 - (A) a person from seeking or having the benefits of; or
 - (B) a governmental body from granting; a rezoning of or zoning variance for Meridian Street or bordering property for which the commission or development commission for rezoning has not granted prior approval in the manner required by this chapter.
 - (4) To:
 - (A) prevent construction, reconstruction, alteration, or demolition work upon; and
 - (B) obtain full relief from work previously done upon; Meridian Street property for which a certificate of appropriateness was required but was not issued by the commission. A person entitled to bring an action under this section is not required to post a bond unless the court, after a hearing, determines that a bond should be required in the interests of justice. A person who brings an action under this section is not, however, liable to a person for any damages resulting from the bringing or prosecuting of the action unless the action was not brought:

- (1) in good faith; or
 - (2) in the reasonable belief that:
 - (A) this chapter; or
 - (B) a commitment, an agreement, or a covenant entered into under section 42 of this chapter;
- had been or was about to be violated or breached.

(d) The person against whom an action is brought under subsection (a) is liable to the interested party bringing the action for reasonable attorney's fees and court costs if judgment is entered by the court against the person.

(e) An action arising under this section must be brought in the circuit or superior court of Marion County, and a change of venue from the county is not permitted.

(f) The remedy provided in this section is not exclusive but is cumulative to any other remedies available at law or equity.

For purposes of a petition all of the persons having a legal or equitable interest in one (1) parcel of Meridian Street

property are considered in the aggregate to be the single owner. For purposes of a petition one (1) parcel of Meridian Street property is considered to include at least two (2) contiguous parcels if the parcels are owned directly or indirectly by the same person. A person is considered an indirect owner of a contiguous parcel if the parcel is owned as follows:

- (1) Jointly with another person.
- (2) By the person with the person's spouse in tenancy by the entirety.
- (3) Directly or indirectly by the person's spouse.
- (4) By a child or grandchild, natural or adopted, unless the child or grandchild is the fee owner and an occupant of the parcel.
- (5) By a trust or an estate of which:
 - (A) the person is a trustee, an executor, or an administrator; or
 - (B) the person is empowered to direct the disposition of the parcel.
- (6) By a partnership of which the person is a limited or general partner.
- (7) By a corporation of which:
 - (A) the person;
 - (B) the person's spouse;
 - (C) the person's children or grandchildren, natural or adopted;
 - (D) a trust or an estate described in subdivision (5); or
 - (E) a partnership described in subdivision (6);owns at least fifty percent (50%) of the voting stock.

(c) A petition presented to the city-county legislative body must state fully and precisely the grounds upon which the petitioners rely in seeking dissolution of the commission. The petition must, with respect to each of the petitioning owners, state accurately and completely the following:

- (1) The street address and the legal description of the property owned.
- (2) The names, addresses, and precise interest in the property of each person who with any other person constitutes the owner for purposes of this section. Each owner must sign the petition and acknowledge the execution before an officer legally entitled to take acknowledgements. If one (1) person signs a petition for or on behalf of another person, the individual signing must establish in a writing filed with the petition the power and authority to act for the person. A writing may include the following:
 - (A) For a corporation, a certified copy of a resolution by the board of directors specifically authorizing the person to execute the petition.
 - (B) For an individual, an executed and acknowledged power of attorney.
 - (C) For a partnership, a certificate of authorization executed and acknowledged by each partner.

(D) For an estate, a certified copy of a court order authorizing the action.

(E) For a trust, a certified copy of the trust instrument showing the authorization.

(d) Not later than ten (10) days after presenting a petition to the city-county legislative body, the petitioning owners shall serve notice of the petition upon all interested parties, except the petitioning owners. For purposes of the notice all parcels of Meridian Street property are considered, in the aggregate, to be the subject property. The notice must specify the following:

(1) The date of presentation.

(2) The names of the petitioning owners.

(3) The street address of the property of which each is the owner.

(e) The city-county legislative body may not consider a petition until more than sixty (60) days have elapsed since the date of presentation and shall at all times make the petition available for examination by any person. (1) Give public notice.

(2) Serve notice upon each neighborhood association and the commission.

(f) Before taking action on a petition, the city-county legislative body shall permit the petitioning owners and all parties appearing in opposition to the petition to have a full and adequate hearing.

(g) If the city-county legislative body dissolves the commission by resolution, the action is void unless the following conditions are met:

(1) The petitioning owners have complied fully with this section.

(2) The city-county legislative body's action is based upon a competent, substantial, and convincing showing that the continued existence of the commission and the continued operation of this chapter will not with any likelihood or to any significant degree accomplish purposes for which this chapter was enacted. In taking action the city-county legislative body may not consider testimony, argument, or other showing that continued existence of the commission or continued effectiveness of this chapter promotes or will promote continued single or double family dwelling residential usage of Meridian Street property at the expense of the value the property would or might otherwise have if freed from the restrictions of this chapter on commercial and multiple family residential development or usage of the property.

Sales or leases of property acquired for industrial development

Sec. 5.5. (a) This section does not apply to sales, leases, or other dispositions of real property to other public agencies for public purposes.

(b) Before offering for sale or lease to the public any of the real property acquired under this chapter, the advisory commission on industrial development shall have two (2) separate appraisals of the sale value, or rental value in case of a lease, made by independent appraisers. In making appraisals, the appraisers shall take into consideration the size, location, and physical condition of the parcels and all other factors having a bearing on the value of the parcels. The appraisals are solely for the information of the commission, the unit's executive, and the unit's legislative body and are not open for public

inspection.

(c) The commission shall then prepare an offering sheet showing the parcels to be offered and the offering prices, which may not be less than the average of the two (2) appraisals. Copies of the offering sheets shall be furnished to prospective buyers on request. Maps and plats showing the size and location of all parcels to be offered shall also be kept available for inspection at the office of the commission or the unit's legislative body.

(d) A notice shall be published in accordance with IC 5-3-1. The notice must state that at a designated time the commission will open and consider written offers for the purchase or lease of the real property being offered. In giving the notice it is not necessary to describe each parcel separately or to specify the exact terms of disposition, but the notice must:

- (1) state the general location of the parcels;
- (2) call attention generally to any limitations on the use to be made of the real property offered; and
- (3) state that a bid submitted by a trust (as defined in IC 30-4-1-1(a)) must identify each:
 - (A) beneficiary of the trust; and
 - (B) settlor empowered to revoke or modify the trust.

(e) At the time fixed in the notice the commission shall open and consider any offers received. All offers received shall be opened at public meetings of the commission and shall be kept open for public inspection.

(f) The commission may make recommendations to the legislative body for awards to the highest and best bidders. In determining the best bids, the commission shall take into consideration the following factors:

- (1) The size and character of the improvements proposed to be made by the bidder on the real property.
- (2) The bidder's plans and ability to improve the real property with reasonable promptness.
- (3) Whether the real property when improved will be sold or rented.
- (4) The bidder's proposed sale or rental prices.
- (5) The bidder's compliance with subsection (d)(3).
- (6) Any factors that will assure the commission that the sale or lease, if made, will further industrial development of the unit and best serve the interest of the community from the standpoint of both human and economic welfare.

(g) The legislative body may contract with a bidder with regard to the factors listed in subsection (f). The contract may provide for the deposit of surety bonds, the making of good faith deposits, liquidated damages, the right of repurchase, or other rights and remedies if the bidder fails to comply with the contract. A conveyance under this chapter may not be made until the agreed consideration has been paid.

(h) After the opening and consideration of the written offers filed in response to the notice, the legislative body may dispose of the

remainder of the available real property either at public sale or by private negotiation. For a period of ninety (90) days after the opening of the written offers, a sale or lease may not be made at a price or rental less than that shown on the offering sheet. After that period, the commission may adjust the offering prices in the manner it considers necessary to further industrial development.

IC 36-7-14-15

Data concerning areas in need of redevelopment; declaratory resolution; amendment to resolution or plan

Sec. 15. (a) Whenever the redevelopment commission finds that:

- (1) an area in the territory under its jurisdiction is an area needing redevelopment;
- (2) the conditions described in IC 36-7-1-3 cannot be corrected in the area by regulatory processes or the ordinary operations of private enterprise without resort to this chapter;
- (3) the public health and welfare will be benefited by:
 - (A) the acquisition and redevelopment of the area under this chapter as a redevelopment project area; or
 - (B) the amendment of the resolution or plan, or both, for an existing redevelopment project area; and
- (4) in the case of an amendment to the resolution or plan for an existing redevelopment project area:
 - (A) the amendment is reasonable and appropriate when considered in relation to the original resolution or plan and the purposes of this chapter; and
 - (B) the resolution or plan, with the proposed amendment, conforms to the comprehensive plan for the unit;

the commission shall cause to be prepared the data described in subsection (b).

(b) After making a finding under subsection (a), the commission shall cause to be prepared:

- (1) maps and plats showing:
 - (A) the boundaries of the area in which property would be acquired for, or otherwise affected by, the establishment of a redevelopment project area or the amendment of the resolution or plan for an existing area;
 - (B) the location of the various parcels of property, streets, alleys, and other features affecting the acquisition, clearance, remediation, replatting, replanning, rezoning, or redevelopment of the area, indicating any parcels of property to be excluded from the acquisition or otherwise excluded from the effects of the establishment of the redevelopment project area or the amendment of the resolution or plan for an existing area; and

- (3) an estimate of the costs, if any, to be incurred for the

acquisition and redevelopment of property.

(c) This subsection applies to the initial establishment of a redevelopment project area. After completion of the data required by subsection (b), the redevelopment commission shall adopt a resolution declaring that:

- (1) the area needing redevelopment is a menace to the social and economic interest of the unit and its inhabitants;
- (2) it will be of public utility and benefit to acquire the area and redevelop it under this chapter; and
- (3) the area is designated as a redevelopment project area for purposes of this chapter.

The resolution must state the general boundaries of the redevelopment project area, and that the department of redevelopment proposes to acquire all of the interests in the land within the boundaries, with certain designated exceptions, if there are any.

(d) This subsection applies to the amendment of the resolution or plan for an existing redevelopment project area. After completion of the data required by subsection (b), the redevelopment commission shall adopt a resolution declaring that:

Property excepted from the application of a resolution may be described by street numbers or location.

IC 36-7-14-15.5

Redevelopment project areas in certain counties; inclusion of additional areas outside boundaries

Sec. 15.5. (a) This section applies to a county having a population of more than two hundred fifty thousand (250,000) but less than two hundred seventy thousand (270,000).

(b) In adopting a declaratory resolution under section 15 of this chapter, a redevelopment commission may include a provision stating that the redevelopment project area is considered to include one (1) or more additional areas outside the boundaries of the

redevelopment project area if the redevelopment commission makes the following findings and the requirements of subsection (c) are met:

(1) One (1) or more taxpayers presently located within the boundaries of the redevelopment project area are expected within one (1) year to relocate all or part of their operations outside the boundaries of the redevelopment project area and have expressed an interest in relocating all or part of their operations within the boundaries of an additional area.

(2) The relocation described in subdivision (1) will contribute to the continuation of the conditions described in IC 36-7-1-3 in the redevelopment project area.

(3) For purposes of this section, it will be of public utility and benefit to include the additional areas as part of the redevelopment project area.

(c) Each additional area must be designated by the redevelopment commission as a redevelopment project area or an economic development area under this chapter.

(d) Notwithstanding section 3 of this chapter, the additional areas shall be considered to be a part of the redevelopment special taxing district under the jurisdiction of the redevelopment commission. Any excess property taxes that the commission has determined may be paid to taxing units under section 39(b)(4) of this chapter shall be paid to the taxing units from which the excess property taxes were derived. All powers of the redevelopment commission authorized under this chapter may be exercised by the redevelopment commission in additional areas under its jurisdiction.

(e) The declaratory resolution must include a statement of the general boundaries of each additional area. However, it is sufficient to describe those boundaries by location in relation to public ways, streams, or otherwise, as determined by the commissioners.

(f) The declaratory resolution may include a provision with respect to the allocation and distribution of property taxes with respect to one (1) or more of the additional areas in the manner provided in section 39 of this chapter. If the redevelopment commission includes such a provision in the resolution, allocation areas in the redevelopment project area and in the additional areas considered to be part of the redevelopment project area shall be considered a single allocation area for purposes of this chapter.

(g) The additional areas must be located within the same county as the redevelopment project area but are not otherwise required to be within the jurisdiction of the redevelopment commission, if the redevelopment commission obtains the consent by ordinance of:

(1) the county legislative body, for each additional area located within the unincorporated part of the county; or

(2) the legislative body of the city or town affected, for each additional area located within a city or town.

In granting its consent, the legislative body shall approve the plan of development or redevelopment relating to the additional area.

(h) A declaratory resolution previously adopted may be amended

to include a provision to include additional areas as set forth in this section and an allocation provision under section 39 of this chapter with respect to one (1) or more of the additional areas in accordance with sections 15, 16, and 17 of this chapter.

(i) The redevelopment commission may amend the allocation provision of a declaratory resolution in accordance with sections 15, 16, and 17 of this chapter to change the assessment date that determines the base assessed value of property in the allocation area to any assessment date following the effective date of the allocation provision of the declaratory resolution. Such a change may relate to the assessment date that determines the base assessed value of that portion of the allocation area that is located in the redevelopment project area alone, that portion of the allocation area that is located in an additional area alone, or the entire allocation area.

(d) After adoption under section 15 of this chapter of a resolution that designates a redevelopment project area or amends the resolution or plan for an existing area, a redevelopment commission in an excluded city that is exempt from the requirements of subsections (a) and (b) shall submit the resolution and supporting data to the municipal legislative body of the excluded city. described in the resolution, including substantial modifications, rebuilding, conversion, enlargement, additions, and major structural improvements; or

(2) take any action regarding the zoning or rezoning of property, or the opening, closing, or improvement of streets, alleys, or boulevards in the area described in the resolution.

This subsection does not prohibit the granting of permits for ordinary maintenance or minor remodeling, or for changes necessary for the continued occupancy of buildings in the area.

(c) If the resolution to be considered at the hearing includes a provision establishing or amending an allocation provision under section 39 of this chapter, the redevelopment commission shall file the following information with each taxing unit that is wholly or partly located within the allocation area:

The redevelopment commission shall file the information required by this subsection with the officers of the taxing unit who are authorized to fix budgets, tax rates, and tax levies under IC 6-1.1-17-5 at least ten (10) days before the date of the hearing.

(d) At the hearing, which may be adjourned from time to time, the redevelopment commission shall hear all persons interested in the proceedings and shall consider all written remonstrances and objections that have been filed. After considering the evidence presented, the commission shall take final action determining the public utility and benefit of the proposed project or other actions to be taken under the resolution, and confirming, modifying and confirming, or rescinding the resolution. the commission must, at least ten (10) days before the public hearing under section 17 of this chapter, send the notice required by section 17 of this chapter by first class mail to affected neighborhood associations and to persons owning property that is in the proposed enlargement of the area or that is proposed to be added to the acquisition list. If the enlargement of an area is proposed, notice must also be filed in accordance with section 17(b) of this chapter, and agencies and officers may not take actions prohibited by section 17(b) of this chapter in the proposed enlarged area.

(c) The commission may require that neighborhood associations register with the commission. Appeals

Sec. 18. (a) A person who filed a written remonstrance with the redevelopment commission under section 17 of this chapter and is aggrieved by the final action taken may, within ten (10) days after that final action, file in the office of the clerk of the circuit or superior court a copy of the order of the commission and his remonstrance against that order, together with his bond conditioned to pay the costs of his appeal if the appeal is determined against him. The only ground of remonstrance that the court may hear is whether the proposed project will be of public utility and benefit. The burden of proof is on the remonstrator.

(b) An appeal under this section shall be promptly heard by the court without a jury. All remonstrances upon which an appeal has been taken shall be consolidated and heard and determined within thirty (30) days after the time of the filing of the appeal. The court shall hear evidence on the remonstrances, and may confirm the final action of the commission or sustain the remonstrances. Acquisition of real property; procedure

Sec. 19. (a) If no appeal is taken or if an appeal is taken but is unsuccessful, the redevelopment commission shall proceed with the proposed project to the extent that money is available for that purpose.

(b) The redevelopment commission shall first approve and adopt a list of the real property and interests in real property to be acquired and the price to be offered to the owner of each parcel of interest. The prices to be offered may not exceed the average of two (2) independent appraisals of fair market value procured by the commission except that appraisals are not required in transactions with other governmental agencies. However, if the real property is less than five (5) acres in size and the fair market value of the real property or interest has been appraised by one (1) independent appraiser at less than ten thousand dollars (\$10,000), the second appraisal may be made by a qualified employee of the department of redevelopment. The prices indicated on the list may not be exceeded unless specifically authorized by the commission or ordered by a court in condemnation proceedings. The commission may except from acquisition any real property in the area if the commission finds that such an acquisition is not necessary under the redevelopment plan. Appraisals made under this section are for the information of the commission and are not open for public inspection.

(c) Negotiations for the purchase of property may be carried on directly by the redevelopment commission, by its employees, or by expert negotiations, but no option, contract, or understanding relative to the purchase of real property is binding on the commission until approved and accepted by the commission in writing. The commission may authorize the payment of a nominal fee to bind an option and as a part of the consideration for conveyance may agree to pay the expense incident to the conveyance and determination of the title of the property. Payment for the property purchased shall be made when and as directed by the commission but only on delivery of proper instruments conveying the title or interest of the owner to the "City (Town or County) of _____ for the use and benefit of its department of redevelopment".

(d) All real property and interests in real property acquired by the redevelopment commission are free and clear of all liens, assessments, and other governmental charges except for current property taxes, which shall be prorated to the date of acquisition.

(e) Notwithstanding subsections (a) through (d), the redevelopment commission may, before the time referred to in this section, accept gifts of property needed for the redevelopment of redevelopment project areas if the property is free and clear of all liens other than taxes, assessments, and other governmental charges. The commission may, before the time referred to in this section, take options on or contract for the acquisition of property needed for the redevelopment of redevelopment project areas if the options and contracts are not binding on the commission or the district until the

time referred to in this section and until money is available to pay the consideration set out in the options or contracts.

Sec. 20. (a) Subject to the approval of the legislative body of the unit that established the department of redevelopment, if the redevelopment commission considers it necessary to acquire real property in a redevelopment project area by the exercise of the power of eminent domain, the commission shall adopt a resolution setting out its determination to exercise that power and directing its attorney to file a petition in the name of the unit on behalf of the department of redevelopment, in the circuit or superior court of the county in which the property is situated.

(b) Eminent domain proceedings under this section are governed by IC 32-24 and other applicable statutory provisions for the exercise of the power of eminent domain. Property already devoted to a public use may be acquired under this section, but property belonging to the state or any political subdivision may not be acquired without its consent.

(c) The court having jurisdiction shall direct the clerk of the circuit court to execute a deed conveying the title of real property acquired under this section to the unit for the use and benefit of its department of redevelopment.

IC 36-7-14-21

Commission authority in redevelopment area

Sec. 21. (a) The redevelopment commission may proceed with the clearing and replanning of the area described in the resolution before the acquisition of all of that area. It may also proceed with the repair and maintenance of buildings that have been acquired and are not to be cleared, and with the following with respect to environmental contamination:

- (1) Investigation.
- (2) Remediation.

The redevelopment commission may carry out activities under this subsection by labor employed directly by the commission or by contract. Contracts for clearance may provide that the contractor is entitled to retain and dispose of salvaged material, as a part of the contract price or on the basis of stated prices for the amounts of the various materials actually salvaged.

(b) All contracts for material or labor under this section shall be let under IC 36-1.

(c) In the planning and rezoning of the real property acquired, the opening, closing, relocation, and improvement of public ways, and the construction, relocation, and improvement of levees, sewers,

parking facilities, and utility services, the redevelopment commission shall proceed in the same manner as private owners of the property. It may negotiate with the proper officers and agencies of the unit to secure the proper orders, approvals, and consents.

(d) Any construction work required in connection with improvements in the area described in the resolution may be carried out by:

(1) the appropriate municipal or county department or agency; or

(2) the department of redevelopment, if:

(A) all plans, specifications, and drawings are approved by the appropriate department or agency; and

(B) the statutory procedures for the letting of contracts by the appropriate department or agency are followed by the department of redevelopment.

(e) The redevelopment commission may pay any charges or assessments made on account of orders, approval, consents, and construction work under this section, or may agree to pay these assessments in installments as provided by statute in the case of private owners. The commission may:

(1) by special waiver filed with the municipal works board or county executive, waive the statutory procedure and notices required by law in order to create valid liens on private property; and

(2) cause any assessments to be spread on a different basis than that provided by statute.

(f) None of the real property acquired under this chapter may be set aside and dedicated for public ways, parking facilities, sewers, levees, parks, or other public purposes until the redevelopment commission has obtained the consent and approval of the department or agency under whose jurisdiction the property will be placed.

As added by Acts 1981, P.L.309, SEC.33. Amended by Acts 1981, P.L.310, SEC.89; Acts 1982, P.L.33, SEC.30; P.L.221-2007, SEC.36.

IC 36-7-14-22

Public sale or lease of real property; procedure

Sec. 22. (a) This section does not apply to the sale or grant of real property or interests in real property to urban enterprise associations or community development corporations under section 22.2 of this chapter. The provisions of this section concerning publication and bidding procedures do not apply to sales, leases, or other dispositions of real property to other public agencies for public purposes.

(b) Before offering for sale or lease to the public any of the real property acquired, the redevelopment commission shall cause two (2) separate appraisals of the sale value, or rental value in case of a lease, to be made by independent appraisers. However, if the real property is less than five (5) acres in size and the fair market value of the real property or interest has been appraised by one (1) independent appraiser at less than ten thousand dollars (\$10,000), the second appraisal may be made by a qualified employee of the

department of redevelopment. In making appraisals, the appraisers shall take into consideration the size, location, and physical condition of the parcels, the advantages accruing to the parcels under the redevelopment plan, and all other factors having a bearing on the value of the parcels. The appraisals are solely for the information of the commission, and are not open for public inspection.

(c) The redevelopment commission shall then prepare an offering sheet showing the parcels to be offered and the offering prices, which may not be less than the average of the two (2) appraisals. Copies of the offering sheets shall be furnished to prospective buyers on request. Maps and plats showing the size and location of all parcels to be offered shall also be kept available for inspection at the office of the department.

(d) A notice shall be published in accordance with IC 5-3-1. The notice must state that at a designated time the commission will open and consider written offers for the purchase or lease of the real property being offered. In giving the notice it is not necessary to describe each parcel separately, or to specify the exact terms of disposition, but the notice:

- (1) must state the general location of the parcels;
- (2) call attention generally to any limitations on the use to be made of the real property offered; and
- (3) state that a bid submitted by a trust (as defined in IC 30-4-1-1(a)) must identify each:
 - (A) beneficiary of the trust; and
 - (B) settlor empowered to revoke or modify the trust.

(e) At the time fixed in the notice the commission shall open and consider any offers received. These offers may consist of consideration in the form of cash, other property, or a combination of cash and other property. However, with respect to property other than cash, the offer must be accompanied by evidence of the property's fair market value that is satisfactory to the commission in its sole discretion. All offers received shall be opened at public meetings of the commission and shall be kept open for public inspection.

(f) The commission may reject any bids and may make awards to the highest and best bidders. In determining the best bids, the commission shall take into consideration the following factors:

- (1) The size and character of the improvements proposed to be made by the bidder on the real property bid on.
- (2) The bidder's plans and ability to improve the real property with reasonable promptness.
- (3) Whether the real property when improved will be sold or rented.
- (4) The bidder's proposed sale or rental prices.
- (5) The bidder's compliance with subsection (d)(3).
- (6) Any factors that will assure the commission that the sale or lease, if made, will further the execution of the redevelopment plan and best serve the interest of the community, from the standpoint of both human and economic welfare.

(g) The commission may contract with a bidder in regard to the factors listed in subsection (f), and the contract may provide for the deposit of surety bonds, the making of good faith deposits, liquidated damages, the right of repurchase, or other rights and remedies if the bidder fails to comply with the contract.

(h) After the opening and consideration of the written offers filed in response to the notice, the commission may dispose of the remainder of the available real property either at public sale or by private negotiation carried on by the commission, its regular employees, or real estate experts employed for that purpose. For a period of thirty (30) days after the opening of the written offers, no sale or lease may be made at a price or rental less than that shown on the offering sheet, except in the case of sales or rentals of ten (10) or more parcels to a purchaser or lessee who agrees to improve the parcels immediately, but after that period the commission may adjust the offering prices in the manner the commission considers necessary to further the redevelopment plan.

(i) A conveyance under this section may not be made until the agreed consideration has been paid, unless the redevelopment commission passes a resolution expressly providing that the consideration does not have to be paid before the conveyance is made. In addition, such a resolution may provide for a mortgage or other security. All deeds, leases, land sale contracts, or other conveyances, and all contracts and agreements, including contracts of purchase and sale and contracts for advancements, loans, grants, contributions, or other aid, shall be executed in the name of the "City (or Town or County) of _____, Department of Redevelopment", and shall be signed by the president or vice president of the redevelopment commission and attested by its secretary. A seal is not required on these instruments or any other instruments executed in the name of the department.

Sale or grant of real property to urban enterprise association or community development corporation; procedure

Sec. 22.2. (a) The commission may sell or grant, at no cost, title to real property to an urban enterprise association for the purpose of developing the real property if the following requirements are met:

(1) The urban enterprise association has incorporated as a nonprofit corporation under IC 5-28-15-14(b)(3).

(2) The parcel of property to be sold or granted is located entirely within the enterprise zone for which the urban enterprise association was created under IC 5-28-15-13.

(3) The urban enterprise association agrees to cause development on the parcel of property within a specified period that may not exceed five (5) years from the date of the sale or grant.

(4) The urban enterprise association agrees to rehabilitate or otherwise develop the property in a manner that is similar to and consistent with the use of the other properties in the enterprise zone.

(b) The commission may sell or grant, at no cost, title to real property to a community development corporation (as defined in IC 4-4-28-2) for the purpose of providing low or moderate income housing or other development that will benefit or serve low or moderate income families if the following requirements are met:

(1) The community development corporation has as a major corporate purpose and function the provision of housing for low and moderate income families within the geographic area in which the parcel of real property is located.

(2) The community development corporation agrees to cause development that will serve or benefit low or moderate income families on the parcel of real property within a specified period, which may not exceed five (5) years from the date of the sale or grant.

(3) The community development corporation agrees that the community development corporation and each applicant, recipient, contractor, or subcontractor undertaking work in connection with the real property will:

(A) use lower income project area residents as trainees and as employees; and

(B) contract for work with business concerns located in the project area or owned in substantial part by persons residing in the project area;

to the greatest extent feasible, as determined under the standards specified in 24 CFR 135.

(4) The community development corporation agrees to rehabilitate or otherwise develop the property in a manner that is similar to and consistent with the use of the other properties in the area served by the community development corporation.

(c) To carry out the purposes of this section, the commission may secure from the county under IC 6-1.1-25-9(e) parcels of property acquired by the county under IC 6-1.1-24 and IC 6-1.1-25.

(d) Before offering any parcel of property for sale or grant, the fair market value of the parcel of property must be determined by an appraiser, who may be an employee of the department. However, if the commission has obtained the parcel in the manner described in subsection (c), an appraisal is not required. An appraisal under this subsection is solely for the information of the commission and is not available for public inspection.

(e) The commission must decide at a public meeting whether the commission will sell or grant the parcel of real property. In making this decision, the commission shall give substantial weight to the

extent to which and the terms under which the urban enterprise association or community development corporation will cause development on the property.

(f) Before conducting a meeting under subsection (g), the commission shall publish a notice in accordance with IC 5-3-1 indicating that at a designated time the commission will consider selling or granting the parcel of real property under this section. The notice must state the general location of the property, including the street address, if any, or a common description of the property other than the legal description.

(g) If the county agrees to transfer a parcel of real property to the commission to be sold or granted under this section, the commission may conduct a meeting to sell or grant the parcel to an urban enterprise zone or to a community development corporation even though the parcel has not yet been transferred to the commission. After the hearing, the commission may adopt a resolution directing the department to take appropriate steps necessary to acquire the parcel from the county and to transfer the parcel to the urban enterprise association or to the community development corporation.

(h) A conveyance of property under this section shall be made in accordance with section 22(i) of this chapter.

(i) An urban enterprise association that purchases or receives real property under this section shall report the terms of the conveyance to the board of the Indiana economic development corporation not later than thirty (30) days after the date the conveyance of the property is made.

"Abutting landowner"; "offering price"; sale to abutting landowner; appraisal

Sec. 22.6. (a) As used in this section, "abutting landowner" means an owner of property that:

- (1) touches, borders on, or is contiguous to the property that is the subject of sale; and
- (2) does not constitute a:
 - (A) public easement; or
 - (B) public right-of-way.

(b) As used in this section, "offering price" means the appraised value of real property plus all costs associated with the sale, including:

- (1) appraisal fees;
- (2) title insurance;
- (3) recording fees; and
- (4) advertising costs.

(c) If the assessed value of a tract of real property to be sold is less than fifteen thousand dollars (\$15,000), based on the most recent assessment of the tract or of the tract of which it was a part before it was acquired, the commission may proceed under this section.

(d) The commission may determine that:

- (1) the highest and best use of the tract is sale to an abutting landowner;
- (2) the cost to the public of maintaining the tract equals or exceeds the estimated fair market value of the tract; or
- (3) it is economically unjustifiable to sell the tract under section 22 of this chapter.

(e) Not more than ten (10) days after the commission makes a determination under subsection (d), the commission shall publish a notice in accordance with IC 5-3-1 identifying the tracts intended for sale by legal description and, if possible, by key number and street address. The notice must also include the offering price and a statement that:

- (1) the property may not be sold to a person who is ineligible under IC 36-1-11-16; and
- (2) an offer to purchase the property submitted by a trust (as defined in IC 30-4-1-1(a)) must identify each:
 - (A) beneficiary of the trust; and

At the time of publication of notice under this subsection, the commission shall send notice by certified mail to all abutting landowners. This notice shall contain the same information as the published notice.

(f) The commission shall also have each tract appraised. The appraiser must be a person who is professionally engaged in making appraisals, a person licensed under IC 25-34.1, or an employee of the political subdivision who is familiar with the value of the tract. However, if the assessed value of a tract is less than six thousand dollars (\$6,000), based on the most recent assessment of the tract or of the tract of which it was a part before it was acquired, the commission is not required to have the tract appraised.

(g) If, not more than ten (10) days after the date of publication of the notice under subsection (e), the commission receives one (1) or more eligible offers to purchase a tract listed in the notice at or in excess of the offering price, the commission shall conduct the negotiation and sale of the tract under section 22(f), 22(g), and 22(i) of this chapter.

(h) Notwithstanding subsection (g), if not more than ten (10) days after the date of publication of the notice under subsection (e) the commission does not receive from any person other than an abutting landowner an eligible offer to purchase the tract at or in excess of the offering price, the commission shall conduct the negotiation and sale

of the tract as follows:

(1) If only one (1) eligible abutting landowner makes an eligible offer to purchase the tract, then subject to IC 36-1-11-16 and without further appraisal or notice, the commission shall offer to negotiate for the sale of the tract with that abutting landowner.

(2) If more than one (1) eligible abutting landowner submits an eligible offer to purchase the tract, the tract shall be sold to the eligible abutting landowner who submits the highest eligible offer for the tract and who complies with any requirement under subsection (e)(2).

(3) If no eligible abutting landowner submits an eligible offer to purchase the tract, the commission may sell the tract to any person who submits the highest eligible offer for the tract, except a person who is ineligible to purchase the tract under IC 36-1-11-16.

- (1) persons who are professionally engaged in making appraisals;
- (2) persons who are licensed under IC 25-34.1; or
- (3) employees of the political subdivision familiar with the value of the property.

The appraisers shall make a joint appraisal of the property.

(c) The commission may:

- (1) negotiate a sale or transfer; and
- (2) dispose of the property;

(d) Disposal of real property under this chapter is subject to the approval of the commission. The commission may not approve a disposal of property without conducting a public hearing after giving notice under IC 5-3-1.

(e) In addition to any other reason for disapproving a disposal of property under this section, the commission may disapprove a sale of a tract of residential property to any bidder who does not by affidavit declare that the bidder will reside on that property for at least one (1) year after the bidder obtains possession of the property.

Payment of expenses incurred before tax levy; procedure

Sec. 24. (a) All expenses incurred by the department of redevelopment that must be paid before the collection of taxes levied under this chapter shall be paid in the manner prescribed by this section. The commission shall certify the items of expense to the fiscal officer of the unit requesting payment of the amounts certified. Subject to appropriation by the fiscal body of the unit, the fiscal officer shall then draw a warrant in the requested amount to be paid out of the general fund of the unit. If the unit has no unappropriated monies in its general fund, the fiscal officer of the unit may recommend to the fiscal body the temporary transfer from other funds of the unit of a sufficient amount to meet the items of expense, or the making of a temporary loan for that purpose. The fiscal body may make the transfer or authorize the temporary loan in the same manner that other transfers and temporary loans are made by the unit.

(b) The amount advanced by the unit under this section may not exceed fifty thousand dollars (\$50,000), and the fund or funds of the unit from which the advancement is made shall be fully reimbursed and repaid by the redevelopment commission out of legally available revenues.

(c) The redevelopment commission may not use any part of the amount advanced by the unit under this section in the acquisition of real property.

IC 36-7-14-25.1

Issuance of bonds; procedure; tax exemption; limitations; indebtedness of taxing district; approval for large issuance

Sec. 25.1. (a) In addition to other methods of raising money for property acquisition or redevelopment in a redevelopment project area, and in anticipation of the special tax to be levied under section 27 of this chapter, the taxes allocated under section 39 of this chapter, or other revenues of the district, or any combination of these sources, the redevelopment commission may, by resolution and subject to subsection (p), issue the bonds of the special taxing district

in the name of the unit. The amount of the bonds may not exceed the total, as estimated by the commission, of all expenses reasonably incurred in connection with the acquisition and redevelopment of the property, including:

- (1) the total cost of all land, rights-of-way, and other property to be acquired and redeveloped;
- (2) all reasonable and necessary architectural, engineering, legal, financing, accounting, advertising, bond discount, and supervisory expenses related to the acquisition and redevelopment of the property or the issuance of bonds;
- (3) capitalized interest permitted by this chapter and a debt service reserve for the bonds to the extent the redevelopment commission determines that a reserve is reasonably required; and
- (4) expenses that the redevelopment commission is required or permitted to pay under IC 8-23-17.

(b) If the redevelopment commission plans to acquire different parcels of land or let different contracts for redevelopment work at approximately the same time, whether under one (1) or more resolutions, the commission may provide for the total cost in one (1) issue of bonds.

(c) The bonds must be dated as set forth in the bond resolution and negotiable, subject to the requirements of the bond resolution for registering the bonds. The resolution authorizing the bonds must state:

- (1) the denominations of the bonds;
- (2) the place or places at which the bonds are payable; and
- (3) the term of the bonds, which may not exceed:
 - (A) fifty (50) years, for bonds issued before July 1, 2008;
 - (B) thirty (30) years, for bonds issued after June 30, 2008, to finance:
 - (i) an integrated coal gasification powerplant (as defined in IC 6-3.1-29-6);
 - (ii) a part of an integrated coal gasification powerplant (as defined in IC 6-3.1-29-6); or
 - (iii) property used in the operation or maintenance of an integrated coal gasification powerplant (as defined in IC 6-3.1-29-6);that received a certificate of public convenience and necessity from the Indiana utility regulatory commission under IC 8-1-8.5 et seq. before July 1, 2008; or
 - (C) twenty-five (25) years, for bonds issued after June 30, 2008, that are not described in clause (B).

The resolution may also state that the bonds are redeemable before maturity with or without a premium, as determined by the redevelopment commission.

(d) The redevelopment commission shall certify a copy of the resolution authorizing the bonds to the municipal or county fiscal officer, who shall then prepare the bonds, subject to subsection (p). The seal of the unit must be impressed on the bonds, or a facsimile

of the seal must be printed on the bonds.

(e) The bonds must be executed by the appropriate officer of the unit and attested by the municipal or county fiscal officer.

(f) The bonds are exempt from taxation for all purposes.

(g) The municipal or county fiscal officer shall give notice of the sale of the bonds by publication in accordance with IC 5-3-1. The municipal fiscal officer, or county fiscal officer or executive, shall sell the bonds to the highest bidder, but may not sell them for less than ninety-seven percent (97%) of their par value. However, bonds payable solely or in part from tax proceeds allocated under section 39(b)(3) of this chapter, or other revenues of the district may be sold at a private negotiated sale.

(h) Except as provided in subsection (i), a redevelopment commission may not issue the bonds when the total issue, including bonds already issued and to be issued, exceeds two percent (2%) of the adjusted value of the taxable property in the special taxing district, as determined under IC 36-1-15.

(i) The bonds are not a corporate obligation of the unit but are an indebtedness of the taxing district. The bonds and interest are payable, as set forth in the bond resolution of the redevelopment commission:

- (1) from a special tax levied upon all of the property in the taxing district, as provided by section 27 of this chapter;
- (2) from the tax proceeds allocated under section 39(b)(3) of this chapter;
- (3) from other revenues available to the redevelopment commission; or
- (4) from a combination of the methods stated in subdivisions (1) through (3).

If the bonds are payable solely from the tax proceeds allocated under section 39(b)(3) of this chapter, other revenues of the redevelopment commission, or any combination of these sources, they may be issued in any amount without limitation.

(j) Proceeds from the sale of bonds may be used to pay the cost of interest on the bonds for a period not to exceed five (5) years from the date of issuance.

(k) All laws relating to the giving of notice of the issuance of bonds, the giving of notice of a hearing on the appropriation of the proceeds of the bonds, the right of taxpayers to appear and be heard on the proposed appropriation, and the approval of the appropriation by the department of local government finance apply to all bonds issued under this chapter that are payable from the special benefits tax levied pursuant to section 27 of this chapter or from taxes allocated under section 39 of this chapter.

(l) All laws relating to:

- (1) the filing of petitions requesting the issuance of bonds; and
- (2) the right of:
 - (A) taxpayers and voters to remonstrate against the issuance of bonds in the case of a proposed bond issue described by IC 6-1.1-20-3.1(a); or

(B) voters to vote on the issuance of bonds in the case of a proposed bond issue described by IC 6-1.1-20-3.5(a); apply to bonds issued under this chapter except for bonds payable solely from tax proceeds allocated under section 39(b)(3) of this chapter, other revenues of the redevelopment commission, or any combination of these sources.

(m) If a debt service reserve is created from the proceeds of bonds, the debt service reserve may be used to pay principal and interest on the bonds as provided in the bond resolution.

(n) Any amount remaining in the debt service reserve after all of the bonds of the issue for which the debt service reserve was established have matured shall be:

- (1) deposited in the allocation fund established under section 39(b)(3) of this chapter; and
- (2) to the extent permitted by law, transferred to the county or municipality that established the department of redevelopment for use in reducing the county's or municipality's property tax levies for debt service.

(o) If bonds are issued under this chapter that are payable solely or in part from revenues to the redevelopment commission from a project or projects, the redevelopment commission may adopt a resolution or trust indenture or enter into covenants as is customary in the issuance of revenue bonds. The resolution or trust indenture may pledge or assign the revenues from the project or projects, but may not convey or mortgage any project or parts of a project. The resolution or trust indenture may also contain any provisions for protecting and enforcing the rights and remedies of the bond owners as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the redevelopment commission. The redevelopment commission may establish fees and charges for the use of any project and covenant with the owners of any bonds to set those fees and charges at a rate sufficient to protect the interest of the owners of the bonds. Any revenue bonds issued by the redevelopment commission that are payable solely from revenues of the commission shall contain a statement to that effect in the form of bond.

(p) If the total principal amount of bonds authorized by a resolution of the redevelopment commission adopted before July 1, 2008, is equal to or greater than three million dollars (\$3,000,000), the bonds may not be issued without the approval, by resolution, of the legislative body of the unit. Bonds authorized in any principal amount by a resolution of the redevelopment commission adopted after June 30, 2008, may not be issued without the approval of the legislative body of the unit.

IC 36-7-14-25.2

Leased facilities; procedure

Sec. 25.2. (a) A redevelopment commission may enter into a lease of any property that could be financed with the proceeds of bonds issued under this chapter with a lessor for a term not to exceed:

- (1) fifty (50) years, for a lease entered into before July 1, 2008;
- or
- (2) twenty-five (25) years, for a lease entered into after June 30, 2008.

The lease may provide for payments to be made by the redevelopment commission from special benefits taxes levied under section 27 of this chapter, taxes allocated under section 39 of this chapter, any other revenues available to the redevelopment commission, or any combination of these sources.

(b) A lease may provide that payments by the redevelopment commission to the lessor are required only to the extent and only for the period that the lessor is able to provide the leased facilities in accordance with the lease. The terms of each lease must be based upon the value of the facilities leased and may not create a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(c) A lease may be entered into by the redevelopment commission only after a public hearing by the redevelopment commission at which all interested parties are provided the opportunity to be heard. After the public hearing, the redevelopment commission may adopt a resolution authorizing the execution of the lease on behalf of the unit if it finds that the service to be provided throughout the term of the lease will serve the public purpose of the unit and is in the best interests of its residents. Any lease approved by a resolution of the redevelopment commission must be approved by an ordinance of the fiscal body of the unit.

(d) Upon execution of a lease providing for payments by the redevelopment commission in whole or in part from the levy of special benefits taxes under section 27 of this chapter and upon approval of the lease by the unit's fiscal body, the redevelopment commission shall publish notice of the execution of the lease and its approval in accordance with IC 5-3-1. Fifty (50) or more taxpayers residing in the redevelopment district who will be affected by the lease and who may be of the opinion that no necessity exists for the execution of the lease or that the payments provided for in the lease are not fair and reasonable may file a petition in the office of the county auditor within thirty (30) days after the publication of the notice of execution and approval. The petition must set forth the petitioners' names, addresses, and objections to the lease and the facts showing that the execution of the lease is unnecessary or unwise or that the payments provided for in the lease are not fair and reasonable, as the case may be.

(e) Upon the filing of the petition, the county auditor shall immediately certify a copy of it, together with such other data as may be necessary in order to present the questions involved, to the

department of local government finance. Upon receipt of the certified petition and information, the department of local government finance shall fix a time and place for a hearing in the redevelopment district, which must be not less than five (5) or more than thirty (30) days after the time is fixed. Notice of the hearing shall be given by the department of local government finance to the members of the fiscal body, to the redevelopment commission, and to the first fifty (50) petitioners on the petition by a letter signed by the commissioner or deputy commissioner of the department and enclosed with fully prepaid postage sent to those persons at their usual place of residence, at least five (5) days before the date of the hearing. The decision of the department of local government finance on the appeal, upon the necessity for the execution of the lease, and as to whether the payments under it are fair and reasonable, is final.

(f) A redevelopment commission entering into a lease payable from allocated taxes under section 39 of this chapter or other available funds of the redevelopment commission may:

- (1) pledge the revenue to make payments under the lease pursuant to IC 5-1-14-4; and
- (2) establish a special fund to make the payments.

(g) Lease rentals may be limited to money in the special fund so that the obligations of the redevelopment commission to make the lease rental payments are not considered debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(h) Except as provided in this section, no approvals of any governmental body or agency are required before the redevelopment commission enters into a lease under this section.

(i) An action to contest the validity of the lease or to enjoin the performance of any of its terms and conditions must be brought within thirty (30) days after the publication of the notice of the execution and approval of the lease. However, if the lease is payable in whole or in part from tax levies and an appeal has been taken to the department of local government finance, an action to contest the validity or enjoin the performance must be brought within thirty (30) days after the decision of the department.

(j) If a redevelopment commission exercises an option to buy a leased facility from a lessor, the redevelopment commission may subsequently sell the leased facility, without regard to any other statute, to the lessor at the end of the lease term at a price set forth in the lease or at fair market value established at the time of the sale by the redevelopment commission through auction, appraisal, or arms length negotiation. If the facility is sold at auction, after appraisal, or through negotiation, the redevelopment commission shall conduct a hearing after public notice in accordance with IC 5-3-1 before the sale. Any action to contest the sale must be brought within fifteen (15) days of the hearing.

Lessors of redevelopment facilities; effect of other statutory provisions

Sec. 25.3. (a) Any of the following persons may lease facilities referred to in section 25.2 of this chapter to a redevelopment commission under this chapter:

(1) A not-for-profit corporation organized under Indiana law or admitted to do business in Indiana.

(2) A redevelopment authority established under IC 36-7-14.5.

(b) Notwithstanding any other law, a lessor under this section and section 25.2 of this chapter is a qualified entity for purposes of IC 5-1.4.

(c) Notwithstanding any other law, a redevelopment facility leased by the redevelopment commission under this chapter from a lessor borrowing bond proceeds from a unit under IC 36-7-12 is an economic development facility for purposes of IC 36-7-11.9-3 and IC 36-7-12.

(d) Notwithstanding IC 36-7-12-25 and IC 36-7-12-26, payments by a redevelopment commission to a lessor described in subsection (c) may be made from sources set forth in section 25.2 of this chapter so long as the payments and the lease are structured to prevent the lease obligation from constituting a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

IC 36-7-14-25.5

Payment of redevelopment bonds or leases; pledge or covenant of legislative body

Sec. 25.5. (a) Notwithstanding any other law, the legislative body may pledge revenues received or to be received by the unit from:

(1) the unit's:

(A) certified shares of the county adjusted gross income tax under IC 6-3.5-1.1;

(B) distributive share of the county option income tax under IC 6-3.5-6; or

(C) distributions of county economic development income tax revenue under IC 6-3.5-7;

(2) any other source legally available to the unit for the purposes of this chapter; or

(3) any combination of revenues under subdivisions (1) through (2);

in any amount to pay amounts payable under section 25.1 or 25.2 of this chapter.

(b) The legislative body may covenant to adopt an ordinance to increase its tax rate under the county option income tax or any other revenues at the time it is necessary to raise funds to pay any amounts payable under section 25.1 or 25.2 of this chapter.

(c) The commission may pledge revenues received or to be received from any source legally available to the commission for the purposes of this chapter in any amount to pay amounts payable under section 25.1 or 25.2 of this chapter.

(d) The pledge or the covenant under this section may be for the life of the bonds issued under section 25.1 of this chapter, the term of a lease entered into under section 25.2 of this chapter, or for a shorter period as determined by the legislative body. Money pledged by the legislative body under this section shall be considered revenues or other money available to the commission under sections 25.1 through 25.2 of this chapter.

(e) The general assembly covenants not to impair this pledge or covenant so long as any bonds issued under section 25.1 of this chapter are outstanding or as long as any lease entered into under section 25.2 of this chapter is still in effect. The pledge or covenant shall be enforced as provided in IC 5-1-14-4.

IC 36-7-14-26

Capital fund; deposits; gifts; allocation fund

Sec. 26. (a) All proceeds from the sale of bonds under section 25.1 of this chapter shall be kept as a separate and specific fund to pay the expenses incurred in connection with the acquisition and redevelopment of property. The fund shall be known as the redevelopment district capital fund. Any surplus of funds remaining after all expenses are paid shall be paid into and become a part of the redevelopment district bond fund established under section 27 of this chapter.

(b) All gifts or donations that are given or paid to the department of redevelopment or to the unit for redevelopment purposes shall be promptly deposited to the credit of the redevelopment district capital fund. The redevelopment commission may use these gifts and donations for the purposes of this chapter.

(c) Before the eleventh day of each calendar month the fiscal officer shall notify the redevelopment commission and the officers of the unit who have duties in respect to the funds and accounts of the unit of the amount standing to the credit of the redevelopment district capital fund at the close of business on the last day of the preceding month.

(d) A redevelopment commission shall deposit in the allocation fund established under section 39(b)(3) of this chapter of an allocation area the proceeds from the sale or leasing of property in the area under section 22 of this chapter if:

(1) there are outstanding bonds that were issued to pay costs of redevelopment in the allocation area; and

(2) the bonds are payable solely or in part from tax proceeds allocated under section 39(b)(3) of this chapter.

As added by Acts 1981, P.L.309, SEC.33. Amended by P.L.72-1983, SEC.3; P.L.38-1988, SEC.10; P.L.203-2011, SEC.7.

IC 36-7-14-27

Certain bonds or leases; special tax levy; disposition of accumulated revenues; review of sufficiency of levies

Sec. 27. (a) This section applies only to:

(1) bonds that are issued under section 25.1 of this chapter; and

(2) leases entered into under section 25.2 of this chapter;

which are payable from a special tax levied upon all of the property in the special taxing district. This section does not apply to bonds or leases that are payable solely from tax proceeds allocated under section 39(b)(3) of this chapter, other revenues of the redevelopment commission, or any combination of these sources.

(b) The redevelopment commission shall levy each year a special tax on all of the property of the redevelopment taxing district, in such a manner as to meet and pay the principal of the bonds as they mature, together with all accruing interest on the bonds or lease rental payments under section 25.2 of this chapter. The commission shall cause the tax levied to be certified to the proper officers as other tax levies are certified, and to the auditor of the county in which the redevelopment district is located, before the second day of October in each year. The tax shall be estimated and entered on the tax duplicate by the county auditor and shall be collected and enforced by the county treasurer in the same manner as other state and county taxes are estimated, entered, collected, and enforced. The amount of the tax levied to pay bonds or lease rentals payable from the tax levied under this section shall be reduced by any amount available in the allocation fund established under section 39(b)(3) of this chapter or other revenues of the redevelopment commission to the extent such revenues have been set aside in the redevelopment bond fund.

(c) As the tax is collected, it shall be accumulated in a separate fund to be known as the redevelopment district bond fund and shall be applied to the payment of the bonds as they mature and the interest on the bonds as it accrues, or to make lease payments and to no other purpose. All accumulations of the fund before their use for the payment of bonds and interest or to make lease payments shall be deposited with the depository or depositories for other public funds of the unit in accordance with IC 5-13, unless they are invested under IC 5-13-9.

(d) If there are no outstanding bonds that are payable solely or in part from tax proceeds allocated under section 39(b)(3) of this chapter and that were issued to pay costs of redevelopment in an allocation area that is located wholly or in part in the special taxing district, then all proceeds from the sale or leasing of property in the allocation area under section 22 of this chapter shall be paid into the redevelopment district bond fund and become a part of that fund. In arriving at the tax levy for any year, the redevelopment commission shall take into account the amount of the proceeds deposited under this subsection and remaining on hand.

(e) The tax levies provided for in this section are reviewable by other bodies vested by law with the authority to ascertain that the levies are sufficient to raise the amount that, with other amounts available, is sufficient to meet the payments under the lease payable from the levy of taxes.

IC 36-7-14-27.5

Tax anticipation warrants; authorization; procedure

Sec. 27.5. (a) The redevelopment commission may borrow money in anticipation of receipt of the proceeds of taxes levied for the redevelopment district bond fund and not yet collected, and may evidence this borrowing by issuing warrants of the redevelopment district. However, the aggregate principal amount of warrants issued in anticipation of and payable from the same tax levy or levies may not exceed an amount equal to eighty percent (80%) of that tax levy or levies, as certified by the department of local government finance, or as determined by multiplying the rate of tax as finally approved by the total assessed valuation (after deducting all mortgage deductions) within the redevelopment district, as most recently certified by the county auditor.

(b) The warrants may be authorized and issued at any time after the tax or taxes in anticipation of which they are issued have been levied by the redevelopment commission. For purposes of this section, taxes for any year are considered to be levied upon adoption by the commission of a resolution prescribing the tax levies for the year. However, the warrants may not be delivered and paid for before final approval of the tax levy or levies by the county board of tax adjustment or, if appealed, by the department of local government finance, unless the issuance of the warrants has been approved by the department.

(c) All action that this section requires or authorizes the redevelopment commission to take may be taken by resolution, which need not be published or posted. The resolution takes effect immediately upon its adoption by the redevelopment commission. An action to contest the validity of tax anticipation warrants may not be brought later than ten (10) days after the sale date.

(d) In their resolution authorizing the warrants, the redevelopment commission must provide that the warrants mature at a time or times not later than December 31 after the year in which the taxes in anticipation of which the warrants are issued are due and payable.

(e) In their resolution authorizing the warrants, the redevelopment commission may provide:

- (1) the date of the warrants;
- (2) the interest rate of the warrants;
- (3) the time of interest payments on the warrants;
- (4) the denomination of the warrants;
- (5) the form either registered or payable to bearer, of the warrants;
- (6) the place or places of payment of the warrants, either inside or outside the state;
- (7) the medium of payment of the warrants;

(8) the terms of redemption, if any, of the warrants, at a price not exceeding par value and accrued interest;

(9) the manner of execution of the warrants; and

(10) that all costs incurred in connection with the issuance of the warrants may be paid from the proceeds of the warrants.

(f) The warrants shall be sold for not less than par value, after notice inviting bids has been published under IC 5-3-1. The redevelopment commission may also publish the notice in other newspapers or financial journals.

(g) Warrants and the interest on them are not subject to any limitation contained in section 25.1 of this chapter, and are payable solely from the proceeds of the tax levy or levies in anticipation of which the warrants were issued. The authorizing resolution must pledge a sufficient amount of the proceeds of the tax levy or levies to the payment of the warrants and the interest.

Sec. 28. (a) A tax at a rate not to exceed three and thirty-three hundredths cents (\$0.0333) per one hundred dollars (\$100) of assessed valuation in a municipality and a tax at a rate not to exceed one and thirty-three hundredths cents (\$0.0133) per one hundred dollars (\$100) of assessed valuation in a county may be levied each year for the purposes of this chapter, including:

(1) the payment, in whole or in part, of planning and survey costs;

(2) the costs of property acquisition and redevelopment; and

(3) the payment of all general expenses of the department of redevelopment.

However, a county may not levy this tax within the jurisdiction of a city redevelopment commission.

(b) Each year the redevelopment commission shall formulate and file a budget for the tax levy, in the same manner as executive departments of the unit are required to formulate and file budgets. This budget is subject to review and modification in the same manner as the budgets and tax levies formulated by executive departments of the unit.

(c) Revenues obtained from the tax levy for the payment in whole or in part of the costs of acquisition of land, rights-of-way, or other properties shall be deposited in the redevelopment district capital fund established under section 26 of this chapter. Other revenues obtained from the tax levy shall be deposited in a fund to be known as the redevelopment district general fund.

IC 36-7-14-30**Urban renewal projects; authorization**

the redevelopment commission may apply for and accept advances, short term and long term loans, grants, contributions, and any other form of financial assistance from the federal government, or from any of its agencies. The commission may also enter into and carry out contracts and agreements in connection with that financial assistance upon the terms and conditions that the commission considers reasonable and appropriate, as long as those terms and conditions are not inconsistent with the purposes of this chapter. The provisions of such a contract or agreement in regard to the handling, deposit, and application of project funds, as well as all other provisions, are valid and binding on the unit or its executive departments and officers, as well as the commission, notwithstanding any other provision of this chapter.

(b) Subject to the approval of the fiscal body of the unit that

established the department of redevelopment, the redevelopment commission may issue and sell bonds, notes, or warrants to the federal government to evidence short term or long term loans made under this section, without notice of sale being given or a public offering being made.

(c) Notwithstanding the provisions of this or any other chapter, bonds, notes, or warrants issued by the redevelopment commission under this section may:

- (1) be in the amounts, form, or denomination;
- (2) be either coupon or registered;
- (3) carry conversion or other privileges;
- (4) have a rank or priority;
- (5) be of such description;
- (6) be secured (subject to other provisions of this section) in such manner;
- (7) bear interest at a rate or rates;
- (8) be payable as to both principal and interest in a medium of payment, at a time or times (which may be upon demand) and at a place or places;
- (9) be subject to terms of redemption (with or without premium);
- (10) contain or be subject to any covenants, conditions, and provisions; and
- (11) have any other characteristics;

that the commission considers reasonable and appropriate.

(d) Bonds, notes, or warrants issued under this section are not an indebtedness of the unit or taxing district within the meaning of any constitutional or statutory limitation of indebtedness. The bonds, notes, or warrants are not payable from or secured by a levy of taxes, but are payable only from and secured only by income, funds, and properties of the project becoming available to the redevelopment commission under this chapter, as the commission specifies in the resolution authorizing their issuance.

(e) Bonds, notes, or warrants issued under this section are exempt from taxation for all purposes.

(f) Bonds, notes, or warrants issued under this section must be executed by the appropriate officers of the unit in the name of the "City (or Town or County) of _____, Department of Redevelopment", and must be attested by the appropriate officers of the unit.

(g) Following the adoption of the resolution authorizing the issuance of bonds, notes, or warrants under this section, the redevelopment commission shall certify a copy of that resolution to the officers of the unit who have duties with respect to bonds, notes, or warrants of the unit. At the proper time, the commission shall deliver to the officers the unexecuted bonds, notes, or warrants prepared for execution in accordance with the resolution.

(h) All bonds, notes, or warrants issued under this section shall be sold by the officers of the unit who have duties with respect to the sale of bonds, notes, or warrants of the unit. If an officer whose

signature appears on any bonds, notes, or warrants issued under this section leaves office before their delivery, the signature remains valid and sufficient for all purposes as if the officer had remained in office until the delivery.

(i) If at any time during the life of a loan contract or agreement under this section the redevelopment commission can obtain loans for the purposes of this section from sources other than the federal government at interest rates not less favorable than provided in the loan contract or agreement, and if the loan contract or agreement so permits, the commission may do so and may pledge the loan contract and any rights under that contract as security for the repayment of the loans obtained from other sources. Any loan under this subsection may be evidenced by bonds, notes, or warrants issued and secured in the same manner as provided in this section for loans from the federal government. These bonds, notes, or warrants may be sold at either public or private sale, as the commission considers appropriate.

(j) Money obtained from the federal government or from other sources under this section, and money that is required by a contract or agreement under this section to be used for project expenditure purposes, repayment of survey and planning advances, or repayment of temporary or definitive loans, may be expended by the redevelopment commission without regard to any law pertaining to the making and approval of budgets, appropriations, and expenditures.

(k) Bonds, notes, or warrants issued under this section are declared to be issued for an essential public and governmental purpose.

Neighborhood development programs; authorization; procedure; federal aid

Sec. 36. (a) In addition to all of the other powers, authority, and jurisdiction of a redevelopment commission operating under this chapter, a commission may undertake a neighborhood development program. A neighborhood development program may include one (1) or more contiguous or noncontiguous areas needing redevelopment. These areas may include redevelopment project areas or urban renewal project areas.

(b) Whenever the redevelopment commission finds that any area in the territory under their jurisdiction is an area needing redevelopment to an extent that cannot be corrected by regulatory processes or by the ordinary operations of private enterprise without resort to the provisions of this chapter, and that the public health and

welfare would be benefited by the redevelopment or urban renewal of that area under this chapter, the commission shall prepare a description and map showing the boundaries of the area to be included in the neighborhood development program.

(c) After preparation of the description and map under subsection (b), the redevelopment commission shall adopt a resolution declaring, confirming, and delineating the general boundaries of the area and of the parts of that area that are to be designated as redevelopment project areas or urban renewal areas. However, an area may not be designated as a redevelopment project area or urban renewal area unless the required appraisals, maps, plats and plans have been prepared and all other requirements of this chapter are met.

(d) Areas designated as redevelopment project areas or urban renewal areas under this section are considered to be redevelopment project areas or urban renewal areas for all purposes of this chapter. Areas within the neighborhood development program area that are not so designated are not considered to be redevelopment project areas or urban renewal areas until designated as such by an amendment to the neighborhood development plan, adopted in the same manner and with the same procedure as a declaratory and confirmatory resolution declaring an area a redevelopment project area or urban renewal area.

(e) The redevelopment commission may make studies, appraisals, maps, plats, and plans of areas within the neighborhood development program area that have not been designated as redevelopment project areas or urban renewal project areas. However, the commission may not acquire any land in those areas until the neighborhood development plan has been amended to designate that land as a part of an urban renewal or redevelopment project area.

(f) The redevelopment commission may amend the neighborhood development plan, in the manner prescribed by subsection (d), to include additional areas in the neighborhood development program areas, either generally or as urban renewal or redevelopment project areas.

(g) The redevelopment commission may apply for and accept advances, loans, grants, contributions, and any other forms of financial assistance from the federal government, may contract with the federal government for any costs arising from a neighborhood development program, or may otherwise contract with the federal government concerning a neighborhood development program, to the same extent as they may for urban renewal project areas.

IC 36-7-14-39

Distribution and allocation of taxes; allocation area; base assessed value determinations

Sec. 39. (a) As used in this section:

"Allocation area" means that part of a redevelopment project area to which an allocation provision of a declaratory resolution adopted under section 15 of this chapter refers for purposes of distribution and allocation of property taxes.

"Base assessed value" means the following:

(1) If an allocation provision is adopted after June 30, 1995, in a declaratory resolution or an amendment to a declaratory resolution establishing an economic development area:

(A) the net assessed value of all the property as finally determined for the assessment date immediately preceding the effective date of the allocation provision of the declaratory resolution, as adjusted under subsection (h); plus
(B) to the extent that it is not included in clause (A), the net assessed value of property that is assessed as residential property under the rules of the department of local government finance, as finally determined for any assessment date after the effective date of the allocation provision.

(2) If an allocation provision is adopted after June 30, 1997, in a declaratory resolution or an amendment to a declaratory resolution establishing a redevelopment project area:

(A) the net assessed value of all the property as finally determined for the assessment date immediately preceding the effective date of the allocation provision of the declaratory resolution, as adjusted under subsection (h); plus
(B) to the extent that it is not included in clause (A), the net assessed value of property that is assessed as residential property under the rules of the department of local government finance, as finally determined for any assessment date after the effective date of the allocation provision.

(3) If:

(A) an allocation provision adopted before June 30, 1995, in a declaratory resolution or an amendment to a declaratory resolution establishing a redevelopment project area expires

after June 30, 1997; and

(B) after June 30, 1997, a new allocation provision is included in an amendment to the declaratory resolution; the net assessed value of all the property as finally determined for the assessment date immediately preceding the effective date of the allocation provision adopted after June 30, 1997, as adjusted under subsection (h).

(4) Except as provided in subdivision (5), for all other allocation areas, the net assessed value of all the property as finally determined for the assessment date immediately preceding the effective date of the allocation provision of the declaratory resolution, as adjusted under subsection (h).

(5) If an allocation area established in an economic development area before July 1, 1995, is expanded after June 30, 1995, the definition in subdivision (1) applies to the expanded part of the area added after June 30, 1995.

(6) If an allocation area established in a redevelopment project area before July 1, 1997, is expanded after June 30, 1997, the definition in subdivision (2) applies to the expanded part of the area added after June 30, 1997.

Except as provided in section 39.3 of this chapter, "property taxes" means taxes imposed under IC 6-1.1 on real property. However, upon approval by a resolution of the redevelopment commission adopted before June 1, 1987, "property taxes" also includes taxes imposed under IC 6-1.1 on depreciable personal property. If a redevelopment commission adopted before June 1, 1987, a resolution to include within the definition of property taxes taxes imposed under IC 6-1.1 on depreciable personal property that has a useful life in excess of eight (8) years, the commission may by resolution determine the percentage of taxes imposed under IC 6-1.1 on all depreciable personal property that will be included within the definition of property taxes. However, the percentage included must not exceed twenty-five percent (25%) of the taxes imposed under IC 6-1.1 on all depreciable personal property.

(b) A declaratory resolution adopted under section 15 of this chapter on or before the allocation deadline determined under subsection (i) may include a provision with respect to the allocation and distribution of property taxes for the purposes and in the manner provided in this section. A declaratory resolution previously adopted may include an allocation provision by the amendment of that declaratory resolution on or before the allocation deadline determined under subsection (i) in accordance with the procedures required for its original adoption. A declaratory resolution or an amendment that establishes an allocation provision after June 30, 1995, must specify an expiration date for the allocation provision. For an allocation area established before July 1, 2008, the expiration date may not be more than thirty (30) years after the date on which the allocation provision is established. For an allocation area established after June 30, 2008, the expiration date may not be more than twenty-five (25) years after the date on which the first

obligation was incurred to pay principal and interest on bonds or lease rentals on leases payable from tax increment revenues. However, with respect to bonds or other obligations that were issued before July 1, 2008, if any of the bonds or other obligations that were scheduled when issued to mature before the specified expiration date and that are payable only from allocated tax proceeds with respect to the allocation area remain outstanding as of the expiration date, the allocation provision does not expire until all of the bonds or other obligations are no longer outstanding. The allocation provision may apply to all or part of the redevelopment project area. The allocation provision must require that any property taxes subsequently levied by or for the benefit of any public body entitled to a distribution of property taxes on taxable property in the allocation area be allocated and distributed as follows:

(1) Except as otherwise provided in this section, the proceeds of the taxes attributable to the lesser of:

(A) the assessed value of the property for the assessment date with respect to which the allocation and distribution is made; or

(B) the base assessed value;

shall be allocated to and, when collected, paid into the funds of the respective taxing units.

(2) The excess of the proceeds of the property taxes imposed for the assessment date with respect to which the allocation and distribution is made that are attributable to taxes imposed after being approved by the voters in a referendum or local public question conducted after April 30, 2010, not otherwise included in subdivision (1) shall be allocated to and, when collected, paid into the funds of the taxing unit for which the referendum or local public question was conducted.

(3) Except as otherwise provided in this section, property tax proceeds in excess of those described in subdivisions (1) and (2) shall be allocated to the redevelopment district and, when collected, paid into an allocation fund for that allocation area that may be used by the redevelopment district only to do one

(1) or more of the following:

(A) Pay the principal of and interest on any obligations payable solely from allocated tax proceeds which are incurred by the redevelopment district for the purpose of financing or refinancing the redevelopment of that allocation area.

(B) Establish, augment, or restore the debt service reserve for bonds payable solely or in part from allocated tax proceeds in that allocation area.

(C) Pay the principal of and interest on bonds payable from allocated tax proceeds in that allocation area and from the special tax levied under section 27 of this chapter.

(D) Pay the principal of and interest on bonds issued by the unit to pay for local public improvements that are physically located in or physically connected to that allocation area.

(E) Pay premiums on the redemption before maturity of bonds payable solely or in part from allocated tax proceeds in that allocation area.

(F) Make payments on leases payable from allocated tax proceeds in that allocation area under section 25.2 of this chapter.

(G) Reimburse the unit for expenditures made by it for local public improvements (which include buildings, parking facilities, and other items described in section 25.1(a) of this chapter) that are physically located in or physically connected to that allocation area.

(H) Reimburse the unit for rentals paid by it for a building or parking facility that is physically located in or physically connected to that allocation area under any lease entered into under IC 36-1-10.

