise. The plat committee may take action only by a majority vote.

(f) AREA. A participating legislative body may, in the subdivision control ordinance, reserve to itself the power to waive any condition that is imposed upon primary approval of a plat by the plan commission under section 702 of this chapter. The legislative body shall prescribe the procedure under which a person may apply for a waiver of a condition under this subsection.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1982, P.L.211, SEC.5; P.L.335-1985, SEC.29; P.L.320-1995, SEC.10.

IC 36-7-4-702

Subdivision control; primary approval of plat; standards of ordinance; requisites; compliance

Sec. 702. (a) In determining whether to grant primary approval of a plat, the plan commission (or plat committee acting on the commission's behalf) shall determine if the plat or subdivision qualifies for primary approval under the standards prescribed by the subdivision control ordinance.

(b) The subdivision control ordinance must specify the standards for determining whether a plat qualifies for primary approval. The ordinance must include standards for:

- (1) minimum width, depth, and area of lots in the subdivision;
- (2) public way widths, grades, curves, and the coordination of subdivision public ways with current and planned public ways;
- and

(3) the extension of water, sewer, and other municipal services. The ordinance may also include standards for the allocation of areas to be used as public ways, parks, schools, public and semipublic buildings, homes, businesses, and utilities, and any other standards related to the purposes of this chapter.

(c) The standards fixed in the subdivision control ordinance under subsection (b) may be waived at the discretion of the plan commission (or plat committee acting on the commission's behalf); however, to be approved, the plat must still meet all applicable standards prescribed in the zoning ordinance (other than standards modified by variance in accordance with the 900 series of this chapter). As a condition of granting a waiver under this subsection, the commission or committee may allow or require a commitment to be made under section 1015 of this chapter.

(d) As a condition of primary approval of a plat, the commission or committee may specify:

- (1) the manner in which public ways shall be laid out, graded, and improved;
- (2) a provision for water, sewage, and other utility services;
- (3) a provision for lot size, number, and location;
- (4) a provision for drainage design; and

(5) a provision for other services as specified in the subdivision control ordinance.

(e) The subdivision control ordinance may not regulate condominiums regulated by IC 32-25.

IC 36-7-4-704

Subdivision control; fees; uniform schedule; payment

Sec. 704. The plan commission shall establish a uniform schedule of fees proportioned to the cost of checking and verifying the proposed plats. An applicant shall pay the specified fee upon the filing of an application for approval.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.310, SEC.36; Acts 1982, P.L.211, SEC.8.

IC 36-7-4-705

Subdivision control; primary approval of plat; review of application; hearing date

Sec. 705. Upon receipt of an application for primary approval, the plan commission staff shall review the application for technical conformity with the standards fixed in the subdivision control ordinance. Within thirty (30) days after receipt, the staff shall announce the date for a hearing before the plan commission or plat committee and provide for notice in accordance with section 706 of this chapter. The plan commission shall, by rule, prescribe procedures for setting hearing dates and for the conduct of hearings.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.310, SEC.37; Acts 1982, P.L.211, SEC.9.

IC 36-7-4-706

Subdivision control; application for primary approval; notice of hearing

Sec. 706. After the staff has announced a date for a hearing before the plan commission or plat committee, it shall:

- (1) notify the applicant in writing;
- (2) give notice of the hearing by publication in accordance with IC 5-3-1; and
- (3) provide for due notice to interested parties at least ten (10) days before the date set for the hearing. The plan commission shall, by rule, determine who are interested parties, how notice

is to be given to them, and who is required to give that notice.
As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.310, SEC.38; Acts 1982, P.L.211, SEC.10.

IC 36-7-4-707

Subdivision control; primary approval of plat; findings and decision

Sec. 707. (a) If, after the hearing, the plan commission or plat committee determines that the application and plat comply with the standards in the subdivision control ordinance, the commission or committee shall make written findings and a decision granting primary approval to the plat. This decision, which must also specify any condition imposed or waiver granted under section 702 of this chapter, must be signed by an official designated in the subdivision control ordinance.

(b) If, after the hearing, the plan commission or plat committee disapproves the plat, the commission or committee shall make written findings that set forth its reasons and a decision denying primary approval and shall provide the applicant with a copy. This decision must be signed by the official designated in the subdivision control ordinance.

(c) This section applies to any subdivision of land, whether or not it is exempted from the notice and hearing requirements of this series under section 701(d) of this chapter.

IC 36-7-4-708

Subdivision control; primary approval or disapproval of plat; appeal to plan commission; procedure; review

Sec. 708. (a) An applicant or other interested party may appeal to the plan commission the primary approval or disapproval of a plat, or the imposition of a condition on primary approval by the plat committee, in accordance with section 402(d) of this chapter. However, if the plat committee grants primary approval for the subdivision of land without public notice and hearing under section 701(d) of this chapter, an interested party may appeal the approval to the plan commission by filing a notice of appeal with the plan commission not more than five (5) days after a copy of the plat committee's action is mailed to the interested party. Notice shall be given and a hearing held by the commission in the same manner as in the case of the plat committee.

(b) The commission has the same power as the plat committee to approve, disapprove, or impose conditions on the approval of plats.

(c) The primary approval by the commission of a plat must be certified on behalf of the commission by an official designated in the subdivision control ordinance.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1982, P.L.211, SEC.12; P.L.320-1995, SEC.11; P.L.126-2011, SEC.19.

IC 36-7-4-709**Subdivision control; secondary approval of plat; proof of financial responsibility; rule for determination of completion of improvements and installations**

Sec. 709. (a) Secondary approval under section 710 of this chapter may be granted to a plat for a subdivision in which the improvements and installments have not been completed as required by the subdivision control ordinance, if:

(1) the applicant provides a bond, or other proof of financial responsibility as prescribed by the legislative body in the subdivision control ordinance, that:

(A) is an amount determined by the plan commission or plat committee to be sufficient to complete the improvements and installations in compliance with the ordinance; and

(B) provides surety satisfactory to the plan commission or plat committee; or

(2) with respect to the installation or extension of water, sewer, or other utility service:

(A) the applicant shows by written evidence that it has entered into a contract with the political subdivision or utility providing the service; and

(B) the plan commission or plat committee determines based on written evidence that the contract provides satisfactory assurance that the service will be installed or extended in compliance with the subdivision control ordinance.

(b) Any money received from a bond or otherwise shall be used only for making the improvements and installments for which the bond or other proof of financial responsibility was provided. This money may be used for these purposes without appropriation. The improvement or installation must conform to the standards provided for such improvements or installations by the municipality in which it is located, as well as the subdivision control ordinance.

(c) The plan commission shall, by rule, prescribe the procedure for determining whether all improvements and installations have been constructed and completed as required by the subdivision control ordinance. The rule must designate the person or persons responsible for making the determination.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1982, P.L.211, SEC.13; P.L.337-1985, SEC.1; P.L.126-2011, SEC.20.

IC 36-7-4-710**Subdivision control; secondary approval of plat; authority to grant; time; prerequisites for legal effect of plat**

Sec. 710. (a) The plan commission may grant secondary approval of a plat under this section or may delegate to the plat committee or staff the authority to grant such secondary approvals.

(b) Secondary approval may be granted, after expiration of the time provided for appeal under section 708 of this chapter.

(c) No notice or hearing is required, and the provisions of this series concerning notice and hearing do not apply to secondary

approvals.

(d) A plat of a subdivision may not be filed with the auditor, and the recorder may not record it, unless it has been granted secondary approval and signed and certified by the official designated in the subdivision control ordinance governing the area. The filing and recording of the plat is without legal effect unless approved by the commission, committee, or staff.

Vacation of plats; alternate procedure; petition; notice and hearing

Sec. 711. (a) The plan commission (or plat committee acting on its behalf), proceeding in accordance with IC 36-7-3-10 or with this section, has exclusive control over the vacation of plats or parts of plats.

(b) In a case in which not all the owners of land in a plat are in agreement regarding a proposed vacation, this section provides an alternate procedure under which one (1) or more owners of land in the plat may file with the plan commission a petition to vacate all the plat or only that part of the plat that pertains to land owned by the petitioner or petitioners. A petition under this section must:

- (1) state the reasons for and the circumstances prompting the request;
- (2) specifically describe the property in the plat proposed to be vacated; and
- (3) give the name and address of every other owner of land in the plat.

(c) Subject to section 714 of this chapter, a petition under this section may also include a request to vacate any recorded covenants filed as a part of the plat.

(d) Not more than thirty (30) days after receipt of a petition under this section, the plan commission staff shall announce the date for the hearing before the plan commission (or plat committee acting on the plan commission's behalf). The plan commission shall adopt rules prescribing procedures for setting hearing dates and for providing other notice as may be required in accordance with this chapter. The petitioner shall pay all expenses of providing the notice required by this subsection.

(e) The plan commission shall adopt rules prescribing procedures for the conduct of the hearing, which must include a provision giving every other owner of land in the plat an opportunity to comment on the petition.

(f) After hearing the petition, the plan commission or plat committee shall approve or disapprove the request. The commission or committee may approve the vacation of all or part of a plat only upon a determination that:

- (1) conditions in the platted area have changed so as to defeat the original purpose of the plat;

- (2) it is in the public interest to vacate all or part of the plat; and
- (3) the value of that part of the land in the plat not owned by the petitioner will not be diminished by the vacation.

(g) The commission or committee may impose reasonable conditions as part of any approval. The commission or committee shall furnish a copy of the commission's or committee's decision to the county recorder for recording.

(h) An applicant or other interested party may appeal the approval or disapproval of a vacation by the plat committee in the manner prescribed by section 402(d) of this chapter.

IC 36-7-4-712

Plat committee; exclusive control over vacation of plats or public ways; rules; public interest; appeals

Sec. 712. (a) METRO. The plat committee has exclusive control over the vacation of:

- (1) plats or parts of plats; and
- (2) public ways, easements, or public places, or parts of any of them, whether or not they are included in an approved plat;

in the county. The plat committee may adopt rules governing the procedure for these vacations. The vacation of public ways, easements, or public places, or parts of any of them may be made only upon a finding by the plat committee that the vacation is in the public interest. The plat committee may accomplish the vacation of plats or parts of plats by proceeding in accordance with IC 36-7-3-10 or section 711 of this chapter.

(b) METRO. An applicant or other interested party may appeal the approval or disapproval of a vacation in the manner prescribed by section 402(d) of this chapter.

IC 36-7-4-714

Determination required to vacate recorded covenant filed with plat

Sec. 714. The vacation of all or part of a plat may include the vacation of any recorded covenants filed with the plat, but only upon a determination that:

- (1) the platted area is within an area needing redevelopment and the covenant vacation would promote a recovery of property values in the area needing redevelopment by allowing or encouraging normal development and occupancy of the platted area;
- (2) the covenant vacation is needed to secure for the public

adequate light, air, convenience of access, or safety from fire, flood, or other danger; or

(3) the covenant vacation is needed to lessen or avoid congestion in the public ways.

As added by P.L.126-2011, SEC.24.

IC 36-7-4-715

Final decisions of plan commission subject to review

Sec. 715. (a) The following are final decisions of the plan commission that may be reviewed as provided by section 1016 of this chapter:

- (2) Imposition of a condition on primary approval of a plat.
- (3) Approval or disapproval of the vacation of all or part of a plat.
- (4) Approval or disapproval of the vacation of any recorded covenants filed with the plat.
- (5) Imposition of a condition on approval of the vacation of all or part of a plat (which may include the vacation of any recorded covenants filed with the plat).

(b) The plan commission may adopt a rule to limit further consideration for up to one (1) year after its disapproval, of a plat or vacation request that is disapproved under section 707, 708, 711, 712, or 714 of this chapter.

800 Series—Improvement location permit

Sec. 800. This series (sections 800 through 899 of this chapter) may be cited as follows: 800 SERIES—IMPROVEMENT LOCATION PERMIT.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-801

Improvement location permit; requirement

Sec. 801. (a) ADVISORY. A structure may not be located and an improvement location permit for a structure on platted or unplatted land may not be issued unless the structure and its location conform to the municipal zoning ordinance. However, if the land is unincorporated land that lies within a county that has adopted a zoning ordinance, then the municipal zoning ordinance does not apply and the structure must conform to the county zoning ordinance. A municipality, having adopted a zoning ordinance, may issue and control improvement location permits on unincorporated lands within the jurisdiction of its municipal plan commission if the lands lie within a county that has not adopted a zoning ordinance.

(b) AREA—METRO. A zoning ordinance, a subdivision ordinance, or a separate ordinance may require the procurement of:

- (1) an improvement location permit for the erection, alteration, or repair of any structure on platted or unplatted land; and

(2) an occupancy permit for the use of any structure or land regulated by a zoning ordinance, subdivision ordinance, thoroughfare ordinance, or other ordinance relating to land use. If such a provision is adopted, a structure may not be located and a permit may not be issued unless the use, character, and location of the structure is in conformity with the applicable ordinance.

(c) AREA. The ordinance under subsection (b) must contain a schedule of fees and must provide that the unit that issues the permit shall receive the fee and pay it into its general fund.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.220-1986, SEC.25.

IC 36-7-4-802

Improvement location permit; authority to issue

Sec. 802. (a) ADVISORY. The ordinance may designate the official or employee of the municipality or county who may issue improvement location permits within the jurisdiction of the advisory plan commission and in conformance with the zoning ordinance.

(b) AREA. The authority to issue the improvement location permit and the occupancy permit may be delegated by the ordinance to the area plan commission or to other appropriate officers of the county or municipality. If the authority is delegated in part to officers of a municipality, they may not issue permits for structures to be erected outside the corporate boundaries of the municipality.

(c) METRO. The metropolitan development commission shall issue improvement location permits and occupancy permits. The commission may delegate this duty to any municipal or county officers.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.220-1986, SEC.26.

IC 36-7-4-803

Bonds of contractors, engineers, and surveyors; enforcement of zoning or subdivision ordinance

Sec. 803. (a) AREA—METRO. As an additional means of insuring the enforcement of a zoning or subdivision ordinance, a legislative body may adopt, as a part of either ordinance or by separate ordinance, provisions requiring building contractors to furnish an annual bond of one thousand dollars (\$1,000). This bond is to insure that if the construction does not comply with the zoning or subdivision ordinance that it can be made to conform without cost to the municipality, the county, or the person for whom the construction was undertaken.

(b) METRO. An ordinance under subsection (a) may also require professional engineers and land surveyors to furnish an annual bond of one thousand dollars (\$1,000) to insure that their plans and surveys conform to the zoning or subdivision ordinance.

(c) METRO. A person constructing a building for his own use and occupancy as a residence or in connection with his residence is exempt from any provisions adopted under subsection (a).

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-804

Improvement location or building permit; eligibility; violations of zoning or subdivision ordinance; hearing

Sec. 804. (a) METRO. After a building contractor violates a zoning or subdivision ordinance three (3) times in a calendar year, he is ineligible to receive an improvement location or building permit for one (1) year, beginning on the date of the third violation. Whenever a person for whom a structure is to be built applies for a permit, he must disclose under the penalties for perjury the identity of his contractor; such a person is eligible to receive a permit only if his contractor is eligible.

(b) METRO. A determination by the metropolitan development commission, after a hearing at which the contractor may be represented by counsel and may present evidence, is conclusive evidence of a violation under subsection (a).

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-900

900 Series—Board of zoning appeals

Sec. 900. This series (sections 900 through 999 of this chapter) may be cited as follows: 900 SERIES—BOARD OF ZONING APPEALS.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-901

Board of zoning appeals; establishment; divisions; jurisdiction; continuation of certain boards

Sec. 901. (a) As a part of the zoning ordinance, the legislative body shall establish a board of zoning appeals.

(b) The board of zoning appeals is composed of one (1) division, unless the zoning ordinance is amended under this subsection. Whenever considered desirable, the zoning ordinance may be amended to establish an additional one (1), two (2), or three (3) divisions of the board of zoning appeals.

(c) After January 1, 1984, whenever any divisions of the board of zoning appeals are established or reestablished by the zoning ordinance, the ordinance must provide for each division to consist of five (5) members appointed in accordance with section 902 of this chapter.

(d) The board of zoning appeals shall be known as:

- (1) the advisory board of zoning appeals (under the advisory planning law);
- (2) the area board of zoning appeals (under the area planning law); or
- (3) the metropolitan board of zoning appeals (under the metropolitan development law).

(e) Except as provided in this section, a board of zoning appeals has territorial jurisdiction over all the land subject to the zoning

ordinance, and if the board has more than one (1) division, all divisions have concurrent jurisdiction within that territory.

(f) **ADVISORY—AREA.** The zoning ordinance may provide that any additional division of the board of zoning appeals, having been established under subsection (b), is to have only limited territorial jurisdiction. The zoning ordinance must describe the limits of that division's territorial jurisdiction and specify whether that division has exclusive or concurrent jurisdiction within that territory.

(g) **METRO.** Any municipal board of zoning appeals that was established by an excluded city under IC 18-7-2-61 (before its repeal on September 1, 1981) continues as the board of zoning appeals for that municipality. A board of zoning appeals for an excluded city has exclusive territorial jurisdiction within the corporate boundaries of that municipality. All divisions of the metropolitan board of zoning appeals have concurrent territorial jurisdiction throughout the remainder of the county. The legislative body of the consolidated city may adopt ordinances to regulate the time of the meetings and the voting procedures of the metropolitan board of zoning appeals.

(h) **ADVISORY.** Any board of zoning appeals that was established under IC 18-7-3-11 continues as the board of zoning appeals for that jurisdiction, until otherwise provided by the zoning ordinance.

(i) **AREA.** Any board of zoning appeals that was established under the advisory planning law and continued in existence under the area planning law continues as the board of zoning appeals for that jurisdiction, until otherwise provided by the zoning ordinance.

(j) **AREA.** Any board of zoning appeals that was established under the area planning law as a seven (7) member board continues as the area board of zoning appeals, until otherwise provided by the zoning ordinance.

(k) **METRO.** The zoning ordinance may provide that a historic preservation commission created under IC 36-7-11.1-3 may exercise the powers of a board of zoning appeals within a historic area or historic zoning district established under IC 36-7-11.1-6. However, this subsection does not eliminate the need for a historic preservation commission to issue a certificate of appropriateness under IC 36-7-11.1-8(e) before the approval of a variance by either:

(1) a board of zoning appeals; or

(2) a historic preservation commission exercising the powers of a board of zoning appeals.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.357-1983, SEC.1; P.L.3-1990, SEC.125; P.L.321-1995, SEC.4; P.L.164-1995, SEC.20.