(I) For property taxes first due and payable before January 1, 2009, pay all or a part of a property tax replacement credit to taxpayers in an allocation area as determined by the redevelopment commission. This credit equals the amount determined under the following STEPS for each taxpayer in a taxing district (as defined in IC 6-1.1-1-20) that contains all or part of the allocation area:

STEP ONE: Determine that part of the sum of the amounts under IC 6-1.1-21-2(g)(1)(A), IC 6-1.1-21-2(g)(2), IC 6-1.1-21-2(g)(3), IC 6-1.1-21-2(g)(4), and IC 6-1.1-21-2(g)(5) (before their repeal) that is attributable to the taxing district.

STEP TWO: Divide:

- (i) that part of each county's eligible property tax replacement amount (as defined in IC 6-1.1-21-2 (before its repeal)) for that year as determined under IC 6-1.1-21-4 (before its repeal) that is attributable to the taxing district; by
- (ii) the STEP ONE sum.

STEP THREE: Multiply:

- (i) the STEP TWO quotient; times
- (ii) the total amount of the taxpayer's taxes (as defined in IC 6-1.1-21-2 (before its repeal)) levied in the taxing district that have been allocated during that year to an allocation fund under this section.

If not all the taxpayers in an allocation area receive the credit in full, each taxpayer in the allocation area is entitled to receive the same proportion of the credit. A taxpayer may not receive a credit under this section and a credit under section 39.5 of this chapter (before its repeal) in the same year.

(J) Pay expenses incurred by the redevelopment commission for local public improvements that are in the allocation area or serving the allocation area. Public improvements include buildings, parking facilities, and other items described in

section 25.1(a) of this chapter.

(K) Reimburse public and private entities for expenses incurred in training employees of industrial facilities that are located:

- (i) in the allocation area; and
- (ii) on a parcel of real property that has been classified as industrial property under the rules of the department of local government finance.

However, the total amount of money spent for this purpose in any year may not exceed the total amount of money in the allocation fund that is attributable to property taxes paid by the industrial facilities described in this clause. The reimbursements under this clause must be made within three (3) years after the date on which the investments that are the basis for the increment financing are made.

(L) Pay the costs of carrying out an eligible efficiency project (as defined in IC 36-9-41-1.5) within the unit that established the redevelopment commission. However, property tax proceeds may be used under this clause to pay the costs of carrying out an eligible efficiency project only if those property tax proceeds exceed the amount necessary to do the following:

- (i) Make, when due, any payments required under clauses (A) through (K), including any payments of principal and interest on bonds and other obligations payable under this subdivision, any payments of premiums under this subdivision on the redemption before maturity of bonds, and any payments on leases payable under this subdivision.
- (ii) Make any reimbursements required under this subdivision.
- (iii) Pay any expenses required under this subdivision.
- (iv) Establish, augment, or restore any debt service reserve under this subdivision.

The allocation fund may not be used for operating expenses of the commission.

(4) Except as provided in subsection (g), before July 15 of each year, the commission shall do the following:

(A) Determine the amount, if any, by which the assessed value of the taxable property in the allocation area for the most recent assessment date minus the base assessed value, when multiplied by the estimated tax rate of the allocation area, will exceed the amount of assessed value needed to produce the property taxes necessary to make, when due, principal and interest payments on bonds described in subdivision (3), plus the amount necessary for other purposes described in subdivision (3).

(B) Provide a written notice to the county auditor, the fiscal body of the county or municipality that established the department of redevelopment, and the officers who are

authorized to fix budgets, tax rates, and tax levies under IC 6-1.1-17-5 for each of the other taxing units that is wholly or partly located within the allocation area. The notice must:

- (i) state the amount, if any, of excess assessed value that the commission has determined may be allocated to the respective taxing units in the manner prescribed in subdivision (1); or
- (ii) state that the commission has determined that there is no excess assessed value that may be allocated to the respective taxing units in the manner prescribed in subdivision (1).

The county auditor shall allocate to the respective taxing units the amount, if any, of excess assessed value determined by the commission. The commission may not authorize an allocation of assessed value to the respective taxing units under this subdivision if to do so would endanger the interests of the holders of bonds described in subdivision (3) or lessors under section 25.3 of this chapter.

(c) For the purpose of allocating taxes levied by or for any taxing unit or units, the assessed value of taxable property in a territory in the allocation area that is annexed by any taxing unit after the effective date of the allocation provision of the declaratory resolution is the lesser of:

- (1) the assessed value of the property for the assessment date with respect to which the allocation and distribution is made; or
- (2) the base assessed value.

(d) Property tax proceeds allocable to the redevelopment district under subsection (b)(3) may, subject to subsection (b)(4), be irrevocably pledged by the redevelopment district for payment as set forth in subsection (b)(3).

(e) Notwithstanding any other law, each assessor shall, upon petition of the redevelopment commission, reassess the taxable property situated upon or in, or added to, the allocation area, effective on the next assessment date after the petition.

(f) Notwithstanding any other law, the assessed value of all taxable property in the allocation area, for purposes of tax limitation, property tax replacement, and formulation of the budget, tax rate, and tax levy for each political subdivision in which the property is located is the lesser of:

- (1) the assessed value of the property as valued without regard to this section; or
- (2) the base assessed value.

(g) If any part of the allocation area is located in an enterprise zone created under IC 5-28-15, the unit that designated the allocation area shall create funds as specified in this subsection. A unit that has obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish an allocation fund for the purposes specified in subsection (b)(3) and a special zone fund. Such a unit shall, until the end of the enterprise zone phase out period, deposit each year in the special zone fund any amount in the

allocation fund derived from property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) from property located in the enterprise zone that exceeds the amount sufficient for the purposes specified in subsection (b)(3) for the year. The amount sufficient for purposes specified in subsection (b)(3) for the year shall be determined based on the pro rata portion of such current property tax proceeds from the part of the enterprise zone that is within the allocation area as compared to all such current property tax proceeds derived from the allocation area. A unit that has no obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish a special zone fund and deposit all the property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) in the fund derived from property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) from property located in the enterprise zone. The unit that creates the special zone fund shall use the fund (based on the recommendations of the urban enterprise association) for programs in job training, job enrichment, and basic skill development that are designed to benefit residents and employers in the enterprise zone or other purposes specified in subsection (b)(3), except that where reference is made in subsection (b)(3) to allocation area it shall refer for purposes of payments from the special zone fund only to that part of the allocation area that is also located in the enterprise zone. Those programs shall reserve at least one-half (1/2) of their enrollment in any session for residents of the enterprise zone.

(h) The state board of accounts and department of local government finance shall make the rules and prescribe the forms and procedures that they consider expedient for the implementation of this chapter. After each general reassessment of real property in an area under IC 6-1.1-4-4 and after each reassessment in an area under a reassessment plan prepared under IC 6-1.1-4-4.2, the department of local government finance shall adjust the base assessed value one (1) time to neutralize any effect of the reassessment of the real property in the area on the property tax proceeds allocated to the redevelopment district under this section. After each annual adjustment under IC 6-1.1-4-4.5, the department of local government finance shall adjust the base assessed value one (1) time to neutralize any effect of the annual adjustment on the property tax proceeds allocated to the redevelopment district under this section. However, the adjustments under this subsection:

- (1) may not include the effect of phasing in assessed value due to property tax abatements under IC 6-1.1-12.1;
- (2) may not produce less property tax proceeds allocable to the redevelopment district under subsection (b)(3) than would otherwise have been received if the general reassessment, the reassessment under the reassessment plan, or the annual adjustment had not occurred; and
- (3) may decrease base assessed value only to the extent that assessed values in the allocation area have been decreased due to annual adjustments or the reassessment under the

reassessment plan.

Assessed value increases attributable to the application of an abatement schedule under IC 6-1.1-12.1 may not be included in the base assessed value of an allocation area. The department of local government finance may prescribe procedures for county and township officials to follow to assist the department in making the adjustments.

(i) The allocation deadline referred to in subsection (b) is determined in the following manner:

(1) The initial allocation deadline is December 31, 2011.

(2) Subject to subdivision (3), the initial allocation deadline and subsequent allocation deadlines are automatically extended in increments of five (5) years, so that allocation deadlines subsequent to the initial allocation deadline fall on December 31, 2016, and December 31 of each fifth year thereafter.

(3) At least one (1) year before the date of an allocation deadline determined under subdivision (2), the general assembly may enact a law that:

(A) terminates the automatic extension of allocation deadlines under subdivision (2); and

(B) specifically designates a particular date as the final allocation deadline.

Repealed

(Repealed by P.L.146-2008, SEC.812.)

IC 36-7-14-39.2

Designated taxpayer; modification of definition of property taxes; allocation provision of declaratory resolution

Sec. 39.2. (a) This section applies to a county having a population of more than two hundred fifty thousand (250,000) but less than two hundred seventy thousand (270,000).

(b) As used in this section, "designated taxpayer" means any taxpayer designated by the commission in a declaratory resolution adopted or amended under section 15 or 17.5 of this chapter and with respect to which the commission finds that taxes to be derived from the taxpayer's depreciable personal property in the allocation area, in excess of the taxes attributable to the base assessed value of that

personal property, are reasonably expected to exceed in one (1) or more future years the taxes to be derived from the taxpayer's real property in the allocation area in excess of the taxes attributable to the base assessed value of that real property.

(c) The allocation provision of a declaratory resolution may modify the definition of "property taxes" under section 39(a) of this chapter to include taxes imposed under IC 6-1.1 on the depreciable personal property of designated taxpayers, in accordance with the procedures and limitations set forth in this section and section 39 of this chapter. If such a modification is included in the resolution for purposes of section 39 of this chapter, the term "base assessed value" with respect to the depreciable personal property of designated taxpayers means the net assessed value of all the depreciable personal property as finally determined for the assessment date immediately preceding:

(1) the effective date of the modification, for modifications adopted before July 1, 1995; and

(2) the adoption date of the modification for modifications adopted after June 30, 1995;

as adjusted under section 39(h) of this chapter.

As added by P.L.170-1990, SEC.3. Amended by P.L.12-1992, SEC.170; P.L.25-1995, SEC.85; P.L.119-2012, SEC.207.

IC 36-7-14-39.3

Definitions; legalization of certain declaratory resolutions and actions of redevelopment commissions; effect of certain amendments to section

Sec. 39.3. (a) As used in this section, "depreciable personal property" refers to:

(1) all of the designated taxpayer's depreciable personal property that is located in the allocation area; and

(2) all other depreciable property located and taxable on the designated taxpayer's site of operations within the allocation area.

(b) As used in this section, "designated taxpayer" means any taxpayer designated by the commission in a declaratory resolution adopted or amended under section 15 or 17.5 of this chapter, and with respect to which the commission finds that taxes to be derived from the depreciable personal property in the allocation area, in excess of the taxes attributable to the base assessed value of that personal property, are needed to pay debt service or to provide security for bonds issued under section 25.1 of this chapter or to make payments or to provide security on leases payable under section 25.2 of this chapter in order to provide local public improvements for a particular allocation area. However, a commission may not designate a taxpayer after June 30, 1992, unless the commission also finds that:

(1) the taxpayer's property in the allocation area will consist primarily of industrial, manufacturing, warehousing, research and development, processing, distribution, or transportation

related projects or regulated amusement devices (as defined in IC 22-12-1-19.1) and related improvements; and

(2) the taxpayer's property in the allocation area will not consist primarily of retail, commercial, or residential projects, other than an amusement park or tourism industry project.

(c) The allocation provision of a declaratory resolution may modify the definition of "property taxes" under section 39(a) of this chapter to include taxes imposed under IC 6-1.1 on the depreciable personal property located and taxable on the site of operations of the designated taxpayers in accordance with the procedures and limitations set forth in this section and section 39 of this chapter. If such a modification is included in the resolution, for purposes of section 39 of this chapter the term "base assessed value" with respect to the depreciable personal property means the net assessed value of all the depreciable personal property as finally determined for the assessment date immediately preceding:

(1) the effective date of the modification, for modifications adopted before July 1, 1995; and

(2) the adoption date of the modification for modifications adopted after June 30, 1995;

as adjusted under section 39(h) of this chapter.

(d) A declaratory resolution of a city redevelopment commission that is adopted before March 20, 1990, is legalized and validated as if it had been adopted under this section.

Economic development area; determination; enlargement

Sec. 41. (a) The commission may, by following the procedures set forth in sections 15 through 17 of this chapter, approve a plan for and determine that a geographic area in the redevelopment district is an economic development area. Designation of an economic development area is subject to judicial review in the manner prescribed in section 18 of this chapter.

(b) The commission may determine that a geographic area is an economic development area if it finds that:

- (1) the plan for the economic development area:
 - (A) promotes significant opportunities for the gainful employment of its citizens;
 - (B) attracts a major new business enterprise to the unit;
 - (C) retains or expands a significant business enterprise existing in the boundaries of the unit; or
 - (D) meets other purposes of this section and sections 2.5 and 43 of this chapter;
- (2) the plan for the economic development area cannot be achieved by regulatory processes or by the ordinary operation of private enterprise without resort to the powers allowed under this section and sections 2.5 and 43 of this chapter because of:
 - (A) lack of local public improvement;
 - (B) existence of improvements or conditions that lower the value of the land below that of nearby land;

- (C) multiple ownership of land; or
- (D) other similar conditions;
- (3) the public health and welfare will be benefited by accomplishment of the plan for the economic development area;
- (4) the accomplishment of the plan for the economic development area will be a public utility and benefit as measured by:
 - (A) the attraction or retention of permanent jobs;
 - (B) an increase in the property tax base;
 - (C) improved diversity of the economic base; or
 - (D) other similar public benefits; and
- (5) the plan for the economic development area conforms to other development and redevelopment plans for the unit.

(c) The determination that a geographic area is an economic development area must be approved by the unit's legislative body. The approval may be given either before or after judicial review is requested. The requirement that the unit's legislative body approve economic development areas does not prevent the commission from amending the plan for the economic development area. However, the enlargement of any boundary in the economic development area must be approved by the unit's legislative body.

IC 36-7-14-48**Allocation of property taxes; fund; use; credit calculation; limitation on distribution of fund**

Sec. 48. (a) Notwithstanding section 39(a) of this chapter, with respect to the allocation and distribution of property taxes for the accomplishment of a program adopted under section 45 of this chapter, "base assessed value" means the net assessed value of all of the property, other than personal property, as finally determined for the assessment date immediately preceding the effective date of the allocation provision, as adjusted under section 39(h) of this chapter.

(b) The allocation fund established under section 39(b) of this chapter for the allocation area for a program adopted under section 45 of this chapter may be used only for purposes related to the accomplishment of the program, including the following:

- (1) The construction, rehabilitation, or repair of residential units within the allocation area.
- (2) The construction, reconstruction, or repair of any infrastructure (including streets, sidewalks, and sewers) within or serving the allocation area.
- (3) The acquisition of real property and interests in real property within the allocation area.
- (4) The demolition of real property within the allocation area.
- (5) The provision of financial assistance to enable individuals and families to purchase or lease residential units within the allocation area. However, financial assistance may be provided only to those individuals and families whose income is at or below the county's median income for individuals and families, respectively.
- (6) The provision of financial assistance to neighborhood development corporations to permit them to provide financial assistance for the purposes described in subdivision (5).
- (7) For property taxes first due and payable before January 1, 2009, providing each taxpayer in the allocation area a credit for property tax replacement as determined under subsections (c) and (d). However, the commission may provide this credit only if the municipal legislative body (in the case of a redevelopment commission established by a municipality) or the county executive (in the case of a redevelopment commission established by a county) establishes the credit by ordinance adopted in the year before the year in which the credit is provided.

(c) The maximum credit that may be provided under subsection (b)(7) to a taxpayer in a taxing district that contains all or part of an allocation area established for a program adopted under section 45 of this chapter shall be determined as follows:

STEP ONE: Determine that part of the sum of the amounts described in IC 6-1.1-21-2(g)(1)(A) and IC 6-1.1-21-2(g)(2) through IC 6-1.1-21-2(g)(5) (before their repeal) that is attributable to the taxing district.

STEP TWO: Divide:

- (A) that part of each county's eligible property tax replacement amount (as defined in IC 6-1.1-21-2) (before its repeal) for that year as determined under IC 6-1.1-21-4(a)(1) (before its repeal) that is attributable to the taxing district; by
- (B) the amount determined under STEP ONE.

STEP THREE: Multiply:

- (A) the STEP TWO quotient; by
- (B) the taxpayer's taxes (as defined in IC 6-1.1-21-2) (before its repeal) levied in the taxing district allocated to the allocation fund, including the amount that would have been allocated but for the credit.

(d) The commission may determine to grant to taxpayers in an allocation area from its allocation fund a credit under this section, as calculated under subsection (c). Except as provided in subsection (g), one-half (1/2) of the credit shall be applied to each installment of taxes (as defined in IC 6-1.1-21-2) (before its repeal) that under IC 6-1.1-22-9 are due and payable in a year. The commission must provide for the credit annually by a resolution and must find in the resolution the following:

- (1) That the money to be collected and deposited in the allocation fund, based upon historical collection rates, after granting the credit will equal the amounts payable for contractual obligations from the fund, plus ten percent (10%) of those amounts.
- (2) If bonds payable from the fund are outstanding, that there is a debt service reserve for the bonds that at least equals the amount of the credit to be granted.
- (3) If bonds of a lessor under section 25.2 of this chapter or under IC 36-1-10 are outstanding and if lease rentals are payable from the fund, that there is a debt service reserve for those bonds that at least equals the amount of the credit to be granted.

If the tax increment is insufficient to grant the credit in full, the commission may grant the credit in part, prorated among all taxpayers.

(e) Notwithstanding section 39(b) of this chapter, the allocation fund established under section 39(b) of this chapter for the allocation area for a program adopted under section 45 of this chapter may only be used to do one (1) or more of the following:

- (1) Accomplish one (1) or more of the actions set forth in section 39(b)(3)(A) through 39(b)(3)(H) and 39(b)(3)(J) of this chapter for property that is residential in nature.
- (2) Reimburse the county or municipality for expenditures made by the county or municipality in order to accomplish the housing program in that allocation area.

The allocation fund may not be used for operating expenses of the commission.

(f) Notwithstanding section 39(b) of this chapter, the commission shall, relative to the allocation fund established under section 39(b) of this chapter for an allocation area for a program adopted under

section 45 of this chapter, do the following before July 15 of each year:

(1) Determine the amount, if any, by which the assessed value of the taxable property in the allocation area for the most recent assessment date minus the base assessed value, when multiplied by the estimated tax rate of the allocation area, will exceed the amount of assessed value needed to produce the property taxes necessary to:

- (A) make the distribution required under section 39(b)(2);
- (B) make, when due, principal and interest payments on bonds described in section 39(b)(3) of this chapter;
- (C) pay the amount necessary for other purposes described in section 39(b)(3) of this chapter; and
- (D) reimburse the county or municipality for anticipated expenditures described in subsection (e)(2).

(2) Provide a written notice to the county auditor, the fiscal body of the county or municipality that established the department of redevelopment, and the officers who are authorized to fix budgets, tax rates, and tax levies under IC 6-1.1-17-5 for each of the other taxing units that is wholly or partly located within the allocation area. The notice must:

- (A) state the amount, if any, of excess property taxes that the commission has determined may be paid to the respective taxing units in the manner prescribed in section 39(b)(1) of this chapter; or
- (B) state that the commission has determined that there is no excess assessed value that may be allocated to the respective taxing units in the manner prescribed in subdivision (1).

The county auditor shall allocate to the respective taxing units the amount, if any, of excess assessed value determined by the commission.

(g) This subsection applies to an allocation area only to the extent that the net assessed value of property that is assessed as residential property under the rules of the department of local government finance is not included in the base assessed value. If property tax installments with respect to a homestead (as defined in IC 6-1.1-12-37) are due in installments established by the department of local government finance under IC 6-1.1-22-9.5, each taxpayer subject to those installments in an allocation area is entitled to an additional credit under subsection (d) for the taxes (as defined in IC 6-1.1-21-2) (before its repeal) due in installments. The credit shall be applied in the same proportion to each installment of taxes (as defined in IC 6-1.1-21-2) (before its repeal).

(d) An authority may designate all or a portion of an economic development area created under this section as an allocation area by following the procedures set forth in IC 36-7-14-39 for the establishment of an allocation area by a redevelopment commission. The allocation provision may modify the definition of "property taxes" under IC 36-7-14-39(a) to include taxes imposed under IC 6-1.1 on the depreciable personal property located and taxable on the site of operations of designated taxpayers in accordance with the procedures applicable to a commission under IC 36-7-14-39.3. IC 36-7-14-39.3 applies to such a modification. An allocation area established by an authority under this section is a special taxing district authorized by the general assembly to enable the unit to provide special benefits to taxpayers in the allocation area by promoting economic development that is of public use and benefit. For allocation areas established for an economic development area created under this section after June 30, 1997, and to the expanded portion of an allocation area for an economic development area that was established before June 30, 1997, and that is expanded under this section after June 30, 1997, the net assessed value of property that is assessed as residential property under the rules of the department of local government finance, as finally determined for any assessment date, must be allocated. All of the provisions of IC 36-7-14-39 apply to an allocation area created under this section, except that the authority shall be vested with the rights and duties of a commission as referenced in those sections, and except that, notwithstanding IC 36-7-14-39(b)(3), property tax proceeds paid into the allocation fund may be used by the authority only to do one (1) or more of the following:

(1) Pay the principal of and interest and redemption premium on any obligations incurred by the special taxing district or any other entity for the purpose of financing or refinancing military base reuse activities in or serving or benefiting that allocation area.

(2) Establish, augment, or restore the debt service reserve for

obligations payable solely or in part from allocated tax proceeds in that allocation area or from other revenues of the authority (including lease rental revenues).

(4) Reimburse any other governmental body for expenditures made by it that benefits or provides for local public improvements or structures in or serving or benefiting that allocation area.

(A) in the allocation area; and

(B) on a parcel of real property that has been classified as industrial property under the rules of the department of local government finance.

However, the total amount of money spent for this purpose in any year may not exceed the total amount of money in the allocation fund that is attributable to property taxes paid by the industrial facilities described in clause (B). The reimbursements under this subdivision must be made within three (3) years after the date on which the investments that are the basis for the increment financing are made.

(e) In addition to other methods of raising money for property acquisition, redevelopment, or economic development activities in or directly serving or benefiting an economic development area created by an authority under this section, and in anticipation of the taxes allocated under subsection (d), other revenues of the authority, or any combination of these sources, the authority may, by resolution, issue the bonds of the special taxing district in the name of the unit. Bonds issued under this section may be issued in any amount without limitation. The following apply if such a resolution is adopted:

(1) The authority shall certify a copy of the resolution authorizing the bonds to the municipal or county fiscal officer, who shall then prepare the bonds. The seal of the unit must be impressed on the bonds, or a facsimile of the seal must be printed on the bonds.

(2) The bonds must be executed by the appropriate officer of the unit and attested by the unit's fiscal officer.

(3) The bonds are exempt from taxation for all purposes.

(4) Bonds issued under this section may be sold at public sale in accordance with IC 5-1-11 or at a negotiated sale.

(5) The bonds are not a corporate obligation of the unit but are an indebtedness of the taxing district. The bonds and interest are payable, as set forth in the bond resolution of the authority:

(A) from the tax proceeds allocated under subsection (d);

(B) from other revenues available to the authority; or

(C) from a combination of the methods stated in clauses (A) and (B).

(6) Proceeds from the sale of bonds may be used to pay the cost of interest on the bonds for a period not to exceed five (5) years from the date of issuance.

(7) Laws relating to the filing of petitions requesting the issuance of bonds and the right of taxpayers and voters to remonstrate against the issuance of bonds do not apply to bonds issued under this section.

(8) If a debt service reserve is created from the proceeds of bonds, the debt service reserve may be used to pay principal and interest on the bonds as provided in the bond resolution.

(9) If bonds are issued under this chapter that are payable solely or in part from revenues to the authority from a project or projects, the authority may adopt a resolution or trust indenture or enter into covenants as is customary in the issuance of revenue bonds. The resolution or trust indenture may pledge or assign the revenues from the project or projects. The resolution or trust indenture may also contain any provisions for protecting and enforcing the rights and remedies of the bond owners as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority. The authority may establish fees and charges for the use of any project and covenant with the owners of any bonds to set those fees and charges at a rate sufficient to protect the interest of the owners of the bonds. Any revenue bonds issued by the authority that are payable solely from revenues of the authority shall contain a statement to that effect in the form of bond.

(f) Notwithstanding section 8(a) of this chapter, an ordinance adopted under section 11 of this chapter may provide, or be amended to provide, that the board of directors of the authority shall be composed of not fewer than three (3) nor more than eleven (11) members, who must be residents of or be employed at a place of employment located within the unit. The members shall be appointed by the executive of the unit.

(g) The acquisition of real and personal property by an authority under this section is not subject to the provisions of IC 5-22, IC 36-1-10.5, IC 36-7-14-19, or any other statutes governing the purchase of property by public bodies or their agencies.

(h) An authority may negotiate for the sale, lease, or other disposition of real and personal property without complying with the provisions of IC 5-22-22, IC 36-1-11, IC 36-7-14-22, or any other statute governing the disposition of public property.

(i) Notwithstanding any other law, utility services provided within an economic development area established under this section are subject to regulation by the appropriate regulatory agencies unless the utility service is provided by a utility that provides utility service solely within the geographic boundaries of an existing or a closed military installation, in which case the utility service is not subject to regulation for purposes of rate making, regulation, service

delivery, or issuance of bonds or other forms of indebtedness. However, this exemption from regulation does not apply to utility service if the service is generated, treated, or produced outside the boundaries of the existing or closed military installation.

IC 36-7-15.1-2

Declaration of policy

Sec. 2. (a) The assessment, clearance, remediation, replanning, and redevelopment of areas needing redevelopment are public and governmental functions that cannot be accomplished through the ordinary operations of private enterprise, due to the necessity for the exercise of the power of eminent domain, the necessity for requiring the proper use of the land so as to best serve the interests of the county and its citizens, and the cost of these projects.

(b) The conditions that exist in areas needing redevelopment are beyond remedy and control by regulatory processes because of the obsolescence and deteriorated conditions of improvements, environmental contamination, faulty land use, shifting of population, and technological and social changes.

(c) The assessment, clearing, remediation, replanning, and redevelopment of areas needing redevelopment will benefit the health, safety, morals, and welfare and will serve to protect and increase property values in the county and the state.

(d) The assessment, clearance, remediation, replanning, and redevelopment of areas needing redevelopment under this chapter are public uses and purposes for which public money may be spent and private property may be acquired.

(e) This chapter shall be liberally construed to carry out the purposes of this section.

Assembly of data; adoption of resolution; amendment of resolution or plan

Sec. 8. (a) Whenever the commission finds that:

(1) an area in the redevelopment district is an area needing redevelopment;

(2) the conditions described in IC 36-7-1-3 cannot be corrected in the area by regulatory processes or by the ordinary operations of private enterprise without resort to this chapter; and

(3) the public health and welfare will be benefited by:

(A) the acquisition and redevelopment of the area under this chapter as a redevelopment project area or an urban renewal area; or

(B) the amendment of the resolution or plan, or both, for an

existing redevelopment project area or urban renewal area;
and

(4) in the case of an amendment to the resolution or plan for an existing redevelopment project area or urban renewal area:

(A) the amendment is reasonable and appropriate when considered in relation to the original resolution or plan and the purposes of this chapter; and

(B) the resolution or plan, with the proposed amendment, conforms to the comprehensive plan for the unit;

the commission shall cause to be prepared a redevelopment or urban renewal plan.

(b) The redevelopment or urban renewal plan must include:

(1) maps, plats, or maps and plats, showing:

(A) the boundaries of the area in which property would be acquired for, or otherwise affected by, the establishment of a redevelopment project area or urban renewal area, or the amendment of the resolution or plan for an existing area;

(B) the location of the various parcels of property, public ways, and other features affecting the acquisition, clearance, replatting, replanning, rezoning, or redevelopment of the area or areas, indicating any parcels of property to be excluded from the acquisition or otherwise excluded from the effects of the establishment of the redevelopment project area or the amendment of the resolution or plan for an existing area; and

(C) the parts of the area acquired that are to be devoted to public ways, levees, sewerage, parks, playgrounds, and other public purposes;

(2) lists of the owners of the various parcels of property proposed to be acquired for, or otherwise affected by, the establishment of an area or the amendment of the resolution or plan for an existing area; and

(3) an estimate of the costs, if any, to be incurred for the acquisition and redevelopment of property.

(c) This subsection applies to the initial establishment of a redevelopment project area or urban renewal area. After completion of the data required by subsection (b), the commission shall adopt a resolution declaring that:

(1) the area needing redevelopment is a detriment to the social or economic interests of the consolidated city and its inhabitants;

(2) it will be of public utility and benefit to acquire the area and redevelop it under this chapter; and

(3) the area is designated as a redevelopment project area for purposes of this chapter.

The resolution must state the general boundaries of the redevelopment project area and identify the interests in real or personal property, if any, that the department proposes to acquire in the area.

(d) This subsection applies to the amendment of the resolution or

plan for an existing redevelopment project area or urban renewal area. After completion of the data required by subsection (b), the redevelopment commission shall adopt a resolution declaring that:

- (1) it will be of public utility and benefit to amend the resolution or plan for the area; and
- (2) any additional area to be acquired under the amendment is designated as part of the existing redevelopment project area or urban renewal area for purposes of this chapter.

The resolution must state the general boundaries of the redevelopment project area or urban renewal area, including any changes made to those boundaries by the amendment, and describe the activities that the department is permitted to take under the amendment, with any designated exceptions.

(e) For the purpose of adopting a resolution under subsection (c) or (d), it is sufficient to describe the boundaries of the redevelopment project area by its location in relation to public ways or streams, or otherwise, as determined by the commission. Property proposed for acquisition may be described by street numbers or location.

Notice and hearing on resolution; filing remonstrance; final action taken by commission

Sec. 10. (a) After approval by the commission and the legislative body of the consolidated city under section 9 of this chapter, the commission shall publish notice of the adoption and substance of the resolution in accordance with IC 5-3-1. The notice must:

- (1) state that maps, plats, or maps and plats have been prepared

and can be inspected at the office of the department; and

(2) name a date when the commission will:

(A) receive and hear remonstrances and other testimony from persons interested in or affected by the proceeding pertaining to the proposed project or other actions to be taken under the resolution; and

All persons affected in any manner by the hearing, including all taxpayers of the redevelopment district, shall be considered notified of the pendency of the hearing and of subsequent acts, hearings, adjournments, and orders of the commission by the notice given under this section.

(b) A copy of the notice of the hearing on the resolution shall be filed in the office of the commission, board of zoning appeals, works board, park board, and any other departments, bodies, or officers of the consolidated city having to do with planning, variances from zoning ordinances, land use, or the issuance of building permits. These agencies and officers shall take notice of the pendency of the hearing, and until the commission confirms, modifies and confirms, or rescinds the resolution, or the confirmation of the resolution is set aside on appeal, they may not, without approval of the commission:

(1) authorize any construction on property or sewers in the area described in the resolution, including substantial modifications, rebuilding, conversion, enlargement, additions, and major structural improvements; or

(2) take any action regarding the zoning or rezoning of property, or the opening, closing, or improvement of public ways in the area described in the resolution.

This subsection does not prohibit the granting of permits for ordinary maintenance or minor remodeling, or for changes necessary for the continued occupancy of buildings in the area.

(c) If the resolution to be considered at the hearing includes a provision establishing or amending an allocation provision under section 26 of this chapter, the commission shall file the following information with each taxing unit that is wholly or partly located within the allocation area:

(1) A copy of the notice required by subsection (a).

(2) A statement disclosing the impact of the allocation area, including the following:

(A) The estimated economic benefits and costs incurred by the allocation area, as measured by increased employment and anticipated growth of real property assessed values.

(B) The anticipated impact on tax revenues of each taxing unit.

The commission shall file the information required by this subsection with the officers of the taxing unit who are authorized to fix budgets, tax rates, and tax levies under IC 6-1.1-17-5 at least ten (10) days before the date of the hearing.

(d) At the hearing, which may be adjourned from time to time, the

commission shall hear all persons interested in the proceedings and shall consider all written remonstrances and objections that have been filed. After considering the evidence presented, the commission shall take final action determining the public utility and benefit of the proposed project or other actions to be taken under the resolution, and confirming, modifying and confirming, or rescinding the resolution. The final action taken by the commission shall be recorded and is final and conclusive, except that an appeal may be taken under section 11 of this chapter.

Notice

Sec. 10.5. (a) In addition to the requirements of section 10 of this chapter, if the resolution or plan for an existing redevelopment project area or urban renewal area is proposed to be amended in a way that changes:

- (1) parts of the area that are to be devoted to a public way, levee, sewerage, park, playground, or other public purpose;
- (2) the proposed use of the land in the area; or
- (3) requirements for rehabilitation, building requirements, proposed zoning, maximum densities, or similar requirements;

the commission must, at least ten (10) days before the public hearing under section 10 of this chapter, send the notice required by section 10 of this chapter by first class mail to affected neighborhood associations.

(b) In addition to the requirements of section 10 of this chapter, if the resolution or plan for an existing redevelopment project area or urban renewal area is proposed to be amended in a way that:

- (1) enlarges the boundaries of the area; or
- (2) adds one (1) or more parcels to the list of parcels to be acquired;

the commission must, at least ten (10) days before the public hearing under section 10 of this chapter, send the notice required by section 10 of this chapter by first class mail to affected neighborhood associations and to persons owning property that is in the proposed enlargement of the area or that is proposed to be added to the acquisition list. If the enlargement of an area is proposed, notice must also be filed in accordance with section 10(b) of this chapter, and agencies and officers may not take actions prohibited by section 10(b) in the proposed enlarged area.

(c) The commission may require that neighborhood associations register with the commission. The commission may adopt a rule that requires that a neighborhood association encompass a part of the geographic area included in or proposed to be included in a redevelopment project area, urban renewal area, or economic development area to qualify as an affected neighborhood association.

Remonstrance; appeal

Sec. 11. (a) A person who filed a written remonstrance with the commission under section 10 of this chapter and is aggrieved by the final action taken may, within ten (10) days after that final action, file with the presiding judge of the superior court a copy of the order of the commission and the person's remonstrance against that order, together with the person's bond, as provided by IC 34-13-5-7, in the event the appeal is determined against the person. The burden of proof is on the remonstrator, and no change of venue may be granted.

(b) An appeal under this section shall be promptly heard by the court without a jury. Except in a county containing a consolidated city, all the judges of the court, or a majority of the judges if not all are available, shall hear the appeal. In a county containing a consolidated city, the appeal shall be heard by one (1) judge unless rules adopted by the court or by the Indiana supreme court require an appeal to be heard by additional judges. All remonstrances upon which an appeal has been taken shall be consolidated and heard and determined within thirty (30) days after the time of the filing of the appeal. The court shall decide the appeal based on the record and evidence before the commission, not by trial de novo. It may confirm the final action of the commission or sustain the remonstrances. If the appeal is decided in a county that does not contain a consolidated city, the vote of at least a majority of all the elected judges is required to confirm the final action of the commission or sustain the remonstrances. The judgment of the court is final and conclusive, unless an appeal is taken as in other civil actions. An appeal to the court of appeals or supreme court has priority over all other civil appeals.

IC 36-7-15.1-12

Acquisition of real property by commission

Sec. 12. (a) If no appeal is taken, or if an appeal is taken but is unsuccessful, the commission shall proceed with the proposed project, to the extent that money is available for that purpose.

(b) The commission shall first approve and adopt a list of the real property and interests in real property to be acquired, and the price to be offered to the owner of each parcel or interests. The prices to be offered may not exceed the average of two (2) independent appraisals of fair market value procured by the commission, except that appraisals are not required in transactions with other governmental agencies. However, if the real property is less than five (5) acres in size and the fair market value of the real property or interest has been appraised by one (1) independent appraiser at less than ten thousand dollars (\$10,000), the second appraisal may be made by a qualified employee of the department. The prices

indicated on the list may not be exceeded unless specifically authorized by the commission under section 7 of this chapter or ordered by a court in condemnation proceedings. The commission may except from acquisition any real property in the area if it finds that such an acquisition is not necessary under the redevelopment plan. Appraisals made under this section are for the information of the commission and are not open for public inspection.

(c) Negotiations for the purchase of property may be carried on directly by the commission, by its employees, or by expert negotiators employed for that purpose. The commission shall adopt a standard form of option for use in negotiations, but no option, contract, or understanding relative to the purchase of real property is binding on the commission until approved and accepted by the commission in writing. The commission may authorize the payment of a nominal fee to bind an option, and as a part of the consideration for conveyance may agree to pay the expense incident to the conveyance and determination of the title of the property. Payment for the property purchased shall be made when and as directed by the commission, but only on delivery of proper instruments conveying the title or interest of the owner to "City of _____ for the use and benefit of its Department of Metropolitan Development".

(d) Notwithstanding subsections (a) through (c), the commission may, before the time referred to in this section, accept gifts of property needed for the redevelopment of redevelopment project areas. The commission may, before the time referred to in this section, take options on or contract for the acquisition of property needed for the redevelopment of redevelopment project areas if the options and contracts are not binding on the commission or the redevelopment district until the time referred to in this section and until money is available to pay the consideration set out in the options or contracts.

(e) Section 15(a) through 15(h) of this chapter does not apply to exchanges of real property (or interests in real property) in connection with the acquisition of real property (or interests in real property) under this section. In acquiring real property (or interests in real property) under this section the commission may, as an alternative to offering payment of money as specified in subsection (b), offer for the real property (or interest in real property) that the commission desires to acquire:

- (1) exchange of real property or interests in real property owned by the redevelopment district;
- (2) exchange of real property or interests in real property owned by the redevelopment district, along with the payment of money by the commission; or
- (3) exchange of real property or interests in real property owned by the redevelopment district along with the payment of money by the owner of the real property or interests in real property that the commission desires to acquire.

The commission shall have the fair market value of the real property or interests in real property owned by the redevelopment district

appraised as specified in section 15(b) of this chapter. The appraisers may not also appraise the value of the real property or interests in real property to be acquired by the redevelopment district. The commission shall establish the nature of the offer to the owner based on the difference between the average of the two (2) appraisals of the fair market value of the real property or interests in real property to be acquired by the commission and the average of the appraisals of fair market value of the real property or interests in real property to be exchanged by the commission.

IC 36-7-15.1-13

Eminent domain; approval by city-county legislative body

Sec. 13. (a) Subject to the approval of the city-county legislative body, if the commission considers it necessary to acquire real property in a redevelopment project area by the exercise of the power of eminent domain, it shall adopt a resolution setting out its determination to exercise that power and directing its attorney to file a petition in the name of the city on behalf of the department in the circuit or superior court of the county.

(b) Eminent domain proceedings under this section are governed by IC 32-24.

As added by Acts 1982, P.L.77, SEC.8. Amended by P.L.2-2002, SEC.112; P.L.185-2005, SEC.33; P.L.146-2008, SEC.749.

IC 36-7-15.1-14

Clearing and planning by commission; repair and maintenance; environmental contamination; labor and contracts; utilities; payments; public dedication

Sec. 14. (a) The commission may proceed with the clearing and replanning of the area described in the resolution before the acquisition of all of that area. It may also proceed with any of the following:

- (1) The repair and maintenance of buildings that have been acquired and are not to be cleared.
- (2) Investigation of environmental contamination.
- (3) Remediation of environmental contamination.

The commission may carry out the activities under this subsection by labor employed directly by the commission or by contract. Contracts for clearance may provide that the contractor is entitled to retain and dispose of salvaged material, as a part of the contract price or on the basis of stated prices for the amounts of the various materials actually salvaged.

(b) All contracts for material or labor under this section shall be let under IC 36-1.

(c) In the replanning and rezoning of the real property acquired, the opening, closing, relocation, and improvement of public ways, and the construction, relocation, or improvement of levees, sewers,

and utility services, the commission shall proceed in the same manner as private owners of property. It may negotiate with the proper officers and agencies to secure the proper orders, approvals, and consents.

(d) The commission may pay any charges or assessments made on account of orders, approvals, consents, and construction work under this section, or may agree to pay these assessments in installments as provided by statute in the case of private owners. The commission may:

- (1) by special waiver filed with the works board, waive the statutory procedure and notices required by law in order to create valid liens on private property; and
- (2) cause any assessments to be spread on a different basis than that provided by statute.

(e) None of the real property acquired under this chapter may be set aside and dedicated for public ways, sewers, levees, parks, or other public purposes until the commission has obtained the consent and approval of the department or agency under whose jurisdiction the property will be placed.

As added by Acts 1982, P.L. 77, SEC.8. Amended by P.L.221-2007, SEC.43.

IC 36-7-15.1-15

Appraisal, publication, and bidding requirements

Sec. 15. (a) This section does not apply to the sale or grant of real property or interests in real property to:

- (1) nonprofit corporations, community development corporations, or neighborhood development corporations under section 15.1 of this chapter; or
- (2) an urban enterprise association under section 15.2 of this chapter.

The provisions of this section concerning appraisal, publication, and bidding requirements do not apply to sales, leases, or other dispositions of real or personal property or interests in property to other public agencies, including the federal government or any agency or department of the federal government, for public purposes.

(b) Before offering for sale, exchange, or lease (or a combination of methods) to the public any of the property or interests acquired, the commission shall cause two (2) separate appraisals of the fair market value to be made by independent appraisers. However, if the property is less than five (5) acres in size and the fair market value of the real property or interest has been appraised by one (1) independent appraiser at less than ten thousand dollars (\$10,000), the second appraisal may be made by a qualified employee of the department. In the case of an exchange, the same appraiser may not appraise both of the properties to be exchanged. In making appraisals, the appraisers shall take into consideration the size, location, and physical condition of the parcels, the advantages accruing to the parcels under the redevelopment plan, and all other factors having a bearing on the value of the parcels. The appraisals

are solely for the information of the commission and are not open for public inspection.

(c) The commission shall then prepare an offering sheet showing the parcels to be offered and the offering prices, which may not be less than the average of the two (2) appraisals. Copies of the offering sheets shall be furnished to prospective buyers on request. Maps, plats, or maps and plats showing the size and location of all parcels to be offered shall also be kept available for inspection at the office of the department.

(d) A notice shall be published in accordance with IC 5-3-1. The notice must state that at a designated time the commission will open and consider written offers for the purchase or lease of the property or interests being offered. In giving the notice it is not necessary to describe each parcel separately, or to specify the exact terms of disposition, but the notice:

- (1) must state the general location of the parcels;
- (2) call attention generally to any limitations in the redevelopment or urban renewal plan on the use to be made of the real property offered; and
- (3) state that a bid submitted by a trust (as defined in IC 30-4-1-1(a)) must identify each:
 - (A) beneficiary of the trust; and
 - (B) settlor empowered to revoke or modify the trust.

(e) At the time fixed in the notice the commission shall open and consider any offers received. The offers may consist of consideration in the form of cash, other property, or a combination of cash and property. However, with respect to property other than cash, the offer must be accompanied by evidence of the property's fair market value that is satisfactory to the commission in the commission's sole discretion. All offers received shall be opened at public meetings of the commission and shall be kept open for public inspection.

(f) The commission may reject any or all bids or may make awards to the highest and best bidders. In determining the best bids, the commission shall take into consideration the following factors:

- (1) The size and character of the improvements proposed to be made by the bidder on the real property bid on.
- (2) The bidder's plans and ability to improve the real property with reasonable promptness.
- (3) Whether the real property when improved will be sold or rented.
- (4) The bidder's proposed sale or rental prices.
- (5) The bidder's compliance with subsection (d)(3).
- (6) Any factors that will assure the commission that the sale or lease, if made, will further the execution of the redevelopment plan and best serve the interest of the community, from the standpoint of both human and economic welfare.

(g) The commission may contract with a bidder in regard to the factors listed in subsection (f), and the contract may provide for the deposit of surety bonds, the making of good faith deposits, liquidated damages, the right of reversion or repurchase, or other rights and

remedies if the bidder fails to comply with the contract.

(h) After the opening, consideration, and determination of the written offers filed in response to the notice, the commission may dispose of all or part of the remaining available property or interests for any approved use, either at public sale or by private negotiation carried on by the commission, its regular employees, or real estate experts employed for that purpose. For a period of thirty (30) days after the opening of the written offers and determination on them, no sale, exchange, or lease may be made at a price or rental less than that shown on the offering sheet, except in the case of sales or rentals of:

- (1) ten (10) or more parcels to a purchaser or lessee who agrees to improve the parcels immediately;
- (2) parcels of property to individuals or families whose income is at or below the county's median income for individual and family income, respectively, for the purpose of constructing single family or two (2) family housing; or
- (3) parcels of property to a contractor or developer for the purpose of constructing single family or two (2) family housing for individuals or families whose income is at or below the county's median income for individual and family income, respectively;

but after that period the commission may adjust the offering prices in the manner it considers necessary to further the redevelopment or urban renewal plan.

(i) A conveyance under this section may not be made until the agreed consideration has been paid, unless the commission adopts a resolution:

- (1) stating that consideration does not have to be paid before the conveyance is made; and
- (2) setting forth an arrangement for future payment of consideration or provision of an infrastructure credit against the consideration, or both.

If full consideration is not paid before the conveyance is made, the commission may use a land sale contract or mortgage to secure payment of the consideration or may accept as a credit against the agreed consideration a contractual obligation to perform public infrastructure work related to the property being conveyed. All deeds, land sale contracts, leases, or other conveyances, and all contracts and agreements, including contracts of purchase, sale, or exchange and contracts for advancements, loans, grants, contributions, or other aid, shall be executed in the name of the "City of _____, Department of Metropolitan Development", and shall be executed by the president or vice president of the commission or by the director of the department if authorized. A seal is not required on these instruments or any other instruments executed in the name of the department.

IC 36-7-15.1-15.1

Grant or sale at no cost of real property to qualifying corporation for low or moderate income housing; notice and hearing

Sec. 15.1. (a) As used in this section, "qualifying corporation" refers to a nonprofit corporation or neighborhood development corporation that meets the requirements of subsection (b)(1) and the criteria established by the county fiscal body under subsection (i).

(b) The commission may sell or grant at no cost title to real property to a nonprofit corporation or neighborhood development corporation for the purpose of providing low or moderate income housing or other development that will benefit or serve low or moderate income families if the following requirements are met:

(1) The nonprofit corporation or neighborhood development corporation has, as a major corporate purpose and function, the provision of housing for low and moderate income families within the geographic area in which the parcel of property is located.

(2) The qualifying corporation agrees to cause development that will serve or benefit low or moderate income families on the parcel of property within a specified period, which may not exceed five (5) years from the date of the sale or grant.

(3) The qualifying corporation, if the qualifying corporation is a neighborhood development corporation, agrees that the qualifying corporation and each applicant, recipient, contractor, or subcontractor undertaking work in connection with the real property will:

(A) use lower income project area residents as trainees and as employees; and

(B) contract for work with business concerns located in the project area or owned in substantial part by persons residing in the project area;

to the greatest extent feasible, as determined under the standards specified in 24 CFR 135.

(4) The county fiscal body has determined that the corporation meets the criteria established under subsection (i).

(5) The qualifying corporation agrees to rehabilitate or otherwise develop the property in a manner that is similar to and consistent with the use of the other properties in the area served by the qualifying corporation.

(c) To carry out the purposes of this section, the commission may secure from the county under IC 6-1.1-25-9(e) parcels of property acquired by the county under IC 6-1.1-24 and IC 6-1.1-25.

(d) Before offering any parcel of property for sale or grant, the fair market value of the parcel of property must be determined. The fair market value may be determined by an appraisal made by a qualified employee of the department. However, if the qualified employee of the department determines that:

(1) the property:

(A) is less than five (5) acres in size; and

(B) has a fair market value that is less than ten thousand

dollars (\$10,000); or

(2) if the commission has obtained the parcel in the manner described in subsection (c);

an appraisal is not required. An appraisal under this subsection is solely for the information of the commission and is not available for public inspection.

(e) The commission must decide whether the commission will sell or grant the parcel of real property at a public meeting. In making this decision, the commission shall give substantial weight to the extent to which and the terms under which the qualifying corporation will cause development to serve or benefit families of low or moderate income. If more than one (1) qualifying corporation is interested in acquiring a parcel of real property, the commission shall conduct a hearing at which a representative of each corporation may state the reasons why the commission should sell or grant the parcel to that corporation.

(f) Before conducting a hearing under subsection (e), the commission shall publish a notice in accordance with IC 5-3-1 indicating that at a designated time the commission will consider selling or granting the parcel of real property under this section. The notice must state the general location of the property, including the street address if any, or a common description of the property other than the legal description.

(g) If the county agrees to transfer a parcel of real property to the commission to be sold or granted under this section, the commission may conduct a hearing to sell or grant the parcel to a qualifying corporation even though the parcel has not yet been transferred to the commission. After the hearing, the commission may adopt a resolution directing the department to take appropriate steps necessary to acquire the parcel from the county and to transfer the parcel to the qualifying corporation.

(h) A conveyance of property to a qualifying corporation under this section shall be made in accordance with section 15(i) of this chapter.

(i) The county fiscal body shall establish criteria for determining the eligibility of nonprofit corporations and neighborhood development corporations for sales or grants of real property under this section. A nonprofit corporation or neighborhood development corporation may apply to the county fiscal body for a determination concerning the corporation's compliance with the criteria established under this subsection.

(1) The urban enterprise association has incorporated as a nonprofit corporation under IC 5-28-15-14(b)(3).

(2) The parcel of property to be sold or granted is located entirely within the enterprise zone for which the urban enterprise association was created under IC 5-28-15-13.

(3) The urban enterprise association agrees to cause development on the parcel of property within a specified period that may not exceed five (5) years from the date of the sale or grant.

(4) The urban enterprise association agrees to rehabilitate or otherwise develop the property in a manner that is similar to and consistent with the use of the other properties in the enterprise zone.

(b) To carry out the purposes of this section, the commission may secure from the county under IC 6-1.1-25-9(e) parcels of property acquired by the county under IC 6-1.1-24 and IC 6-1.1-25.

(c) Before offering any parcel of property for sale or grant, the fair market value of the parcel of property must be determined by an appraiser, who may be an employee of the department. However, if the commission has obtained the parcel in the manner described in subsection (b), an appraisal is not required. An appraisal under this subsection is solely for the information of the commission and is not available for public inspection.

(d) The commission must decide at a public meeting whether the commission will sell or grant the parcel of real property. In making this decision, the commission shall give substantial weight to the extent to which and the terms under which the urban enterprise association will cause development on the property.

(e) Before conducting a meeting under subsection (d), the commission shall publish a notice in accordance with IC 5-3-1 indicating that at a designated time the commission will consider selling or granting the parcel of real property under this section. The notice must state the general location of the property, including the street address, if any, or a common description of the property other than the legal description.

(f) If the county agrees to transfer a parcel of real property to the commission to be sold or granted under this section, the commission may conduct a meeting to sell or grant the parcel to an urban enterprise zone even though the parcel has not yet been transferred to the commission. After the hearing, the commission may adopt a resolution directing the department to take appropriate steps necessary to acquire the parcel from the county and to transfer the parcel to the urban enterprise association.

(g) A conveyance of property to an urban enterprise association under this section shall be made in accordance with section 15(i) of this chapter.

(h) An urban enterprise association that purchases or receives real property under this section shall report the terms of the conveyance to the board of the Indiana economic development corporation not later than thirty (30) days after the date the conveyance of the

"Abutting landowner"; "offering price"; sale of property to abutting landowner; appraisal

Sec. 15.6. (a) As used in this section, "abutting landowner" means an owner of property that:

(1) touches, borders on, or is contiguous to the property that is the subject of sale; and

(2) does not constitute a:

(A) public easement; or

(B) public right-of-way.

(b) As used in this section, "offering price" means the appraised value of real property plus all costs associated with the sale, including:

(1) appraisal fees;

(2) title insurance;

(3) recording fees; and

(4) advertising costs.

(c) If the assessed value of a tract of real property to be sold is less than fifteen thousand dollars (\$15,000), based on the most recent assessment of the tract or of the tract of which it was a part before it was acquired, the commission may proceed under this section.

(d) The commission may determine that:

(1) the highest and best use of the tract is sale to an abutting landowner;

(2) the cost to the public of maintaining the tract equals or exceeds the estimated fair market value of the tract; or

(3) it is economically unjustifiable to sell the tract under section 15 of this chapter.

(e) Not more than ten (10) days after the commission makes a determination under subsection (d), the commission shall publish a notice in accordance with IC 5-3-1 identifying the tracts intended for sale by legal description and, if possible, by key number and street address. The notice must also include the offering price and a statement that:

(1) the property may not be sold to a person who is ineligible under IC 36-1-11-16; and

(2) an offer to purchase the property submitted by a trust (as defined in IC 30-4-1-1(a)) must identify each:

(A) beneficiary of the trust; and

(B) settlor empowered to revoke or modify the trust.

At the time of publication of notice under this subsection, the commission shall send notice by certified mail to all abutting landowners. This notice shall contain the same information as the published notice.

(f) The commission shall also have each tract appraised. The appraiser must be a person who is professionally engaged in making appraisals, a person licensed under IC 25-34.1, or an employee of the political subdivision who is familiar with the value of the tract. However, if the assessed value of a tract is less than six thousand dollars (\$6,000), based on the most recent assessment of the tract or of the tract of which it was a part before it was acquired, the commission is not required to have the tract appraised.

(g) If, not more than ten (10) days after the date of publication of the notice under subsection (e), the commission receives one (1) or more eligible offers to purchase a tract listed in the notice at or in excess of the offering price, the commission shall conduct the negotiation and sale of the tract under section 15(f), 15(g), and 15(i) of this chapter.

(h) Notwithstanding subsection (g), if not more than ten (10) days after the date of publication of the notice under subsection (e) the commission does not receive from any person other than an abutting landowner an eligible offer to purchase the tract at or in excess of the offering price, the commission shall conduct the negotiation and sale of the tract as follows:

(1) If only one (1) eligible abutting landowner makes an eligible offer to purchase the tract, then subject to IC 36-1-11-16 and without further appraisal or notice, the commission shall offer to negotiate for the sale of the tract with that abutting landowner.

(2) If more than one (1) eligible abutting landowner submits an eligible offer to purchase the tract, the tract shall be sold to the eligible abutting landowner who submits the highest eligible offer for the tract and who complies with any requirement under subsection (e)(2).

(3) If no eligible abutting landowner submits an eligible offer to purchase the tract, the commission may sell the tract to any person who submits the highest eligible offer for the tract, except a person who is ineligible to purchase the tract under IC 36-1-11-16.

- (1) persons professionally engaged in making appraisals;
- (2) persons licensed under IC 25-34.1; or
- (3) employees of the political subdivision familiar with the value of the property.

The appraisers shall make a joint appraisal of the property.

(c) The commission may:

- (1) negotiate a sale or transfer; and
- (2) dispose of the property;

at a value that is not less than the appraised value determined under subsection (b).

(d) Disposal of real property under this chapter is subject to the approval of the commission. The commission may not approve a disposal of property without conducting a public hearing after giving notice under IC 5-3-1.

(e) In addition to any other reason for disapproving a disposal of property under this section, the commission may disapprove a sale of a tract of residential property to any bidder who does not by affidavit declare that the bidder will reside on that property for at least one (1) year after the bidder obtains possession of the property.

Sec. 16. The tax so levied each year shall be certified to the fiscal officers of the city and the county before November 1 of each year. The tax shall be estimated and entered upon the tax duplicates by the county auditor, and shall be collected and enforced by the county treasurer in the same manner as state and county taxes are estimated, entered, collected, and enforced.

(b) As the tax is collected by the county treasurer, it shall be accumulated and kept in a separate fund to be known as the redevelopment district fund and shall be expended and applied only for the purposes of this chapter or IC 36-7-15.3.

(c) The amount of the special tax levy shall be based on the budget of the department but may not exceed one and sixty-seven hundredths cents (\$0.0167) on each one hundred dollars (\$100) of taxable valuation in the redevelopment district, except as otherwise provided in this chapter.

(d) The budgets and tax levies under this chapter are subject to review and modification in the manner prescribed by IC 36-3-6.

Redevelopment district bonds

Sec. 17. (a) In addition to other methods of raising money for

property acquisition or redevelopment in a redevelopment project area, and in anticipation of the special tax to be levied under section 19 of this chapter, the taxes allocated under section 26 of this chapter, or other revenues of the redevelopment district, the commission may, by resolution, issue the bonds of the redevelopment district in the name of the consolidated city and in accordance with IC 36-3-5-8. The amount of the bonds may not exceed the total, as estimated by the commission, of all expenses reasonably incurred in connection with the acquisition and redevelopment of the property, including:

- (1) the total cost of all land, rights-of-way, and other property to be acquired and redeveloped;
- (2) all reasonable and necessary architectural, engineering, legal, financing, accounting, advertising, bond discount, and supervisory expenses related to the acquisition and redevelopment of the property or the issuance of bonds;
- (3) capitalized interest permitted in this chapter and a debt service reserve for the bonds, to the extent that the redevelopment commission determines that a reserve is reasonably required;
- (4) the total cost of all clearing and construction work provided for in the resolution; and
- (5) expenses that the commission is required or permitted to pay under IC 8-23-17.

(b) If the commission plans to acquire different parcels of land or let different contracts for redevelopment work at approximately the same time, whether under one (1) or more resolutions, the commission may provide for the total cost in one (1) issue of bonds.

(c) The bonds must be dated as set forth in the bond resolution and negotiable subject to the requirements of the bond resolution for the registration of the bonds. The resolution authorizing the bonds must state:

- (1) the denominations of the bonds;
- (2) the place or places at which the bonds are payable; and
- (3) the term of the bonds, which may not exceed:
 - (A) fifty (50) years, for bonds issued before July 1, 2008; or
 - (B) twenty-five (25) years, for bonds issued after June 30, 2008.

The resolution may also state that the bonds are redeemable before maturity with or without a premium, as determined by the commission.

(d) The commission shall certify a copy of the resolution authorizing the bonds to the fiscal officer of the consolidated city, who shall then prepare the bonds. The seal of the unit must be impressed on the bonds, or a facsimile of the seal must be printed on the bonds.

(e) The bonds shall be executed by the city executive and attested by the fiscal officer. The interest coupons, if any, shall be executed by the facsimile signature of the fiscal officer.

(f) The bonds are exempt from taxation as provided by IC 6-8-5.

(g) The city fiscal officer shall sell the bonds according to law. Notwithstanding IC 36-3-5-8, bonds payable solely or in part from tax proceeds allocated under section 26(b)(3) of this chapter or other revenues of the district may be sold at private negotiated sale and at a price or prices not less than ninety-seven percent (97%) of the par value.

(h) The bonds are not a corporate obligation of the city but are an indebtedness of the redevelopment district. The bonds and interest are payable:

- (1) from a special tax levied upon all of the property in the redevelopment district, as provided by section 19 of this chapter;
- (2) from the tax proceeds allocated under section 26(b)(3) of this chapter;
- (3) from other revenues available to the commission; or
- (4) from a combination of the methods stated in subdivisions (1) through (3);

and from any revenues of the designated project. If the bonds are payable solely from the tax proceeds allocated under section 26(b)(3) of this chapter, other revenues of the redevelopment commission, or any combination of these sources, they may be issued in any amount without limitation.

(i) Proceeds from the sale of the bonds may be used to pay the cost of interest on the bonds for a period not to exceed five (5) years from the date of issue.

(j) Notwithstanding IC 36-3-5-8, the laws relating to the filing of petitions requesting the issuance of bonds and the right of taxpayers and voters to remonstrate against, or vote on, the issuance of bonds applicable to bonds issued under this chapter do not apply to bonds payable solely or in part from tax proceeds allocated under section 26(b)(3) of this chapter, other revenues of the commission, or any combination of these sources.

(k) If bonds are issued under this chapter that are payable solely or in part from revenues to the commission from a project or projects, the commission may adopt a resolution or trust indenture or enter into covenants as is customary in the issuance of revenue bonds. The resolution or trust indenture may pledge or assign the revenues from the project or projects, but may not convey or mortgage any project or parts of a project. The resolution or trust indenture may also contain any provisions for protecting and enforcing the rights and remedies of the bond owners as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the commission. The commission may establish fees and charges for the use of any project and covenant with the owners of any bonds to set those fees and charges at a rate sufficient to protect the interest of the owners of the bonds. Any revenue bonds issued by the commission that are payable solely from revenues of the commission must contain a statement to that effect in the form of bond.

IC 36-7-15.1-17.1

Lease of property to commission; conditions

Sec. 17.1. (a) A commission may enter into a lease of any property that may be financed with the proceeds of bonds issued under this chapter with a lessor for a term not to exceed:

- (1) fifty (50) years, for a lease entered into before July 1, 2008;
or
- (2) twenty-five (25) years, for a lease entered into after June 30, 2008.

The lease may provide for payments to be made by the commission from special benefits taxes levied under section 19 of this chapter, taxes allocated under section 26 of this chapter, any other revenue available to the commission, or any combination of these sources.

(b) A lease may provide that payments by the commission to the lessor are required only to the extent and only for the period that the lessor is able to provide the leased facilities in accordance with the lease. The terms of each lease must be based upon the value of the facilities leased and may not create a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(c) A lease may be entered into by the commission only after a public hearing by the commission at which all interested parties are given the opportunity to be heard. Notice of the hearing must be given by publication in accordance with IC 5-3-1. After the public hearing, the commission may adopt a resolution authorizing the execution of the lease on behalf of the unit if it finds that the service to be provided throughout the term of the lease will serve the public purpose of the unit and is in the best interests of its residents. Any lease approved by a resolution of the commission must be approved by an ordinance of the fiscal body of the unit.

(d) Upon execution of a lease providing for payments by the commission in whole or in part from the levy of special benefits taxes under section 19 of this chapter and upon approval of the lease by the fiscal body, the commission shall publish notice of the execution of the lease and its approval in accordance with IC 5-3-1. Fifty (50) or more taxpayers residing in the district who will be affected by the lease and who may be of the opinion that no necessity exists for the execution of the lease or that the payments provided for in the lease are not fair and reasonable may file a petition in the office of the county auditor within thirty (30) days after the publication of the notice of execution and approval. The petition must set forth the petitioners' names, addresses, and objections to the lease and the facts showing that the execution of the lease is unnecessary or unwise or that the payments provided for in the lease are not fair and reasonable, as the case may be. Upon the filing of the petition, the county auditor shall immediately certify a copy of it,

together with such other data as may be necessary in order to present the questions involved, to the department of local government finance. Upon receipt of the certified petition and information, the department of local government finance shall fix a time and place for the hearing in the redevelopment district, which must be not less than five (5) or more than thirty (30) days after the time for the hearing is fixed. Notice of the hearing shall be given by the department of local government finance to the members of the fiscal body, to the commission, and to the first fifty (50) petitioners on the petition by a letter signed by the commissioner or deputy commissioner of the department and enclosed with fully prepaid postage sent to those persons at their usual place of residence, at least five (5) days before the date of the hearing. The decision of the department of local government finance on the appeal, upon the necessity for the execution of the lease and as to whether the payments under it are fair and reasonable, is final.

(e) A commission entering into a lease payable from allocated taxes under section 26 of this chapter or revenues or other available funds of the commission may:

- (1) pledge the revenue to make payments under the lease pursuant to IC 5-1-14-4; and
- (2) establish a special fund to make the payments.

Lease rentals may be limited to money in the special fund so that the obligations of the commission to make the lease rental payments are not considered a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(f) Except as provided in this section, no approvals of any governmental body or agency are required before the commission enters into a lease under this section.

(g) An action to contest the validity of the lease or to enjoin the performance of any of its terms and conditions must be brought within thirty (30) days after the publication of the notice of the execution and approval of the lease. However, if the lease is payable in whole or in part from tax levies and an appeal has been taken to the department of local government finance, an action to contest the validity or to enjoin performance must be brought within thirty (30) days after the decision of the department.

(h) If a commission exercises an option to buy a leased facility from a lessor, the commission may subsequently sell the leased facility, without regard to any other statute, to the lessor at the end of the lease term at a price set forth in the lease or at fair market value established at the time of the sale by the commission through auction, appraisal, or arms length negotiation. If the facility is sold at auction, after appraisal, or through negotiation, the commission shall conduct a hearing after public notice in accordance with IC 5-3-1 before the sale. Any action to contest the sale must be brought within fifteen (15) days after the hearing.

Persons authorized as lessors

Sec. 17.2. (a) Any of the following persons may lease facilities referred to in section 17.1 of this chapter to a commission:

(1) A not-for-profit corporation organized under Indiana law or admitted to do business in Indiana.

(2) An authority established under IC 36-10-9.1.

(b) Notwithstanding any other law, a lessor under this section and section 17.1 of this chapter is a qualified entity for purposes of IC 5-1.4-1-10.

(c) Notwithstanding any other law, a redevelopment facility leased by the commission under this chapter from a lessor borrowing bond proceeds from a unit under IC 36-7-12 is an economic development facility for purposes of IC 36-7-11.9-3 and IC 36-7-12.

(d) Notwithstanding IC 36-7-12-25 and IC 36-7-12-26, payments by the commission to a lessor described in subsection (c) may be made from sources set forth in section 17.1 of this chapter so long as the payments and the lease are structured to prevent the lease obligation from constituting debt of the unit or the district for purposes of the Constitution of the State of Indiana.

IC 36-7-15.1-17.5

Pledge of revenues

Sec. 17.5. (a) Notwithstanding any other law, the legislative body may pledge revenues received or to be received by the unit from:

(1) the unit's:

(A) certified shares of the county adjusted gross income tax under IC 6-3.5-1.1;

(B) distributive share of the county option income tax under IC 6-3.5-6; or

(C) distributions of county economic development income tax revenue under IC 6-3.5-7;

(2) any other source legally available to the unit for the purposes of this chapter; or

(3) combination of revenues under subdivisions (1) through (2); in any amount to pay amounts payable under section 17 or 17.1 of this chapter.

(b) The legislative body may covenant to adopt an ordinance to increase its tax rate under the county option income tax or any other revenues at the time it is necessary to raise funds to pay any amounts payable under section 17 or 17.1 of this chapter.

(c) The commission may pledge revenues received or to be received from any source legally available to it for the purposes of this chapter in any amount to pay amounts payable under section 17 or 17.1 of this chapter.

(d) The pledge or the covenant under this section may be for the life of the bonds issued under section 17 of this chapter, the term of a lease entered into under section 17.1 of this chapter, or for a shorter period as determined by the legislative body. Money pledged by the

legislative body under this section shall be considered revenues or other money available to the commission under sections 17 through 17.1 of this chapter.

(e) The general assembly covenants not to impair this pledge or covenant so long as any bonds issued under section 17 of this chapter are outstanding or as long as any lease entered into under section 17.1 of this chapter is still in effect. The pledge or covenant shall be enforced as provided in IC 5-1-14-4.

IC 36-7-15.1-18

Redevelopment district fund

Sec. 18. (a) All proceeds from the sale of bonds under section 17 of this chapter shall be kept as a separate and specific fund to pay the expenses incurred in connection with the acquisition and redevelopment of property. The fund shall be known as the redevelopment district fund. Any surplus of funds remaining after all expenses are paid shall be paid into and become a part of the redevelopment district bond fund established under section 19 of this chapter.

(b) All gifts, donations, proceeds of sales, or other payments that are given or paid to the department or to the consolidated city for redevelopment purposes shall be promptly deposited to the credit of the redevelopment district fund. The commission may use these gifts and donations for the purposes of this chapter.

(c) Before the eleventh day of each calendar month the city fiscal officer shall notify the commission and the officers of the city who have duties in respect to the funds and accounts of the city of the amount standing to the credit of the redevelopment district fund at the close of business on the last day of the preceding month.

As added by Acts 1982, P.L.77, SEC.8.

Redevelopment district bond fund; special tax

Sec. 19. (a) This section applies only to:

- (1) bonds that are issued under section 17 of this chapter; or
- (2) leases entered into under section 17.1 of this chapter;

that are payable from a special tax levied upon all of the property in the redevelopment district. This section does not apply to bonds or leases that are payable solely from tax proceeds allocated under section 26(b)(3) of this chapter, other revenues of the commission, or any combination of these sources.

(b) The city-county legislative body shall levy each year a special tax on all of the property of the redevelopment district, in such a manner as to meet and pay:

- (1) the principal of the bonds as they mature, together with all accruing interest on the bonds; or
- (2) lease rental payments under section 17.1 of this chapter.

The tax levied shall be certified to the fiscal officers of the

consolidated city and the county before October 2 in each year. The tax shall be estimated and entered on the tax duplicate by the county auditor and shall be collected and enforced by the county treasurer in the same manner as other state and county taxes are estimated, entered, collected, and enforced.

(c) As the tax is collected, it shall be accumulated in a separate fund to be known as the redevelopment district bond fund and shall be applied to the payment of the bonds as they mature and the interest on the bonds as it accrues, or to make lease payments and to no other purpose. All accumulations of the fund before their use for the payment of bonds and interest or to make lease payments shall be deposited with the depository or depositories for other public funds of the city in accordance with the statutes concerning the deposit of public funds, unless they are invested under IC 5-13.

(d) The tax levies provided for in this section are reviewable by other bodies vested by law with the authority to ascertain that the levies are sufficient to raise the amount that, with other amounts available, is sufficient to meet the payments under the lease payable from the levy of taxes.

(3) The real property suffers from one (1) or more of the conditions listed in IC 36-7-1-3, resulting in a negative impact on the use or value of the neighboring properties or other properties in the community.

(b) The commission or its designated hearing examiner shall conduct a public meeting to determine whether the conditions set forth in subsection (a) exist relative to a parcel of real property. Each person holding a fee or life estate interest of record in the property must be given notice by first class mail of the time and date of the hearing at least ten (10) days before the hearing, and is entitled to present evidence and make arguments at the hearing.

(c) If the commission considers it necessary to acquire real property under this section, it shall adopt a resolution setting out its determination to exercise that power and directing its attorney to file a petition in the name of the city on behalf of the department in the

Financial assistance; federal aid; issuance of bonds, notes, and warrants; approval by legislative body

Sec. 24. (a) Subject to the approval of the legislative body of the consolidated city, and in order to:

- (1) undertake survey and planning activities under this chapter;
- (2) undertake and carry out any redevelopment project, urban renewal project, economic development plan, or housing program;

- (5) refund loans previously made under this section;

the commission may apply for and accept advances, short term and long term loans, grants, contributions, loan guarantees, and any other form of financial assistance from the federal government, or from any of its agencies. The commission may apply for and accept loans under this section from sources other than the federal government or federal agencies but only if the loans are unconditionally guaranteed by the federal government or federal agencies. The commission may also enter into and carry out contracts and agreements in connection with that financial assistance upon the terms and conditions that the commission considers reasonable and appropriate, as long as those terms and conditions are not inconsistent with the purposes of this chapter. The provisions of such a contract or agreement in regard to the handling, deposit, and application of project funds, as well as all other provisions, are valid and binding on the consolidated city or its executive departments and officers, as well as the commission, notwithstanding any other provision of this chapter.

(b) Subject to the approval of the fiscal body of the consolidated

city, the commission may issue and sell bonds, notes, or warrants:

- (1) to the federal government to evidence short term or long term loans made under this section; or
- (2) to persons or entities other than the federal government to evidence short or long term loans made under this section that are unconditionally guaranteed by the federal government or federal agencies;

without notice of sale being given or a public offering being made.

- (2) be either coupon or registered;

- (4) have a rank or priority;
- (5) be of such description;
- (6) be secured (subject to other provisions of this section) in such manner;
- (7) bear interest at a rate or rates;
- (8) be payable as to both principal and interest in a medium of payment, at a time or times (which may be upon demand) and at a place or places;
- (9) be subject to terms of redemption (with or without premium);
- (10) contain or be subject to any covenants, conditions, and provisions; and
- (11) have any other characteristics;

that the commission considers reasonable and appropriate.

(d) Bonds, notes, or warrants issued under this section are not an indebtedness of the city or redevelopment district within the meaning of any constitutional or statutory limitation of indebtedness. The bonds, notes, or warrants are not payable from or secured by a levy of taxes, but are payable only from and secured only by income, funds, and properties of the project becoming available to the commission under this chapter or by grant funds from the federal government, as the commission specifies in the resolution authorizing their issuance.

(e) Bonds, notes, or warrants issued under this section are exempt from taxation as provided by IC 6-8-5.

(f) Bonds, notes, or warrants issued under this section shall be executed by the city executive and attested by the fiscal officer in the name of the "City of _____, Department of Metropolitan Development".

(g) Following the adoption of the resolution authorizing the issuance of bonds, notes, or warrants under this section, the commission shall certify a copy of that resolution to the officers of the city who have duties with respect to bonds, notes, or warrants of the city. At the proper time, the commission shall deliver to the officers the unexecuted bonds, notes, or warrants prepared for execution in accordance with the resolution.

(h) All bonds, notes, or warrants issued under this section shall be

sold by the officers of the city who have duties with respect to the sale of bonds, notes, or warrants of the city. If an officer whose signature appears on any bonds, notes, or warrants issued under this section leaves office before their delivery, the signature remains valid and sufficient for all purposes as if he had remained in office until the delivery.

(i) If at any time during the life of a loan contract or agreement under this section the commission can obtain loans for the purposes of this section from sources other than the federal government at interest rates not less favorable than provided in the loan contract or agreement, and if the loan contract or agreement so permits, the commission may do so and may pledge the loan contract and any rights under that contract as security for the repayment of the loans obtained from other sources. Any loan under this subsection may be evidenced by bonds, notes, or warrants issued and secured in the same manner as provided in this section for loans from the federal government. These bonds, notes, or warrants may be sold at either public or private sale, as the commission considers appropriate.

(j) Money obtained from the federal government or from other sources under this section, and money that is required by a contract or agreement under this section to be used for project expenditure purposes, repayment of survey and planning advances, or repayment of temporary or definitive loans, may be expended by the commission without regard to any law pertaining to the making and approval of budgets, appropriations, and expenditures.

(k) Bonds, notes, or warrants issued under this section are declared to be issued for an essential public and governmental purpose.

Real property tax allocation and distribution

Sec. 26. (a) As used in this section:

"Allocation area" means that part of a redevelopment project area to which an allocation provision of a resolution adopted under section 8 of this chapter refers for purposes of distribution and allocation of property taxes.

"Base assessed value" means the following:

(1) If an allocation provision is adopted after June 30, 1995, in a declaratory resolution or an amendment to a declaratory resolution establishing an economic development area:

(A) the net assessed value of all the property as finally determined for the assessment date immediately preceding the effective date of the allocation provision of the declaratory resolution, as adjusted under subsection (h); plus
(B) to the extent that it is not included in clause (A), the net assessed value of property that is assessed as residential property under the rules of the department of local government finance, as finally determined for any assessment date after the effective date of the allocation provision.

(2) If an allocation provision is adopted after June 30, 1997, in a declaratory resolution or an amendment to a declaratory resolution establishing a redevelopment project area:

(A) the net assessed value of all the property as finally determined for the assessment date immediately preceding the effective date of the allocation provision of the declaratory resolution, as adjusted under subsection (h); plus
(B) to the extent that it is not included in clause (A), the net assessed value of property that is assessed as residential property under the rules of the department of local government finance, as finally determined for any assessment date after the effective date of the allocation provision.

(3) If:

(A) an allocation provision adopted before June 30, 1995, in a declaratory resolution or an amendment to a declaratory resolution establishing a redevelopment project area expires after June 30, 1997; and

(B) after June 30, 1997, a new allocation provision is included in an amendment to the declaratory resolution;

the net assessed value of all the property as finally determined for the assessment date immediately preceding the effective date of the allocation provision adopted after June 30, 1997, as adjusted under subsection (h).

(4) Except as provided in subdivision (5), for all other allocation areas, the net assessed value of all the property as finally determined for the assessment date immediately preceding the effective date of the allocation provision of the declaratory resolution, as adjusted under subsection (h).

(5) If an allocation area established in an economic

development area before July 1, 1995, is expanded after June 30, 1995, the definition in subdivision (1) applies to the expanded part of the area added after June 30, 1995.

(6) If an allocation area established in a redevelopment project area before July 1, 1997, is expanded after June 30, 1997, the definition in subdivision (2) applies to the expanded part of the area added after June 30, 1997.

Except as provided in section 26.2 of this chapter, "property taxes" means taxes imposed under IC 6-1.1 on real property. However, upon approval by a resolution of the redevelopment commission adopted before June 1, 1987, "property taxes" also includes taxes imposed under IC 6-1.1 on depreciable personal property. If a redevelopment commission adopted before June 1, 1987, a resolution to include within the definition of property taxes taxes imposed under IC 6-1.1 on depreciable personal property that has a useful life in excess of eight (8) years, the commission may by resolution determine the percentage of taxes imposed under IC 6-1.1 on all depreciable personal property that will be included within the definition of property taxes. However, the percentage included must not exceed twenty-five percent (25%) of the taxes imposed under IC 6-1.1 on all depreciable personal property.

(b) A resolution adopted under section 8 of this chapter on or before the allocation deadline determined under subsection (i) may include a provision with respect to the allocation and distribution of property taxes for the purposes and in the manner provided in this section. A resolution previously adopted may include an allocation provision by the amendment of that resolution on or before the allocation deadline determined under subsection (i) in accordance with the procedures required for its original adoption. A declaratory resolution or an amendment that establishes an allocation provision after June 30, 1995, must specify an expiration date for the allocation provision. For an allocation area established before July 1, 2008, the expiration date may not be more than thirty (30) years after the date on which the allocation provision is established. For an allocation area established after June 30, 2008, the expiration date may not be more than twenty-five (25) years after the date on which the first obligation was incurred to pay principal and interest on bonds or lease rentals on leases payable from tax increment revenues. However, with respect to bonds or other obligations that were issued before July 1, 2008, if any of the bonds or other obligations that were scheduled when issued to mature before the specified expiration date and that are payable only from allocated tax proceeds with respect to the allocation area remain outstanding as of the expiration date, the allocation provision does not expire until all of the bonds or other obligations are no longer outstanding. The allocation provision may apply to all or part of the redevelopment project area. The allocation provision must require that any property taxes subsequently levied by or for the benefit of any public body entitled to a distribution of property taxes on taxable property in the allocation area be allocated and distributed as follows:

(1) Except as otherwise provided in this section, the proceeds of the taxes attributable to the lesser of:

(A) the assessed value of the property for the assessment date with respect to which the allocation and distribution is made; or

(B) the base assessed value;

shall be allocated to and, when collected, paid into the funds of the respective taxing units.

(2) The excess of the proceeds of the property taxes imposed for the assessment date with respect to which the allocation and distribution is made that are attributable to taxes imposed after being approved by the voters in a referendum or local public question conducted after April 30, 2010, not otherwise included in subdivision (1) shall be allocated to and, when collected, paid into the funds of the taxing unit for which the referendum or local public question was conducted.

(3) Except as otherwise provided in this section, property tax proceeds in excess of those described in subdivisions (1) and (2) shall be allocated to the redevelopment district and, when collected, paid into a special fund for that allocation area that may be used by the redevelopment district only to do one (1) or more of the following:

(A) Pay the principal of and interest on any obligations payable solely from allocated tax proceeds that are incurred by the redevelopment district for the purpose of financing or refinancing the redevelopment of that allocation area.

(B) Establish, augment, or restore the debt service reserve for bonds payable solely or in part from allocated tax proceeds in that allocation area.

(C) Pay the principal of and interest on bonds payable from allocated tax proceeds in that allocation area and from the special tax levied under section 19 of this chapter.

(D) Pay the principal of and interest on bonds issued by the consolidated city to pay for local public improvements that are physically located in or physically connected to that allocation area.

(E) Pay premiums on the redemption before maturity of bonds payable solely or in part from allocated tax proceeds in that allocation area.

(F) Make payments on leases payable from allocated tax proceeds in that allocation area under section 17.1 of this chapter.

(G) Reimburse the consolidated city for expenditures for local public improvements (which include buildings, parking facilities, and other items set forth in section 17 of this chapter) that are physically located in or physically connected to that allocation area.

(H) Reimburse the unit for rentals paid by it for a building or parking facility that is physically located in or physically connected to that allocation area under any lease entered into

under IC 36-1-10.

(I) Reimburse public and private entities for expenses incurred in training employees of industrial facilities that are located:

- (i) in the allocation area; and
- (ii) on a parcel of real property that has been classified as industrial property under the rules of the department of local government finance.

However, the total amount of money spent for this purpose in any year may not exceed the total amount of money in the allocation fund that is attributable to property taxes paid by the industrial facilities described in this clause. The reimbursements under this clause must be made within three (3) years after the date on which the investments that are the basis for the increment financing are made.

(J) Pay the costs of carrying out an eligible efficiency project (as defined in IC 36-9-41-1.5) within the unit that established the redevelopment commission. However, property tax proceeds may be used under this clause to pay the costs of carrying out an eligible efficiency project only if those property tax proceeds exceed the amount necessary to do the following:

- (i) Make, when due, any payments required under clauses (A) through (I), including any payments of principal and interest on bonds and other obligations payable under this subdivision, any payments of premiums under this subdivision on the redemption before maturity of bonds, and any payments on leases payable under this subdivision.
- (ii) Make any reimbursements required under this subdivision.
- (iii) Pay any expenses required under this subdivision.
- (iv) Establish, augment, or restore any debt service reserve under this subdivision.

The special fund may not be used for operating expenses of the commission.

(4) Before July 15 of each year, the commission shall do the following:

(A) Determine the amount, if any, by which the assessed value of the taxable property in the allocation area for the most recent assessment date minus the base assessed value, when multiplied by the estimated tax rate of the allocation area will exceed the amount of assessed value needed to provide the property taxes necessary to make, when due, principal and interest payments on bonds described in subdivision (3) plus the amount necessary for other purposes described in subdivision (3) and subsection (g).

(B) Provide a written notice to the county auditor, the legislative body of the consolidated city, and the officers who are authorized to fix budgets, tax rates, and tax levies

under IC 6-1.1-17-5 for each of the other taxing units that is wholly or partly located within the allocation area. The notice must:

- (i) state the amount, if any, of excess assessed value that the commission has determined may be allocated to the respective taxing units in the manner prescribed in subdivision (1); or
- (ii) state that the commission has determined that there is no excess assessed value that may be allocated to the respective taxing units in the manner prescribed in subdivision (1).

The county auditor shall allocate to the respective taxing units the amount, if any, of excess assessed value determined by the commission. The commission may not authorize an allocation to the respective taxing units under this subdivision if to do so would endanger the interests of the holders of bonds described in subdivision (3).

(c) For the purpose of allocating taxes levied by or for any taxing unit or units, the assessed value of taxable property in a territory in the allocation area that is annexed by any taxing unit after the effective date of the allocation provision of the resolution is the lesser of:

- (1) the assessed value of the property for the assessment date with respect to which the allocation and distribution is made; or
- (2) the base assessed value.

(d) Property tax proceeds allocable to the redevelopment district under subsection (b)(3) may, subject to subsection (b)(4), be irrevocably pledged by the redevelopment district for payment as set forth in subsection (b)(3).

(e) Notwithstanding any other law, each assessor shall, upon petition of the commission, reassess the taxable property situated upon or in, or added to, the allocation area, effective on the next assessment date after the petition.

(f) Notwithstanding any other law, the assessed value of all taxable property in the allocation area, for purposes of tax limitation, property tax replacement, and formulation of the budget, tax rate, and tax levy for each political subdivision in which the property is located is the lesser of:

- (1) the assessed value of the property as valued without regard to this section; or
- (2) the base assessed value.

(g) If any part of the allocation area is located in an enterprise zone created under IC 5-28-15, the unit that designated the allocation area shall create funds as specified in this subsection. A unit that has obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish an allocation fund for the purposes specified in subsection (b)(3) and a special zone fund. Such a unit shall, until the end of the enterprise zone phase out period, deposit each year in the special zone fund the amount in the allocation fund derived from property tax proceeds in excess of those

described in subsection (b)(1) and (b)(2) from property located in the enterprise zone that exceeds the amount sufficient for the purposes specified in subsection (b)(3) for the year. A unit that has no obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish a special zone fund and deposit all the property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) in the fund derived from property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) from property located in the enterprise zone. The unit that creates the special zone fund shall use the fund, based on the recommendations of the urban enterprise association, for one (1) or more of the following purposes:

(1) To pay for programs in job training, job enrichment, and basic skill development designed to benefit residents and employers in the enterprise zone. The programs must reserve at least one-half (1/2) of the enrollment in any session for residents of the enterprise zone.

(2) To make loans and grants for the purpose of stimulating business activity in the enterprise zone or providing employment for enterprise zone residents in the enterprise zone.

These loans and grants may be made to the following:

(A) Businesses operating in the enterprise zone.

(B) Businesses that will move their operations to the enterprise zone if such a loan or grant is made.

(3) To provide funds to carry out other purposes specified in subsection (b)(3). However, where reference is made in subsection (b)(3) to the allocation area, the reference refers for purposes of payments from the special zone fund only to that part of the allocation area that is also located in the enterprise zone.

(h) The state board of accounts and department of local government finance shall make the rules and prescribe the forms and procedures that they consider expedient for the implementation of this chapter. After each general reassessment of real property in an area under IC 6-1.1-4-4 and after each reassessment under a reassessment plan prepared under IC 6-1.1-4-4.2, the department of local government finance shall adjust the base assessed value one (1) time to neutralize any effect of the reassessment of the real property in the area on the property tax proceeds allocated to the redevelopment district under this section. After each annual adjustment under IC 6-1.1-4-4.5, the department of local government finance shall adjust the base assessed value to neutralize any effect of the annual adjustment on the property tax proceeds allocated to the redevelopment district under this section. However, the adjustments under this subsection may not include the effect of property tax abatements under IC 6-1.1-12.1, and these adjustments may not produce less property tax proceeds allocable to the redevelopment district under subsection (b)(3) than would otherwise have been received if the general reassessment, reassessment under the reassessment plan, or annual adjustment had not occurred. The

department of local government finance may prescribe procedures for county and township officials to follow to assist the department in making the adjustments.

(i) The allocation deadline referred to in subsection (b) is determined in the following manner:

(1) The initial allocation deadline is December 31, 2011.

(2) Subject to subdivision (3), the initial allocation deadline and subsequent allocation deadlines are automatically extended in increments of five (5) years, so that allocation deadlines subsequent to the initial allocation deadline fall on December 31, 2016, and December 31 of each fifth year thereafter.

(3) At least one (1) year before the date of an allocation deadline determined under subdivision (2), the general assembly may enact a law that:

(A) terminates the automatic extension of allocation deadlines under subdivision (2); and

(B) specifically designates a particular date as the final allocation deadline.

Definitions; amendment of resolution; property taxes

Sec. 26.2. (a) As used in this section, "depreciable personal property" refers to all of the designated taxpayer's depreciable personal property that is located in the allocation area.

(b) As used in this section, "designated taxpayer" means a taxpayer designated by the commission in a declaratory resolution adopted or amended under section 8 or 10.5 of this chapter, and with respect to which the commission finds that:

(1) taxes to be derived from the taxpayer's depreciable personal property in the allocation area, in excess of the taxes attributable to the base assessed value of that personal property, are needed to pay debt service for bonds issued under section 17 of this chapter or to make payments on leases payable under section 17.1 of this chapter in order to provide local public improvements for a particular allocation area;

(2) the taxpayer's property in the allocation area will consist primarily of industrial, manufacturing, warehousing, research

and development, processing, distribution, transportation, or convention center hotel related projects or regulated amusement devices (as defined in IC 22-12-1-19.1) and related improvements; and

(3) the taxpayer's property in the allocation area will not consist primarily of retail, commercial, or residential projects, other than an amusement park or tourism industry project.

For purposes of subdivision (3), a convention center hotel project is not considered a retail, commercial, or residential project.

(c) The allocation provision of a declaratory resolution may modify the definition of "property taxes" under section 26(a) of this chapter to include taxes imposed under IC 6-1.1 on the depreciable personal property of designated taxpayers in accordance with the procedures and limitations set forth in this section and section 26 of this chapter. If such a modification is included in the resolution, for purposes of section 26 of this chapter the term "base assessed value" with respect to the depreciable personal property of designated taxpayers means the net assessed value of the depreciable personal property as finally determined for the assessment date immediately preceding:

(1) the effective date of the modification, for modifications adopted before July 1, 1995; and

(2) the adoption date of the modification for modifications adopted after June 30, 1995;

Planning and development as public and governmental function; goals; public purpose; construction

Sec. 28. (a) The planning, replanning, development, and redevelopment of economic development areas are public and governmental functions that cannot be accomplished through the ordinary operations of private enterprise due to:

- (1) the necessity for the exercise of the power of eminent domain;
- (2) the necessity for requiring the proper use of the land so as to best serve the interests of the county and its citizens; and
- (3) the costs of these projects.

(b) The planning, replanning, development, and redevelopment of economic development areas will:

- (1) benefit the health, safety, morals, and welfare;
- (2) increase the economic well-being of the county and the state; and
- (3) serve to protect and increase property values in the county and the state.

(c) The planning, replanning, development, and redevelopment of economic development areas under this section and sections 29, 30, 57, and 58 of this chapter are public uses and purposes for which public money may be spent and private property may be acquired.

(d) This section and sections 29, 30, 57, and 58 of this chapter shall be liberally construed to carry out the purposes of this section.

IC 36-7-15.1-29

Determination of economic development area; approval; requirements; procedures

Sec. 29. (a) The commission may, by following the procedures set forth in sections 8, 9, and 10 of this chapter, approve a plan for and determine that a geographic area in the redevelopment district is an economic development area. Designation of an economic development area is subject to judicial review in the manner prescribed in section 11 of this chapter.

(b) The commission may determine that a geographic area is an economic development area if it finds:

- (1) the plan for the economic development area:
 - (A) promotes significant opportunities for the gainful employment of its citizens;
 - (B) attracts a major new business enterprise to the unit;
 - (C) retains or expands a significant business enterprise existing in the boundaries of the unit; or
 - (D) meets other purposes of this section and sections 28 and 30 of this chapter;
- (2) the plan for the economic development area cannot be achieved by regulatory processes or by the ordinary operation of private enterprise without resort to the powers allowed under this section and sections 28 and 30 of this chapter because of:
 - (A) lack of local public improvement;
 - (B) existence of improvements or conditions that lower the value of the land below that of nearby land;
 - (C) multiple ownership of land; or
 - (D) other similar conditions;
- (3) the public health and welfare will be benefited by accomplishment of the plan for the economic development area;
- (4) the accomplishment of the plan for the economic development area will be a public utility and benefit as measured by:
 - (A) attraction or retention of permanent jobs;
 - (B) increase in the property tax base;
 - (C) improved diversity of the economic base; or
 - (D) other similar public benefits; and
- (5) the plan for the economic development area conforms to the comprehensive plan of development for the consolidated city.

(c) The determination that a geographic area is an economic development area must be approved by the city-county legislative body. The approval may be given either before or after judicial review is requested. The requirement that the city-county legislative body approve economic development areas does not prevent the commission from amending the plan for the economic development area.

Powers of commission

Sec. 30. (a) All of the rights, powers, privileges, and immunities that may be exercised by the commission in a redevelopment project area or urban renewal area may be exercised by the commission in an economic development area, subject to the following:

- (1) The content and manner of exercise of these rights, powers, privileges, and immunities shall be determined by the purposes and nature of an economic development area.
- (2) Real property (or interests in real property) relative to which

action is taken under this section or section 28 or 29 of this chapter in an economic development area is not required to meet the conditions described in IC 36-7-1-3.

(3) The special tax levied in accordance with section 16 of this chapter may be used to carry out activities under this chapter in economic development areas.

(4) Bonds may be issued in accordance with section 17 of this chapter to defray expenses of carrying out activities under this chapter in economic development areas if no other revenue sources are available for this purpose.

(5) The tax exemptions set forth in section 25 of this chapter are applicable in economic development areas.

(6) An economic development area may be an allocation area for the purposes of distribution and allocation of property taxes.

(7) The commission may not use its power of eminent domain under section 13 of this chapter to carry out activities under this chapter in economic development areas.

(b) The content and manner of discharge of duties set forth in section 6 of this chapter shall be determined by the purposes and nature of an economic development area.

IC 36-7-15.1-31

Findings of general assembly

Sec. 31. The general assembly finds the following:

(1) There exists within areas needing redevelopment a shortage of safe and affordable housing for persons of low and moderate income.

(2) The planning, replanning, development, and redevelopment of housing within areas needing redevelopment are public and governmental functions that cannot be accomplished through the ordinary operations of private enterprise because of:

(A) the necessity for the exercise of the power of eminent domain;

(B) the necessity for requiring the proper use of the land so as to best serve the interests of the county and its citizens; and

(C) the costs of these projects.

(3) The provision of affordable housing for persons of low or moderate income does not compete with the ordinary operation of private enterprise.

(4) It is in the public interest that work on the provision of housing be commenced as soon as possible to relieve the need for this housing, which constitutes an emergency.

(5) The absence of affordable housing in areas needing redevelopment necessitates excessive and disproportionate expenditures of public funds for crime prevention, public health and safety, fire and accident prevention, and other public services and facilities.

(6) The planning, replanning, development, and redevelopment of housing within areas needing redevelopment will do the following:

(A) Benefit the health, safety, morals, and welfare of the county and the state.

(B) Serve to protect and increase property values in the county and the state.

(C) Benefit persons of low and moderate income by making affordable housing available to them.

(D) Reduce public expenditures required for governmental functions such as police and fire protection and other services.

(7) The planning, replanning, development, and redevelopment of housing within areas needing redevelopment under this section and sections 32 through 35 of this chapter are:

(A) necessary in the public interest; and

(B) public uses and purposes for which public money may be spent and private property may be acquired.

(8) This section and sections 32 through 35 of this chapter shall be liberally construed to carry out the purposes of this section and this chapter.

Housing program; notice and hearing; neighbor associations and residents

Sec. 32. (a) The commission must establish a program for housing. The program, which may include such elements as the commission considers appropriate, must be adopted as part of a redevelopment plan or amendment to a redevelopment plan, and must establish an allocation area for purposes of sections 26 and 35 of this chapter for the accomplishment of the program.

(b) The notice and hearing provisions of sections 10 and 10.5 of this chapter apply to the resolution adopted under subsection (a). Judicial review of the resolution may be made under section 11 of this chapter.

(c) Before formal submission of any housing program to the commission, the department shall consult with persons interested in or affected by the proposed program and provide the affected neighborhood associations, residents, township assessors (if any), and the county assessor with an adequate opportunity to participate in an advisory role in planning, implementing, and evaluating the proposed program. The department may hold public meetings in the affected neighborhood to obtain the views of neighborhood associations and residents.

- (2) Bonds may be issued under this chapter to accomplish the housing program, but only one (1) issue of bonds may be issued and payable from increments in any allocation area except for refunding bonds or bonds issued in an amount necessary to complete a housing program for which bonds were previously issued.

- (4) The tax exemptions set forth in section 25 of this chapter are applicable.
- (5) Property taxes may be allocated under section 26 of this chapter.

IC 36-7-15.1-34**Housing program; resolution; findings**

Sec. 34. The commission must make the following findings in the resolution adopting a housing program under section 32 of this chapter:

- (1) The program meets the purposes of section 31 of this chapter.
- (2) The program cannot be accomplished by regulatory processes or by the ordinary operation of private enterprise because of:
 - (A) lack of public improvements;
 - (B) existence of improvements or conditions that lower the value of the land below that of nearby land; or
 - (C) other similar conditions.
- (3) The public health and welfare will be benefited by accomplishment of the program.
- (4) The accomplishment of the program will be of public utility and benefit as measured by:

IC 36-7-15.1-35

Base assessed value; special fund use for allocation area program; maximum additional credit; resolution

Sec. 35. (a) Notwithstanding section 26(a) of this chapter, with respect to the allocation and distribution of property taxes for the accomplishment of a program adopted under section 32 of this chapter, "base assessed value" means the net assessed value of all of the land as finally determined for the assessment date immediately preceding the effective date of the allocation provision, as adjusted under section 26(h) of this chapter. However, "base assessed value" does not include the value of real property improvements to the land.

(b) The special fund established under section 26(b) of this chapter for the allocation area for a program adopted under section 32 of this chapter may be used only for purposes related to the accomplishment of the program, including the following:

(1) The construction, rehabilitation, or repair of residential units within the allocation area.

(2) The construction, reconstruction, or repair of infrastructure (such as streets, sidewalks, and sewers) within or serving the allocation area.

(3) The acquisition of real property and interests in real property within the allocation area.

(4) The demolition of real property within the allocation area.

(5) To provide financial assistance to enable individuals and families to purchase or lease residential units within the allocation area. However, financial assistance may be provided only to those individuals and families whose income is at or below the county's median income for individuals and families, respectively.

(6) To provide financial assistance to neighborhood development corporations to permit them to provide financial assistance for the purposes described in subdivision (5).

(7) For property taxes first due and payable before 2009, to provide each taxpayer in the allocation area a credit for property tax replacement as determined under subsections (c) and (d).

However, this credit may be provided by the commission only if the city-county legislative body establishes the credit by ordinance adopted in the year before the year in which the credit is provided.

(c) The maximum credit that may be provided under subsection (b)(7) to a taxpayer in a taxing district that contains all or part of an allocation area established for a program adopted under section 32 of this chapter shall be determined as follows:

STEP ONE: Determine that part of the sum of the amounts described in IC 6-1.1-21-2(g)(1)(A) and IC 6-1.1-21-2(g)(2) through IC 6-1.1-21-2(g)(5) (before their repeal) that is attributable to the taxing district.

STEP TWO: Divide:

(A) that part of each county's eligible property tax replacement amount (as defined in IC 6-1.1-21-2 (before its repeal)) for that year as determined under IC 6-1.1-21-4(a)(1) (before its repeal) that is attributable to the taxing district; by

(B) the amount determined under STEP ONE.

STEP THREE: Multiply:

(A) the STEP TWO quotient; by

(B) the taxpayer's taxes (as defined in IC 6-1.1-21-2 (before its repeal)) levied in the taxing district allocated to the allocation fund, including the amount that would have been allocated but for the credit.

(d) Except as provided in subsection (g), the commission may determine to grant to taxpayers in an allocation area from its allocation fund a credit under this section, as calculated under subsection (c), by applying one-half ($1/2$) of the credit to each installment of taxes (as defined in IC 6-1.1-21-2 (before its repeal)) that under IC 6-1.1-22-9 are due and payable in a year. Except as provided in subsection (g), one-half ($1/2$) of the credit shall be applied to each installment of taxes (as defined in IC 6-1.1-21-2 (before its repeal)). The commission must provide for the credit annually by a resolution and must find in the resolution the following:

(1) That the money to be collected and deposited in the allocation fund, based upon historical collection rates, after granting the credit will equal the amounts payable for contractual obligations from the fund, plus ten percent (10%) of those amounts.

(2) If bonds payable from the fund are outstanding, that there is a debt service reserve for the bonds that at least equals the amount of the credit to be granted.

(3) If bonds of a lessor under section 17.1 of this chapter or under IC 36-1-10 are outstanding and if lease rentals are payable from the fund, that there is a debt service reserve for those bonds that at least equals the amount of the credit to be granted.

If the tax increment is insufficient to grant the credit in full, the

commission may grant the credit in part, prorated among all taxpayers.

(e) Notwithstanding section 26(b) of this chapter, the special fund established under section 26(b) of this chapter for the allocation area for a program adopted under section 32 of this chapter may only be used to do one (1) or more of the following:

(1) Accomplish one (1) or more of the actions set forth in section 26(b)(3)(A) through 26(b)(3)(H) of this chapter.

(2) Reimburse the consolidated city for expenditures made by the city in order to accomplish the housing program in that allocation area.

The special fund may not be used for operating expenses of the commission.

(f) Notwithstanding section 26(b) of this chapter, the commission shall, relative to the special fund established under section 26(b) of this chapter for an allocation area for a program adopted under section 32 of this chapter, do the following before July 15 of each year:

(1) Determine the amount, if any, by which the assessed value of the taxable property in the allocation area, when multiplied by the estimated tax rate of the allocation area, will exceed the amount of assessed value needed to produce the property taxes necessary to:

(A) make the distribution required under section 26(b)(2) of this chapter;

(B) make, when due, principal and interest payments on bonds described in section 26(b)(3) of this chapter;

(C) pay the amount necessary for other purposes described in section 26(b)(3) of this chapter; and

(D) reimburse the consolidated city for anticipated expenditures described in subsection (e)(2).

(2) Provide a written notice to the county auditor, the legislative body of the consolidated city, and the officers who are authorized to fix budgets, tax rates, and tax levies under IC 6-1.1-17-5 for each of the other taxing units that is wholly or partly located within the allocation area. The notice must:

(A) state the amount, if any, of excess assessed value that the commission has determined may be allocated to the respective taxing units in the manner prescribed in section 26(b)(1) of this chapter; or

(B) state that the commission has determined that there is no excess assessed value that may be allocated to the respective taxing units in the manner prescribed in section 26(b)(1) of this chapter.

The county auditor shall allocate to the respective taxing units the amount, if any, of excess assessed value determined by the commission.

(g) This subsection applies to an allocation area only to the extent that the net assessed value of property that is assessed as residential property under the rules of the department of local government

finance is not included in the base assessed value. If property tax installments with respect to a homestead (as defined in IC 6-1.1-20.9-1 (before its repeal)) are due in installments established by the department of local government finance under IC 6-1.1-22-9.5, each taxpayer subject to those installments in an allocation area is entitled to an additional credit under subsection (d) for the taxes (as defined in IC 6-1.1-21-2 (before its repeal)) due in installments. The credit shall be applied in the same proportion to each installment of taxes (as defined in IC 6-1.1-21-2 (before its repeal)).

IC 36-7-15.1-35.5

Supplemental housing program; allocation area; housing trust fund; permissible uses; housing trust fund advisory committee

Sec. 35.5. (a) The general assembly finds the following:

(1) Federal law permits the sale of a multiple family housing project that is or has been covered, in whole or in part, by a contract for project based assistance from the United States Department of Housing and Urban Development without requiring the continuation of that project based assistance.

(2) Such a sale displaces the former residents of a multiple family housing project described in subdivision (1) and increases the shortage of safe and affordable housing for persons of low and moderate income within the county.

(3) The displacement of families and individuals from affordable housing requires increased expenditures of public funds for crime prevention, public health and safety, fire and accident prevention, and other public services and facilities.

(4) The establishment of a supplemental housing program under this section will do the following:

(A) Benefit the health, safety, morals, and welfare of the county and the state.

(B) Serve to protect and increase property values in the county and the state.

(C) Benefit persons of low and moderate income by making affordable housing available to them.

(5) The establishment of a supplemental housing program under this section and sections 32 through 35 of this chapter is:

(A) necessary in the public interest; and

(B) a public use and purpose for which public money may be spent and private property may be acquired.

(b) In addition to its other powers with respect to a housing program under sections 32 through 35 of this chapter, the commission may establish a supplemental housing program. Except as provided by this section, the commission has the same powers and

duties with respect to the supplemental housing program that the commission has under sections 32 through 35 of this chapter with respect to the housing program.

(c) One (1) allocation area may be established for the supplemental housing program. The commission is not required to make the findings required under section 34(5) through 34(8) of this chapter with respect to the allocation area. However, the commission must find that the property contained within the boundaries of the allocation area consists solely of one (1) or more multiple family housing projects that are or have been covered, in whole or in part, by a contract for project based assistance from the United States Department of Housing and Urban Development or have been owned at one time by a public housing agency. The allocation area need not be contiguous. The definition of "base assessed value" set forth in section 35(a) of this chapter applies to the special fund established under section 26(b) of this chapter for the allocation area.

(d) The special fund established under section 26(b) of this chapter for the allocation area established under this section may be used only for the following purposes:

(1) Subject to subdivision (2), on January 1 and July 1 of each year the balance of the special fund shall be transferred to the housing trust fund established under subsection (e).

(2) The commission may provide each taxpayer in the allocation area a credit for property tax replacement in the manner provided by section 35(b)(7) of this chapter. Transfers made under subdivision (1) shall be reduced by the amount necessary to provide the credit.

(e) The commission shall, by resolution, establish a housing trust fund to be administered, subject to the terms of the resolution, by:

(1) the housing division of the consolidated city; or

(2) the department, division, or agency that has been designated to perform the public housing function by an ordinance adopted under IC 36-7-18-1.

(f) The housing trust fund consists of:

(1) amounts transferred to the fund under subsection (d);

(2) payments in lieu of taxes deposited in the fund under IC 36-3-2-11;

(3) gifts and grants to the fund;

(4) investment income earned on the fund's assets;

(5) money deposited in the fund under IC 36-2-7-10(j); and

(6) other funds from sources approved by the commission.

(g) The commission shall, by resolution, establish uses for the housing trust fund. However, the uses must be limited to:

(1) providing financial assistance to those individuals and families whose income is at or below eighty percent (80%) of the county's median income for individuals and families, respectively, to enable those individuals and families to purchase or lease residential units within the county;

(2) paying expenses of administering the fund;

(3) making grants, loans, and loan guarantees for the

development, rehabilitation, or financing of affordable housing for individuals and families whose income is at or below eighty percent (80%) of the county's median income for individuals and families, respectively, including the elderly, persons with disabilities, and homeless individuals and families;

(4) providing technical assistance to nonprofit developers of affordable housing; and

(5) funding other programs considered appropriate to meet the affordable housing and community development needs of lower income families (as defined in IC 5-20-4-5) and very low income families (as defined in IC 5-20-4-6), including lower income elderly individuals, individuals with disabilities, and homeless individuals.

(h) At least fifty percent (50%) of the dollars allocated for production, rehabilitation, or purchase of housing must be used for units to be occupied by individuals and families whose income is at or below fifty percent (50%) of the county's area median income for individuals and families, respectively.

(i) The low income housing trust fund advisory committee is established. The low-income housing trust fund advisory committee consists of eleven (11) members. The membership of the low income housing trust fund advisory committee is comprised of:

(1) one (1) member appointed by the mayor, to represent the interests of low income families;

(2) one (1) member appointed by the mayor, to represent the interests of owners of subsidized, multifamily housing communities;

(3) one (1) member appointed by the mayor, to represent the interests of banks and other financial institutions;

(4) one (1) member appointed by the mayor, of the department of metropolitan development;

(5) three (3) members representing the community at large appointed by the commission, from nominations submitted to the commission as a result of a general call for nominations from neighborhood associations, community based organizations, and other social services agencies;

(6) one (1) member appointed by and representing the Coalition for Homeless Intervention and Prevention of Greater Indianapolis;

(7) one (1) member appointed by and representing the Local Initiatives Support Corporation;

(8) one (1) member appointed by and representing the Indianapolis Coalition for Neighborhood Development; and

(9) one (1) member appointed by and representing the Indianapolis Neighborhood Housing Partnership.

Members of the low income housing trust fund advisory committee serve for a term of four (4) years, and are eligible for reappointment. If a vacancy exists on the committee, the appointing authority who appointed the former member whose position has become vacant shall appoint an individual to fill the vacancy. A committee member

may be removed at any time by the appointing authority who appointed the committee member.

(j) The low income housing trust fund advisory committee shall make recommendations to the commission regarding:

(1) the development of policies and procedures for the uses of the low income housing trust fund; and

(2) long term sources of capital for the low income housing trust fund, including:

(A) revenue from:

(i) development ordinances;

(ii) fees; or

(iii) taxes;

(B) financial market based income;

(C) revenue derived from private sources; and

(D) revenue generated from grants, gifts, donations, or income in any other form, from a:

(i) government program;

(ii) foundation; or

(iii) corporation.

(k) The county treasurer shall invest the money in the fund not currently needed to meet the obligations of the fund in the same manner as other public funds may be invested.

in the jurisdiction of the county. The fiscal analysis may also consider impacts on tax burdens borne by property owners. IC 36-7-15.1-42

Approval of real property to be acquired; negotiations for purchase; methods and means of acquisition

Sec. 42. (a) If no appeal is taken, or if an appeal is taken but is unsuccessful, the commission shall proceed with the proposed project, to the extent that money is available for that purpose.

(b) The commission shall first approve and adopt a list of the real property and interests in real property to be acquired and the price to be offered to the owner of each parcel or interest. The prices to be offered may not exceed the average of two (2) independent appraisals of fair market value procured by the commission, except that appraisals are not required in transactions with other governmental agencies. However, if the real property is less than five (5) acres in size and the fair market value of the real property or interest has been appraised by one (1) independent appraiser at less than ten thousand dollars (\$10,000), the second appraisal may be made by a qualified employee of the department. The prices indicated on the list may not be exceeded unless specifically authorized by the commission under section 39 of this chapter or

ordered by a court in condemnation proceedings. The commission may except from acquisition any real property in the area if it finds that such an acquisition is not necessary under the redevelopment plan. Appraisals made under this section are for the information of the commission and are not open for public inspection.

(c) Negotiations for the purchase of property may be carried on directly by the commission, by its employees, or by expert negotiators employed for that purpose. The commission shall adopt a standard form of option for use in negotiations, but no option, contract, or understanding relative to the purchase of real property is binding on the commission until approved and accepted by the commission in writing. The commission may authorize the payment of a nominal fee to bind an option and as a part of the consideration for conveyance may agree to pay the expense incident to the conveyance and determination of the title of the property. Payment for the property purchased shall be made when and as directed by the commission, but only on delivery of proper instruments conveying the title or interest of the owner to "City [or Town] of _____ for the use and benefit of its Redevelopment District".

(d) Notwithstanding subsections (a) through (c), the commission may, before the time referred to in this section, accept gifts of property needed for the redevelopment of redevelopment project areas. The commission may, before the time referred to in this section, take options on or contract for the acquisition of property needed for the redevelopment of redevelopment project areas if the options and contracts are not binding on the commission or the redevelopment district until the time referred to in this section and until money is available to pay the consideration set out in the options or contracts.

(e) Section 44(a) through 44(h) of this chapter does not apply to exchanges of real property (or interests in real property) in connection with the acquisition of real property (or interests in real property) under this section. In acquiring real property (or interests in real property) under this section the commission may, as an alternative to offering payment of money as specified in subsection (b), offer for the real property (or interest in real property) that the commission desires to acquire:

- (1) exchange of real property or interests in real property owned by the redevelopment district;
- (2) exchange of real property or interests in real property owned by the redevelopment district, along with the payment of money by the commission; or
- (3) exchange of real property or interests in real property owned by the redevelopment district along with the payment of money by the owner of the real property or interests in real property that the commission desires to acquire.

The commission shall have the fair market value of the real property or interests in real property owned by the redevelopment district appraised as specified in section 44(b) of this chapter. The appraisers may not also appraise the value of the real property or interests in

real property to be acquired by the redevelopment district. The commission shall establish the nature of the offer to the owner based on the difference between the average of the two (2) appraisals of the fair market value of the real property or interests in real property to be acquired by the commission and the average of the appraisals of fair market value of the real property or interests in real property to be exchanged by the commission.

Additional powers of commission

Sec. 43. A commission has the powers and must follow the procedures set forth in section 14 of this chapter.

As added by P.L.102-1999, SEC.10.

IC 36-7-15.1-44

Appraisal, publication, and bidding requirements; exceptions; procedures

Sec. 44. (a) The provisions of this section concerning appraisal, publication, and bidding requirements do not apply to sales, leases, or other dispositions of real or personal property interests in property to other public agencies, including the federal government or any agency or department of the federal government, for public purposes.

(b) Before offering for sale, exchange, or lease (or a combination of methods) to the public any of the property or interests acquired, the commission shall cause two (2) separate appraisals of the fair market value to be made by independent appraisers. However, if the property is less than five (5) acres in size and the fair market value of the real property or interest has been appraised by one (1) independent appraiser at less than ten thousand dollars (\$10,000), the second appraisal may be made by a qualified employee of the department. In the case of an exchange, the same appraiser may not appraise both of the properties to be exchanged. In making appraisals, the appraisers shall take into consideration the size, location, and physical condition of the parcels, the advantages accruing to the parcels under the redevelopment plan, and all other factors having a bearing on the value of the parcels. The appraisals are solely for the information of the commission and are not open for public inspection.

(c) The commission shall then prepare an offering sheet showing the parcels to be offered and the offering prices, which may not be less than the average of the two (2) appraisals. Copies of the offering sheets shall be furnished to prospective buyers on request. Maps, plats, or maps and plats showing the size and location of all parcels to be offered shall also be kept available for inspection at the office of the department.

(d) A notice shall be published in accordance with IC 5-3-1. The notice must state that at a designated time the commission will open and consider written offers for the purchase or lease of the property

or interests being offered. In giving the notice it is not necessary to describe each parcel separately or to specify the exact terms of disposition, but the notice must:

- (1) state the general location of the parcels;
- (2) call attention generally to any limitations in the redevelopment plan on the use to be made of the real property offered; and
- (3) state that a bid submitted by a trust (as defined in IC 30-4-1-1(a)) must identify each:
 - (A) beneficiary of the trust; and
 - (B) settlor empowered to revoke or modify the trust.

(e) At the time fixed in the notice, the commission shall open and consider any offers received. The offers may consist of consideration in the form of cash, other property, or a combination of cash and property. However, with respect to property other than cash, the offer must be accompanied by evidence of the property's fair market value that is satisfactory to the commission in the commission's sole discretion. All offers received shall be opened at public meetings of the commission and shall be kept open for public inspection.

(f) The commission may reject any or all bids or may make awards to the highest and best bidders. In determining the best bids, the commission shall take into consideration the following factors:

- (1) The size and character of the improvements proposed to be made by the bidder on the real property bid on.
- (2) The bidders' plans and ability to improve the real property with reasonable promptness.
- (3) Whether the real property when improved will be sold or rented.
- (4) The bidder's proposed sale or rental prices.
- (5) The bidder's compliance with subsection (d)(3).
- (6) Any factors that will assure the commission that the sale or lease, if made, will further the execution of the redevelopment plan and best serve the interest of the community, from the standpoint of both human and economic welfare.

(g) The commission may contract with a bidder in regard to the factors listed in subsection (f), and the contract may provide for the deposit of surety bonds, the making of good faith deposits, liquidated damages, the right of reversion or repurchase, or other rights and remedies if the bidder fails to comply with the contract.

(h) After the opening, consideration, and determination of the written offers filed in response to the notice, the commission may dispose of all or part of the remaining available property or interests for any approved use, either at public sale or by private negotiation carried on by the commission, its regular employees, or real estate experts employed for that purpose. For a period of thirty (30) days after the opening of the written offers and determination on them, no sale, exchange, or lease may be made at a price or rental less than that shown on the offering sheet, except in the case of sales or rentals of:

- (1) ten (10) or more parcels to a purchaser or lessee who agrees

to improve the parcels immediately;

(2) parcels of property to individuals or families whose income is at or below the county's median income for individual and family income, respectively, for the purpose of constructing single family or two (2) family housing; or

(3) parcels of property to a contractor or developer for the purpose of constructing single family or two (2) family housing for individuals or families whose income is at or below the county's median income for individual and family income, respectively;

but after that period the commission may adjust the offering prices in the manner it considers necessary to further the redevelopment plan.

(i) A conveyance under this section may not be made until the agreed consideration has been paid, unless the commission adopts a resolution:

(1) stating that consideration does not have to be paid before the conveyance is made; and

(2) setting forth an arrangement for future payment of consideration or provision of an infrastructure credit against the consideration, or both.

If full consideration is not paid before the conveyance is made, the commission may use a land sale contract or mortgage to secure payment of the consideration or may accept as a credit against the agreed consideration a contractual obligation to perform public infrastructure work related to the property being conveyed. All deeds, land sale contracts, leases, or other conveyances, and all contracts and agreements, including contracts of purchase, sale, or exchange and contracts for advancements, loans, grants, contributions, or other aid, shall be executed in the name of the "City [or Town] of _____, for the use and benefit of its Redevelopment District", and shall be executed by the president or vice president of the commission.

IC 36-7-15.1-45

Issuance and sale of bonds by commission

Sec. 45. (a) In addition to other methods of raising money for property acquisition or redevelopment in a redevelopment project area, and in anticipation of the special tax to be levied under section 50 of this chapter, the taxes allocated under section 53 of this chapter, or other revenues of the redevelopment district, a commission may, by resolution, issue the bonds of its redevelopment district in the name of the excluded city. The amount of the bonds may not exceed the total, as estimated by the commission, of all expenses reasonably incurred in connection with the acquisition and redevelopment of the property, including:

(1) the total cost of all land, rights-of-way, and other property to be acquired and redeveloped;

(2) all reasonable and necessary architectural, engineering,

legal, financing, accounting, advertising, bond discount, and supervisory expenses related to the acquisition and redevelopment of the property or the issuance of bonds;

(3) capitalized interest permitted in this chapter and a debt service reserve for the bonds, to the extent that the redevelopment commission determines that a reserve is reasonably required;

(4) the total cost of all clearing and construction work provided for in the resolution; and

(5) expenses that the commission is required or permitted to pay under IC 8-23-17.

(b) If a commission plans to acquire different parcels of land or let different contracts for redevelopment work at approximately the same time, whether under one (1) or more resolutions, a commission may provide for the total cost in one (1) issue of bonds.

(c) The bonds must be dated as set forth in the bond resolution and negotiable subject to the requirements concerning registration of the bonds. The resolution authorizing the bonds must state:

(1) the denominations of the bonds;

(2) the place or places at which the bonds are payable; and

(3) the term of the bonds, which may not exceed:

(A) fifty (50) years, for bonds issued before July 1, 2008; or

(B) twenty-five (25) years, for bonds issued after June 30, 2008.

The resolution may also state that the bonds are redeemable before maturity with or without a premium, as determined by the commission.

(d) The commission shall certify a copy of the resolution authorizing the bonds to the fiscal officer of the excluded city, who shall then prepare the bonds. The seal of the unit must be impressed on the bonds, or a facsimile of the seal must be printed on the bonds.

(e) The bonds shall be executed by the excluded city executive and attested by the excluded city fiscal officer. The interest coupons, if any, shall be executed by the facsimile signature of the excluded city fiscal officer.

(f) The bonds are exempt from taxation as provided by IC 6-8-5.

(g) The excluded city fiscal officer shall sell the bonds according to law. Bonds payable solely or in part from tax proceeds allocated under section 53(b)(3) of this chapter or other revenues of the district may be sold at private negotiated sale and at a price or prices not less than ninety-seven percent (97%) of the par value.

(h) The bonds are not a corporate obligation of the excluded city but are an indebtedness of the redevelopment district. The bonds and interest are payable:

(1) from a special tax levied upon all of the property in the redevelopment district, as provided by section 50 of this chapter;

(2) from the tax proceeds allocated under section 53(b)(3) of this chapter;

(3) from other revenues available to the commission; or

(4) from a combination of the methods described in subdivisions (1) through (3); and from any revenues of the designated project. If the bonds are payable solely from the tax proceeds allocated under section 53(b)(3) of this chapter, other revenues of the redevelopment commission, or any combination of these sources, they may be issued in any amount without limitation.

(i) Proceeds from the sale of the bonds may be used to pay the cost of interest on the bonds for a period not to exceed five (5) years from the date of issue.

(j) The laws relating to the filing of petitions requesting the issuance of bonds and the right of taxpayers and voters to remonstrate against, or vote on, the issuance of bonds applicable to bonds issued under this chapter do not apply to bonds payable solely or in part from tax proceeds allocated under section 53(b)(3) of this chapter, other revenues of the commission, or any combination of these sources.

(k) If bonds are issued under this chapter that are payable solely or in part from revenues to a commission from a project or projects, a commission may adopt a resolution or trust indenture or enter into covenants as is customary in the issuance of revenue bonds. The resolution or trust indenture may pledge or assign the revenues from the project or projects but may not convey or mortgage any project or parts of a project. The resolution or trust indenture may also contain any provisions for protecting and enforcing the rights and remedies of the bond owners as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the commission. The commission may establish fees and charges for the use of any project and covenant with the owners of bonds to set those fees and charges at a rate sufficient to protect the interest of the owners of the bonds. Any revenue bonds issued by the commission that are payable solely from revenues of the commission must contain a statement to that effect in the form of bond.

IC 36-7-15.1-46

Lease of property by commission

Sec. 46. (a) A commission may enter into a lease of any property that may be financed with the proceeds of bonds issued under section 45 of this chapter with a lessor for a term not to exceed:

- (1) fifty (50) years, for a lease entered into before July 1, 2008;
or
- (2) twenty-five (25) years, for a lease entered into after June 30, 2008.

The lease may provide for payments to be made by the commission from special benefits taxes levied under section 50 of this chapter, taxes allocated under section 53 of this chapter, any other revenue available to the commission, or any combination of these sources.

(b) A lease may provide that payments by the commission to the lessor are required only to the extent and only for the period that the lessor is able to provide the leased facilities in accordance with the lease. The terms of each lease must be based upon the value of the facilities leased and may not create a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(c) A lease may be entered into by the commission only after a public hearing by the commission at which all interested parties are given the opportunity to be heard. Notice of the hearing must be given by publication in accordance with IC 5-3-1. After the public hearing, the commission may adopt a resolution authorizing the execution of the lease on behalf of the unit if it finds that the service to be provided throughout the term of the lease will serve the public purpose of the unit and is in the best interests of its residents. Any lease approved by a resolution of the commission must be approved by an ordinance of the fiscal body of the excluded city.

(d) Upon execution of a lease providing for payments by the commission in whole or in part from the levy of special benefits taxes under section 50 of this chapter and upon approval of the lease by the fiscal body, the commission shall publish notice of the execution of the lease and its approval in accordance with IC 5-3-1. Fifty (50) or more taxpayers residing in the district who will be affected by the lease and who may be of the opinion that no necessity exists for the execution of the lease or that the payments provided for in the lease are not fair and reasonable may file a petition in the office of the county auditor within thirty (30) days after the publication of the notice of execution and approval. The petition must set forth the petitioners' names, addresses, and objections to the lease and the facts showing that the execution of the lease is unnecessary or unwise or that the payments provided for in the lease are not fair and reasonable, as the case may be. Upon the filing of the petition, the county auditor shall immediately certify a copy of the petition, together with such other data as may be necessary in order to present the questions involved, to the department of local government finance. Upon receipt of the certified petition and information, the department of local government finance shall fix a time and place for the hearing in the redevelopment district, which must not be less than five (5) or more than thirty (30) days after the time for the hearing is fixed. Notice of the hearing shall be given by the department of local government finance to the members of the fiscal body, to the commission, and to the first fifty (50) petitioners on the petition by a letter signed by the commissioner or deputy commissioner of the department and enclosed with fully prepaid postage sent to those persons at their usual place of residence, at least five (5) days before the date of the hearing. The decision of the department of local government finance on the appeal, upon the necessity for the execution of the lease and as to whether the payments under it are fair and reasonable, is final.

(e) A commission entering into a lease payable from allocated taxes under section 53 of this chapter or revenues or other available

funds of the commission may:

- (1) pledge the revenue to make payments under the lease as provided in IC 5-1-14-4; and
- (2) establish a special fund to make the payments.

Lease rentals may be limited to money in the special fund so that the obligations of the commission to make the lease rental payments are not considered a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(f) Except as provided in this section, no approvals of any governmental body or agency are required before the commission enters into a lease under this section.

(g) An action to contest the validity of the lease or to enjoin the performance of any of its terms and conditions must be brought within thirty (30) days after the publication of the notice of the execution and approval of the lease. However, if the lease is payable in whole or in part from tax levies and an appeal has been taken to the department of local government finance, an action to contest the validity or to enjoin performance must be brought within thirty (30) days after the decision of the department of local government finance.

(h) If a commission exercises an option to buy a leased facility from a lessor, the commission may subsequently sell the leased facility, without regard to any other statute, to the lessor at the end of the lease term at a price set forth in the lease or at fair market value established at the time of the sale by the commission through auction, appraisal, or arms length negotiation. If the facility is sold at auction, after appraisal, or through negotiation, the commission shall conduct a hearing after public notice in accordance with IC 5-3-1 before the sale. Any action to contest the sale must be brought within fifteen (15) days after the hearing.

Persons permitted to lease facilities

Sec. 47. (a) Any of the following persons may lease facilities referred to in section 46 of this chapter to a commission:

- (1) A nonprofit corporation organized under Indiana law or admitted to do business in Indiana.
- (2) An authority established under IC 36-10-9.1.

(b) Notwithstanding any other law, a redevelopment facility leased by the commission under this chapter from a lessor borrowing bond proceeds from a unit under IC 36-7-12 is an economic development facility for purposes of IC 36-7-11.9-3 and IC 36-7-12.

(c) Notwithstanding IC 36-7-12-25 and IC 36-7-12-26, payments by the commission to a lessor described in subsection (b) may be made from sources set forth in section 46 of this chapter so long as the payments and the lease are structured to prevent the lease obligation from constituting debt of the unit or the district for purposes of the Constitution of the State of Indiana.

Pledge of revenue received or to be received; nonimpairment by general assembly

Sec. 48. (a) Notwithstanding any other law, the legislative body of the excluded city may pledge revenues received or to be received by the excluded city from:

- (1) the excluded city's distributive share of the county option income tax under IC 6-3.5-6;
- (2) any other source legally available to the excluded city for the purposes of this chapter; or
- (3) a combination of revenues under subdivisions (1) through (2);

in any amount to pay amounts payable under section 45 or 46 of this chapter.

(b) The legislative body of the excluded city may covenant to adopt an ordinance to increase its tax rate under the county option income tax or any other revenues at the time it is necessary to raise funds to pay amounts payable under section 45 or 46 of this chapter.

(c) The commission may pledge revenues received or to be received from any source legally available to it for the purposes of this chapter in any amount to pay amounts payable under section 45 or 46 of this chapter.

(d) The pledge or the covenant under this section may be for the life of the bonds issued under section 45 of this chapter, the term of a lease entered into under section 46 of this chapter, or a shorter period as determined by the legislative body of the excluded city. Money pledged by the legislative body of the excluded city under this section shall be considered revenues or other money available to the commission under sections 45 through 46 of this chapter.

(e) The general assembly covenants not to impair this pledge or covenant so long as any bonds issued under section 45 of this chapter are outstanding or as long as any lease entered into under section 46 of this chapter is still in effect. The pledge or covenant shall be enforced as provided in IC 5-1-14-4.

Redevelopment district fund

Sec. 49. (a) All proceeds of bonds issued under section 45 of this chapter shall be kept as a separate and specific fund to pay the expenses incurred in connection with the acquisition and redevelopment of property. The fund shall be known as the redevelopment district fund. Any surplus of funds remaining after all expenses are paid shall be paid into and become a part of the redevelopment district bond fund established under section 50 of this chapter.

(b) All gifts, donations, proceeds of sales, or other payments that

are given or paid to an excluded city or its commission for redevelopment purposes shall be promptly deposited to the credit of the redevelopment district fund. The commission may use these gifts and donations for the purposes of this chapter.

(c) Before the fifteenth day of each calendar month, the excluded city fiscal officer shall notify the commission and the officers of the excluded city who have duties in respect to the funds and accounts of the excluded city of the amount standing to the credit of the redevelopment district fund at the close of business on the last day of the preceding month.

IC 36-7-15.1-50

Tax on redevelopment district property; redevelopment district bond fund

Sec. 50. (a) This section applies only to:

- (1) bonds that are issued under section 45 of this chapter; or
- (2) leases entered into under section 46 of this chapter;

that are payable from a special tax levied upon all of the property in the redevelopment district. This section does not apply to bonds or leases that are payable solely from tax proceeds allocated under section 53(b)(3) of this chapter, other revenues of the commission, or any combination of these sources.

(b) The excluded city legislative body shall levy each year a tax on all of the property of the redevelopment district in such a manner as to meet and pay:

- (1) the principal of the bonds as they mature, together with all accruing interest on the bonds; or
- (2) lease rental payments under section 46 of this chapter.

The tax levied shall be certified to the fiscal officers of the excluded city and the county before October 2 in each year. The tax shall be estimated and entered on the tax duplicate by the county auditor and shall be collected and enforced by the county treasurer in the same manner as other state and county taxes are estimated, entered, collected, and enforced.

(c) As the tax is collected, it shall be accumulated in a separate fund to be known as the redevelopment district bond fund and shall be applied to the payment of the bonds as they mature and the interest on the bonds as it accrues, or to make lease payments, and to no other purpose. All accumulations of the fund before use for the payment of bonds and interest or to make lease payments shall be deposited with the depository or depositories for other public funds of the city in accordance with the statutes concerning the deposit of public funds, unless they are invested under IC 5-13.

(d) The tax levies provided for in this section are reviewable by other bodies vested by law with the authority to ascertain that the levies are sufficient to raise the amount that, with other amounts available, is sufficient to meet the payments under the lease payable from the levy of taxes.

Application for and acceptance of loans; issuance and sale of bonds; approval of fiscal body and legislative body

Sec. 51. (a) Subject to the approval of the legislative body of the consolidated city, and in order to:

- (1) undertake survey and planning activities under this chapter;
- (2) undertake and carry out any redevelopment project or economic development plan;
- (3) pay principal and interest on any advances;
- (4) pay or retire any bonds and interest on them; or
- (5) refund loans previously made under this section;

the commission may apply for and accept advances, short term and long term loans, grants, contributions, loan guarantees, and any other form of financial assistance from the federal government or from any of its agencies. The commission may apply for and accept loans under this section from sources other than the federal government or federal agencies, but only if the loans are unconditionally guaranteed by the federal government or federal agencies. The commission may also enter into and carry out contracts and agreements in connection with that financial assistance upon the terms and conditions that the commission considers reasonable and appropriate, if those terms and conditions are not inconsistent with the purposes of this chapter. The provisions of such a contract or agreement in regard to the handling, deposit, and application of project funds as all other provisions are valid and binding on the excluded city or its executive departments and officers, as well as the commission, notwithstanding any other provision of this chapter.

(b) Subject to the approval of the fiscal body of the consolidated city, the commission may issue and sell bonds, notes, or warrants:

- (1) to the federal government to evidence short term or long term loans made under this section; or
- (2) to persons or entities other than the federal government to evidence short or long term loans made under this section that are unconditionally guaranteed by the federal government or federal agencies;

without notice of sale being given or a public offering being made.

(c) Notwithstanding any other law, bonds, notes, or warrants issued by the commission under this section may:

- (1) be in the amounts, form, or denomination;
- (2) be either coupon or registered;
- (3) carry conversion or other privileges;
- (4) have a rank or priority;
- (5) be of such description;
- (6) be secured (subject to other provisions of this section) in such manner;
- (7) bear interest at a rate or rates;
- (8) be payable as to both principal and interest in a medium of payment, at a time or times (which may be upon demand), and

at a place or places;

(9) be subject to terms of redemption (with or without premium);

(10) contain or be subject to any covenants, conditions, and provisions; and

(11) have any other characteristics;

that the commission considers reasonable and appropriate.

(d) Bonds, notes, or warrants issued under this section are not an indebtedness of the excluded city or its redevelopment district within the meaning of any constitutional or statutory limitation of indebtedness. The bonds, notes, or warrants are not payable from or secured by a levy of taxes but are payable only from and secured only by income, funds, and properties of the project becoming available to the commission under this chapter or by grant funds from the federal government, as the commission specifies in the resolution authorizing their issuance.

(e) Bonds, notes, or warrants issued under this section are exempt from taxation as provided by IC 6-8-5.

(f) Bonds, notes, or warrants issued under this section shall be executed by the city executive and attested by the fiscal officer in the name of the "City (or Town) of _____, for and on behalf of its Redevelopment District".

(g) Following the adoption of the resolution authorizing the issuance of bonds, notes, or warrants under this section, the commission shall certify a copy of that resolution to the officers of the excluded city who have duties with respect to bonds, notes, or warrants of the excluded city. At the proper time, the commission shall deliver to the officers the unexecuted bonds, notes, or warrants prepared for execution in accordance with the resolution.

(h) All bonds, notes, or warrants issued under this section shall be sold by the officers of the excluded city who have duties with respect to the sale of bonds, notes, or warrants of the excluded city. If an officer whose signature appears on any bonds, notes, or warrants issued under this section leaves office before their delivery, the signature remains valid and sufficient for all purposes as if the officer had remained in office until the delivery.

(i) If, at any time during the life of a loan contract or agreement under this section, the commission can obtain loans for the purposes of this section from sources other than the federal government at interest rates not less favorable than provided in the loan contract or agreement, and if the loan contract or agreement so permits, the commission may do so and may pledge the loan contract and any rights under that contract as security for the repayment of the loans obtained from other sources. Any loan under this subsection may be evidenced by bonds, notes, or warrants issued and secured in the same manner as provided in this section for loans from the federal government. These bonds, notes, or warrants may be sold at either public or private sale, as the commission considers appropriate.

(j) Money obtained from the federal government or from other sources under this section, and money that is required by a contract

or agreement under this section to be used for project expenditure purposes, repayment of survey and planning advances, or repayment of temporary or definitive loans, may be expended by the commission without regard to any law pertaining to the making and approval of budgets, appropriations, and expenditures.

(k) Bonds, notes, or warrants issued under this section are declared to be issued for an essential public and governmental purpose.

Tax exempt real property and receipts

Sec. 52. (a) Real property acquired by the redevelopment district is exempt from taxation while owned by the district.