IC 36-7-4-901.5

Reorganized units; board of zoning appeals required if advisory plan commission established

Sec. 901.5. (a) If an advisory plan commission is established under section 202.5 of this chapter by a unit described in IC 36-7-2-1(b) and the unit adopts a comprehensive plan under this

chapter, the legislative body of the unit shall establish a board of zoning appeals.

(b) A board of zoning appeals established under this section:

(1) shall exercise the board's powers and duties under this chapter within the unit in the same manner that a municipal board of zoning appeals established under this chapter exercises powers and duties under this chapter for a municipality; and

(2) may not exercise the board's powers and duties under this chapter within a municipality that has established a plan commission under this chapter (other than a municipality that participated in the reorganization of the unit under IC 36-1.5).

(c) Notwithstanding any other law, if the legislative body of a unit described in IC 36-7-2-1(b) establishes a board of zoning appeals under this section, the legislative body of the unit shall, by resolution or in the unit's plan of reorganization under IC 36-1.5, determine:

(1) the number of members to be appointed to the unit's board of zoning appeals;

(2) the person or entity that shall appoint or remove those members;

(3) any required qualifications for those members; and

(4) the terms of those members.

As added by P.L.202-2013, SEC.35.

IC 36-7-4-902

Board of zoning appeals; members; number; appointment

Sec. 902. (a) ADVISORY. Each division of the advisory board of zoning appeals consists of five (5) members as follows:

(1) Three (3) citizen members appointed by the executive of the municipality or county, of whom one (1) must be a member of the plan commission and two (2) must not be members of the plan commission.

(2) One (1) citizen member appointed by the fiscal body of the municipality or county, who must not be a member of the plan commission.

(3) One (1) member appointed by the plan commission from the plan commission's membership, who must be a county agricultural agent or a citizen member of the plan commission other than the member appointed under subdivision (1).

(b) ADVISORY. In each county having a metropolitan plan commission, subsection (a) does not apply. In such a county, each division of the advisory board of zoning appeals consists of five (5) members as follows:

(1) Two (2) members, of whom no more than one (1) may be of the same political party, appointed by the county legislative body.

(2) Three (3) members, of whom no more than two (2) may be of the same political party, appointed by the second class city executive. One (1) only of these members must be a member of the plan commission.

(c) AREA. When the area board of zoning appeals was

established before January 1, 1984, as a seven (7) member board, the board consists of seven (7) members as follows:

(1) Two (2) citizen members appointed by the area plan commission from its membership, one (1) of whom must be a municipal representative and the other must be a county representative.

(2) Three (3) citizen members, who may not be members of any plan commission, appointed by the executive of the largest municipality in the county. However, if there are two (2) or more municipalities having a population of at least twenty thousand (20,000) in the county, the executive of the largest municipality shall appoint two (2) citizen members and the executive of the second largest municipality shall appoint one (1) citizen member. Furthermore, if there are no cities in the county participating in the commission, then the three (3) members appointed under this subdivision shall be appointed as follows:

(A) One (1) member appointed by the county executive.

(B) One (1) member appointed by the county fiscal body.

(C) One (1) member appointed by the legislative bodies of those towns participating in the commission.

(3) Two (2) citizen members, who may not be members of any plan commission, appointed by the county legislative body.

(d) AREA. Except as provided in subsection (c), each division of the area board of zoning appeals consists of five (5) members as follows:

(1) One (1) citizen member appointed by the area plan commission from its membership.

(2) One (1) citizen member, who may not be a member of any plan commission, appointed by the executive of the largest municipality in the county participating in the commission.

(3) Two (2) citizen members, of whom one (1) must be a member of the area plan commission and one (1) must not be a member of any plan commission, appointed by the county legislative body.

(4) One (1) citizen member, who may not be a member of any plan commission, appointed by the executive of the second largest municipality in the county participating in the commission. However, if there is only one (1) municipality in the county participating in the commission, then the county legislative body shall make this appointment.

(e) METRO. Each division of the metropolitan board of zoning appeals consists of five (5) members as follows:

(1) Two (2) citizen members appointed by the executive of the consolidated city.

(2) Two (2) citizen members appointed by the legislative body of the consolidated city.

(3) One (1) citizen member, who may also be a member of the metropolitan development commission, appointed by the commission.

(f) METRO. The municipal board of zoning appeals for an excluded city consists of five (5) members as follows:

(1) Three (3) citizen members appointed by the legislative body of the excluded city.

(2) Two (2) citizen members, who may also be members of the metropolitan development commission, appointed by the commission.

(g) Whenever the zoning ordinance provides for a certain division of the board of zoning appeals to have limited territorial jurisdiction, it must also provide for that division to consist of members who are all residents of that limited territory. Those members shall be appointed in the same manner that is prescribed by subsection (a) for divisions of an advisory board of zoning appeals, but if the plan commission is unable to make its appointment in that manner, the appointment shall be made instead by the legislative body.

As added by Acts 1981, P.L.309, SEC.23. Amended by P.L.357-1983, SEC.2; P.L.320-1995, SEC.12.

- (1) the allocation of cases filed among the divisions of the board of zoning appeals; and
- (2) the fixing of dates for hearings by the divisions.

(c) Rules adopted by the board of zoning appeals shall be printed and be made available to all applicants and other interested persons.

- (2) any order, requirement, decision, or determination made by an administrative board or other body except a plan commission in relation to the enforcement of the zoning ordinance; or

Board of zoning appeals; variance of use

Sec. 918.4. ADVISORY—METRO. A board of zoning appeals shall approve or deny variances of use from the terms of the zoning ordinance. The board may impose reasonable conditions as a part of its approval. A variance may be approved under this section only upon a determination in writing that:

- (1) the approval will not be injurious to the public health, safety, morals, and general welfare of the community;
- (2) the use and value of the area adjacent to the property included in the variance will not be affected in a substantially adverse manner;
- (3) the need for the variance arises from some condition peculiar to the property involved;
- (4) the strict application of the terms of the zoning ordinance will constitute an unnecessary hardship if applied to the property for which the variance is sought; and

(5) the approval does not interfere substantially with the comprehensive plan adopted under the 500 series of this chapter.

As added by P.L.357-1983, SEC.13.

IC 36-7-4-918.5

Board of zoning appeals; variance from development standards

Sec. 918.5. (a) A board of zoning appeals shall approve or deny variances from the development standards (such as height, bulk, or area) of the zoning ordinance. The board may impose reasonable conditions as a part of the board's approval. A variance may be approved under this section only upon a determination in writing that:

- (1) the approval will not be injurious to the public health, safety, morals, and general welfare of the community;
- (2) the use and value of the area adjacent to the property included in the variance will not be affected in a substantially adverse manner; and
- (3) the strict application of the terms of the zoning ordinance will result in practical difficulties in the use of the property. However, the zoning ordinance may establish a stricter standard than the "practical difficulties" standard prescribed by this subdivision.

(b) Before approval of a proposal involving a structure regulated under IC 8-21-10 may become effective, the board of zoning appeals must have received:

- (1) a copy of:
 - (A) the permit for the structure issued by the Indiana department of transportation; or
 - (B) the Determination of No Hazard to Air Navigation issued by the Federal Aviation Administration; and
- (2) evidence that notice was delivered to a public use airport as required in IC 8-21-10-3 not less than sixty (60) days before the proposal is considered.

(c) Only the plan commission (or plat committee acting on the commission's behalf) may grant a waiver from standards that are fixed in the subdivision control ordinance, as provided in section 702(c) of this chapter.

IC 36-7-4-918.6

- (2) more than two hundred fifty thousand (250,000) but less than two hundred seventy thousand (270,000).

(b) **ADVISORY—AREA.** Notwithstanding sections 918.2, 918.4, and 918.5 of this chapter, a zoning or subdivision control ordinance shall require that the board of zoning appeals submit any of the following petitions to the legislative body for approval or disapproval:

- (1) Special exceptions.
- (2) Special uses.
- (3) Use variances.

(c) **ADVISORY—AREA.** The board of zoning appeals shall file a petition under this section with the clerk of the legislative body with:

- (1) a favorable recommendation;
- (2) an unfavorable recommendation; or
- (3) no recommendation.

(d) **ADVISORY—AREA.** The legislative body shall give notice under IC 5-14-1.5-5 of its intention to consider the petition at its first regular meeting after the board of zoning appeals files its recommendation.

(e) **ADVISORY—AREA.** A petition is granted or denied when the legislative body votes on the petition as follows:

- (1) In a county described in subsection (a)(1), the legislative body shall vote on the petition within ninety (90) days after the board of zoning appeals makes its recommendation. If the legislative body does not vote to deny the petition within ninety (90) days, the petition is considered approved.
- (2) In a county described in subsection (a)(2), the legislative body shall vote on the petition within sixty (60) days after the board of zoning appeals makes its recommendations. If the legislative body does not vote to deny the petition within sixty (60) days, the petition is approved.

(f) **ADVISORY—AREA.** If the legislative body approves a petition, it must make the determination in writing as required under section 918.2, 918.4, or 918.5 of this chapter or as required by the zoning ordinance.

IC 36-7-4-918.8

Board of zoning appeals; metropolitan development commission; exercise of powers; variances, exceptions, or uses

Sec. 918.8. (a) **METRO.** In connection with its consideration of a proposed ordinance for the amendment of the zoning ordinance proposed under section 607(c)(2) of this chapter, the metropolitan development commission may exercise the powers of the metropolitan board of zoning appeals for the purpose of approving or denying:

- (1) a variance from the development standards of the zoning ordinance; or
- (2) a special exception, special use, contingent use, or conditional use from the terms of the zoning ordinance.

(b) METRO. The commission may, by rule, establish procedures so that the power of the commission to recommend amendment of zoning ordinances and the power of the commission to approve and deny these variances, exceptions, and uses may be exercised concurrently. These rules may be inconsistent with the 900 series to the extent reasonably necessary to allow the commission to exercise the power to approve or deny these variance, exception, and use petitions.

(c) METRO. When acting under this section, the commission may:

- (1) vote on the amendment to the zoning ordinance and the variance, exception, or use petition at the same time; and
- (2) condition the approval of variance, exception, or use in such a manner that it takes effect when the recommended ordinance amendment is approved by the legislative body.

(d) METRO. Section 922 of this chapter does not apply to variances, exceptions, and uses approved under this section.

IC 36-7-4-919

Board of zoning appeals; appeal to board; grounds; record; decision

Sec. 919. (a) An appeal filed with the board of zoning appeals must specify the grounds of the appeal and must be filed within such time and in such form as may be prescribed by the board of zoning appeals by rule.

(b) The administrative official, hearing officer, administrative board, or other body from whom the appeal is taken shall, on the request of the board of zoning appeals, transmit to it all documents, plans, and papers constituting the record of the action from which an appeal was taken.

(c) Certified copies of the documents, plans, and papers constituting the record may be transmitted for purposes of subsection (b).

(d) Upon appeal, the board may reverse, affirm, or modify the order, requirement, decision, or determination appealed from. For this purpose, the board has all the powers of the official, officer, board, or body from which the appeal is taken.

(e) The board shall make a decision on any matter that it is required to hear under the 900 series either:

- (1) at the meeting at which that matter is first presented; or
- (2) at the conclusion of the hearing on that matter, if it is continued.

(f) Within five (5) days after making any decision under the 900 series, the board of zoning appeals shall file in the office of the board a copy of its decision.

As added by Acts 1981, P.L.309, SEC.23. Amended by Acts 1981, P.L.310, SEC.49; P.L.357-1983, SEC.16.

IC 36-7-4-920

Board of zoning appeals, hearing on administrative appeals, exceptions, uses, and variances; notice; appearance

Sec. 920. (a) The board of zoning appeals shall fix a reasonable time for the hearing of administrative appeals, exceptions, uses, and variances.

(b) Public notice in accordance with IC 5-3-1-2 and IC 5-3-1-4 and due notice to interested parties shall be given at least ten (10) days before the date set for the hearing.

(c) The party taking the appeal, or applying for the exception, use, or variance, may be required to assume the cost of public notice and due notice to interested parties. At the hearing, each party may appear in person, by agent, or by attorney.

(d) The board shall, by rule, determine who are interested parties, how notice is to be given to them, and who is required to give that notice.

(e) The staff (as defined in the zoning ordinance), if any, may appear before the board at the hearing and present evidence in support of or in opposition to the granting of a variance or the determination of any other matter.

(f) Other persons may appear and present relevant evidence.

(g) A person may not communicate with any member of the board before the hearing with intent to influence the member's action on a matter pending before the board. Not less than five (5) days before the hearing, however, the staff (as defined in the zoning ordinance), if any, may file with the board a written statement setting forth any facts or opinions relating to the matter.

(h) The board may require any party adverse to any pending petition to enter a written appearance specifying the party's name and address. If the written appearance is entered more than four (4) days before the hearing, the board may also require the petitioner to furnish each adverse party with a copy of the petition and a plot plan of the property involved.

IC 36-7-4-922

Board of zoning appeals; procedures for appeal to metropolitan development commission

Sec. 922. (a) METRO. An official designated by the metropolitan development commission may appeal to the metropolitan development commission any decision of a board of zoning appeals regarding an administrative appeal, or approving a special exception, a special or conditional use, or a variance from the terms of the zoning ordinance. The official must file in the office of the department of metropolitan development a notice of appeal within five (5) days after the board files a copy of the decision in the office

of the board. However, if a representative of the department of metropolitan development appears at the hearing at which the administrative appeal is decided, or the special exception, special or conditional use, or variance is approved, then the official must file the notice of appeal within five (5) days after the board has rendered its decision. The notice must certify that the decision raises a substantial question of zoning policy appropriate for consideration by the commission. The commission shall hear the appeal at its next regular meeting held not less than five (5) days after the notice of appeal is filed.

(b) METRO. In hearing appeals under this section, the metropolitan development commission sits as a board of zoning appeals and shall be treated as if it is a board for purposes of this section. The commission may accept into evidence the written record, if any, of the hearing before the board of zoning appeals, along with other evidence introduced by the staff or interested parties. The commission shall consider the matter de novo, but the decision of the board is considered affirmed unless two-thirds (2/3) of the commission members voting vote to deny the administrative appeal, exception, use, or variance.

(c) METRO. Although persons other than the designated official may not appeal a decision of a board of zoning appeals to the metropolitan development commission, they may appear as interested parties in appeals under this section. No public notice need be given of the hearing of an appeal under this section, but the official shall promptly mail notice of the subject of the appeal and date and place of the hearing to each adverse party. However, if the record of the board shows that more than three (3) proponents or more than three (3) remonstrators appeared, then the official need mail notice only to the first three (3) of each as disclosed by the record.

IC 36-7-4-923

Alternate procedure for expedient disposition of petitions; hearing officers

Sec. 923. (a) This section allows the establishment of an alternate procedure under which there can be a more expedient disposition of certain matters that otherwise would be heard by a board of zoning appeals. When authorized by ordinance or by rules of the plan commission, a hearing officer has the power of a board of zoning appeals to approve or deny, through the alternate procedure allowed by this section:

- (1) a variance from the development standards of the zoning ordinance in accordance with section 918.5 of this chapter; or
- (2) a special exception, special use, contingent use, or conditional use from the terms of the zoning ordinance in accordance with section 918.2 of this chapter; or

(3) a variance of use from the terms of the zoning ordinance in accordance with section 918.4 of this chapter. However, the authority of a hearing officer under this subdivision may be exercised only if:

(A) the area planning law is not applicable; and

(B) the variance of use would allow all of the following:

(i) The expansion of a use currently existing on the tract.

(ii) A use that is consistent with the comprehensive plan.

(b) All requirements for variances, exceptions, and uses imposed by the 900 series of this chapter apply to the alternate procedure, except to the extent that a provision of section 924 of this chapter imposes a different requirement.

(c) The alternate procedure does not apply in any excluded city as described in IC 36-3-1-7. Sections 919(f) and 922 of this chapter do not apply to the alternate procedure.

(d) The hearing officer (who may be a board member, a staff member, or any other person) shall be appointed by the plan commission. More than one (1) hearing officer may be appointed. A hearing officer may be removed from the officer's responsibilities at any time by the plan commission.

(e) The plan commission may adopt other rules or recommend ordinances for the alternate procedure not inconsistent with the 900 series of this chapter. These rules or ordinances may specify the period during which the staff may indicate whether the staff objects to the proposed variance, exception, or use. These rules or ordinances may also provide for public notice and due notice to interested parties in accordance with section 920(b), 920(c), and 920(d) of this chapter, but the rules or ordinances may, because of the nature of the petitions heard under the alternate procedure, provide for a less inclusive definition of "interested person" and provide for a quicker and less burdensome method of giving notice to interested persons than rules applicable to petitions not filed under the alternate procedure.

(f) METRO. For purposes of subsection (d), the director of the department of metropolitan development shall nominate, and the plan commission shall appoint, all hearing officers. Such a hearing officer may be removed from the officer's responsibilities at any time by either the director or the plan commission.

(g) METRO. The plan commission may, if requested by a historic preservation commission created under IC 36-7-11.1-3, appoint:

(1) a member of the historic preservation commission;

(2) a member of the historic preservation staff; or

(3) a person who is an employee of the department of metropolitan development;

as a hearing officer to act in a historic area or historic zoning district created under IC 36-7-11.1-6. The hearing officer may be removed from the hearing officer's responsibilities at any time by either the historic preservation commission or the plan commission.

As added by Acts 1982, P.L.212, SEC.8. Amended by P.L.357-1983, SEC.20; P.L.320-1995, SEC.15; P.L.321-1995, SEC.5;

IC 36-7-4-924

Alternate procedure for disposition of petitions or applications; objections; commitments; appeals

Sec. 924. (a) In establishing the alternate procedure under section 923 of this chapter, the plan commission may adopt rules or recommend ordinances:

- (1) limiting the kinds of variance, special exception, special use, contingent use, or conditional use petitions or applications that may be filed under the alternate procedure;
- (2) permitting the hearing officer, in appropriate circumstances, to transfer a petition or an application filed under the alternate procedure to the board of zoning appeals;
- (3) requiring the creation of minutes and records of the proceedings before the hearing officer and the filing of the minutes and records as public records; and
- (4) regulating conflicts of interest and communication with the hearing officer, so as to require the same level of conduct as is required by the 900 series of this chapter.

(b) The staff (as defined by the zoning ordinance), if any, may file a written objection to a petition or an application for a variance, exception, or use if:

- (1) it would be injurious to the public health, safety, morals, and general welfare of the community; or
- (2) the use or value of the area adjacent to the property included would be affected in a substantially adverse manner.