(b) All receipts of the redevelopment district, including receipts from the sale of real property, personal property, and materials disposed of, are exempt from all taxes.

(c) As used in this subsection, "year one" means any calendar year and "year two" means the calendar year following year one. When real property is acquired by the redevelopment district during the period from assessment on March 1 of year one to the last day of February of year two, the taxes due in year two shall be prorated between the seller and the city. When the proration is made, the auditor shall remove the city's prorated share from the tax duplicate by auditor's correction.

IC 36-7-15.1-53

Resolution or amendment establishing allocation provisions; assessed value of taxable property; funds; rules

Sec. 53. (a) As used in this section:

"Allocation area" means that part of a redevelopment project area to which an allocation provision of a resolution adopted under section 40 of this chapter refers for purposes of distribution and allocation of property taxes.

"Base assessed value" means:

(1) the net assessed value of all the property as finally determined for the assessment date immediately preceding the effective date of the allocation provision of the declaratory resolution, as adjusted under subsection (h); plus

(2) to the extent that it is not included in subdivision (1), the net assessed value of property that is assessed as residential property under the rules of the department of local government finance, as finally determined for any assessment date after the effective date of the allocation provision.

Except as provided in section 55 of this chapter, "property taxes" means taxes imposed under IC 6-1.1 on real property.

(b) A resolution adopted under section 40 of this chapter on or

before the allocation deadline determined under subsection (i) may include a provision with respect to the allocation and distribution of property taxes for the purposes and in the manner provided in this section. A resolution previously adopted may include an allocation provision by the amendment of that resolution on or before the allocation deadline determined under subsection (i) in accordance with the procedures required for its original adoption. A declaratory resolution or an amendment that establishes an allocation provision must be approved by resolution of the legislative body of the excluded city and must specify an expiration date for the allocation provision. For an allocation area established before July 1, 2008, the expiration date may not be more than thirty (30) years after the date on which the allocation provision is established. For an allocation area established after June 30, 2008, the expiration date may not be more than twenty-five (25) years after the date on which the first obligation was incurred to pay principal and interest on bonds or lease rentals on leases payable from tax increment revenues. However, with respect to bonds or other obligations that were issued before July 1, 2008, if any of the bonds or other obligations that were scheduled when issued to mature before the specified expiration date and that are payable only from allocated tax proceeds with respect to the allocation area remain outstanding as of the expiration date, the allocation provision does not expire until all of the bonds or other obligations are no longer outstanding. The allocation provision may apply to all or part of the redevelopment project area. The allocation provision must require that any property taxes subsequently levied by or for the benefit of any public body entitled to a distribution of property taxes on taxable property in the allocation area be allocated and distributed as follows:

(1) Except as otherwise provided in this section, the proceeds of the taxes attributable to the lesser of:

(A) the assessed value of the property for the assessment date with respect to which the allocation and distribution is made; or

(B) the base assessed value;

shall be allocated to and, when collected, paid into the funds of the respective taxing units.

(2) The excess of the proceeds of the property taxes imposed for the assessment date with respect to which the allocation and distribution is made that are attributable to taxes imposed after being approved by the voters in a referendum or local public question conducted after April 30, 2010, not otherwise included in subdivision (1) shall be allocated to and, when collected, paid into the funds of the taxing unit for which the referendum or local public question was conducted.

(3) Except as otherwise provided in this section, property tax proceeds in excess of those described in subdivisions (1) and (2) shall be allocated to the redevelopment district and, when collected, paid into a special fund for that allocation area that may be used by the redevelopment district only to do one (1) or

more of the following:

- (A) Pay the principal of and interest on any obligations payable solely from allocated tax proceeds that are incurred by the redevelopment district for the purpose of financing or refinancing the redevelopment of that allocation area.
- (B) Establish, augment, or restore the debt service reserve for bonds payable solely or in part from allocated tax proceeds in that allocation area.
- (C) Pay the principal of and interest on bonds payable from allocated tax proceeds in that allocation area and from the special tax levied under section 50 of this chapter.
- (D) Pay the principal of and interest on bonds issued by the excluded city to pay for local public improvements that are physically located in or physically connected to that allocation area.
- (E) Pay premiums on the redemption before maturity of bonds payable solely or in part from allocated tax proceeds in that allocation area.
- (F) Make payments on leases payable from allocated tax proceeds in that allocation area under section 46 of this chapter.
- (G) Reimburse the excluded city for expenditures for local public improvements (which include buildings, park facilities, and other items set forth in section 45 of this chapter) that are physically located in or physically connected to that allocation area.
- (H) Reimburse the unit for rentals paid by it for a building or parking facility that is physically located in or physically connected to that allocation area under any lease entered into under IC 36-1-10.
- (I) Reimburse public and private entities for expenses incurred in training employees of industrial facilities that are located:
 - (i) in the allocation area; and
 - (ii) on a parcel of real property that has been classified as industrial property under the rules of the department of local government finance.

However, the total amount of money spent for this purpose in any year may not exceed the total amount of money in the allocation fund that is attributable to property taxes paid by the industrial facilities described in this clause. The reimbursements under this clause must be made within three (3) years after the date on which the investments that are the basis for the increment financing are made.

The special fund may not be used for operating expenses of the commission.

(4) Before July 15 of each year, the commission shall do the following:

- (A) Determine the amount, if any, by which the assessed value of the taxable property in the allocation area for the

most recent assessment date minus the base assessed value, when multiplied by the estimated tax rate of the allocation area, will exceed the amount of assessed value needed to provide the property taxes necessary to make, when due, principal and interest payments on bonds described in subdivision (3) plus the amount necessary for other purposes described in subdivision (3) and subsection (g).

(B) Provide a written notice to the county auditor, the fiscal body of the county or municipality that established the department of redevelopment, and the officers who are authorized to fix budgets, tax rates, and tax levies under IC 6-1.1-17-5 for each of the other taxing units that is wholly or partly located within the allocation area. The notice must:

- (i) state the amount, if any, of excess assessed value that the commission has determined may be allocated to the respective taxing units in the manner prescribed in subdivision (1); or
- (ii) state that the commission has determined that there is no excess assessed value that may be allocated to the respective taxing units in the manner prescribed in subdivision (1).

The county auditor shall allocate to the respective taxing units the amount, if any, of excess assessed value determined by the commission. The commission may not authorize an allocation to the respective taxing units under this subdivision if to do so would endanger the interests of the holders of bonds described in subdivision (3).

(c) For the purpose of allocating taxes levied by or for any taxing unit or units, the assessed value of taxable property in a territory in the allocation area that is annexed by any taxing unit after the effective date of the allocation provision of the resolution is the lesser of:

- (1) the assessed value of the property for the assessment date with respect to which the allocation and distribution is made; or
- (2) the base assessed value.

(d) Property tax proceeds allocable to the redevelopment district under subsection (b)(3) may, subject to subsection (b)(4), be irrevocably pledged by the redevelopment district for payment as set forth in subsection (b)(3).

(e) Notwithstanding any other law, each assessor shall, upon petition of the commission, reassess the taxable property situated upon or in, or added to, the allocation area, effective on the next assessment date after the petition.

(f) Notwithstanding any other law, the assessed value of all taxable property in the allocation area, for purposes of tax limitation, property tax replacement, and formulation of the budget, tax rate, and tax levy for each political subdivision in which the property is located, is the lesser of:

- (1) the assessed value of the property as valued without regard to this section; or

(2) the base assessed value.

(g) If any part of the allocation area is located in an enterprise zone created under IC 5-28-15, the unit that designated the allocation area shall create funds as specified in this subsection. A unit that has obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish an allocation fund for the purposes specified in subsection (b)(3) and a special zone fund. Such a unit shall, until the end of the enterprise zone phase out period, deposit each year in the special zone fund the amount in the allocation fund derived from property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) from property located in the enterprise zone that exceeds the amount sufficient for the purposes specified in subsection (b)(3) for the year. A unit that has no obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish a special zone fund and deposit all the property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) in the fund derived from property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) from property located in the enterprise zone. The unit that creates the special zone fund shall use the fund, based on the recommendations of the urban enterprise association, for one (1) or more of the following purposes:

(1) To pay for programs in job training, job enrichment, and basic skill development designed to benefit residents and employers in the enterprise zone. The programs must reserve at least one-half (1/2) of the enrollment in any session for residents of the enterprise zone.

(2) To make loans and grants for the purpose of stimulating business activity in the enterprise zone or providing employment for enterprise zone residents in an enterprise zone. These loans and grants may be made to the following:

(A) Businesses operating in the enterprise zone.

(B) Businesses that will move their operations to the enterprise zone if such a loan or grant is made.

(3) To provide funds to carry out other purposes specified in subsection (b)(3). However, where reference is made in subsection (b)(3) to the allocation area, the reference refers, for purposes of payments from the special zone fund, only to that part of the allocation area that is also located in the enterprise zone.

(h) The state board of accounts and department of local government finance shall make the rules and prescribe the forms and procedures that they consider expedient for the implementation of this chapter. After each general reassessment of real property in an area under IC 6-1.1-4-4 or reassessment under a county's reassessment plan prepared under IC 6-1.1-4-4.2, the department of local government finance shall adjust the base assessed value one (1) time to neutralize any effect of the reassessment of the real property in the area on the property tax proceeds allocated to the redevelopment district under this section. After each annual

adjustment under IC 6-1.1-4-4.5, the department of local government finance shall adjust the base assessed value to neutralize any effect of the annual adjustment on the property tax proceeds allocated to the redevelopment district under this section. However, the adjustments under this subsection may not include the effect of property tax abatements under IC 6-1.1-12.1, and these adjustments may not produce less property tax proceeds allocable to the redevelopment district under subsection (b)(3) than would otherwise have been received if the general reassessment, reassessment under the county's reassessment plan, or annual adjustment had not occurred. The department of local government finance may prescribe procedures for county and township officials to follow to assist the department in making the adjustments.

(i) The allocation deadline referred to in subsection (b) is determined in the following manner:

(1) The initial allocation deadline is December 31, 2011.

(2) Subject to subdivision (3), the initial allocation deadline and subsequent allocation deadlines are automatically extended in increments of five (5) years, so that allocation deadlines subsequent to the initial allocation deadline fall on December 31, 2016, and December 31 of each fifth year thereafter.

(3) At least one (1) year before the date of an allocation deadline determined under subdivision (2), the general assembly may enact a law that:

(A) terminates the automatic extension of allocation deadlines under subdivision (2); and

(B) specifically designates a particular date as the final allocation deadline.

Modification of definition of "property taxes"; depreciable personal property

Sec. 55. (a) As used in this section, "depreciable personal property" refers to all of the designated taxpayer's depreciable personal property that is located in the allocation area.

(b) As used in this section, "designated taxpayer" means a taxpayer designated by the commission in a declaratory resolution adopted or amended under section 40(a) or 40(b) of this chapter, and with respect to which the commission finds that:

(1) taxes to be derived from the taxpayer's depreciable personal property in the allocation area, in excess of the taxes

attributable to the base assessed value of that personal property, are needed to pay debt service for bonds issued under section 45 of this chapter to make payments on leases payable under section 46 of this chapter in order to provide local public improvements for a particular allocation area;

(2) the taxpayer's property in the allocation area will consist primarily of industrial, manufacturing, warehousing, research and development, processing, distribution, or transportation related projects or regulated amusement devices (as defined in IC 22-12-1-19.1) and related improvements; and

(3) the taxpayer's property in the allocation area will not consist primarily of retail, commercial, or residential projects, other than an amusement park or tourism industry project.

(c) The allocation provision of a declaratory resolution may modify the definition of "property taxes" under section 53(a) of this chapter to include taxes imposed under IC 6-1.1 on the depreciable personal property of designated taxpayers in accordance with the procedures and limitations set forth in this section and section 53 of this chapter. If such a modification is included in the resolution, for purposes of section 53 of this chapter, the term "base assessed value" with respect to the depreciable personal property of designated taxpayers means the net assessed value of the depreciable personal property as finally determined for the assessment date immediately preceding the adoption date of the modification as adjusted under section 53(h) of this chapter.

Designation of economic development area

Sec. 57. (a) The commission may, by following the procedures set forth in sections 8, 9, and 10 of this chapter, approve a plan for and determine that a geographic area in the redevelopment district is an economic development area. Designation of an economic development area is subject to judicial review in the manner prescribed in section 11 of this chapter.

(b) The commission may determine that a geographic area is an economic development area if it finds that:

(1) the plan for the economic development area:

(A) promotes significant opportunities for the gainful employment of its citizens;

(B) attracts a major new business enterprise to the unit;

(C) retains or expands a significant business enterprise existing in the boundaries of the unit; or

(D) meets other purposes of this section and sections 28 and 58 of this chapter;

(2) the plan for the economic development area cannot be achieved by regulatory processes or by the ordinary operation of private enterprise without resort to the powers allowed under this section and sections 28 and 58 of this chapter because of:

- (A) lack of local public improvement;
- (B) existence of improvements or conditions that lower the value of the land below that of nearby land;
- (C) multiple ownership of land; or
- (D) other similar conditions;

(3) the public health and welfare will be benefited by accomplishment of the plan for the economic development area;

(4) the accomplishment of the plan for the economic development area will be of public utility and benefit as measured by:

- (A) attraction or retention of permanent jobs;
- (B) increase in the property tax base;
- (C) improved diversity of the economic base; or
- (D) other similar public benefits; and

(5) the plan for the economic development area conforms to the comprehensive plan of development for the county.

(c) The determination that a geographic area is an economic development area must be approved by the excluded city legislative body. The approval may be given either before or after judicial review is requested. The requirement that the excluded city legislative body approve economic development areas does not prevent the commission from amending the plan for the economic development area.

Commission powers in economic development area

Sec. 58. (a) All of the rights, powers, privileges, and immunities that may be exercised by a commission in a redevelopment project area may be exercised by a commission in an economic development area, subject to the following:

- (1) The content and manner of exercise of these rights, powers, privileges, and immunities shall be determined by the purposes and nature of an economic development area.
- (2) Real property (or interests in real property) relative to which action is taken under this section or section 28 or 57 of this chapter in an economic development area is not required to meet the conditions described in IC 36-7-1-3.
- (3) Bonds may be issued in accordance with section 45 of this chapter to defray expenses of carrying out activities under this chapter in economic development areas if no other revenue sources are available for this purpose.
- (4) The tax exemptions set forth in section 52 of this chapter are applicable in economic development areas.
- (5) An economic development area may be an allocation area

for the purposes of distribution and allocation of property taxes. However, a declaratory resolution or an amendment that establishes an allocation area must be approved by resolution of the legislative body of the excluded city.

(6) The excluded city legislative body may not use its power of eminent domain under section 39 of this chapter to carry out activities under this chapter in economic development areas.

(b) The content and manner of discharge of duties set forth in section 39(a) of this chapter shall be determined by the purposes and nature of an economic development area.

Program for age-restricted housing

Sec. 59. (a) A commission may adopt a resolution to establish a program for age-restricted housing. The program:

(1) must be limited to age-restricted housing that satisfies the requirements of 42 U.S.C. 3607 (the federal Housing for Older Persons Act);

(2) may include any relevant elements the commission considers appropriate;

(3) may be adopted as part of a redevelopment plan or an amendment to a redevelopment plan; and

(4) may establish an allocation area for purposes of sections 26 and 60 of this chapter for the accomplishment of the program.

The program must be approved by the legislative body of the consolidated city as specified in section 9 of this chapter.

(b) The notice and hearing provisions of sections 10 and 10.5 of this chapter, including notice under section 10(c) of this chapter to a taxing unit that is wholly or partly located within an allocation area, apply to the resolution adopted under subsection (a). Judicial review of the resolution may be made under section 11 of this chapter.

(c) Before formal submission of any age-restricted housing program to the commission, the department of redevelopment:

(1) shall consult with persons interested in or affected by the proposed program; and

(2) shall hold public meetings in the areas to be affected by the proposed program to obtain the views of affected persons.

Powers of commission in implementing age-restricted housing program

Sec. 60. (a) Except as provided in subsection (b), all the rights, powers, privileges, and immunities that may be exercised by a commission in blighted, deteriorated, or deteriorating areas may be exercised by a commission in implementing its program for age-restricted housing, including the following:

(1) The special tax levied in accordance with section 19 of this chapter may be used to accomplish the purposes of the age-restricted housing program.

(2) Bonds may be issued under this chapter to accomplish the purposes of the age-restricted housing program, but only one (1) issue of bonds may be issued and payable from increments in any allocation area established under section 61 of this chapter, except for refunding bonds or bonds issued in an amount necessary to complete an age-restricted housing program for which bonds were previously issued.

(3) Leases may be entered into under this chapter to accomplish the purposes of the age-restricted housing program.

(4) The tax exemptions set forth in section 25 of this chapter are applicable.

(5) Property taxes may be allocated under section 26 of this chapter.

(b) A commission may not exercise the power of eminent domain in implementing its age-restricted housing program.

Findings for age-restricted housing program

Sec. 61. (a) A commission must make the following findings in the resolution adopting an age-restricted housing program under section 59 of this chapter:

(1) The program cannot be accomplished by regulatory processes or by the ordinary operation of private enterprise because of:

(A) the lack of public improvements;

(B) the existence of improvements or conditions that lower the value of the land below that of nearby land; or

(C) other similar conditions.

(2) The public health and welfare will be benefited by accomplishment of the purposes of the program.

(3) The accomplishment of the purposes of the program will be of public utility and benefit as measured by:

(A) an increase in the property tax base;

(B) encouraging an age-diverse population in the unit; or

(C) other similar public benefits.

(4) The program will enable the unit to encourage older residents to locate or relocate to the unit.

(5) The program will not increase the school-age population.

(b) Any program for age-restricted housing established under this section and subject to the provisions of section 62 of this chapter may not require a developer, owner, or other interested party of any proposed or existing development to comply with any provisions of this section or the provisions of section 62 of this chapter unless the commission or its designated agent receives a notarized writing signed by the owner or owners of record of a development within the program area affirmatively indicating the owner's or owners' consent

to comply. If the commission or its designated agent receives such a consent, the consenting party or the commission may terminate the application of this section to the proposed or existing development only if the commission and the consenting party agree to do so.

"Base assessed value"; allocation of taxes for age-restricted housing program; use of taxes

Sec. 62. (a) Notwithstanding section 26(a) of this chapter, with respect to the allocation and distribution of property taxes for the accomplishment of the purposes of an age-restricted housing program adopted under section 59 of this chapter, "base assessed value" means the net assessed value of all of the property, other than personal property, as finally determined for the assessment date immediately preceding the effective date of the allocation provision, as adjusted under section 26(h) of this chapter.

(b) The allocation fund established under section 26(b) of this chapter for the allocation area for an age-restricted housing program adopted under section 59 of this chapter may be used only for purposes related to the accomplishment of the purposes of the program, including, but not limited to, the following:

- (2) The acquisition of real property and interests in real property within the allocation area.
- (3) The preparation of real property in anticipation of development of the real property within the allocation area.
- (4) To do any of the following:

 - (B) Establish, augment, or restore the debt service reserve for bonds payable solely or in part from allocated tax proceeds in the allocation area.
 - (C) Pay the principal of and interest on bonds payable from allocated tax proceeds in the allocation area and from the special tax levied under section 19 of this chapter.
 - (D) Pay the principal of and interest on bonds issued by the unit to pay for local public improvements that are physically located in or physically connected to the allocation area.
 - (E) Pay premiums on the redemption before maturity of bonds payable solely or in part from allocated tax proceeds in the allocation area.
 - (F) Make payments on leases payable from allocated tax proceeds in the allocation area under section 17.1 of this

chapter.

(G) Reimburse the unit for expenditures made by the unit for local public improvements (which include buildings, parking facilities, and other items described in section 17(a) of this chapter) that are physically located in or physically connected to the allocation area.

(c) Notwithstanding section 26(b) of this chapter, the commission shall, relative to the allocation fund established under section 26(b) of this chapter for an allocation area for an age-restricted housing program adopted under section 59 of this chapter, do the following before July 15 of each year:

(1) Determine the amount, if any, by which the assessed value of the taxable property in the allocation area for the most recent assessment date minus the base assessed value, when multiplied by the estimated tax rate of the allocation area, will exceed the amount of assessed value needed to produce the property taxes necessary to:

(A) make the distribution required under section 26(b)(2) of this chapter;

(B) make, when due, principal and interest payments on bonds described in section 26(b)(3) of this chapter;

(C) pay the amount necessary for other purposes described in section 26(b)(3) of this chapter; and

(D) reimburse the county or municipality for anticipated expenditures described in subsection (b)(2).

(2) Provide a written notice to the county auditor, the fiscal body of the county or municipality that established the department of redevelopment, and the officers who are authorized to fix budgets, tax rates, and tax levies under IC 6-1.1-17-5 for each of the other taxing units that is wholly or partly located within the allocation area. The notice must:

(A) state the amount, if any, of excess property taxes that the commission has determined may be paid to the respective taxing units in the manner prescribed in section 26(b)(1) of this chapter; or

(B) state that the commission has determined that there is no excess assessed value that may be allocated to the respective taxing units in the manner prescribed in subdivision (1).

The county auditor shall allocate to the respective taxing units the amount, if any, of excess assessed value determined by the commission.

 - (C) Protect and increase state and local tax bases or revenues.

The notice must provide a general description of the boundaries of the district and state that information concerning the district can be inspected at the commission's office. The notice must also name a date when the commission will hold a hearing to receive and hear remonstrances and other testimony from persons interested in or affected by the establishment of the district. IC 36-7-15.2-14

Appeal by aggrieved person; bond; procedure

Sec. 14. (a) A person who filed a written remonstrance with the commission under section 11 of this chapter and is aggrieved by the final action taken may, within ten (10) days after that final action, file an appeal in the office of the clerk of the circuit or superior court with a copy of the resolution of the commission and the person's remonstrance against that resolution.

(b) If an appeal is filed, the commission may petition that the appeal be dismissed unless the remonstrator posts a bond with a surety approved by the court payable to the commission for the payment of all damages and costs that may accrue by reason of the filing of the lawsuit if the commission prevails. A hearing on a petition to dismiss an appeal shall be conducted in the same manner as a hearing on a temporary injunction under IC 34-26. If at the hearing the court determines that the remonstrator cannot establish facts that would entitle the remonstrator to a temporary injunction, the court shall set the amount of the bond to be filed by the remonstrator in an amount found by the judge to cover all damages and costs that may accrue to the commission because of the appeal if the commission prevails. If no bond is filed by the remonstrator with sureties approved by the court within ten (10) days after the court's order is entered, the suit shall be dismissed, and no court has further jurisdiction of the appeal or any other lawsuit involving any issue that was or could have been raised on the appeal.

(c) The burden of proof in the appeal is on the remonstrator, and a change of venue from the county may not be granted.

(d) An appeal under this section shall be promptly heard by the court without a jury. All remonstrances upon which an appeal has been taken shall be consolidated and heard and determined within thirty (30) days after the time of the filing of the appeal. Notwithstanding any other law, the court shall decide the appeal based on the record and evidence before the commission, not by trial de novo, and may sustain the remonstrance only if it finds that the actions of the commission in adopting the resolution were arbitrary and capricious.

(e) The court may confirm the final action of the commission or sustain the remonstrances. The judgment of the court is final and conclusive, unless an appeal is taken as in other civil actions. An

appeal to the court of appeals or supreme court has priority over all other civil appeals.

(f) Either the remonstrator or the commission may appeal the court order to the Indiana supreme court within the ten (10) day period by notice of appeal on a statement of errors in the same manner as is provided in a petition for mandate or prohibition. The supreme court may stay the lower court order pending its own decision, may set a bond to be filed by the remonstrator, may modify the order of the lower court, or may enter its order as the final order in a case.

- (1) A certified copy of the resolution designating the district.
- (2) A complete list of street names and the range of street numbers of each street located within the district.

Annual assessment of benefits and damages; schedule; limitation on assessments

Sec. 14. (a) The commission may make an annual assessment of benefits and damages within an improvement and maintenance district for the purpose of defraying part or all of the cost of an improvement and maintenance project. The assessment of benefits and damages must comply with the formula contained in the resolution establishing the district.

(b) The commission shall annually prepare a schedule that describes each parcel of real property in an improvement and maintenance district that it determines to be benefited by the improvement and maintenance project, and states the percentage of the total benefit that is received by each parcel of real property.

(c) The commission may retain or employ qualified personnel for necessary technical or consulting assistance.

(d) After determining under subsection (b) the percentage of benefit that is received by each parcel of real property, the commission shall consider the fiscal needs of the improvement and maintenance district that need to be defrayed by the assessment of special benefits, and shall apply the percentage for each parcel as determined under subsection (b) to the total amount that is to be defrayed by special assessment, and determine the assessment for each parcel.

(e) The total of the assessments established under subsection (d) may not exceed either:

- (1) the sum of the amount set out in or proposed for the budget of the improvement and maintenance district; or

Property owned by state or municipal corporation; payment of assessments; charges; services as payment

Sec. 16. (a) If property located within an improvement and maintenance district is owned and used by the state or any municipal corporation, the commission shall determine the amount that would be levied as an assessment for the property under section 14 of this chapter and provide this information to the governor or the executive of the municipal corporation. The state or the municipal corporation may choose to pay an amount equal to the assessment. The state or the municipal corporation shall indicate no later than forty-five (45) days after receiving this information in writing from the commission whether or not it will pay this amount. If it indicates in writing that it will pay this amount, it shall pay the amount. If it does not obligate itself to pay the amount, the department is responsible for payment of this amount. However, the department may charge the state or the municipal corporation:

(1) for expenses incurred in carrying out the improvement and maintenance project on or relative to land owned and used by the state or the municipal corporation; and

(2) a reasonable sum for allowing the introduction into the canal of any geothermal discharge water from properties owned and used by the state or the municipal corporation.

(b) If the department and the state or the municipal corporation do not agree on the amount that should be charged under subsection (a)(1) and (a)(2), the amount shall be determined by a three (3) person committee consisting of a representative of the governor or the executive of the municipal corporation (whichever is involved in the disagreement), a representative of the department, and a third person mutually agreed upon by those two (2) representatives.

(c) If the commission and the state or the municipal corporation agree, the state or the municipal corporation may provide specified services in part or all of the improvement and maintenance district as a substitute for paying part or all of the amount identified under subsection (a).

Notice of proposed assessment; mailing to parcel owner; hearing on remonstrance; finality of decision; appeal

Sec. 17. (a) Promptly after determining the proposed assessment for each parcel, the commission shall mail notice (first class postage

prepaid) to each owner of property to be assessed. This notice must:

- (1) set forth the amount of the proposed assessment;
- (2) state that the proposed assessment on each parcel of real property in the improvement and maintenance district is on file and can be seen in the commission's office;
- (3) state the time and place where written remonstrances against the assessment may be filed;
- (4) set forth the time and place where the commission will hear any owner of assessed real property who has filed a remonstrance before the hearing date; and
- (5) state that the commission, after hearing evidence, may increase or decrease, or leave unchanged, the assessment on any parcel.

(b) The notices must be deposited in the mail twenty (20) days before the hearing date. The notices to the owners must be addressed as the names and addresses appear on the tax duplicates and the records of the county auditor.

(c) At the time fixed in the notice, the commission shall hear any owner of assessed real property who has filed a written remonstrance before the date of the hearing. The hearing may be continued from time to time as long as is necessary to hear the owners. The commission may utilize a hearing officer (who may be an employee of the city) to hear evidence regarding any parcel of real property about which a written remonstrance has been filed and to make a written recommendation of decision to the commission.

(d) The commission shall render its decision by increasing, or decreasing, or by confirming each assessment by setting opposite each name, parcel, and proposed assessment, the amount of the assessment as determined by the commission. However, if the total of the assessments exceeds the amount needed, the commission shall make a prorated reduction in each assessment.

(e) The signing of the assessment schedule by a majority of the members of the commission, and the delivery of the schedule to the fiscal officer of the city, constitutes a final and conclusive determination of the benefits or damages, if any, that are assessed. However, any owner who had previously filed a written remonstrance (as provided in this chapter) with the commission, or any owner whose assessment was increased above the amount determined by the formula (whether the owner filed a written remonstrance or not) may appeal. This appeal must be taken as provided in IC 34-13-6, and proceed to trial, hearing, and final judgment as provided in IC 34-13-6 for all parties.

Availability of housing; national defense activities; major disasters

Sec. 22. (a) Notwithstanding any statute regarding rentals of, preferences or eligibility for admissions to, or occupancy of dwellings in housing projects, during the period that a housing

authority finds that there is an acute need for housing to assure the availability of dwellings for persons engaged in national defense activities or for victims of a major disaster, it may:

- (1) undertake the development and administration of housing projects for the federal government;
- (2) make dwellings in any of its housing projects available to persons engaged in national defense activities or to victims of a major disaster; and
- (3) contract with any governmental entity for advance payment or reimbursement for the furnishing of housing to victims of a major disaster, including the furnishing of housing free of charge for needy disaster victims during the period of acute need.

(b) For purposes of this section, persons engaged in national defense activities are:

- (1) persons in the armed forces of the United States;
- (2) employees of the department of defense;
- (3) workers engaged or to be engaged in activities connected with national defense; and
- (4) the families of these persons, employees, and workers who reside with them.

(c) For purposes of this section, a major disaster is a flood, drought, fire, hurricane, earthquake, storm, or other catastrophe that, as determined by the fiscal body that established the housing authority, is of sufficient severity and magnitude to warrant the use of available resources of the federal, state, and local governments to alleviate the resulting damage, hardship, and suffering.

Authorities exempt from certain statutory requirements; trust bids, proposals, or quotations

Sec. 23. (a) A housing authority is not subject to statutes regarding the acquisition, operation, construction, reconstruction, improvement, alteration, repair, disposition, or exchange of real or personal property by other public bodies, except:

- (1) with regard to money received from municipalities or counties and derived from local tax levies;
- (2) with regard to money received from the state; and
- (3) as otherwise provided by this chapter.

(b) A housing authority is not subject to statutes regarding appropriations by other public bodies.

(c) This subsection applies if a housing authority disposes of real property or awards a contract for the procurement of property by acceptance of bids, proposals, or quotations. A bid, proposal, or quotation submitted by a trust (as defined in IC 30-4-1-1(a)) must identify each:

- (1) beneficiary of the trust; and
- (2) settlor empowered to revoke or modify the trust.

Establishment of rental rates

Sec. 24. (a) A housing authority shall manage and operate its housing projects in an efficient manner so that it may fix the rentals for dwelling accommodations at the lowest possible rates while providing decent, safe, and sanitary dwelling accommodations. The authority may not construct or operate a project for profit or as a source of revenue to the municipality or county.

(b) A housing authority may not fix the rentals for dwellings in its projects at higher rates than it finds necessary to produce revenues that, together with all other available money, revenues, income, and receipts of the authority, will be sufficient:

- (1) to pay, as they become due, the principal and interest on the bonds, notes, or warrants of the authority;
- (2) to meet the cost of, and to provide for, maintaining and operating the projects, including the cost of insurance and the administrative expenses of the authority;
- (3) to create, during a period of not less than six (6) years immediately after its issuance of any bonds, notes, or warrants, a reserve sufficient to meet the largest principal and interest payments due on them in any one (1) year after that, and to maintain that reserve; and
- (4) to accumulate reasonable reserves to cover the making of necessary repairs.

(c) This section does not limit the power of an authority to vest rights in an obligee under section 33 of this chapter free from all the restrictions imposed by this section.

As added by Acts 1981, P.L.309, SEC.37.

IC 36-7-18-25

Exemptions from taxes and assessments; agreements to pay for services

Sec. 25. The property of a housing authority is exempt from all taxes and special assessments of the state or any political subdivision. In lieu of taxes or special assessments, an authority may agree to make payments to any political subdivision for services, improvements, or facilities furnished by that political subdivision for the benefit of a housing project owned by the authority. However, these payments may not exceed the estimated cost to the political subdivision of the services, improvements, or facilities to be furnished.

As added by Acts 1981, P.L.309, SEC.37.

IC 36-7-18-26

Tenant selection; rentals; adoption of rules

Sec. 26. (a) A housing authority shall observe the following rules with respect to rentals and tenant selection in the operation and management of housing projects:

(1) An authority may not accept a person as a tenant in a dwelling in a project if the persons who would occupy the dwelling have an aggregate annual income that equals or exceeds the amount that, as determined by the authority, is necessary to enable those persons to secure safe, sanitary, and uncongested dwelling accommodations within the jurisdiction of the authority and to provide an adequate standard of living for themselves. The determination of the authority is conclusive.

(2) An authority may rent or lease the dwelling accommodations in a project only at rentals within the financial reach of persons who lack the amount of income that, as determined in subdivision (1), is necessary to obtain safe, sanitary, and uncongested dwelling accommodations within the jurisdiction of the authority and to provide an adequate standard of living.

(3) An authority may rent or lease to a tenant a dwelling consisting of a number of rooms no greater than that which it considers necessary to provide safe and sanitary accommodations without overcrowding.

(b) The housing authority shall adopt rules indicating the manner in which it will comply with this section. These rules apply equally to all tenants and must be posted for public inspection in a conspicuous place in the office of the authority.

(c) This section does not limit the power of an authority to vest rights in an obligee under section 33 of this chapter free from all the restrictions imposed by this section.

As added by Acts 1981, P.L.309, SEC.37.

IC 36-7-18-27

Persons ineligible as tenants

Sec. 27. (a) Officers and members of the authority other than the resident manager are not eligible as tenants under this chapter. This section may not be construed to prevent an existing tenant from being appointed to the housing authority board. However, employees of the authority are eligible as tenants under this chapter.

(b) Employees of the United States, the state, and their political subdivisions and agencies may not comprise more than twenty-five percent (25%) of the tenants in a housing project.

(c) This section does not limit the power of an authority to vest rights in an obligee under section 33 of this chapter free from all the restrictions imposed by this section.

As added by Acts 1981, P.L.309, SEC.37. Amended by P.L.341-1985, SEC.1; P.L.14-1991, SEC.25; P.L.324-1995, SEC.1.

IC 36-7-18-28

Eminent domain

Sec. 28. (a) A housing authority may, by the exercise of the power of eminent domain, acquire any real property that it considers necessary for its purposes under this chapter, if it first adopts a

resolution declaring that necessity. An authority may exercise the power of eminent domain:

- (1) under IC 32-24;
- (2) under IC 32-24-2, as if it were a works board; or
- (3) under any other applicable statutory provisions for the exercise of the power of eminent domain.

(b) Property already devoted to a public use may be acquired under this section, but real property belonging to the state or any political subdivision may not be acquired without the consent of the state or political subdivision that owns the property.

IC 36-7-18-29

Housing projects; applicability of ordinances and regulations

Sec. 29. All housing projects of a housing authority are subject to the applicable local ordinances and regulations regarding planning, zoning, sanitation, and building. In the planning and location of any housing project, an authority shall consider the relationship of the project to any larger plan or long-range program for the development of the area in which the authority functions.

As added by Acts 1981, P.L.309, SEC.37.

IC 36-7-18-30

Bonds, notes, and warrants; authorization; liability; limitations upon payment; tax exemptions; legalization

Sec. 30. (a) A housing authority may issue bonds, notes, or warrants to finance any of its corporate purposes. An authority may also issue refunding bonds for the purpose of paying or retiring bonds issued by it.

(b) A housing authority may determine the types of bonds, notes, or warrants to be issued, including those on which the principal and interest are payable:

- (1) exclusively from the income and revenues of the housing project financed with their proceeds;
- (2) exclusively from the income and revenues of certain designated housing projects, whether or not they were financed in whole or in part with their proceeds; or
- (3) except for a consolidated city, from its revenues generally.

The bonds, notes, or warrants may be additionally secured by a pledge of any revenues or a mortgage of any project or other property of the authority.

(c) Neither the commissioners of an authority nor any person executing the bonds, notes, or warrants under this section are personally liable on the bonds, notes, or warrants.

(d) The bonds, notes, or warrants of a housing authority are not a debt of the state or any political subdivision and must state this fact on their face. Neither the state nor any political subdivision is liable on them. The bonds, notes, or warrants are not payable out of any funds or properties other than those of the authority.

(e) Bonds, notes, or warrants issued under this chapter are not an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction.

(f) The bonds, notes, or warrants of a housing authority and the interest on them are exempt from all taxes.

(g) The bonds, notes, or warrants of a consolidated city:

(1) are payable only from revenues derived from the public housing function;

(2) are payable only from a special fund continued or established for that purpose; and

(3) are not a debt of the consolidated city and must state this fact on their face.

The consolidated city is not liable on the bonds, notes, or warrants other than out of the special fund.

(h) All bonds, notes, or warrants issued by a housing authority or a consolidated city serving the public housing function before September 1, 1987, are legalized, ratified, and declared valid, and all proceedings had and actions taken under which those bonds, notes, or warrants were issued are fully legalized and declared valid. The assumption of any obligations of a housing authority by a consolidated city is also legalized and declared valid.

(i) Bonds, notes, or warrants payable by a consolidated city under its assumption of the obligations of a housing authority under this chapter are payable only out of the funds pledged to obligees and as such are a limited obligation of the consolidated city in accordance with subsections (c), (d), (e), and (g).

The bonds, notes, or warrants must then be authorized by resolution of the authority.

(b) After the bonds, notes, or warrants have been approved under subsection (a), they may be issued in one (1) or more series, with the:

(1) dates;

(2) maturities;

(3) denominations;

(7) manner of execution;

(8) medium of payment;

(9) places of payment; and

(10) terms of redemption, with or without premium;

provided by the resolution or its trust indenture or mortgage.

(c) The bonds, notes, or warrants shall be sold at public sale under IC 5-1-11, for not less than par value, after notice published in accordance with IC 5-3-1. However, they may be sold at not less than par value to the federal government, at private sale without any public advertisement.

(d) If any of the commissioners or officers of the housing authority whose signatures appear on any bonds, notes, or warrants or coupons cease to be commissioners or officers before the delivery, exchange, or substitution of the bonds, notes, or warrants, their signatures remain valid and sufficient for all purposes, as if they had remained in office until the delivery, exchange, or substitution.

(e) Subject to provision for registration and notwithstanding any other law, any bonds, notes, or warrants issued under this chapter are fully negotiable.

(f) In any proceedings involving the validity or enforceability of any bond, note, or warrant of a housing authority or of its security, if the instrument states that it has been issued by the authority to aid in financing a housing project to provide dwelling accommodations for persons of low income, it shall be conclusively presumed to have been issued for that purpose and the project shall be conclusively presumed to have been planned, located, and constructed in accordance with this chapter.

The report must cover the operations and activities of the authority, in a form prescribed by the board. The board may from time to time require the report to include specific answers to questions upon which the board desires information. The authority shall keep copies of all periodical reports on file in its office and make them available for examination by the public.

Jurisdiction of authorities; shared jurisdiction

Sec. 41. (a) This subsection applies to a municipality located in a county that does not have a county housing authority. A municipal housing authority has jurisdiction to exercise the powers granted by this chapter in the municipality and in the area within five (5) miles of the corporate boundaries of the municipality. However, the authority may not exercise its powers within the corporate

boundaries of another municipality without the consent, by resolution, of the fiscal body of that municipality.

(b) Except as provided in subsection (c), a county housing authority has jurisdiction to exercise the powers granted by this chapter in all unincorporated areas of the county outside the jurisdiction of municipal housing authorities. However, the jurisdiction of a county housing authority may be expanded to include all or part of the jurisdiction of a municipal housing authority within the corporate boundaries of the municipality if the fiscal bodies of the county and of the municipality each adopt a resolution declaring a need for the county housing authority to exercise its powers within the jurisdiction of the municipal housing authority. Such a resolution may be adopted only after a public hearing, with notice of the time, place, and purpose of the hearing given by the fiscal body by publication in accordance with IC 5-3-1.

Aid by political subdivisions; authorization

IC 36-7-19-3

Powers of political subdivisions

Sec. 3. (a) A political subdivision has all the powers necessary or convenient to aid and cooperate in the planning, undertaking, construction, or operation of:

- (1) a housing project under this article; or
- (2) a similar project of the federal government.

(b) The powers granted to a political subdivision by this section include the power to:

- (1) furnish, dedicate, close, pave, install, grade, regrade, plan, or replan public ways, sidewalks, or other places, if it is otherwise empowered to do so;
- (2) plan or replan, zone or rezone any part of the political subdivision;
- (3) make exceptions from building regulations and ordinances;
- (4) enter into agreements (which may extend over any period, notwithstanding any law to the contrary) with a housing authority or the federal government respecting powers to be exercised by the political subdivision under this chapter;
- (5) purchase or legally invest in the bonds, notes, or warrants of a housing authority and exercise all of the rights of a holder of housing authority bonds, notes, or warrants;
- (6) incur the entire expense of any public improvements it makes in exercising the powers granted in this chapter;
- (7) provide financial assistance of any nature to a housing authority;
- (8) acquire for, lease or transfer to, or exchange or trade with a housing authority any interest in real or personal property; and
- (9) exercise all powers granted by this section upon terms determined by the fiscal body of the political subdivision.

(c) Notwithstanding subsections (a) and (b), if a housing authority:

- (1) acquires or takes over a housing project from the federal government; and
- (2) finds, by resolution, that the project is constructed in a

manner that promotes the public interest and affords necessary safety, sanitation, and other protection; a political subdivision may not require any changes in the housing project.

IC 36-7-19-4

Contracts for services, improvements, and facilities

Sec. 4. In connection with:

- (1) a housing project under this article; or
- (2) a similar project of the federal government;

wholly or partly within its jurisdiction, a political subdivision may contract with a housing authority or the federal government with respect to the sums (if any) that the housing authority or the federal government agrees to pay, during any year or period of years, to the political subdivision for the improvements, services, and facilities to be furnished by it for the benefit of the housing project. However, the amount of these payments may not exceed the estimated cost to the political subdivision of the improvements, services, or facilities to be furnished. The absence of a contract for payment does not relieve the political subdivision of the duty to furnish, for the benefit of the housing project, improvements, services, and facilities that the political subdivision usually furnishes without a service fee.

As added by Acts 1981, P.L.309, SEC.38.

IC 36-7-19-5

Resolutions authorizing exercise of powers

Sec. 5. A political subdivision may exercise the powers granted by this chapter if authorized by a resolution of its fiscal body. The resolution takes effect immediately and need not be laid over, published, or posted.

For purposes of providing substantiation of the deductibility of a special assessment for federal adjusted gross income tax purposes under Section 164 of the Internal Revenue Code, the board shall, to the extent practicable, supplement the schedule of special assessments provided to the county auditor with a statement that identifies the part of each special assessment that is allocable to interest, maintenance, and repair charges. If the board provides the county auditor with the statement, the county auditor shall show, on the tax statement, the part of the special assessment that is for interest and maintenance and repair items separately from the remainder of the special assessment.

Appeal; dismissal; bond; burden of proof

Sec. 19. (a) A person who filed a written remonstrance with the commission under section 17 of this chapter and is aggrieved by the final action taken, may within ten (10) days after that final action, file an appeal in the office of the clerk of the circuit or superior court with a copy of the resolution of the commission and the person's remonstrance against that resolution.

(b) If an appeal is filed, the commission may petition that the appeal be dismissed unless the remonstrator posts a bond with a surety approved by the court payable to the commission for the payment of all damages and costs that may accrue by reason of the filing of the lawsuit if the commission prevails. A hearing on a petition to dismiss an appeal shall be conducted in the same manner as a hearing on a temporary injunction under IC 34-26. If at the hearing the court determines that the remonstrator cannot establish facts that would entitle the remonstrator to a temporary injunction, the court shall set the amount of the bond to be filed by the remonstrator in an amount found by the judge to cover all damages and costs that may accrue to the commission because of the appeal if the commission prevails. If no bond is filed by the remonstrator with sureties approved by the court within ten (10) days after the court's order is entered, the suit shall be dismissed, and no court has further jurisdiction of the appeal or any other lawsuit involving any issue that was or could have been raised in the appeal.

(c) The burden of proof in the appeal is on the remonstrator.

(d) An appeal under this section shall be promptly heard by the court without a jury. All remonstrances upon which an appeal has been taken shall be consolidated and heard and determined within thirty (30) days after the time of the filing of the appeal. Notwithstanding any other law, the court shall decide the appeal based on the record and evidence before the commission, not by trial de novo, and may sustain the remonstrance only if the court finds that the actions of the commission in adopting the resolution were arbitrary and capricious.

(e) The court may confirm the final action of the commission or sustain the remonstrances. The final judgment of the court is final and conclusive, unless an appeal is taken as in other civil actions. An appeal to the court of appeals or supreme court has priority over all other civil appeals.

(f) Either the remonstrator or the commission may appeal the court order to the Indiana supreme court within the ten (10) day period by notice of appeal on a statement of errors in the same manner as is provided in a petition for mandate or prohibition. The supreme court may stay the lower court order pending its own decision, may set a bond to be filed by the remonstrator, may modify the order of the lower court, or may enter the court's order as the final order in a case.

The adjustment factor may not be decreased after the factor is determined by the board.

(b) If a business that operates or did operate in the district also has or had one (1) or more other places of business operating in Indiana but outside the district, the business shall, in the manner and for the periods of time requested by the department, certify to the department the amount of taxes remitted by the business under IC 6-2.5 for the business's places of operation that are or were in the district.

IC 36-7-30-13

Amendments to resolution or plan

Sec. 13. (a) The reuse authority must conduct a public hearing before amending a resolution or plan for a military base reuse area. The reuse authority shall give notice of the hearing in accordance with IC 5-3-1. The notice must do the following:

- (1) Set forth the substance of the proposed amendment.
- (2) State the time and place where written remonstrances against the proposed amendment may be filed.
- (3) Set forth the time and place of the hearing.
- (4) State that the reuse authority will hear any person who has filed a written remonstrance during the filing period set forth in subdivision (2).

(b) For the purposes of this section, the consolidation of areas is not considered the enlargement of the boundaries of an area.

(c) If the reuse authority proposes to amend a resolution or plan, the military base reuse authority is not required to have evidence or make findings that were required for the establishment of the original military base reuse area. However, the reuse authority must make the following findings before approving the amendment:

- (1) The amendment is reasonable and appropriate when considered in relation to the original resolution or plan and the purposes of this chapter.
- (2) The resolution or plan, with the proposed amendment, conforms to the comprehensive plan for the unit.

(d) Notwithstanding subsections (a) and (c), if the resolution or plan is proposed to be amended in a way that enlarges the original boundaries of the area by more than twenty percent (20%), the reuse authority must use the procedure provided for the original establishment of areas and must comply with sections 10 through 12 of this chapter.

(e) At the hearing on the amendments, the reuse authority shall consider written remonstrances that are filed. The action of the reuse authority on the amendment is final and conclusive, except that an appeal of the reuse authority's action may be taken under section 14 of this chapter.

Appeal from final action of reuse authority

Sec. 14. (a) A person who filed a written remonstrance with the reuse authority under section 12 or 13 of this chapter and is aggrieved by the final action taken may not more than ten (10) days

after that final action file in the office of the clerk of the circuit or superior court a copy of the order of the reuse authority and person's remonstrances against that order, together with the person's bond conditioned to pay the costs of the person's appeal if the appeal is determined against the person. The only ground of remonstrance that the court may hear is whether the proposed project will be of public utility and benefit. The burden of proof is on the remonstrator.

(b) An appeal under this section shall be promptly heard by the court without a jury. All remonstrances upon which an appeal has been taken shall be consolidated and heard and determined not more than thirty (30) days after the time of the filing of the appeal. The court shall hear evidence on the remonstrances and may confirm the final action of the reuse authority or sustain the remonstrances. The judgment of the court is final and conclusive, unless an appeal is taken as in other civil actions.

IC 36-7-30-15

Purchase of property

Sec. 15. (a) If no appeal is taken or if an appeal is taken but is unsuccessful, the reuse authority shall proceed with the plan to the extent that money is available for that purpose.

(b) Negotiations for the purchase of property may be carried on directly by the reuse authority, by its employees, or by expert negotiators, but no option, contract, or understanding relative to the purchase of real property is binding on the reuse authority until approved and accepted by the reuse authority in writing. Payment for the property purchased shall be made when and as directed by the reuse authority but only on delivery of proper instruments conveying the title or interest of the owner to the reuse authority or its designee.

(c) The acquisition of real and personal property by the reuse authority under this chapter is not subject to the provisions of IC 5-22, IC 36-1-10.5, or any other statutes governing the purchase of property by public bodies or their agencies.

As added by P.L.26-1995, SEC.14. Amended by P.L.49-1997, SEC.80.

IC 36-7-30-16

Acquisition of property by eminent domain

Sec. 16. (a) If the reuse authority considers it necessary to acquire real property in or serving a reuse area by the exercise of the power of eminent domain, it shall adopt a resolution setting out its determination to exercise that power and directing its attorney to file a petition in the name of the unit on behalf of the reuse authority, in the circuit or superior court of the county in which the property is situated. The resolution must contain a finding by the reuse authority that the property to be acquired is in an area needing redevelopment (as defined in IC 36-7-1-3). The resolution must be approved by the legislative body of the unit before the petition is filed.

(b) Eminent domain proceedings under this section are governed

by IC 32-24 and other applicable statutory provisions for the exercise of the power of eminent domain. Property already devoted to a public use may be acquired under this section, but property belonging to the state or a political subdivision may not be acquired without the consent of the state or the political subdivision.

(c) The court having jurisdiction shall direct the clerk of the circuit court to execute a deed conveying the title of real property acquired under this section to the unit for the use and benefit of the reuse authority.

IC 36-7-30-17

Clearing, maintenance, and replanning of area

Sec. 17. (a) The reuse authority may proceed with the clearing and replanning of the area described in the resolution before the acquisition of all of the area. The reuse authority may also proceed with the repair and maintenance of buildings that have been acquired and are not to be cleared. This clearance, repair, and maintenance may be carried out by labor employed directly by the reuse authority or by contract. Contracts for clearance may provide that the contractor is entitled to retain and dispose of salvaged material, as a part of the contract price or on the basis of stated prices for the amounts of the various materials actually salvaged.

(b) All contracts for material or labor under this section shall be let under IC 36-1.

(c) To the extent the reuse authority undertakes to engage in the planning and rezoning of the real property acquired, the opening, closing, relocation, and improvement of public ways, and the construction, relocation, and improvement of levees, sewers, parking facilities, and utility services, the reuse authority shall proceed in the same manner as private owners of the property. The reuse authority may negotiate with the proper officers and agencies of the unit to secure the proper orders, approvals, and consents.

(d) Construction work required in connection with improvements in the area described in the resolution may be carried out by the following:

- (1) The appropriate municipal or county department or agency.
- (2) The reuse authority, if:
 - (A) all plans, specifications, and drawings are approved by the appropriate department or agency; and
 - (B) the statutory procedures for the letting of contracts by the appropriate department or agency are followed by the reuse authority.

(e) The reuse authority may pay any charges or assessments made on account of orders, approvals, consents, and construction work under this section, or may agree to pay the assessments in installments as provided by statute in the case of private owners. The reuse authority may do the following:

- (1) By special waiver filed with the municipal works board or

county executive, waive the statutory procedure and notices required by law in order to create valid liens on private property.

(2) Cause any assessments to be spread on a different basis than that provided by statute.

(f) The real property acquired under this chapter may not be set aside and dedicated for public ways, parking facilities, sewers, levees, parks, or other public purposes until the reuse authority has obtained the consent and approval of the department or agency under whose jurisdiction the property will be placed.

(g) The reuse authority may negotiate for the sale, lease, or other disposition of real and personal property without complying with the provisions of IC 36-1-11 or any other statute governing the disposition of public property. A conveyance under this section may not be made until the agreed consideration has been paid, unless the reuse authority passes a resolution expressly providing that the consideration does not have to be paid before the conveyance is made. The resolution may provide for a mortgage or other security. All deeds, leases, land sale contracts, or other conveyances shall be executed in the name of the reuse authority and shall be signed by the president or vice president of the reuse authority and attested by the secretary-treasurer. A seal is not required on these instruments or any other instruments executed in the name of the reuse authority. Proceeds from the sale, lease, or other disposition of property may be deposited in any fund and used for any purpose permitted under this chapter, as directed by the reuse authority.

Issuance of bonds

Sec. 18. (a) In addition to other methods of raising money for property acquisition, redevelopment, or economic development activities in or directly serving or benefiting a military base reuse area, and in anticipation of the taxes allocated under section 25 of this chapter, other revenues of the district, or any combination of these sources, the reuse authority may by resolution issue the bonds of the special taxing district in the name of the unit.

(b) The reuse authority shall certify a copy of the resolution authorizing the bonds to the municipal or county fiscal officer, who shall then prepare the bonds. The seal of the unit must be impressed on the bonds or a facsimile of the seal must be printed on the bonds.

(c) The bonds must be executed by the appropriate officer of the unit, and attested by the unit's fiscal officer.

(d) The bonds are exempt from taxation for all purposes.

(e) Bonds issued under this section may be sold at public sale in accordance with IC 5-1-11 or at a negotiated sale.

(f) The bonds are not a corporate obligation of the unit but are an indebtedness of the taxing district. The bonds and interest are payable, as set forth in the bond resolution of the reuse authority, from any of the following:

- (1) The tax proceeds allocated under section 25 of this chapter.
- (2) Other revenues available to the reuse authority.
- (3) A combination of the methods stated in subdivisions (1) through (2).

If the bonds are payable solely from the tax proceeds allocated under section 25 of this chapter, other revenues of the reuse authority, or any combination of these sources, the bonds may be issued in any amount without limitation.

(g) Proceeds from the sale of bonds may be used to pay the cost of interest on the bonds for a period not to exceed five (5) years after the date of issuance.

(h) All laws relating to the filing of petitions requesting the issuance of bonds and the right of taxpayers and voters to remonstrate against the issuance of bonds do not apply to bonds issued under this chapter.

(i) If a debt service reserve is created from the proceeds of bonds, the debt service reserve may be used to pay principal and interest on the bonds as provided in the bond resolution.

(j) If bonds are issued under this chapter that are payable solely or in part from revenues of the reuse authority, the reuse authority may adopt a resolution or trust indenture or enter into covenants as is customary in the issuance of revenue bonds. The resolution or trust indenture may pledge or assign revenues of the reuse authority and properties becoming available to the reuse authority under this chapter. The resolution or trust indenture may also contain provisions for protecting and enforcing the rights and remedies of the bond owners as may be reasonable and proper and not in violation of law, including a covenant setting forth the duties of the reuse authority. The reuse authority may establish fees and charges for the use of any project and covenant with the owners of any bonds to set the fees and charges at a rate sufficient to protect the interest of the owners of the bonds. Revenue bonds issued by the reuse authority that are payable solely from revenues of the reuse authority shall contain a statement to that effect in the form of the bond.

Lease of property

Sec. 19. (a) A reuse authority may enter into a lease of any property that could be financed with the proceeds of bonds issued under this chapter with a lessor for a term not to exceed fifty (50) years and the lease may provide for payments to be made by the reuse authority from taxes allocated under section 25 of this chapter, any other revenues available to the reuse authority, or any combination of these sources.

(b) A lease may provide that payments by the reuse authority to the lessor are required only to the extent and only for the period that the lessor is able to provide the leased facilities in accordance with the lease. The terms of each lease must be based upon the value of

the facilities leased and may not create a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(c) A lease may be entered into by the reuse authority only after a public hearing by the reuse authority at which all interested parties are provided the opportunity to be heard. After the public hearing, the reuse authority may adopt a resolution authorizing the execution of the lease on behalf of the unit if the reuse authority finds that the service to be provided throughout the term of the lease will serve the public purpose of the unit and is in the best interests of its residents. Any lease approved by a resolution of the reuse authority must be approved by the fiscal body of the unit.

(d) A reuse authority entering into a lease payable from allocated taxes under section 25 of this chapter or other available funds of the reuse authority may do the following:

(1) Pledge the revenue to make payments under the lease under IC 5-1-14-4.

(2) Establish a special fund to make the payments.

(e) Lease payments may be limited to money in the special fund so that the obligations of the reuse authority to make the lease rental payments are not considered a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(f) Except as provided in this section, approvals of any governmental body or agency are not required before the reuse authority may enter into a lease under this section.

(g) If a reuse authority exercises an option to buy a leased facility from a lessor, the reuse authority may subsequently sell the leased facility, without regard to any other statute, to the lessor at the end of the lease term at a price set forth in the lease or at fair market value established at the time of the sale by the reuse authority through auction, appraisal, or negotiation. If the facility is sold at auction, after appraisal or through negotiation, the reuse authority shall conduct a hearing after public notice in accordance with IC 5-3-1 before the sale. Any action to contest the sale must be brought not more than fifteen (15) days after the hearing.

(h) Notwithstanding this section, a reuse authority may negotiate and enter into leases of property from the United States or any department or agency of the United States without complying with the requirements of this section.

(2) A partnership, an association, a limited liability company, or a firm.

(3) An individual.

(4) With respect to all reuse authorities located in a county that does not have a consolidated city, a redevelopment authority established under IC 36-7-14.5.

(5) With respect to all reuse authorities located in a county with a consolidated city, an authority established under IC 36-7-15.3.

(b) Notwithstanding any other law, a lessor under this section and section 19 of this chapter is a qualified entity for purposes of IC 5-1.4.

(c) Notwithstanding any other law, a military base reuse facility leased by the reuse authority under this chapter from a lessor borrowing bond proceeds from a unit under IC 36-7-12 is an economic development facility for purposes of IC 36-7-11.9-3 and IC 36-7-12.

(d) Notwithstanding IC 36-7-12-25 and IC 36-7-12-26, payments by a reuse authority to a lessor described in subsection (c) may be made from sources set forth in section 19 of this chapter if the payments and the lease are structured to prevent the lease obligation from constituting a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

Covenant and pledge of revenues

Sec. 21. (a) Notwithstanding any other law, the legislative body may pledge revenues received or to be received by the unit from:

(1) the unit's distributive share of the county option income tax under IC 6-3.5-6;

(2) the unit's distributive share of the county economic development income tax under IC 6-3.5-7;

(3) any other source legally available to the unit for the purposes of this chapter; or

(4) any combination of revenues under subdivisions (1) through (3);

in any amount to pay amounts payable under section 18 or 19 of this chapter.

(c) The reuse authority may pledge revenues received or to be received from any source legally available to the reuse authority for the purposes of this chapter in any amount to pay amounts payable under section 18 or 19 of this chapter.

(d) The pledge or covenant under this section may be for the term of the bonds issued under section 18 of this chapter, the term of a lease entered into under section 19 of this chapter, or for a shorter period as determined by the legislative body. Money pledged by the legislative body under this section shall be considered revenues or other money available to the reuse authority under sections 18

through 19 of this chapter.

(e) The general assembly covenants not to impair this pledge or covenant as long as any bonds issued under section 18 of this chapter are outstanding or as long as any lease entered into under section 19 of this chapter is still in effect. The pledge or covenant shall be enforced as provided in IC 5-1-14-4.

Deposits to military base reuse district capital fund and general fund

Sec. 22. (a) All proceeds from the sale of bonds under section 18 of this chapter shall be kept as a separate and specific fund to pay the expenses incurred in connection with the property acquisition, redevelopment, and economic development of the military base reuse area. The fund shall be known as the military base reuse district capital fund.

(b) All gifts or donations that are given or paid to the reuse authority or to the unit for military base reuse purposes shall be promptly deposited to the credit of the military base reuse district general fund unless otherwise directed by the grantor. The reuse authority may use these gifts and donations for the purposes of this chapter.

An appropriation is not necessary, but all money raised under this chapter is considered appropriated to the respective purposes stated and is under the control of the reuse authority. The reuse authority has complete and exclusive authority to expend the money for the purposes provided.

(b) Each fund established by this chapter is a continuing fund and does not revert to the general fund of the unit at the end of the calendar year.

Activities financed by bonds, notes, or warrants

Sec. 24. (a) In order to finance activities authorized under this chapter, the reuse authority may apply for and accept advances, short term and long term loans, grants, contributions, and any other form of financial assistance from the federal government, or from any of its agencies. The reuse authority may also enter into and carry out contracts and agreements in connection with that financial assistance

upon the terms and conditions that the reuse authority considers reasonable and appropriate, if those terms and conditions are not inconsistent with the purposes of this chapter. The provisions of such a contract or an agreement in regard to the handling, deposit, and application of project funds, as well as all other provisions, are valid and binding on the unit or its executive departments and officers, as well as the reuse authority, notwithstanding any other provision of this chapter.

(b) The reuse authority may issue and sell bonds, notes, or warrants to the federal government to evidence short term or long term loans made under this section, without notice of sale being given or a public offering being made.

(c) Notwithstanding the provisions of this chapter or any other law, the bonds, notes, or warrants issued by the reuse authority under this section may:

- (1) be in the amounts, form, or denomination;
- (2) be either coupon or registered;
- (3) carry conversion or other privileges;
- (4) have a rank or priority;
- (5) be of such description;
- (6) be secured, subject to other provisions of this section, in such manner;
- (7) bear interest at a rate or rates;
- (8) be payable as to both principal and interest in a medium of payment, at time or times, which may be upon demand, and at a place or places;
- (9) be subject to terms of redemption, with or without premium;
- (10) contain or be subject to any covenants, conditions, and provisions; and
- (11) have any other characteristics;

that the reuse authority considers reasonable and appropriate.

(d) Bonds, notes, or warrants issued under this section are not an indebtedness of the unit or taxing district within the meaning of any constitutional or statutory limitation of indebtedness. The bonds, notes, or warrants are not payable from or secured by a levy of taxes, but are payable only from and secured only by any combination of:

- (1) income funds;
- (2) properties of the project becoming available to the reuse authority under this chapter; or
- (3) any other legally available revenues of the reuse authority;

as the reuse authority specifies in the resolution authorizing their issuance.

(e) Bonds, notes, or warrants issued under this section are exempt from taxation for all purposes.

(f) Bonds, notes, or warrants issued under this section must be executed by the appropriate officers of the unit and must be attested by the appropriate officers of the unit.

(g) Following the adoption of the resolution authorizing the issuance of bonds, notes, or warrants under this section, the reuse authority shall certify a copy of that resolution to the officers of the

unit who have duties with respect to bonds, notes, or warrants of the unit. At the proper time, the reuse authority shall deliver to the officers the unexecuted bonds, notes, or warrants prepared for execution in accordance with the resolution.

(h) All bonds, notes, or warrants issued under this section shall be sold by the officers of the unit who have duties with respect to the sale of bonds, notes, or warrants of the unit. If an officer whose signature appears on any bonds, notes, or warrants issued under this section leaves office before their delivery, the signature remains valid and sufficient for all purposes as if the officer had remained in office until the delivery.

(i) If at any time during the life of a loan contract or agreement under this section the reuse authority can obtain loans for the purposes of this section from sources other than the federal government at interest rates not less favorable than provided in the loan contract or agreement, and if the loan contract or agreement so permits, the reuse authority may do so and may pledge the loan contract and any rights under the contract as security for the repayment of the loans obtained from other sources. A loan under this subsection may be evidenced by bonds, notes, or warrants issued and secured in the same manner as provided in this section for loans from the federal government. The bonds, notes, or warrants may be sold at either public or private sale, as the reuse authority considers appropriate.

(j) Money obtained from the federal government or from other sources under this section, and money that is required by a contract or an agreement under this section to be used for project expenditure purposes, repayment of survey and planning advances, or repayment of temporary or definitive loans may be expended by the reuse authority without regard to any law concerning the making and approval of budgets, appropriations, and expenditures.

(k) Bonds, notes, or warrants issued under this section are declared to be issued for an essential public and governmental purpose.

IC 36-7-30-25

Allocation areas; allocation and distribution of property taxes

Sec. 25. (a) The following definitions apply throughout this section:

(1) "Allocation area" means that part of a military base reuse area to which an allocation provision of a declaratory resolution adopted under section 10 of this chapter refers for purposes of distribution and allocation of property taxes.

(2) "Base assessed value" means:

(A) the net assessed value of all the property as finally determined for the assessment date immediately preceding the adoption date of the allocation provision of the declaratory resolution, as adjusted under subsection (h); plus

(B) to the extent that it is not included in clause (A) or (C), the net assessed value of any and all parcels or classes of parcels identified as part of the base assessed value in the declaratory resolution or an amendment thereto, as finally determined for any subsequent assessment date; plus

(C) to the extent that it is not included in clause (A) or (B), the net assessed value of property that is assessed as residential property under the rules of the department of local government finance, as finally determined for any assessment date after the effective date of the allocation provision.

Clause (C) applies only to allocation areas established in a military reuse area after June 30, 1997, and to the part of an allocation area that was established before June 30, 1997, and that is added to an existing allocation area after June 30, 1997.

(3) "Property taxes" means taxes imposed under IC 6-1.1 on real property.

(b) A declaratory resolution adopted under section 10 of this chapter before the date set forth in IC 36-7-14-39(b) pertaining to declaratory resolutions adopted under IC 36-7-14-15 may include a provision with respect to the allocation and distribution of property taxes for the purposes and in the manner provided in this section. A declaratory resolution previously adopted may include an allocation provision by the amendment of that declaratory resolution in accordance with the procedures set forth in section 13 of this chapter. The allocation provision may apply to all or part of the military base reuse area. The allocation provision must require that any property taxes subsequently levied by or for the benefit of any public body entitled to a distribution of property taxes on taxable property in the allocation area be allocated and distributed as follows:

(1) Except as otherwise provided in this section, the proceeds of the taxes attributable to the lesser of:

(A) the assessed value of the property for the assessment date with respect to which the allocation and distribution is made; or

(B) the base assessed value;

shall be allocated to and, when collected, paid into the funds of the respective taxing units.

(2) The excess of the proceeds of the property taxes imposed for the assessment date with respect to which the allocation and distribution are made that are attributable to taxes imposed after being approved by the voters in a referendum or local public question conducted after April 30, 2010, not otherwise included in subdivision (1) shall be allocated to and, when collected, paid into the funds of the taxing unit for which the referendum or local public question was conducted.

(3) Except as otherwise provided in this section, property tax proceeds in excess of those described in subdivisions (1) and (2) shall be allocated to the military base reuse district and, when collected, paid into an allocation fund for that allocation

area that may be used by the military base reuse district and only to do one (1) or more of the following:

(A) Pay the principal of and interest and redemption premium on any obligations incurred by the military base reuse district or any other entity for the purpose of financing or refinancing military base reuse activities in or directly serving or benefiting that allocation area.

(B) Establish, augment, or restore the debt service reserve for bonds payable solely or in part from allocated tax proceeds in that allocation area or from other revenues of the reuse authority, including lease rental revenues.

(C) Make payments on leases payable solely or in part from allocated tax proceeds in that allocation area.

(D) Reimburse any other governmental body for expenditures made for local public improvements (or structures) in or directly serving or benefiting that allocation area.

(E) Pay expenses incurred by the reuse authority, any other department of the unit, or a department of another governmental entity for local public improvements or structures that are in the allocation area or directly serving or benefiting the allocation area, including expenses for the operation and maintenance of these local public improvements or structures if the reuse authority determines those operation and maintenance expenses are necessary or desirable to carry out the purposes of this chapter.

(F) Reimburse public and private entities for expenses incurred in training employees of industrial facilities that are located:

(i) in the allocation area; and

(ii) on a parcel of real property that has been classified as industrial property under the rules of the department of local government finance.

However, the total amount of money spent for this purpose in any year may not exceed the total amount of money in the allocation fund that is attributable to property taxes paid by the industrial facilities described in this clause. The reimbursements under this clause must be made not more than three (3) years after the date on which the investments that are the basis for the increment financing are made.

Except as provided in clause (E), the allocation fund may not be used for operating expenses of the reuse authority.

(4) Except as provided in subsection (g), before July 15 of each year the reuse authority shall do the following:

(A) Determine the amount, if any, by which property taxes payable to the allocation fund in the following year will exceed the amount of property taxes necessary to make, when due, principal and interest payments on bonds described in subdivision (3) plus the amount necessary for other purposes described in subdivision (3).

(B) Provide a written notice to the county auditor, the fiscal body of the unit that established the reuse authority, and the officers who are authorized to fix budgets, tax rates, and tax levies under IC 6-1.1-17-5 for each of the other taxing units that is wholly or partly located within the allocation area. The notice must:

- (i) state the amount, if any, of excess property taxes that the reuse authority has determined may be paid to the respective taxing units in the manner prescribed in subdivision (1); or
- (ii) state that the reuse authority has determined that there are no excess property tax proceeds that may be allocated to the respective taxing units in the manner prescribed in subdivision (1).

The county auditor shall allocate to the respective taxing units the amount, if any, of excess property tax proceeds determined by the reuse authority. The reuse authority may not authorize a payment to the respective taxing units under this subdivision if to do so would endanger the interest of the holders of bonds described in subdivision (3) or lessors under section 19 of this chapter.

(c) For the purpose of allocating taxes levied by or for any taxing unit or units, the assessed value of taxable property in a territory in the allocation area that is annexed by a taxing unit after the effective date of the allocation provision of the declaratory resolution is the lesser of:

- (1) the assessed value of the property for the assessment date with respect to which the allocation and distribution is made; or
- (2) the base assessed value.

(d) Property tax proceeds allocable to the military base reuse district under subsection (b)(3) may, subject to subsection (b)(4), be irrevocably pledged by the military base reuse district for payment as set forth in subsection (b)(3).

(e) Notwithstanding any other law, each assessor shall, upon petition of the reuse authority, reassess the taxable property situated upon or in or added to the allocation area, effective on the next assessment date after the petition.

(f) Notwithstanding any other law, the assessed value of all taxable property in the allocation area, for purposes of tax limitation, property tax replacement, and the making of the budget, tax rate, and tax levy for each political subdivision in which the property is located is the lesser of:

- (1) the assessed value of the property as valued without regard to this section; or
- (2) the base assessed value.

(g) If any part of the allocation area is located in an enterprise zone created under IC 5-28-15, the unit that designated the allocation area shall create funds as specified in this subsection. A unit that has obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish an allocation fund for the

purposes specified in subsection (b)(3) and a special zone fund. Such a unit shall, until the end of the enterprise zone phase out period, deposit each year in the special zone fund any amount in the allocation fund derived from property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) from property located in the enterprise zone that exceeds the amount sufficient for the purposes specified in subsection (b)(3) for the year. The amount sufficient for purposes specified in subsection (b)(3) for the year shall be determined based on the pro rata part of such current property tax proceeds from the part of the enterprise zone that is within the allocation area as compared to all such current property tax proceeds derived from the allocation area. A unit that does not have obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish a special zone fund and deposit all the property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) that are derived from property in the enterprise zone in the fund. The unit that creates the special zone fund shall use the fund (based on the recommendations of the urban enterprise association) for programs in job training, job enrichment, and basic skill development that are designed to benefit residents and employers in the enterprise zone or other purposes specified in subsection (b)(3), except that where reference is made in subsection (b)(3) to allocation area it shall refer for purposes of payments from the special zone fund only to that part of the allocation area that is also located in the enterprise zone. The programs shall reserve at least one-half (1/2) of their enrollment in any session for residents of the enterprise zone.

(h) After each general reassessment of real property in an area under IC 6-1.1-4-4 or reassessment under the county's reassessment plan under IC 6-1.1-4-4.2, the department of local government finance shall adjust the base assessed value one (1) time to neutralize any effect of the reassessment of the real property in the area on the property tax proceeds allocated to the military base reuse district under this section. After each annual adjustment under IC 6-1.1-4-4.5, the department of local government finance shall adjust the base assessed value to neutralize any effect of the annual adjustment on the property tax proceeds allocated to the military base reuse district under this section. However, the adjustments under this subsection may not include the effect of property tax abatements under IC 6-1.1-12.1, and these adjustments may not produce less property tax proceeds allocable to the military base reuse district under subsection (b)(3) than would otherwise have been received if the general reassessment, reassessment under the county's reassessment plan, or annual adjustment had not occurred. The department of local government finance may prescribe procedures for county and township officials to follow to assist the department in making the adjustments.

IC 36-7-30-26

Resolution to modify definition of property taxes

Sec. 26. (a) As used in this section, "depreciable personal property" refers to:

- (1) all or any part of the designated taxpayer's depreciable personal property that is located in the allocation area; and
- (2) all or any part of the other depreciable property located and taxable on the designated taxpayer's site of operations within the allocation area;

and that is designated as depreciable personal property for purposes of this section by the reuse authority in a declaratory resolution adopted or amended under section 10 or 13 of this chapter.

(b) As used in this section, "designated taxpayer" means a taxpayer designated by the reuse authority in a declaratory resolution adopted or amended under section 10 or 13 of this chapter, and with respect to which the reuse authority finds that taxes to be derived from the depreciable personal property in the allocation area, in excess of the taxes attributable to the base assessed value of the personal property, are needed to pay debt service or provide security for bonds issued or to be issued under section 18 of this chapter or make payments or provide security on leases payable or to be payable under section 19 of this chapter in order to provide local public improvements or structures for a particular allocation area.

(c) The allocation provision of a declaratory resolution may modify the definition of "property taxes" under section 25(a) of this chapter to include taxes imposed under IC 6-1.1 on the depreciable personal property located and taxable on the site of operations of the designated taxpayers in accordance with the procedures and limitations set forth in this section and section 25 of this chapter. If such a modification is included in the resolution, for purposes of section 25 of this chapter, the term "base assessed value" with respect to the depreciable personal property means the net assessed value of all the depreciable personal property as finally determined for the assessment date immediately preceding the adoption date of the modification, as adjusted under section 25(b) of this chapter.

Joint projects

Sec. 29. Notwithstanding any other law, two (2) or more units may jointly undertake military base reuse projects in contiguous areas in the units' respective jurisdictions that benefit or serve the units' jurisdictions by following the procedures set forth in IC 36-1-7. The legislative body of a unit may do the following:

- (1) Assign an area within the unit's jurisdiction to the reuse authority of another unit to allow the creation of an allocation area for the purpose of the allocation of property tax proceeds even though part of the allocation area will be outside the jurisdiction of the reuse authority to which the new area is assigned.
- (2) Pledge property tax proceeds that would be allocated to the unit's allocation fund to the reuse authority of another unit for the projects.

The reuse authority to which an area is assigned or allocated proceeds are pledged may then take all action in the area or with respect to the pledged proceeds that could be taken by a reuse authority in an allocation area or with respect to the reuse authority's own revenues until the later of the time when an ordinance rescinding this assignment or pledge is adopted by the legislative body of the assigning or pledging unit or the date on which outstanding bonds or lease rentals payable from allocated property tax proceeds are finally retired. The assigning unit shall continue to tax the taxpayers in the assigned part of the allocation area at the assigning unit's tax rates.

IC 36-7-30-30**Utility services**

Sec. 30. Notwithstanding any other law, utility services provided within the military base reuse district are subject to regulation by the appropriate regulatory agencies unless the utility service is provided by a utility that provides utility service solely within the geographic boundaries of an existing or a closed military installation by a utility facility in existence and operating on July 1, 1995, in which case the utility service is not subject to regulation for purposes of rate making, regulation, service delivery, or issuance of bonds or other forms of indebtedness. However, this exemption from regulation does not apply to utility service if the service is generated, treated, or produced outside the boundaries of the existing or closed military installation.

As added by P.L.26-1995, SEC.14.

IC 36-7-30-31**PILOTS**

Sec. 31. (a) As used in this section, the following terms have the meanings set forth in IC 6-1.1-1:

- (1) Assessed value.
- (2) Owner.
- (3) Person.
- (4) Personal property.
- (5) Property taxation.
- (6) Tangible property.
- (7) Township assessor.

(b) As used in this section, "PILOTS" means payments in lieu of taxes.

(c) The general assembly finds the following:

- (1) That the closing of a military base in a unit results in an increased cost to the unit of providing governmental services to the area formerly occupied by the military base.
- (2) That military base property held by a reuse authority is exempt from property taxation, resulting in the lack of an adequate tax base to support the increased governmental services.
- (3) That to restore this tax base and provide a proper allocation of the cost of providing governmental services the fiscal body of the unit should be authorized to collect PILOTS from the reuse authority.
- (4) That the appropriate maximum PILOTS would be the amount of the property taxes that would be paid if the tangible property were not exempt.

(d) The fiscal body of the unit may adopt an ordinance to require a reuse authority to pay PILOTS at times set forth in the ordinance with respect to tangible property of which the reuse authority is the owner or the lessee and that is exempt from property taxes. The ordinance remains in full force and effect until repealed or modified by the fiscal body.

(e) The PILOTS must be calculated so that the PILOTS do not exceed the amount of property taxes that would have been levied by the fiscal body for the unit upon the tangible property described in subsection (d) if the property were not exempt from property taxation.

(f) PILOTS shall be imposed as are property taxes and shall be based on the assessed value of the tangible property described in subsection (d). Except as provided in subsection (j), the township assessor, or the county assessor if there is no township assessor for the township, shall assess the tangible property described in subsection (d) as though the property were not exempt. The reuse authority shall report the value of personal property in a manner consistent with IC 6-1.1-3.

the development authority shall proceed with the plan to the extent that money is available for that purpose.

(b) Negotiations for the purchase of property may be carried on directly by the development authority, by its employees, or by expert negotiators. However, an option, a contract, or an understanding relative to the purchase of real property is not binding on the development authority until approved and accepted by the development authority in writing. Payment for the property purchased shall be made when and as directed by the development authority but only on delivery of proper instruments conveying the title or interest of the owner to the development authority or its designee.

(c) The acquisition of real and personal property by the development authority under this chapter is not subject to the provisions of IC 5-22, IC 36-1-10.5, or any other statutes governing the purchase of property by public bodies or their agencies.

As added by P.L.203-2005, SEC.11.

IC 36-7-30.5-21

Acquisition of property by eminent domain

Sec. 21. (a) If the development authority considers it necessary to acquire real property in or serving a development area by the exercise of the power of eminent domain, the development authority shall adopt a resolution setting out its determination to exercise that power and directing its attorney to file a petition on behalf of the development authority in the circuit or superior court of the county in which the property is situated. The resolution must be approved by the legislative body of the affected unit before the petition is filed.

(b) Eminent domain proceedings under this section are governed by IC 32-24 and other applicable statutory provisions for the exercise of the power of eminent domain. Property already devoted to a public use may be acquired under this section. However, property belonging to the state or a political subdivision may not be acquired without the

consent of the state or the political subdivision.

(c) The court having jurisdiction shall direct the clerk of the circuit court to execute a deed conveying the title of real property acquired under this section to the development authority for the use and benefit of the development authority.

As added by P.L.203-2005, SEC.11.

IC 36-7-30.5-22

Clearing, maintenance, and replanning of development area

Sec. 22. (a) The development authority may proceed with the clearing and replanning of the area described in the resolution before the acquisition of all of the area. The development authority may also proceed with the repair and maintenance of buildings that have been acquired and are not to be cleared. This clearance, repair, and maintenance may be carried out by labor employed directly by the development authority or by contract. Contracts for clearance may provide that the contractor is entitled to retain and dispose of salvaged material, as a part of the contract price or on the basis of stated prices for the amounts of the various materials actually salvaged.

(b) All contracts for material or labor under this section shall be let under IC 36-1.

(c) To the extent the development authority undertakes to engage in the planning and rezoning of the real property acquired, in the opening, closing, relocation, and improvement of public ways, and in the construction, relocation, and improvement of levees, sewers, parking facilities, and utility services, the development authority shall proceed in the same manner as private owners of the property. The development authority may negotiate with the proper officers and agencies of the unit to secure the proper orders, approvals, and consents.

(d) Construction work required in connection with improvements in the area described in the resolution may be carried out by the following:

- (1) The appropriate municipal or county department or agency.
- (2) The development authority, if:
 - (A) all plans, specifications, and drawings are approved by the appropriate department or agency; and
 - (B) the statutory procedures for the letting of contracts by the appropriate department or agency are followed by the development authority.

(e) The development authority may pay any charges or assessments made on account of orders, approvals, consents, and construction work under this section, or may agree to pay the assessments in installments as provided by statute in the case of private owners. The development authority may do the following:

- (1) By special waiver filed with the appropriate municipal works board or county executive, waive the statutory procedure and notices required by law in order to create valid liens on private property.

(2) Cause any assessments to be spread on a different basis than that provided by statute.

(f) The real property acquired under this chapter may not be set aside and dedicated for public ways, parking facilities, sewers, levees, parks, or other public purposes until the development authority has obtained the consent and approval of the department or agency under whose jurisdiction the property will be placed.

(g) The development authority may negotiate for the sale, lease, or other disposition of real and personal property without complying with the provisions of IC 36-1-11 or any other statute governing the disposition of public property. A conveyance under this section may not be made until the agreed consideration has been paid, unless the development authority passes a resolution expressly providing that the consideration does not have to be paid before the conveyance is made. The resolution may provide for a mortgage or other security. All deeds, leases, land sale contracts, or other conveyances shall be:

(1) executed in the name of the development authority; and

(2) signed by the president or vice president of the development authority and attested by the secretary-treasurer.

A seal is not required on these instruments or any other instruments executed in the name of the development authority. Proceeds from the sale, lease, or other disposition of property may be deposited in any fund and used for any purpose allowed under this chapter, as directed by the development authority.

Issuance of bonds

Sec. 23. (a) In addition to other methods of raising money for property acquisition, redevelopment, reuse, or economic development activities in or directly serving or benefitting a military base development area, and in anticipation of the taxes allocated under section 30 of this chapter, other revenues of the district, or any combination of these sources, the development authority may by resolution issue the bonds of the development authority.

(b) The secretary-treasurer of the development authority shall prepare the bonds. The seal of the development authority must be impressed on the bonds or a facsimile of the seal must be printed on the bonds.

(c) The bonds must be executed by the president of the development authority and attested by the secretary-treasurer.

(d) The bonds are exempt from taxation for all purposes.

(e) Bonds issued under this section may be sold at public sale in accordance with IC 5-1-11 or at a negotiated sale.

(f) The bonds are not a corporate obligation of a unit but are an indebtedness of only the development authority. The bonds and interest are payable, as set forth in the bond resolution of the development authority, from any of the following:

(1) The tax proceeds allocated under section 30 of this chapter.

(2) Other revenues available to the development authority.

(3) A combination of the methods stated in subdivisions (1) through (2).

The bonds issued under this section may be issued in any amount without limitation.

(g) Proceeds from the sale of bonds may be used to pay the cost of interest on the bonds for a period not to exceed five (5) years after the date of issuance.

(h) All laws relating to the filing of petitions requesting the issuance of bonds and the right of taxpayers and voters to remonstrate against the issuance of bonds do not apply to bonds issued under this chapter.

(i) If a debt service reserve is created from the proceeds of bonds, the debt service reserve may be used to pay principal and interest on the bonds as provided in the bond resolution.

(j) If bonds are issued under this chapter that are payable solely or in part from revenues of the development authority, the development authority may adopt a resolution or trust indenture or enter into covenants as is customary in the issuance of revenue bonds. The resolution or trust indenture may pledge or assign revenues of the development authority and properties becoming available to the development authority under this chapter. The resolution or trust indenture may also contain provisions for protecting and enforcing the rights and remedies of the bond owners as may be reasonable and proper and not in violation of law, including a covenant setting forth the duties of the development authority. The development authority may establish fees and charges for the use of any project and covenant with the owners of any bonds to set the fees and charges at a rate sufficient to protect the interest of the owners of the bonds. Revenue bonds issued by the development authority that are payable solely from revenues of the development authority shall contain a statement to that effect in the form of the bond.

Lease of property

Sec. 24. (a) A development authority may enter into a lease of any property that could be financed with the proceeds of bonds issued under this chapter with a lessor for a term of not more than fifty (50) years. The lease may provide for payments to be made by the development authority from taxes allocated under section 30 of this chapter, any other revenues available to the development authority, or any combination of these sources.

(b) A lease may provide that payments by the development authority to the lessor are required only to the extent and only for the period that the lessor is able to provide the leased facilities in accordance with the lease. The terms of each lease must be based upon the value of the facilities leased and may not create a debt of the unit or the district for purposes of the Constitution of the State of

Indiana.

(c) A lease may be entered into by the development authority only after a public hearing by the development authority at which all interested parties are provided the opportunity to be heard. After the public hearing, the development authority may adopt a resolution authorizing the execution of the lease on behalf of the unit if the development authority finds that the service to be provided throughout the term of the lease will serve the public purpose of the unit and is in the best interests of its residents. Any lease approved by a resolution of the development authority must be approved by the fiscal body of the appropriate unit.

(d) A development authority entering into a lease payable from allocated taxes under section 30 of this chapter or other available funds of the development authority may do the following:

(1) Pledge the revenue to make payments under the lease under IC 5-1-14-4.

(2) Establish a special fund to make the payments.

(e) Lease payments may be limited to money in the special fund so that the obligations of the development authority to make the lease rental payments are not considered a debt of a unit or the district for purposes of the Constitution of the State of Indiana.

(f) Except as provided in this section, approvals of any governmental body or agency are not required before the development authority may enter into a lease under this section.

(g) If a development authority exercises an option to buy a leased facility from a lessor, the development authority may subsequently sell the leased facility, without regard to any other statute, to the lessor at the end of the lease term at a price set forth in the lease or at fair market value established at the time of the sale by the development authority through auction, appraisal, or negotiation. If the facility is sold at auction, after appraisal or through negotiation, the development authority shall conduct a hearing after public notice in accordance with IC 5-3-1 before the sale. Any action to contest the sale must be brought not more than fifteen (15) days after the hearing.

(h) Notwithstanding this section, a development authority may negotiate and enter into leases of property from the United States or any department or agency of the United States without complying with the requirements of this section.

(1) A for-profit or nonprofit corporation organized under Indiana law or admitted to do business in Indiana.

(2) A partnership, an association, a limited liability company, or a firm.

(3) An individual.

(4) A redevelopment authority established under IC 36-7-14.5.

(b) Notwithstanding any other law, a lessor under this section and section 24 of this chapter is a qualified entity for purposes of IC 5-1.4.

(c) Notwithstanding any other law, a military base development facility leased by the development authority under this chapter from a lessor borrowing bond proceeds from a unit under IC 36-7-12 is an economic development facility for purposes of IC 36-7-11.9-3 and IC 36-7-12.

(d) Notwithstanding IC 36-7-12-25 and IC 36-7-12-26, payments by a development authority to a lessor described in subsection (c) may be made from sources set forth in section 24 of this chapter if the payments and the lease are structured to prevent the lease obligation from constituting a debt of a unit or the district for purposes of the Constitution of the State of Indiana.

IC 36-7-30.5-26

Pledge of revenues and covenant

Sec. 26. (a) Notwithstanding any other law, the legislative body of a unit may pledge revenues received or to be received by the unit from:

- (1) the unit's distributive share of the county adjusted gross income tax under IC 6-3.5-1.1;
- (2) the unit's distributive share of the county option income tax under IC 6-3.5-6;
- (3) the unit's distributive share of the county economic development income tax under IC 6-3.5-7;
- (4) any other source legally available to the unit for the purposes of this chapter; or
- (5) any combination of revenues under subdivisions (1) through (4);

in any amount to pay amounts payable under section 23 or 24 of this chapter.

(b) The legislative body may covenant to adopt an ordinance to increase its tax rate under the county adjusted gross income tax, county option income tax, county economic development income tax, or any other revenues at the time it is necessary to raise funds to pay any amounts payable under section 23 or 24 of this chapter.

(c) The development authority may pledge revenues received or to be received from any source legally available to the development authority for the purposes of this chapter in any amount to pay amounts payable under section 23 or 24 of this chapter.

(d) The pledge or covenant under this section may be for:

- (1) the term of the bonds issued under section 23 of this chapter;
- (2) the term of a lease entered into under section 24 of this chapter; or
- (3) for a shorter period as determined by the legislative body.

Money pledged by the legislative body under this section shall be considered revenues or other money available to the development authority under sections 23 through 24 of this chapter.

(e) The general assembly covenants not to impair this pledge or covenant as long as any bonds issued under section 23 of this chapter are outstanding or as long as any lease entered into under section 24 of this chapter is still in effect. The pledge or covenant shall be enforced as provided in IC 5-1-14-4.

IC 36-7-30.5-27

Proceeds of bonds; capital and general funds

Sec. 27. (a) All proceeds from the sale of bonds under section 23 of this chapter shall be kept as a separate and specific fund to pay the expenses incurred in connection with the property acquisition, redevelopment, reuse, and economic development of the military base development area. The fund shall be known as the military base development district capital fund.

(b) All gifts or donations that are given or paid to the development authority or to a unit for military base development purposes shall be promptly deposited to the credit of the military base development district general fund unless otherwise directed by the grantor. The development authority may use these gifts and donations for the purposes of this chapter.

Payment from funds

Sec. 28. (a) All payments from any of the funds established by this chapter shall be made by warrants drawn by the secretary-treasurer or the secretary-treasurer's agent under section 12 of this chapter on vouchers of the development authority signed by the president or vice president and the secretary-treasurer or executive director. An appropriation is not necessary, but all money raised under this chapter is considered appropriated to the respective purposes stated and is under the control of the development authority. The development authority has complete and exclusive authority to expend the money for the purposes provided.

(b) Each fund established by this chapter is a continuing fund.

IC 36-7-30.5-29

Activities financed by bonds, notes, or warrants

Sec. 29. (a) To finance activities authorized under this chapter, the development authority may apply for and accept advances, short term and long term loans, grants, contributions, and any other form of financial assistance from the federal government, or from any of its agencies. The development authority may also enter into and carry out contracts and agreements in connection with that financial assistance upon the terms and conditions that the development

authority considers reasonable and appropriate, if those terms and conditions are not inconsistent with the purposes of this chapter. The provisions of a contract or an agreement in regard to the handling, deposit, and application of project funds, as well as all other provisions, are valid and binding on the development authority, notwithstanding any other provision of this chapter.

(b) The development authority may issue and sell bonds, notes, or warrants to the federal government to evidence short term or long term loans made under this section, without notice of sale being given or a public offering being made.

(c) Notwithstanding the provisions of this chapter or any other law, the bonds, notes, or warrants issued by the development authority under this section may:

- (1) be in the amounts, form, or denomination;
- (2) be either coupon or registered;
- (3) carry conversion or other privileges;
- (4) have a rank or priority;
- (5) be of such description;
- (6) be secured, subject to other provisions of this section, in such manner;
- (7) bear interest at a rate or rates;
- (8) be payable as to both principal and interest in a medium of payment, at time or times, which may be upon demand, and at a place or places;
- (9) be subject to terms of redemption, with or without premium;
- (10) contain or be subject to any covenants, conditions, and provisions; and
- (11) have any other characteristics;

that the development authority considers reasonable and appropriate.

(d) Bonds, notes, or warrants issued under this section are not an indebtedness of a unit or taxing district within the meaning of any constitutional or statutory limitation of indebtedness. The bonds, notes, or warrants are not payable from or secured by a levy of taxes, but are payable only from and secured only by any combination of:

- (1) income;
- (2) funds;
- (3) properties of the project becoming available to the development authority under this chapter; or
- (4) any other legally available revenues of the development authority;

as the development authority specifies in the resolution authorizing their issuance.

(e) Bonds, notes, or warrants issued under this section are exempt from taxation for all purposes.

(f) Bonds, notes, or warrants issued under this section must be executed by the appropriate officers of a development authority and must be attested by the appropriate officers of a development authority.

(g) Following the adoption of the resolution authorizing the issuance of bonds, notes, or warrants under this section, the

development authority shall certify a copy of that resolution to the officers who have duties with respect to bonds, notes, or warrants of the development authority. At the proper time, the development authority shall deliver to the officers the unexecuted bonds, notes, or warrants prepared for execution in accordance with the resolution.

(h) All bonds, notes, or warrants issued under this section shall be sold by the officers of a development authority who have duties with respect to the sale of bonds, notes, or warrants of the development authority. If an officer whose signature appears on any bonds, notes, or warrants issued under this section leaves office before their delivery, the signature remains valid and sufficient for all purposes as if the officer had remained in office until the delivery.

(i) If at any time during the life of a loan contract or agreement under this section the development authority may obtain loans for the purposes of this section from sources other than the federal government at interest rates not less favorable than provided in the loan contract or agreement, and if the loan contract or agreement allows, the development authority may do so and may pledge the loan contract and any rights under the contract as security for the repayment of the loans obtained from other sources. A loan under this subsection may be evidenced by bonds, notes, or warrants issued and secured in the same manner as provided in this section for loans from the federal government. The bonds, notes, or warrants may be sold at either public or private sale, as the development authority considers appropriate.

(j) Money obtained from the federal government or from other sources under this section, and money that is required by a contract or an agreement under this section to be used for project expenditure purposes, repayment of survey and planning advances, or repayment of temporary or definitive loans, may be expended by the development authority without regard to any law concerning the making and approval of budgets, appropriations, and expenditures.

(k) Bonds, notes, or warrants issued under this section are declared to be issued for an essential public and governmental purpose.

IC 36-7-30.5-30

Allocation areas; allocation and distribution of property taxes

Sec. 30. (a) The following definitions apply throughout this section:

(1) "Allocation area" means that part of a military base development area to which an allocation provision of a declaratory resolution adopted under section 16 of this chapter refers for purposes of distribution and allocation of property taxes.

(2) "Base assessed value" means:

(A) the net assessed value of all the property as finally determined for the assessment date immediately preceding the adoption date of the allocation provision of the

declaratory resolution, as adjusted under subsection (h); plus
(B) to the extent that it is not included in clause (A) or (C),
the net assessed value of any and all parcels or classes of
parcels identified as part of the base assessed value in the
declaratory resolution or an amendment to the declaratory
resolution, as finally determined for any subsequent
assessment date; plus

(C) to the extent that it is not included in clause (A) or (B),
the net assessed value of property that is assessed as
residential property under the rules of the department of
local government finance, as finally determined for any
assessment date after the effective date of the allocation
provision.

(3) "Property taxes" means taxes imposed under IC 6-1.1 on
real property.

(b) A declaratory resolution adopted under section 16 of this
chapter before the date set forth in IC 36-7-14-39(b) pertaining to
declaratory resolutions adopted under IC 36-7-14-15 may include a
provision with respect to the allocation and distribution of property
taxes for the purposes and in the manner provided in this section. A
declaratory resolution previously adopted may include an allocation
provision by the amendment of that declaratory resolution in
accordance with the procedures set forth in section 18 of this chapter.
The allocation provision may apply to all or part of the military base
development area. The allocation provision must require that any
property taxes subsequently levied by or for the benefit of any public
body entitled to a distribution of property taxes on taxable property
in the allocation area be allocated and distributed as follows:

(1) Except as otherwise provided in this section, the proceeds
of the taxes attributable to the lesser of:

(A) the assessed value of the property for the assessment
date with respect to which the allocation and distribution is
made; or

(B) the base assessed value;

shall be allocated to and, when collected, paid into the funds of
the respective taxing units.

(2) The excess of the proceeds of the property taxes imposed for
the assessment date with respect to which the allocation and
distribution is made that are attributable to taxes imposed after
being approved by the voters in a referendum or local public
question conducted after April 30, 2010, not otherwise included
in subdivision (1) shall be allocated to and, when collected, paid
into the funds of the taxing unit for which the referendum or
local public question was conducted.

(3) Except as otherwise provided in this section, property tax
proceeds in excess of those described in subdivisions (1) and
(2) shall be allocated to the development authority and, when
collected, paid into an allocation fund for that allocation area
that may be used by the development authority and only to do
one (1) or more of the following:

(A) Pay the principal of and interest and redemption premium on any obligations incurred by the development authority or any other entity for the purpose of financing or refinancing military base development or reuse activities in or directly serving or benefiting that allocation area.

(B) Establish, augment, or restore the debt service reserve for bonds payable solely or in part from allocated tax proceeds in that allocation area or from other revenues of the development authority, including lease rental revenues.

(C) Make payments on leases payable solely or in part from allocated tax proceeds in that allocation area.

(D) Reimburse any other governmental body for expenditures made for local public improvements (or structures) in or directly serving or benefiting that allocation area.

(E) For property taxes first due and payable before 2009, pay all or a part of a property tax replacement credit to taxpayers in an allocation area as determined by the development authority. This credit equals the amount determined under the following STEPS for each taxpayer in a taxing district (as defined in IC 6-1.1-21-20) that contains all or part of the allocation area:

STEP ONE: Determine that part of the sum of the amounts under IC 6-1.1-21-2(g)(1)(A), IC 6-1.1-21-2(g)(2), IC 6-1.1-21-2(g)(3), IC 6-1.1-21-2(g)(4), and IC 6-1.1-21-2(g)(5) (before their repeal) that is attributable to the taxing district.

STEP TWO: Divide:

- (i) that part of each county's eligible property tax replacement amount (as defined in IC 6-1.1-21-2 (before its repeal)) for that year as determined under IC 6-1.1-21-4 (before its repeal) that is attributable to the taxing district; by
- (ii) the STEP ONE sum.

STEP THREE: Multiply:

- (i) the STEP TWO quotient; by
- (ii) the total amount of the taxpayer's taxes (as defined in IC 6-1.1-21-2 (before its repeal)) levied in the taxing district that have been allocated during that year to an allocation fund under this section.

If not all the taxpayers in an allocation area receive the credit in full, each taxpayer in the allocation area is entitled to receive the same proportion of the credit. A taxpayer may not receive a credit under this section and a credit under section 32 of this chapter (before its repeal) in the same year.

(F) Pay expenses incurred by the development authority for local public improvements or structures that were in the allocation area or directly serving or benefiting the allocation area.

(G) Reimburse public and private entities for expenses

incurred in training employees of industrial facilities that are located:

- (i) in the allocation area; and
- (ii) on a parcel of real property that has been classified as industrial property under the rules of the department of local government finance.

However, the total amount of money spent for this purpose in any year may not exceed the total amount of money in the allocation fund that is attributable to property taxes paid by the industrial facilities described in this clause. The reimbursements under this clause must be made not more than three (3) years after the date on which the investments that are the basis for the increment financing are made.

The allocation fund may not be used for operating expenses of the development authority.

(4) Except as provided in subsection (g), before July 15 of each year the development authority shall do the following:

(A) Determine the amount, if any, by which property taxes payable to the allocation fund in the following year will exceed the amount of property taxes necessary to make, when due, principal and interest payments on bonds described in subdivision(3) plus the amount necessary for other purposes described in subdivisions (2) and (3).

(B) Provide a written notice to the appropriate county auditors and the fiscal bodies and other officers who are authorized to fix budgets, tax rates, and tax levies under IC 6-1.1-17-5 for each of the other taxing units that is wholly or partly located within the allocation area. The notice must:

- (i) state the amount, if any, of the excess property taxes that the development authority has determined may be paid to the respective taxing units in the manner prescribed in subdivision (1); or
- (ii) state that the development authority has determined that there is no excess assessed value that may be allocated to the respective taxing units in the manner prescribed in subdivision (1).

The county auditors shall allocate to the respective taxing units the amount, if any, of excess assessed value determined by the development authority. The development authority may not authorize a payment to the respective taxing units under this subdivision if to do so would endanger the interest of the holders of bonds described in subdivision (3) or lessors under section 24 of this chapter. Property taxes received by a taxing unit under this subdivision before 2009 are eligible for the property tax replacement credit provided under IC 6-1.1-21 (before its repeal).

(c) For the purpose of allocating taxes levied by or for any taxing unit or units, the assessed value of taxable property in a territory in the allocation area that is annexed by a taxing unit after the effective date of the allocation provision of the declaratory resolution is the

lesser of:

- (1) the assessed value of the property for the assessment date with respect to which the allocation and distribution is made; or
- (2) the base assessed value.

(d) Property tax proceeds allocable to the military base development district under subsection (b)(3) may, subject to subsection (b)(4), be irrevocably pledged by the military base development district for payment as set forth in subsection (b)(3).

(e) Notwithstanding any other law, each assessor shall, upon petition of the development authority, reassess the taxable property situated upon or in or added to the allocation area, effective on the next assessment date after the petition.

(f) Notwithstanding any other law, the assessed value of all taxable property in the allocation area, for purposes of tax limitation, property tax replacement, and the making of the budget, tax rate, and tax levy for each political subdivision in which the property is located is the lesser of:

- (1) the assessed value of the property as valued without regard to this section; or
- (2) the base assessed value.

(g) If any part of the allocation area is located in an enterprise zone created under IC 5-28-15, the development authority shall create funds as specified in this subsection. A development authority that has obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish an allocation fund for the purposes specified in subsection (b)(3) and a special zone fund. The development authority shall, until the end of the enterprise zone phase out period, deposit each year in the special zone fund any amount in the allocation fund derived from property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) from property located in the enterprise zone that exceeds the amount sufficient for the purposes specified in subsection (b)(3) for the year. The amount sufficient for purposes specified in subsection (b)(3) for the year shall be determined based on the pro rata part of such current property tax proceeds from the part of the enterprise zone that is within the allocation area as compared to all such current property tax proceeds derived from the allocation area. A development authority that does not have obligations, bonds, or leases payable from allocated tax proceeds under subsection (b)(3) shall establish a special zone fund and deposit all the property tax proceeds in excess of those described in subsection (b)(1) and (b)(2) that are derived from property in the enterprise zone in the fund. The development authority that creates the special zone fund shall use the fund (based on the recommendations of the urban enterprise association) for programs in job training, job enrichment, and basic skill development that are designed to benefit residents and employers in the enterprise zone or for other purposes specified in subsection (b)(3), except that where reference is made in subsection (b)(3) to an allocation area it shall refer for purposes of payments from the special zone fund only to that part of the allocation area that

is also located in the enterprise zone. The programs shall reserve at least one-half (1/2) of their enrollment in any session for residents of the enterprise zone.

(h) After each general reassessment of real property in an area under IC 6-1.1-4-4 or reassessment under a reassessment plan prepared under IC 6-1.1-4-4.2, the department of local government finance shall adjust the base assessed value one (1) time to neutralize any effect of the reassessment of the real property in the area on the property tax proceeds allocated to the military base development district under this section. After each annual adjustment under IC 6-1.1-4-4.5, the department of local government finance shall adjust the base assessed value to neutralize any effect of the annual adjustment on the property tax proceeds allocated to the military base development district under this section. However, the adjustments under this subsection may not include the effect of property tax abatements under IC 6-1.1-12.1, and these adjustments may not produce less property tax proceeds allocable to the military base development district under subsection (b)(3) than would otherwise have been received if the general reassessment, reassessment under the county's reassessment plan, or annual adjustment had not occurred. The department of local government finance may prescribe procedures for county and township officials to follow to assist the department in making the adjustments.

IC 36-7-30.5-31

Resolution to modify definition of property taxes

Sec. 31. (a) As used in this section, "depreciable personal property" refers to:

- (1) all or any part of the designated taxpayer's depreciable personal property that is located in the allocation area; and
- (2) all or any part of the other depreciable property located and taxable on the designated taxpayer's site of operations within the allocation area;

that is designated as depreciable personal property for purposes of this section by the development authority in a declaratory resolution adopted or amended under section 16 or 18 of this chapter.

(b) As used in this section, "designated taxpayer" means a taxpayer designated by the development authority in a declaratory resolution adopted or amended under section 16 or 18 of this chapter, and with respect to which the development authority finds that taxes to be derived from the depreciable personal property in the allocation area, in excess of the taxes attributable to the base assessed value of the personal property, are needed to pay debt service or provide security for bonds issued or to be issued under section 23 of this chapter or make payments or provide security on leases payable or to be payable under section 24 of this chapter in order to provide

local public improvements or structures for a particular allocation area.

(c) The allocation provision of a declaratory resolution may modify the definition of "property taxes" under section 30(a) of this chapter to include taxes imposed under IC 6-1.1 on the depreciable personal property located and taxable on the site of operations of the designated taxpayers in accordance with the procedures and limitations set forth in this section and section 30 of this chapter. If a modification is included in the resolution, for purposes of section 30 of this chapter, the term "base assessed value" with respect to the depreciable personal property means the net assessed value of all the depreciable personal property as finally determined for the assessment date immediately preceding the adoption date of the modification, as adjusted under section 30(b) of this chapter.

Utility services

Sec. 33. Notwithstanding any other law, utility services provided within the military base development district are subject to regulation by the appropriate regulatory agencies unless the utility service is provided by a utility that provides utility service solely within the geographic boundaries of an existing or a closed military installation by a utility facility in existence and operating on July 1, 1995, in which case the utility service is not subject to regulation for purposes of rate making, regulation, service delivery, or issuance of bonds or other forms of indebtedness. However, this exemption from regulation does not apply to utility service if the service is generated, treated, or produced outside the boundaries of the existing or closed military installation.

IC 36-7-30.5-34

PILOTS

Sec. 34. (a) As used in this section, the following terms have the meanings set forth in IC 6-1.1-1:

- (1) Assessed value.
- (2) Owner.
- (3) Person.
- (4) Personal property.
- (5) Property taxation.
- (6) Tangible property.
- (7) Township assessor.

(b) As used in this section, "PILOTS" means payments in lieu of taxes.

(c) The general assembly finds the following:

(1) That the closing of a military base in a unit results in an increased cost to the unit of providing governmental services to the area formerly occupied by the military base.

(2) That military base property held by a development authority is exempt from property taxation, resulting in the lack of an adequate tax base to support the increased governmental services.

(3) That to restore this tax base and provide a proper allocation of the cost of providing governmental services the fiscal body of the unit should be authorized to collect PILOTS from the development authority.

(4) That the appropriate maximum PILOTS would be the amount of the property taxes that would be paid if the tangible property were not exempt.

(d) The fiscal body of the unit may adopt an ordinance to require a development authority to pay PILOTS at times set forth in the ordinance with respect to tangible property of which the development authority is the owner or the lessee and that is exempt from property taxes. The ordinance remains in full force and effect until repealed or modified by the fiscal body.

(e) The PILOTS must be calculated so that the PILOTS do not exceed the amount of property taxes that would have been levied by the fiscal body for the unit upon the tangible property described in subsection (d) if the property were not exempt from property taxation.

(f) PILOTS shall be imposed as are property taxes and shall be based on the assessed value of the tangible property described in subsection (d). Except as provided in subsection (j), the township assessor, or the county assessor if there is no township assessor for the township, shall assess the tangible property described in subsection (d) as though the property were not exempt. The development authority shall report the value of personal property in a manner consistent with IC 6-1.1-3.

(g) Notwithstanding any other law, a development authority is authorized to pay PILOTS imposed under this section from any legally available source of revenues. The development authority may consider these payments to be operating expenses for all purposes.

(h) PILOTS shall be deposited in the general fund of the unit and used for any purpose for which the general fund may be used.

(i) PILOTS shall be due as set forth in the ordinance and bear interest, if unpaid, as in the case of other taxes on property. PILOTS shall be treated in the same manner as property taxes for purposes of all procedural and substantive provisions of law.

(j) If the duties of the township assessor have been transferred to the county assessor as described in IC 6-1.1-1-24, a reference to the township assessor in this section is considered to be a reference to the county assessor.

IC 36-7-30.5-35

Conditions on property development; development fees

Sec. 35. (a) Notwithstanding any other law, a development authority may:

- (1) impose conditions on the development of any property in a development area; and
- (2) require the payment of development fees or other fees by private persons to pay, defray, or mitigate the costs of the construction, operation, and maintenance of infrastructure that is required or needed to serve the development, redevelopment, and reuse of property within the development area.

(b) Before a development authority may impose conditions under subsection (a)(1), the development authority shall adopt a written resolution finding that the conditions to be imposed are:

- (1) necessary to carry out at least one (1) of the purposes of this chapter; and
- (2) reasonably related in nature and extent to the impact upon the development, redevelopment, and reuse of the property upon which the conditions are imposed.

(c) Before a development authority may impose fees under subsection (a)(2), the development authority shall adopt a written resolution finding that:

- (1) the infrastructure for which the fees are to be imposed is necessary to carry out at least one (1) of the purposes of this chapter and is required or needed to serve the development, redevelopment, and reuse of the property within the development area; and
- (2) the fees to be imposed are reasonably related in nature and extent to the impact upon the infrastructure attributable to the development, redevelopment, and reuse of the property within the development area upon which the fees are imposed.

(d) Conditions imposed under subsection (a)(1) must be approved by the plan commission of the unit or other body responsible for developing a general plan for the unit. To approve the conditions, the plan commission or other body shall adopt a written resolution making the same findings required to be made by the development authority under subsection (b).

(e) Fees imposed under subsection (a)(2) must be deposited in the appropriate fund of the unit responsible for constructing, operating, and maintaining the particular infrastructure for which the fee has been imposed.

Resolution; allocation of taxes to professional sports development area fund

Sec. 14. (a) This section does not apply to that part of the tax area in which a facility or complex of facilities described in section 10(a)(3) of this chapter is located. A reference to "tax area" in this section does not include the part of the tax area in which a facility or complex of facilities described in section 10(a)(3) of this chapter is located.

(b) A tax area must be established by resolution. A resolution establishing a tax area must provide for the allocation of covered taxes attributable to a taxable event or covered taxes earned in the tax area to the professional sports development area fund established for the county. The allocation provision must apply to the part of the tax area covered by this section. The resolution must provide that the tax area terminates not later than December 31, 2027.

(c) All of the salary, wages, bonuses, and other compensation that are:

- (1) paid during a taxable year to a professional athlete for professional athletic services;
- (2) taxable in Indiana; and
- (3) earned in the tax area;

shall be allocated to the tax area if the professional athlete is a member of a team that plays the majority of the professional athletic events that the team plays in Indiana in the tax area.

(d) Except as provided by section 14.1 of this chapter, the total amount of state revenue captured by the tax area may not exceed five million dollars (\$5,000,000) per year for twenty (20) consecutive years.

(e) The resolution establishing the tax area must designate the facility and the facility site for which the tax area is established and covered taxes will be used.

(f) The department may adopt rules under IC 4-22-2 and guidelines to govern the allocation of covered taxes to a tax area.

As added by P.L.255-1997(ss), SEC.19. Amended by P.L.214-2005, SEC.68; P.L.182-2009(ss), SEC.412.

IC 36-7-31-14.1

Marion County allocation of additional revenue to professional sports development area fund

Sec. 14.1. (a) The budget director appointed under IC 4-12-1-3 may determine that, commencing July 1, 2007, there may be captured in the tax area up to eleven million dollars (\$11,000,000) per year in addition to the up to five million dollars (\$5,000,000) of state revenue to be captured by the tax area under section 14 of this chapter for the professional sports development area fund and in addition to the state revenue to be captured by the part of the tax area covered by section 14.2 of this chapter for the sports and convention facilities operating fund, for up to thirty-four (34) consecutive years. The budget director's determination must specify that the termination date of the tax area for purposes of the collection of the additional eleven million dollars (\$11,000,000) per year for the professional sports development area fund is extended to not later than:

- (1) January 1, 2041; or
- (2) January 1, 2010, if on that date there are no obligations owed by the capital improvement board of managers to the Indiana stadium and convention building authority or to any state agency under IC 5-1-17-26.

Following the budget director's determination, and commencing July 1, 2007, the maximum total amount of revenue captured by the tax area for years ending before January 1, 2041, is sixteen million dollars (\$16,000,000) per year for the professional sports development area fund.

(b) The additional revenue captured pursuant to a determination under subsection (a) shall be distributed to the capital improvement board or its designee. So long as there are any current or future obligations owed by the capital improvement board to the Indiana stadium and convention building authority created by IC 5-1-17 or

any state agency under a lease or another agreement entered into between the capital improvement board and the Indiana stadium and convention building authority or any state agency under IC 5-1-17-26, the capital improvement board or its designee shall deposit the additional revenue received under this subsection in a special fund, which may be used only for the payment of the obligations described in this subsection.

(c) Notwithstanding the budget director's determination under subsection (a), after January 1, 2010, the capture of the additional eleven million dollars (\$11,000,000) per year described in subsection (a) terminates on January 1 of the year following the first year in which no obligations of the capital improvement board described in subsection (b) remain outstanding.

As added by P.L.214-2005, SEC.69. Amended by P.L.120-2006, SEC.6; P.L.182-2009(ss), SEC.413.

IC 36-7-31-14.2

Marion County allocation of additional revenue to sports and convention facilities operating fund

Sec. 14.2. (a) This section applies to the part of the tax area in which a facility or complex of facilities described in section 10(a)(3) of this chapter is located. A reference to "tax area addition" in this section includes only the part of the tax area in which a facility or complex of facilities described in section 10(a)(3) of this chapter is located.

(b) A tax area change described in section 11(a)(2) of this chapter must be established by resolution. A resolution changing the tax area must provide for a request for the allocation of:

(1) covered taxes attributable to a taxable event in the tax area addition; or

(2) covered taxes from income earned in the tax area addition; to the sports and convention facilities operating fund established by section 16(b) of this chapter. However, to the extent a covered tax has been pledged before January 1, 2009, and allocated under IC 36-10-9-11 to the capital improvement bond fund, that amount shall not be allocated to the sports and convention facilities operating fund.

(c) The allocation provision must apply only to the tax area addition.

(d) The resolution changing the tax area must designate each facility and each facility site for which the money to be distributed from the sports and convention facilities operating fund will be used.

(e) The budget director shall make an annual determination of whether at least one (1) of the following conditions is satisfied:

(1) The maximum additional tax rate for the innkeeper's tax under IC 6-9-8 was adopted after June 30, 2009, and before September 1, 2009, and was in effect on January 1 of the determination year.

(2) As of January 1 of the determination year:

(A) at least four million dollars (\$4,000,000) per year is

being raised from the innkeeper's tax rate increase that was adopted under IC 6-9-8 after June 30, 2009, and before September 1, 2009; and

(B) the treasurer of state has invested in obligations issued by the capital improvement board under IC 5-13-10.5-18.

If the budget director determines that either of the conditions under subdivision (1) or (2) is satisfied, covered taxes attributable to the part of the tax area in which a facility or complex of facilities described in section 10(a)(3) of this chapter is located shall then be deposited in the sports and convention facilities operating fund established by section 16(b) of this chapter. For 2009, the budget director may use September 1, 2009, instead of January 1, 2009, to make a determination of whether to make deposits in the sports and convention facilities operating fund in 2009. However, the maximum total amount of covered taxes that may be deposited in the sports and convention facilities operating fund is eight million dollars (\$8,000,000) during each year. To the extent a covered tax has been pledged before January 1, 2009, and allocated under IC 36-10-9-11 to the capital improvement bond fund, that amount shall not be allocated to or deposited in the sports and convention facilities operating fund.

(f) The department may adopt rules under IC 4-22-2 and guidelines to govern the allocation of covered taxes from the tax area addition.

As added by P.L.182-2009(ss), SEC.414.

Notwithstanding section 9 of this chapter or any other law, a designating body may by resolution approve the expansion of a professional sports and convention development area after June 30, 2009, to include a hotel designated by the designating body. A resolution for such an expansion must be reviewed by the budget committee and approved by the budget agency in the same manner

as a resolution establishing a professional sports and convention development area is reviewed and approved. A facility may not include a private golf course or related improvements. The tax area may include only facilities described in this section and any parcel of land on which a facility is located. An area may contain noncontiguous tracts of land within the city, county, or school corporation.

The facilities located at an Indiana University-Purdue University regional campus are added to the tax area designated by the county. The maximum amount of covered taxes that may be captured in all tax areas located in the county is three million dollars (\$3,000,000) per year, regardless of the designating body that established the tax area. - (1) Police department.
- (2) Fire department, fire alarms, and fire escapes.
- (3) Animal shelters.
- (4) Inspection of buildings.

(c) The safety board may purchase the equipment and supplies and make the repairs needed in the department of public safety.

- (1) adopt rules for the government and discipline of the police and fire departments; and
- (2) adopt general and special orders to the police and fire departments through the chiefs of the departments.

Organization of safety boards; appointment of police officers, firefighters, and other officials

Sec. 3. (a) A majority of the members of the safety board constitutes a quorum. The board shall adopt rules concerning the time of holding regular and special meetings and of giving notice of them. The board shall elect one (1) of its members chairman, who holds the position as long as prescribed by the rules of the board. The board shall record all of its proceedings.

(b) The members of the safety board may act only as a board. No member may bind the board or the city except by resolution entered in the records of the board authorizing the member to act in its behalf as its authorized agent.

(c) The safety board shall appoint:

- (1) the members and other employees of the police department other than those in an upper level policymaking position;
- (2) the members and other employees of the fire department other than those in an upper level policymaking position;
- (3) a market master; and

(4) other officials that are necessary for public safety purposes.

(d) The annual compensation of all members of the police and fire departments and other appointees shall be fixed by ordinance of the legislative body not later than November 1 of each year for the ensuing budget year. The ordinance may grade the members of the departments and regulate their pay by rank as well as by length of service. If the legislative body fails to adopt an ordinance fixing the compensation of members of the police or fire department, the safety board may fix their compensation, subject to change by ordinance.

(e) The safety board, subject to ordinance, may also fix the number of members of the police and fire departments and the number of appointees for other purposes and may, subject to law, adopt rules for the appointment of members of the departments and for their government.

(f) The safety board shall divide the city into police precincts and fire districts.

(g) The police chief has exclusive control of the police department, and the fire chief has exclusive control of the fire department, subject to the rules and orders of the safety board. In time of emergency, the police chief and the fire chief are, for the time being, subordinate to the city executive and shall obey the city executive's orders and directions, notwithstanding any law or rule to the contrary.

IC 36-8-3-4

Police officers and firefighters; discipline, demotion, and dismissal; hearings; appeals; administrative leave

Sec. 4. (a) This section also applies to all towns and townships that have full-time, paid police or fire departments. For purposes of this section, the appropriate appointing authority of a town or township is considered the safety board of a town or township. In a town with a board of metropolitan police commissioners, that board is considered the safety board of the town for police department purposes.

(b) Except as provided in subsection (m), a member of the police or fire department holds office or grade until the member is dismissed or demoted by the safety board. Except as provided in subsection (n), a member may be disciplined by demotion, dismissal, reprimand, forfeiture, or suspension upon either:

- (1) conviction in any court of any crime; or
- (2) a finding and decision of the safety board that the member has been or is guilty of any one (1) or more of the following:
 - (A) Neglect of duty.
 - (B) A violation of rules.
 - (C) Neglect or disobedience of orders.
 - (D) Incapacity.

- (E) Absence without leave.
- (F) Immoral conduct.
- (G) Conduct injurious to the public peace or welfare.
- (H) Conduct unbecoming an officer.
- (I) Another breach of discipline.

The safety board may not consider the political affiliation of the member in making a decision under this section. If a member is suspended or placed on administrative leave under this subsection, the member is entitled to the member's allowances for insurance benefits to which the member was entitled before being suspended or placed on administrative leave. In addition, the local unit may provide the member's allowances for any other fringe benefits to which the member was entitled before being suspended or placed on administrative leave.

(c) Before a member of a police or fire department may be suspended in excess of five (5) days without pay, demoted, or dismissed, the safety board shall offer the member an opportunity for a hearing. If a member desires a hearing, the member must request the hearing not more than five (5) days after the notice of the suspension, demotion, or dismissal. Written notice shall be given either by service upon the member in person or by a copy left at the member's last and usual place of residence at least fourteen (14) days before the date set for the hearing. The hearing conducted under this subsection shall be held not more than thirty (30) days after the hearing is requested by the member, unless a later date is mutually agreed upon by the parties. The notice must state:

- (1) the time and place of the hearing;
- (2) the charges against the member;
- (3) the specific conduct that comprises the charges;
- (4) that the member is entitled to be represented by counsel;
- (5) that the member is entitled to call and cross-examine witnesses;
- (6) that the member is entitled to require the production of evidence; and
- (7) that the member is entitled to have subpoenas issued, served, and executed in the county where the unit is located.

If the corporation counsel or city attorney is a member of the safety board of a city, the counsel or attorney may not participate as a safety board member in a disciplinary hearing concerning a member of either department. The safety board shall determine if a member of the police or fire department who is suspended in excess of five (5) days shall continue to receive the member's salary during the suspension.

(d) Upon an investigation into the conduct of a member of the police or fire department, or upon the trial of a charge preferred against a member of either department, the safety board may compel the attendance of witnesses, examine them under oath, and require the production of books, papers, and other evidence at a meeting of the board. For this purpose, the board may issue subpoenas and have them served and executed in any part of the county where the unit is

located. If a witness refuses to testify or to produce books or papers in the witness's possession or under the witness's control, IC 36-4-6-21 controls to the extent applicable. The proper court may compel compliance with the order by attachment, commitment, or other punishment.

(e) The reasons for the suspension, demotion, or dismissal of a member of the police or fire department shall be entered as specific findings of fact upon the records of the safety board. A member who is suspended for a period exceeding five (5) days, demoted, or dismissed may appeal the decision to the circuit or superior court of the county in which the unit is located. However, a member may not appeal any other decision.

(f) An appeal under subsection (e) must be taken by filing in court, within thirty (30) days after the date the decision is rendered, a verified complaint stating in concise manner the general nature of the charges against the member, the decision of the safety board, and a demand for the relief asserted by the member. A bond must also be filed that guarantees the appeal will be prosecuted to a final determination and that the plaintiff will pay all costs adjudged against the plaintiff. The bond must be approved as bonds for costs are approved in other cases. The unit must be named as the sole defendant, and the plaintiff shall have a summons issued as in other cases against the unit. Neither the safety board nor the members of it may be made parties defendant to the complaint, but all are bound by service upon the unit and the judgment rendered by the court.

(g) In an appeal under subsection (e), no pleading is required by the unit to the complaint, but the allegations are considered denied. The unit may file a motion to dismiss the appeal for failure to perfect it within the time and in the manner required by this section. If more than one (1) person was included in the same charges and in the same decision of dismissal by the safety board, then one (1) or more of the persons may join as plaintiffs in the same complaint, but only the persons that appeal from the decision are affected by it. The decision of the safety board is final and conclusive upon all persons not appealing. The decision appealed from is not stayed or affected pending the final determination of the appeal, but remains in effect unless modified or reversed by the final judgment of the court.

(h) A decision of the safety board is considered prima facie correct, and the burden of proof is on the party appealing. All appeals shall be tried by the court. The appeal shall be heard de novo only upon any new issues related to the charges upon which the decision of the safety board was made. The charges are considered to be denied by the accused person. Within ten (10) days after the service of summons the safety board shall file in court a complete transcript of all papers, entries, and other parts of the record relating to the particular case. Inspection of these documents by the person affected, or by the person's agent, must be permitted by the safety board before the appeal is filed, if requested. Each party may produce evidence relevant to the issues that it desires, and the court shall review the record and decision of the safety board upon appeal.

(i) The court shall make specific findings and state the conclusions of law upon which its decision is made. If the court finds that the decision of the safety board appealed from should in all things be affirmed, its judgment should state that, and judgment for costs shall be rendered against the party appealing. If the court finds that the decision of the safety board appealed from should not be affirmed in all things, then the court shall make a general finding, setting out sufficient facts to show the nature of the proceeding and the court's decision on it. The court shall either:

(1) reverse the decision of the safety board; or

(2) order the decision of the safety board to be modified.

(j) The final judgment of the court may be appealed by either party. Upon the final disposition of the appeal by the courts, the clerk shall certify and file a copy of the final judgment of the court to the safety board, which shall conform its decisions and records to the order and judgment of the court. If the decision is reversed or modified, then the safety board shall pay to the party entitled to it any salary or wages withheld from the party pending the appeal and to which the party is entitled under the judgment of the court.

(k) Either party shall be allowed a change of venue from the court or a change of judge in the same manner as such changes are allowed in civil cases. The Indiana Rules of Trial Procedure govern in all matters of procedure upon the appeal that are not otherwise provided for by this section.

(l) An appeal takes precedence over other pending litigation and shall be tried and determined by the court as soon as practical.

(m) Except as provided in IC 36-5-2-13, the executive may reduce in grade any member of the police or fire department who holds an upper level policy making position. The reduction in grade may be made without adhering to the requirements of subsections (b) through (l). However, a member may not be reduced in grade to a rank below that which the member held before the member's appointment to the upper level policy making position.

(n) If the member is subject to criminal charges, the board may place the member on administrative leave until the disposition of the criminal charges in the trial court. Any other action by the board is stayed until the disposition of the criminal charges in the trial court. An administrative leave under this subsection may be with or without pay, as determined by the board. If the member is placed on leave without pay, the board, in its discretion, may award back pay if the member is exonerated in the criminal matter.

IC 36-8-3-4.1

Certain towns and townships; reprimand or temporary suspension of members without prior hearing; review by safety board

Sec. 4.1. (a) This section also applies to all towns and townships that have full-time, paid police or fire departments. For purposes of

this section, the appropriate appointing authority of a town or township is considered the safety board of a town or township. In a town with a board of metropolitan police commissioners, that board is considered the safety board of the town.

(b) In addition to the disciplinary powers of the safety board, the chief of the department may, without a hearing, reprimand or suspend without pay a member, including a police radio or signal alarm operator or a fire alarm operator, for a maximum of five (5) working days. For the purposes of this section, eight (8) hours of paid time constitutes one (1) working day. If a chief reprimands a member in writing or suspends a member, the chief shall, within forty-eight (48) hours, notify the board in writing of the action and the reasons for the action. A member who is reprimanded in writing or suspended under this section may, within forty-eight (48) hours after receiving notice of the reprimand or suspension, request in writing that the board review the reprimand or suspension and either uphold or reverse the chief's decision. At its discretion, the board may hold a hearing during this review. If the board holds a hearing, written notice must be given either by service upon the member in person or by a copy left at the member's last and usual place of residence at least fourteen (14) days before the date set for the hearing. The notice must contain the information listed under section 4(c) of this chapter. If the decision is reversed, the member who was suspended is entitled to any wages withheld as a result of the suspension.

IC 36-8-3-4.3

- (2) under section 5 of this chapter, the police or fire department is exempt from sections 3, 4, and 4.1 of this chapter.

(b) As used in this section, "certified employee" means an individual who, as a condition of employment, holds a valid certification issued under IC 16-31-3 by the Indiana emergency medical services commission established by IC 16-31-2-1.

(c) As used in this section, "medical director" means a physician with an unlimited license to practice medicine in Indiana and who performs the duties and responsibilities described in 836 IAC 2-2-1.

(d) If a medical director takes any of the following actions against a certified employee, the medical director shall provide to the certified employee and to the chief of the certified employee's department a written explanation of the reasons for the action taken by the medical director:

- (1) The medical director refuses or fails to supervise or

otherwise provide medical control and direction to the certified employee.

(2) The medical director refuses or fails to attest to the competency of the certified employee to perform emergency medical services.

(3) The medical director suspends the certified employee from performing emergency medical services.

(e) Before a police or fire department takes any employment related action against a certified employee as the result of a medical director's action described in subsection (d), the certified employee is entitled to a hearing and appeal concerning the medical director's action as provided in section 4 of this chapter.

(f) If the medical director's action that is the subject of an appeal under subsection (e) is based on a health care decision made by the certified employee in performing emergency medical services, the safety board conducting the hearing shall consult with an independent medical expert to determine whether the certified employee followed the applicable emergency medical services protocol in making the health care decision. The independent medical expert:

(1) must be a physician trained in emergency medical services; and

(2) may not be affiliated with the same hospital as the medical director.

Chapter 3.5. Police and Fire Merit Systems

IC 36-8-3.5-1

Application of chapter; retention of existing systems; establishment of new system

Sec. 1. (a) This chapter applies to each municipality or township that has a full-time paid police or fire department. A municipality may exercise the power of establishing a merit system for its police or fire department under this chapter or by ordinance adopted under IC 36-1-4-14. A township may exercise the power of establishing a merit system for its fire department under this chapter or by resolution under IC 36-1-4-14. This chapter does not affect merit systems established:

- (1) by ordinance under IC 36-1-4-14, except as provided by subsection (e) and section 19.3 of this chapter;
- (2) by resolution under IC 36-1-4-14, except as provided by subsection (f) and section 19.3 of this chapter; or
- (3) by a prior statute, except as provided by subsection (b) and section 19.3 of this chapter.

(b) If a city had a merit system for its police or fire department under the former IC 18-4-12, IC 19-1-7, IC 19-1-14, IC 19-1-14.2, IC 19-1-14.3, IC 19-1-14.5, IC 19-1-20, IC 19-1-21, IC 19-1-29, IC 19-1-29.5, IC 19-1-31, IC 19-1-31.5, or IC 19-1-37.5, it may retain that system by ordinance of the city legislative body passed before January 1, 1983. The ordinance must initially incorporate all the provisions of the prior statute but may be amended by the legislative body after December 31, 1984. The ordinance retaining the system must be amended, if necessary, to include a provision under which the commission (or governing board of the merit system) has at least one-third (1/3) of its members elected by the active members of the department as prescribed by section 8 of this chapter. Each elected commission member must:

- (1) be a person of good moral character; and
- (2) except for a member of a fire department having a merit system established under IC 19-1-37.5, not be an active member of a police or fire department or agency.

(c) After December 31, 1984, the legislative body also may repeal the ordinance described in subsection (b), but the legislative body shall in the repealing ordinance concurrently establish a new merit system under section 3 of this chapter. (This subsection does not require the legislative body to establish a new merit system when it exercises its power to amend the ordinance under subsection (b).) After the new merit system takes effect, all members of the department are entitled to the same ranks and pay grades the members held under the prior system, subject to changes made in accordance with this chapter.

(d) If a city had a merit system for its police or fire department under a prior statute but fails to retain that system under subsection (b), the city legislative body shall, before July 1, 1983, pass an

ordinance to establish a new merit system under section 3 of this chapter. If the new merit system is approved as provided by section 4 of this chapter, it takes effect as provided by that section. However, if the new merit system is rejected under section 4 of this chapter, within thirty (30) days the city legislative body shall adopt an ordinance to retain the prior merit system. The prior merit system remains in effect until the new merit system takes effect, after which time all members of the department are entitled to the same ranks and pay grades the members held under the prior system, subject to changes made in accordance with this chapter.

(e) An ordinance adopted under IC 36-1-4-14 to establish a police or fire merit system must include a provision under which the commission, or governing board of the merit system, has at least one-third (1/3) of its members elected by the active members of the department as prescribed by section 8 of this chapter. Each elected commission member must be a person of good moral character who is not an active member of a police or fire department or agency. If an ordinance was adopted under IC 36-1-4-14 before July 1, 1988, the ordinance must be amended to include this requirement.

(f) This chapter does not prevent a township or other unit that has adopted a merit system under section 3 of this chapter from later amending or deleting any provisions of the merit system contained in this chapter. However, the merit system must include a provision under which the commission has at least one-third (1/3) of its members elected by the active members of the department, as set forth in section 8 of this chapter and a provision that incorporates the requirements of section 6(a) of this chapter. This subsection does not require the legislative body to establish a new merit system when it exercises its power to amend under this subsection.

Sec. 9. (a) Within thirty (30) days after the commission is selected, the commission shall adopt rules to govern the commission, including the time and place of regular monthly meetings and special meetings that are necessary to transact the business of the commission. A majority of the commissioners constitutes a quorum, and a majority vote of all the commissioners is necessary to transact the business of the commission. Each year the commissioners shall select from among their number a president, vice president, and secretary. The commission shall keep a permanent record of its proceedings.

(b) The commission shall submit a proposed annual budget to the unit as other budgets of the unit are submitted. The legislative body shall include in its budget an amount sufficient for the necessary expenses of the commission.

Rules; adoption; notice and hearing

Sec. 10. (a) Within ninety (90) days after the commission is selected, the commission shall adopt rules governing:

- (1) the selection and appointment of persons to be employed as members of the department, subject to applicable pension statutes;
- (2) promotions and demotions of members of the department;
- and
- (3) disciplinary action or dismissal of members of the

department.

(b) Before the rules required by this chapter are adopted by the commission, the commission must hold a public hearing to consider the adoption of the proposed rules. At least ten (10) days before the public hearing, the commission must have a notice of the hearing published in accordance with IC 5-3-1. The notice must state the time and place of the hearing and give briefly the subject matter of the proposed rules.

(c) At least ten (10) days before the hearing, one (1) copy of the proposed rules must be placed on file in the office of the:

(1) clerk of a county, city, or town; or

(2) executive of a township;

for inspection by residents of the unit.

(d) At least ten (10) days before the hearing, three (3) copies of the proposed rules must be forwarded to the chief of the department and retained on file in the chief's office for inspection at all times by members of the department.

(e) At the hearing, any interested person of the unit and any member of the department must be afforded an opportunity to present both oral and written evidence on any matter relating to the adoption of the proposed rules. The commission shall give due consideration to this evidence in making its final decision concerning the adoption of the proposed rules.

IC 36-8-3.5-11

Department members; tenure; chief; appointment and qualifications

Sec. 11. (a) The commission may appoint and remove members of the department, except for a member in an upper level policymaking position. The executive of the unit shall appoint and may remove a member in an upper level policymaking position.

(b) The chief of a fire department shall be selected from the members of the department, and he must have at least five (5) years service in the department before his appointment. These requirements may be waived by a majority vote of the unit's legislative body upon request of the unit's executive. However, the chief must still have at least five (5) years service in a full-time, paid fire department or agency.

(c) To be appointed chief or deputy chief of a police department, an applicant must meet the qualifications in IC 36-8-4-6.5.

(d) The removal of a member from an upper level policymaking position is removal from rank only and not from the department. When the member is removed, he shall be appointed by the commission to the rank in the department that he held at the time of his upper level appointment or to any rank to which he had been promoted during his tenure in the upper level position. If such a rank is not open in either case, the member is entitled to the pay of that rank and shall be promoted to that rank as soon as an opening is

available.