(c) If a written objection is filed under subsection (b), the petition or application shall:

- (1) be considered withdrawn; or
- (2) be transferred to the board of zoning appeals if requested by the petitioner or applicant.

(d) The staff (as defined by the zoning ordinance), if any, may indicate that it does not object to the approval of the variance, exception, or use if specified conditions are attached. If the petitioner or applicant does not accept these conditions, the petition or application shall:

- (1) be considered withdrawn; or
- (2) be transferred to the board of zoning appeals if requested by the petitioner or applicant.

(e) The hearing officer may impose conditions and may permit or require the owner of a parcel of property to make a written commitment concerning the use or development of that parcel, as provided in section 1015 of this chapter. If the petitioner or applicant for the variance, exception, or use does not accept these conditions or make the commitment, the petition or application shall:

- (1) be considered withdrawn; or
- (2) be transferred to the board of zoning appeals if requested by the petitioner or applicant.

(f) The hearing officer may not modify or terminate any

commitment, whether made under this section or section 1015 of this chapter. Commitments made under this section may be modified or terminated only by the board of zoning appeals.

(g) A decision of a hearing officer under the alternate procedure may not be a basis for judicial review, but it may be appealed to the board of zoning appeals. An interested person who wishes to appeal a decision of a hearing officer under the alternate procedure must file the appeal with:

(1) the board of zoning appeals if the board of zoning appeals consists of only one (1) division; or

(2) a division of the board of zoning appeals if the board of zoning appeals consists of more than one (1) division;

within five (5) days after the decision is made.

1000 Series—Remedies and enforcement

Sec. 1000. This series (sections 1000 through 1099 of this chapter) may be cited as follows: 1000 SERIES—REMEDIES AND ENFORCEMENT.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1001

Remedies and enforcement; stay of proceedings and work on premises affected pending appeal to board of zoning appeals

Sec. 1001. (a) When an appeal from the decision of an official or board has been filed with the board of zoning appeals, proceedings and work on the premises affected shall be stayed unless the official or board certifies to the board of zoning appeals that, by reason of the facts stated in the certificate, a stay would cause imminent peril to life or property. In that case, proceedings or work may not be stayed except by a restraining order.

(b) After notice to the officer or board and to the owner of the premises affected and after due cause is shown, the circuit or superior court of the county in which the premises affected are located may grant the restraining order.

IC 36-7-4-1002

Remedies and enforcement; stay order

Sec. 1002. After the owner of, or a person in charge of the work on, the premises affected has received notice that an appeal has been filed with the board of zoning appeals, the official or board charged with the enforcement of an ordinance, under the 600 series of this chapter, may order the work stayed and call on the police power of the municipality or county to give effect to that order.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1003**Judicial review**

Sec. 1003. (a) Each decision of the legislative body under section 918.6 of this chapter is subject to judicial review in the same manner as that provided for the appeal of a final decision of the board of zoning appeals under section 1016(a) of this chapter.

(b) METRO. A petition for judicial review must be filed with the court after the expiration of the period within which an official designated by the metropolitan development commission may file an appeal under section 922 of this chapter but not later than the period provided for timely filing under section 1605 of this chapter. However, if the official files an appeal, then only the decision of the metropolitan development commission sitting as a board of zoning appeals is subject to judicial review. The official or department of metropolitan development may not seek judicial review of a decision of a board of zoning appeals or the commission sitting as a board of zoning appeals.

IC 36-7-4-1013

Remedies and enforcement; prosecution; attorneys

Sec. 1013. (a) When the legislative body provides penalties for failure to comply with any ordinance adopted under this chapter, the municipal attorney or an attorney representing the county, as the case may be, shall, on receipt of information of the violation of any ordinance, make an investigation of the alleged violation. If acts elicited by the investigation are sufficient to establish a reasonable belief that a violation has occurred on the part of the party investigated, the municipal attorney or an attorney representing the county may file a complaint against the person and prosecute the alleged violation under IC 36-1-6.

(b) The plan commission or a board of zoning appeals may request the prosecuting attorney of the county to take appropriate action in any case involving the violation of any ordinance or regulation adopted under this chapter.

(c) The plan commission may appoint one (1) or more attorneys to advise the planning staff and to assist in the enforcement of any ordinances and regulations adopted under this chapter. Subject to the 400 series of this chapter, an area plan commission may employ one (1) attorney on a full-time basis so that the attorney can become fully informed on the specialized law of planning, zoning, and subdivision control.

(d) The services of attorneys appointed by the plan commission under subsection (c) shall be made available without extra compensation to the prosecuting attorney in all cases involving ordinances or regulations adopted under this chapter. The attorneys may be deputized to act for and under the direction of the prosecuting attorney.

(e) In civil actions for the enforcement of ordinances or regulations adopted under this chapter, an attorney appointed by the plan commission may bring an action in the name of the plan commission.

Remedies and enforcement; allowable actions

Sec. 1014. (a) The plan commission, board of zoning appeals, or any enforcement official designated in the zoning ordinance may bring an action under IC 36-1-6 to enforce any ordinance adopted or action taken under this chapter.

(b) The plan commission, board of zoning appeals, or any enforcement official designated in the zoning ordinance may also bring an action to enforce:

- (1) conditions imposed by the commission or board of zoning appeals under this chapter; or
- (2) covenants made in connection with a subdivision plat, a development plan, or a PUD district ordinance (as defined in section 1503 of this chapter).

(c) **ADVISORY.** In addition, in each county having a metropolitan plan commission, if the county or second class city adopts a zoning ordinance under this chapter, then that unit may also invoke any remedy under this section. However, the county may do so only outside the corporate boundaries of the city, and the city may do so only within its corporate boundaries.

(d) The plan commission, board of zoning appeals, or designated enforcement official may invoke any legal, equitable, or special remedy in an action described in subsection (a) or (b).

(e) An action for the levy of a fine or penalty for enforcement of a zoning ordinance may be brought in any court located within the jurisdiction of the plan commission or board of zoning appeals.

(f) If the plan commission, board of zoning appeals, or designated enforcement official is successful in an action brought under this section, the respondent shall bear the costs of the action. A change of venue from the county may not be granted in such an action.

IC 36-7-4-1015

Commitments; enforcement

Sec. 1015. (a) As a condition to the:

- (1) adoption of a rezoning proposal;
- (2) primary approval of a proposed subdivision plat or development plan;
- (3) approval of a vacation of all or part of the plat; or
- (4) approval of an application for a:
 - (A) special exception;
 - (B) special use;
 - (C) contingent use;
 - (D) conditional use; or
 - (E) variance;

the owner of a parcel of real property may be required or allowed to make a commitment to the plan commission or board of zoning appeals, as applicable, concerning the use or development of that

parcel.

(b) Commitments are subject to the following provisions:

(1) A commitment must be in writing.

(2) Unless the written commitment is modified or terminated in accordance with this subsection, a written commitment is binding on the owner of the parcel.

(3) A commitment shall be recorded in the office of the county recorder. After a commitment is recorded, it is binding on a subsequent owner or any other person who acquires an interest in the parcel. However, a commitment is binding on the owner who makes the commitment even if the commitment is unrecorded. An unrecorded commitment is binding on a subsequent owner or other person acquiring an interest in the parcel only if that subsequent owner or other person has actual notice of the commitment.

(4) A commitment may contain terms providing for its own expiration. A commitment may also contain terms providing that the commitment automatically terminates:

(A) if the zoning district or classification applicable to the parcel is changed;

(B) if the land use to which the commitment relates is changed; or

(C) otherwise in accordance with the rules of the plan commission or board of zoning appeals to which the commitment is made.

(5) Except for a commitment that expires or automatically terminates under subdivision (4), a commitment may be modified or terminated only by a decision of the plan commission or board of zoning appeals to which the commitment was made. The decision must be made at a public hearing after notice of the hearing has been provided under the rules of the plan commission or board of zoning appeals, as the case may be.

(6) During the time a rezoning proposal is being considered by the legislative body under the 600 or 1500 series of this chapter, the owner may make a new commitment to the plan commission or modify the terms of a commitment that was made when the proposal was being considered by the plan commission.

(7) No further action of the plan commission is required for a new commitment made under subdivision (6) to be effective.

(8) If a commitment is modified under subdivision (6):

(A) no further action is required by the plan commission for the commitment to be effective if the effect of the modification is to make the commitment more stringent; or

(B) the modified commitment must be ratified by the plan commission if the effect of the modification is to make the commitment less stringent.

(9) Requiring or allowing a commitment to be made does not obligate the plan commission, board of zoning appeals, or legislative body, as applicable, to adopt, approve, or favorably

recommend the proposal or application to which the commitment relates.

(c) The plan commission or board of zoning appeals may adopt rules:

- (1) governing the creation, form, recording, effectiveness, modification, and termination of commitments; and
- (2) designating which specially affected persons and classes of specially affected persons are entitled to enforce commitments.

(d) An action to enforce a commitment may be brought in the circuit or superior court of the county by:

- (1) the plan commission or board of zoning appeals to which the commitment was made;
- (2) any person who was entitled to enforce a commitment under the rules of the plan commission or board of zoning appeals in force at the time the commitment was made; or
- (3) any other specially affected person who was designated in the commitment.

(e) A person bringing an action to enforce a commitment may request mandatory or prohibitory injunctive relief through the granting of a temporary restraining order, preliminary injunction, or permanent injunction. If an action to enforce a commitment is successful, the respondent shall bear the costs of the action. A change of venue from the county may not be granted in such an action.

(f) In an action to enforce a commitment, it is not a defense that:

- (1) no consideration was given for the commitment;
- (2) the commitment does not benefit any designated parcel of property;
- (3) the document setting forth the commitment lacks a seal;
- (4) there is no privity of estate;
- (5) there is not privity of contract; or
- (6) there is no proof of damages.

(g) The following types of conditions, as authorized by this chapter, are not considered commitments and are not subject to subsection (b):

- (1) A condition imposed upon primary approval of a plat that must be met before secondary approval of the plat may be granted under the 700 series of this chapter.
- (2) A condition imposed upon the approval of an exception, a use, a variance, or a development plan that must be met before an improvement location permit may be issued under the 800 series of this chapter.
- (3) A condition imposed upon an approval relative to any other development requirement that must be met before any other secondary approval may be granted or building permit may be issued under this chapter.
- (4) A condition that was imposed before July 1, 2011, on an approval relative to any development requirement. However, this subdivision applies only if a copy of the condition has been filed and permanently maintained as a public record in the

office of the plan commission or board of zoning appeals that imposed the condition.

(h) Covenants, easements, equitable servitudes, and other land use restrictions created in accordance with law are not considered commitments and are not subject to subsection (b).

Sec. 1204. ADVISORY. Upon the receipt of a petition for joinder from a township, the municipal plan commission shall consider the petition. If the commission is favorable to it, it shall recommend joinder to the municipal legislative body. If the legislative body is favorable, it shall pass a resolution setting forth the terms of the joinder, send one (1) copy to the township executive, and file one (1) copy with the county recorder, which copy shall be filed in the miscellaneous records. If the commission or the legislative body rejects the petition, it shall immediately notify the township executive.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1205**Township joinder; choice of municipality for joinder**

Sec. 1205. ADVISORY. If a township is contiguous to two (2) or more municipalities, the township may elect the municipality with which it wants to join.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1206**Township joinder; limitations on choice of municipality**

Sec. 1206. (a) ADVISORY. If a township is partially within the corporate boundaries of a municipality or is partially within the jurisdictional limits of a municipality, as specified in section 205 of the advisory planning law, it may seek joinder only with that municipality.

(b) ADVISORY. If a township is within the jurisdictional limits of two (2) municipalities and one (1) of those municipalities is exercising control within the jurisdictional limit, the township must first seek joinder with that municipality. If both municipalities are exercising jurisdiction, then the township may choose the municipality with which it wants to join.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1207**Township joinder; joinder with county or municipality in other county**

Sec. 1207. ADVISORY. If a township located in another county is contiguous to:

- (1) a municipal or county boundary;
- (2) an area over which a municipality is exercising planning and zoning authority; or
- (3) a township that has joined a municipality or county under the 1200 series of this chapter;

and joinder is not precluded by section 1202 of this chapter, then it may join either a contiguous municipality or a contiguous county that:

- (A) has an advisory plan commission; and

(B) has adopted ordinances of the type specified in section 1202 of this chapter.

The procedures for joinder are the same as specified by sections 1203 and 1204 of this chapter, except that if joinder is with a county, the petition must go to the county plan commission or the metropolitan plan commission and the resolution of approval must be adopted by the county legislative body.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1208

Township joinder; planning and zoning jurisdiction

Sec. 1208. ADVISORY. If the petition is accepted, the planning and zoning jurisdiction of the municipality, or of the county under section 1207 of this chapter, extends to the township with the same effect as if the township was a part of the municipality or the county, as the case may be.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1209

Township joinder; planning and zoning cost

Sec. 1209. ADVISORY. As a condition to the acceptance of the petition, the legislative body of a municipality or county may stipulate that the township contract with it for the payment of an equitable amount of the cost of planning and zoning within the township. If the municipality or county believes that it is to its advantage, it may agree to provide planning and zoning services without cost to the township.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1210

Township joinder; membership of township on advisory plan commission

Sec. 1210. (a) ADVISORY. To implement the joinder agreement, the township executive, with the approval of the township legislative body, shall appoint additional members to the advisory plan commission. The number of additional appointments must be such that, when added to the membership of the plan commission before joinder, the total membership of the plan commission reflects the proportion that the population of the township bears to that of the municipality or county, as the case may be. However, this proportional representation must not cause a reduction in the number of members representing that municipality or county.

(b) ADVISORY. Each additional member shall serve for a term of two (2) years from the date of the appointment. Members may be reappointed to subsequent terms. The members have all the rights and privileges of a member of the advisory plan commission, including the right to vote.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1210.5

Township joinder; membership of certain townships on advisory plan commission in certain counties

Sec. 1210.5. (a) ADVISORY. As used in this section, "municipality" refers to the most populous municipality in the jurisdiction of the plan commission.

(b) ADVISORY. This section applies to a plan commission operating under a joinder agreement in a county:

(1) having a population of more than two hundred seventy thousand (270,000) but less than three hundred thousand (300,000); and

(2) containing:

(A) a township having a population of more than thirty-two thousand (32,000) but less than fifty thousand (50,000); or

(B) a township having a population of more than nine thousand (9,000) but less than fifteen thousand (15,000).

(c) ADVISORY. Notwithstanding section 1210 of this chapter, a plan commission described in subsection (b) shall have nine (9) members as follows:

(1) Four (4) members who are residents of the municipality, to be appointed for four (4) year terms by the executive of the municipality.

(2) Three (3) members who are residents of the municipality, to be appointed for four (4) year terms by the legislative body of the municipality.

(3) Two (2) members who are residents of the township, to be appointed for four (4) year terms by the township executive with the approval of the township legislative body.

(d) The joinder agreement expires if the municipality annexes the entire area of a township described in subsection (b)(2).

(e) A joinder agreement under this section may be terminated if:

(1) the municipality adopts an ordinance terminating the joinder agreement;

(2) before adopting the ordinance under subdivision (1), the municipality conducts a public hearing on the issue of terminating the joinder agreement; and

(3) the executive of the municipality provides written notice to the township executive of the township subject to the joinder agreement that states the reason for the municipality's termination of the joinder agreement.

IC 36-7-4-1210.6

Plan commission created by joinder agreement; vacancies

Sec. 1210.6. (a) ADVISORY. This section applies to an advisory plan commission that is:

(1) created through a joinder agreement; and

(2) composed of nine (9) members, some of whom are appointed from a legislative branch of local government.

(b) Notwithstanding any other provision, if:

(1) there is a vacancy in the membership of a plan commission that is required by statute to be filled by a member of a legislative body of local government; and

(2) no member of the legislative body of local government will accept an appointment to fill the vacancy;

the appointing authority may appoint a person from the community who is not an elected official to serve on the advisory plan commission for a term of one (1) year.

(c) The person appointed under subsection (b) may be reappointed to successive terms.

IC 36-7-4-1211

Township joinder; collection of fees

Sec. 1211. ADVISORY. Fees collected for the issuance of permits or for the approval of subdivision plats shall be paid to the municipality or county, that the township joins, at the same rate and in the same manner as if the township was a part of that municipality or county.

As added by Acts 1981, P.L.309, SEC.23.

IC 36-7-4-1212

Township joinder; withdrawal of township; conditions; procedure

Sec. 1212. ADVISORY. Because long range planning studies of population, land use, schools, recreation, and public ways involve substantial expenditures, a township that joins with a municipality or county may not withdraw from the joinder, unless:

(1) the municipality or county has consolidated on an area basis its planning and zoning activity under other law; or

(2) a petition, requesting a referendum on the question "Shall the township withdraw from joinder with (the municipality), or (the county), for planning and zoning purposes?", is sent to the township executive and is signed by at least the number of the voters of the township required under IC 3-8-6-3 to place a candidate on the ballot.

If the petition is received, the township executive shall certify the petition to the county election board under IC 3-10-9-3. The board shall place the question on a ballot to be submitted at the next general election for the township in the form prescribed by IC 3-10-9-4. If the township repays the amount expended for planning and zoning purposes that exceeds the amount contributed by the township and a majority of the voters voting in the election vote in the affirmative, the township may withdraw from its joinder with the municipality or county.

IC 36-7-4-1311

Ordinance; jurisdiction to adopt; impact fees and other charges

Sec. 1311. (a) The legislative body of a unit may adopt an ordinance imposing an impact fee on new development in the geographic area over which the unit exercises planning and zoning jurisdiction. The ordinance must aggregate the portions of the impact fee attributable to the infrastructure types covered by the ordinance so that a single and unified impact fee is imposed on each new development.

(b) If the legislative body of a unit has planning and zoning jurisdiction over the entire geographic area covered by the impact fee ordinance, an ordinance adopted under this section shall be adopted in the same manner that zoning ordinances are adopted under the 600 SERIES of this chapter.

(c) If the legislative body of a unit does not have planning and zoning jurisdiction over the entire geographic area covered by the impact fee ordinance but does have jurisdiction over one (1) or more infrastructure types in the area, the legislative body shall establish the portion of the impact fee schedule or formula for the

infrastructure types over which the legislative body has jurisdiction. The legislative body of the unit having planning and zoning jurisdiction shall adopt an impact fee ordinance containing that portion of the impact fee schedule or formula if:

- (1) a public hearing has been held before the legislative body having planning and zoning jurisdiction; and
- (2) each plan commission that has planning jurisdiction over any part of the geographic area in which the impact fee is to be imposed has approved the proposed impact fee ordinance by resolution.