IC 36-8-3.5-12

Department members; appointment; qualifications; application; general aptitude test; ratings; eligibility list; vacancies; physical agility test; probation

Sec. 12. (a) To be appointed to the department, an applicant must be:

- (1) a citizen of the United States;
- (2) a high school graduate or equivalent; and
- (3) at least twenty-one (21) years of age, but under thirty-six (36) years of age.

However, the age requirements do not apply to a person who has been previously employed as a member of the department.

(b) A person may not be appointed, reappointed, or reinstated if he has a felony conviction on his record.

(c) Applications for appointment or reappointment to the department must be filed with the commission. The applicant must produce satisfactory proof of the date and place of his birth.

(d) Applicants for appointment or reappointment to the department must pass the general aptitude test required under IC 36-8-3.2-3 or IC 36-8-3.2-3.5. The general aptitude test shall:

- (1) reflect the essential functions of the job;
- (2) be conducted according to procedures adopted by the commission; and
- (3) be administered in a manner that reasonably accommodates the needs of applicants with a disability.

The results of the general aptitude test shall be filed with the commission. If the commission finds that the applicant lacks the proper qualifications, it shall reject the applicant.

(e) The applicants shall then be rated on the selection criteria and testing methods adopted by the commission, which may include mental alertness, character, habits, and reputation. The commission shall adopt rules for grading the applicants, including the establishment of a passing score. The commission shall place the names of applicants with passing scores on an eligibility list by the order of their scores and shall certify the list to the safety board.

(f) If an applicant for original appointment reaches his thirty-sixth birthday, his name shall be removed from the eligibility list. Applicants remain on the list for two (2) years from the date of certification. After two (2) years a person may reapply as an applicant.

(g) When a vacancy occurs in the department, the commission, upon a written request of the chief of the department, shall administer the physical agility test under IC 36-8-3.2-3 or IC 36-8-3.2-3.5 to the applicant having the highest score on the eligibility list. If the appointed applicant successfully completes the physical agility test, the applicant shall then be enrolled as a member

of the department to fill the vacancy if:

- (1) the applicant is still of good character; and
- (2) the applicant passes the required examinations identified in IC 36-8-3.2-6 and IC 36-8-8-19.

(h) All appointments are probationary for a period not to exceed one (1) year. If the commission finds, upon the recommendation of the department during the probationary period, that the conduct or capacity of the probationary member is not satisfactory, the commission shall notify him in writing that he is being reprimanded, that he is being suspended, or that he will not receive a permanent appointment. If a member is notified that he will not receive a permanent appointment, his employment immediately ceases. Otherwise, at the expiration of the probationary period the member is considered regularly employed.

IC 36-8-3.5-13

Promotions; rules; requisites; eligibility list

Sec. 13. (a) Rules governing promotions must provide that the following factors be considered in rating a member of the department for a promotion:

- (1) The score received by the member on a written competitive examination.
- (2) The score received by the member on an oral competitive interview.
- (3) The performance record of the member in the department.
- (4) The member's length of service.

The commission shall determine the weight to be given to each of the factors. However, neither a member's length of service nor the score received on the oral interview may comprise more than twenty percent (20%) each of the rating.

(b) Promotions to a rank must be from the next lower rank. In addition, the member being promoted must have served at the lower rank for a period determined by the commission.

(c) Only members who are qualified in rank and length of service may be given the competitive examinations and placed on an eligibility list. The eligibility list for a position consists of members who have been placed on the list in order of their cumulative score on all rating factors. The eligibility list shall be maintained for two (2) years from the date of certification, after which time the list shall be retired and a new list established. The retired list shall be kept for five (5) years and then destroyed.

As added by Acts 1981, P.L.316, SEC.1.

Promotions; competitive examinations; procedures

Revisor's Note: The version of IC 36-8-3.5-14 appearing in the 1993 Edition of the Indiana Code was printed incorrectly. Use the following version of IC 36-8-3.5-14.

Sec. 14. (a) Before a written competitive examination may be held to fill a current or expected vacancy in the ranks, the members eligible to take the examination must be notified of the written materials from which the questions will be taken. The commission may employ instructors, purchase materials, and make other expenditures to provide information for applicants for promotion examinations.

(b) The identity of a member taking the written examination shall be withheld from the person or persons grading the examination, and all written examinations are confidential. The commission shall notify each member in writing of the score that the member received on the examination. The score received by a member on the written examination becomes a part of the permanent file of the member, and the member is entitled to access to this file for examination at any time.

(c) The examination papers shall be kept under the commission's supervision. A member who is aggrieved with the score received on the written examination may appeal to the commission for review of the score. The appeal must be filed within ten (10) days after notice of the score has been sent to him. He may review the questions incorrectly answered by him and challenge the answer considered correct by the examiner. The commission shall either affirm the score or correct the score according to the findings of a review. The examination papers shall be retired after the two (2) year period during which the eligibility list is valid. The retired papers shall be kept for five (5) years and then destroyed.

As added by Acts 1981, P.L.316, SEC.1.

IC 36-8-3.5-15

Performance ratings; rules; appeal

Sec. 15. (a) The commission shall adopt rules for determining a performance rating. The rules must require that a performance rating be made at least once every six (6) months for each member of the department, including probationary members. The rating shall be made by one (1) or more of the member's superiors, as defined in the commission's rules. Probationary members shall be rated in the same manner as other members of the department. The ratings shall be submitted to the chief of the department and kept on file in his office under his supervision. The chief shall notify each member in writing of the rating that the member received.

(b) A member who is aggrieved with the performance rating given to him by his superior may appeal to the commission for a review of the rating. The appeal must be filed within ten (10) days after notice of the rating has been sent to him. The commission shall either affirm or correct the rating.

As added by Acts 1981, P.L.316, SEC.1.

IC 36-8-3.5-16

Promotions; certification of eligible members; probation; procedures

Sec. 16. (a) When a vacancy in rank occurs, the commission shall certify to the chief of the department the three (3) members with the highest scores on the eligibility list for that particular rank. Within six (6) months the commission, upon the recommendation of the chief, shall promote one (1) of those members to fill the vacant position.

(b) All promotions are probationary for a period not to exceed one (1) year. At the end of the period, a probationary member's superior shall review the member's performance and recommend to the commission that:

- (1) the promotion be made permanent; or
- (2) the promotion be revoked.

(c) The commission shall prepare a rating chart for the superior's use in making the report. The commission shall review the report and decide what action should be taken. The probationary member is entitled to appear before the commission and be heard on any matter detrimental to him in his superior's report. He is also entitled to be represented by counsel or another representative of his choice. If the promotion is finally revoked the member may not be returned to a rank lower than that he held before the probationary promotion.

(d) Actions by the commission other than making the promotion permanent may be appealed within thirty (30) days to the circuit or superior court of the county, with the unit being named as the sole defendant.

As added by Acts 1981, P.L.316, SEC.1.

IC 36-8-3.5-17

Disciplinary actions; grounds; hearing; notice; requisites; procedures; appeal

Sec. 17. (a) The commission may take the following disciplinary actions against a regular member of the department:

- (1) Suspension with or without pay.
- (2) Demotion.
- (3) Dismissal.

If a member is suspended under this subsection, the member is entitled to the member's remuneration and allowances for insurance benefits to which the member was entitled before the suspension. In addition, the local unit may provide the member's allowances for any other fringe benefits to which the member was entitled before the suspension. The commission shall determine if a member of the department who is suspended in excess of five (5) days shall continue to receive the member's salary during suspension.

(b) A member may be disciplined by the commission if:

- (1) the member is convicted of a crime; or
- (2) the commission finds the member guilty of a breach of discipline, including:
 - (A) neglect of duty;
 - (B) violation of commission rules;
 - (C) neglect or disobedience of orders;
 - (D) continuing incapacity;

- (E) absence without leave;
- (F) immoral conduct;
- (G) conduct injurious to the public peace or welfare;
- (H) conduct unbecoming a member; or
- (I) furnishing information to an applicant for appointment or promotion that gives that person an advantage over another applicant.

(c) If the chief of the department, after an investigation within the department, prefers charges against a member of the department for an alleged breach of discipline under subsection (b), including any civilian complaint of an alleged breach of discipline under subsection (b)(2)(F), (b)(2)(G), or (b)(2)(H), a hearing shall be conducted upon the request of the member. If a hearing is requested within five (5) days of the chief preferring charges, the parties may by agreement designate a hearing officer who is qualified by education, training, or experience. If the parties do not agree within this five (5) day period, the commission may hold the hearing or designate a person or board to conduct the hearing, as provided in the commission's rules. The designated person or board must be qualified by education, training, or experience to conduct such a hearing and may not hold an upper level policy making position. The hearing conducted under this subsection shall be held within thirty (30) days after it is requested by the member.

(d) Written notice of the hearing shall be served upon the accused member in person or by a copy left at the member's last and usual place of residence at least fourteen (14) days before the date set for the hearing. The notice must state:

- (1) the time and place of the hearing;
- (2) the charges against the member;
- (3) the specific conduct that comprises the charges;
- (4) that the member is entitled to be represented by counsel or another representative of the member's choice;
- (5) that the member is entitled to call and cross-examine witnesses;
- (6) that the member is entitled to require the production of evidence; and
- (7) that the member is entitled to have subpoenas issued, served, and executed.

(e) The commission may:

- (1) compel the attendance of witnesses by issuing subpoenas;
- (2) examine witnesses under oath; and
- (3) order the production of books, papers, and other evidence by issuing subpoenas.

(f) If a witness refuses to appear at a hearing of the commission after having received written notice requiring the witness's attendance, or refuses to produce evidence that the commission requests by written notice, the commission may file an affidavit in the circuit court of the county setting forth the facts of the refusal. Upon the filing of the affidavit, a summons shall be issued from the circuit court and served by the sheriff of the county requiring the

appearance of the witness or the production of information or evidence to the commission.

(g) Disobedience of a summons constitutes contempt of the circuit court from which the summons has been issued. Expenses related to the filing of an affidavit and the issuance and service of a summons shall be charged to the witness against whom the summons has been issued, unless the circuit court finds that the action of the witness was taken in good faith and with reasonable cause. In that case, and in any case in which an affidavit has been filed without the issuance of a summons, the expenses shall be charged to the commission.

(h) A decision to discipline a member may be made only if the preponderance of the evidence presented at the hearing indicates such a course of action.

(i) A member who is aggrieved by the decision of a person or board designated to conduct a disciplinary hearing under subsection (c) may appeal to the commission within ten (10) days of the decision. The commission shall on appeal review the record and either affirm, modify, or reverse the decision on the basis of the record and such oral or written testimony that the commission determines, including additional or newly discovered evidence.

(j) The commission, or the designated person or board, shall keep a record of the proceedings in cases of suspension, demotion, or dismissal. The commission shall give a free copy of the transcript to the member upon request if an appeal is filed.

As added by Acts 1981, P.L.316, SEC.1. Amended by P.L.58-1989, SEC.4; P.L.265-1993, SEC.3.

(b) The appeal shall be made according to the Indiana rules of trial procedure with the following exceptions:

(1) The verified appeal must be filed within thirty (30) days after the date of the board's decision.

(2) The unit shall be named as the sole defendant.

(3) The unit is assumed to have denied the allegations without filing a responsive pleading.

(4) The plaintiff must file a bond at the time of filing the complaint conditioned on the plaintiff prosecuting the appeal to a final determination and paying the court costs incurred in the appeal.

(5) Within thirty (30) days after the service of summons the commission shall file in court a complete transcript of all papers, entries, and other parts of the record relating to the case.

(c) The appeal takes precedence over other litigation pending before the court.

For the purposes of this subsection, eight (8) hours of paid time constitutes one (1) working day.

(b) If a chief reprimands a member in writing or suspends a member, he shall, within forty-eight (48) hours, notify the commission in writing of the action and the reasons for the action. A member who is reprimanded in writing or suspended under this section may, within forty-eight (48) hours after receiving notice of the reprimand or suspension, request in writing that the commission review the reprimand or suspension and either uphold or reverse the chief's decision. At its discretion, the commission may hold a hearing during this review. If the board holds a hearing, written notice must be given either by service upon the member in person or by a copy left at the member's last and usual place of residence at least fourteen (14) days before the date set for the hearing. The notice must contain the information listed under section 17(d) of this chapter. If the decision is reversed, the individual who was suspended is entitled to any wages withheld as a result of the suspension.

- (1) The medical director refuses or fails to supervise or otherwise provide medical control and direction to the certified employee.
- (2) The medical director refuses or fails to attest to the

competency of the certified employee to perform emergency medical services.

(3) The medical director suspends the certified employee from performing emergency medical services.

(e) Before a department takes any employment related action as the result of a medical director's action described in subsection (d) against a certified employee, the certified employee is entitled to a hearing and appeal concerning the medical director's action as provided in sections 17 and 18 of this chapter.

(f) If the medical director's action that is the subject of an appeal under subsection (e) is based on a health care decision made by the certified employee in performing emergency medical services, the commission conducting the hearing shall consult with an independent medical expert to determine whether the certified employee followed the applicable emergency medical services protocol in making the health care decision. (b) If the department is increased in number again, the members of the department who have been granted leaves of absence under this section shall be reinstated before an applicant on the eligibility list is appointed to the department. The reinstatements begin with the last member granted a leave.

(c) A member on leave of absence shall keep the commission advised of his current address. A member shall be informed of his

reinstatement by written notice. Within ten (10) calendar days after a member receives notice of reinstatement, he must advise the commission that he accepts reinstatement and will be able to commence employment on the date specified in the notice. Sec. 1. (a) This chapter applies to the following:

As added by Acts 1981, P.L.309, SEC.54. Amended by P.L.227-2005, SEC.38; P.L.1-2006, SEC.574.

IC 36-8-5-2

Leaves of absence; authorization; duration; renewal; compensation

Sec. 2. (a) The police chief or fire chief may be granted a leave of absence by the authority who appointed the police chief or fire chief. This appointing authority may also grant a leave of absence to any other full-time, fully paid police officer or firefighter.

(b) A leave of absence under subsection (a) shall be granted for service in the Indiana general assembly. A leave of absence under subsection (a) may also be granted for service in any other elected office or for one (1) of the following reasons:

- (1) Sickness.
- (2) Disability.
- (3) Sabbatical purposes.

However, a leave of absence because of disability may not be granted to a member of the 1977 fund under this subsection unless a leave granted under subsection (g) has expired without disability benefits having been paid from the 1977 fund. In the case of such an expiration, a leave for purposes of disability may be granted under this subsection but only until the member's eligibility for disability benefits is finally determined.

(c) Before a leave of absence may be granted for sabbatical purposes, the member must submit a written request explaining and justifying the leave to the appointing authority. Sabbatical purposes must be related to the improvement of the member's professional performance and skills, such as education, special training, work related experience, and exchange programs.

(d) This subsection applies to leaves of absence granted under subsection (b)(1), (b)(2), or (b)(3). A leave of absence may extend for a period of not more than one (1) year, determined by the appointing authority, and may be renewed upon written request of the member.

(e) This subsection applies to leaves of absence granted for service in an elected office. A police officer or firefighter who serves in the general assembly shall be granted a leave for the time spent in this service, including the time spent for committee or legislative council meetings. Except as provided in IC 3-5-9, a police officer or

firefighter who serves in any other elected office may be granted a leave for the time spent in this service. Leave for service in an elected office does not diminish a police officer's or firefighter's rights under the police officer's or firefighter's retirement or pension fund, except as provided in section 10 of this chapter, or advancement on the police officer's or firefighter's department salary schedule. For these purposes, the police officer or firefighter is, despite the leave, considered to be a member of the department during that time.

(f) This subsection applies to leaves of absence granted under subsection (b)(1), (b)(2), or (b)(3). A member on leave may receive compensation in an amount determined by the appointing authority, up to a maximum amount that equals the member's salary before the leave began.

(g) This subsection applies only to members of the 1977 fund. The local board may grant a leave of absence for purposes of disability to full-time, fully paid police officers or firefighters (including the police chief or fire chief). The leave is subject to the following conditions:

- (1) The police chief or fire chief must make a written determination that there is no suitable and available work on the appropriate department for which the fund member is or may be capable of becoming qualified.
- (2) The leave must be approved by the local board after a hearing conducted under IC 36-8-8-12.7.
- (3) The leave may not begin until the police officer or firefighter has exhausted all paid leave for sickness.
- (4) The leave shall continue until disability benefits are paid from the 1977 fund. However, the leave may not continue for more than six (6) months.
- (5) During the leave, the police officer or firefighter is entitled to receive compensation in an amount equal to fifty percent (50%) of the salary of a first class patrolman or first class firefighter on the date the leave begins.

Payments of compensation under this subsection may not be made from the 1925 fund, the 1937 fund, the 1953 fund, or the 1977 fund.

(h) Determinations under subsection (g) are not reviewable by the board of trustees of the Indiana public retirement system.

(i) This subsection applies to leaves of absence granted under subsection (a) or (b). An appointing authority shall establish a policy in writing that specifies whether a police officer or firefighter is entitled, during a leave of absence, to participate in any promotional process or earn seniority. A policy established under this subsection is subject to a department's existing disciplinary procedures. An appointing authority shall reinstate a police officer or firefighter returning from a leave at the merit or permanent rank determined under the policy established under this subsection. However, except as otherwise provided by federal law, an appointing authority is not required to reinstate a police officer or firefighter in the job that the police officer or firefighter held at the time the police officer's or

firefighter's leave began.

However, if there is an established merit system, eligibility lists for appointment or promotion in effect must be used in the selection of personnel before other temporary or permanent appointments. These persons shall be employed as temporary employees and are not members or beneficiaries of any pension fund under this article. All temporary employees' service terminates at the expiration of the emergency.

(b) Temporary employees and overtime work shall be paid out of the unexpended appropriations for salaries of those on temporary leave of absence under section 3 of this chapter.

As added by Acts 1981, P.L.309, SEC.54.

As added by Acts 1981, P.L.309, SEC.54.

IC 36-8-5-7

Military leaves; pension considerations

Sec. 7. (a) The monthly assessments against the salary of a member of a 1925, 1937, 1953, or 1977 fund shall be waived while the member is on temporary leave of absence under section 3 of this chapter or on a leave of absence that qualifies for the protections afforded by the Uniformed Services Employment and Reemployment Rights Act (38 U.S.C. 4301 et seq.).

(b) A member of a 1925, 1937, 1953, or 1977 fund does not lose his benefits from the fund because he fails to pay assessments that are assessed against him while on temporary leave or on a leave of absence that qualifies for the protections afforded by the Uniformed Services Employment and Reemployment Rights Act (38 U.S.C. 4301 et seq.).

(c) Notwithstanding any provision of this chapter, a member of the 1925, 1937, 1953, or 1977 fund is entitled to service credit and benefits in the amount and to the extent required by the Uniformed Services Employment and Reemployment Rights Act (38 U.S.C. 4301 et seq.).

As added by Acts 1981, P.L.309, SEC.54.

IC 36-8-5-9**Evidence of member's death**

Sec. 9. Death notices from the department of defense or other satisfactory proof of death are bona fide evidence of a member's death. This evidence constitutes full authority for the local board of a fund to carry out the law regarding deceased police officers and firefighters and their beneficiaries.

As added by Acts 1981, P.L.309, SEC.54.

IC 36-8-5-10**Credit for time spent on leave**

The member's employer may pay all or a part of the assessment or contribution for the member.

Qualification of 1925 fund under Internal Revenue Code; benefit limitations

Sec. 1.5. (a) As used in this chapter, "Internal Revenue Code":

(1) means the Internal Revenue Code of 1954, as in effect on September 1, 1974, if permitted with respect to governmental plans; or

(2) to the extent not inconsistent with subdivision (1), has the meaning set forth in IC 6-3-1-11.

(b) The 1925 fund shall satisfy the qualification requirements in Section 401 of the Internal Revenue Code, as applicable to the 1925 fund. In order to meet those requirements, the 1925 fund is subject to the following provisions, notwithstanding any other provision of this chapter:

(1) The local board shall distribute the corpus and income of the 1925 fund to members and their beneficiaries in accordance with this chapter.

(2) No part of the corpus or income of the 1925 fund may be used or diverted to any purpose other than the exclusive benefit of the members and their beneficiaries.

(3) Forfeitures arising from severance of employment, death, or for any other reason may not be applied to increase the benefits any member would otherwise receive under this chapter.

(4) If the 1925 fund is terminated, or if all contributions to the 1925 fund are completely discontinued, the rights of each affected member to the benefits accrued at the date of the termination or discontinuance, to the extent then funded, are nonforfeitable.

(5) All benefits paid from the 1925 fund shall be distributed in accordance with the requirements of Section 401(a)(9) of the Internal Revenue Code and the regulations under that section. In order to meet those requirements, the 1925 fund is subject to the following provisions:

(A) The life expectancy of a member, the member's spouse, or the member's beneficiary shall not be recalculated after the initial determination, for purposes of determining benefits.

(B) If a member dies before the distribution of the member's benefits has begun, distributions to beneficiaries must begin no later than December 31 of the calendar year immediately following the calendar year in which the member died.

(C) The amount of an annuity paid to a member's beneficiary may not exceed the maximum amount determined under the incidental death benefit requirement of the Internal Revenue Code.

(6) The local board may not:

(A) determine eligibility for benefits;

(B) compute rates of contribution; or

(C) compute benefits of members or beneficiaries;

in a manner that discriminates in favor of members who are considered officers, supervisors, or highly compensated, as prohibited under Section 401(a)(4) of the Internal Revenue Code.

(7) Benefits paid under this chapter may not exceed the maximum benefit specified by Section 415 of the Internal Revenue Code.

(8) The salary taken into account under this chapter may not exceed the applicable amount under Section 401(a)(17) of the Internal Revenue Code.

(9) The local board may not engage in a transaction prohibited by Section 503(b) of the Internal Revenue Code.

(c) Notwithstanding any other provision of this chapter, and solely for the purposes of the benefits provided under this chapter, the benefit limitations of Section 415 of the Internal Revenue Code shall be determined by applying the provisions of Section 415(b)(10) of the Internal Revenue Code, as amended by the Technical and Miscellaneous Revenue Act of 1988. This section constitutes an election under Section 415(b)(10)(C) of the Internal Revenue Code to have Section 415(b) of the Internal Revenue Code, other than Section 415(b)(2)(G) of the Internal Revenue Code, applied without regard to Section 415(b)(2)(F) of the Internal Revenue Code (before its repeal on June 7, 2001, by P.L.107-16) to anyone who did not first become a participant before January 1, 1990.

Creation of fund; management by board of trustees; selection and compensation of trustees

Sec. 2. (a) A police pension fund to be known as the 1925 fund is established in each municipality described in section 1(a) of this chapter.

(b) The 1925 fund shall be managed by a board of trustees (referred to as the "local board" in this chapter) having at least seven (7) but not more than nine (9) trustees, as follows:

(1) The municipal executive, the municipal fiscal officer, and the police chief, who are ex officio voting members of the local board.

(2) One (1) retired member of the police department.

(3) At least three (3) but not more than five (5) active members of the police department.

However, in cities where there are not sufficient members of the police department to appoint a local board consisting of at least five (5) trustees, the local board may be composed of three (3) trustees, those being the executive, the fiscal officer, and the police chief.

(c) The trustees under subsections (b)(2) and (b)(3) shall be elected at a meeting of the members of the police department at the central police station on the second Monday in February of each year. The trustees are elected for terms of three (3) years, succeeding those trustees whose terms of office expire on that date. The trustees hold their offices until their successors are elected and qualified.

(d) If a vacancy occurs on the local board among those trustees elected by the police department, the police department shall, within a reasonable time, hold a special meeting upon the call of the municipal executive and elect a successor for the remainder of the trustee's term.

(e) A majority of all the trustees constitutes a quorum for the transaction of business.

(f) The trustees receive no pay for their services and shall be paid only their necessary expenses. However, the trustees, the secretary, and each member of the police department selected by the local board shall be paid their necessary traveling expenses from the 1925 fund when acting upon matters pertaining to the fund.

(g) The local board may make all necessary bylaws for:

- (1) meetings of the trustees;
- (2) the manner of their election, including the counting and canvassing of the votes;
- (3) the collection of all money and other property due or belonging to the 1925 fund;
- (4) all matters connected with the care, preservation, and disbursement of the fund; and
- (5) all other matters connected with the proper execution of this chapter.

Board of trustees; officers; duties

Sec. 3. (a) The municipal executive is president of the local board, the municipal fiscal officer is its treasurer, and the local board shall select one (1) of its members secretary. The secretary shall be paid out of the 1925 fund a sum for the secretary's services as fixed by the local board.

(b) The president shall preside over all meetings of the local board, call special meetings of the police department of the city, and preside over the annual and called meetings of the department concerning the 1925 fund.

(c) The treasurer:

- (1) has custody of all money and securities due or belonging to

the 1925 fund and shall collect the principal and interest on them;

(2) is liable on the treasurer's bond as an officer for the municipality for the faithful accounting of all money and securities belonging to the fund that come into the treasurer's hands;

(3) shall keep a separate account showing at all times the true condition of the fund; and

(4) shall, upon the expiration of the treasurer's term of office, account to the local board for all money and securities coming into the treasurer's hands, including the proceeds of them, and turn over to the treasurer's successor all money and securities belonging to the fund remaining in the treasurer's hands.

(d) The secretary shall:

(1) keep a true account of the proceedings of the local board and of the police department of the municipality when acting upon matters relating to the 1925 fund;

(2) keep a correct statement of the accounts of each member with the fund;

(3) collect and turn over to the treasurer of the local board all money belonging to the fund;

(4) give the local board a monthly account of the secretary's acts and services as secretary; and

(5) turn over to the secretary's successor all books and papers pertaining to the office.

(e) The secretary shall, in the manner prescribed by IC 5-4-1, execute a bond conditioned upon the faithful discharge of the secretary's duties.

(f) The secretary and treasurer shall make complete and accurate reports of their trusts to the local board on the first Monday in February of each year, copies of which shall be filed with the municipal clerk. The books of the secretary and treasurer must be open at all times to examination by members of the local board.

(g) Each member of the police department shall turn over to the secretary of the local board, within thirty (30) days after receiving it, all money and securities belonging to the 1925 fund that come into the secretary's hands.

IC 36-8-6-4

Derivation of funds; salary assessments

Sec. 4. (a) The 1925 fund is derived from the following sources:

(1) From money or other property that is given to the local board for the use of the fund. The local board may take by gift, grant, devise, or bequest of any money, chose in action, personal property, or real property, or an interest in it. The local board shall take the property in the name of the local board and may hold, assign, transfer, or sell it.

(2) From money, fees, and awards that are paid or given to the

police department of the municipality or to a member of the department because of service or duty performed by the department or a member. This includes fines imposed by the safety board against a member of the department, as well as the proceeds from the sale of lost, stolen, and confiscated property recovered or taken into possession by members of the police department in the performance of their duties and sold at a public sale in accordance with law.

(3) From an assessment made during the period of his employment or for thirty-two (32) years, whichever is shorter, on the salary of each member whom the local board has accepted and designated as a beneficiary of the 1925 fund, an amount equal to six percent (6%) of the salary of a first class patrolman. However, the employer may pay all or a part of the assessment for the member.

(b) The secretary of the local board shall prepare a roll of each of the assessments and place opposite the name of every member of the police department the amount of the assessment against him. The treasurer of the local board shall retain out of the salary paid to the member each month the amount of the assessment, other than any amount paid on behalf of the member, and credit it to the 1925 fund. Except to the extent the assessment is paid on behalf of the member, every person becoming a member of the police department is liable for the payment of the assessments and is conclusively considered to agree to pay it and have it deducted from his salary as required in this section.

IC 36-8-6-5

Insufficient funds; payment of deficiency by municipality; tax levy

Sec. 5. (a) If the local board determines that the total amount of money available for a year will be insufficient to pay the benefits, pensions, and retirement allowances the local board is obligated to pay under this chapter, the local board shall, before the date on which the budget of the municipality is adopted, prepare an itemized estimate in the form prescribed by the state board of accounts of the amount of money that will be receipted into and disbursed from the 1925 fund during the next fiscal year. The estimated receipts consist of the items enumerated in section 4(a) of this chapter. The estimated disbursements consist of an estimate of the amount of money that will be needed by the local board during the next fiscal year to defray the expenses and obligations incurred and that will be incurred by the local board in making the payments prescribed by this chapter to retired members, to members who are eligible to and expect to retire during the ensuing fiscal year, and to the dependents of deceased members.

(b) The local board may provide in its annual budget and pay all necessary expenses of operating the 1925 fund, including the payment of all costs of litigation and attorney fees arising in

connection with the fund, as well as the payment of benefits and pensions, including the payments described in section 5.5 of this chapter. Notwithstanding any other law, neither the municipal legislative body, the county board of tax adjustment, nor the department of local government finance may reduce an item of expenditure.

(c) At the time when the estimates are prepared and submitted, the local board shall also prepare and submit a certified statement showing:

(1) the name, age, and date of retirement of each retired member and the monthly and yearly amount of the payment to which the retired member is entitled;

(2) the name and age of each member who is eligible to and expects to retire during the next fiscal year, the date on which the member expects to retire, and the monthly and yearly amount of the payment that the member will be entitled to receive; and

(3) the name and age of each dependent, the date on which the dependent became a dependent, the date on which the dependent will cease to be a dependent by reason of attaining the age at which dependents cease to be dependents, and the monthly and yearly amount of the payment to which the dependent is entitled.

(d) The total receipts shall be deducted from the total expenditures stated in the itemized estimate and the amount of the excess of the estimated expenditures over the estimated receipts shall be paid by the municipality in the same manner as other expenses of the municipality are paid. A tax levy shall be made annually for this purpose, as provided in subsection (e). The estimates submitted shall be prepared and filed in the same manner and form and at the same time that estimates of other municipal offices and departments are prepared and filed.

(e) The municipal legislative body shall levy an annual tax in the amount and at the rate that are necessary to produce the revenue to pay that part of the police pensions that the municipality is obligated to pay. All money derived from the levy is for the exclusive use of the police pensions and benefits, including the payments described in section 5.5 of this chapter. The amounts in the estimated disbursements, if found to be correct and in conformity with the data submitted in the certified statement, are a binding obligation upon the municipality. The legislative body shall make a levy for them that will yield an amount equal to the estimated disbursements, less the amount of the estimated receipts. Notwithstanding any other law, neither the county board of tax adjustment nor the department of local government finance may reduce the levy.

Use of certain amounts in 1925 fund

Sec. 5.5. (a) This section applies to a balance in the 1925 fund that:

- (1) accrued from property taxes;
- (2) is not necessary to meet the pension, disability, and survivor benefit payment obligations of the 1925 fund because of amendments to IC 5-10.3-11-4.7 in 2008; and
- (3) is determined under subsection (c).

(b) A local board may authorize the use of money in the 1925 fund to pay any or all of the following:

- (1) The costs of health insurance or other health benefits provided to members, survivors, and beneficiaries of the 1925 fund.
- (2) The municipality's employer contributions under IC 36-8-8-6.
- (3) The contributions paid by the municipality for a member under IC 36-8-8-8(a).

(c) The maximum amount that may be used under subsection (b) is equal to the sum of:

- (1) the unencumbered balance of the 1925 fund on December 31, 2008; plus
- (2) the amount of property taxes:
 - (A) imposed for an assessment date before January 16, 2008, for the benefit of the 1925 fund; and
 - (B) deposited in the 1925 fund after December 31, 2008.

Investment of funds

Sec. 6. (a) The local board shall determine how much of the 1925 fund may be safely invested and how much should be retained for the needs of the fund. The investment shall be made:

- (1) in interest bearing bonds of the United States, the state, or an Indiana municipal corporation. The bonds shall be deposited with and must remain in the custody of the treasurer of the board, who shall collect the interest due as it becomes due; or
- (2) under IC 5-13-9.

(b) Investments under this section are subject to section 1.5 of this chapter.

Disability retirement; benefits; procedure for determination of disability and reinstatement; period of disability credited

Sec. 8. (a) For a member who became disabled before July 1,

2000, the 1925 fund shall be used to pay a pension in a sum determined by the local board, but not exceeding:

- (1) for a disability or disease occurring before July 1, 1982, fifty percent (50%); and
- (2) for a disability or disease occurring after June 30, 1982, fifty-five percent (55%);

of the salary of a first class patrolman, to a member of the police department who has suffered or contracted a mental or physical disease or disability that renders the patrolman unable to perform the essential functions of any duty in the police department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act. If a member who becomes eligible for a disability pension has more than twenty (20) years of service, the member is entitled to receive a disability pension equal to the pension the member would have received if the member had retired on the date of the disability.

(b) Except as otherwise provided in this subsection, for a member who becomes disabled after June 30, 2000, the 1925 fund shall be used to pay a pension in a sum determined by the local board, but not exceeding fifty-five percent (55%) of the salary of a first class patrolman, to a member of the police department who has suffered or contracted a mental or physical disease or disability:

(1) that is:

(A) the direct result of:

- (i) a personal injury that occurs while the fund member is on duty;
- (ii) a personal injury that occurs while the fund member is off duty and is responding to an offense or a reported offense, in the case of a police officer; or
- (iii) an occupational disease (as defined in IC 22-3-7-10), including a duty related disease that is also included within clause (B);

(B) a duty related disease (for purposes of this section, a "duty related disease" means a disease arising out of the fund member's employment. A disease is considered to arise out of the fund member's employment if it is apparent to the rational mind, upon consideration of all of the circumstances, that:

- (i) there is a connection between the conditions under which the fund member's duties are performed and the disease;
- (ii) the disease can be seen to have followed as a natural incident of the fund member's duties as a result of the exposure occasioned by the nature of the fund member's duties; and
- (iii) the disease can be traced to the fund member's employment as the proximate cause); or

(C) a disability presumed incurred in the line of duty under IC 5-10-13 or IC 5-10-15; and

(2) that renders the member unable to perform the essential

functions of any duty in the police department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act.

If a member who becomes eligible for a disability pension has more than twenty (20) years of service, the member is entitled to receive a disability pension equal to the pension the member would have received if the member had retired on the date of the disability.

(c) Except as otherwise provided in this subsection, for a member who becomes disabled after June 30, 2000, the 1925 fund shall be used to pay a pension in a sum determined by the local board, but not exceeding fifty-five percent (55%) of the salary of a first class patrolman, to a member of the police department who has suffered or contracted a mental or physical disease or disability:

- (1) that is not described in subsection (b)(1); and
- (2) that renders the member unable to perform the essential functions of any duty in the police department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act.

If a member who becomes eligible for a disability pension has more than twenty (20) years of service, the member is entitled to receive a disability pension equal to the pension the member would have received if the member had retired on the date of the disability.

(d) The member must have retired from active service after a physical examination by the police surgeon or another surgeon appointed by the local board. The disability must be determined solely by the local board after the examination and a hearing conducted under IC 36-8-8-12.7. A member shall be retained on active duty with full pay until the member is retired by the local board because of the disability.

(e) After a member has been retired upon pension, the local board may, at any time, require the retired member to again be examined by the police surgeon or another surgeon appointed by the local board. After the examination the local board shall conduct a hearing under IC 36-8-8-12.7 to determine whether the disability still exists and whether the retired member should remain on the pension roll. The retired member shall be retained on the pension roll until reinstated in the service of the police department, except in case of resignation. If after the examination and hearing the retired member is found to have recovered from the member's disability and to be again fit for active duty, then the member shall be put on active duty with full pay and from that time is no longer entitled to payments from the 1925 fund. If the member fails or refuses to return to active duty, the member waives all rights to further benefits from the 1925 fund.

(f) If the salary of a first class patrolman is increased or decreased, the pension payable shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below:

- (1) the amount of the first full monthly pension received by that person; or
- (2) fifty-five percent (55%) of the salary of a first class

patrolman;
whichever is greater.

(g) Time spent receiving disability benefits is considered active service for the purpose of determining retirement benefits until the member has a total of twenty (20) years of service.

(h) A fund member who is receiving disability benefits under subsection (a) or (c) shall be transferred from disability to regular retirement status when the member becomes fifty-five (55) years of age.

(i) A fund member who is receiving disability benefits under subsection (b) is entitled to:

(1) receive a disability benefit for the remainder of the fund member's life; and

(2) have the amount of the disability benefit computed under section 9 of this chapter when the fund member becomes fifty-five (55) years of age.

Determination whether disability in line of duty

Sec. 8.1. (a) If a local board determines that a fund member has a temporary or a permanent disability, the local board shall also make a recommendation to the board of trustees of the Indiana public retirement system (referred to in this section as "the system board") concerning whether the disability is:

(1) a disability in the line of duty (as described in section 8(b)(1) of this chapter); or

(2) a disability not in the line of duty (a disability other than a disability described in section 8(b)(1) of this chapter).

The local board shall forward its recommendation to the system board.

(b) The system board shall review the local board's recommendation not later than forty-five (45) days after receiving the recommendation and shall then issue an initial determination of whether the disability is in the line of duty or not in the line of duty. The system board shall notify the local board, the safety board, and the fund member of its initial determination.

(c) The fund member, the safety board, or the local board may object in writing to the system board's initial determination under subsection (b) not later than fifteen (15) days after the initial determination is issued. If a written objection is not filed, the system board's initial determination becomes final. If a timely written objection is filed, the system board shall issue a final determination after a hearing. The final determination must be issued not later than one hundred eighty (180) days after the date of receipt of the local board's recommendation.

Retirement benefits

Sec. 9. (a) Benefits paid under this section are subject to section 1.5 of this chapter.

(b) The 1925 fund shall be used to provide a member of the police department who retires from active duty after twenty (20) or more years of active duty an annual pension equal to fifty percent (50%) of the salary of a first class patrolman in the police department, plus:

(1) for a member who retires before January 1, 1986, two percent (2%) of the first class patrolman's salary for each year of service; or

(2) for a member who retires after December 31, 1985, one percent (1%) of the first class patrolman's salary for each six (6) months of service;

of the retired member over twenty (20) years. However, the pension may not exceed in any year an amount greater than seventy-four percent (74%) of the salary of a first class patrolman. The pensions shall be computed on an annual basis but shall be paid in not less than twelve (12) equal monthly installments. If the salary of a first class patrolman is increased or decreased, the pension payable shall be proportionately increased or decreased.

(c) If a member voluntarily retires after twenty (20) or more years of service, the member is entitled to retirement and the pension, without reference to his physical condition at the time of application. However, he then relinquishes all rights to other benefits or pensions for temporary disability. After retirement the member is not required to render further services on the police department, is no longer subject to the rules of the department, and may not be deprived of other benefits under this chapter that may accrue to him or his dependents.

(d) To be retired based upon length of service, only the time served by the member on the regularly constituted police department may be computed. Time served by a member as a special police officer, a merchant police officer, or a private police officer may not be considered in computing length of service.

Sec. 9.5. (a) Not less than thirty (30) days after a member retires from a police department covered by this chapter, the member may:

(1) be rehired by the same municipality that employed the member as a police officer for a position other than that of a full-time, fully paid police officer; and

(2) continue to receive the member's pension benefit under this chapter.

(b) This section may be implemented unless the local board

receives from the Internal Revenue Service a determination that prohibits the implementation.

Members dying other than in line of duty; monthly benefit

Sec. 9.6. (a) This section applies to an active or retired member who dies other than in the line of duty (as defined in section 10.1 of this chapter).

(b) A payment shall be made to the surviving spouse of a deceased member in an amount fixed by ordinance, but at least an amount equal to the following:

(1) To the surviving spouse of a member who died before January 1, 1989, an amount equal to thirty percent (30%) of the monthly pay of a first class patrolman per month during the surviving spouse's life if the spouse did not remarry before September 1, 1983. If the spouse remarried before September 1, 1983, and benefits ceased on the date of remarriage, the benefits for the surviving spouse shall be reinstated on July 1, 1997, and continue during the life of the surviving spouse.

(2) Except as otherwise provided in this subdivision, to the surviving spouse of a member who dies after December 31, 1988, an amount per month, during the spouse's life, equal to the greater of:

(A) thirty percent (30%) of the monthly pay of a first class patrolman; or

(B) fifty-five percent (55%) of the monthly benefit the deceased member was receiving or was entitled to receive on the date of the member's death.

However, if the deceased member was not entitled to a benefit because the member had not completed twenty (20) years of service, for purposes of computing the amount under clause (B), the member's benefit shall be considered to be fifty percent (50%) of the monthly salary of a first class patrolman. The amount provided in this subdivision is subject to adjustment as provided in subsection (e).

(c) Except as otherwise provided in this subsection, a payment shall also be made to each child of a deceased member less than eighteen (18) years of age, in an amount fixed by ordinance, but at least an amount equal to twenty percent (20%) of the monthly pay of a first class patrolman per month:

(1) until the child becomes eighteen (18) years of age;

(2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university; or

(3) during the entire period of the child's physical or mental disability;

whichever period is longer. However, the total of benefits under this subsection added to the benefits under subsection (b) may not exceed

the maximum benefits computed under section 9 of this chapter for pension payments to a member who retires from active service after twenty (20) years or more of active service. This maximum benefit is equal to fifty percent (50%) of the salary of a first class patrolman in the police department plus, for a member who retired before January 1, 1986, two percent (2%) of the first class patrolman's salary for each year of service of the retired member over twenty (20) years or, for a member who retires after December 31, 1985, plus one percent (1%) of the first class patrolman's salary for each six (6) months of service of the retired member over twenty (20) years. However, the maximum benefit may not exceed in any year an amount greater than seventy-four percent (74%) of the salary of a first class patrolman.

(d) Except as otherwise provided in this subsection, if a deceased member leaves no surviving spouse and no child who qualifies for benefits under subsection (c) but does leave a dependent parent or parents, an amount equal to twenty percent (20%) of the monthly pay of a first class patrolman per month from the time of the member's death shall be paid to the dependent parent or parents during their dependency. When both parents survive, the total amount is still twenty percent (20%), to be paid to them jointly. In all cases of payment to a dependent relative of a deceased member, the board is the final judge of the question of necessity and dependency and of the amount to be paid. The board may also reduce or terminate temporarily or permanently a payment to a dependent relative of a deceased member when it determines that the condition of the fund or other circumstances make this action necessary.

(e) If the salary of a first class patrolman is increased or decreased, the pension payable under this section shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

Members dying in line of duty before September 1, 1982; monthly benefit for surviving spouse, children, or parents

Sec. 9.7. (a) This section applies to a member who died in the line of duty (as defined in section 10.1 of this chapter) before September 1, 1982.

(b) A payment shall be made to the surviving spouse of a deceased member in an amount fixed by ordinance, but at least an amount equal to thirty percent (30%) of the monthly pay of a first class patrolman per month during the surviving spouse's life if the spouse did not remarry before September 1, 1983. If the spouse remarried before September 1, 1983, and benefits ceased on the date of remarriage, the benefits for the surviving spouse shall be reinstated on July 1, 1997, and continue during the life of the surviving spouse.

(c) Except as otherwise provided in this subsection, a payment

shall also be made to each child of a deceased member less than eighteen (18) years of age, in an amount fixed by ordinance, but at least an amount equal to twenty percent (20%) of the monthly pay of a first class patrolman per month to each child:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longer. However, the total of benefits under this subsection added to the benefits under subsection (b) may not exceed the maximum benefits computed under section 9 of this chapter for pension payments to a member who retires from active service after twenty (20) years or more of active service. This maximum benefit is equal to fifty percent (50%) of the salary of a first class patrolman in the police department plus, for a member who retired before January 1, 1986, two percent (2%) of the first class patrolman's salary for each year of service of the retired member over twenty (20) years or, for a member who retires after December 31, 1985, plus one percent (1%) of the first class patrolman's salary for each six (6) months of service of the retired member over twenty (20) years. However, the maximum benefit may not exceed in any year an amount greater than seventy-four percent (74%) of the salary of a first class patrolman.

(d) If a deceased member leaves no surviving spouse and no child who qualifies for benefits under subsection (c) but does leave a dependent parent or parents, an amount equal to twenty percent (20%) of the monthly pay of a first class patrolman per month from the time of the member's death shall be paid to the dependent parent or parents during their dependency. When both parents survive, the total amount is still twenty percent (20%), to be paid to them jointly. In all cases of payment to a dependent relative of a deceased member, the board is the final judge of the question of necessity and dependency and of the amount to be paid. The board may also reduce or terminate temporarily or permanently a payment to a dependent relative of a deceased member when it determines that the condition of the fund or other circumstances make this action necessary.

(e) If the salary of a first class patrolman is increased or decreased, the pension payable under this section shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

(f) The unit of local government that employed the deceased member shall after December 31, 2003, offer to provide and pay for health insurance coverage for the member's surviving spouse and for each natural child, stepchild, or adopted child of the member:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the

child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
or

(3) during the entire period of the child's physical or mental disability;

whichever period is longest. If health insurance coverage is offered by the unit to active members, the health insurance provided to a surviving spouse and child under this subsection must be equal in coverage to that offered to active members. The offer to provide and pay for health insurance coverage shall remain open for as long as there is a surviving spouse or as long as a natural child, stepchild, or adopted child of the member is eligible for the coverage under subdivision (1), (2), or (3).

Sec. 10.1. (a) This section applies to a member who dies in the line of duty after August 31, 1982.

(b) The surviving spouse is entitled to a monthly benefit, during the spouse's lifetime, equal to the benefit to which the member would have been entitled on the date of the member's death, but no less than fifty percent (50%) of the monthly wage received by a first class patrolman. If the surviving spouse remarried before September 1, 1983, and benefits ceased on the date of remarriage, the benefits for the surviving spouse shall be reinstated on July 1, 1997, and continue during the life of the surviving spouse.

(c) A payment shall also be made to each child of a deceased

member less than eighteen (18) years of age, in an amount fixed by ordinance, but at least an amount equal to twenty percent (20%) of the monthly pay of a first class patrolman per month to each child:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longer.

(d) The surviving children of the deceased member who are eligible to receive a benefit under subsection (c) may receive an additional benefit in an amount fixed by ordinance, but the total additional benefit under this subsection to all the member's children may not exceed a total of thirty percent (30%) of the monthly wage received by a first class patrolman. However, this limitation does not apply to the children of a member who have a physical or mental disability.

(e) If a deceased member leaves no surviving spouse and no child who qualifies for benefits under subsection (c) but does leave a dependent parent or parents, an amount equal to twenty percent (20%) of the monthly pay of a first class patrolman per month from the time of the member's death shall be paid to the dependent parent or parents during their dependency. When both parents survive, the total amount is still twenty percent (20%), to be paid to them jointly. In all cases of payment to a dependent relative of a deceased member, the board is the final judge of the question of necessity and dependency and of the amount to be paid. The board may also reduce or terminate temporarily or permanently a payment to a dependent relative of a deceased member when it determines that the condition of the fund or other circumstances make this action necessary.

(f) If the salary of a first class patrolman is increased or decreased, the pension payable under this section shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

(g) For purposes of this section, "dies in the line of duty" means death that occurs as a direct result of personal injury or illness caused by incident, accident, or violence that results from any action that the member in the member's capacity as a police officer:

- (1) is obligated or authorized by rule, regulation, condition of employment or service, or law to perform; or
- (2) performs in the course of controlling or reducing crime or enforcing the criminal law.

The term includes a death presumed incurred in the line of duty under IC 5-10-13.

(h) The unit of local government that employed the deceased member shall after December 31, 2003, offer to provide and pay for health insurance coverage for the member's surviving spouse and for

each natural child, stepchild, or adopted child of the member:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. If health insurance coverage is offered by the unit to active members, the health insurance provided to a surviving spouse and child under this subsection must be equal in coverage to that offered to active members. The offer to provide and pay for health insurance coverage shall remain open for as long as there is a surviving spouse or as long as a natural child, stepchild, or adopted child of the member is eligible for the coverage under subdivision (1), (2), or (3).

A member is then subject to the orders and discipline

(b) All pensions shall be paid by the treasurer of the local board at his office at the same time and in the same installments as the members of the police department are paid.

(c) All pensions payable out of the 1925 fund are exempt from seizure or levy upon attachment, execution, supplemental process, and all other process, whether mesne or final. Qualification of 1937 fund under Internal Revenue Code; benefit limitations

Sec. 2.5. (a) As used in this chapter, "Internal Revenue Code":

(1) means the Internal Revenue Code of 1954, as in effect on September 1, 1974, if permitted with respect to governmental plans; or

(2) to the extent not inconsistent with subdivision (1), has the meaning set forth in IC 6-3-1-11.

(b) The 1937 fund shall satisfy the qualification requirements in Section 401 of the Internal Revenue Code, as applicable to the 1937 fund. In order to meet those requirements, the 1937 fund is subject to the following provisions, notwithstanding any other provision of this chapter:

(1) The local board shall distribute the corpus and income of the 1937 fund to members and their beneficiaries in accordance with this chapter.

(2) No part of the corpus or income of the 1937 fund may be used or diverted to any purpose other than the exclusive benefit of the members and their beneficiaries.

(3) Forfeitures arising from severance of employment, death, or for any other reason may not be applied to increase the benefits any member would otherwise receive under this chapter.

(4) If the 1937 fund is terminated, or if all contributions to the 1937 fund are completely discontinued, the rights of each affected member to the benefits accrued at the date of the termination or discontinuance, to the extent then funded, are nonforfeitable.

(5) All benefits paid from the 1937 fund shall be distributed in accordance with the requirements of Section 401(a)(9) of the Internal Revenue Code and the regulations under that section. In order to meet those requirements, the 1937 fund is subject to the following provisions:

(A) The life expectancy of a member, the member's spouse, or the member's beneficiary shall not be recalculated after the initial determination, for purposes of determining benefits.

(B) If a member dies before the distribution of the member's benefits has begun, distributions to beneficiaries must begin no later than December 31 of the calendar year immediately following the calendar year in which the member died.

(C) The amount of an annuity paid to a member's beneficiary

may not exceed the maximum determined under the incidental death benefit requirement of the Internal Revenue Code.

(6) The local board may not:

- (A) determine eligibility for benefits;
- (B) compute rates of contribution; or
- (C) compute benefits of members or beneficiaries;

in a manner that discriminates in favor of members who are considered officers, supervisors, or highly compensated, as prohibited under Section 401(a)(4) of the Internal Revenue Code.

(7) Benefits paid under this chapter may not exceed the maximum benefit specified by Section 415 of the Internal Revenue Code.

(8) The salary taken into account under this chapter may not exceed the applicable amount under Section 401(a)(17) of the Internal Revenue Code.

This section constitutes an election under Section 415(b)(10)(C) of the Internal Revenue Code to have Section 415(b) of the Internal Revenue Code, other than Section 415(b)(2)(G) of the Internal Revenue Code, applied without regard to Section 415(b)(2)(F) of the Internal Revenue Code (before its repeal on June 7, 2001, by P.L. 107-16) to anyone who did not first become a participant before January 1, 1990.

(b) The trustee from the fire department shall be elected under this section.

(c) The local board may amend the bylaws of the fund to elect the trustee from the fire department in an election held on any three (3) consecutive days in February specified in the bylaws. The election shall be called by the fire chief and held at the house or quarters of the fire department. Subject to this section, the election shall be conducted in the manner specified in the bylaws.

(d) This subsection applies only if the local board does not elect to be governed by subsection (c). The trustee from the fire department shall be elected at a meeting held on the second Monday in February each year. The meeting shall be called by the fire chief and held at the house or quarters of the fire department.

(e) The term of the elected trustee is one (1) year beginning immediately after the trustee's election.

(f) Each member of the department is entitled to one (1) ballot and the person receiving the highest number of votes is elected. The executive of the unit, the fire chief, and the city or county clerk shall canvass and count the ballots, and the clerk shall issue a certificate of election to the person having received the highest number of votes. If two (2) persons have received the same number of votes, the executive and the chief shall immediately determine by lot who will be the trustee from the persons receiving an equal number of votes.

Trustees; election of active members

Sec. 5. (a) An election shall be held each year under this section to elect one (1) trustee from the active members of the fire department for a term of four (4) years, commencing on the day of his election. The fire chief shall fix a time for holding a convention to nominate candidates for trustees to be elected at each election. Each convention must be held at least five (5) days before the day on which the annual election is held. A convention consists of one (1) delegate from each fire company and one (1) delegate to be selected by the chief and the chief's assistants. The delegate from each fire company shall be elected by ballot by the members of the company at a time to be fixed by the chief in the call for a convention. The election of delegates shall be certified by the captain or other officer of the company, or, if there is not an officer present, then by the oldest member of the company present. The convention, when assembled, shall nominate six (6) members of the fire department to be voted upon as trustees, and the delegates shall report the names of the persons nominated as candidates to their respective companies in writing.

(b) The local board may amend the bylaws of the fund to elect the trustee from the active members of the fire department in an election held on any three (3) consecutive days in February specified in the bylaws. The election shall be called by the fire chief and held at the house or quarters of the respective companies of the fire department. Subject to this section, the election shall be conducted in the manner specified in the bylaws.

(c) This subsection applies only if the local board does not elect to be governed by subsection (b). The election shall be held at the houses or quarters of the respective companies on the second Monday in February between 9 a.m. and 6 p.m.

(d) Each member of a fire company is entitled to one (1) ballot, and the ballot may not contain the names of more than one (1) person, chosen from the six (6) persons nominated by the convention. The candidate receiving the highest number of votes is elected.

(e) The captain or other officer in command of each of the fire companies, immediately after the casting of all ballots, shall canvass and count the ballots. The captain or other officer shall certify in writing the total number of ballots cast and the number of votes received by each candidate for the office of trustee. After signing the certificate, the officer shall enclose it, together with all the ballots cast by the fire company, in an envelope, securely sealed and addressed, and deliver them to the fire chief. The fire chief shall deliver them to the executive of the unit as soon as the chief receives all the certificates and ballots. Upon receipt the executive shall, in

the presence of the chief and the clerk of the unit, open the envelopes, examine the certificates, and determine the total number of votes cast for each of the candidates. The executive shall then issue a certificate of election to the candidate having received the highest number of votes. If two (2) or more candidates have received the same number of votes, the executive and the chief shall immediately determine by lot who will be trustee from the persons receiving an equal number of votes. An election may not be set aside for lack of formality in balloting by the members or in certifying or transmitting the returns of an election by the officers in charge.

(f) This section does not apply to a township if the fire department of the township is consolidated under IC 36-3-1-6.1.

Sec. 6. (a) An election shall be held under this section every two (2) years to elect one (1) trustee from the retired members of the fire department for a term of two (2) years, commencing on the day of the trustee's election, if the retired list contains at least three (3) retired members at the time of election. The fire chief shall fix a time for holding a convention to nominate candidates for trustee to be elected at each election. Each convention must be held at least fifteen (15) days before the day on which the biennial election is held. All retired members of the fire department may participate in the convention. The convention, when assembled, shall nominate not more than four (4) members of the retired list to be voted upon as trustee. The secretary of the board shall mail the names of the persons nominated along with an official ballot to the retired members within forty-eight (48) hours of the end of the convention.

(b) The election shall be conducted by mail. Each retired member is entitled to cast one (1) ballot by mail and the ballot may not contain more than one (1) name, chosen from the list of retired persons nominated by the convention. The candidate receiving the highest number of votes by 6 p.m. on the second Monday in February or an alternative date in February specified in the bylaws of the fund is elected.

(c) The ballots must remain closed and inviolate until the close of the election, at which time, in the presence of the executive of the unit, the fire chief, and the clerk of the unit, the ballots shall be opened and counted. A certificate of election shall be issued to the candidate receiving the highest number of votes. If two (2) or more candidates receive the same number of votes, the executive and the chief shall immediately determine by lot who will be trustee from the persons receiving an equal number of votes.

Sec. 7. (a) The fire chief is the president of the local board.

(b) At the first meeting after each election, the local board shall elect a secretary, who may be chosen from among the trustees. However, the local board may consider it proper to have a secretary who is a member of the fire department, to be elected by the companies for a term of four (4) years in the same manner as the election for trustees. The secretary shall keep a full record of all the proceedings of the local board in a book provided for that purpose. The secretary shall, in the manner prescribed by IC 5-4-1, execute a bond conditioned upon the faithful discharge of the secretary's duties.

IC 36-8-7-8

Derivation of money in fund

Sec. 8. The 1937 fund is derived from the following sources:

(1) From all money and other property that is given to the local board or 1937 fund for the uses and purposes for which the fund is created. The local board may take by gift, grant, devise, or bequest any money, personal property, real estate, or an interest in it. The gift, grant, devise, or bequest may be absolute or in fee simple or upon the condition that only the rents, income, or profits arising from it may be applied to the purposes for which the fund is established.

(2) All money, fees, rewards, or emoluments that are paid, given, devised, or bequeathed to the fire department or one (1) of the fire companies.

(3) All money accruing as interest on the securities or investments that are owned by and held in the name of the local board.

(4) All money received by the local board from the sale or by

the maturity of securities or investments owned by the local board.

(5) An assessment made during the period of his employment or for thirty-two (32) years, whichever is shorter, on the salary of each member equal to six percent (6%) of the salary of a fully paid first class firefighter. However, the employer may pay all or a part of the assessment for the member. The secretary of the fire department, or the person whose duty it is to make out the payrolls, shall place on the payroll opposite the name of every member the amount of assessment on his salary. The unit's fiscal officer shall deduct monthly from the salary of every member the sum listed opposite his name, other than any amount paid on behalf of the member, and shall credit that amount to the 1937 fund. Except to the extent the assessment is paid on behalf of the member, every person who becomes a member of the fire department is liable for the assessment and is conclusively considered to agree to pay it by having it deducted from his salary as required in this section.

(6) Appropriations that are made for the fund by the unit's fiscal body.

As added by Acts 1981, P.L.309, SEC.57. Amended by Acts 1981, P.L.182, SEC.6; P.L.312-1989, SEC.2.

As added by Acts 1981, P.L.309, SEC.57. Amended by P.L.349-1987, SEC.1; P.L.182-2009(ss), SEC.429.

IC 36-8-7-9.5

Use of certain amounts in 1937 fund

Sec. 9.5. (a) This section applies to a balance in a 1937 fund that:

- (2) is not necessary to meet the pension, disability, and survivor benefit payment obligations of the 1937 fund because of amendments to IC 5-10.3-11-4.7 in 2008; and
- (3) is determined under subsection (c).

(b) A local board may authorize the use of money in the 1937 fund to pay any or all of the following:

Investment of funds

Sec. 10. (a) The local board shall determine how much of the 1937 fund may be safely invested and how much should be retained for the needs of the fund. Investments are restricted to the following:

(1) Interest bearing direct obligations of the United States or of the state or bonds lawfully issued by an Indiana political subdivision. The securities shall be deposited with and must remain in the custody of the treasurer of the local board, who shall collect the interest on them as it becomes due and payable.

(2) Savings deposits or certificates of deposit of a chartered national, state, or mutual bank whose deposits are insured by a federal agency. However, deposits may not be made in excess of the amount of insurance protection afforded a member or investor of the bank.

(3) Shares of a federal savings association organized under 12 U.S.C. 1461, as amended, and having its principal office in Indiana, or of a savings association organized and operating under Indiana statutes whose accounts are insured by a federal agency. However, shares may not be purchased in excess of the amount of insurance protection afforded a member or investor of the association.

(4) An investment made under IC 5-13-9.

(b) All securities must be kept on deposit with the unit's fiscal officer, who shall collect all interest due and credit it to the 1937 fund.

(c) The fiscal officer shall keep a separate account of the 1937 fund and shall fully and accurately set forth a statement of all money received and paid out by him. The officer shall, on the first Monday of January and June of each year, make a report to the local board of all money received and distributed by him. The president of the local board shall execute the officer's bond in the sum that the local board considers adequate, conditioned that the fiscal officer will faithfully discharge the duties of the fiscal officer's office and faithfully account for and pay over to the persons authorized to receive it all money that comes into the fiscal officer's hands by virtue of the fiscal

officer's office. The bond and sureties must be approved by the local board and filed with the executive of the unit. The local board shall make a full and accurate report of the condition of the 1937 fund to the unit's fiscal officer on the first Monday of February in each year.

(d) All securities that were owned by and held in the name of the local board on January 1, 1938, shall be held and kept for the local board by the unit's fiscal officer until they mature and are retired. However, if an issue of the securities is refunded, the local board shall accept refunding securities in exchange for and in an amount equal to the securities refunded. All money received by the local board for the surrender of matured and retired securities shall be paid into and constitutes a part of the 1937 fund of the unit, as provided in section 8 of this chapter.

(e) Investments under this section are subject to section 2.5 of this chapter.

IC 36-8-7-11

Members retiring due to disability or inability to perform essential functions of job; monthly benefit

Sec. 11. (a) Benefits paid under this section are subject to section 2.5 of this chapter.

(b) If a member of the fire department becomes seventy (70) years of age or is found upon examination by a medical officer to have a physical or mental disability and to be unable to perform the essential functions of the job, considering reasonable accommodation to the extent required by the Americans with Disabilities Act, so as to make necessary the person's retirement from all service with the department, the local board shall retire the person.

(c) The local board may retire a person for disability only after a hearing conducted under IC 36-8-8-12.7.

(d) If after the hearing the local board determines that a person who became disabled before July 1, 2000, is disabled and unable to perform the essential functions of the job, considering reasonable accommodation to the extent required by the Americans with Disabilities Act, the local board shall then authorize the monthly payment to the person from the 1937 fund of an amount equal to fifty-five percent (55%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension. All physical and mental examinations of members of the fire department shall be made on order of the local board by a medical officer designated by the local board.

(e) If, after the hearing under this section and a recommendation under section 12.5 of this chapter, the board of trustees of the Indiana public retirement system determines that a person who becomes disabled after June 30, 2000:

(1) has a disability that is:

(A) the direct result of:

- (i) a personal injury that occurs while the fund member is on duty;
- (ii) a personal injury that occurs while the fund member is responding to an emergency or reported emergency for which the fund member is trained; or
- (iii) an occupational disease (as defined in IC 22-3-7-10), including a duty related disease that is also included within clause (B);

(B) a duty related disease (for purposes of this section, a "duty related disease" means a disease arising out of the fund member's employment. A disease is considered to arise out of the fund member's employment if it is apparent to the rational mind, upon consideration of all of the circumstances, that:

- (i) there is a connection between the conditions under which the fund member's duties are performed and the disease;
- (ii) the disease can be seen to have followed as a natural incident of the fund member's duties as a result of the exposure occasioned by the nature of the fund member's duties; and
- (iii) the disease can be traced to the fund member's employment as the proximate cause); or

(C) a disability presumed incurred in the line of duty under IC 5-10-13 or IC 5-10-15; and

- (2) is unable to perform the essential functions of the job, considering reasonable accommodation to the extent required by the Americans with Disabilities Act;

the local board shall then authorize the monthly payment to the person from the 1937 fund of an amount equal to fifty-five percent (55%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension. All physical and mental examinations of members of the fire department shall be made on order of the local board by a medical officer designated by the local board.

(f) If after the hearing under this section and a recommendation under section 12.5 of this chapter, the board of trustees of the Indiana public retirement system determines that a person who becomes disabled after June 30, 2000:

- (1) has a disability that is not a disability described in subsection (e)(1); and
- (2) is unable to perform the essential functions of the job, considering reasonable accommodation to the extent required by the Americans with Disabilities Act;

the local board shall then authorize the monthly payment to the person from the 1937 fund of an amount equal to fifty-five percent (55%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension. All physical and mental examinations of members of the fire department shall be made on order of the local board by a medical officer designated by the local

board.

Sec. 12.1. (a) Benefits paid under this section are subject to section 2.5 of this chapter.

(b) A member who has been in service twenty (20) years, upon making a written application to the fire chief, may be retired from all service with the department without a medical examination or disability. Except as provided in subsection (f), the local board shall authorize the payment to the retired member of fifty percent (50%) of the salary of a fully paid first class firefighter of the unit at the time of the payment of the pension, plus:

(1) for a member who retires before January 1, 1986, two percent (2%) of that salary for each year of service; or

(2) for a member who retires after December 31, 1985, one percent (1%) of that salary for each six (6) months of service; over twenty (20) years. However, the pension in one (1) year may not exceed an amount greater than seventy-four percent (74%) of the salary of a fully paid first class firefighter.

(c) A member who is discharged from the fire department after having served at least twenty (20) years is entitled to receive the amount equal to the amount that the member would have received if the member retired voluntarily.

(d) All pensions in a class are on an equal basis. The local board may not depart from this chapter in authorizing the payment of pensions.

(e) The monthly pension payable to a member may not be reduced below the amount of the first full monthly pension received by that person.

(f) The monthly pension payable to a member who is transferred from disability to regular retirement status may not be reduced below fifty-five percent (55%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension.

(g) A benefit payable under this section shall be paid in not less than twelve (12) monthly installments.

(h) A fund member who is receiving disability benefits under section 11(d) or 11(f) of this chapter shall be transferred from disability to regular retirement status when the member becomes fifty-five (55) years of age.

(i) A fund member who is receiving disability benefits under section 11(e) of this chapter is entitled to:

- (1) receive a disability benefit for the remainder of the fund member's life; and
- (2) have the amount of the disability benefit computed under section 11(e) of this chapter when the fund member becomes fifty-five (55) years of age.

IC 36-8-7-12.2

Members dying other than in line of duty

Sec. 12.2. (a) This section applies to an active or retired member who dies other than in the line of duty (as defined in section 12.4 of this chapter).

(b) If a member of the fire department or a retired member of the 1937 fund dies and leaves:

- (1) a surviving spouse;
- (2) a child or children less than eighteen (18) years of age;
- (3) a child or children at least eighteen (18) years of age who are mentally or physically incapacitated; or
- (4) a child or children less than twenty-three (23) years of age who are:

(A) enrolled in and regularly attending a secondary school; or

(B) full-time students at an accredited college or university; the local board shall authorize the payment to the surviving spouse and to the child or children the amount from the fund as prescribed by this section. If the surviving spouse of a deceased member remarried before September 1, 1983, and pension benefits ceased on the date of remarriage, the benefits for the surviving spouse shall be reinstated on July 1, 1997, and continue during the life of the surviving spouse. If the pension of the surviving spouse of a deceased member has ceased by virtue of the spouse's remarriage, and if the person to whom the spouse has remarried was a retired member of the fire department who was also entitled to a pension, then upon the death of the member to whom the spouse had remarried, the spouse is entitled to receive a pension as the surviving spouse of a deceased member as though the spouse had not been remarried.

(c) If a deceased member of the fire department leaves no surviving spouse or children but leaves a dependent parent, and upon satisfactory proof that the parent was wholly dependent upon the deceased member, the local board shall authorize the monthly payment to the parent from the 1937 fund that is prescribed by this section.