(d) An ordinance adopted under this section is the exclusive means for a unit to impose an impact fee. An impact fee imposed on new development to pay for infrastructure may not be collected after January 1, 1992, unless the impact fee is imposed under an impact fee ordinance adopted under this chapter.

(e) Notwithstanding any other provision of this chapter, the following charges are not impact fees and may continue to be imposed by units:

- (1) Fees, charges, or assessments imposed for infrastructure services under statutes in existence on January 1, 1991, if:
 - (A) the fee, charge, or assessment is imposed upon all users whether they are new users or users requiring additional capacity or services;
 - (B) the fee, charge, or assessment is not used to fund construction of new infrastructure unless the new infrastructure is of the same type for which the fee, charge, or assessment is imposed and will serve the payer; and
 - (C) the fee, charge, or assessment constitutes a reasonable charge for the services provided in accordance with IC 36-1-3-8(6) or other governing statutes requiring that any fees, charges, or assessments bear a reasonable relationship to the infrastructure provided.
- (2) Fees, charges, and assessments agreed upon under a contractual agreement entered into before April 1, 1991, or fees, charges, and assessments agreed upon under a contractual agreement, if the fees, charges, and assessments are treated as impact deductions under section 1321(d) of this chapter if an impact fee ordinance is in effect.

As added by P.L.221-1991, SEC.12.

IC 36-7-4-1312

Ordinance; prerequisites to adoption

Sec. 1312. (a) A unit may not adopt an impact fee ordinance under section 1311 of this series unless the unit has adopted a comprehensive plan under the 500 SERIES of this chapter for the geographic area over which the unit exercises planning and zoning jurisdiction.

(b) Before the adoption of an impact fee ordinance under section 1311 of this chapter, a unit shall establish an impact fee advisory committee. The advisory committee shall:

- (1) be appointed by the executive of the unit;
- (2) be composed of not less than five (5) and not more than ten (10) members with at least forty percent (40%) of the membership representing the development, building, or real estate industries; and
- (3) serve in an advisory capacity to assist and advise the unit with regard to the adoption of an impact fee ordinance under section 1311 of this chapter.

(c) A planning commission or other committee in existence before the adoption of an impact fee ordinance that meets the membership requirements of subsection (b) may serve as the advisory committee that subsection (b) requires.

(d) Action of an advisory committee established under subsection (b) is not required as a prerequisite for the unit in adopting an impact fee ordinance under section 1311 of this chapter.

As added by P.L.221-1991, SEC.13.

IC 36-7-4-1313

Other permissible fees and charges of adopting unit

Sec. 1313. This series does not prohibit a unit from doing any of the following:

- (1) Imposing a charge to pay the administrative, plan review, or inspection costs associated with a permit for development.
- (2) Imposing, pursuant to a written commitment or agreement and as a condition or requirement attached to a development approval or authorization (including permitting or zoning decisions), an obligation to dedicate, construct, or contribute goods, services, land or interests in land, or infrastructure to a unit or to an infrastructure agency. However, if the unit adopts or has already adopted an impact fee ordinance under section 1311 of this chapter the following apply:
 - (A) The person dedicating, contributing, or providing an improvement under this subsection is entitled to a credit for the improvement under section 1335 of this chapter.
 - (B) The cost of complying with the condition or requirement imposed by the unit under this subdivision may not exceed the impact fee that could have been imposed by the unit under section 1321 of this chapter for the same infrastructure.
- (3) Imposing new permit fees, charges, or assessments or amending existing permit fees, charges, or assessments. However, the permit fees, charges, or assessments must meet the requirements of section 1311(e)(1)(A), 1311(e)(1)(B), and 1311(e)(1)(C) of this chapter.

IC 36-7-4-1314

Ordinance; application

Sec. 1314. (a) Except as provided in subsection (b), an impact fee ordinance must apply to any development:

- (1) that is in an impact zone; and
- (2) for which a unit may require a structural building permit.

(b) An impact fee ordinance may not apply to an improvement that does not create a need for additional infrastructure, including the erection of a sign, the construction of a fence, or the interior renovation of a building not resulting in a change in use.

As added by P.L.221-1991, SEC.15.

IC 36-7-4-1315

Ordinance; establishment of impact zones

Sec. 1315. (a) An impact fee ordinance must establish an impact zone, or a set of impact zones, for each infrastructure type covered by the ordinance. An impact zone established for a particular infrastructure type is not required to be congruent with an impact zone established for a different infrastructure type.

(b) An impact zone may not extend beyond the jurisdictional boundary of an infrastructure agency responsible for the infrastructure type for which the impact zone was established, unless an agreement under IC 36-1-7 is entered into by the infrastructure agencies.

(c) If an impact zone, or a set of impact zones, includes a geographic area containing territory from more than one (1) planning and zoning jurisdiction, the applicable legislative bodies and infrastructure agencies shall enter into an agreement under IC 36-1-7 concerning the collection, division, and distribution of the fees collected under the impact fee ordinance.

As added by P.L.221-1991, SEC.16.

IC 36-7-4-1316

Impact zones; geographical area

Sec. 1316. A unit must include in an impact zone designated under section 1315 of this chapter the geographical area necessary to ensure that:

- (1) there is a functional relationship between the components of the infrastructure type in the impact zone;
- (2) the infrastructure type provides a reasonably uniform benefit throughout the impact zone; and
- (3) all areas included in the impact zone are contiguous.

As added by P.L.221-1991, SEC.17.

IC 36-7-4-1317

Ordinance; identification of responsible infrastructure agency

Sec. 1317. A unit must identify in the unit's impact fee ordinance the infrastructure agency that is responsible for acquiring, constructing, or providing each infrastructure type included in the impact fee ordinance.

As added by P.L.221-1991, SEC.18.

IC 36-7-4-1318

Ordinance; zone improvement plan preparation; contents of plan

Sec. 1318. (a) A unit may not adopt an impact fee ordinance under section 1311 of this chapter unless the unit has prepared or substantially updated a zone improvement plan for each impact zone during the immediately preceding one (1) year period. A single zone improvement plan may be used for two (2) or more infrastructure types if the impact zones for the infrastructure types are congruent.

(b) Each zone improvement plan must contain the following information:

(1) A description of the nature and location of existing infrastructure in the impact zone.

(2) A determination of the current level of service.

(3) Establishment of a community level of service. A unit may provide that the unit's current level of service is the unit's community level of service in the zone improvement plan.

(4) An estimate of the nature and location of development that is expected to occur in the impact zone during the following ten (10) year period.

(5) An estimate of the nature, location, and cost of infrastructure that is necessary to provide the community level of service for the development described in subdivision (4). The plan must indicate the proposed timing and sequencing of infrastructure installation.

(6) A general description of the sources and amounts of money used to pay for infrastructure during the previous five (5) years.

(c) If a zone improvement plan provides for raising the current level of service to a higher community level of service, the plan must:

(1) provide for completion of the infrastructure that is necessary to raise the current level of service to the community level of service within the following ten (10) year period;

(2) indicate the nature, location, and cost of infrastructure that is necessary to raise the current level of service to the community level of service; and

(3) identify the revenue sources and estimate the amount of the revenue sources that the unit intends to use to raise the current level of service to the community level of service for existing development. Revenue sources include, without limitation, any increase in revenues available from one (1) or more of the following:

(A) Adopting or increasing the following:

(i) The county adjusted gross income tax.

(ii) The county option income tax.

(iii) The county economic development income tax.

(iv) The annual license excise surtax.

(v) The wheel tax.

(B) Imposing the property tax rate per one hundred dollars (\$100) of assessed valuation that the unit may impose to create a cumulative capital improvement fund under IC 36-9-14.5 or IC 36-9-15.5.

(C) Transferring and reserving for infrastructure purposes

other general revenues that are currently not being used to pay for capital costs of infrastructure.

(D) Dedicating and reserving for infrastructure purposes any newly available revenues, whether from federal or state revenue sharing programs or from the adoption of newly authorized taxes.

(d) A unit must consult with a qualified engineer licensed to perform engineering services in Indiana when the unit is preparing the portions of the zone improvement plan described in subsections (b)(1), (b)(2), (b)(5), and (c)(2).

(e) A zone improvement plan and amendments and modifications to the zone improvement plan become effective after adoption as part of the comprehensive plan under the 500 SERIES of this chapter or adoption as part of the capital improvements program under section 503(5) of this chapter. If the unit establishing the impact fee schedule or formula and establishing the zone improvement plan is different from the unit having planning and zoning jurisdiction, the unit having planning and zoning jurisdiction shall incorporate the zone improvement plan as part of the unit's comprehensive plan and capital improvement plan.

(f) If a unit's zone improvement plan identifies revenue sources for raising the current level of service to the community level of service, impact fees may not be assessed or collected by the unit unless:

(1) before the effective date of the impact fee ordinance the unit has available or has adopted the revenue sources that the zone improvement plan specifies will be in effect before the impact fee ordinance becomes effective; and

(2) after the effective date of the impact fee ordinance the unit continues to provide adequate funds to defray the cost of raising the current level of service to the community level of service, using revenue sources specified in the zone improvement plan or revenue sources other than impact fees.

As added by P.L.221-1991, SEC.19.

IC 36-7-4-1319

Amendment to ordinance or zone improvement plan

Sec. 1319. (a) A unit shall amend a zone improvement plan to make adjustments in the nature, location, and cost of infrastructure and the timing or sequencing of infrastructure installations to respond to the nature and location of development occurring in the impact zone. Appropriate planning and analysis shall be carried out before an amendment is made to a zone improvement plan.

(b) A unit may not amend an impact fee ordinance if the amendment makes a significant change in an impact fee schedule or formula or if the amendment designates an impact zone or alters the boundary of a zone, unless a new or substantially updated zone improvement plan has been approved within the immediately preceding one (1) year period.

As added by P.L.221-1991, SEC.20.

IC 36-7-4-1320

Ordinance; fee schedule and formula

Sec. 1320. (a) An impact fee ordinance must include:

- (1) a schedule prescribing for each impact zone the amount of the impact fee that is to be imposed for each infrastructure type covered by the ordinance; or
- (2) a formula for each impact zone by which the amount of the impact fee that is to be imposed for each infrastructure type covered by the ordinance may be derived.

(b) A schedule or formula included in an impact fee ordinance must provide an objective and uniform standard for calculating impact fees that allows fee payers to accurately predict the impact fees that will be imposed on new development.

As added by P.L.221-1991, SEC.21.

IC 36-7-4-1321

Fee schedule or formula; requirements; limitations

Sec. 1321. (a) An impact fee schedule or formula described in section 1320 of this chapter shall be prepared so that the impact fee resulting from the application of the schedule or formula to a development meets the requirements of this section. However, this section does not require that a particular methodology be used in preparing the schedule or formula.

(b) As used in this section, "impact costs" means a reasonable estimate, made at the time the impact fee is assessed, of the proportionate share of the costs incurred or to be incurred by the unit in providing infrastructure of the applicable type in the impact zone that are necessary to provide the community level of service for the development. The amount of impact costs may not include the costs of infrastructure of the applicable type needed to raise the current level of service in the impact zone to the community level of service in the impact zone for development that is existing at the time the impact fee is assessed.

(c) As used in this section, "nonlocal revenue" means a reasonable estimate, made at the time the impact fee is assessed, of revenue that:

- (1) will be received from any source (including but not limited to state or federal grants) other than a local government source; and
- (2) is to be used within the impact zone to defray the capital costs of providing infrastructure of the applicable type.

(d) As used in this section, "impact deductions" means a reasonable estimate, made at the time the impact fee is assessed, of the amounts from the following sources that will be paid during the ten (10) year period after assessment of the impact fee to defray the capital costs of providing infrastructure of the applicable types to serve a development:

- (1) Taxes levied by the unit or on behalf of the unit by an applicable infrastructure agency that the fee payer and future owners of the development will pay for use within the geographic area of the unit.

(2) Charges and fees, other than fees paid by the fee payer under this chapter, that are imposed by any of the following for use within the geographic area of the unit:

- (A) An applicable infrastructure agency.
- (B) A governmental entity.
- (C) A not-for-profit corporation created for governmental purposes.

Charges and fees covered by this subdivision include tap and availability charges paid for extension of services or the provision of infrastructure to the development.

(e) An impact fee on a development may not exceed:

- (1) impact costs; minus
- (2) the sum of nonlocal revenues and impact deductions.

IC 36-7-4-1322

Fee assessment date; increase or decrease in fees; developments against which fees may not be assessed; existing contracts

Sec. 1322. (a) Except as provided in subsection (b), an impact fee ordinance must require that, if the fee payer requests, an impact fee on a development must be assessed not later than thirty (30) days after the earlier of:

- (1) the date the fee payer obtains an improvement location permit for the development; or
- (2) the date that the fee payer voluntarily submits to the unit a development plan for the development and evidence that the property is properly zoned for the proposed development. The plan shall be in the form prescribed by the unit's zoning ordinance and shall contain reasonably sufficient detail for the unit to calculate the impact fee.

(b) An impact fee ordinance may provide that if a proposed development is of a magnitude that will require revision of the zone improvement plan in order to appropriately serve the new development, the unit shall revise the unit's zone improvement plan and shall assess an impact fee on a development not later than one hundred eighty (180) days after the earlier of the following:

- (1) The date on which the fee payer obtains an improvement location permit for the development.
- (2) The date on which the fee payer submits to the unit a development plan for a development and evidence that the property is properly zoned for the proposed development. The development plan must be in the form prescribed by the unit's zoning ordinance and must contain reasonably sufficient detail for the unit to calculate the impact fee.

(c) An impact fee assessed under subsections (a) or (b) may be increased only if the structural building permit has not been issued for the development and the requirements of subsection (d) are satisfied. In the case of a phased development, only a portion of an impact fee assessed under subsection (a) or (b) that is attributable to the portion of the development for which a permit has not been

issued may be increased if the requirements of subsection (d) are satisfied.

(d) Unless the improvement location permit or development plan originally submitted for the development is changed so that the amount of impact on infrastructure the development creates in the impact zone is significantly increased, an impact fee assessed under:

- (1) subsection (a)(1) or (b)(1) may not be increased for the period of the improvement location permit's validity; and
- (2) subsection (a)(2) or (b)(2) may not be increased for three (3) years.

(e) An impact fee assessed under subsection (a) or (b) shall be decreased if the improvement location permit or development plan originally submitted for the development is changed so that the amount of impact on infrastructure that the development creates in the impact zone is significantly decreased. If a change occurs in the permit or plan that results in a decrease in the amount of the impact fee after the fee has been paid, the unit that collected the fee shall immediately refund the amount of the overpayment to the fee payer.

(f) If the unit fails to assess an impact fee within the period required by subsection (a) or (b), the unit may not assess an impact fee on the development unless the development plan originally submitted for the development is materially and substantially changed.

(g) Notwithstanding other provisions in this chapter, a unit may not assess an impact fee against a development if:

- (1) an improvement location permit has been issued for all or a part of a development before adoption of an impact fee ordinance that is in compliance with this chapter; and
- (2) the development satisfies all of the following criteria:

(A) The development is zoned for commercial or industrial use before January 1, 1991.

(B) The development will consist primarily of new buildings or structures. As used in this clause, the term "new buildings or structures" does not include additions or expansions of existing buildings or structures.

(C) The parts of the development for which a structural building permit has not been issued are owned or controlled by the person that owned or controlled the development on January 1, 1991.

(D) A structural building permit is issued for the development not more than four (4) years after the effective date of the impact fee ordinance.

(E) The development is part of a common scheme of development that:

- (i) involves land that is contiguous;
- (ii) involves a plan for development that includes a survey of the land, engineering drawings, and a site plan showing the anticipated size, location, and use of buildings and the anticipated location of streets, sewers, and drainage;
- (iii) if plan approval is required, resulted in an application

being filed with an appropriate office, commission, or official of the unit before January 1, 1991, that resulted or may result in approval of any phase of the development plan referred to in item (ii);

(iv) has been diligently pursued since January 1, 1991;

(v) resulted before January 1, 1991, in a substantial investment in creating, publicizing, or implementing the common scheme of development; and

(vi) involved the expenditure of significant funds before January 1, 1991, for the provision of improvements, such as roads, sewers, water treatment facilities, water storage facilities, water distribution facilities, drainage systems, or parks, that are on public lands or are available for other development in the area.

(h) Notwithstanding any other provision of this chapter, this chapter does not impair the validity of any contract between a unit and a fee payer that was:

(1) entered into before January 1, 1991; and

(2) executed in consideration of zoning amendments or annexations requested by the fee payer.

IC 36-7-4-1323

Fee due date; proration; repeal or lapse of ordinance

Sec. 1323. (a) Except as provided in section 1324 of this chapter, an impact fee assessed in compliance with section 1322 of this chapter is due and payable on the date of issuance of the structural building permit for the new development on which the impact fee is imposed.

(b) For a phased development, an impact fee shall be prorated for purposes of payment according to the impact of the parcel for which a structural building permit is issued in relation to the total impact of the development. In accordance with section 1324 of this chapter, only the prorated portion of the assessed impact fee is due and payable on the issuance of the permit.

(c) If an impact fee ordinance is repealed, lapses, or becomes ineffective after the assessment of an impact fee on a development but before the issuance of the structural building permit for part or all of the development:

(1) any part of the impact fee attributable to the part of the development for which a structural building permit has not been issued is void and is not due and payable, in the case of a phased development; and

(2) the entire impact fee is void and is not due and payable, in the case of a development other than a phased development.

IC 36-7-4-1324

Ordinance; installment payment plan; fee upon permit issuance; interest; penalty for late payment

Sec. 1324. (a) An impact fee ordinance must include an installment payment plan. The installment payment plan must at least offer a fee payer the option of paying part of an impact fee in equal installment payments if the impact fee is greater than five thousand dollars (\$5,000). In an installment plan under this section:

- (1) a maximum of five thousand dollars (\$5,000) or five percent (5%) of the impact fee, whichever is greater, may become payable on the date the structural building permit is issued for the development on which the fee is imposed;
- (2) the first installment may not become due and payable less than one (1) year after the date the structural building permit is issued for the development on which the fee is imposed; and
- (3) the last installment may not be due and payable less than two (2) years after the date the structural building permit is issued for the development on which the fee is imposed.

(b) An impact fee ordinance may require an impact fee of five thousand dollars (\$5,000) or less to be paid in full on the date the structural building permit is issued for the development on which the impact fee is imposed.

(c) An impact fee ordinance may provide that a reasonable rate of interest, not to exceed the prejudgment rate of interest in effect at the time the interest accrues, may be charged if the fee payer elects to pay in installments. If interest is charged, the ordinance must provide that interest accrues only on the portion of the impact fee that is outstanding and does not begin to accrue until the date the structural building permit is issued for the development or the part of the development on which the impact fee is imposed.

(d) An impact fee ordinance may provide that if all or part of an installment is not paid when due and payable, the amount of the installment shall be increased on the first day after the installment is due and payable by a penalty amount equal to ten percent (10%) of the installment amount that is overdue. If interest is charged under subsection (c), the interest shall be charged on the penalty amount.

IC 36-7-4-1325

Collection of unpaid fees; lien; receipt for payments

Sec. 1325. (a) A unit may use any legal remedy to collect an impact fee imposed by the unit. A unit must bring an action to collect an impact fee and all penalties, costs, and collection expenses associated with a fee not later than ten (10) years after the fee or the prorated portion of the impact fee first becomes due and payable.

(b) On the date a structural building permit is issued for the development of property on which the impact fee is assessed, the unit acquires a lien on the real property for which the permit is issued. For a phased development, the amount of the lien may not exceed the prorated portion of the impact fee due and payable in one (1) or more installments at the time the structural building permit is issued.

(c) A lien acquired by a unit under this section is not affected by a sale or transfer of the real property subject to the lien, including the

sale, exchange, or lease of the real property under IC 36-1-11.

(d) A lien acquired by a unit under this section continues for ten (10) years after the impact fee or the prorated portion of the impact fee becomes due and payable. However, if an action to enforce the lien is filed within the ten (10) year period, the lien continues until the termination of the proceeding.

(e) A holder of a lien of record on any real property on which an impact fee is delinquent may pay the delinquent impact fee and any penalties and costs. The amount paid by the lien holder is an additional lien on the real property in favor of the lien holder and is collectible in the same manner as the original lien.

(f) If a person pays an impact fee assessed against any real property, the person is entitled to a receipt for the payment that is:

(1) on a form prescribed by the impact fee ordinance; and

(2) issued by a person designated in the impact fee ordinance.

IC 36-7-4-1326

Ordinance; special reduced rates for affordable housing development

Sec. 1326. (a) An impact fee ordinance may provide for a reduction in an impact fee for housing development that provides sale or rental housing, or both, at a price that is affordable to an individual or a family earning less than eighty percent (80%) of the median income for the county in which the housing development is located. If the housing development comprises more than one (1) residential unit, the impact fee reduction shall apply only to the residential units that are affordable to an individual or a family earning less than eighty percent (80%) of the median income of the county.

(b) If the impact fee ordinance provides for a reduction in an impact fee under subsection (a), the ordinance must:

(1) contain a schedule or formula that sets forth the amount of the fee reduction for various types of housing development specified in subsection (a);

(2) require that, as a condition of receiving the fee reduction, the owner execute an agreement that:

(A) is binding for a period of at least five (5) years on the owner and subsequent owners; and

(B) limits the tenancy of residential units receiving the fee reduction to individuals or families who at the time the tenancy is initiated are earning less than eighty percent (80%) of the median income of the county;

(3) contain standards to be used in determining if a particular housing development specified in subsection (a) will receive a fee reduction; and

(4) designate a board or an official of the unit to conduct the hearing required by subsection (c).

(c) A fee reduction authorized by this section must be approved by a board or official of the unit at a public hearing.

- (1) The person requesting the fee reduction.
- (2) An infrastructure agency responsible for infrastructure of the applicable type for the impact zone in which the impact fee reduction is granted.

Fund for impact fee collections; establishment; management; reports

Sec. 1329. (a) A unit imposing an impact fee shall establish a fund to receive amounts collected under this series.

(b) Money in a fund established under subsection (a) at the end of the unit's fiscal year remains in the fund. Interest earned by the fund shall be deposited in the fund.

(c) The fiscal officer of the unit shall manage the fund according to the provisions of this series. The fiscal officer shall annually report to the unit's plan commission and to each infrastructure agency responsible for infrastructure in an impact zone. The report must include the following:

- (1) The amount of money in accounts established for the impact zone.
- (2) The total receipts and disbursements of the accounts established for the impact zone.

(d) A separate account shall be established in the fund for each impact zone established by the unit and for each infrastructure type within each zone. Interest earned by an account shall be deposited in that account.

Sec. 1330. An impact fee collected under this series shall be used for the following purposes:

- (1) Providing funds to an infrastructure agency for the provision of new infrastructure that:

- (A) is necessary to serve the new development in the impact zone from which the fee was collected; and
 - (B) is identified in the zone improvement plan.
 - (2) In an amount not to exceed five percent (5%) of the annual collections of an impact fee, for expenses incurred by the unit that paid for the consulting services that were used to establish the impact fee ordinance.
 - (3) Payment of a refund under section 1332 of this chapter.
 - (4) Payment of debt service on an obligation issued to provide infrastructure described in subdivision (1).

Sec. 1331. (a) An infrastructure agency shall, within the time described in the zone improvement plan, construct infrastructure for which:

- (1) a zone improvement plan has been adopted;
 - (2) an impact zone has been established; and
 - (3) an impact fee has been collected.
- (b) A unit may amend the unit's zone improvement plan, including the time provided in the plan for construction of infrastructure, only if the amount of expenditures provided for the construction of infrastructure in the original plan does not decrease in any year and the benefit to the overall impact zone does not decrease because of the amendment.

IC 36-7-4-1332

Impact fee refunds

Sec. 1332. (a) A fee payer is entitled to a refund of an impact fee if an infrastructure agency:

- (1) has failed to complete a part of the infrastructure for which the impact fee was imposed not later than:
 - (A) twenty-four (24) months after the time described in section 1331 of this chapter; or
 - (B) a longer time as is reasonably necessary to complete the infrastructure if unforeseeable and extraordinary circumstances that are not in whole or in part caused by the unit have delayed the construction;
 - (2) has unreasonably denied the fee payer the use and benefit of the infrastructure during the useful life of the infrastructure; or
 - (3) has failed within the earlier of:
 - (A) six (6) years after issuance of the structural building permit; or
 - (B) the anticipated infrastructure completion date as specified in the zone improvement plan existing on the date the impact fee was collected;
- to make reasonable progress toward completion of the specific infrastructure for which the impact fee was imposed or

thereafter fails to make reasonable progress toward completion.

(b) An application for a refund under subsection (a) must be filed with the unit that imposed the impact fee not later than two (2) years after the right to a refund accrues. A unit shall issue a refund in part or in full or shall reject the application for refund not later than thirty (30) days after receiving an application for a refund.

(c) If a unit approves a refund in whole or in part, the unit shall pay the amount approved, plus interest from the date on which the impact fee was paid to the date the refund is issued. The interest rate shall be the same rate as the rate that the unit's impact fee ordinance provides for impact fee payments paid in installments.

(d) If a unit rejects an application for refund or approves only a partial refund, the fee payer may appeal not later than sixty (60) days after the rejection or partial approval to the unit's impact fee review board established under section 1338 of this chapter by filing with the board an appeal on a form prescribed by the board. The board shall issue instructions for completion of the form. The form and the instructions must be clear, simple, and understandable to a lay person.

(e) An impact fee ordinance shall designate the employee or official of the unit who is responsible for accepting, rejecting, and paying a refund and interest.

(f) A unit's impact fee review board shall hold a hearing on all appeals for a refund under this section. The hearing shall be held not later than forty-five (45) days after the application for appeal is filed with the board. A unit's impact fee review board shall provide notice of the application for refund to the infrastructure agency responsible for the infrastructure for which the impact fee was imposed.

(g) An impact fee review board holding a hearing under subsection (f) shall determine the amount of a refund that shall be made to the fee payer from the account established for the infrastructure for which the fee was imposed. A refund ordered by the board must include interest from the date the impact fee was paid to the date the refund is issued at the same rate the ordinance provides for impact fee payments paid in installments.

(h) A party aggrieved by a final decision of an impact fee review board in a hearing under subsection (f) may appeal to the circuit or superior court of the county in which the unit is located and is entitled to a trial de novo.

Impact fees; appeal of amount before impact review board; judicial review; effect on pending fee payments

Sec. 1333. (a) A person against whom an impact fee has been assessed may appeal the amount of the impact fee. A unit may not deny issuance of a structural building permit on the basis that an impact fee has not been paid or condition issuance of the permit on the payment of an impact fee. However, in the case of an impact fee of one thousand dollars (\$1,000) or less a unit may require a fee

payer to:

- (1) pay the impact fee; or
- (2) bring an appeal under this section;

before the unit issues a structural building permit for the development for which the impact fee was assessed.

(b) A person must file a petition for a review of the amount of an impact fee with the unit's impact fee review board not later than thirty (30) days after issuance of the structural building permit for the development for which the impact fee was assessed. An impact fee ordinance may require a petition to be accompanied by payment of a reasonable fee not to exceed one hundred dollars (\$100). A fee payer shall receive a full refund of the filing fee if:

- (1) the fee payer prevails;
- (2) the amount of the impact fee or the reductions or credits against the fee is adjusted by the unit, the board, or a court; and
- (3) the body ordering the adjustment finds that the amount of the fee, reductions, or credits were arbitrary or capricious.

(c) A unit's impact fee review board shall prescribe the form of the petition for review of an impact fee under subsection (b). The board shall issue instructions for completion of the form. The form and the instructions must be clear, simple, and understandable to a lay person. The form must require the petitioner to specify:

- (1) a description of the new development on which the impact fee has been assessed;
- (2) all facts related to the assessment of the impact fee; and
- (3) the reasons the petitioner believes that the amount of the impact fee assessed is erroneous or is greater than the amount allowed by the fee limitations set forth in this series.

(d) A unit's impact fee review board shall prescribe a form for a response by a unit to a petition for review under this section. The board shall issue instructions for completion of the form. The form must require the unit to indicate:

- (1) agreement or disagreement with each item indicated on the petition for review under subsection (c); and
- (2) the reasons the unit believes that the amount of the fee assessed is correct.

(e) Immediately upon the receipt of a timely filed petition on the form prescribed under subsection (c), a unit's impact fee review board shall provide a copy of the petition to the unit assessing the impact fee. The unit shall not later than thirty (30) days after the receipt of the petition provide to the board a completed response to the petition on the form prescribed under subsection (d). The board shall immediately forward a copy of the response form to the petitioner.

(f) An impact fee review board shall:

- (1) review the petition and the response submitted under this section; and
- (2) determine the appropriate amount of the impact fee not later than thirty (30) days after submission of both petitions.

(g) A fee payer aggrieved by a final determination of an impact

fee review board may appeal to the circuit or superior court of the county in which the unit is located and is entitled to a trial de novo. If the assessment of a fee is vacated by judgment of the court, the assessment of the impact fee shall be remanded to the board for correction of the impact fee assessment and further proceedings in accordance with law.

(h) If a petition for a review or an appeal of an impact fee assessment is pending, the impact fee is not due and payable until after the petition or appeal is finally adjudicated and the amount of the fee is determined.

Ordinance; appeal provision for amount of fees

Sec. 1334. An impact fee ordinance must set forth the reasons for which an appeal of the amount of an impact fee may be made. The impact fee ordinance must provide that an appeal of the amount of an impact fee may be made for the following reasons:

(1) A fact assumption used in determining the amount of an impact fee is incorrect.

(2) The amount of the impact fee is greater than the amount allowed under sections 1320, 1321, and 1322 of this chapter.

Fee payer credits; infrastructure or improvements; amount of credit

Sec. 1335. (a) As used in this section, "improvement" means an improvement under section 1313(2) of this chapter or a site improvement, land, or real property interest as follows:

(1) That is to be used for at least one (1) of the infrastructure purposes specified in section 1309 of this chapter.

(2) That is included in or intended to be used relative to an infrastructure type for which the unit has imposed an impact fee in the impact zone.

(3) That is not a type of improvement that is uniformly required by law or rule for the type of development on which the impact fee has been imposed.

(4) That is or will be:

(A) public property; or

(B) furnished or constructed under requirements of the unit and is or will be available for use by other development in the area.

(5) That is beneficial to existing development and future development in the impact zone and is not beneficial to only one (1) development.

(6) That either:

(A) allows the removal of a component of infrastructure planned for the impact zone;

(B) is a useful addition to the zone improvement plan; or

(C) is reasonably likely to be included in a future zone improvement plan for the impact zone.

(7) That is:

(A) constructed, furnished, or guaranteed by a bond or letter of credit under a request by an authorized official of the:

- (i) applicable infrastructure agency; or
- (ii) unit that imposed the impact fee; or

(B) required to be constructed or furnished under a written commitment that:

- (i) is requested by an authorized official of the applicable infrastructure agency or the unit that imposed the impact fee;
- (ii) concerns the use or developing of the development against which the impact fee is imposed; and
- (iii) is made under section 1015 of this chapter.

(b) A fee payer is entitled to a credit against an impact fee if the owner or developer of the development constructs or provides:

- (1) infrastructure that is an infrastructure type for which the unit imposed an impact fee in the impact zone; or
- (2) an improvement.

(c) A fee payer is entitled to a credit under this section for infrastructure or an improvement that:

- (1) is constructed or furnished relative to a development after January 1, 1989; and
- (2) meets the requirements of this section.

(d) The amount of a credit allowed under this section shall be determined at the date the impact fee is assessed. However, if an assessment is not requested, the amount of the credit shall be determined at the time the structural building permit is issued. The amount of the credit shall be:

(1) determined by the:

- (A) person constructing or providing the infrastructure or improvement; and
- (B) applicable infrastructure agency; and

(2) equal to the sum of the following:

- (A) The cost of constructing or providing the infrastructure or improvement.
- (B) The fair market value of land, real property interests, and site improvements provided.

(e) The amount of a credit may be increased or decreased after the date the impact fee is assessed if, between the date the impact fee is assessed and the date the structural building permit is issued, there is a substantial and material change in the cost or value of the infrastructure or improvement that is constructed or furnished from the cost or value determined under subsection (d). However, at the time the amount of a credit is determined under subsection (d), the person providing the infrastructure or improvement and the applicable infrastructure agency may agree that the amount of the credit may not be changed. The person providing the infrastructure or improvement may waive the person's right to a credit under this

section.

A petition under this subsection may be made as part of an appeal proceeding under section 1334 of this chapter or may be made under this section.

(b) An impact fee review board shall prescribe the form of the petition for determination of the amount of a credit under this section. The board shall issue instructions for completion of the form. The form and the instructions must be clear, simple, and understandable to a lay person.

(c) An impact fee review board shall prescribe a form for a response by the applicable infrastructure agency to a petition under this section for determination of a credit amount. The board shall issue instructions for completion of the form.

Sec. 1609. (a) A person seeking judicial review may seek, by filing a verified petition, an order of the court staying the zoning decision pending review by the court. The court may enter an order staying the zoning decision pending a final determination if:

(1) the court finds that the petition for review and the petition for a stay order show a reasonable probability that the zoning decision appealed from is invalid or illegal; and

(2) a bond is filed that is conditioned upon the due prosecution of the proceeding for review and that the petitioner will pay all court costs and abide by the zoning decision if it is not set aside. The bond must be in the amount and with the surety approved by the court. However, the amount of the bond must be at least five hundred dollars (\$500).

(b) If a petition for review concerns a revocation or suspension of a previously approved variance, exception, or use, any stay ordered under subsection (a) is effective during the period of the review and any appeal from the review and until the review is finally determined, unless otherwise ordered by the court granting the stay. If the stay is granted as provided in this section and the zoning decision is approved on final determination, the revocation or suspension of the variance, exception, or use immediately becomes effective.

IC 36-7-4-1610

Review of issue not previously raised

Sec. 1610. A person may obtain judicial review of an issue that was not raised before the board, only to the extent that:

- (1) the issue concerns whether a person who was required to be notified by this chapter or other law of a board hearing was notified in substantial compliance with this chapter or other law; or
- (2) the interests of justice would be served by judicial resolution of an issue arising from a change in controlling law occurring after the zoning decision.

As added by P.L.126-2011, SEC.57.

IC 36-7-4-1611**Review of facts confined to record**

Sec. 1611. Judicial review of disputed issues of fact must be confined to the board record for the zoning decision supplemented by additional evidence taken under section 1612 of this chapter. The court may not try the cause de novo or substitute its judgment for that of the board.

As added by P.L.126-2011, SEC.58.

IC 36-7-4-1612**Additional evidence; remand for additional factfinding or preparation of adequate record**

Sec. 1612. (a) The court may receive evidence, in addition to that contained in the board record for judicial review, only if the evidence relates to the validity of the zoning decision at the time the decision was made and is needed to decide disputed issues regarding one (1) or both of the following:

- (1) Improper constitution as a decisionmaking body or grounds for disqualification of those making the zoning decision.
- (2) Unlawfulness of procedure or of decisionmaking process.

This subsection applies only if the additional evidence could not, by due diligence, have been discovered and raised in the board proceeding giving rise to a proceeding for judicial review.

(b) The court may remand a matter to the board before final disposition of a petition for review with directions that the board conduct further factfinding or that the board prepare an adequate record, if:

- (1) the board failed to prepare or preserve an adequate record;
- (2) the board improperly excluded or omitted evidence from the record; or
- (3) a relevant law changed after the zoning decision and the court determines that the new provision of law may control the outcome.

As added by P.L.126-2011, SEC.59.

IC 36-7-4-1613**Transmission of board record to court; extension of time to file record; cost of copies and transcripts**

Sec. 1613. (a) Within thirty (30) days after the filing of the petition, or within further time allowed by the court, the petitioner shall transmit to the court the original or a certified copy of the board record for judicial review of the zoning decision, consisting of:

- (1) any board documents expressing the decision;
- (2) other documents identified by the board as having been considered by the board before its decision and used as a basis for its decision; and
- (3) any other material described in this chapter or other law as the board record for the type of zoning decision at issue, subject to this section.

(b) An extension of time in which to file the record shall be granted by the court for good cause shown. Inability to obtain the record from the responsible board within the time permitted by this section is good cause. Failure to file the record within the time permitted by this subsection, including any extension period ordered by the court, is cause for dismissal of the petition for review by the court, on its own motion, or on petition of any party of record to the proceeding.

(c) Upon a written request by the petitioner, the board making the zoning decision being reviewed shall prepare the board record for the petitioner. If part of the record has been preserved without a transcript, the board shall, if practicable, prepare a transcript for inclusion in the record transmitted to the court, except for parts that the parties to the judicial review proceeding stipulate to omit in accordance with subsection (e).