(d) If a member dies while in active service or after retirement:

- (1) the surviving spouse is entitled to receive an amount fixed

by ordinance but not less than:

(A) for the surviving spouse of a member who dies before January 1, 1989, thirty percent (30%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension; and

(B) for the surviving spouse of a member who dies after December 31, 1988, except as otherwise provided in this clause, an amount per month, during the spouse's life, equal to the greater of thirty percent (30%) of the monthly pay of a first class firefighter or fifty-five percent (55%) of the monthly benefit the deceased member was receiving or was entitled to receive on the date of the member's death (these amounts shall be proportionately increased or decreased if the salary of a first class firefighter is increased or decreased); however, if the deceased member was not entitled to a benefit because the member had not completed twenty (20) years of service, for purposes of computing the second amount under this item, the member's benefit is considered to be fifty percent (50%) of the monthly salary of a first class firefighter in the unit at the time of payment of the pension;

(2) the member's children who are:

(A) less than eighteen (18) years of age; or

(B) less than twenty-three (23) years of age if the children are enrolled in and regularly attending a secondary school or are full-time students at an accredited college or university; are each entitled to receive an amount fixed by ordinance but not less than twenty percent (20%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension; and

(3) each parent of a deceased member who was eligible for a pension is entitled to receive jointly an amount equal to thirty percent (30%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension.

If the local board finds upon the submission of satisfactory proof that a child eighteen (18) years of age or older is mentally or physically incapacitated, is not a ward of the state, and is not receiving a benefit under subdivision (2)(B), the child is entitled to receive the same amount as is paid to the surviving spouse of a deceased firefighter, as long as the mental or physical incapacity continues. A sum paid for the benefit of a child or children shall be paid to the remaining parent, if alive, as long as the child or children reside with and are supported by the parent. If the parent dies, the sum shall be paid to the lawful guardian of the child or children.

(e) The monthly pension payable to a survivor may not be reduced below the amount of the first full monthly pension received by that person.

(f) A benefit payable under this section shall be paid in not less than twelve (12) monthly installments.

IC 36-8-7-12.3

Members dying in line of duty before September 1, 1982

Sec. 12.3. (a) This section applies to a member who died in the line of duty (as defined in section 12.4 of this chapter) before September 1, 1982.

(b) If a member of the fire department or a retired member of the 1937 fund dies and leaves:

- (1) a surviving spouse;
- (2) a child or children less than eighteen (18) years of age;
- (3) a child or children at least eighteen (18) years of age who are mentally or physically incapacitated; or
- (4) a child or children less than twenty-three (23) years of age who are:

(A) enrolled in and regularly attending a secondary school; or

(B) full-time students at an accredited college or university; the local board shall authorize the payment to the surviving spouse and to the child or children of the amount from the fund as prescribed by this section. If the surviving spouse of a deceased member remarried before September 1, 1983, and pension benefits ceased on the date of remarriage, the benefits for the surviving spouse shall be reinstated on July 1, 1997, and continue during the life of the surviving spouse. If the pension of the surviving spouse of a deceased member has ceased by virtue of the spouse's remarriage, and if the person to whom the spouse has remarried was a retired member of the fire department who was also entitled to a pension, then upon the death of the member to whom the spouse had remarried, the spouse is entitled to receive a pension as the surviving spouse of a deceased member as though the spouse had not been remarried.

(c) If a deceased member of the fire department leaves no surviving spouse or children but leaves a dependent parent, and upon satisfactory proof that the parent was wholly dependent upon the deceased member, the local board shall authorize the monthly payment to the parent from the 1937 fund that is prescribed by this section.

(d) If a member dies while in active service:

- (1) the surviving spouse is entitled to receive an amount fixed by ordinance but not less than thirty percent (30%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension;

(2) the member's children who are:

(A) less than eighteen (18) years of age; or

(B) less than twenty-three (23) years of age if the children are enrolled in and regularly attending a secondary school or are full-time students at an accredited college or university; are each entitled to receive an amount fixed by ordinance but not less than twenty percent (20%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension; and

(3) each parent of a deceased member who was eligible for a pension is entitled to receive jointly an amount equal to thirty percent (30%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension.

If the local board finds upon the submission of satisfactory proof that a child eighteen (18) years of age or older is mentally or physically incapacitated, is not a ward of the state, and is not receiving a benefit under subdivision (2)(B), the child is entitled to receive the same amount as is paid to the surviving spouse of a deceased firefighter as long as the mental or physical incapacity continues. A sum paid for the benefit of a child or children shall be paid to the remaining parent, if alive, as long as the child or children reside with and are supported by the parent. If the parent dies, the sum shall be paid to the lawful guardian of the child or children.

(e) The monthly pension payable to a survivor may not be reduced below the amount of the first full monthly pension received by that person.

(f) A benefit payable under this section shall be paid in not less than twelve (12) monthly installments.

(g) The unit of local government that employed the deceased member shall after December 31, 2003, offer to provide and pay for health insurance coverage for the member's surviving spouse and for each natural child, stepchild, or adopted child of the member:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. If health insurance coverage is offered by the unit to active members, the health insurance provided to a surviving spouse and child under this subsection must be equal in coverage to that offered to active members. The offer to provide and pay for health insurance coverage shall remain open for as long as there is a surviving spouse or as long as a natural child, stepchild, or adopted child of the member is eligible for the coverage under subdivision (1), (2), or (3).

IC 36-8-7-12.4

Members dying in line of duty after August 31, 1982

Sec. 12.4. (a) This section applies to an active member who dies in the line of duty after August 31, 1982.

(b) If a member dies in the line of duty after August 31, 1982, the surviving spouse is entitled to a monthly benefit, during the spouse's lifetime, equal to the benefit to which the member would have been entitled on the date of the member's death, but not less than fifty percent (50%) of the monthly wage received by a fully paid first

class firefighter. If the spouse remarried before September 1, 1983, and benefits ceased on the date of remarriage, the benefits for the surviving spouse shall be reinstated on July 1, 1997, and continue during the life of the surviving spouse. If the pension of the surviving spouse of a deceased member has ceased by virtue of the spouse's remarriage, and if the person to whom the spouse has remarried was a retired member of the fire department who was also entitled to a pension, then upon the death of the member to whom the spouse had remarried, the spouse is entitled to receive a pension as the surviving spouse of a deceased member as though the spouse had not been remarried.

(c) If a member dies while in active service, the member's children who are:

- (1) less than eighteen (18) years of age; or
- (2) less than twenty-three (23) years of age if the children are enrolled in and regularly attending a secondary school or are full-time students at an accredited college or university;

are each entitled to receive an amount fixed by ordinance but not less than twenty percent (20%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension.

(d) The surviving children of the deceased member who are eligible to receive a benefit under subsection (c) may receive an additional benefit in an amount fixed by ordinance, but the total additional benefit under this subsection to all the member's children may not exceed a total of thirty percent (30%) of the monthly wage received by a first class firefighter. However, this limitation does not apply to the children of a member who have a physical or mental disability.

(e) If a deceased member of the fire department leaves no surviving spouse or children but leaves a dependent parent, and upon satisfactory proof that the parent was wholly dependent upon the deceased member, the local board shall authorize the monthly payment to the parent from the 1937 fund. Each parent of a deceased member who was eligible for a pension under this subsection is entitled to receive jointly an amount equal to thirty percent (30%) of the salary of a fully paid first class firefighter in the unit at the time of the payment of the pension.

(f) For purposes of this section, "dies in the line of duty" means death that occurs as a direct result of personal injury or illness caused by incident, accident, or violence that results from any action that the member, in the member's capacity as a firefighter:

- (1) is obligated or authorized by rule, regulation, condition of employment or service, or law to perform; or
- (2) performs while on the scene of an emergency run (including false alarms) or on the way to or from the scene.

The term includes a death presumed incurred in the line of duty under IC 5-10-13.

(g) If the local board finds upon the submission of satisfactory proof that a child eighteen (18) years of age or older is mentally or physically incapacitated, is not a ward of the state, and is not

receiving a benefit under subsection (c)(2), the child is entitled to receive the same amount as is paid to the surviving spouse of a deceased firefighter, as long as the mental or physical incapacity continues. A sum paid for the benefit of a child or children shall be paid to the remaining parent, if alive, as long as the child or children reside with and are supported by the parent. If the parent dies, the sum shall be paid to the lawful guardian of the child or children.

(h) The monthly pension payable to a survivor may not be reduced below the amount of the first full monthly pension received by that person.

(i) A benefit payable under this section shall be paid in not less than twelve (12) monthly installments.

(j) The unit of local government that employed the deceased member shall after December 31, 2003, offer to provide and pay for health insurance coverage for the member's surviving spouse and for each natural child, stepchild, or adopted child of the member:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. If health insurance coverage is offered by the unit to active members, the health insurance provided to a surviving spouse and child under this subsection must be equal in coverage to that offered to active members. The offer to provide and pay for health insurance coverage shall remain open for as long as there is a surviving spouse or as long as a natural child, stepchild, or adopted child of the member is eligible for the coverage under subdivision (1), (2), or (3).

Determination whether disability in line of duty

Sec. 12.5. (a) If a local board determines that a fund member has a temporary or a permanent disability, the local board shall also make a recommendation to the board of trustees of the Indiana public retirement system (referred to in this section as "the system board") concerning whether the disability is:

- (1) a disability in the line of duty (as described in section 11(e)(1) of this chapter); or
- (2) a disability not in the line of duty (a disability other than a disability described in section 11(e)(1) of this chapter).

The local board shall forward its recommendation to the system board.

(b) The system board shall review the local board's recommendation not later than forty-five (45) days after receiving the

recommendation and shall then issue an initial determination of whether the disability is in the line of duty or not in the line of duty. The system board shall notify the local board, the safety board, and the fund member of its initial determination.

(c) The fund member, the safety board, or the local board may object in writing to the system board's initial determination under subsection (b) not later than fifteen (15) days after the initial determination is issued. If a written objection is not filed, the system board's initial determination becomes final. If a timely written objection is filed, the system board shall issue a final determination after a hearing. The final determination must be issued not later than one hundred eighty (180) days after the date of receipt of the local board's recommendation.

IC 36-8-7-14**Annual statement of receipts and disbursements; payment of excess expenditures by unit; appropriations**

Sec. 14. (a) The local board shall meet annually and prepare an itemized estimate, in the form prescribed by the state board of accounts, of the amount of money that will be receipted into and disbursed from the 1937 fund during the next fiscal year. The estimated receipts consist of the items enumerated in section 8 of this chapter. The estimated disbursements must be divided into two (2) parts, designated as part 1 and part 2.

(b) Part 1 of the estimated disbursements consists of an estimate of the amount of money that will be needed by the local board during the next fiscal year to defray the expenses and obligations incurred and that will be incurred by the local board in making the payments prescribed by this chapter to retired members, to members who are eligible to and expect to retire during the next fiscal year, and to the dependents of deceased members. Part 2 of the estimated disbursements consists of an estimate of the amount of money that will be needed to pay death benefits and other expenditures that are authorized or required by this chapter.

(c) At the time when the estimates are prepared and submitted, the local board shall also prepare and submit a certified statement showing the following:

(1) The name, age, and date of retirement of each retired member and the monthly and yearly amount of the payment to which the retired member is entitled.

(2) The name and age of each member who is eligible to and expects to retire during the next fiscal year, the date on which the member expects to retire, and the monthly and yearly amount of the payment that the member will be entitled to receive.

(3) The name and the age of each dependent, the date on which the dependent became a dependent, the date on which the dependent will cease to be a dependent by reason of attaining the age at which dependents cease to be dependents, and the monthly and yearly amount of the payment to which the dependent is entitled.

(4) The amount that would be required for the next fiscal year to maintain level cost funding during the active fund members' employment on an actuarial basis.

(5) The amount that would be required for the next fiscal year to amortize accrued liability for active members, retired members, and dependents over a period determined by the local board, but not to exceed forty (40) years.

(d) The total receipts shall be deducted from the total expenditures as listed in the itemized estimate. The amount of the excess of the estimated expenditures over the estimated receipts shall be paid by the unit in the same manner as other expenses of the unit are paid, and an appropriation shall be made annually for that purpose. The estimates submitted shall be prepared and filed in the

same manner and form and at the same time that estimates of other offices and departments of the unit are prepared and filed.

(e) The estimates shall be made a part of the annual budget of the unit. When revising the estimates, the executive, the fiscal officer, and other fiduciary officers may not reduce the items in part 1 of the estimated disbursements.

(f) The unit's fiscal body shall make the appropriations necessary to pay that proportion of the budget of the 1937 fund that the unit is obligated to pay under subsection (d). In addition, the fiscal body may make appropriations for purposes of subsection (c)(4), (c)(5), or both. All appropriations shall be made to the local board for the exclusive use of the 1937 fund, including the payments described in section 9.5 of this chapter. The amounts listed in part 1 of the estimated disbursements, if found to be correct and in conformity with the data submitted in the certified statement, are a binding obligation upon the unit. Notwithstanding any other law, neither the county board of tax adjustment nor the department of local government finance may reduce the appropriations made to pay the amount equal to estimated disbursements minus estimated receipts. *As added by Acts 1981, P.L.309, SEC.57. If the appropriations for any of the purposes contemplated in section 14 of this chapter are exhausted before the end of the fiscal year for which the appropriations have been made, the unit's fiscal body shall make the necessary additional appropriations according to IC 6-1.1-18-5. If the amount of money in the general fund not otherwise appropriated is less than the additional appropriations found to be necessary, the fiscal body shall borrow the necessary money in the manner prescribed by statute for making loans by the unit. A tax shall be levied for the next year sufficient to repay the loan and the interest that has accrued.

After the examination, the local board shall conduct a hearing under IC 36-8-8-12.7 to determine whether the disability still exists and whether the retired member should be continued on the pension roll. However, the retired member remains upon the pension roll until placed back in active service of the department, except in cases of dismissal or resignation.

(b) If a retired member is found after the examination and hearing to be physically able to be placed back in active service of the department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act, the local board shall certify the person's name and that fact to the safety board or other appointing authority. The person shall be placed back on active duty by the appointing authority as soon as the first vacancy occurs.

(c) Time spent receiving disability benefits is considered active service for the purpose of determining retirement benefits until the member has a total of twenty (20) years of service.

(d) To the extent required by the Americans with Disabilities Act, the transcripts, reports, records, and other material compiled to determine the existence of a disability shall be:

- (1) kept in separate medical files for each member; and

Sec. 1.5. (a) As used in this chapter, "Internal Revenue Code":

(1) means the Internal Revenue Code of 1954, as in effect on September 1, 1974, if permitted with respect to governmental plans; or

(2) to the extent not inconsistent with subdivision (1), has the meaning set forth in IC 6-3-1-11.

(b) The 1953 fund shall satisfy the qualification requirements in Section 401 of the Internal Revenue Code, as applicable to the 1953 fund. In order to meet those requirements, the 1953 fund is subject to the following provisions, notwithstanding any other provision of

this chapter:

(1) The local board shall distribute the corpus and income of the 1953 fund to members and their beneficiaries in accordance with this chapter.

(2) No part of the corpus or income of the 1953 fund may be used or diverted to any purpose other than the exclusive benefit of the members and their beneficiaries.

(3) Forfeitures arising from severance of employment, death, or for any other reason may not be applied to increase the benefits any member would otherwise receive under this chapter.

(4) If the 1953 fund is terminated, or if all contributions to the 1953 fund are completely discontinued, the rights of each affected member to the benefits accrued at the date of the termination or discontinuance, to the extent then funded, are nonforfeitable.

(5) All benefits paid from the 1953 fund shall be distributed in accordance with the requirements of Section 401(a)(9) of the Internal Revenue Code and the regulations under that section. In order to meet those requirements, the 1953 fund is subject to the following provisions:

(A) The life expectancy of a member, the member's spouse, or the member's beneficiary shall not be recalculated after the initial determination, for purposes of determining benefits.

(B) If a member dies before the distribution of the member's benefits has begun, distributions to beneficiaries must begin no later than December 31 of the calendar year immediately following the calendar year in which the member died.

(C) The amount of an annuity paid to a member's beneficiary may not exceed the maximum determined under the incidental death benefit requirement of the Internal Revenue Code.

(6) The local board may not:

(A) determine eligibility for benefits;

(B) compute rates of contribution; or

(C) compute benefits of members or beneficiaries;

in a manner that discriminates in favor of members who are considered officers, supervisors, or highly compensated, as prohibited under Section 401(a)(4) of the Internal Revenue Code.

(7) Benefits paid under this chapter may not exceed the maximum benefit specified by Section 415 of the Internal Revenue Code.

(8) The salary taken into account under this chapter may not exceed the applicable amount under Section 401(a)(17) of the Internal Revenue Code.

(9) The local board may not engage in a transaction prohibited by Section 503(b) of the Internal Revenue Code.

(c) Notwithstanding any other provision of this chapter, and solely for the purposes of the benefits provided under this chapter, the

benefit limitations of Section 415 of the Internal Revenue Code shall be determined by applying the provisions of Section 415(b)(10) of the Internal Revenue Code, as amended by the Technical and Miscellaneous Revenue Act of 1988. This section constitutes an election under Section 415(b)(10)(C) of the Internal Revenue Code to have Section 415(b) of the Internal Revenue Code, other than Section 415(b)(2)(G) of the Internal Revenue Code, applied without regard to Section 415(b)(2)(F) of the Internal Revenue Code (before its repeal on June 7, 2001, by P.L.107-16) to anyone who did not first become a participant before January 1, 1990.

Insufficient pension fund; estimates; statement; tax levy

Sec. 10. (a) If the local board determines that the total amount of money available for a year will be insufficient to pay the benefits, pensions, and retirement allowances the local board is obligated to pay under this chapter, the local board shall, before the date on which the budget of the police special service district is adopted, prepare an itemized estimate in the form prescribed by the state board of accounts of the amount of money that will be receipted into and disbursed from the 1953 fund during the next fiscal year. The estimated receipts consist of the items enumerated in section 8 of this chapter. The estimated disbursements consist of an estimate of the amount of money that will be needed by the local board during the next fiscal year to defray the expenses and obligations incurred and that will be incurred by the local board in making the payments prescribed by this chapter to retired members, to members who are eligible and expect to retire during the ensuing fiscal year, and to the dependents of deceased members.

(b) At the time when the estimates are prepared and submitted, the local board shall also prepare and submit a certified statement showing:

- (1) the estimated number of beneficiaries from the 1953 fund during the ensuing fiscal year in each of the various classifications of beneficiaries as prescribed in this chapter, and the names and amount of benefits being paid to those actively on the list of beneficiaries at that time;
- (2) the name, age, and length of service of each member of the police department who is eligible to and expects to retire during the ensuing fiscal year, and the monthly and yearly amounts of the payment that the member will be entitled to receive; and
- (3) the name and age of each dependent of a member of the police department who is then receiving benefits, the date on which the dependent commenced drawing benefits, and the date on which the dependent will cease to be a dependent by reason of attaining the age limit prescribed by this chapter, and the monthly and yearly amounts of the payments to which each of the dependents is entitled.

(c) After the amounts of receipts and disbursements shown in the itemized estimate are fixed and approved by the executive, fiscal officer, legislative body and other bodies, as provided by law for other municipal funds, the total receipts shall be deducted from the total expenditures stated in the itemized estimate, and the amount of the excess shall be paid by the police special service district in the same manner as other expenses of the district are paid. The legislative body shall levy a tax and the money derived from the levy shall, when collected, be credited exclusively to the 1953 fund, including the payments described in section 10.5 of this chapter. The tax shall be levied in the amount and at the rate that is necessary to produce sufficient revenue to equal the deficit. Notwithstanding any other law, neither the county board of tax adjustment nor the department of local government finance may reduce the tax levy.

- (2) is not necessary to meet the pension, disability, and survivor benefit payment obligations of the 1953 fund because of amendments to IC 5-10.3-11-4.7 in 2008; and
- (3) is determined under subsection (c).

(b) A local board may authorize the use of money in the 1953 fund to pay any or all of the following:

(c) The maximum amount that may be used under subsection (b) is equal to the sum of the following:

- (1) the unencumbered balance of the 1953 fund on December 31, 2008; plus
- (2) the amount of property taxes:
 - (A) imposed for an assessment date before January 16, 2008, for the benefit of the 1953 fund; and

Investments of local board

Sec. 11. (a) The local board shall determine how much of the 1953 fund may be safely invested and how much should be retained for the needs of the fund. The investment shall be made in interest bearing direct obligations of the United States, obligations or issues guaranteed by the United States, bonds of the state of Indiana or any political subdivision, or street, sewer, or other improvement bonds of the state of Indiana or any political subdivision. However, the local board may not invest in obligations issued by the consolidated city, the county, or any political subdivision in the county. Any securities shall be deposited with and remain in the custody of the treasurer of the local board, who shall collect the interest due on them as it becomes due and payable. The local board may sell any of the securities belonging to the 1953 fund and borrow money upon the securities as collateral whenever in the judgment of the local board this action is necessary to meet the cash requirements of the 1953 fund.

(b) The revenues derived from the tax levy authorized by section

10(c) of this chapter may not be invested but shall be used for the exclusive purpose of paying the pensions and benefits that the local board is obligated to pay. These revenues are in addition to all money derived from the income on the investments of the board.

(c) Investments under this section are subject to section 1.5 of this chapter.

Voluntary retirement pension; emergency services

Sec. 12. (a) Benefits paid under this section are subject to section 1.5 of this chapter.

(b) The 1953 fund shall be used to provide a member of the police department who retires from active duty after twenty (20) or more years of active duty an annual pension equal to fifty percent (50%) of the salary of a first class patrolman in the police department, plus:

(1) for a member who retires before January 1, 1986, two percent (2%) of the first class patrolman's salary for each year of service; or

(2) for a member who retires after December 31, 1985, one percent (1%) of the first class patrolman's salary for each six (6) months of service;

of the retired member over twenty (20) years. The pension may not exceed in any year an amount greater than seventy-four percent (74%) of the salary of a first class patrolman. The pensions shall be computed on an annual basis but shall be paid in twelve (12) equal monthly installments. If the salary of a first class patrolman is increased or decreased, the pension payable shall be proportionately increased or decreased.

(c) If a member retires upon his voluntary application after twenty (20) years or more of active service, he then relinquishes all rights to other benefits or pensions for disability during the time of his retirement.

(d) After retirement the member is not required to render further services on the police department and is no longer subject to the rules of the police department, unless a national emergency has been declared by the local board, on application by the executive, the safety board, and the police chief of the city. Upon declaration of such an emergency, the retired member, if physically able, shall return to active duty under the rank he attained at the time of his retirement, and if he refuses to return to active duty upon being declared physically fit, he forfeits his right to receive his pension until the time he returns to active duty and again is retired or discharged from service.

(e) No pension, annuity, or benefit provided by this chapter is payable by the local board except upon written application by the member of the police department, or the surviving spouse or other dependent, upon the forms and with the information required by the local board.

- (2) continue to receive the member's pension benefit under this chapter.

(b) This section may be implemented unless the local board receives from the Internal Revenue Service a determination that prohibits the implementation.

Sec. 13. (a) For a member who becomes disabled before July 1, 2000, the 1953 fund shall be used to pay a pension in an annual sum equal to:

- (1) fifty percent (50%) for a disease or disability occurring before July 1, 1991; and
- (2) fifty-five percent (55%) for a disease or disability occurring after June 30, 1991;

of the salary of a first class patrolman in the police department, computed and payable as prescribed by section 12(b) of this chapter, to an active member of the police department who has been in active service for more than one (1) year and who has suffered or contracted a mental or physical disease or disability that renders the member permanently unfit for active duty in the police department, or to an active member of the police department who has been in active service for less than one (1) year who has suffered or received personal injury from violent external causes while in the actual discharge of the member's duties as a police officer. The pensions provided for in this subsection shall be paid only so long as the member of the police department remains unfit for active duty in the police department.

(b) For a member who becomes disabled after June 30, 2000, the 1953 fund shall be used to pay a pension in an annual sum equal to fifty-five percent (55%) of the salary of a first class patrolman in the police department, computed on an annual basis and payable in twelve (12) equal monthly installments, to an active member of the police department who:

- (1) has suffered or incurred a disability that renders the member permanently unfit for active duty in the police department and that is:
 - (A) the direct result of:

- (i) a personal injury that occurs while the fund member is on duty;
 - (ii) a personal injury that occurs while the fund member is off duty and is responding to an offense or a reported offense; or
 - (iii) an occupational disease (as defined in IC 22-3-7-10), including a duty related disease that is also included within clause (B);
- (B) a duty related disease (for purposes of this section, a "duty related disease" means a disease arising out of the fund member's employment. A disease is considered to arise out of the fund member's employment if it is apparent to the rational mind, upon consideration of all of the circumstances, that:
- (i) there is a connection between the conditions under which the fund member's duties are performed and the disease;
 - (ii) the disease can be seen to have followed as a natural incident of the fund member's duties as a result of the exposure occasioned by the nature of the fund member's duties; and
 - (iii) the disease can be traced to the fund member's employment as the proximate cause); or
- (C) a disability presumed incurred in the line of duty under IC 5-10-13 or IC 5-10-15; and

The pensions provided for in this subsection shall be paid only so long as the member of the police department remains unfit for active duty in the police department. If the salary of a first class patrolman is increased or decreased, the pension payable shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

(c) For a member who becomes disabled after June 30, 2000, the 1953 fund shall be used to pay a pension in an annual sum equal to fifty-five percent (55%) of the salary of a first class patrolman in the police department, computed on an annual basis and payable in twelve (12) equal monthly installments, to an active member of the police department who has been in active service for at least one (1) year and:

- (1) has suffered or incurred a disability that:
 - (A) renders the member permanently unfit for active duty in the police department; and
 - (B) is not described in subsection (b)(1); and
- (2) is unable to perform the essential functions of the job, considering reasonable accommodation to the extent required by the Americans with Disabilities Act.

The pension provided in this subsection shall be paid only so long as

the member of the police department remains unfit for active duty in the police department. If the salary of a first class patrolman is increased or decreased, the pension payable shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

(d) For a member who became disabled before July 1, 2000, the 1953 fund shall be used to pay temporary benefits in an annual sum equal to thirty percent (30%) of the salary of a first class patrolman in the police department, computed and payable as prescribed by section 12(a) of this chapter, to an active member of the police department who has been in active service for more than one (1) year and who has suffered any physical or mental disability that renders the member temporarily or permanently unable to perform the member's duties as a member of the police department, or to an active member of the police department who has been in active service for less than one (1) year and who has suffered or received personal injury from violent external causes while in the actual discharge of the member's duties as a police officer, until the time the member is physically and mentally able to return to active service on the police department.

(e) For a member who becomes disabled after June 30, 2000, the 1953 fund shall be used to pay a pension in an annual sum equal to thirty percent (30%) of the salary of a first class patrolman in the police department, computed on an annual basis and payable in twelve (12) equal monthly installments, to an active member of the police department who:

(1) suffers or incurs a disability that renders the member temporarily unfit for active duty in the police department and that is:

(A) the direct result of:

- (i) a personal injury that occurs while the fund member is on duty;
- (ii) a personal injury that occurs while the fund member is off duty and is responding to an offense or a reported offense, in the case of a police officer; or
- (iii) an occupational disease (as defined in IC 22-3-7-10), including a duty related disease that is also included within clause (B);

(B) a duty related disease (for purposes of this section, a "duty related disease" means a disease arising out of the fund member's employment. A disease is considered to arise out of the fund member's employment if it is apparent to the rational mind, upon consideration of all of the circumstances, that:

- (i) there is a connection between the conditions under which the fund member's duties are performed and the disease;
- (ii) the disease can be seen to have followed as a natural incident of the fund member's duties as a result of the

exposure occasioned by the nature of the fund member's duties; and

(iii) the disease can be traced to the fund member's employment as the proximate cause); or

(C) a disability presumed incurred in the line of duty under IC 5-10-13 or IC 5-10-15; and

(2) is unable to perform the essential functions of the job, considering reasonable accommodation to the extent required by the Americans with Disabilities Act.

The pension provided in this subsection shall be paid only so long as the member of the police department remains unfit for active duty in the police department. If the salary of a first class patrolman is increased or decreased, the pension payable shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

(f) For a member who becomes disabled after June 30, 2000, the 1953 fund shall be used to pay temporary benefits in an annual sum equal to thirty percent (30%) of the salary of a first class patrolman in the police department, computed on an annual basis and payable in twelve (12) equal monthly installments, to an active member of the police department:

(1) who has been in active service for at least one (1) year;

(2) suffers or incurs a disability that:

(A) renders the member temporarily unfit for active duty in the police department; and

(B) is not described in subsection (e)(1); and

(3) is unable to perform the essential functions of the job, considering reasonable accommodation to the extent required by the Americans with Disabilities Act.

The pension provided for in this subsection shall be paid only so long as the member of the police department remains unfit for active duty in the police department. If the salary of a first class patrolman is increased or decreased, the pension payable shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

(g) If an application is made by an active member of the police department because of physical or mental disability for temporary benefits as provided in subsection (d), (e), or (f), the benefit is not payable until the local board determines after a hearing conducted under IC 36-8-8-12.7 that the member is unfit for active duty on the police department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act. Before the hearing, a physician to be appointed by the local board shall examine the member and certify in writing whether in the physician's opinion the member is unfit, physically or mentally, for active duty in the police department. After the pension or benefit has been granted by the local board, the payment commences with the original date of the injury or illness causing the disability.

(h) A member who has been granted a disability benefit under this section and who fails or refuses to submit to a physical examination at any time by the local board physician has no right in the future to receive the disability benefit, and any benefit that has been granted shall be immediately canceled by the local board.

(i) The local board may, from time to time, require a member of the police department who is receiving at any time disability benefits or pensions as provided in this section to be examined by the physician appointed by the local board. After the examination, the local board shall conduct a hearing under IC 36-8-8-12.7 to determine whether the disability still exists and whether the member should continue to receive the pension or benefit. If after the examination and hearing the member is found to have recovered from the member's disability and is fit for active duty on the police department, then upon written notice to the member by the local board, the member shall be reinstated in active service, the safety board shall be informed of the action of the local board, and from that time the member is no longer entitled to payments from the 1953 fund. If the member fails or refuses to return to active duty after ordered by the local board, the member ceases to be a member of the 1953 fund and waives all rights to any further pensions or benefits provided by the 1953 fund.

(j) Notwithstanding any other provision of this chapter, no disability benefit may be paid for any disability based upon or caused by any mental or physical condition that a member had at the time the member entered or reentered the member's active service in the police department.

(k) If a member who is receiving disability benefits under subsection (a), (b), or (c) for a disease or disability occurring after June 30, 1991, is transferred from disability to regular retirement status, the member's monthly pension may not be reduced below fifty-five percent (55%) of the salary of a first class patrolman at the time of payment of the pension.

(l) To the extent required by the Americans with Disabilities Act, the transcripts, reports, records, and other material compiled to determine the existence of a disability shall be:

- (1) kept in separate medical files for each member; and
- (2) treated as confidential medical records.

(m) A fund member who is receiving disability benefits under subsection (d) or (f) shall be transferred from disability to regular retirement status when the member becomes fifty-five (55) years of age.

(n) A fund member who is receiving disability benefits under subsection (e) is entitled to:

- (1) receive a disability benefit for the remainder of the fund member's life; and
- (2) have the amount of the disability benefit computed under section 12 of this chapter when the fund member becomes fifty-five (55) years of age.

Determination whether disability in line of duty

Sec. 13.2. (a) If a local board determines that a fund member has a temporary or a permanent disability, the local board shall also make a recommendation to the board of trustees of the Indiana public retirement system (referred to in this section as "the system board") concerning whether the disability is:

- (1) a disability in the line of duty (as described in section 13(b)(1) of this chapter); or
- (2) a disability not in the line of duty (a disability other than a disability described in section 13(b)(1) of this chapter).

The local board shall forward its recommendation to the system board.

(b) The system board shall review the local board's recommendation not later than forty-five (45) days after receiving the recommendation and shall then issue an initial determination of whether the disability is in the line of duty or not in the line of duty. The system board shall notify the local board, the safety board, and the fund member of its initial determination.

(c) The fund member, the safety board, or the local board may object in writing to the system board's initial determination under subsection (b) not later than fifteen (15) days after the initial determination is issued. If a written objection is not filed, the system board's initial determination becomes final. If a timely written objection is filed, the system board shall issue a final determination after a hearing. The final determination must be issued not later than one hundred eighty (180) days after the date of receipt of the local board's recommendation.

IC 36-8-7.5-13.6

Members dying other than in line of duty

Sec. 13.6. (a) This section applies to an active or retired member who dies other than in the line of duty (as defined in section 14.1 of this chapter).

(b) The 1953 fund shall be used to pay an annuity, computed under subsection (g) and payable in monthly installments, to the surviving spouse of a member of the fund who dies from any cause after having served for one (1) year or more. The annuity continues during the life of the surviving spouse unless the spouse remarried before September 1, 1983. If the spouse remarried before September 1, 1983, benefits ceased on the date of remarriage. If a member of the fund died, but not in the line of duty, and the member's surviving spouse remarried before September 1, 1983, the benefits of the surviving spouse shall be reinstated on July 1, 1997, and continue

during the life of the surviving spouse.

(c) The 1953 fund shall also be used to pay an annuity equal to twenty percent (20%) of the salary of a first class patrolman on the police department, computed as provided in section 12(b) of this chapter and payable in monthly installments, to each dependent child of a member of the fund who dies from any cause after having served for one (1) year or more as an active member of the police department. The pension to each child continues:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. However, the pension to the child ceases if the child marries or is legally adopted by any person.

(d) If a deceased member leaves no surviving spouse and no child who qualifies for a benefit under subsection (c) but does leave a dependent parent or parents, the 1953 fund is used to pay an annuity not greater than a sum equal to twenty percent (20%) of the salary of a first class patrolman on the police department, computed and payable as provided in section 12(b) of this chapter, payable monthly to the dependent parent or parents of a member of the police department who dies from any cause after having served for one (1) year or more as an active member of the police department. The annuity continues for the remainder of the life or lives of the parent or parents as long as either or both fail to have sufficient other income for their proper care, maintenance, and support.

(e) In all cases of payment to a dependent relative of a deceased member, the local board is the final judge of the question of necessity and dependency and of the amount within the stated limits to be paid. The local board may also reduce or terminate temporarily or permanently a payment to a dependent relative of a deceased member when it determines that the condition of the 1953 fund or other circumstances make this action necessary.

(f) If the salary of a first class patrolman is increased or decreased, the pension payable under this section shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

(g) Except as otherwise provided in this subsection, the annuity payable under subsection (b) equals one (1) of the following:

- (1) For the surviving spouse of a member who dies before January 1, 1989, thirty percent (30%) of the salary of a first class patrolman.
- (2) For the surviving spouse of a member who dies after December 31, 1988, an amount per month during the spouse's life equal to the greater of:
 - (A) thirty percent (30%) of the monthly pay of a first class

patrolman; or

(B) fifty-five percent (55%) of the monthly benefit the deceased member was receiving or was entitled to receive on the date of the member's death.

However, if the deceased member was not entitled to a benefit because the member had not completed twenty (20) years of service, for the purposes of computing the amount under subdivision (2)(B) the member's benefit is considered to be fifty percent (50%) of the monthly salary of a first class patrolman. The amount provided in this subdivision is subject to adjustment as provided in subsection (f).

IC 36-8-7.5-13.7

Members dying in line of duty before September 1, 1982

Sec. 13.7. (a) This section applies to a member who died in the line of duty (as defined in section 14.1 of this chapter) before September 1, 1982.

(b) The 1953 fund shall be used to pay an annuity, computed under subsection (g) and payable in monthly installments, to the surviving spouse of a member. The annuity continues during the life of the surviving spouse unless the spouse remarried before September 1, 1983. If the spouse remarried before September 1, 1983, benefits ceased on the date of remarriage. If a member of the fund died, but not in the line of duty, and the member's surviving spouse remarried before September 1, 1983, the benefits of the surviving spouse shall be reinstated on July 1, 1997, and continue during the life of the surviving spouse.

(c) The 1953 fund shall also be used to pay an annuity equal to twenty percent (20%) of the salary of a first class patrolman on the police department, computed as provided in section 12(b) of this chapter and payable in monthly installments, to each dependent child of a member of the fund who dies from any cause while in the actual discharge of duties as a police officer. The pension to each child continues:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. However, the pension to the child ceases if the child marries or is legally adopted by any person.

(d) If a deceased member leaves no surviving spouse and no child who qualifies for a benefit under subsection (c) but does leave a dependent parent or parents, the 1953 fund shall be used to pay an annuity not greater than a sum equal to twenty percent (20%) of the salary of a first class patrolman on the police department, computed

and payable as provided in section 12(b) of this chapter, payable monthly to the dependent parent or parents of a member of the police department. The annuity continues for the remainder of the life or lives of the parent or parents as long as either or both fail to have sufficient other income for their proper care, maintenance, and support.

(e) In all cases of payment to a dependent relative of a deceased member, the local board is the final judge of the question of necessity and dependency and of the amount within the stated limits to be paid. The local board may also reduce or terminate temporarily or permanently a payment to a dependent relative of a deceased member when it determines that the condition of the 1953 fund or other circumstances make this action necessary.

(f) If the salary of a first class patrolman is increased or decreased, the pension payable under this section shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

(g) The annuity payable under subsection (b) equals thirty percent (30%) of the salary of a first class patrolman. The amount provided in this subsection is subject to adjustment as provided in subsection (f).

(h) The unit of local government that employed the deceased member shall after December 31, 2003, offer to provide and pay for health insurance coverage for the member's surviving spouse and for each natural child, stepchild, or adopted child of the member:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. If health insurance coverage is offered by the unit to active members, the health insurance provided to a surviving spouse and child under this subsection must be equal in coverage to that offered to active members. The offer to provide and pay for health insurance coverage shall remain open for as long as there is a surviving spouse or as long as a natural child, stepchild, or adopted child of the member is eligible for coverage under subdivision (1), (2), or (3).

Sec. 13.8. (a) Benefits paid under this section are subject to section 1.5 of this chapter.

(b) The 1953 fund shall be used to pay twelve thousand dollars (\$12,000) to the beneficiary or estate of a member of the fund, active

or retired, who:

- (1) dies from any cause after having served for one (1) year or more as an active member of the police department; or
- (2) dies from any cause while in the actual discharge of the member's duties as a police officer after having served less than one (1) year as an active member of the police department.

Any member of the fund may name a beneficiary to receive the amount provided for upon the member's death by designating in writing in such form as is prescribed by the local board and delivered to the board. The beneficiary may be changed from time to time by the member by canceling the designation and delivering a new designation to the local board. If the member makes no designation of beneficiary, the sum provided for shall be paid to the member's estate.

Members dying in line of duty after August 31, 1982

Sec. 14.1. (a) This section applies to an active member who dies in the line of duty after August 31, 1982.

(b) If a member dies in the line of duty after August 31, 1982, the surviving spouse is entitled to a monthly benefit, during the spouse's lifetime, equal to the benefit to which the member would have been entitled on the date of the member's death, but not less than fifty percent (50%) of the monthly wage received by a first class patrolman. If the spouse remarried before September 1, 1983, benefits ceased on the date of remarriage. However, if a member of the police department dies in the line of duty after August 31, 1982, and the member's surviving spouse remarried before September 1, 1983, the benefits for the surviving spouse shall be reinstated on July 1, 1995, and continue during the life of the surviving spouse.

(c) The 1953 fund shall also be used to pay an annuity equal to twenty percent (20%) of the salary of a first class patrolman on the police department, computed as provided in section 12(b) of this chapter and payable in monthly installments, to each dependent child of a member of the fund who dies from any cause while in the actual discharge of duties as a police officer. The pension to each child continues:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. However, the pension to the child ceases if the child marries or is legally adopted by any person.

(d) The surviving children of the deceased member who are eligible to receive a benefit under subsection (c) may receive an additional benefit in an amount fixed by ordinance, but the total benefit to all the member's children under this subsection may not exceed a total of thirty percent (30%) of the monthly wage received by a first class patrolman. However, this limitation does not apply to the children of a member who have a physical or mental disability.

(e) If a deceased member leaves no surviving spouse and no child who qualifies for a benefit under subsection (c) but does leave a dependent parent or parents, the 1953 fund shall be used to pay an annuity not greater than a sum equal to twenty percent (20%) of the salary of a first class patrolman on the police department, computed and payable as provided in section 12(b) of this chapter, payable monthly to the dependent parent or parents of a member of the police department who dies from any cause while in the actual discharge of duties as a police officer. The annuity continues for the remainder of the life or lives of the parent or parents as long as either or both fail to have sufficient other income for their proper care, maintenance, and support.

(f) In all cases of payment to a dependent relative of a deceased member, the local board is the final judge of the question of necessity and dependency and of the amount within the stated limits to be paid. The local board may also reduce or terminate temporarily or permanently a payment to a dependent relative of a deceased member when it determines that the condition of the 1953 fund or other circumstances make this action necessary.

(g) If the salary of a first class patrolman is increased or decreased, the pension payable under this section shall be proportionately increased or decreased. However, the monthly pension payable to a member or survivor may not be reduced below the amount of the first full monthly pension received by that person.

(h) For purposes of this section, "dies in the line of duty" means death that occurs as a direct result of personal injury or illness caused by incident, accident, or violence that results from any action that the member, in the member's capacity as a police officer:

- (1) is obligated or authorized by rule, regulation, condition of employment or service, or law to perform; or
- (2) performs in the course of controlling or reducing crime or enforcing the criminal law.

The term includes a death presumed incurred in the line of duty under IC 5-10-13.

(i) The unit of local government that employed the deceased member shall after December 31, 2003, offer to provide and pay for health insurance coverage for the member's surviving spouse and for each natural child, stepchild, or adopted child of the member:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. If health insurance coverage is offered by the unit to active members, the health insurance provided to a surviving spouse and child under this subsection must be equal in coverage to that offered to active members. The offer to provide and pay for health insurance coverage shall remain open for as long as there is a surviving spouse or as long as a natural child, stepchild, or adopted child of the member is eligible for coverage under subdivision (1), (2), or (3).

Sec. 15. (a) No pension, annuity, or benefit provided by this chapter is payable by the local board except upon written application by the member of the police department, or the surviving spouse or other dependent, upon the forms and with the information required by the local board.

(b) The 1953 fund shall be used to pay an amount equal to the pensions, annuities, and benefits provided by this chapter in the case of retirement after twenty (20) years service, to a member of the police department and to the dependents of a member, if the member is dismissed from service for any reason other than conviction of a felony after having been in actual service for twenty (20) years. Payments to dependent children or mentally incompetent persons; benefits where member dies before payments are made; payments where member is entitled to part salary; reentry into active service

Sec. 17. (a) If benefits are payable to a dependent child under eighteen (18) years of age or to a person adjudged mentally incompetent, the local board may, when it is to the apparent interest of the dependent child or incompetent person, waive guardianship proceedings and pay the benefit directly to the person providing for and caring for the dependent child, and to the spouse, parent, or blood relative providing for and caring for the incompetent person. The local board may, if it finds it in the best interest of any dependent child, pay any benefits due to the dependent child directly to such child regardless of any other law.

(b) A member is not entitled to receive the benefits of this chapter until the member's payments are paid in full, unless the member has suffered permanent disability or death from any cause while in actual discharge of duties as a police officer. If the member dies before the required payments are made, the surviving spouse or other dependents shall pay any balance due and are then entitled to pension benefits.

(c) Notwithstanding any other provision of this chapter, no disability or retirement benefit of any kind provided for in this chapter may be paid to any member of the police department for any period during which the member receives or is entitled to receive all or any part of the member's salary.

(b) In connection with an application for the pensions, annuities, or benefits referred to in subsection (a), the local board may deny the application. If the local board denies the application, it may, and shall upon the written request of the applicant, hold a hearing on the application at which time it shall hear any evidence of the applicant or any other person as to the facts contained in the application, and as to any of the requirements stated in this chapter for receiving the

(c) At any hearing held by the local board as provided in this chapter, the local board may subpoena witnesses, and examine all witnesses under oath, and any member of the local board may administer the oath to any witness at any hearing.

(d) The local board shall give due notice of the time and place of the hearing.

(e) The applicant is entitled to be present at the hearing, to be represented by counsel, to examine any witness testifying at the hearing, and to introduce any evidence upon his behalf as to any question properly before the local board. Sec. 2.5. (a) As used in this chapter, "Internal Revenue Code":

(1) means the Internal Revenue Code of 1954, as in effect on September 1, 1974, if permitted with respect to governmental plans; or

meaning set forth in IC 6-3-1-11.

(1) The system board shall distribute the corpus and income of the 1977 fund to members and their beneficiaries in accordance with this chapter.

(2) No part of the corpus or income of the 1977 fund may be used or diverted to any purpose other than the exclusive benefit of the members and their beneficiaries.

(3) Forfeitures arising from severance of employment, death, or for any other reason may not be applied to increase the benefits any member would otherwise receive under this chapter.

(4) If the 1977 fund is terminated, or if all contributions to the 1977 fund are completely discontinued, the rights of each affected member to the benefits accrued at the date of the termination or discontinuance, to the extent then funded, are nonforfeitable.

(5) All benefits paid from the 1977 fund shall be distributed in accordance with the requirements of Section 401(a)(9) of the Internal Revenue Code and the regulations under that section. In order to meet those requirements, the 1977 fund is subject to the following provisions:

Participation by units

Sec. 3. (a) If a town establishes a board of metropolitan police commissioners, or if a town becomes a city, the municipality shall participate in the 1977 fund. However, if a police officer or former marshal is a member of the public employees' retirement fund, the police officer or former marshal may continue as a member of that fund instead of the 1977 fund. Notwithstanding the age requirements under section 7(a) of this chapter, a police officer or former marshal employed by a municipality at the time the municipality enters the 1977 fund under this section shall be a member of the 1977 fund unless the police officer or former marshal elects to continue as a member of the public employees' retirement fund. A person may become a member of the 1977 fund under this subsection without meeting the age limitation under section 7(a) of this chapter only if the person satisfies:

- (1) any aptitude, physical agility, or physical and mental standards established by a local board under IC 36-8-3.2; and
- (2) the minimum standards that are:
 - (A) adopted by the system board under section 19 of this chapter; and
 - (B) in effect on the date the person becomes a member of the 1977 fund.

Credit for prior service of a person who becomes a member of the 1977 fund under this subsection shall be determined under section 18 or 18.1 of this chapter. No service credit beyond that allowed under section 18 or 18.1 of this chapter may be recognized under the 1977 fund.

(b) If a unit did not establish a 1937 fund for its firefighters, the unit may participate in the public employees' retirement fund or it may participate in the 1977 fund. If a unit established a 1937 fund for its firefighters, the unit is and shall remain a participant in the 1977 fund.

(c) A unit that:

- (1) has not established a pension fund for its firefighters; or
- (2) is participating in the public employees' retirement fund under subsection (b);

may participate in the 1977 fund upon approval by the fiscal body, notwithstanding IC 5-10.3-6-8. A unit that participates in the 1977 fund under this subsection must comply with section 21 of this chapter. However, if a firefighter is a member of the public employees' retirement fund, the firefighter may continue as a member of that fund instead of the 1977 fund.

and the period to be determined by the system board. If the employer chooses to make the contributions, the police officer or firefighter is entitled to receive credit for the police officer's or firefighter's prior years of service without making contributions to the 1977 fund for that prior service. In no event may a police officer or firefighter receive credit for prior years of service if the police officer or firefighter is receiving a benefit or is entitled to receive a benefit in the future from any other public pension plan with respect to the prior years of service.

A police officer or firefighter to whom this subsection applies is entitled to receive credit for all years of 1977 fund covered service as a police officer or firefighter with all employers that participate in the 1977 fund.

Benefits for members with covered impairments; retirement benefits for members who have a disability and are less than 52 years old

Sec. 12. (a) Benefits paid under this section are subject to sections 2.5 and 2.6 of this chapter.

(b) If an active fund member has a covered impairment, as determined under sections 12.3 through 13.1 of this chapter, the member is entitled to receive the benefit prescribed by section 13.3

or 13.5 of this chapter. A member who has had a covered impairment and returns to active duty with the department shall not be treated as a new applicant seeking to become a member of the 1977 fund.

- (2) a plan, fund, or other arrangement to which the fund member's employer has contributed or for which the fund member's employer has made payroll deductions, including a group life policy providing installment payments for disability, a group annuity contract, or a pension or retirement annuity plan other than the fund established by this chapter;

- (1) delivered, issued for delivery, amended, or renewed after April 9, 1979; and
- (2) described in subsection (c)(1) or (c)(2);

may not provide for a reduction or alteration of benefits as a result of benefits for which a fund member may be eligible from the 1977 fund under subsection (c).

(e) Time spent receiving disability benefits, not to exceed twenty (20) years, is considered active service for the purpose of determining retirement benefits. A fund member's retirement benefit shall be based on:

(g) A fund member who is receiving disability benefits:

(1) under section 13.3(c) of this chapter; or

(2) based on a determination under this chapter that the fund member has a Class 1 or Class 2 impairment;

IC 36-8-8-12.3

Covered impairments; hearings; inclusions; Class 3 excludable condition; determination

Sec. 12.3. (a) Upon a request from a fund member or from the safety board of the appropriate police or fire department, the local board shall conduct a hearing under section 12.7 of this chapter to determine whether the fund member has a covered impairment.

(b) A covered impairment is an impairment that permanently or temporarily makes a fund member unable to perform the essential function of the member's duties, considering reasonable accommodation to the extent required by the Americans with Disabilities Act, with the police or fire department. However, a covered impairment does not include an impairment:

(1) resulting from an intentionally self-inflicted injury or attempted suicide while sane or insane;

(2) resulting from the fund member's commission or attempted commission of a felony;

(3) that begins within two (2) years after a fund member's entry or reentry into active service with the department and that was caused or contributed to by a mental or physical condition that manifested itself before the fund member entered or reentered active service. Notwithstanding this subdivision, a fund member may not be required to satisfy more than one (1) such two (2) year period for the same mental or physical condition; or

(4) that is occasioned, in whole or in part, by the fund member currently engaging (as defined in 29 CFR 1630.3, Appendix) in any of the following:

(A) Use of a controlled substance (as defined in the Controlled Substances Act (21 U.S.C. 812)).

(B) Unlawful use of a prescription drug.

(c) Notwithstanding subsection (b), this subsection applies to the

following:

- (1) A fund member who is hired after March 1, 1992.
- (2) A fund member who was admitted to the 1977 fund after having been covered by another public pension plan as a police officer or firefighter.

For a fund member who is determined by the system board to have a Class 3 excludable condition under IC 36-8-8-13.6, a covered impairment does not include an impairment that would be classified as a Class 3 impairment that begins at any time after the fund member's entry or reentry into active service with the department and is related in any manner to the Class 3 excludable condition.

(d) If the local board determines that a covered impairment exists, the chief of the police or fire department shall submit to the local board written determinations of the following:

- (1) Whether there is suitable and available work on the appropriate department for which the fund member is or may be capable of becoming qualified, considering reasonable accommodation to the extent required by the Americans with Disabilities Act.
- (2) For a fund member covered by sections 12.5 and 13.5 of this chapter, the fund member's years of service with the department.

IC 36-8-8-12.4

Election of coverage by IC 36-8-8-12.5 and IC 36-8-8-13.5

Sec. 12.4. A fund member who is hired for the first time before January 1, 1990, may choose to be covered by sections 12.5 and 13.5 of this chapter (instead of section 13.3 of this chapter) if the fund member files an election with the system board before January 1, 1991. However, an election may not be filed after the fund member has a covered impairment. An election filed under this section is irrevocable.

As added by P.L.311-1989, SEC.8. Amended by P.L.35-2012, SEC.128.

IC 36-8-8-12.5

Determination of class of impairment

Sec. 12.5. (a) This section applies only to a fund member who:

- (1) is hired for the first time after December 31, 1989;
- (2) chooses coverage by this section and section 13.5 of this chapter under section 12.4 of this chapter; or
- (3) is described in section 12.3(c)(2) of this chapter.

(b) At the same hearing where the determination of whether the fund member has a covered impairment is made, the local board shall determine the following:

- (1) Whether the fund member has a Class 1 impairment. A Class 1 impairment is a covered impairment that is the direct result of one (1) or more of the following:

- (A) A personal injury that occurs while the fund member is on duty.
 - (B) A personal injury that occurs while the fund member is off duty and is responding to:
 - (i) an offense or a reported offense, in the case of a police officer; or
 - (ii) an emergency or reported emergency for which the fund member is trained, in the case of a firefighter.
 - (C) An occupational disease (as defined in IC 22-3-7-10). A covered impairment that is included within this clause and subdivision (2) shall be considered a Class 1 impairment.
 - (D) A health condition caused by an exposure risk disease that results in a presumption of disability or death incurred in the line of duty under IC 5-10-13.
- (2) Whether the fund member has a Class 2 impairment. A Class 2 impairment is a covered impairment that is:
- (A) a duty related disease. A duty related disease means a disease arising out of the fund member's employment. A disease shall be considered to arise out of the fund member's employment if it is apparent to the rational mind, upon consideration of all of the circumstances, that:
 - (i) there is a connection between the conditions under which the fund member's duties are performed and the disease;
 - (ii) the disease can be seen to have followed as a natural incident of the fund member's duties as a result of the exposure occasioned by the nature of the fund member's duties; and
 - (iii) the disease can be traced to the fund member's employment as the proximate cause; or
 - (B) a health condition caused by:
 - (i) an exposure related heart or lung disease;
 - (ii) an exposure related cancer; or
 - (iii) exposure related Parkinson's disease;that results in a presumption of disability incurred in the line of duty under IC 5-10-15.
- (3) Whether the fund member has a Class 3 impairment. A Class 3 impairment is a covered impairment that is not a Class 1 impairment or a Class 2 impairment.

Sec. 12.7. (a) This section applies to hearings conducted by local boards concerning determinations of impairment under this chapter or of disability under IC 36-8-5-2(g), IC 36-8-6, IC 36-8-7, and IC 36-8-7.5.

(b) At least five (5) days before the hearing, the local board shall give notice to the fund member and the safety board of the time, date, and place of the hearing.

(c) The local board must hold a hearing not more than ninety (90) days after the fund member requests the hearing.

(d) At the hearing, the local board shall permit the fund member and the safety board to:

- (1) be represented by any individual;
- (2) through witnesses and documents, present evidence;
- (3) conduct cross-examination; and
- (4) present arguments.

(e) At the hearing, the local board shall require all witnesses to be examined under oath, which may be administered by a member of the local board.

(f) The local board shall, at the request of the fund member or the safety board, issue:

- (1) subpoenas;
- (2) discovery orders; and
- (3) protective orders;

in accordance with the Indiana Rules of Trial Procedure that govern discovery, depositions, and subpoenas in civil actions.

(g) The local board shall have the hearing recorded so that a transcript may be made of the proceedings.

(h) After the hearing, the local board shall make its determinations, including findings of fact, in writing and shall provide copies of its determinations to the fund member and the safety board not more than thirty (30) days after the hearing.

(i) If the local board:

- (1) does not hold a hearing within the time required under subsection (c); or
- (2) does not issue its determination within the time required under subsection (h);

the fund member shall be considered to be totally impaired for purposes of section 13.5 of this chapter and, if the issue before the local board concerns the class of the member's impairment, the member shall be considered to have a Class 1 impairment. The system board shall review an impairment determined under this subsection as provided in section 13.1 of this chapter.

(j) The local board may on its own motion issue:

- (1) subpoenas;
- (2) discovery orders; and
- (3) protective orders;

in accordance with the Indiana Rules of Trial Procedure that govern discovery, depositions, and subpoenas in civil actions.

(k) At the hearing, the local board may exclude evidence that is irrelevant, immaterial, unduly repetitious, or excludable on the basis of evidentiary privilege recognized by the courts.

(l) At the hearing, the local board may request the testimony of witnesses and the production of documents.

(m) If a subpoena or order is issued under this section, the party

seeking the subpoena or order shall serve it in accordance with the Indiana Rules of Trial Procedure. However, if the subpoena or order is on the local board's own motion, the sheriff of the county in which the subpoena or order is to be served shall serve it. A subpoena or order under this section may be enforced in the circuit or superior court of the county in which the subpoena or order is served.

(n) With respect to a hearing conducted for purposes of determining disability under IC 36-8-6, IC 36-8-7, or IC 36-8-7.5, the determination of the local board after a hearing is final and may be appealed to the court.

(o) With respect to a hearing conducted for purposes of determining impairment or class of impairment under this chapter, the fund member may appeal the local board's determinations. An appeal under this subsection:

- (1) must be made in writing;
- (2) must state the class of impairment and the degree of impairment that is claimed by the fund member;
- (3) must include a written determination by the chief of the police or fire department stating that there is no suitable and available work; and
- (4) must be filed with the local board and the system board's director no later than thirty (30) days after the date on which the fund member received a copy of the local board's determinations.

(p) To the extent required by the Americans with Disabilities Act, the transcripts, records, reports, and other materials generated as a result of a hearing, review, or appeal conducted to determine an impairment under this chapter or a disability under IC 36-8-6, IC 36-8-7, or IC 36-8-7.5 must be:

- (1) retained in the separate medical file created for the member; and
- (2) treated as a confidential medical record.

(q) If a local board determines that a fund member described in section 13.3(a) of this chapter has a covered impairment, the local board shall also make a recommendation to the system board concerning whether the covered impairment is an impairment described in section 13.3(c) of this chapter or whether it is an impairment described in section 13.3(d) of this chapter. The local board shall forward its recommendation to the system board.

(r) The system board shall review the local board's recommendation not later than forty-five (45) days after receiving the recommendation and shall then issue an initial determination of whether the disability is in the line of duty or not in the line of duty. The system board shall notify the local board, the safety board, and the fund member of its initial determination.

(s) The fund member, the safety board, or the local board may object in writing to the system board's initial determination under subsection (r) not later than fifteen (15) days after the initial determination is issued. If a written objection is not filed, the system board's initial determination becomes final. If a timely written

objection is filed, the system board shall issue a final determination after a hearing. The final determination must be issued not later than one hundred eighty (180) days after the date of receipt of the local board's recommendation.

IC 36-8-8-13.1

Submission of determination of local board and safety board to system director; medical examinations; initial determination; objections; hearing; final order; appeals

Sec. 13.1. (a) If:

- (1) the local board has determined under this chapter that a covered impairment exists and the safety board has determined that there is no suitable and available work within the department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act; or
- (2) the fund member has filed an appeal under section 12.7(o) of this chapter;

the local board shall submit the local board's determinations and the safety board's determinations to the system board's director.

(b) Whenever a fund member is determined to have an impairment under section 12.7(i) of this chapter, the system board's director shall initiate a review of the default award not later than sixty (60) days after the director learns of the default award.

(c) After the system board's director receives the determinations under subsection (a) or initiates a review under subsection (b), the fund member must submit to an examination by a medical authority selected by the system board. The authority shall determine if there is a covered impairment. With respect to a fund member who is covered by sections 12.5 and 13.5 of this chapter, the authority shall determine the degree of impairment. The system board shall adopt rules to establish impairment standards, such as the impairment standards contained in the United States Department of Veterans Affairs Schedule for Rating Disabilities. The report of the examination shall be submitted to the system board's director. If a fund member refuses to submit to an examination, the authority may find that no impairment exists.

(d) The system board's director shall review the medical authority's report and the local board's determinations and issue an initial determination within sixty (60) days after receipt of the local board's determinations. The system board's director shall notify the local board, the safety board, and the fund member of the initial determination. The following provisions apply if the system board's

director does not issue an initial determination within sixty (60) days and if the delay is not attributable to the fund member or the safety board:

- (1) In the case of a review initiated under subsection (a)(1):
 - (A) the determinations of the local board and the chief of the police or fire department are considered to be the initial determination; and
 - (B) for purposes of section 13.5(d) of this chapter, the fund member is considered to be totally impaired.
- (2) In the case of an appeal submitted under subsection (a)(2), the statements made by the fund member under section 12.7(o) of this chapter are considered to be the initial determination.
- (3) In the case of a review initiated under subsection (b), the initial determination is the impairment determined under section 12.7(i) of this chapter.

(e) The fund member, the safety board, or the local board may object in writing to the director's initial determination within fifteen (15) days after the determination is issued. If no written objection is filed, the initial determination becomes the final order of the system board. If a timely written objection is filed, the system board shall issue the final order after a hearing. Unless an administrative law judge orders a waiver or an extension of the period for cause shown, the final order shall be issued not later than one hundred eighty (180) days after the date of receipt of the local board's determination or the date the system board's director initiates a review under subsection (b). The following provisions apply if a final order is not issued within the time limit described in this subsection and if the delay is not attributable to the fund member or the chief of the police or fire department:

- (1) In the case of a review initiated under subsection (a)(1):
 - (A) the determinations of the local board and the chief of the police or fire department are considered to be the final order; and
 - (B) for purposes of section 13.5(d) of this chapter, the fund member is considered to be totally impaired.
- (2) In the case of an appeal submitted under subsection (a)(2), the statements made by the fund member under section 12.7(o) of this chapter are considered to be the final order.
- (3) In the case of a review initiated under subsection (b), the impairment determined under section 12.7(i) of this chapter is considered to be the final order.

(f) If the system board approves the director's initial determination, then the system board shall issue a final order adopting the initial determination. The local board and the chief of the police or fire department shall comply with the initial determination. If the system board does not approve the initial determination, the system board may receive additional evidence on the matter before issuing a final order.

(g) Appeals of the system board's final order may be made under IC 4-21.5.

(h) The transcripts, records, reports, and other materials compiled under this section must be retained in accordance with the procedures specified in section 12.7(p) of this chapter.

IC 36-8-8-13.3

Disability benefits

Sec. 13.3. (a) This section applies only to a fund member who:

- (1) is hired for the first time before January 1, 1990; and
- (2) does not choose coverage by sections 12.5 and 13.5 of this chapter under section 12.4 of this chapter.

This section does not apply to a fund member described in section 12.3(c)(2) of this chapter.

(b) A fund member:

- (1) who became disabled before July 1, 2000;
- (2) is determined to have a covered impairment; and
- (3) for whom it is determined that there is no suitable and available work within the fund member's department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act;

is entitled to receive during the disability a benefit equal to the benefit that the fund member would have received if the fund member had retired. If the fund member with a disability does not have at least twenty (20) years of service or is not at least fifty-two (52) years of age, the benefit is computed and paid as if the fund member had twenty (20) years of service and was fifty-two (52) years of age.

(c) Except as otherwise provided in this subsection, a fund member:

- (1) who becomes disabled after July 1, 2000;
- (2) who is determined to have a covered impairment that is:
 - (A) the direct result of:
 - (i) a personal injury that occurs while the fund member is on duty;
 - (ii) a personal injury that occurs while the fund member is off duty and is responding to an offense or a reported offense, in the case of a police officer, or an emergency or reported emergency for which the fund member is trained, in the case of a firefighter; or
 - (iii) an occupational disease (as defined in IC 22-3-7-10), including a duty related disease that is also included within clause (B);
 - (B) a duty related disease (for purposes of this section, a "duty related disease" means a disease arising out of the fund member's employment. A disease is considered to arise out of the fund member's employment if it is apparent to the rational mind, upon consideration of all of the circumstances, that:

(i) there is a connection between the conditions under which the fund member's duties are performed and the disease;

(ii) the disease can be seen to have followed as a natural incident of the fund member's duties as a result of the exposure occasioned by the nature of the fund member's duties; and

(iii) the disease can be traced to the fund member's employment as the proximate cause); or

(C) a disability presumed incurred in the line of duty under IC 5-10-13 or IC 5-10-15; and

(3) for whom it is determined that there is no suitable and available work within the fund member's department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act;

is entitled to receive during the disability a benefit equal to the benefit that the fund member would have received if the fund member had retired. If the fund member with a disability does not have at least twenty (20) years of service or is not at least fifty-two (52) years of age, the benefit is computed and paid as if the fund member had twenty (20) years of service and was fifty-two (52) years of age.

(d) Except as otherwise provided in this subsection, a fund member:

(1) who becomes disabled after July 1, 2000;

(2) who is determined to have a covered impairment that is not a covered impairment described in subsection (c)(2); and

(3) for whom it is determined that there is no suitable and available work within the fund member's department, considering reasonable accommodation to the extent required by the federal Americans with Disabilities Act;

is entitled to receive during the disability a benefit equal to the benefit that the fund member would have received if the fund member had retired. If the fund member with a disability does not have at least twenty (20) years of service or is not at least fifty-two (52) years of age, the benefit is computed and paid as if the fund member had twenty (20) years of service and was fifty-two (52) years of age.

(e) Notwithstanding section 12.3 of this chapter and any other provision of this section, a member who:

(1) has had a covered impairment;

(2) recovers and returns to active service with the department; and

(3) within two (2) years after returning to active service has an impairment that except for section 12.3 of this chapter would be a covered impairment;

is entitled to the benefit under this subsection if the impairment described in subdivision (3) results from the same condition or conditions (without an intervening circumstance) that caused the covered impairment described in subdivision (1). The member is

entitled to receive the monthly disability benefit amount paid to the member at the time of the member's return to active service plus any adjustments under section 15 of this chapter that would have been applicable during the member's period of reemployment.

IC 36-8-8-13.4

Application with local board for recommendation of line of duty disability; final determination by system board

Sec. 13.4. (a) This section applies only to a fund member or survivor of a fund member who is receiving a disability benefit under section 13.3(b) of this chapter.

(b) A fund member or survivor of a fund member described in subsection (a) may file an application, in accordance with this section, requesting a determination that:

(1) the member's covered impairment, as determined under section 13.3(b) of this chapter, was:

(A) the direct result of:

(i) a personal injury that occurred while the fund member was on duty;

(ii) a personal injury that occurred while the fund member was off duty and was responding to an offense or a reported offense, in the case of a police officer, or an emergency or reported emergency for which the fund member was trained, in the case of a firefighter; or

(iii) an occupational disease (as defined in IC 22-3-7-10), including a duty related disease that is also included within clause (B);

(B) a duty related disease, which for purposes of this section, means a disease arising out of the fund member's employment. A disease is considered to arise out of the fund member's employment if it is apparent to the rational mind, upon consideration of all of the circumstances, that:

(i) there is a connection between the conditions under which the fund member's duties are performed and the disease;

(ii) the disease can be seen to have followed as a natural incident of the fund member's duties as a result of the exposure occasioned by the nature of the fund member's duties; and

(iii) the disease can be traced to the fund member's employment as the proximate cause; or

(C) a disability presumed incurred in the line of duty under IC 5-10-13 or IC 5-10-15; or

(2) the member's covered impairment, as determined under section 13.3(b) of this chapter, was not a covered impairment described in subsection (b)(1).