(d) Notwithstanding IC 5-14-3-8, the board shall charge the petitioner with the reasonable cost of preparing any necessary copies and transcripts for transmittal to the court, unless a person files with the court, under oath and in writing, the statement described by IC 33-37-3-2.

(e) By stipulation of all parties to the review proceedings, the record may be shortened, summarized, or organized.

(f) The court may tax the cost of preparing transcripts and copies for the record:

- (1) against a party to the judicial review proceeding who unreasonably refuses to stipulate to shorten, summarize, or organize the record; or
- (2) in accordance with the rules governing civil actions in the courts or other law.

(g) Additions to the record concerning evidence received under section 1612 of this chapter must be made as ordered by the court. The court may require or permit subsequent corrections or additions to the record.

As added by P.L.126-2011, SEC.60.

IC 36-7-4-1614

Burden of demonstrating invalidity of zoning decision; grounds for relief

Sec. 1614. (a) The burden of demonstrating the invalidity of a

zoning decision is on the party to the judicial review proceeding asserting invalidity.

(b) The validity of a zoning decision shall be determined in accordance with the standards of review provided in this section, as applied to the decision at the time it was made.

(c) The court shall make findings of fact on each material issue on which the court's decision is based.

(d) The court shall grant relief under section 1615 of this chapter only if the court determines that a person seeking judicial relief has been prejudiced by a zoning decision that is:

- (1) arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law;
- (2) contrary to constitutional right, power, privilege, or immunity;
- (3) in excess of statutory jurisdiction, authority, or limitations, or short of statutory right;
- (4) without observance of procedure required by law; or
- (5) unsupported by substantial evidence.

- (2) compel a decision that has been unreasonably delayed or unlawfully withheld.

The ordinances must specify the following:

- (2) The boundaries of the joint district.
- (3) The duration of the commission.

- (4) Any other information necessary to form the commission.
 - (b) A municipality having a population of more than three thousand (3,000) but less than fifteen thousand (15,000) may pass an ordinance to establish a joint district for any territory that is located:

Authority of commission

Sec. 6. After a commission is established, it shall exclusively exercise all the planning, zoning, platting, and land use policy authority for real property in the joint district. The joint district commission has exclusive authority, subject to section 7 of this chapter, to adopt a zoning ordinance or a subdivision control ordinance, or both. Any planning, zoning, platting, or land use functions exercised by any other unit or entity in the joint district shall cease. Except as provided in section 7 of this chapter, an action of the commission is final and does not require a reference to or an approval by a county or municipal legislative body.

IC 36-7-5.1-7

Joint district council

- Sec. 7. (a) A joint district council is established for each joint district formed under this chapter.
- (b) The membership of the joint district council consists of:
 - (1) the president of the town board of trustees;
 - (2) the president of a second class city legislative body;
 - (3) the president pro tempore of a third class city legislative body;
 - (4) the president of a city-county legislative body (consolidated city); and
 - (5) one (1) member of the county executive appointed by the county executive;

of each municipality and county that enacted an ordinance creating the joint district.

(c) Notwithstanding section 6 of this chapter, before an ordinance that is passed by a commission becomes effective, the joint district council must approve the ordinance. A joint district commission shall forward a copy of each ordinance that the commission passes within three (3) business days after passage to the secretary of the joint district council.

(d) A joint district council shall conduct a hearing on an ordinance and shall publish notice of the hearing in accordance with IC 5-3-1 specifying the time and location of the meeting. A joint district council may approve, amend, or reject an ordinance of the commission at the hearing. If a joint district council does not conduct a hearing on an ordinance within twenty (20) days of receipt of the ordinance, the ordinance is considered approved by the joint district council.

(e) The auditor of the county in which a majority of the territory in a joint district is located shall be the secretary of the joint district council.

(f) A quorum consists of a majority of the entire membership of the joint district council.

(g) Action of the joint district council is not official unless it is authorized at a regular or special meeting by a majority of the members who are present at the meeting.

(h) the presiding officer of the joint district council is the member who is appointed by the executive of the county that enacts an ordinance creating a joint district. However, if more than one (1) county is in a joint district, then the joint district council member who is appointed by the executive of the county having the greatest amount of land in the joint district serves as the presiding officer.

(i) Either the presiding officer or a majority of the entire membership of the joint district council may call a regular or special meeting.

Comprehensive plan; joint district limits; new municipality within existing joint district

Sec. 8. (a) A commission may adopt a comprehensive plan (as provided for under the 500 Series of the advisory planning law) for the development of the joint district. The comprehensive plan, if adopted, does not have extraterritorial effect outside the defined boundaries of the joint district. However, a comprehensive plan adopted by a commission supersedes an existing or conflicting comprehensive plan governing any of the joint district.

(b) Before exercising its rights, powers, and duties under this chapter or the advisory planning law with respect to an area designated as a joint district, a commission must file with the recorder of each county in which a part of the joint district is located a description or map defining the limits of the joint district. If the

commission revises the limits, it shall file a revised description or map defining those revised limits with each recorder.

(c) Until the commission adopts a comprehensive plan, a comprehensive plan that was in effect before the formation of the joint district applies to that portion of the joint district controlled by that comprehensive plan.

(d) Whenever a new municipality is incorporated and its boundaries lie in whole or in part within a joint district, the commission continues to exercise territorial jurisdiction within the new municipality or that portion of the municipality within the joint district, until the effective date of a municipal ordinance:

(1) establishing an advisory plan commission under IC 36-7-4-202(a); or

(2) adopting the area planning law under IC 36-7-4-202(b).

Beginning on that effective date, the planning and zoning function of the municipality shall be exercised by the municipality under the advisory planning law or area planning law.

(3) The city plan commission (or similar body) of each municipality having a population of more than twenty-five thousand (25,000), but less than fifty thousand (50,000), that passes an ordinance establishing a joint district and that is located within ten (10) miles of the joint district shall choose two (2) members.

(b) The commission shall prepare and adopt an annual budget and submit it to the joint district council for approval or revision. If the joint district council does not consider the budget within thirty (30) days after submission of the budget, the budget is considered approved by the joint district council. After approval of the budget, money may be expended only as budgeted, or as provided in this section for the use of unexpended or unencumbered funds.

(c) Any appropriated amounts remaining unexpended or unencumbered at the end of the fiscal year become part of a nonreverting cumulative joint district fund (or other suitable fund that the commission may establish) to be held in the name of the commission. The commission may authorize unbudgeted expenditures from this fund.

- (1) in an impaired structural condition that makes it unsafe to a person or property;
- (2) a fire hazard;
- (3) a hazard to the public health;
- (4) a public nuisance;
- (5) dangerous to a person or property because of a violation of a statute or ordinance concerning building condition or maintenance; or
- (6) vacant and not maintained in a manner that would allow human habitation, occupancy, or use under the requirements of a statute or an ordinance;

is considered an unsafe building.

(b) For purposes of this chapter:

- (1) an unsafe building; and
- (2) the tract of real property on which the unsafe building is located;

are considered unsafe premises.

(c) For purposes of this chapter, a tract of real property that does not contain a building or structure, not including land used for production agriculture, is considered an unsafe premises if the tract of real property is:

IC 36-7-9-4.5

Legislative findings; vacant or deteriorated structures

Sec. 4.5. (a) In Indiana, especially in urban areas, there exist a large number of unoccupied structures that are not maintained and that constitute a hazard to public health, safety, and welfare.

(b) Vacant structures often become dilapidated because the structures are not maintained and repaired by the owners or persons in control of the structures.

(c) Vacant structures attract children, become harborage for vermin, serve as temporary abodes for vagrants and criminals, and are likely to be damaged by vandals or set ablaze by arsonists.

(d) Unkept grounds surrounding vacant structures invite dumping of garbage, trash, and other debris.

(e) Many vacant structures are situated on narrow city lots and in close proximity to neighboring structures, thereby increasing the risk of conflagration and spread of insect and rodent infestation.

(f) Vacant, deteriorated structures contribute to blight, cause a decrease in property values, and discourage neighbors from making improvements to properties.

(g) Structures that remain boarded up for an extended period of time also exert a blighting influence and contribute to the decline of the neighborhood by decreasing property values, discouraging persons from moving into the neighborhood, and encouraging persons to move out of the neighborhood.

(h) Vacant structures often continue to deteriorate to the point that demolition of the structure is required, thereby decreasing available housing in a community and further contributing to the decline of the neighborhood.

(i) The blighting influence of vacant, deteriorated structures adversely affects the tax revenues of local government.

(j) The general assembly finds that vacant, deteriorated structures create a serious and substantial problem in urban areas and are public nuisances.

(k) In recognition of the problems created in a community by vacant structures, the general assembly finds that vigorous and disciplined action should be taken to ensure the proper maintenance and repair of vacant structures and encourages local governmental bodies to adopt maintenance and repair standards appropriate for the community in accordance with this chapter and other statutes.

Notice of the order must be given under section 25 of this chapter. The ordered action must be reasonably related to the condition of the unsafe premises and the nature and use of nearby properties. The order supersedes any permit relating to building or land use, whether that permit is obtained before or after the order is issued.

(b) The order must contain:

(1) the name of the person to whom the order is issued;

(2) the legal description or address of the unsafe premises that are the subject of the order;

(3) the action that the order requires;

(5) if a hearing is required, a statement indicating the exact time and place of the hearing, and stating that person to whom the order was issued is entitled to appear at the hearing with or without legal counsel, present evidence, cross-examine opposing witnesses, and present arguments;

(6) if a hearing is not required, a statement that an order under subsection (a)(2), (a)(3), (a)(4), or (a)(5) becomes final ten (10) days after notice is given, unless a hearing is requested in writing by a person holding a fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises, and the request is delivered to the enforcement authority before the end of the ten (10) day period;

(7) a statement briefly indicating what action can be taken by the enforcement authority if the order is not complied with;

(8) a statement indicating the obligation created by section 27 of this chapter relating to notification of subsequent interest holders and the enforcement authority; and

(9) the name, address, and telephone number of the enforcement authority.

(c) The order must allow a sufficient time, of at least ten (10) days, but not more than sixty (60) days, from the time when notice of the order is given, to accomplish the required action. If the order allows more than thirty (30) days to accomplish the action, the order may require that a substantial beginning be made in accomplishing the action within thirty (30) days.

(d) The order expires two (2) years from the day the notice of the order is given, unless one (1) or more of the following events occurs within that two (2) year period:

(1) A complaint requesting judicial review is filed under section 8 of this chapter.

(2) A contract for action required by the order is let at public bid under section 11 of this chapter.

(3) A civil action is filed under section 17 of this chapter.

(e) If the order contains a statement under subsection (a)(6) or (a)(7), notice of the order shall be given to each person with a known or recorded substantial property interest.

IC 36-7-9-7

Hearings; hearing authority findings and action; additional period for ordered actions; continuous enforcement order; performance bond; record of findings; collection of penalties

Sec. 7. (a) A hearing must be held relative to each order of the enforcement authority, except for an order issued under section 5(a)(2), 5(a)(3), 5(a)(4), or 5(a)(5) of this chapter. An order issued under section 5(a)(2), 5(a)(3), 5(a)(4), or 5(a)(5) of this chapter becomes final ten (10) days after notice is given, unless a hearing is requested before the ten (10) day period ends by a person holding a fee interest, life estate interest, mortgage interest, or equitable interest of a contract purchaser in the unsafe premises. The hearing shall be conducted by the hearing authority.

(b) The hearing shall be held on a business day no earlier than ten (10) days after notice of the order is given. The hearing authority may, however, take action at the hearing, or before the hearing if a written request is received by the enforcement authority not later than five (5) days after notice is given, to continue the hearing to a business day not later than fourteen (14) days after the hearing date

shown on the order. Unless the hearing authority takes action to have the continued hearing held on a definite, specified date, notice of the continued hearing must be given to the person to whom the order was issued at least five (5) days before the continued hearing date, in the manner prescribed by section 25 of this chapter. If the order being considered at the continued hearing was served by publication, it is sufficient to give notice of the continued hearing by publication unless the enforcement authority has received information in writing that enables it to make service under section 25 of this chapter by a method other than publication.

(c) The person to whom the order was issued, any person having a substantial property interest in the unsafe premises that are the subject of the order, or any other person with an interest in the proceedings may appear in person or by counsel at the hearing. Each person appearing at the hearing is entitled to present evidence, cross-examine opposing witnesses, and present arguments.

(d) At the conclusion of any hearing at which a continuance is not granted, the hearing authority may make findings and take action to:

- (1) affirm the order;
- (2) rescind the order; or
- (3) modify the order, but unless the person to whom the order was issued, or counsel for that person, is present at the hearing, the hearing authority may modify the order in only a manner that makes its terms less stringent.

(e) In addition to affirming the order, in those cases in which the hearing authority finds that there has been a willful failure to comply with the order, the hearing authority may impose a civil penalty in an amount not to exceed five thousand dollars (\$5,000). The effective date of the civil penalty may be postponed for a reasonable period, after which the hearing authority may order the civil penalty reduced or stricken if the hearing authority is satisfied that all work necessary to fully comply with the order has been done. For purposes of an appeal under section 8 of this chapter or enforcement of an order under section 17 of this chapter, action of the hearing authority is considered final upon the affirmation of the order, even though the hearing authority may retain jurisdiction for the ultimate determination related to the civil penalty. In the hearing authority's exercise of continuing jurisdiction, the hearing authority may, in addition to reducing or striking the civil penalty, impose one (1) or more additional civil penalties in an amount not to exceed five thousand dollars (\$5,000) per civil penalty. An additional civil penalty may be imposed if the hearing authority finds that:

- (1) significant work on the premises to comply with the affirmed order has not been accomplished; and
- (2) the premises have a negative effect on property values or the quality of life of the surrounding area or the premises require the provision of services by local government in excess of the services required by ordinary properties.

(f) If, at a hearing, a person to whom an order has been issued requests an additional period to accomplish action required by the

order, and shows good cause for this request to be granted, the hearing authority may grant the request. However, as a condition for allowing the additional period, the hearing authority may require that the person post a performance bond to be forfeited if the action required by the order is not completed within the additional period.

(g) If an order is affirmed or modified, the hearing authority shall issue a continuous enforcement order (as defined in section 2 of this chapter).

(h) The board or commission having control over the department shall, at a public hearing, after having given notice of the time and place of the hearing by publication in accordance with IC 5-3-1, adopt a schedule setting forth the maximum amount of performance bonds applicable to various types of ordered action. The hearing authority shall use this schedule to fix the amount of the performance bond required under subsection (f).

(i) The record of the findings made and action taken by the hearing authority at the hearing shall be available to the public upon request. However, neither the enforcement authority nor the hearing authority is required to give any person notice of the findings and action.

(j) If a civil penalty under subsection (e) is unpaid for more than fifteen (15) days after payment of the civil penalty is due, the civil penalty may be collected from any person against whom the hearing officer assessed the civil penalty or fine. A civil penalty or fine may be collected under this subsection in the same manner as costs under section 13 or 13.5 of this chapter. The amount of the civil penalty or fine that is collected shall be deposited in the unsafe building fund.

Appeals

Sec. 8. (a) An action taken under section 7(d) or 7(e) of this chapter is subject to review by the circuit or superior court of the county in which the unsafe premises are located, on request of:

- (1) any person who has a substantial property interest in the unsafe premises; or
- (2) any person to whom that order was issued.

(b) A person requesting judicial review under this section must file a verified complaint including the findings of fact and the action taken by the hearing authority. The complaint must be filed within ten (10) days after the date when the action was taken.

(c) An appeal under this section is an action de novo. The court may affirm, modify, or reverse the action taken by the hearing authority.

IC 36-7-9-9

Emergency action; recovery of costs; challenge of determination of emergency

Sec. 9. (a) If the enforcement authority finds it necessary to take emergency action concerning an unsafe premises in order to protect life, safety, or property, it may take that action without issuing an order or giving notice. However, this emergency action must be limited to removing any immediate danger.

(b) The department, acting through the enforcement authority, may recover the costs incurred by the enforcement authority in taking emergency action, by filing a civil action in the circuit court or superior court of the county against the persons who held a fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises at the time the enforcement authority found it necessary to take emergency action. The department is not liable for the costs of this civil action.

(c) If an unsafe premises poses an immediate danger to the life or safety of persons occupying or using nearby property, the enforcement authority may, without following this chapter's requirements for issuing an order and giving notice, take emergency action to require persons to vacate and not use the nearby property until the danger has passed. However, any person required to vacate an unsafe premises under this subsection may challenge in an emergency court proceeding the enforcement authority's determination that the premises poses an immediate danger to the life or safety of any person. In an emergency court proceeding, the enforcement authority has the burden of proving that emergency action is necessary to protect from immediate danger the life or safety of persons occupying or using nearby property.

IC 36-7-9-10

Action to enforce orders

Sec. 10. (a) The enforcement authority may cause the action required by an order issued under section 5(a)(2), 5(a)(3), 5(a)(4), or 5(a)(5) of this chapter to be performed by a contractor if:

- (1) the order has been served, in the manner prescribed by section 25 of this chapter, on each person having a known or recorded fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises that are the subject of the order;
- (2) the order has not been complied with;
- (3) a hearing was not requested under section 5(b)(6) of this chapter, or, if a hearing was requested, the order was affirmed at the hearing; and
- (4) the order is not being reviewed under section 8 of this chapter.

(b) The enforcement authority may cause the action required by an order, other than an order under section 5(a)(2), 5(a)(3), 5(a)(4), or 5(a)(5) of this chapter, to be performed if:

(1) service of an order under section 5(a)(1) of this chapter, in the manner prescribed by section 25 of this chapter, has been made on each person having a known or recorded substantial property interest or present possessory interest in the unsafe premises that are the subject of the order;

(2) service of an order under section 5(a)(6), 5(a)(7), or 5(a)(8) of this chapter, in the manner prescribed by section 25 of this chapter, has been made on each person having a known or recorded substantial property interest in the unsafe premises that are the subject of the order;

(3) the order has been affirmed or modified at the hearing in such a manner that all persons having a known or recorded substantial property interest, and persons holding a present possessory interest, as required, in the unsafe premises that are the subject of the order are currently subject to an order requiring the accomplishment of substantially identical action;

(4) the order, as affirmed or modified at the hearing, has not been complied with; and

(5) the order is not being reviewed under section 8 of this chapter.

(c) If action is being taken under this section on the basis of an order that was served by publication, it is sufficient to serve the statement by publication and indicate that the enforcement authority intends to perform the work, unless the authority has received information in writing that enables it to make service under section 25 of this chapter by a method other than publication.