The application must be filed with the local board that made the

determination of a covered impairment resulting in a disability benefit under section 13.3(b) of this chapter. The application form shall be prepared by the system board or its designee and be made available to a fund member or survivor of a fund member described in subsection (a) upon request.

(c) A fund member or survivor of a fund member who files an application under this section has the burden of presenting sufficient evidence to support a finding that the member's covered impairment, as determined under section 13.3(b) of this chapter, satisfies the standard provided in subsection (b)(1). Such evidence may include any documents, materials, or other evidence provided in connection with the original hearing and determination of a covered impairment as determined under section 13.3(b) of this chapter, including any transcript from that proceeding. A fund member or a survivor of a fund member may include with an application any additional probative evidence that is relevant to the determination under subsection (b)(1). The local board may establish reasonable procedures with respect to the application process and may engage a medical authority to provide opinions relevant to making its determination. The local board may hold a hearing with respect to an application filed under this section if the fund member or survivor of a fund member shows good cause that documents or other probative evidence sufficient to make the showing required under this subsection is not reasonably obtainable and that holding a hearing would be reasonably likely to provide such probative evidence. If the local board conducts a hearing, it shall be subject to the provisions of section 12.7 of this chapter relating to the conduct of hearings on the determinations of covered impairments under this chapter.

(d) The local board shall make its recommendation, including findings of fact, in writing and shall provide copies of its recommendation to the fund member or survivor of the fund member and the system board not later than thirty (30) days after the:

- (1) filing of the application, if no hearing is held; or
- (2) hearing, if held.

(e) If the local board does not issue its recommendation within the time required under subsection (d), the member's covered impairment shall be considered to be a covered impairment described under subsection (b)(1) for purposes of the local board's recommendation.

(f) The system board shall review the local board's recommendation, or the considered recommendation under subsection (e), not later than forty-five (45) days after receiving the recommendation and shall then issue an initial determination of whether the covered impairment is one described under subsection (b)(1). The system board shall notify the local board and the fund member or survivor of the fund member of its initial determination.

(g) The fund member or survivor of the fund member or the local board may object in writing to the system board's initial determination under subsection (f) not later than fifteen (15) days after the initial determination is issued by filing an objection with the system board. If a written objection is not filed, the system board's

initial determination becomes final. If a timely written objection is filed, the system board shall issue a final determination after a hearing. Unless an administrative law judge orders a waiver or an extension of the period for cause shown, the final determination must be issued not later than one hundred eighty (180) days after the date of receipt of the local board's recommendation.

(h) If the system board fails to issue an initial determination within forty-five (45) days after receiving the local board's recommendation, the default determination on whether the covered impairment is one described under subsection (b)(1) will be the determination made by the system board's medical authority. An objection to this determination may be filed in accordance with the provisions of subsection (g).

(i) A determination that a member's covered impairment is one described under subsection (b)(1) will apply only on a prospective basis beginning on January 1 of the calendar year in which the determination is made. The amount of the benefit will not be changed as a result of this determination.

(j) A fund member or survivor of a fund member described in subsection (a) must file an application under this section no later than two (2) years after the date the system board notifies the fund members and survivors described in subsection (a) that the board has received a favorable ruling from the Internal Revenue Service. The system board will provide notice of receipt of a favorable ruling within thirty (30) days of its receipt.

(k) This section expires July 1, 2021.

(c) A fund member who is determined to have a Class 2 impairment and for whom it is determined that there is no suitable and available work within the fund member's department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act, is entitled to a monthly base benefit

equal to twenty-two percent (22%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment plus one-half percent (0.5%) of that salary for each year of service, up to a maximum of thirty (30) years of service.

(d) For applicants hired before March 2, 1992, a fund member who is determined to have a Class 3 impairment and for whom it is determined that there is no suitable and available work within the fund member's department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act, is entitled to a monthly base benefit equal to the product of the member's years of service (not to exceed thirty (30) years of service) multiplied by one percent (1%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment.

(e) For applicants hired after March 1, 1992, or described in section 12.3(c)(2) of this chapter, a fund member who is determined to have a Class 3 impairment and for whom it is determined that there is no suitable and available work within the fund member's department, considering reasonable accommodation to the extent required by the Americans with Disabilities Act, is entitled to the following benefits instead of benefits provided under subsection (d):

(1) If the fund member did not have a Class 3 excludable condition under section 13.6 of this chapter at the time the fund member entered or reentered the fund, the fund member is entitled to a monthly base benefit equal to the product of the member's years of service, not to exceed thirty (30) years of service, multiplied by one percent (1%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment.

(2) Except as provided in subdivision (5), a fund member is entitled to receive the benefits set forth in subdivision (1) if:

(A) the fund member had a Class 3 excludable condition under section 13.6 of this chapter at the time the fund member entered or reentered the fund;

(B) the fund member has a Class 3 impairment that is not related in any manner to the Class 3 excludable condition described in clause (A); and

(C) the Class 3 impairment described in clause (B) occurs after the fund member has completed four (4) years of service with the employer after the date the fund member entered or reentered the fund.

(3) Except as provided in subdivision (5), a fund member is not entitled to a monthly base benefit for a Class 3 impairment if:

(A) the fund member had a Class 3 excludable condition under section 13.6 of this chapter at the time the fund member entered or reentered the fund; and

(B) the Class 3 impairment occurs before the fund member has completed four (4) years of service with the employer after the date the fund member entered or reentered the fund.

(4) A fund member is not entitled to a monthly base benefit for a Class 3 impairment if:

(5) If, during the first four (4) years of service with the employer:

(A) a fund member with a Class 3 excludable condition is determined to have a Class 3 impairment; and

(B) the Class 3 impairment is attributable to an accidental injury that is not related in any manner to the fund member's Class 3 excludable condition;

the member is entitled to receive the benefits provided in subdivision (1) with respect to the accidental injury. For purposes of this subdivision, the local board shall make the initial determination of whether an impairment is attributable to an accidental injury. The local board shall forward the initial determination to the director of the system board for a final determination by the system board or the system board's designee.

(f) If a fund member is entitled to a monthly base benefit under subsection (b), (c), (d), or (e), the fund member is also entitled to a monthly amount that is no less than ten percent (10%) and no greater than forty-five percent (45%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment. The additional monthly amount shall be determined by the Indiana public retirement system medical authority based on the degree of impairment.

(g) Benefits for a Class 1 impairment as determined under this section are payable for the remainder of the fund member's life.

(h) Benefits for a Class 2 impairment are payable:

(1) for a period equal to the years of service of the member, if the member's total disability benefit is less than thirty percent (30%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment and the member has fewer than four (4) years of service; or

(2) for the remainder of the fund member's life if the fund member's benefit is:

(A) equal to or greater than thirty percent (30%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment; or

(B) less than thirty percent (30%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment if the member has at least four (4) years of service.

(i) Benefits for a Class 3 impairment are payable:

(1) for a period equal to the years of service of the member, if

the member's total disability benefit is less than thirty percent (30%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment and the member has fewer than four (4) years of service; or

(2) until the member becomes fifty-two (52) years of age if the member's benefit is:

(A) equal to or greater than thirty percent (30%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment; or

(B) less than thirty percent (30%) of the monthly salary of a first class patrolman or firefighter in the year of the local board's determination of impairment if the member has at least four (4) years of service.

(j) Upon becoming fifty-two (52) years of age, a fund member with a Class 2 impairment determined under subsection (h)(1) is entitled to receive the retirement benefit payable to a fund member with:

(1) twenty (20) years of service; or

(2) the total years of service (including both active service and the period, not to exceed twenty (20) years, during which the member received disability benefits) and salary, as of the year the member becomes fifty-two (52) years of age, that the fund member would have earned if the fund member had remained in active service until becoming fifty-two (52) years of age;

whichever is greater.

(k) Upon becoming fifty-two (52) years of age, a fund member who is receiving or has received a Class 3 impairment benefit that is:

is entitled to receive the retirement benefit payable to a fund member with twenty (20) years of service.

(l) Notwithstanding section 12.3 of this chapter and any other provision of this section, a member who:

(1) has had a covered impairment;

(2) recovers and returns to active service with the department; and

(3) within two (2) years after returning to active service has an impairment that, except for section 12.3(b)(3) of this chapter, would be a covered impairment;

is entitled to the benefit under this subsection if the impairment described in subdivision (3) results from the same condition or conditions (without an intervening circumstance) that caused the covered impairment described in subdivision (1). The member is entitled to receive the monthly disability benefit amount paid to the

member at the time of the member's return to active service plus any adjustments under section 15 of this chapter that would have been applicable during the member's period of reemployment.

Members dying other than in line of duty after August 31, 1982

Sec. 13.8. (a) This section applies to an active or retired member who dies other than in the line of duty (as defined in section 14.1 of

this chapter) after August 31, 1982.

(b) If a fund member dies while receiving retirement or disability benefits, the following apply:

(1) Except as otherwise provided in this subsection, each of the member's surviving children is entitled to a monthly benefit equal to twenty percent (20%) of the fund member's monthly benefit:

(A) until the child becomes eighteen (18) years of age; or

(B) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;

whichever period is longer. However, if the board finds upon the submission of satisfactory proof that a child who is at least eighteen (18) years of age is mentally or physically incapacitated, is not a ward of the state, and is not receiving a benefit under clause (B), the child is entitled to receive an amount each month that is equal to the greater of thirty percent (30%) of the monthly pay of a first class patrolman or first class firefighter or fifty-five percent (55%) of the monthly benefit the deceased member was receiving or was entitled to receive on the date of the member's death as long as the mental or physical incapacity of the child continues. Benefits paid for a child shall be paid to the surviving parent as long as the child resides with and is supported by the surviving parent. If the surviving parent dies, the benefits shall be paid to the legal guardian of the child.

(2) The member's surviving spouse is entitled to a monthly benefit equal to sixty percent (60%) of the fund member's monthly benefit during the spouse's lifetime. If the spouse remarried before September 1, 1983, and benefits ceased on the date of remarriage, the benefits for the surviving spouse shall be reinstated on July 1, 1997, and continue during the life of the surviving spouse.

If a fund member dies while receiving retirement or disability benefits, there is no surviving eligible child or spouse, and there is proof satisfactory to the local board, subject to review in the manner specified in section 13.1(c) of this chapter, that the parent was wholly dependent on the fund member, the member's surviving parent is entitled, or both surviving parents if qualified are entitled jointly, to receive fifty percent (50%) of the fund member's monthly benefit during the parent's or parents' lifetime. As used in this subsection, a parent is wholly dependent on a fund member if the fund member claimed the parent as a dependent on the federal income tax return filed by the fund member in the year before the year in which the fund member died.

(c) Except as otherwise provided in this subsection, if a fund member dies while on active duty or while retired and not receiving benefits, the member's children and the member's spouse, or the member's parent or parents are entitled to receive a monthly benefit determined under subsection (b). If the fund member did not have at

least twenty (20) years of service or was not at least fifty-two (52) years of age, the benefit is computed as if the member:

- (1) did have twenty (20) years of service; and
- (2) was fifty-two (52) years of age.

Members dying in line of duty before September 1, 1982

Sec. 13.9. (a) This section applies to an active member who died in the line of duty (as defined in section 14.1 of this chapter) before September 1, 1982.

(b) Except as otherwise provided in this subsection, if a fund member dies in the line of duty, the following apply:

- (1) Each of the member's surviving children is entitled to a monthly benefit equal to twenty percent (20%) of the fund member's monthly benefit:

- (A) until the child becomes eighteen (18) years of age; or
- (B) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;

whichever period is longer. However, if the board finds upon the submission of satisfactory proof that a child who is at least eighteen (18) years of age is mentally or physically incapacitated, is not a ward of the state, and is not receiving a benefit under clause (B), the child is entitled to receive an amount each month that is equal to the greater of thirty percent (30%) of the monthly pay of a first class patrolman or first class firefighter or fifty-five percent (55%) of the monthly benefit the deceased member was receiving or was entitled to receive on the date of the member's death as long as the mental or physical incapacity of the child continues. Benefits paid for a child shall be paid to the surviving parent as long as the child resides with and is supported by the surviving parent. If the surviving parent dies, the benefits shall be paid to the legal guardian of the child.

- (2) The member's surviving spouse is entitled to a monthly benefit equal to sixty percent (60%) of the fund member's monthly benefit during the spouse's lifetime. If the spouse remarried before September 1, 1983, and benefits ceased on the date of remarriage, the benefits for the surviving spouse shall be reinstated on July 1, 1997, and continue during the life of the surviving spouse.

If there is no surviving eligible child or spouse, and there is proof satisfactory to the local board, subject to review in the manner specified in section 13.1(c) of this chapter, that the parent was wholly dependent on the fund member, the member's surviving parent is entitled, or both surviving parents if qualified are entitled jointly, to receive fifty percent (50%) of the fund member's monthly benefit during the parent's or parents' lifetime. As used in this

subsection, a parent is wholly dependent on a fund member if the fund member claimed the parent as a dependent on the federal income tax return filed by the fund member in the year before the year in which the fund member died.

(c) If the fund member did not have at least twenty (20) years of service or was not at least fifty-two (52) years of age, the benefit under subsection (b) is computed as if the member:

- (1) did have twenty (20) years of service; and
- (2) was fifty-two (52) years of age.

(d) The unit of local government that employed the deceased member shall after December 31, 2003, offer to provide and pay for health insurance coverage for the member's surviving spouse and for each natural child, stepchild, or adopted child of the member:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university; or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. If health insurance coverage is offered by the unit to active members, the health insurance provided to a surviving spouse and child under this subsection must be equal in coverage to that offered to active members. The offer to provide and pay for health insurance coverage shall remain open for as long as there is a surviving spouse or as long as a natural child, stepchild, or adopted child of the member is eligible for coverage under subdivision (1), (2), or (3).

(c) If a fund member dies in the line of duty after August 31, 1982, the member's surviving spouse is entitled to a monthly benefit during the spouse's lifetime, equal to the benefit to which the member would have been entitled on the date of the member's death, but not less than the benefit payable to a member with twenty (20) years service at fifty-two (52) years of age. If the spouse remarried before September 1, 1983, and benefits ceased on the date of remarriage, the benefits for the surviving spouse shall be reinstated

on July 1, 1997, and continue during the life of the surviving spouse.

(d) If a fund member dies in the line of duty, each of the member's surviving children is entitled to a monthly benefit equal to twenty percent (20%) of the fund member's monthly benefit:

Benefits paid for a child shall be paid to the surviving parent as long as the child resides with and is supported by the surviving parent. If the surviving parent dies, the benefits shall be paid to the legal guardian of the child.

(f) If the fund member did not have at least twenty (20) years of service or was not at least fifty-two (52) years old, the benefit is computed as if the member:

- (1) did have twenty (20) years of service; and
- (2) was fifty-two (52) years of age.

(g) For purposes of this section, "dies in the line of duty" means death that occurs as a direct result of personal injury or illness caused by incident, accident, or violence that results from:

- (1) any action that the member, in the member's capacity as a police officer:
 - (A) is obligated or authorized by rule, regulation, condition of employment or service, or law to perform; or
 - (B) performs in the course of controlling or reducing crime or enforcing the criminal law; or
- (2) any action that the member, in the member's capacity as a firefighter:

(h) The unit of local government that employed the deceased member shall after December 31, 2003, offer to provide and pay for health insurance coverage for the member's surviving spouse and for each natural child, stepchild, or adopted child of the member:

- (1) until the child becomes eighteen (18) years of age;
- (2) until the child becomes twenty-three (23) years of age if the child is enrolled in and regularly attending a secondary school or is a full-time student at an accredited college or university;
- or
- (3) during the entire period of the child's physical or mental disability;

whichever period is longest. If health insurance coverage is offered by the unit to active members, the health insurance provided to a surviving spouse and child under this subsection must be equal in coverage to that offered to active members. The offer to provide and pay for health insurance coverage shall remain open for as long as there is a surviving spouse or as long as a natural child, stepchild, or adopted child of the member is eligible for coverage under subdivision (1), (2), or (3).

Cost of living adjustment

Sec. 15. Each year the system board shall determine if there has been an increase or decrease in the consumer price index (United States city average) prepared by the United States Department of Labor by comparing the arithmetic mean of the consumer price index for January, February, and March of that year with the arithmetic mean for the same three (3) months of the preceding year. If there has been an increase, or a decrease, it shall be stated as a percentage of the arithmetic mean for the preceding three (3) month period. The percentage shall be rounded to the nearest one-tenth of one percent (0.1%) and may not exceed three percent (3%). If there is a percentage increase of the arithmetic mean for the preceding three (3) month period, a fund member's or survivor's monthly benefit, beginning with the July payment, shall be increased by an amount equal to the June payment times the percentage increase. However, a fund member's or survivor's monthly benefit may not be increased under this section until July of the year following the year of the first

monthly benefit payment to the fund member or survivor. In computing a fund member's benefit, the increase is based only on those years for which the fund member was eligible for benefit payments under this chapter. A monthly benefit may not be reduced if there is a percentage decrease of the arithmetic mean for the preceding three (3) month period.

(b) If a unit becomes a participant in the 1977 fund under section 3(c) of this chapter, or if a firefighter becomes a member of the 1977 fund under section 7(g) of this chapter, credit for prior service before the date of participation or membership shall be given by the system board as follows:

- (1) For a member who will accrue twenty (20) years of service credit in the 1977 fund by the time the member reaches the earliest retirement age under the fund at the time of the

member's date of participation in the 1977 fund, the member will be given credit in the 1977 fund for one-third (1/3) of the member's years of participation in PERF as a police officer, a firefighter, or an emergency medical technician.

(2) For a member who will not accrue twenty (20) years of service credit in the 1977 fund by the time the member reaches the earliest retirement age under the fund at the time of the member's date of participation in the 1977 fund, such prior service shall be given only if:

(A) The unit contributes to the 1977 fund the amount necessary to fund prior service liability amortized over a period of not more than ten (10) years. The amount of contributions must be based on the actual salary earned by a first class firefighter at the time the unit becomes a participant in the 1977 fund, or the firefighter becomes a member of the 1977 fund, or if no such salary designation exists, the actual salary earned by the firefighter. The limit on credit for prior service does not apply if the firefighter was a member of the 1937 fund or 1977 fund whose participation was terminated due to the creation of a new fire protection district under IC 36-8-11-5 and who subsequently became a member of the 1977 fund. A firefighter who was a member of or reentered the 1937 fund or 1977 fund whose participation was terminated due to the creation of a new fire protection district under IC 36-8-11-5 is entitled to full credit for prior service in an amount equal to the firefighter's years of service before becoming a member of or reentering the 1977 fund. Service may only be credited for time as a full-time, fully paid firefighter or as an emergency medical technician under section 7(g) of this chapter.

(B) The amount the firefighter would have contributed if the firefighter had been a member of the 1977 fund during the firefighter's prior service must be fully paid and must be based on the firefighter's actual salary earned during that period before service can be credited under this section.

(C) Any amortization schedule for contributions paid under clause (A) and contributions to be paid under clause (B) must include interest at a rate determined by the system board.

(3) If, at the time a unit entered the 1977 fund, the unit contributed the amount required by subdivision (2) so that a fund member received the maximum prior service credit allowed by subdivision (2) and, at a later date, the earliest retirement age was lowered, the unit may contribute to the 1977 fund on the fund member's behalf an additional amount that is determined in the same manner as under subdivision (2) with respect to the additional prior service, if any, available as a result of the lower retirement age. If the unit pays the additional amount described in this subdivision in accordance with the requirements of subdivision (2), the fund member shall receive

the additional service credit necessary for the fund member to retire at the lower earliest retirement age.

(c) This subsection applies to a unit that:

- (1) becomes a participant in the 1977 fund under section 3(c) of this chapter; and
- (2) is a fire protection district created under IC 36-8-11 that includes a township or a municipality that had a 1937 fund.

A firefighter who continues uninterrupted service with a unit covered by this subsection and who participated in the township or municipality 1937 fund is entitled to receive service credit for such service in the 1977 fund. However, credit for such service is limited to the amount accrued by the firefighter in the 1937 fund or the amount necessary to allow the firefighter to accrue twenty (20) years of service credit in the 1977 fund by the time the firefighter becomes fifty-two (52) years of age, whichever is less.

(d) The unit shall contribute into the 1977 fund the amount necessary to fund the amount of past service determined in accordance with subsection (c), amortized over a period not to exceed ten (10) years with interest at a rate determined by the system board.

(e) If the township or municipality has accumulated money in its 1937 fund, any amount accumulated that exceeds the present value of all projected future benefits from the 1937 plan shall be paid by the township or municipality to the unit for the sole purpose of making the contributions determined in subsection (d).

(f) To the extent permitted by the Internal Revenue Code and the applicable regulations, the 1977 fund may accept, on behalf of a fund member who is purchasing permissive service credit under this chapter, a rollover of a distribution from any of the following:

- (1) A qualified plan described in Section 401(a) or Section 403(a) of the Internal Revenue Code.
- (2) An annuity contract or account described in Section 403(b) of the Internal Revenue Code.
- (3) An eligible plan that is maintained by a state, a political subdivision of a state, or an agency or instrumentality of a state or political subdivision of a state under Section 457(b) of the Internal Revenue Code.
- (4) An individual retirement account or annuity described in Section 408(a) or Section 408(b) of the Internal Revenue Code.

(g) To the extent permitted by the Internal Revenue Code and the applicable regulations, the 1977 fund may accept, on behalf of a fund member who is purchasing permissive service credit under this chapter, a trustee to trustee transfer from any of the following:

- (1) An annuity contract or account described in Section 403(b) of the Internal Revenue Code.
- (2) An eligible deferred compensation plan under Section 457(b) of the Internal Revenue Code.

1977 fund participants previously covered in PERF or firefighters participating in 1977 fund; minimum benefit; transfer of contributions; reduction of contributions; credit for prior service

Sec. 18.1. (a) As used in this section, "police officer" includes a former full-time, fully paid town marshal or full-time, fully paid deputy town marshal who is employed as a police officer by a metropolitan board of police commissioners.

(b) If a unit becomes a participant in the 1977 fund and the unit previously covered police officers, firefighters, or emergency medical technicians in PERF, or if the employees of the unit become members of the 1977 fund under section 7(g) of this chapter, the following provisions apply:

(1) A minimum benefit applies to members electing to transfer or being transferred to the 1977 fund from PERF. The minimum benefit, payable at age fifty-two (52), for such a member equals the actuarial equivalent of the vested retirement benefit payable to the member upon normal retirement under IC 5-10.2-4-1 as of the day before the transfer, based solely on:

(A) creditable service;

(B) the average of the annual compensation; and

(C) the amount credited to the annuity savings account; of the transferring member as of the day before the transfer under IC 5-10.2 and IC 5-10.3.

(2) The system board shall transfer from PERF to the 1977 fund the amount credited to the annuity savings accounts and the present value of the retirement benefits payable at age sixty-five (65) attributable to the transferring members.

(3) The amount the unit and the member must contribute to the 1977 fund under section 18 of this chapter, if any service credit is to be given under that section, will be reduced by the amounts transferred to the 1977 fund by the system board under subdivision (2).

(4) Credit for prior service in PERF of a member as a police officer, a firefighter, or an emergency medical technician is waived in PERF. Any credit for that service under the 1977 fund shall only be given in accordance with section 18 of this chapter.

(5) Credit for prior service in PERF of a member, other than as a police officer, a firefighter, or an emergency medical technician, remains in PERF and may not be credited under the 1977 fund.

The baseline statewide physical examination shall be administered by a licensed physician and must include all of the following:

- (1) A general medical history.
- (2) The tests identified in rules that shall be adopted by the system board.

(b) The system board shall adopt minimum standards by rule that a police officer or firefighter must meet for the baseline statewide physical examination described in subsection (a). The baseline statewide physical examination and related standards must:

- (1) reflect the essential functions of the job;
- (2) be consistent with business necessity; and
- (3) be evaluated by the system board one (1) time before January 1, 2015, and every five (5) years thereafter.

(c) The system board shall, in consultation with the commissioner of mental health, select the baseline statewide mental examination described in section 7(a) of this chapter. The standards for passing the baseline statewide mental examination shall be determined by the local board. The baseline statewide mental examination and related standards must:

- (2) be consistent with business necessity; and
- (3) be evaluated by the system board one (1) time before January 1, 2015, and every five (5) years thereafter.

The purpose of the baseline statewide mental examination is to determine if the police officer or firefighter is mentally suitable to be a member of the department. The local board may designate a community mental health center or a managed care provider (as defined in IC 12-7-2-127(b)), a hospital, a licensed physician, or a licensed psychologist to administer the examination. However, the results of a baseline statewide mental examination shall be interpreted by a licensed physician or a licensed psychologist.

(d) The employer shall pay for no less than one-half (1/2) the cost of the examinations.

(e) Each local board shall name the physicians who will conduct the examinations under this section.

(f) If a local board determines that a candidate passes the local physical and mental standards, if any, established under IC 36-8-3.2-6, the baseline statewide physical examination described in subsection (a), and the baseline statewide mental examination described in subsection (c), the local board shall send the following to the Indiana public retirement system:

A county police officer appointed under this subsection must have served as a county police officer in the county police department for at least five (5) years before the appointment. A county police officer retains the rank, grade, or position awarded under subsection (b) while serving in a temporary administrative rank or position. IC 36-8-10-10.6**Special deputies with powers of law enforcement officer; appointment; qualifications; duties**

Sec. 10.6. (a) The sheriff may appoint as a special deputy any person who is employed by a governmental entity as defined in IC 35-31.5-2-144 or private employer, the nature of which employment necessitates that the person have the powers of a law enforcement officer. During the term of the special deputy's appointment and while the special deputy is fulfilling the specific responsibilities for which the appointment is made, a special deputy has the powers, privileges, and duties of a county police officer under this chapter, subject to any written limitations and specific requirements imposed by the sheriff and signed by the special deputy. A special deputy is subject to the direction of the sheriff and shall obey the rules and orders of the department. A special deputy may be removed by the sheriff at any time, without notice and without assigning any cause.

(b) The sheriff shall fix the prerequisites of training, education, and experience for special deputies, subject to the minimum requirements prescribed by this subsection. Applicants must:

(1) has successfully completed the minimum basic training requirements under IC 5-2-1;

(2) is periodically assigned by the sheriff to duties of a regular county police officer; and

The sheriff may revoke permission for the special deputy to wear the uniform of the regular county police force at any time without cause or notice.

Police officers; discipline and removal; hearings; notice; appeal; specific findings; final judgment; venue

Sec. 11. (a) The sheriff may dismiss, demote, or temporarily suspend a county police officer for cause after preferring charges in writing and after a fair public hearing before the board, which is reviewable in the circuit court. Written notice of the charges and hearing must be delivered by certified mail to the officer to be disciplined at least fourteen (14) days before the date set for the hearing. The officer may be represented by counsel. The board shall make specific findings of fact in writing to support its decision.

(b) The sheriff may temporarily suspend an officer with or without pay for a period not exceeding fifteen (15) days, without a hearing before the board, after preferring charges of misconduct in

writing delivered to the officer.

(c) A county police officer may not be dismissed, demoted, or temporarily suspended because of political affiliation nor after the officer's probationary period, except as provided in this section. Subject to IC 3-5-9, an officer may:

- (1) be a candidate for elective office and serve in that office if elected;
- (2) be appointed to an office and serve in that office if appointed; and
- (3) except when in uniform or on duty, solicit votes or campaign funds for the officer or others.

(d) The board has subpoena powers enforceable by the circuit court for hearings under this section. An officer on probation may be dismissed by the sheriff without a right to a hearing.

(e) An appeal under subsection (a) must be taken by filing in court, within thirty (30) days after the date the decision is rendered, a verified complaint stating in a concise manner the general nature of the charges against the officer, the decision of the board, and a demand for the relief asserted by the officer. A bond must also be filed that guarantees the appeal will be prosecuted to a final determination and that the plaintiff will pay all costs only if the court finds that the board's decision should be affirmed. The bond must be approved as bonds for costs are approved in other cases. The county must be named as the sole defendant and the plaintiff shall have a summons issued as in other cases against the county. Neither the board nor the members of it may be made parties defendant to the complaint, but all are bound by service upon the county and the judgment rendered by the court.

(f) All appeals shall be tried by the court. The appeal shall be heard de novo only upon any new issues related to the charges upon which the decision of the board was made. Within ten (10) days after the service of summons, the board shall file in court a complete written transcript of all papers, entries, and other parts of the record relating to the particular case. Inspection of these documents by the person affected, or by the person's agent, must be permitted by the board before the appeal is filed, if requested. The court shall review the record and decision of the board on appeal.

(g) The court shall make specific findings and state the conclusions of law upon which its decision is made. If the court finds that the decision of the board appealed from should in all things be affirmed, its judgment should so state. If the court finds that the decision of the board appealed from should not be affirmed in all things, then the court shall make a general finding, setting out sufficient facts to show the nature of the proceeding and the court's decision on it. The court shall either:

- (1) reverse the decision of the board; or
- (2) order the decision of the board to be modified.

(h) The final judgment of the court may be appealed by either party. Upon the final disposition of the appeal by the courts, the clerk shall certify and file a copy of the final judgment of the court to the

board, which shall conform its decisions and records to the order and judgment of the court. If the decision is reversed or modified, then the board shall pay to the party entitled to it any salary or wages withheld from the party pending the appeal and to which the party is entitled under the judgment of the court.

(i) Either party shall be allowed a change of venue from the court or a change of judge in the same manner as such changes are allowed in civil cases. The rules of trial procedure govern in all matters of procedure upon the appeal that are not otherwise provided for by this section.

(j) An appeal takes precedence over other pending litigation and shall be tried and determined by the court as soon as practical.

Reinstatement following layoffs

Sec. 11.1. (a) As used in this section, "appointing authority" means the sheriff and the board.

(b) If it is necessary for the appointing authority to reduce the number of members of the department by layoff for financial reasons, the last member appointed to the department must be the first to be laid off. Additional members must be laid off in reverse hiring order until the desired level of employment is achieved.

(c) If department membership is increased, the members of the department who have been laid off under this section must be reinstated before any new member is appointed to the department. The last member to be laid off from the department must be the first to be reinstated. Additional members must be reinstated in reverse of the order in which the members were laid off.

(d) A member who is laid off shall keep the appointing authority advised of the member's current address. The appointing authority shall inform a member of the member's reinstatement by written notice sent by certified mail to the member's last known address.

(e) Not later than twenty (20) calendar days after the date notice of reinstatement is sent under subsection (d), the member must advise the appointing authority whether the member:

- (1) accepts reinstatement; and
- (2) will be able to commence employment on the date specified in the notice.

(f) All reinstatement rights granted to a member under this section terminate on the earlier of:

- (1) the date the member fails to accept reinstatement within the time specified in subsection (e); or
- (2) five (5) years after the date on which a member's layoff begins.

while the employee is on duty.

(c) Expenditures required by subsection (b) shall be paid from the general fund of the county.

IC 36-8-10-12

Pension trust

Sec. 12. (a) The department and a trustee may establish and operate an actuarially sound pension trust as a retirement plan for the exclusive benefit of the employee beneficiaries. However, a department and a trustee may not establish or modify a retirement plan after June 30, 1989, without the approval of the county fiscal body which shall not reduce or diminish any benefits of the employee beneficiaries set forth in any retirement plan that was in effect on January 1, 1989.

(b) The normal retirement age may be earlier but not later than the age of seventy (70). However, the sheriff may retire an employee who is otherwise eligible for retirement if the board finds that the employee is not physically or mentally capable of performing the employee's duties.

(c) Joint contributions shall be made to the trust fund:

- (1) either by:

- (A) the department through a general appropriation provided to the department;
- (B) a line item appropriation directly to the trust fund; or
- (C) both; and

(2) by an employee beneficiary through authorized monthly deductions from the employee beneficiary's salary or wages. However, the employer may pay all or a part of the contribution for the employee beneficiary.

Contributions through an appropriation are not required for plans established or modifications adopted after June 30, 1989, unless the establishment or modification is approved by the county fiscal body.

(d) For a county not having a consolidated city, the monthly deductions from an employee beneficiary's wages for the trust fund may not exceed six percent (6%) of the employee beneficiary's average monthly wages. For a county having a consolidated city, the monthly deductions from an employee beneficiary's wages for the trust fund may not exceed seven percent (7%) of the employee beneficiary's average monthly wages.

(e) The minimum annual contribution by the department must be sufficient, as determined by the pension engineers, to prevent deterioration in the actuarial status of the trust fund during that year. If the department fails to make minimum contributions for three (3) successive years, the pension trust terminates and the trust fund shall be liquidated.

(f) If during liquidation all expenses of the pension trust are paid, adequate provision must be made for continuing pension payments to retired persons. Each employee beneficiary is entitled to receive the net amount paid into the trust fund from the employee beneficiary's wages, and any remaining sum shall be equitably divided among employee beneficiaries in proportion to the net amount paid from their wages into the trust fund.

(g) If a person ceases to be an employee beneficiary because of death, disability, unemployment, retirement, or other reason, the person, the person's beneficiary, or the person's estate is entitled to receive at least the net amount paid into the trust fund from the person's wages, either in a lump sum or monthly installments not less than the person's pension amount.

(h) If an employee beneficiary is retired for old age, the employee beneficiary is entitled to receive a monthly income in the proper amount of the employee beneficiary's pension during the employee beneficiary's lifetime.

(i) To be entitled to the full amount of the employee beneficiary's pension classification, an employee beneficiary must have contributed at least twenty (20) years of service to the department before retirement. Otherwise, the employee beneficiary is entitled to receive a pension proportional to the length of the employee beneficiary's service.

(j) This subsection does not apply to a county that adopts an ordinance under section 12.1 of this chapter. For an employee beneficiary who retires before January 1, 1985, a monthly pension may not exceed by more than twenty dollars (\$20) one-half (1/2) the amount of the average monthly wage received during the highest paid five (5) years before retirement. However, in counties where the fiscal body approves the increases, the maximum monthly pension for an employee beneficiary who retires after December 31, 1984, may be increased by no more or no less than two percent (2%) of that average monthly wage for each year of service over twenty (20) years to a maximum of seventy-four percent (74%) of that average

monthly wage plus twenty dollars (\$20). For the purposes of determining the amount of an increase in the maximum monthly pension approved by the fiscal body for an employee beneficiary who retires after December 31, 1984, the fiscal body may determine that the employee beneficiary's years of service include the years of service with the sheriff's department that occurred before the effective date of the pension trust. For an employee beneficiary who retires after June 30, 1996, the average monthly wage used to determine the employee beneficiary's pension benefits may not exceed the monthly minimum salary that a full-time prosecuting attorney was entitled to be paid by the state at the time the employee beneficiary retires.

(k) The trust fund may not be commingled with other funds, except as provided in this chapter, and may be invested only in accordance with statutes for investment of trust funds, including other investments that are specifically designated in the trust agreement.

(l) The trustee receives and holds as trustee all money paid to it as trustee by the department, the employee beneficiaries, or by other persons for the uses stated in the trust agreement.

(m) The trustee shall engage pension engineers to supervise and assist in the technical operation of the pension trust in order that there is no deterioration in the actuarial status of the plan.

(n) Within ninety (90) days after the close of each fiscal year, the trustee, with the aid of the pension engineers, shall prepare and file an annual report with the department. The report must include the following:

- (1) Schedule 1. Receipts and disbursements.
- (2) Schedule 2. Assets of the pension trust listing investments by book value and current market value as of the end of the fiscal year.
- (3) Schedule 3. List of terminations, showing the cause and amount of refund.
- (4) Schedule 4. The application of actuarially computed "reserve factors" to the payroll data properly classified for the purpose of computing the reserve liability of the trust fund as of the end of the fiscal year.
- (5) Schedule 5. The application of actuarially computed "current liability factors" to the payroll data properly classified for the purpose of computing the liability of the trust fund as of the end of the fiscal year.

(o) No part of the corpus or income of the trust fund may be used or diverted to any purpose other than the exclusive benefit of the members and the beneficiaries of the members.

- (1) retires after June 30, 1997; and
- (2) served in a county that has adopted an ordinance stating that the maximum monthly pension for an employee beneficiary who retires after June 30, 1997, shall be determined under this section instead of section 12(j) of this chapter.

(b) As used in this section, "average monthly wage" means the lesser of:

- (1) the average monthly wage received by the employee beneficiary during the highest paid three (3) years before retirement; or
- (2) the monthly minimum salary that a full-time prosecuting attorney is entitled to be paid by the state at the time the employee beneficiary retires.

(c) Except as provided in subsection (d), an employee beneficiary's monthly pension may not exceed twenty dollars (\$20) plus one-half (1/2) the amount of the average monthly wage.

(d) The fiscal body of a county may approve an increase in the maximum monthly pension for an employee beneficiary. The maximum monthly pension may:

- (1) be increased by one percent (1%) of the average monthly wage for each six (6) months of service after twenty (20) years; and
- (2) not exceed seventy-four percent (74%) of the average monthly wage plus twenty dollars (\$20).

IC 36-8-10-12.2

Deferred retirement option plan (DROP)

Sec. 12.2. (a) This section applies to a county that adopts a deferred retirement option plan as part of its retirement plan under this chapter.

(b) As used in this section, "DROP" refers to a deferred retirement option plan established under this section.

(c) As used in this section, "DROP frozen benefit" refers to a monthly pension benefit calculated under the provisions of a retirement plan established under this chapter based on the employee beneficiary's:

- (1) salary; and
- (2) years of service;

on the date the employee beneficiary enters the DROP.

(d) As used in this section, "maximum years of service" refers to the maximum number of years of service included in the monthly pension benefit calculation under a department's retirement plan.

(e) An employee beneficiary who:

- (1) is not yet credited with the maximum number of years of service; and

(2) is eligible to receive an unreduced benefit immediately upon termination of employment;
may elect to enter a DROP. The employee beneficiary's election is irrevocable.

(f) The employee beneficiary exits a DROP on the earliest of the following:

- (1) The date that the employee beneficiary is credited with the maximum years of service under the retirement plan.
- (2) The employee beneficiary's retirement date.
- (3) The date any required benefit begins.

(g) The retirement benefit paid to the employee beneficiary who participated in a DROP consists of:

- (1) the DROP frozen benefit; plus
- (2) an additional amount, paid as the employee beneficiary elects under subsection (h), determined in STEP THREE of the following formula:

STEP ONE: Multiply:

- (A) the DROP frozen benefit; by
- (B) the number of months the employee beneficiary participated in the DROP.

STEP TWO: Multiply the product determined in STEP ONE by an interest rate that does not exceed three percent (3%) annually.

STEP THREE: Add the product determined under STEP ONE and the product determined under STEP TWO.

(h) The employee beneficiary shall elect, at the employee beneficiary's retirement, to receive the additional amount calculated under subsection (g)(2) in one (1) of the following ways:

- (1) A lump sum.
- (2) An actuarially equivalent increase in the monthly pension benefit payable to the employee beneficiary.
- (3) A combination of (1) and (2).

(i) The cost of living payment determined under section 23 of this chapter does not apply to the additional amount calculated under subsection (g)(2). No cost of living payment is applied to a DROP frozen benefit while the employee beneficiary is participating in a DROP.

(j) If an employee beneficiary becomes disabled:

- (1) in the line of duty; or
- (2) other than in the line of duty;

benefits for the employee beneficiary are calculated as if the employee beneficiary had never entered the DROP.

(k) Except as provided in subsection (m), if, before the employee beneficiary's monthly pension benefit begins, an employee beneficiary dies, in the line of duty or other than in the line of duty, death benefits are payable as follows:

- (1) The benefit under subsection (g)(2) is paid in a lump sum to the employee beneficiary's surviving spouse. If there is no surviving spouse, the lump sum must be divided equally among the employee beneficiary's surviving children. If there are no

surviving children, the lump sum is paid to the employee beneficiary's parents. If there are no surviving parents, the lump sum is paid to the employee beneficiary's estate.

(2) A benefit is paid on the DROP frozen benefit under the terms of the county's retirement plan.

(l) A DROP under this section must be designed to be actuarially cost neutral to the county's retirement plan.

(m) This subsection applies if:

(1) an employee beneficiary dies in the line of duty before payment of the employee beneficiary's monthly pension benefit begins; and

(2) the calculation of a death benefit under the provisions of the county's retirement plan depends upon whether an employee beneficiary dies in the line of duty or other than in the line of duty.

Death benefits for an employee beneficiary who dies in the line of duty are calculated under the provisions of the county's retirement plan as if the employee beneficiary had never entered the DROP and shall be adjusted as necessary to ensure compliance with subsection (l).

(1) has not attained vested status in; and

a public retirement fund other than the retirement plan established under this chapter by the department that employs the employee beneficiary, the employee beneficiary may make a transfer described in subsection (d) for the amount in the public retirement fund that is attributable to contributions made by or on behalf of the employee

beneficiary (plus credited earnings).

(d) An employee beneficiary described in subsection (c) may transfer the amount described in subsection (c) to a retirement plan established under this chapter by the department that employs the employee beneficiary in order to purchase service credit in the retirement plan for the employee beneficiary's prior service in a public retirement fund.

(e) A transfer under subsection (d) is irrevocable. A transfer cannot exceed the amount necessary to fund the service purchase under subsection (d). Any amounts in the public retirement fund after the transfer shall remain subject to the public retirement fund's provisions.

(f) If an employee beneficiary makes a transfer under subsection (d), the employee beneficiary is entitled to receive service credit for the transferred amount equal to the service credit that would be purchased by a contribution of the same amount computed at the actuarial present value for an individual whose salary or wages and age would be the same as the salary or wages and age of the employee beneficiary on the transfer date.

(g) Before a transfer is made under this section, the employee beneficiary must complete any forms required by:

may withdraw the transferred amount, plus accumulated interest, from the retirement plan established under this chapter by the department that employs the employee beneficiary after submitting to the retirement plan established under this chapter a properly completed application for a refund. If a withdrawal of the transferred amount occurs under this subsection, the benefit payable to the employee beneficiary from the retirement plan established under this chapter shall be adjusted as necessary to ensure that the plan remains actuarially cost neutral to the county.

(j) The department may deny an application to transfer an amount under this section if the transfer would exceed the limitations under Section 415 of the Internal Revenue Code.

(k) If an employee beneficiary makes a transfer under subsection (d), the employee beneficiary waives all credit for the employee

beneficiary's service in the public retirement fund from which the amount is transferred or paid.

(l) To the extent permitted by the Internal Revenue Code and applicable regulations, a retirement plan established under this chapter may accept, on behalf of an employee beneficiary who is purchasing permissive service credit under this section, a rollover of a distribution from any of the following:

Districts; establishment; authorized purposes

Sec. 4. (a) A county legislative body may establish fire protection districts for any of the following purposes:

- (1) Fire protection, including the capability for extinguishing all fires that might be reasonably expected because of the types of improvements, personal property, and real property within the

boundaries of the district.

(2) Fire prevention, including identification and elimination of all potential and actual sources of fire hazard.

(3) Other purposes or functions related to fire protection and fire prevention.

(b) Any area may be established as a fire protection district, but one (1) part of a district may not be completely separate from another part. A municipality may be included in a district, but only if it consents by ordinance, unless a majority of the freeholders of the municipality have petitioned to be included in the district.

(c) Except as provided in subsection (d), the territory of a district may consist of:

(1) one (1) or more townships and parts of one (1) or more townships in the same county; or

(2) all of the townships in the same county.

The boundaries of a district need not coincide with those of other political subdivisions.

(d) The territory of a district may consist of a municipality that is located in more than one (1) county.

Establishment of district by freeholders; procedure

Sec. 5. (a) Freeholders who desire the establishment of a fire protection district must initiate proceedings by filing a petition in the office of the county auditor of the county where the freeholder's land is located. The petition may also be filed by a municipality under an ordinance adopted by its legislative body in each county where the municipality is located.

(b) The petition must be signed:

(1) by at least twenty percent (20%), with a minimum of five hundred (500), of the freeholders owning land within the proposed district; or

(2) by a majority of those freeholders owning land within the proposed district;

whichever number is less.

(c) This subsection applies to a district that consists of a municipality located in two (2) counties. The petitions filed in each county as set forth in section 5.1 of this chapter shall be considered parts of one (1) petition. The signature requirement of subsection (b) applies to the sum of the signatures on all parts of the petition.

As added by Acts 1981, P.L.309, SEC.63. Amended by P.L.63-1991, SEC.3; P.L.36-2000, SEC.4.

IC 36-8-11-5.1

Multiple county district; establishment of district

Sec. 5.1. (a) This section applies to a district that consists of a municipality located in two (2) counties.

(b) This section does not apply to a merged district under section

23 of this chapter.

(c) Freeholders within the proposed district who desire the establishment of a fire protection district must initiate proceedings by filing a petition to establish the district with the county auditor of the county where the freeholder's land is located. Sections 6 and 7 of this chapter apply to a petition filed under this section. The number of freeholders who signed a petition shall be certified by the county auditor of the county that is the subject of the petition. If a petition is filed in both counties, the county auditor of the secondary county shall forward the petition to the primary county.

(d) The county auditor of the primary county shall present the petition to the legislative body of the primary county at its next regularly scheduled meeting or at a special meeting called for that purpose. Before or at the meeting, the legislative body shall determine whether the petition bears the necessary signatures and complies with requirements as to form and content. The legislative body may not dismiss a petition with the requisite signatures because of alleged defects without permitting amendments to correct errors in form or content.

(e) In determining whether the signers of a petition are freeholders, the names as they appear on the tax duplicates are prima facie evidence of the ownership of land.

(f) If the legislative body of the primary county determines that the petition conforms to the requirements of this chapter, the primary county or the secondary county, or both, may set a date for a public hearing on whether a fire protection district should, as a matter of public policy, be established in the area proposed in the petition. The district is established when both legislative bodies adopt an identical ordinance or resolution establishing the district.

As added by P.L.36-2000, SEC.5.

IC 36-8-11-6

Petitions; signatures of joint owners and corporations; circulation in counterparts

Sec. 6. (a) This section applies to petitions filed under either section 5 or section 9 of this chapter.

(b) If two (2) or more freeholders own the same land in joint title, they may be counted as only one (1) freeholder for the purpose of determining what constitutes twenty percent (20%) or a majority of the freeholders.

(c) A freeholder owning land in joint title may sign the petition and the signature shall be counted. However, if two (2) or more freeholders who own the same land in joint title sign the petition, their combined signatures count only as one (1) signature for the purposes of subsections (a) and (b).

(d) Any officer authorized by the corporation may sign the petition for a private corporation owning land within the proposed district. His signature is prima facie evidence of his authorization.

(e) The petition may be circulated in several counterparts and still be considered a single petition.

- (4) A statement of the necessity and urgency of accomplishing the purposes.
- (5) A statement that the creation of the district will be conducive to the public health, safety, or welfare, including a summary of the advantages to be derived from the creation of the district.

(b) In determining whether the signers of a petition are freeholders, the names as they appear on the tax duplicates are prima facie evidence of the ownership of land.

(c) If the legislative body determines that the petition conforms to the requirements of this chapter, it may set a date for a public hearing on whether a fire protection district should, as a matter of public policy, be established in the area proposed in the petition. A petition against the establishment of the fire protection district must be presented to the legislative body of the primary county at or after a hearing on the petition to establish a district and before the adoption of an ordinance or resolution establishing the district.

(d) If the legislative body of the primary county finds that the petition contains the signatures of fifty-one percent (51%) of the freeholders within the proposed district or of the freeholders who own two-thirds (2/3) of the real property within the proposed district, determined by assessed valuation, the legislative body shall dismiss the petition for the establishment of the district.

If the number of trustees selected by this method is an even number, the legislative body shall appoint one (1) additional trustee so that the number of trustees is always an odd number. If the proceedings are for dissolution of a district to which section 5.1 of this chapter applies, the proceedings may be instituted by the filing of a petition with the primary county or the secondary county, or both.

(b) The petition must be signed:

- (1) by at least twenty percent (20%), with a minimum of five hundred (500), of the freeholders owning land within the district; or
- (2) by a majority of those freeholders owning land within the district;

(e) Except as provided in subsection (f), a petition against the dissolution of the fire protection district may be presented to the county legislative body at or after a hearing on the petition to dissolve a district and before the adoption of an ordinance or resolution dissolving the district. If the legislative body finds that it contains the signatures of fifty-one percent (51%) of the freeholders within the district or of the freeholders who own two-thirds (2/3) of the real property within the district, determined by assessed valuation, the legislative body shall dismiss the petition for the dissolution of the district.

(f) If a district is established under section 5.1 of this chapter, the provisions of section 9.5 of this chapter apply to a petition to dissolve the district.

If the district is established under section 5.1 of this chapter, both legislative bodies of the counties containing the district must adopt ordinances dissolving the district after determining in a public hearing that the district should be dissolved.

(h) A dissolution takes effect three (3) months after the later of the adoption of the ordinance under subsection (g) or the payment of the district's debts and liabilities, including its liabilities under IC 34-13-2 and IC 34-13-3. The property owned by the district after payment of debts and liabilities shall be disposed of in the manner chosen by the county legislative body or county legislative bodies. Dissolution of a district does not affect the validity of any contract to which the district is a party.

(i) A person aggrieved by a decision made by the county legislative body or county legislative bodies under this section may, within thirty (30) days, appeal the decision to the circuit court for any county in which the district is located. The appeal is instituted by giving written notice to each county legislative body within which the district is located and filing with the circuit court clerk a bond in the sum of five hundred dollars (\$500), with surety approved by the legislative body or legislative bodies. The bond must provide that the appeal will be duly prosecuted and that the appellants will pay all costs if the appeal is decided against them. When an appeal is instituted, the county legislative body or county legislative bodies shall file with the circuit court clerk a transcript of all proceedings in the case, together with all papers filed in the case. The county legislative body or county legislative bodies may not take further action in the case until the appeal is heard and determined. Sec. 3. A unit may enter into an agreement with one (1) or more volunteer fire departments that maintain adequate firefighting service for the use and operation of firefighting apparatus and equipment owned by the volunteer fire department, including the service of the operators of the apparatus and equipment, so that the private and public property of the unit is saved from destruction by fire.

Agreements with units; consideration

Sec. 4. The contract between a unit and a volunteer fire department must provide that the unit pay to the department, as consideration for the contract, an amount of money that is determined by negotiation between them. This consideration must include the amounts that the unit is required to pay under this chapter for insurance premiums and clothing, automobile, and other allowances.

- (2) an automobile allowance of not less than one hundred dollars (\$100) per year for the use of the member's automobile in the line of duty.

IC 36-8-12-6

Units required to insure members of department; liability for failure to insure

Sec. 6. (a) Each unit that has a volunteer fire department shall procure insurance in the name of and for the benefit of each member of the department. However, if a contract or agreement exists between a unit and a volunteer fire department, the contract or agreement must provide for insurance of the volunteer firefighters and emergency medical services personnel in the department in the amounts and with the coverages required by this chapter. Unless the contract or agreement stipulates otherwise, all insurance coverage must be under a group plan, rather than in the name of each individual firefighter and member of the emergency medical services personnel. Either the unit or the volunteer fire department, according to the contractor agreement, may undertake procurement of required insurance, but in either case, the costs of coverage must be borne by the unit. If a volunteer fire department serves more than one (1) unit under a contract or agreement, each unit that the department serves shall pay the amount for the insurance coverage determined under the following formula:

STEP ONE: For each census block or other area in a unit that is served by more than one (1) volunteer fire department, divide the population of the area by the number of volunteer fire departments serving the area, and round the quotient to the nearest one thousandth (.001).

STEP TWO: Add the quotients determined under STEP ONE for the unit.

STEP THREE: Determine the sum of the STEP TWO amounts for all of the units served by the same volunteer fire department.

STEP FOUR: Divide the STEP TWO amount for a unit by the

STEP THREE amount and round the quotient to the nearest one thousandth (.001).

STEP FIVE: Multiply the costs of the insurance coverage for the volunteer fire department by the quotient determined under STEP FOUR, rounded to the nearest dollar.

(b) A diminution of insurance benefits may not occur under this section because of a change in the insurance carrier or a change as to who actually procures the required insurance.

(c) Each unit that has a volunteer fire department may procure an insurance policy for the benefit of auxiliary groups whose members could be injured while assisting the volunteer firefighters and emergency medical services personnel in the performance of their duties.

(d) Each unit that has a volunteer fire department may procure an insurance policy or any other type of instrument that provides retirement benefits as an incentive to volunteer firefighters and emergency medical services personnel for continued service.

(e) An insurance policy or other instrument containing any of the provisions authorized by subsection (d) may not be considered in the computation of nominal compensation for purposes of this chapter.

(f) A volunteer firefighter or member of the emergency medical services personnel who becomes covered by an insurance policy or other instrument containing any of the provisions authorized by subsection (d) does not thereby become eligible for membership in the public employees' retirement fund under IC 5-10.3.

(g) If a unit fails to provide the insurance for a volunteer firefighter or member of the emergency medical services personnel that this chapter requires it to provide, and a volunteer firefighter or member of the emergency medical services personnel suffers a loss of the type that the insurance would have covered, then the unit shall pay to that volunteer firefighter or member of the emergency medical services personnel the same amount of money that the insurance would have paid to the volunteer firefighter or member of the emergency medical services personnel.

As added by Acts 1981, P.L.309, SEC.64. Amended by P.L.351-1987, SEC.1; P.L.268-1993, SEC.1; P.L.70-1995, SEC.7; P.L.1-1999, SEC.92; P.L.174-2009, SEC.3.

IC 36-8-12-7

Insurance; disability and medical expense coverage

Sec. 7. Each policy of insurance must provide for payment to a member of a volunteer fire department, for accidental injury or smoke inhalation caused by or occurring in the course of the performance of the duties of a volunteer firefighter or member of the emergency medical services personnel and for a cardiac disease event proximately caused within forty-eight (48) hours by or occurring in the course of the performance of the duties of a volunteer firefighter or member of the emergency medical services personnel while in an emergency situation, as follows:

(1) For total disability that prevents the member from pursuing

the member's usual vocation:

(A) after June 30, 2009, and before July 24, 2009, a weekly indemnity of not less than two hundred sixty-two dollars (\$262); and

(B) after July 23, 2009, a weekly indemnity of not less than two hundred ninety dollars (\$290);

up to a maximum of two hundred sixty (260) weeks. After July 23, 2009, the weekly indemnity may not be less than the Indiana minimum wage computed on the basis of a forty (40) hour week.

(2) For medical expenses, coverage for incurred expenses. However, the policy may not have medical expense limits of less than seventy-five thousand dollars (\$75,000).

As added by Acts 1981, P.L.309, SEC.64. Amended by P.L.367-1983, SEC.1; P.L.348-1985, SEC.1; P.L.229-1996, SEC.3; P.L.1-1999, SEC.93; P.L.192-1999, SEC.2; P.L.174-2009, SEC.4.

IC 36-8-12-8

Insurance; death benefits; permanent disability; liability coverage; limitations on liability

Sec. 8. (a) The policy of insurance required by section 6 of this chapter must provide for the payment of a sum not less than one hundred fifty thousand dollars (\$150,000) to the beneficiary, beneficiaries, or estate of a volunteer firefighter or member of the emergency medical services personnel if the firefighter or member of the emergency medical services personnel dies from an injury or smoke inhalation occurring while in the performance of the firefighter's or member of the emergency medical services personnel's duties as a volunteer firefighter or member of the emergency medical services personnel or from a cardiac disease event proximately caused within forty-eight (48) hours by or occurring while in the performance of the firefighter's or member of the emergency medical services personnel's duties as a volunteer firefighter or member of the emergency medical services personnel.

(b) The policy of insurance must provide for the payment of a sum not less than one hundred fifty thousand dollars (\$150,000) to the volunteer firefighter or member of the emergency medical services personnel if the firefighter or member of the emergency medical services personnel becomes totally and permanently disabled for a continuous period of not less than two hundred sixty (260) weeks as a result of an injury or smoke inhalation occurring in the performance of the firefighter's or member of the emergency medical services personnel's duties as a volunteer firefighter or member of the emergency medical services personnel.

(c) The policy of insurance must also provide for indemnification to a member of a volunteer fire department who becomes partially and permanently disabled or impaired as a result of an injury or smoke inhalation occurring in the performance of the firefighter's or member of the emergency medical services personnel's duties.

(d) For the purposes of this section, partial and permanent

disability or impairment shall be indemnified as a percentage factor of a whole person.

(e) In addition to other insurance provided volunteer firefighters or emergency medical services personnel under this chapter, each unit shall be covered by an insurance policy that provides a minimum of three hundred thousand dollars (\$300,000) of insurance coverage for the liability of all of the unit's volunteer firefighters or emergency medical services personnel for bodily injury or property damage caused by the firefighters or emergency medical services personnel acting in the scope of their duties while on the scene of a fire or other emergency. The civil liability of a volunteer firefighter or member of the emergency medical services personnel for:

- (1) an act that is within the scope of a volunteer firefighter's duties; or
- (2) the failure to do an act that is within the scope of a volunteer firefighter's duties;

while performing emergency services at the scene of a fire or other emergency or while traveling in an emergency vehicle from the fire station to the scene of the fire or emergency or from the scene of a fire or emergency back to the fire station is limited to the coverage provided by the insurance policy purchased under this subsection. A volunteer firefighter or member of the emergency medical services personnel is not liable for punitive damages for any act that is within the scope of a volunteer firefighter's or member of the emergency medical services personnel's duties. However, if insurance as required under this subsection is not in effect to provide liability coverage for a volunteer firefighter or member of the emergency medical services personnel, the firefighter or member of the emergency medical services personnel is not subject to civil liability for an act or a failure to act as described in this subsection.

As added by Acts 1981, P.L.309, SEC.64. Amended by P.L.367-1983, SEC.2; P.L.204-1984, SEC.1; P.L.200-1986, SEC.2; P.L.217-1989, SEC.7; P.L.172-1990, SEC.1; P.L.268-1993, SEC.2; P.L.1-1999, SEC.94; P.L.192-1999, SEC.3; P.L.174-2009, SEC.5.

must submit a report to the legislative body of the political subdivision before April 1 of each year indicating the amount of false alarm charges collected during the previous calendar year and how those funds have been expended.

A person may also donate partial payment of any purchase of firefighting or other emergency services equipment made by the township.

(d) If a fire department serving a township dispatches fire apparatus or personnel to a building or premises in the township in response to:

- (1) an alarm caused by improper installation or improper maintenance; or
- (2) a drill or test, if the fire department is not previously notified that the alarm is a drill or test;

the township may impose a fee or service charge upon the owner of the property. However, if the owner of property that constitutes the owner's residence establishes that the alarm is under a maintenance contract with an alarm company and that the alarm company has been notified of the improper installation or maintenance of the alarm, the alarm company is liable for the payment of the fee or service charge.

(e) The amount of a fee or service charge imposed under subsection (d) shall be determined by the township legislative body. All money received by the township from the fee or service charge must be deposited in the township's firefighting fund.

(a) For townships and municipalities that elect to have the township provide fire protection and emergency services under section 3(b) of this chapter, the department of local government finance shall adjust each township's and each municipality's maximum permissible levy in the year following the year in which the change is elected, as determined under IC 6-1.1-18.5-3, to reflect the change from providing fire protection under a contract between the municipality and the township to allowing the township to impose a property tax levy on the taxable property located within the corporate boundaries of each municipality. Each municipality's maximum permissible property tax levy shall be reduced by the amount of the municipality's property tax levy that was imposed by the municipality to meet the obligations to the township under the fire protection contract. The township's maximum permissible property tax levy shall be increased by the product of:

- (1) one and five-hundredths (1.05); multiplied by
- (2) the amount the township received:
 - (A) in the year in which the change is elected; and
 - (B) as fire protection contract payments from all municipalities whose levy is decreased under this section.

(b) For purposes of determining a township's or municipality's maximum permissible ad valorem property tax levy under IC 6-1.1-18.5-3 for years following the first year after the year in which the change is elected, a township's or municipality's maximum permissible ad valorem property tax levy is the levy after the adjustment made under subsection (a).

Township providing fire protection and emergency services; maximum permissible property tax levy

Sec. 4.7. (a) For a township that elects to have the township provide fire protection and emergency services under section 3(c) of this chapter, the department of local government finance shall adjust the township's maximum permissible levy in the year following the year in which the change is elected, as determined under IC 6-1.1-18.5-3, to reflect the change from providing fire protection or emergency services under a contract between the municipality and the township to allowing the township to impose a property tax levy on the taxable property located within the corporate boundaries of each municipality. For the ensuing calendar year, the township's maximum permissible property tax levy shall be increased by the product of:

- (1) one and five-hundredths (1.05); multiplied by
- (2) the amount the township contracted or billed to receive, regardless of whether the amount was collected:
 - (A) in the year in which the change is elected; and
 - (B) as fire protection or emergency service payments from the municipalities or residents of the municipalities covered by the election under section 3(c) of this chapter.

The maximum permissible levy for a general fund or other fund of a municipality covered by the election under section 3(c) of this chapter shall be reduced for the ensuing calendar year to reflect the change to allowing the township to impose a property tax levy on the taxable property located within the corporate boundaries of the municipality. The total reduction in the maximum permissible levies for all electing municipalities must equal the amount that the maximum permissible levy for the township is increased under this subsection for contracts or billings, regardless of whether the amount was collected, less the amount actually paid from sources other than property tax revenue.

(b) For purposes of determining a township's and each municipality's maximum permissible ad valorem property tax levy under IC 6-1.1-18.5-3 for years following the first year after the year in which the change is elected, a township's and each municipality's maximum permissible ad valorem property tax levy is the levy after the adjustment made under subsection (a).

(c) The township may use the amount of a maximum permissible property tax levy computed under this section in setting budgets and property tax levies for any year in which the election in section 3(c) of this chapter is in effect. A county board of tax adjustment may not reduce a budget or tax levy solely because the budget or levy is based on the maximum permissible property tax levy computed under this section.

(d) Section 4.6 of this chapter does not apply to a property tax levy or a maximum property tax levy subject to this section.

(b) A bidder proposing to sell on a conditional sale or mortgage contract shall state in his bid the proposed interest rate and terms of it, to be considered by the township executive and legislative body in determining the best bid received.

(c) All bids submitted must specify the cash price at which the bidder proposes to sell the apparatus or equipment to the township so that the executive and legislative body may determine whether it is in the best interest of the township to purchase the apparatus or equipment on the terms of a conditional sale or mortgage contract proposed by the bidder or to purchase it for cash if sufficient funds

The expenses to be covered in the amount of the bond issue include all expenses of every kind actually incurred preliminary to the acquisition of property and the installation of the facilities, such as the cost of necessary records, engineering expenses, publication of notices, salaries, the letting of contracts, and the sale of bonds.

(c) The bonds issued may not exceed the estimates for the project as determined in the resolution adopted by the board under section 12 of this chapter.

(d) Any surplus of bond proceeds remaining after all costs and expenses have been fully paid shall be paid into the public communications systems and computer facilities district bond fund. The board may appropriate the proceeds of the bonds.

IC 36-8-15-15.1

Lease of facilities; financing; hearings; notice; objections

Sec. 15.1. (a) A board may enter into a lease of any facility that may be financed with the proceeds of bonds issued under this chapter with a lessor for a term not to exceed fifty (50) years. The lease may provide for payments to be made by the board from special benefits taxes levied under section 14 of this chapter and any other revenue available to the board, or any combination of these sources.

(b) A lease may provide that payments by the board to the lessor are required only to the extent and only for the period that the lessor is able to provide the leased facilities in accordance with the lease. The terms of each lease must be based upon the value of the facilities leased and may not create a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(c) A lease may be entered into by the board only after a public hearing by the board at which all interested parties are given the opportunity to be heard. Notice of the hearing must be given by publication in accordance with IC 5-3-1. After the public hearing, the board may adopt a resolution authorizing the execution of the lease on behalf of the unit if the board finds that the service to be provided throughout the term of the lease will serve the public purpose of the unit and is in the best interests of the unit's residents. A lease approved by a resolution of the board must be approved by an ordinance of the fiscal body of the unit.

(d) Upon execution of a lease providing for payments by the board in whole or in part from the levy of special benefits taxes under section 14 of this chapter and upon approval of the lease by the fiscal body, the board shall publish notice of the execution of the lease and its approval in accordance with IC 5-3-1. Fifty (50) or more taxpayers residing in the district who will be affected by the lease and who may be of the opinion that no necessity exists for the execution of the lease or that the payments provided for in the lease are not fair and reasonable may file a petition in the office of the county auditor within thirty (30) days after the publication of the notice of execution and approval. The petition must set forth the petitioners' names, addresses, and objections to the lease and the facts showing that the execution of the lease is unnecessary or unwise or that the payments provided for in the lease are not fair and reasonable, as the case may be. Upon the filing of the petition, the county auditor shall immediately certify a copy of it, together with any other data necessary in order to present the questions involved, to the department of local government finance. Upon receipt of the certified petition and information, the department of local government finance shall fix a time and place for the hearing in the district, which must be not less than five (5) or more than thirty (30) days after the time of the hearing is fixed. Notice of the hearing shall be given by the department of local government finance to the members of the fiscal body, the board, and the first fifty (50) petitioners on the petition by a letter signed by the commissioner or deputy commissioner of the department and enclosed with fully prepaid postage sent to those persons at their usual place of residence, at least five (5) days before the date of the hearing. The decision of the department of local government finance on the appeal, upon the necessity for the execution of the lease and as to whether the payments under it are fair and reasonable, is final.

(e) A board entering into a lease that is payable from revenues or other available funds of the board may:

(1) pledge the revenue to make payments under the lease as provided in IC 5-1-14-4; and

(2) establish a special fund to make the payments.

Lease rentals may be limited to money in the special fund so that the obligations of the board to make the lease rental payments are not considered a debt of the unit or the district for purposes of the Constitution of the State of Indiana.

(f) Except as provided in this section, no approvals of a governmental body or an agency are required before the board enters into a lease under this section.

(g) An action to contest the validity of the lease or to enjoin the performance of any of its terms and conditions must be brought within thirty (30) days after the publication of the notice of the execution and approval of the lease. However, if the lease is payable in whole or in part from tax levies and an appeal has been taken to the department of local government finance, an action to contest the validity or to enjoin performance must be brought within thirty (30)

days after the decision of the department.

(h) If a board exercises an option to buy a leased facility from a lessor, the board may subsequently sell the leased facility, without regard to any other statutes, to the lessor at the end of the lease term at a price set forth in the lease or at fair market value established at the time of the sale by the board through an auction, appraisal, or arms length negotiation. The board shall conduct a hearing after public notice in accordance with IC 5-3-1 before the sale. An action to contest the sale must be brought within fifteen (15) days after the hearing.

All bonds or obligations issued in violation of this subsection are void.

The bonds and interest on them are payable only out of revenues of the district. Bonds must recite these terms upon their face.