As added by Acts 1981, P.L.309, SEC.28. Amended by P.L.59-1986, SEC.9; P.L.177-2003, SEC.6; P.L.169-2006, SEC.62.

IC 36-7-9-11

Liability for costs for performance of work required by orders

Sec. 11. (a) The work required by an order of the enforcement authority may be performed in the following manner:

(1) If the work is being performed under an order other than an order under section 5(a)(2), 5(a)(3), or 5(a)(4) of this chapter, and if the cost of this work is estimated to be less than ten thousand dollars (\$10,000), the department, acting through the unit's enforcement authority or other agent, may perform the work by means of the unit's own workers and equipment owned or leased by the unit. Notice that this work is to be performed must be given to all persons with a known or recorded substantial property interest, in the manner prescribed in subsection (c), at least ten (10) days before the date of performance of the work by the enforcement authority. This notice must include a statement that an amount representing a reasonable estimate of the cost incurred by the enforcement authority in processing the matter and performing the work may, if not paid, be recorded after a hearing as a lien against all persons having a fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises.

(2) If the work is being performed under an order other than an order under section 5(a)(2), 5(a)(3), or 5(a)(4) of this chapter, and if the estimated cost of this work is ten thousand dollars (\$10,000) or more, this work must be let at public bid to a contractor licensed and qualified under law. The obligation to pay costs imposed by section 12 of this chapter is based on the condition of the unsafe premises at the time the public bid was accepted. Changes occurring in the condition of the unsafe premises after the public bid was accepted do not eliminate or diminish this obligation.

(3) If the work is being performed under an order issued under section 5(a)(2), 5(a)(3), or 5(a)(4) of this chapter, the work may be performed by a contractor who has been awarded a base bid contract to perform the work for the enforcement authority, or by the department, acting through the unit's enforcement authority or other governmental agency and using the unit's own workers and equipment owned or leased by the unit. Work performed under an order issued under section 5(a)(2), 5(a)(3), or 5(a)(4) of this chapter may be performed without further notice to the persons holding a fee interest, life estate interest, or equitable interest of a contract purchaser, and these persons are liable for the costs incurred by the enforcement authority in processing the matter and performing the work, as provided by section 12 of this chapter.

(b) Bids may be solicited and accepted for work on more than one (1) property if the bid reflects an allocation of the bid amount among the various unsafe premises in proportion to the work to be accomplished. The part of the bid amount attributable to each of the unsafe premises constitutes the basis for calculating the part of the costs described by section 12(a)(1) of this chapter.

(c) All persons who have a known or recorded substantial property interest in the unsafe premises and are subject to an order other than an order under section 5(a)(2), 5(a)(3), or 5(a)(4) of this chapter must be notified about the public bid in the manner prescribed by section 25 of this chapter, by means of a written statement including:

- (1) the name of the person to whom the order was issued;
- (2) a legal description or address of the unsafe premises that are the subject of the order;
- (3) a statement that a contract is to be let at public bid to a licensed contractor to accomplish work to comply with the order;
- (4) a description of work to be accomplished;
- (5) a statement that both the bid price of the licensed contractor who accomplishes the work and an amount representing a reasonable estimate of the cost incurred by the enforcement authority in processing the matter of the unsafe premises may, if not paid, be recorded after a hearing as a lien against all persons having a fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises;

- (6) the time of the bid opening;
- (7) the place of the bid opening; and
- (8) the name, address, and telephone number of the enforcement authority.

(d) If the notice of the statement that public bids are to be let is served by publication, the publication must include the information required by subsection (c), except that it need only include a general description of the work to be accomplished. The publication must also state that a copy of the statement of public bid may be obtained from the enforcement authority.

(e) Notice of the statement that public bids are to be let must be given, at least ten (10) days before the date of the public bid, to all persons who have a known or recorded substantial property interest in the property and are subject to an order other than an order under section 5(a)(2), 5(a)(3), or 5(a)(4) of this chapter.

(f) If action is being taken under this section on the basis of an order that was served by publication, it is sufficient to serve the statement that public bids are to be let by publication, unless the enforcement authority has received information in writing that enables the unit to make service under section 25 of this chapter by a method other than publication.

As added by Acts 1981, P.L.309, SEC.28. Amended by P.L.59-1986, SEC.11; P.L.255-1996, SEC.26; P.L.169-2006, SEC.63.

IC 36-7-9-12

Liability for costs for performance of work required by orders

Sec. 12. (a) When action required by an order is performed by the enforcement authority or by a contractor acting under section 11 of this chapter, each person who held a fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises from the time when the order requiring the work performed was issued to the time that the work was completed is jointly and severally responsible for the following costs:

(1) The actual cost of the work performed by the enforcement authority or the bid price of work accomplished by the contractor under section 11 of this chapter.

(2) An amount that represents a reasonable forecast of the average processing expense that will be incurred by the enforcement authority in taking the technical, administrative, and legal actions concerning typical unsafe premises that are necessary under this chapter so that the action required by an order may be performed by a contractor under section 11 of this chapter. In calculating the amount of the average processing expense, the following costs may be considered:

(A) The cost of obtaining reliable information about the identity and location of persons who own a substantial property interest in the unsafe premises.

(B) The cost of notice of orders, notice of statements of rescission, notice of continued hearing, notice of statements that public bids are to be let or that the enforcement

authority intends to accomplish the work, and notice that a hearing may be held on the amounts indicated in the record, in accordance with section 25 of this chapter.

(C) Salaries for employees.

(D) The cost of supplies, equipment, and office space.

(b) The board or commission having control over the department shall determine the amount of the average processing expense at the public hearing, after notice has been given in the same manner as is required for other official action of the board or commission. In determining the average processing expense, the board or commission may fix the amount at a full dollar amount that is an even multiple of ten (10).

IC 36-7-9-13

Notice of unpaid costs; filing with clerk of court; hearing; judgment lien

Sec. 13. (a) If all or any part of the costs listed in section 12 of this chapter remain unpaid for any unsafe premises (other than unsafe premises owned by a governmental entity) for more than fifteen (15) days after the completion of the work, the enforcement authority does not act under section 13.5 of this chapter, and the enforcement authority determines that there is a reasonable probability of obtaining recovery, the enforcement authority shall prepare a record stating:

- (1) the name and last known address of each person who held a known or recorded fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises from the time the order requiring the work to be performed was recorded to the time that the work was completed;
- (2) the legal description or address of the unsafe premises that were the subject of work;
- (3) the nature of the work that was accomplished;
- (4) the amount of the unpaid bid price of the work that was accomplished; and
- (5) the amount of the unpaid average processing expense.

The record must be in a form approved by the state board of accounts.

(b) The enforcement authority, or its head, shall swear to the accuracy of the record before the clerk of the circuit court and deposit the record in the clerk's office. Notice that the record has been filed and that a hearing on the amounts indicated in the record may be held must be sent in the manner prescribed by section 25 of this chapter to all of the following:

- (1) The persons named in the record.
- (2) Any mortgagee that has a known or recorded substantial property interest.

(c) If, within thirty (30) days after the notice required by subsection (b), a person named in the record or a mortgagee files

with the clerk of the circuit court a written petition objecting to the claim for payment and requesting a hearing, the clerk shall enter the cause on the docket of the circuit or superior court as a civil action, and a hearing shall be held on the question in the manner prescribed by IC 4-21.5. However, issues that could have been determined under section 8 of this chapter may not be entertained at the hearing. At the conclusion of the hearing, the court shall either sustain the petition or enter a judgment against the persons named in the record for the amounts recorded or for modified amounts.

(d) If no petition is filed under subsection (c), the clerk of the circuit court shall enter the cause on the docket of the court and the court shall enter a judgment for the amounts stated in the record.

(e) A judgment under subsection (c) or (d), to the extent that it is not satisfied under IC 27-2-15, is a debt and a lien on all the real and personal property of the person named, or a joint and several debt and lien on the real and personal property of the persons named in the record prepared under subsection (a). The lien on real property is perfected against all creditors and purchasers when the judgment is entered on the judgment docket of the court. The lien on personal property is perfected by filing a lis pendens notice in the appropriate filing office, as prescribed by the Indiana Rules of Trial Procedure.

(f) Judgments rendered under this section may be enforced in the same manner as all other judgments are enforced.

If the notice is sent, the enforcement authority shall also send notice to any mortgagee with a known or recorded substantial property interest. The notice must require full payment of the amount owed within thirty (30) days.

(c) If full payment of the amount owed is not made less than thirty (30) days after the notice is delivered, the enforcement officer may certify the following information to the county auditor:

(1) The name of each person who held a known or recorded fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises.

(2) The description of the unsafe premises, as shown by the records of the county auditor.

(3) The amount of the delinquent payment, including all costs described in section 12 of this chapter.

(d) The county auditor shall place the total amount certified under subsection (c) on the tax duplicate for the affected property as a special assessment. The total amount, including accrued interest, shall be collected as delinquent taxes are collected.

(e) An amount collected under subsection (d), after all other taxes have been collected and disbursed, shall be disbursed to the unsafe building fund.

(f) A judgment entered under section 13, 19, 21, or 22 of this chapter may be certified to the auditor and collected under this section. However, a judgment lien need not be obtained under section 13 of this chapter before a debt is certified under this section. *As added by P.L.31-1994, SEC.13. Amended by P.L.169-2006, SEC.65.*

(2) describes (either directly or by reference to the affidavit) the building where the search or inspection is to occur so that the executor of the warrant and owner or the possessor of the building can reasonably determine what property the warrant authorizes an inspection of;

(3) indicates the conditions, objects, activities, or circumstances that the inspection is intended to check or reveal; and

(4) is attached to the affidavit required to be made in order to obtain the warrant.

(c) A warrant issued under this section is valid for only forty-eight (48) hours after its issuance, must be personally served upon the owner or possessor of the building, and must be returned within seventy-two (72) hours.

Performance bond

Sec. 18.1. (a) A court acting under section 17 of this chapter may condition the granting of a period of time to accomplish the action required by an order on the posting of a performance bond that will be forfeited if the action required by the order is not completed

within the period the court allows. Before granting a period of time that is conditioned on the posting of a bond, the court may require that the requesting person justify the request with a workable and financially supported plan. If the court determines that a significant amount of work must be accomplished to comply with the order, the court may require that the bond specify interim completion standards and provide that the bond is forfeited if any of these interim completion standards are not substantially met.

(b) An amount collected under subsection (a) on a forfeited bond shall be deposited in the unsafe building fund.

The penalty imposed may not be substantially less than the cost of complying with the order, unless that cost exceeds two thousand five hundred dollars (\$2,500). The effective date of the penalty may be postponed for a period not to exceed thirty (30) days, after which the court may order the penalty reduced or stricken if it is satisfied that all work necessary to fully comply with the order has been done.

(b) On request of the enforcement authority the court shall enter a judgment in the amount of the penalty. If there is more than one (1) party defendant, the penalty is separately applicable to each defendant. The amount of a penalty that is collected shall be deposited in the unsafe building fund.

IC 36-7-9-20

Appointment of receiver; conditions; rehabilitation of property by owner, mortgagee, or person with substantial interest

Sec. 20. (a) A court acting under section 17 of this chapter may appoint a receiver for the unsafe premises, subject to the following conditions:

(1) The purpose of the receivership must be to take possession of the unsafe premises for a period sufficient to accomplish and pay for repairs and improvements.

(2) The receiver may be a nonprofit corporation the primary purpose of which is the improvement of housing conditions in the county where the unsafe premises are located, or may be any other capable person residing in the county.

(3) Notwithstanding any prior assignments of the rents and other income of the unsafe premises, the receiver must collect and use that income to repair or remove the defects as required by the order, and may, upon approval by the court, make repairs and improvements in addition to those specified in the order or required by applicable statutes, ordinances, codes, or

regulations.

(4) The receiver may make any contracts and do all things necessary to accomplish the repair and improvement of the unsafe premises.

(5) A receiver that expends money, performs labor, or furnishes materials or machinery, including the leasing of equipment or tools, for the repair of an unsafe premises may have a lien that is equal to the total expended. When a lien exists, the receiver may sell the property:

(A) to the highest bidder at auction under the same notice and sale provisions applicable to a foreclosure sale of mechanic's liens or mortgages; or

(B) for fair market value if all persons having a substantial property interest in the unsafe premises agree to the amount and procedure.

The transferee in either a public or private sale must first demonstrate the necessary ability and experience to rehabilitate the premises within a reasonable time to the satisfaction of the receiver.

(6) The court may, after a hearing, authorize the receiver to obtain money needed to accomplish the repairs and improvement by the issuance and sale of notes or receiver's certificates to the receiver or any other person or party bearing interest fixed by the court. The notes or certificates are a first lien on the unsafe premises and the rents and income of the unsafe building. This lien is superior to all other assignments of rents, liens, mortgages, or other encumbrances on the property, except taxes, if, within sixty (60) days following the sale or transfer for value of the notes by the receiver, the holder of the notes files a notice containing the following information in the county recorder's office:

(A) The legal description of the tract of real property on which the unsafe building is located.

(B) The face amount and interest rate of the note or certificate.

(C) The date when the note or certificate was sold or transferred by the receiver.

(D) The date of maturity.

(7) Upon payment to the holder of a receiver's note or certificate of the face amount and interest, and upon filing in the recorder's office of a sworn statement of payment, the lien of that note or certificate is released. Upon a default in payment on a receiver's note or certificate, the lien may be enforced by proceedings to foreclose in the manner prescribed for mechanic's liens or mortgages. However, the foreclosure proceedings must be commenced within two (2) years after the date of default.

(8) The receiver is entitled to the same fees, commissions, and necessary expenses as receivers in actions to foreclose mortgages. The fees, commissions, and expenses shall be paid out of the rents and incomes of the property in receivership.

(b) The issuance of an order concerning unsafe premises is not a prerequisite to the appointment of a receiver nor does such an order prevent the appointment of a receiver.

(c) If the enforcement authority or the enforcement authority's designee requests the appointment of a receiver, all persons having a substantial property interest in the unsafe premises shall be made party defendants.

(d) A court, when granting powers and duties to a receiver, shall consider:

- (1) the occupancy of the unsafe premises;
- (2) the overall condition of the property;
- (3) the hazard to public health, safety, and welfare;
- (4) the number of persons having a substantial property interest in the unsafe premises; and
- (5) other factors the court considers relevant.

(e) Instead of appointing a receiver to sell or rehabilitate an unsafe premises, the court may permit an owner, a mortgagee, or a person with substantial interest in the unsafe premises to rehabilitate the premises if the owner, mortgagee, or person with substantial interest:

- (1) demonstrates ability to complete the rehabilitation within a reasonable time, but not to exceed sixty (60) days;
- (2) agrees to comply within a specified schedule for rehabilitation; and
- (3) posts a bond as security for performance of the required work in compliance with the specified schedule in subdivision (2).

Court order authorizing performance of work; judgment for costs

Sec. 21. (a) A court acting under section 17 of this chapter may authorize the department, acting through its enforcement authority, to cause the action required by the order to be performed by a contractor licensed and qualified under law, if it is shown that:

- (1) an order was issued to each person having a substantial property interest in the unsafe premises;
- (2) each of the orders has been affirmed or modified at a hearing in such a manner that all persons having substantial property interest in the unsafe premises that are the subject of the orders are currently subject to an order requiring substantially identical action;
- (3) the order, as affirmed or modified at the hearing, has not been complied with;
- (4) the building that is the subject of the order is an unsafe building; and
- (5) the order is not being reviewed under section 8 of this chapter.

(b) If the enforcement authority requests permission to cause the action required by the order to be performed by a contractor, all

persons having a substantial property interest in the unsafe premises shall be made party defendants.

(c) The cost of the work and the processing expenses incurred by the enforcement authority computed under section 12 of this chapter, may, after a hearing, be entered by the court as a judgment against persons having a fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises.

Emergencies; court order authorizing action to make premises safe; judgment for costs

Sec. 22. (a) A court acting under section 17 of this chapter may set a hearing to be held within ten (10) days after the filing of a complaint alleging the existence of unsafe premises presenting an immediate danger to the health and safety of the surrounding community sufficient to warrant emergency action. Upon a finding at the hearing in favor of the department, the court may:

- (1) permit the enforcement authority to cause the action necessary to make the premises safe to be immediately performed by a contractor licensed and qualified under law;
- (2) permit the enforcement authority to cause the action necessary to make the premises safe to be immediately performed by a contractor licensed and qualified under law after the defendants have had a reasonable time, as established by the court, to make the unsafe premises safe and have failed to complete the necessary action; or
- (3) grant a mandatory injunction relative to the unsafe premises that would require a defendant who has an interest in the premises that allows the defendant to take corrective action to immediately make the premises safe.

In granting relief under subdivision (2) or (3) the court shall set a date certain for the completion of the necessary action and shall hold a hearing within ten (10) days after that date to determine whether the necessary action has been completed.

(b) The issuance of an order concerning the unsafe premises is not a prerequisite to permission by the court to cause action to be performed on the unsafe premises. If an order has been issued concerning the unsafe premises, it does not prevent the permission by the court to cause action to be performed on the unsafe premises.

(c) If the enforcement authority requests authority to cause action on the unsafe premises to be performed by a contractor, all persons having a substantial property interest in the unsafe premises shall be made party defendants.

(d) The cost of accomplishing the work may, after a hearing, be entered by the court as a judgment against persons having a fee interest, life estate interest, or equitable interest of a contract purchaser in the unsafe premises.

The ordinance may also provide for the appointment of advisory members that the legislative body considers appropriate.

(c) The ordinance may:

- (1) designate an officer or employee of the unit to act as administrator;
- (2) permit the commission to appoint an administrator who shall serve without compensation except reasonable expenses incurred in the performance of the administrator's duties; or
- (3) provide that the commission act without the services of an administrator.

(d) Members of the commission shall serve without compensation except for reasonable expenses incurred in the performance of their duties.

(e) The commission shall elect from its membership a chairman and vice chairman, who shall serve for one (1) year and may be reelected.

The rules must include the time and place of regular meetings and a procedure for the calling of special meetings. All meetings of the commission must be open to the public, and a public record of the commission's resolutions, proceedings, and actions must be kept. If the commission has an administrator, the administrator shall act as the commission's

secretary, otherwise, the commission shall elect a secretary from its membership.

(g) The commission shall hold regular meetings, at least monthly, except when it has no business pending.

(h) A final decision of the commission is subject to judicial review under IC 36-7-4 as if it were a final decision of a board of zoning appeals.

- (1) Whether a building, structure, or site within the historic district continues to meet the criteria for inclusion in a historic district as set forth in the ordinance approving the historic district map under section 7 of this chapter. The determination must state specifically the criteria that are applicable to the buildings, structures, or sites within the district.
- (2) Whether failure to remove the designation of the historic

district would deny an owner of a building, structure, or site within the historic district reasonable use of the owner's property or prevent reasonable economic return. Evidence provided by the petitioner may include information on:

- (A) costs to comply with regulations;
- (B) income generation;
- (C) availability of contractors to perform work;

(4) Whether removal of or failure to remove the designation of the historic district would have an adverse impact on the unit's historic resources, and specifically whether it would result in the loss of a building, structure, or site classified as historic by the commission's survey prepared under section 6 of this chapter.

(d) Not later than ten (10) days after the public hearing, the historic preservation commission shall submit:

- (1) its findings on the petition; and

 - (i) a majority vote, if the recommendation of the historic preservation commission is to grant the petition; or
 - (ii) a two-thirds (2/3) vote, if the recommendation of the historic preservation commission is to deny the petition.

The legislative body shall record an ordinance adopted under subdivision (2) with the county recorder not later than ten (10) days after the legislative body adopts the ordinance. The historic district designation is considered removed on the date the ordinance is

recorded with the county recorder.

(f) If the legislative body of the unit does not grant or deny the petition within forty-five (45) days after receiving the historic preservation commission's findings:

(C) may select one (1) member from a list of names submitted by the local chapter of the American Institute of Architects.

(c) Each appointment to the commission is for a term of four (4) years, commencing on January 1 following the appointment, and until a successor is appointed and is qualified. A member is eligible for reappointment.

(d) If a vacancy occurs in the commission during any term, a successor shall be appointed by the appointing authority to serve for the remainder of the vacated term. Any member of the commission may be removed for cause by the appointing authority. All members must be residents of the county.

(e) The members receive no salary, but are entitled to reimbursement for any expenses necessarily incurred in the performance of their duties.

(f) At its first scheduled meeting each year, the commission shall hold a meeting for the purpose of organization. The commission shall elect from its membership a president, vice president, secretary, and treasurer who shall perform the duties pertaining to those offices. The officers serve from the date of their election until their successors are elected and qualified. The commission may adopt bylaws and rules for the proper conduct of its proceedings, the carrying out of its duties, and the safeguarding of its funds and property. A majority of the members of the commission constitute a quorum, and the concurrence of a majority of the commission is necessary to authorize any action.

(g) A member of the commission is not disqualified from hearing and voting upon any matter coming before the commission because that member owns or occupies property within or adjacent to a historic area, unless that property is the subject property or located within two hundred (200) feet of it.

(h) A member of the commission who is absent from three (3) consecutive regular meetings of the commission shall be treated as if the member had resigned, unless the appointing authority reaffirms the member's appointment. However, the counting of such a member toward a quorum requirement or the voting by such a member does not invalidate any official action taken by the commission before the time that the minutes of the commission reflect that the member has resigned.

Administrator; staff; work program; information; offices and facilities; annual budget

Sec. 4. (a) After consulting with the executive of the consolidated city and the director of the department of metropolitan development, the commission may appoint or remove an administrator. The administrator shall, in accordance with the personnel policies and practices of the city, hire and discharge additional staff, following the standards and qualifications established by the commission. No consideration may be given to political affiliation in the selection and tenure of the staff. The commission shall determine the compensation of the administrator and other staff consistent with ordinances of the legislative body adopted under IC 36-3-6-3.

(b) Before December 1 each year, the commission shall adopt a work program defining the activities that are proposed to be carried out by staff during the next calendar year. At least forty-five (45) days before the commission desires to adopt a work program, it shall submit a copy of the proposed work program to the executive of the consolidated city and to the director of the department of metropolitan development. The executive and director shall, within thirty (30) days after submission, review and provide comments to the commission regarding the proposed work program. After comments have been received from the executive and the director and considered by the commission or after thirty (30) days have elapsed from the date of submission (whichever occurs first), the commission shall adopt a work program. Activities carried out during the calendar year must conform to or not substantially depart from the work program. The work program may be modified during the applicable calendar year in the same manner as the adoption of the original work program, except that the executive and the director have only ten (10) days in which to review and comment on the proposed work program modification, and the commission may then immediately adopt a work program modification.

(c) The administrator shall provide information that will allow the director of the department of metropolitan development to coordinate the activities of the department of metropolitan development with the activities of the commission and its staff. In order to achieve

consistency in administrative practices and policies between the consolidated city and the staff of the commission, the administrator shall seek the advice and guidance of the director regarding such matters as budgeting and fiscal control, personnel administration, and purchasing.

(d) The commission shall establish and maintain offices and facilities as may be necessary for the performance of its duties, the activities of its staff, and the preservation of its records, documents, and accounts. The location of the offices must be approved by the executive of the consolidated city.

(e) The commission shall prepare and submit annually to the fiscal officer of the consolidated city its estimate of the expenditures required for its operations and fiscal responsibilities for the ensuing fiscal year. The budget of the commission and its staff constitutes a part of the consolidated city budget and shall be determined in accordance with IC 36-3-6, and the county comprises the taxing district for the commission.

(20) Prepare and submit an annual budget in the manner prescribed by section 4 of this chapter.

(21) Participate, in conjunction with the consolidated city, in a retirement system for commission employees.

(22) Accept or contract with the consolidated city or with other persons for the furnishing of professional staff or any other services, office facilities, equipment, and supplies to the extent and for compensation as may be agreed upon, with or without compensation, and to receive and expend any funds, grants, or gifts for carrying out any function of the commission under this chapter.

(23) Enter into and carry out contracts with federal or state agencies, subject to the approval of the city executive, regarding grants of financial or other assistance to the county, city, or commission, accept and expend grant money or other assistance, and enter into and carry out contracts with other persons or governmental agencies for any purpose of the commission.

IC 36-7-11.1-6

Proposed historic preservation plans; recommendations; approval proceedings; official markers

Sec. 6. (a) The commission shall have its staff prepare proposed historic preservation plans for all appropriate areas of the county. Upon the commission's declaratory resolution of the historic or architectural significance of any area, structure, or site designated in it, the proposed historic preservation plan shall be presented to the metropolitan development commission for public hearing and adoption as a part of the comprehensive plan of the county.

(b) The proposed historic preservation plan must officially designate and delineate historic areas and identify any individual structures or sites in it of particular historic or architectural significance, which structures and sites must be listed on the county register of historic places.

(c) With the designation of a historic structure, the plan may additionally expressly identify and designate the interior, or any interior architectural or structural feature of it, having exceptional historic or architectural significance.

(d) The historic preservation plan may include any of the material listed in IC 36-7-4-503 as it relates to historic preservation. Any plan designating one (1) or more historic areas, and any historic structures and sites located in it, must include a historic and architectural or design analysis supporting the significance of the historic area, general or specific criteria for preservation, restoration, rehabilitation, or development, including architectural and design standards, and a statement of preservation objectives.

(e) In preparing a proposed historic preservation plan, the staff of the commission shall inform, consult, and cooperate with the staff of the department of metropolitan development. In carrying out its planning and redevelopment responsibilities in an area for which a historic preservation plan is being prepared or is in effect, the staff of the department of metropolitan development shall inform, consult, and cooperate with the staff of the commission. To the extent possible, commission staff and department staff shall carry out a joint planning effort relative to proposed historic areas with the resulting information and conclusions relating to historic preservation being placed in the proposed historic preservation plan.

(f) Concurrently or subsequently, the commission may prepare and recommend to the metropolitan development commission, for its initiation, approval, and recommendation to the legislative body for adoption, a historic district zoning ordinance or ordinances to implement the historic preservation plan.

(g) Each historic area or historic zoning district must be of such territorial extent and configuration as will best serve the purposes of this chapter, there being no maximum or minimum size limitations thereon whether applied to single or multiple historic properties or sites, and may include any adjacent area necessarily a part thereof because of its effect upon and relationship to the historic values and character of the area.

(h) The proposed historic preservation plan, if approved and

adopted by the metropolitan development commission, constitutes part of the comprehensive plan of the county.

(i) The proceeding for approval of this plan, including notice and hearing requirements, is governed by the same rules and requirements applicable to petitions to the metropolitan development commission for amendment of zoning ordinances and for creation of new district classifications, and by all statutory requirements relative to the metropolitan development commission; however, individual notice of the hearing shall be given each owner of property in any proposed historic area, according to the metropolitan development commission's rules and requirements or, alternatively, the owner's consent to the proposed historical area designation may be obtained and filed with the metropolitan development commission.

(j) Amendments to any historic preservation plan, or any segment of it, shall be made in the same manner as the original plan.

(k) The commission shall receive and consider any pertinent information or exhibits such as historical data, architectural plans, drawings and photographs, regarding any proposed or designated historic area, structure, or site, and any request for historic designation or for the exclusion of any property or structure from any proposed or designated historic area.

(l) The commission may adopt any operating guidelines for the evaluation and designation of historic areas, structures, and sites, so long as they are in conformity with the objectives of this chapter.

(m) Upon the adoption of the historic preservation plan, the commission may at any time identify by appropriate markers any historic areas, structures, and sites designated by the plan, or any historic area properties in the process of restoration under the plan. These markers may be erected on public right-of-ways or, with the consent of the owner, on any subject historic property. These official informational or identification markers, whether permanent or temporary, constitute an exception to any codes and ordinances establishing sign regulations, standards, and permit requirements applicable to the area.

IC 36-7-11.1-7

Categories of work exempted by historic preservation plan; premature issuance of permits for work

Sec. 7. (a) The historic preservation plan may provide that certain categories of work accomplished in the historic area are exempt from the requirement imposed by section 9 of this chapter that a certificate of appropriateness be issued. Categories of work that may be exempted by a historic preservation plan include the construction, reconstruction, alteration, or demolition of a structure or feature. Various historic preservation plans may exempt different categories of work.

(b) After the commission has adopted a declaratory resolution relative to a historic area and presented the historic preservation plan to the metropolitan development commission for adoption or

rejection as a segment of the comprehensive plan of the county, no permits may be issued by the department of metropolitan development for the construction, reconstruction, or alteration of any exterior architectural structure or feature in the area or the demolition of any structure or feature in the area until the metropolitan development commission has taken official action on the proposed plan or within ninety (90) days after the date of adoption of the declaratory resolution by the commission, whichever occurs first. If such a permit has been issued before the adoption of a declaratory resolution by the commission, the agency issuing the permit may order that the work allowed by the permit, or a part of the work, be suspended until the metropolitan development commission has adopted or rejected the historic preservation plan.

As added by Acts 1982, P.L.77, SEC.6.

IC 36-7-11.1-8

Permits for work; application; certificate of appropriateness

Sec. 8. (a) After adoption of the historic preservation plan for any historic area, permits may be issued by the department of metropolitan development for the construction of any structure in the area or the reconstruction, alteration, or demolition of any structure in the area only if the application for the permit is accompanied by a certificate of appropriateness issued under section 10 of this chapter.

(b) Notwithstanding subsection (a), if the historic preservation plan for the historic area specifically exempts certain categories of work involving the construction, reconstruction, alteration, or demolition of structures in that area from the requirement that a certificate of appropriateness be issued, then a permit for the work may be obtained from the department of metropolitan development without the issuance of a certificate of appropriateness.

(c) After the adoption of the historic preservation plan for any area, all governmental agencies shall be guided by and give due consideration to the plan in any official acts affecting the area.

(d) On application by any governmental agency or interested party in accordance with section 9 of this chapter, the commission shall make a determination of the appropriateness of any proposed governmental action affecting a historic area. Any official action in conflict with the plan or determined by the commission to be inappropriate is presumed to be not in the public interest and is subject to the enforcement provisions of section 12 of this chapter.

(e) The commission's determination of appropriateness is a prerequisite to any governmental order or action to alter or demolish any designated historic site or any structure in a historic area. No rezoning or variance applicable to a historic area, or any part of it, may be approved by the metropolitan development commission or granted by a board of zoning appeals, except on the commission's prior issuance of a certificate of appropriateness.

As added by Acts 1982, P.L.77, SEC.6.

IC 36-7-11.1-9

Necessity of certificate of appropriateness; filing application; issuance procedure

Sec. 9. (a) A person may not construct any exterior architectural structure or feature in any historic area, or reconstruct, alter, or demolish any such exterior or designated interior structure or feature in the area, until the person has filed with the secretary of the commission an application for a certificate of appropriateness in such form and with such plans, specifications, and other material as the commission may from time to time prescribe and a certificate of appropriateness has been issued as provided in this section. However, this chapter does not:

- (1) prevent the ordinary maintenance or repair of any such exterior or designated interior architectural structure or feature that does not involve a change in design, color or outward appearance of it;
- (2) prevent any structural change certified by the department of metropolitan development as immediately required for the public safety because of a hazardous condition; or
- (3) require a certificate of appropriateness for work that is exempted by a historic preservation plan under section 7 of this chapter.

(b) The commission shall hold a public hearing on any application for certificate of appropriateness. At least ten (10) days before the date set for the hearing, notice shall be published in accordance with IC 5-3-1, and notice shall be given additionally to the affected parties in accordance with the commission's rules of procedure.

(c) Upon hearing the application for a certificate of appropriateness, the commission shall determine whether the proposal will be appropriate to the preservation of the area and to the furtherance and development of historic preservation.

(d) In determining appropriateness of any proposed construction, reconstruction, or alteration, the commission shall consider, in addition to any other pertinent factors, the visual compatibility, general design, arrangement, color, texture, and materials in relation to the architectural or other design standards prescribed by the plan or any applicable zoning regulation, the design and character of the historic area, and the architectural factors of other structures in it. In determining appropriateness of any proposed demolition, the commission shall consider, in addition to any other pertinent factors, the character and significance of the subject structure in relation to the historic area and any other structures or sites in it, including its relative contribution to the historic and architectural values and significance of the area.

(e) However, if the commission finds under subsection (d) any application to be inappropriate, but that its denial would result in substantial hardship or deprive the owner of all reasonable use and benefit of the subject property, or that its effect upon the historic area would be insubstantial, the commission shall issue a certificate of authorization, which constitutes a certificate of appropriateness for

purposes of this chapter.

(f) Issuance of a certificate of appropriateness is subject to review by the metropolitan development commission as to its appropriateness in relation to the comprehensive plan. This review must be in accordance with the same procedures and limitations applicable to appeals of decisions of boards of zoning appeals, as provided in IC 36-7-4, and must be initiated only upon notice of appeal by the division of planning and zoning certifying that this determination interferes with the comprehensive plan. All proceedings and work on the subject premises under the certificate of appropriateness are automatically stayed upon notice of the appeal.

As added by Acts 1982, P.L.77, SEC.6.

IC 36-7-11.1-10

Certificate of appropriateness; determination of commission

Sec. 10. (a) If the commission determines that the proposed construction, reconstruction, alteration, or demolition will be appropriate, the secretary of the commission shall forthwith issue to the applicant a certificate of appropriateness.

(b) The commission may impose any reasonable conditions, consistent with the historic preservation plan, upon the issuance of a certificate of appropriateness, including the requirement of executing and recording covenants or filing a maintenance or performance bond. If the commission determines that a certificate of appropriateness should not be issued, the commission shall forthwith place upon its records the reasons for the determination and may include recommendations respecting the proposed construction, reconstruction, alteration, or demolition. The secretary of the commission shall forthwith notify the applicant of the determination transmitting to the applicant an attested copy of the reasons and recommendations, if any, of the commission.

(c) A final determination of the commission upon an application for certificate of appropriateness is subject to judicial review in the same manner and subject to the same limitations as a final decision of a board of zoning appeals under IC 36-7-4. However, notwithstanding IC 36-7-4-1609, upon notice of the filing of the petition for judicial review, all proceedings and work on the subject premises are automatically stayed.

IC 36-7-11.1-11

Hearing officer; powers and duties

Sec. 11. (a) A hearing officer designated by the commission may conduct the public hearing provided for in this chapter on applications for a certificate of appropriateness. The commission may limit by rule or resolution the applications that a hearing officer may hear and determine.

(b) The hearing officer shall hold a public hearing under the same

notice and procedural requirements as are applicable to a hearing before the commission. After the hearing on an application for a certificate of appropriateness, the hearing officer shall make a determination.

(c) The hearing officer may not issue a certificate of authorization.

(d) The hearing officer shall set forth the reasons for the determination and may impose conditions in accordance with section 10 of this chapter.

(e) The commission shall provide reasonable opportunity by rules for the applicant, any commission member, the administrator, or any interested person to file exceptions to the determination of the hearing officer. If an exception is properly filed, the commission shall hold a de novo hearing and make a determination. If such an exception is not filed, the determination of the hearing officer constitutes the final decision of the commission.

As added by Acts 1982, P.L.77, SEC.6.

IC 36-7-11.1-12

Enforcement of chapter, ordinance, and covenants; notice to correct failures or violations

Sec. 12. (a) Whenever the commission finds that the owner of property in any historic area has neglected to keep the property and premises in a clean, sanitary, and tidy condition or has failed to maintain any structure in a good state of repair and in a safe condition, the commission may give the owner written notice to correct the failures or violations within thirty (30) days after receipt of notice, and if the owner fails to comply, then the commission may bring appropriate enforcement actions as provided by subsection (b).

(b) The commission, or any enforcement official of the consolidated city designated by the commission, may enforce this chapter, any ordinance adopted under it, and any covenants or conditions required or imposed by the commission by civil action in the circuit or superior court. Any legal, equitable, or special remedy may be invoked, including mandatory or prohibitory injunction or a civil fine. These enforcement actions (except those seeking a civil fine) may also be brought by any interested person or affected owner.

(c) Ordinances adopted under this chapter may provide for penalties for violations, subject to IC 36-1-3-8.

(d) No costs may be taxed against the commission or any of its members in any action.

(e) In actions brought under subsection (b), there may not be changes of venue from the county.

Nonconforming uses

Sec. 13. (a) Except as provided in section 13.1 of this chapter, any building, structure, or land use in existence at the time of the

adoption of the historic preservation plan that is not in conformity to or within the zoning classification or restrictions or requirements or architectural standards of this plan, shall be considered to be a nonconforming use and may continue, but only so long as the owner or owners continuously maintain this use.

(b) Except as provided in section 13.1 of this chapter, in addition to the requirements pertaining to certificates of appropriateness, the ownership of a nonconforming use is subject to the additional restriction that a nonconforming use may not be reconstructed or structurally altered to an extent exceeding in aggregate cost fifty percent (50%) of the market value thereof unless the structure is changed to a conforming use.
